“As we move to meet the educational needs of working adults in a mobile society, our conception of the university must extend beyond place and embrace process. An adult university cannot be campus bound, rather its borders must be defined by the lives of its students.”

Dr. John G. Sperling
Founder

Annual Security Report Notice

The University of Phoenix annual security report includes statistics for the previous three years concerning reported Clery Act crimes that occurred on campus, in certain off-campus buildings or property owned or controlled by the University, and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes information on the sex offender registry, institutional policies and programs concerning alcohol and other drugs, crime prevention measures, the reporting of crimes, sexual assault, domestic violence, dating violence, stalking and other related matters. The annual security report is available at https://www.phoenix.edu/about_us/campus-safety.html. If you'd like a paper copy of the report, please contact a Campus Safety Coordinator to request one.
ADDENDUM - SUMMARY OF POLICY UPDATES ADDED TO THE CATALOG ON NOVEMBER 1, 2022

GENERAL POLICY UPDATES

- The Student Demographics, Metrics, and Outcomes and Filing a Complaint sections were updated. (see CONSUMER INFORMATION)
- The Academic Calendars section was added. (see THE UNIVERSITY'S TEACHING AND LEARNING MODEL)

PROGRAM POLICY UPDATES

- The General Education Requirements section for the BSLS (California) was updated. (see UNDERGRADUATE PROGRAMS - COLLEGE OF EDUCATION)
- The Program Student Learning Outcomes for the CERT/D-CI, CERT/D-EL, CERT/G-ACC, and CERT/SCPL were updated. (see PROFESSIONAL PROGRAMS)

Beginnings -- A Brief History

In 1976, the leading edge of the Baby Boom generation was just turning 30. That same year saw the introduction of the first personal computer, the Apple I – an event that signaled the birth of a new economic system in which intellectual capital would eventually supplant industrial might as the dominant economic force. These milestones marked the beginning of a sea of change in higher education, though many (perhaps even most) within that system did not recognize it at the time.

Considered together, these phenomena suggested that the jobs that would make up the workforce of the future were only just beginning to be created or imagined. In order to fill those jobs, the bulk of the new workforce would require higher-level knowledge and skills than those needed in a manufacturing economy. At the same time, the largest-ever age cohort of the population, adult learners, would be going through the stages of life during which they would be most affected by the coming economic dislocation and would need advanced education to adapt to these changes.

It was in this historical context in 1976 that Dr. John Sperling, a Cambridge-educated economist and professor-turned-entrepreneur, founded University of Phoenix. Sperling anticipated the confluence of technological, economic, and demographic forces that would in a very short time herald the return of ever larger numbers of adult learners to formal higher education.

In the early 1970s, at San Jose State University in San Jose, California, Sperling and several associates conducted field-based research in adult education. The focus of the research was to explore teaching/learning systems for the delivery of educational programs and services to adult learners who wished to complete or further their education in ways that complemented both their experience and current professional responsibilities. At that time colleges and universities were organized primarily around serving the needs of the 18-22 year-old undergraduate student. That is not all that surprising, given that the large majority of those enrolled were residential students of traditional college age, just out of high school. According to Sperling adult learners were invisible on the traditional campus and were treated as second-class citizens.

Other than holding classes at night (and many universities did not even do this), no efforts were made to accommodate their needs. No university offices or bookstores were open at night. Students had to leave work during the day to enroll, register for classes, buy books or consult with their instructors and advisors. Classes were held two or three nights per week and parking was at the periphery of a large campus. The consequence, according to Dr. Sperling was that most adult learners were unable to finish a four-year program in less than eight years, or a two-year program in less than four years (Tucker, 1996, p. 5).

Sperling’s research convinced him not only that these underserved learners were interested in furthering their educational goals, but also that this group differed from their more traditional counterparts in significant ways. He saw a growing need for institutions that were sensitive to and designed around the learning characteristics and life situations of a different kind of learner population. He suggested ways for institutions to pioneer new approaches to curricular and program design, teaching methods, and student services. These beliefs eventually resulted in the creation of University of Phoenix, and they continue to this day to inspire the University’s mission, purpose, and strategies. As an institution, University of Phoenix is unique in its single-minded commitment to the educational needs of non-traditional students. In fact, the majority (74 percent) of all college enrollees have at least one “non-traditional” characteristic, like having one or more dependents or is employed full-time. This focus informs the University’s teaching and learning model approach to designing and providing student services, and academic and administrative structure. It also guides the institution as it plans and prepares to meet the needs of the next generation of learners.

Over the past 44 years, the University of Phoenix has been cause-driven, working to build an institution with the agility to address directly the shifting economic and academic challenges that many students face. Dr. Sperling’s predictions concerning the innovations higher education would be required to make have come to pass. Today, roughly 80 percent of part-time undergraduate students and 43 percent of full-time undergraduate students are employed, and approximately one quarter of all students have dependent children. The educational tenets set forth by Dr. Sperling in 1976 now apply to the majority of college students in the United States.

Official School Colors

University of Phoenix Official School Colors are University of Phoenix Red and University of Phoenix Platinum. These are custom colors and proprietary to the University.

Ownership Information

University of Phoenix, Inc. is a wholly-owned subsidiary of Apollo Education Group, Inc. (“the Parent”). The Parent’s stock is wholly-owned by AP VIII Queso Holdings, L.P., which is owned by Apollo Global Management, LLC and The Vistria Group, LLC. The University’s central administration is located in Phoenix, Arizona.

Our Mission Statement

University of Phoenix provides access to higher education opportunities that enable students to develop knowledge and skills necessary to achieve their professional goals, improve the performance of their organizations, and provide leadership and service to their communities.

Our Purpose

- To facilitate cognitive and affective student learning-knowledge, skills, and values- and to promote use of that knowledge in the student’s workplace.
- To develop competence in communication, critical thinking, collaboration, and information utilization, together with a commitment to lifelong learning for enhancement of students’ opportunities for career success.
- To provide instruction that bridges the gap between theory and practice through faculty members who bring to their classroom not only advanced academic preparation, but also the skills that come from the current practice of their professions.
• To provide General Education and foundational instruction and services that prepare students to engage in a variety of university curricula.
• To use technology to create effective modes and means of instruction that expand access to learning resources and that enhance collaboration and communication for improved student learning.
• To assess student learning and use assessment data to improve the teaching/learning system, curriculum, instruction, learning resources, counseling, and student services.
• To be organized as a private institution in order to foster a spirit of innovation that focuses on providing academic quality, service, excellence, and convenience to the working student.
• To generate the financial resources necessary to support the University’s mission.

Accreditation and Affiliations

Institutional Accreditation
University of Phoenix is accredited by The Higher Learning Commission (http://hlcommission.org).

Program Accreditation

College of Business and Information Technology and Business Programs
The Accreditation Council for Business Schools and Programs (ACBSP) has accredited the following programs in the College of Business and Information Technology:
• Associate of Arts with a concentration in Accounting Fundamentals*
• Associate of Arts with a concentration in Business Fundamentals
• Bachelor of Science in Accounting
• Bachelor of Science in Business
• Master of Business Administration
• Master of Management
• Master of Science in Accountancy*
• Doctor of Business Administration
• Doctor of Management

*These programs are not available for new enrollment.

For additional information, visit acbsp.org.

Accreditation Council for Business Schools and Programs
11520 West 119th Street
Overland Park, KS 66213

College of Social and Behavioral Sciences Social Work Program

Social Work Accreditation
University of Phoenix’s Bachelor of Science in Social Work Program is accredited by the Council on Social Work Education’s Commission on Accreditation.

Accreditation of a baccalaureate or master’s social work program by the Council on Social Work Education’s Commission on Accreditation indicates that it meets or exceeds criteria for the assessment of program quality evaluated through a peer review process. An accredited program has sufficient resources to meet its mission and goals and the Commission on Accreditation has verified that it demonstrates compliance with all sections of the Educational Policy and Accreditation Standards.

Accreditation applies to all program sites and program delivery methods of an accredited program. Accreditation provides reasonable assurance about the quality of the program and the competence of students graduating from the program.

