Implement technologies that revolutionize the way students learn

Learn to lead the delivery of education to students all over the world. The Doctor of Education in Educational Leadership with a specialization in Educational Technology can help you expand your knowledge of, and practice the strategies necessary to implement educational technologies in a variety of educational settings.

Contact a School of Advanced Studies enrollment representative to discuss how you can learn to manage and lead the integration of technology in your school, college and community.

Please note that while University of Phoenix, a regionally accredited university, offers doctoral programs in education, these programs are not designed to lead to educational licensure or certification.

This online program requires brief residencies in select locations. This program is not available to residents of all states. Please contact a University Enrollment Representative for details.

Objectives

The mission of the Doctor of Education in Educational Leadership degree program is to prepare students and professionals to become effective leaders who value diversity and academic integrity and have the competencies essential for shaping the future within complex educational environments. The program promotes a commitment to fostering innovation, collaboration, scholarship, and service. Throughout the program students will be educated in the concepts, knowledge and skills necessary to make valuable contributions to the field of education and society.
Requirements and Prerequisites

You will need 62 credits to complete this program, which may be earned from a combination of required and elected courses. However, required courses may vary based on previous experience, training or transferable credits.

Make an informed choice

We believe that students and families should be prepared financially for college and understand gainful employment opportunities before starting any program. So we want to ensure you have the information you need to make an informed choice - information like what it will cost, the skills you'll learn through your chosen program, and the types of occupations the program prepares you for. For important information about the educational debt, earnings, and completion rates of students who attended this program:
