You’re seeking the best strategies to enhance your student learning, and you’re looking for a degree that is aligned to national education standards to help you achieve that goal.

With our Master of Arts in Education/Curriculum and Instruction (MAEd/CI), you’ll learn from a curriculum that is designed to help you find those strategies. Be ready for opportunities at your school with a graduate level degree program that prepares you for navigating the shifting landscape of education through coursework that is not only aligned to national standards, but also employs practical application with valuable student support. You’ll learn how to integrate technology into your lessons, enhance instructional strategies and leverage your skills to infuse critical thinking into instructional practice.

Become more than just an educator, become a leader in the field through your passion for enhancing student experiences through curriculum and instruction.

Objectives

The Master of Arts in Education program with a specialization in Curriculum and Instruction is intended to afford P-12 educators the opportunity to enhance their curriculum, instruction, and leadership repertoire by expanding their knowledge of assessment, instructional strategies, integration of technology, professional development, data-driven decision making, and mentoring and coaching. Educators will develop teacher leadership skills by exploring the latest research, trends, and strategies. Graduates will be able to effectively collaborate with all stakeholders and serve their students, colleagues, and communities as ethical leaders committed to excellence.

The Master of Arts in Education/Curriculum and Instruction is a graduate degree program intended to provide educators with advanced knowledge and skills in curriculum and instruction. The MAED/CI does not prepare students for any type of professional certification or state licensure as a teacher. The program is only intended as an advanced degree.

Requirements and Prerequisites

You'll need 35 credits to complete this program, which may be earned from a combination of required and elected courses. However, required courses may vary based on previous experience, training or transferable credits.