For more information about social work accreditation, you may contact Accreditation.
https://www.cswe.org/accreditation/info/contact-accreditation-staff/

College of Education and Education Programs

The educator preparation programs offered at the Utah Campus are accredited by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting agency administered by the Council for the Accreditation of Educator Preparation (CAEP).

The following initial teacher preparation and advanced preparation programs* (Utah-specific) are accredited:
• Bachelor of Science in Education/Elementary Education
• Master of Arts in Education/Elementary Education
• Master of Arts in Education/Secondary Education
• Master of Arts in Education/Special Education
• Master of Arts in Education/Administration and Supervision
• Master of Science in Counseling/School Counseling

*These programs are not available for new enrollment.

For additional information, visit caepnet.org.

Council for the Accreditation of Educator Preparation
1140 19th St NW, Suite 400
Washington, DC 20036

In addition, educator/principal preparation programs have been reviewed and approved by Arizona Department of Education. The California specific programs (BSLS, MAED-TED, and CTEL) have been reviewed and approved by the California Commission on Teacher Credentialing (CCTC). Individual program offerings vary by state.

Additionally, the Graduate Initial Teacher Certificate programs (CERT/G-ELM, CERT/G-SEC, and CERT/G-SPE) have been reviewed and approved by the North Carolina Department of Public Instruction (NCDPI).
Academic Programs, Facilities and Instructional Personnel Information

Academic program offerings and instructional facilities vary according to geographic area and delivery mode at the local campus or online modality. Not all programs are available at all locations.

College of Social and Behavioral Sciences and Counseling Programs
The Master of Science in Counseling program in Clinical Mental Health Counseling at the Arizona Campus is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). For additional information, visit cacrep.org.

Council for Accreditation of Counseling and Related Educational Programs
1001 North Fairfax Street, Suite 510
Alexandria, VA 22314
(703) 535-5990

The Master of Science in Counseling/School Counseling at Utah Campus program is accredited by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting body. Following a merger of accreditors, NCATE accreditation is administered by the Council for the Accreditation of Educator Preparation (CAEP). For additional information, please visit caepnet.org.

Council for the Accreditation of Educator Preparation
1140 19th St NW, Suite 400
Washington, DC 20036

Affiliations
The University also maintains voluntary memberships with numerous educational organizations, including the American Council on Education®, the Council for Higher Education Accreditation®, the Consortium for the Advancement of Adult Higher Education, EDUCAUSE, the National Association of Veterans Program Administrators, the Online Learning Consortium®, the University Professional and Continuing Education Association®, the Western Interstate Commission for Higher Education Cooperative for Educational Technologies, the International Leadership Association, the Arizona Technology Council, the Project Management Institute, Society for Human Resource Management®, the American Association of Colleges for Teacher Education, the Association for Advancing Quality in Educator Preparation, the National Association of State Directors of Teacher Education and Certification, the American College of Healthcare Executives Higher Education Network, the Association of University Programs in Health Administration, the American Association of Colleges of Nursing, the California Association of Colleges of Nursing, the National Education Progression in Nursing Collaborative, the National Organization of Nurse Practitioner Faculties, the Academy of Criminal Justice Sciences, the Center for Credentialing and Education® the National Board for Certified Counselors® and the Network of Schools of Public Policy, Affairs, and Administration. Additionally, the University maintains memberships in various professional, program specific organizations.

Academic Programs
University of Phoenix offers undergraduate and graduate programs in business and management, information systems and technology, security, criminal justice, nursing and health services administration, social sciences, humanities and sciences, and education. Detailed information regarding academic programs offered at specific instructional facilities is located at http://www.phoenix.edu/programs/degree-programs.html and the appropriate Academic Catalog at http://www.phoenix.edu/programs/degree-programs/academic-catalog.html. Admissions and program requirements vary by state. Please refer to the Academic Catalog for state and/or program-specific information.

Academic Program Improvement
University of Phoenix pursues a strategy of continuous improvement in relation to its academic programs. This strategy is implemented through assessment processes designed to measure student learning at various levels within the University. Multiple direct and indirect outcomes-based assessment and evaluation measures are utilized to create as comprehensive a picture as possible of the strengths and potential challenges to student learning. Resulting data is used to evaluate and improve academic programs and enhance the overall academic experience.

