An industry as diverse as healthcare needs people who understand the different facets of a healthcare business environment. With our Bachelor of Science in Health Administration (BSHA) you can learn the knowledge and skills — like communications, finance, regulations, technologies and ethics — needed to keep things running smoothly and address challenges in stride.

Our curriculum is designed to align with leading industry and academic organizations like the American College of Healthcare Executives (ACHE) and Association of University Programs in Health Administration (AUPHA) and will provide you with the foundational knowledge needed to help others in today’s dynamic healthcare industry. Completing the program will give you the opportunity to pursue a focus that interests you and can help you expand your career opportunities.

Since our BSHA has met the Healthcare Information and Management System Society’s (HIMSS) rigorous standards for quality health IT or healthcare education, we’ve been named an Approved Education Partner (AEP) of HIMSS. This allows us to offer HIMSS-approved review courses and education programs that prepare you for advanced knowledge in health IT or healthcare.

We’ve also joined the HIMSS Academic Organizational Affiliate (AOA) program, which means we can offer our eligible healthcare and health IT students a complimentary HIMSS individual membership. The membership connects students with networking opportunities, career services, professional development opportunities and much more.

You want to enter the healthcare industry. Explore the offerings and information below to see how our BSHA program can help.

  Earn your degree online or on-campus through one five-week course at a time.

- **Customize Your Degree**
  Further specialize your degree with a certificate in Long-Term Care or elective tracks in areas that interest you.

- **Faculty**
  Learn from instructors who an average of 21 years of experience working in the healthcare field.

Objectives

The Bachelor of Science in Health Administration (BSHA) Program is designed to integrate a framework of general education courses with a health care curriculum that prepares the graduate with the foundational knowledge needed to enter today's challenging health industry. The BSHA curriculum addresses the basic body of knowledge, understanding, and skills identified as relevant to an ever expanding and diverse health care arena. Coursework includes content in some of the following areas—management, finance, legal and ethical parameters, risk and quality management, human resources, and information systems. Upon completion of the core curriculum health care students have the opportunity to select an area of focus that is designed to expand their professional opportunities.

Requirements and Prerequisites

You will need **120** credits to complete this program, which may be earned from a combination of required and elected courses. However, required courses may vary based on previous experience, training or transferable credits. View general requirements.

ACHE is a registered trademark of the American College of Healthcare Executives.

AUPHA is a registered trademark of the Association of University Programs in Health Administration.
