Transfer to University of Phoenix is most efficient when an associate degree is earned – especially a transfer degree.

- **with an associate degree** – vocational or transfer – up to 72 credits will transfer and apply to the Bachelor degree;
- **without an associate degree**, all courses transfer which are…
  - college-level (numbered 100 and above)
  - and earned with a grade of C- or better

**NOTE:** Depending on the University of Phoenix major, up to 60-72 of these credits will transfer to the bachelor program. Students need to satisfy UOPHX general education requirements for a bachelor degree, which may exceed 120 semester credits.