For University of Phoenix, the purpose of outcomes-based assessment of student learning is to generate information to the students, faculty, program, college and school, and University about the efficacy of its curricula and educational practices in enabling students to achieve exit-level expectations at the course, program and institutional levels. Assessment answers the question: How well are University of Phoenix students meeting the general education, programmatic and institutional learning outcomes underscored by the University’s mission? Its findings inform opportunities for curricular and pedagogical improvement, decision-making processes for policy consideration and resource allocation, and accountability.

The process for outcomes-based assessment of student learning uses the Plan, Do, Check, Act model of continuous improvement. By utilizing this model to guide assessment processes, the colleges design programs with clear measurable outcomes aligned to specific job skills based on employment data and scaffolds learning so students have sufficient opportunities to demonstrate the outcomes; systematically gather evidence of student learning through data analytics and qualitative feedback; analyze and interpret assessment learning results using insights from faculty; and use assessment findings to improve student learning.

Academic Programs
Undergraduate and graduate programs at University of Phoenix are offered in arts and sciences, business and management, communications, criminal justice and security, education, health administration, human services, nursing, psychology, and technology. Undergraduate students are required to complete general education requirements that are distributed across traditional liberal arts categories and interdisciplinary components. General Education requirements are described in greater detail in the Undergraduate Programs section of the catalog.
University Program Lifecycle

The University Program Lifecycle (UPL) process is the systematic approach to building, maintaining, and managing the institution’s academic program portfolio. The UPL process includes regular review and examination of existing programs, courses, outcomes, skills, faculty, and student feedback to identify opportunities for improvement. All academic programs are required to be developed, maintained, and retired through this process.

The UPL process consists of three key phases:

- **Program Build:** This phase includes research to determine the viability of a program idea or an update to a currently offered program. This phase focuses on internal review, development of curriculum, internal governance reviews, external inputs and approvals, and cross-function collaboration on cycled releases.

- **Program Health:** This phase includes an examination of existing programs, courses, outcomes, skills, faculty, alumni, employers, and student feedback to identify opportunities for improvement. There are two possible outcomes based on this examination:
  - Maintain Program: The program continues as-is, or with limited revisions to the current version.
  - Revise Program: A comprehensive revision of the program, resulting in a new version.

- **Retire Program:** The program version will no longer be available for new student enrollment but will continue to be supported for students currently enrolled in that program version and who are within their program completion deadline.

- **Expire Program:** A retired program version is eventually expired when all students who started the program version within one year of signing an Enrollment Agreement have either completed the program or are not able to complete within their program completion deadline. Students may not re-enter an expired program version.

University Library

**The University of Phoenix Approach to Library Services**

The University of Phoenix Library uses current information technology to provide relevant and timely information in support of the learning process. The library users are “knowledge workers” and busy working adults who need to develop the ability to access and utilize digital information. The online distribution of scholarly resources provides functional access to the kinds of information our library users will expect to use throughout their academic programs and careers.

The core of our library is an array of electronic resources available to all students and faculty at any time and from virtually any location where an Internet connection is available. In addition to our numerous resource subscriptions, the library facilitates user education, offers document retrieval and interlibrary loan services, and provides research guidance.

The online distribution of information is not only optimally matched to the needs of working professionals, but also allows for equitable sharing of library resources among students and faculty members. University Library users enjoy access to the same broad spectrum of resources regardless of where and how they attend class.

For more information, please see your Library Handbook or contact the University Library at library@phoenix.edu.

**What is in the University Library?**

Access to eBooks, reference materials, scholarly journals, and periodicals all selected for their relevance to each University of Phoenix degree program are contained within the University Library. Financial reports on public companies and a variety of directories and other reference publications are also available. In addition, the University Library has a collection of multimedia available, including videos, images, and audio files, on a variety of topics. Many of the resources found in the University Library are academic materials are made available through license agreements with content providers; this content is not generally available to the general public through open websites.

**Getting Started with the University Library**

To get started using the University Library, students and faculty members should follow these steps:

- Visit the student and faculty website http://my.phoenix.edu
  - This is the same website used to obtain course modules, grades, and other University of Phoenix resources and services. A link to the Library is on the main page.

