University of Phoenix does not provide on-campus room and board or off-campus housing assistance at any of its locations. Estimated cost for Room/Board/Transportation for one academic year is $12,850. The University Tuition and Charges shown on this Disclosure Form are based on the date you receive this form. The University reserves the right to adjust tuition and fees.

GRADUATION RATE:

400% of students attending this program graduated during the last two calendar years for which data is available.

940 CMR 31.03 defines graduation rate as the number of students who received certificates, diplomas, or degrees in the program during the latest two calendar years, divided by the number of students who enrolled in the program during the latest two calendar years. This required definition may result in a graduation rate greater than 100% when the number of students who enrolled in the program during the time period is lower than the number of students receiving certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. Similarly, the required definition may result in other disproportionately high graduation rates in the event that the number of students who enroll during the time period is less than the total number of students in the program who are eligible to receive certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. Alternatively, the required definition may result in disproportionately low graduation rates in the event that the number of students who enroll during the time period exceeds the total number of students in the program who are eligible to receive certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. A Graduation Rate of “N/A” indicates that there were no students who received certificates, diplomas, or degrees in the program during the latest two calendar years and no students who enrolled in the program during the latest two calendar years.

GRADUATION TIME:

The average student attending this program graduates in 31 months.

940 CMR 31.03 defines graduation time as the median duration of attendance in months, rounded to the nearest month, of all students who obtained a certificate, diploma, or degree from a program during the last two calendar years. A Graduation Time of “N/A” indicates that there were no students who obtained a certificate, diploma, or degree from a program during the last two calendar years.

YOUR LOAN DEBT:

You must repay money that you borrow as student loans to pay for this program, including interest. You must repay any portion of the money you borrow to pay for this program, even if you fail to complete or drop out of the program. Failure to repay student loans is likely to have a serious negative effect on your credit, future earnings, and your ability to obtain future student loans.

55.3% of University of Phoenix students defaulted on, or failed to repay, their loans during the period October 1 2010 and September 30 2013.

The “Loan Nonpayment Percentage” stated above is defined in 940 CMR 31.03 as the sum of: (1) the most recent federal cohort default rate; (2) the percentage of students within the cohort whose
Stafford loans, at the time the most recent cohort default rate was calculated, were in deferment or forbearance; and (3) the percentage of student borrowers in the cohort who defaulted under the terms of institutional loans during the cohort default period.

University of Phoenix official federal cohort default rate for the period above is 19.1%. The percentage of University of Phoenix borrowers who had at least one of their federal loans in deferment or forbearance is 36.2%. Deferment and forbearance are not default, but a postponement of payment, usually due to a return to a post-secondary institution for further education or an economic hardship. University of Phoenix does not offer institutional loans to its students.

**PLACEMENT RATES:**

- **Graduate Placement Rate:** 75% of graduates during 2013-2014 obtained full-time, non-temporary jobs in their field of study.
- **Total Placement Rate:** 300% of students that enrolled in the program 2013-2014 obtained full-time, non-temporary jobs in their field of study.

Employment statistics substantiating these placement rates are available for inspection on request. The University of Phoenix official federal cohort default rate for the period above is 19.1%. The percentage of University of Phoenix borrowers who had at least one of their federal loans in deferment or forbearance is 36.2%. Deferment and forbearance are not default, but a postponement of payment, usually due to a return to a post-secondary institution for further education or an economic hardship. University of Phoenix does not offer institutional loans to its students.

For purposes of computing the graduate placement rate, only graduates who affirmatively responded to the survey and indicated that they obtained full-time (at least 32 hours per week), non-temporary employment in the field of study are counted as employed.

A Graduate Placement Rate and Total Placement Rate of “NA” indicates that a program had no graduates in 2013 or 2014. A Total Placement Rate of “NULL” indicates that the graduation rate, as computed based on the definition of graduation rate found in 940 CMR 31.03, was “100+”%.

940 CMR 31.03 defines “Graduate Placement Rate” as the number of students obtaining full time (at least 32 hours per week) and non-temporary employment in the field of study during the latest two calendar years for which the school has obtained verification, divided by the number of all students graduating from the program during the latest two calendar years.

“Employment in the Field of Study” is defined as employment in the job specified in the name of the program or certificate, diploma, or degree conferred by a school upon graduation from the program, or the reasonable equivalent thereof, such as those set forth in the “Sample of reported job titles” and “Related Occupations” listed in the Summary Report for each Standard Occupational Classification (SOC) code obtained by entering the program’s Classification of Instructional Program (CIP) code on O*NET crosswalk, http://onetonline.org/crosswalk/CIP. The “reasonable equivalent” does not include a job for which: (a) training in the program is not required; and (b) the entry level salary is less than 80% of the entry level salary of the job specified in the name of the program.

Total Placement Rate is defined as the product of the graduate placement rate and the graduation rate. This required definition may result in a total placement rate greater than 100% when the graduation rate, based on the definition in 940 CMR 31.03 is greater than 100%.