**Electronic Reserve Readings**

In addition to the University Library resources for research by topic, University Library staff members also maintain Library Reserve Readings for individual courses. These pages provide direct links to content relevant to the course curriculum. Access to Library Reserve Readings, when available, are listed on the course page within the student portal.

**Additional Resources for Help**

- Reference services allow users to receive direct and in-depth reference assistance from accredited librarians.
- Interlibrary loan and documents retrieval services allow users to request a document or book not available within the Library’s collection. Specific timelines and rules apply to this service.
- The Research Databases (https://library.phoenix.edu/az.php?) section provides detailed information on the library’s collection.
- Resource recommendations by subject can be found by utilizing our Subject Guides on the library homepage.
- The How Do I Guides available in the Library contain in-depth guidance on common research questions and operating procedures.

**How to Contact the University Library**

Student Technical Support 1-877-832-4867  
Email library@phoenix.edu

**Current Resources of the University Library**

For a current list of resources in the University Library, please refer to the our Research Database link on the library’s main page.
THE UNIVERSITY’S TEACHING AND LEARNING MODEL

The mission of University of Phoenix is to provide access to higher education opportunities that enable students to develop the knowledge and skills necessary to achieve their professional goals. As a result, the University’s teaching and learning model is grounded in the theoretical and empirical literature of learning and cognitive psychology. The University employs best practice from recent education literature, as well as best service practices that enhance the academic experience for students who are new to higher education. This combination increases student retention and successful degree completion.

Active Learning

The model is based first on the assumption that the learner’s active involvement in the learning process is essential to good practice. Thus, in all modalities University of Phoenix classrooms are intended to be dynamic learning spaces. Instructors are expected to serve as facilitators of learning who manage the learning process by engaging learners in a variety of activities (lectures being but one) that lead students to an understanding of course content and the development of academic and professional competence. By involving students in a variety of learning activities, respect is demonstrated for diverse ways of learning and knowing. Interaction and participation in classes and Learning Teams is expected of those students in the bachelor and master degree programs. Students pursuing an associate degree online (excluding AACR & AAPF) are involved in collaborative learning activities, and a small number of courses may require participation in formal Learning Teams.

Collaboration

The effectiveness of cooperation and collaboration in enhancing learning is well and widely documented. Structures that encourage and facilitate collaboration are central to the University’s teaching and learning model. Working students frequently come to formal learning activities with greater life and work experience. This means that learners themselves can be invaluable resources in enhancing their own and others’ learning. Traditional pedagogy emphasizes a top-down, vertical transfer of information. Students with rich and varied experience find benefit in instructional practices that encourage collaboration. This adds a robust horizontal dimension to the learning exchange as students teach and learn from one another. Good practice in education capitalizes on this dimension to the students’ advantage.

Emphasis on Application and Relevance

There is wide agreement in the literature that students learn best when bridges are built between new knowledge and the learners’ experience. Practices that encourage reflection and application are based on the recognition that a learner’s experience provides a context through which he or she is more able to construct meaning from new information. It also makes learning relevant to the learners. In University of Phoenix courses, students’ experiences and current circumstances are interwoven with subject matter in class discussions as well as in individual, team and other collaborative assignments. Real-world relevance is critical to basic comprehension as well as to maintaining student interest. Students very often say they are able to apply at work the next day what they learned in class the night before.

University Learning Goals

The University’s faculty leadership, in collaboration with consultants from the National Center for Higher Education Management Systems, has established five broad learning goals that guide curriculum development, instruction, learning assessment, and program evaluation and improvement. The University Learning Goals are:

- Cultural Competence and Ethics
- Critical Thinking and Problem Solving
- Communication
- Digital Fluency
- Collaboration

The intent of the University’s learning goals is to help all University graduates attain levels of theoretical and practical disciplinary knowledge appropriate to the levels of degrees or credentials they are earning, while developing competence in essential intellectual and social processes that will enable graduates to practice their professions successfully.

Curriculum

The University’s curriculum is faculty-developed and centrally managed by a team of college staff and instructional designers with objectives and outcomes that are carefully defined. Individual instructors have the responsibility to expand and enhance the basic curriculum by augmenting it with current resources and practices. The curriculum is under continual content and quality review.
**Awarding Credit Hours**

Credit hours are awarded in accordance with common practice among institutions of higher education. Course content and outcomes are determined by faculty and are delivered in a format informed by adult learning principles and aligned to Carnegie unit guidelines. One Carnegie hour is defined as 50 minutes of faculty directed or student directed activities. Achievement of outcomes related to the awarding of credit hours is measured using standard national benchmarks.

The curriculum at University of Phoenix (UOPX) is faculty-developed and centrally managed. Instructional strategies include the use of synchronous and asynchronous activities inside and outside the online and/or physical classroom and are designed to be outcome focused and engaging. To ensure the appropriate level of curriculum coverage and rigor, students are required to participate in weekly classroom-based learning activities including direct faculty instruction and collaborative activities, and/or additional hours of faculty-directed student engagement using a variety of instructional strategies and online learning activities, which are designed to support the course topics and objectives.

The table below summarizes the minimum required number of hours of faculty-directed (instruction) and student directed (homework) learning activity engagement for each credit award value at all credential levels. Additionally, the table includes the minimum course duration (in weeks) for each credit value necessary for faculty to effectively cover course content, and for students to reasonably assimilate the information, based upon federal guidelines and commonly accepted practices in higher education. All courses which award college credit shall conform to these minimum required hours.

</table>

*Average hours per week, assumes student is generally taking one class at a time

Doctoral residencies, laboratory work, internships, practica, studio work, student teaching, clinical hour, and other course formats as established by the University may deviate from the minimum required duration of a course in total weeks. However, alternatives of these course types leading to the award of credit hours must still reflect at least an equivalent amount of work (i.e., time on task) as outlined in policy. Program length is determined by faculty in accordance with common practice among institutions of higher education. The following list reflects the minimum number of credits generally required at each credential level.

**Degree Level & Minimum Total Semester Credits:**
- Associate Degree: 60 credits
- Bachelor's Degree: 120 credits
- Master's Degree: minimum 30 credits beyond the Bachelor's Degree
- Ph.D. or Applied Doctorate: minimum 30 credits beyond the Master's Degree

**Access and Convenience of Time and Place**

The University's goal is to make access to programs and services available to all those who wish to avail themselves of them and to work to completion of a degree program.

University of Phoenix campus-based programs are offered at times and in places that are convenient to adult learners. Classes are held primarily in the evening and on weekends when learners are most likely to need access. Wherever possible, campuses and learning centers are located at strategic locations near major freeways and thoroughfares that permit convenient access.

Access in the 21st Century means many different things. To the student in rural America or the working parent with children at home, access may be possible only through an Internet connection. Those students usually work toward their degrees through courses offered online or via FlexNet®, a combination of classroom and online learning.

**Academic Calendars**

University of Phoenix offers programs and courses in two different types of academic calendars. Most programs and courses are offered in a nonterm calendar, meaning they are offered on a continuous year-round basis, and do not begin and end within a discrete and defined term. The University's Direct Assessment Competency-Based Education (CBE) programs are offered in a nonstandard term calendar, which means courses are offered within a term that has a set start and end date but that is not a traditional academic semester, trimester, or quarter. Direct Assessment CBE courses are offered within 12-week terms. Each academic year consists of four Direct Assessment CBE terms. See the Direct Assessment CBE section of the catalog for term start dates.

**Program Format**

University of Phoenix is a non-term institution and does not operate according to a traditional academic calendar. New student cohorts can begin at any time. Typically, graduate courses at University of Phoenix meet for six consecutive weeks and undergraduate courses meet for five weeks. Classes delivered via the online modality meet asynchronously throughout each course week. Campus-based classes meet once per week for four (4) hours. When a course ends, the next course usually begins the following week. This intensive calendar allows students to achieve their educational goals in a more time-efficient manner. The University's low student/faculty ratio and class size that average 17-23 students at the Online campus and 7-11 students at local ground campuses facilitate active learning and collaboration and encourage time-on-task. As a rule, bachelor and graduate degree seeking students take only one course at a time. This allows them to focus attention and resources on one subject, a structure that enhances learning and helps students balance ongoing professional and personal responsibilities.
Class Size

Minimum and maximum class size may vary by college, course, and location. Some colleges may determine a specific minimum and maximum class size given the curriculum and learning model.

Learning Teams

In addition to regular course instructional sessions, bachelor’s and master’s level students may work in Collaborative Activities, including Learning Teams. Learning Teams are small groups of three to six students drawn from within the larger cohort. Collaboration is an essential design element in the University’s teaching and learning model -- an ability expected of employees in information-age organizations and one of the University’s primary learning goals. Due to the unique teaching and learning model and objectives, students enrolled in an associate degree program at online (excluding AACR & AAPF) usually do not participate in Learning Teams, but are encouraged to collaborate and participate in classroom assignments.

All students enrolled in degree programs and/or designated certificate programs using the collaborative learning team model must meet learning team attendance policies. Teams may meet in person or via teleconference, real-time electronic conferencing, or asynchronous meeting in the classroom team forums. Students must indicate their participation in the learning team meetings and/or assignment deliverables. Students are expected to actively participate in the team’s activities. Students attending a local campus must acknowledge participation in their learning team each week in the Assignments section of the student portal. At the end of each course, students are given the opportunity to evaluate the contributions of each team member to the accomplishment of team goals.

Technology Enhanced Courses

Some University courses are ‘technology enhanced’ courses. These courses (designated with a ‘T’ at the end of the course ID) differ from courses in the standard University of Phoenix format in that they employ the use of adaptive learning diagnostics at the beginning of each week of class to identify existing knowledge and knowledge gaps regarding the week’s course content. Students then spend the week engaging in specific learning activities designed to fill in those knowledge gaps in a courseware platform. These frequently include auto-graded activities that provide students with instant feedback. The class size in a technology enhanced course is larger than for standard University of Phoenix courses. In order to effectively manage the discussion in these larger groups, students are placed into learning teams. Learning teams in a technology enhanced course differ from learning teams in a standard University of Phoenix course in that they serve as discussion communities only and do not require students submit learning team assignments for points.

Faculty

University of Phoenix faculty members are accomplished managers, technology leaders, professional educators, corporate executives, financial officers, healthcare and human service professionals and leaders in other professional arenas. A listing of faculty may be obtained at each local campus and/or in the appendix pages at the end of this catalog. Faculty Lists are also published for each college and school on www.phoenix.edu.

Employee Screening

Subject to the requirements of federal, state, and local law, all external candidates who receive an offer of employment with the University must have a background check completed with the University.

Student Technology Recommendations and Competencies

In an effort to assist students with adequate preparation for their coursework at University of Phoenix, technology recommendations and competencies have been established. Students will need to access and use the hardware and software as described below. Additional recommendations and competencies may be required for particular courses or programs. Students using software and hardware other than that recommended must still meet the technology competencies. Please note that, due to the rapid rate of change in information technology, hardware and software competencies will be updated on a regular basis. Some courses in the College of Business and Information Technology may require additional software.

Technology Recommendations

Hardware and Peripherals

You must have reliable access to a personal computer or utilize technology at one of our campuses or student resource centers that meets the following specifications.

- An Intel i3 or AMD Ryzen 3 processor or better recommended.
- 8 GB RAM or greater recommended
- A high speed internet connection with a recommended connection speed of 25 Mbps or better.
- The use of satellite and cellular connections may result in slowness or errors (timeouts, access problems) when accessing the classroom and course materials.
- The use of public access computers and internet (for example, at restaurants and public institutions such as libraries) may result in slowness or errors (timeouts or access problems) when accessing the classroom and course materials. Public access computers may not permit any access to certain course materials or systems due to security limitations.
- Keyboard and Mouse is recommended
- Speakers/Headphones and Microphone
  - A noise-cancelling headset is recommended.
- Public access computers may not permit usage of speakers, headphones or microphones.
- A web camera capable of video web conferencing
  - Public access computers may not permit usage of web cameras.

A DVD/CD-ROM drive may be needed to install software in select courses.

Competencies

- A high speed internet connection with a recommended connection speed of 25 Mbps or better.

</tr>
<tr>
<td><strong>Mozilla® Firefox</strong></td>
<td>Latest Version</td>
<td></td>
</tr>
</tbody>
</table>

*The University of Phoenix only supports the browsers listed above.*

*Please note that newer browser versions incorporate security fixes and newer technologies, which may often lead to a better user experience. Current browser versions are highly recommended when the option is available.*

**Additional Software**

- Microsoft Office is required; Microsoft Office 365 is provided free of charge to all active students.
- An up to date installation of Adobe® Reader
- A current anti-virus and / or security suite application is recommended but not required.

*Some courses may require the following software provided by the University through the Classroom. This software requires Microsoft Windows*

- Microsoft® Visio
- Microsoft® Project

Mobile Devices
Students are required to have reliable access to a PC or Mac but may use a mobile device such as a phone or tablet as a secondary means of access.

Access to website functionality and required course materials may be limited on mobile devices.

**Computer Accessibility**
All students need access to a computer for success in their coursework. The operating systems on most computers already have some features that include these accessibility technologies:

- Changing font size
- Changing size of desktop icons
- Magnification of portions of your screen
- Converting text to speech
- Altering background color
- Captioning for audio
- Speech recognition

**Accessibility for Operating Systems**
Microsoft, Apple, and Google provide additional accessibility guides, tutorials, and tips for use on your computer. Visit the Microsoft, Apple, or Google website for information beyond the documents provided here. Students may contact the Disability Services Office for questions about accommodations or visit the University’s page on accessibility.

**College Specific Requirements**

**College of Business and Information Technology**
The College of Business and Information Technology may require access to additional software. Software currently provided by the University on the student website is subject to change and may require students to purchase or obtain access to the software. Please look for updated software requirements in your course. Students must have access to a Mac computer to complete iOS mobile coursework or the latest Windows operating system to complete Windows mobile coursework.

**College of Education**
The College of Education may require access to additional software and hardware for the purpose of meeting individual state mandates. You may be required to submit video clips during your program to meet assignment requirements, during the student teaching or practicum experience (if applicable) to meet assessment requirements, and near the end of your program to meet licensure requirements. You may be required to purchase or obtain access to relevant software and hardware. Please look for updated software/hardware requirements in your courses.

A minimum Internet upload speed of 2Mbps is recommended to help facilitate the video uploads.

**College of Doctoral Studies**
The College of Doctoral Studies requires that students bring a laptop computer that meets the above technology requirements to any/all classes.
MyPhoeniX: Student Portal

MyPhoeniX is a secure multifunctional electronic gateway to numerous student and academic services which includes access to the University Library, class schedules, course materials, the electronic class environment, assignment feedback and grade reports, as well as transcripts. MyPhoeniX is accessible 24/7 and requires no special software, and can be accessed from a computer or mobile device with an internet connection. MyPhoeniX also acts as a hub to additional student resource sites including the Center for Writing Excellence, Center for Mathematics Excellence, Life Resources Center, and Phoenix Link.

Center for Writing Excellence: An online resource that includes tools to help students with organizing thoughts, formatting and citing papers, checking grammar, learning new language skills, and reinforcing forgotten concepts.

Center for Mathematics Excellence: An online resource that includes live math tutoring and virtual tools for building math confidence.

Library Support: Current students may use the University's Ask a Librarian service to email a staff librarian; responses are sent within six hours, including weekends. Online tutorials help students navigate individual library resources and the overall library site.

Life Resource Center: The Life Resource Center provides access to confidential and complementary services and resources related to life coaching and counseling, including webinars, podcasts, articles, and assessments. Certain services are available a limited number of times, but can be extended for a nominal fee.

PhoenixLink: A suite of career tools where students will find support for their career goals. Students can access career planning and readiness tools. Active degree- and certificate-seeking students can schedule a consultation with a certified career advisor. For details, visit phoenix.edu/career-services.html.

Changes made at the institution are provided to students through catalog updates and other communications available through MyPhoeniX including a message center as well as email communications sent to the student's institutional email address.

When students go through the application process to the university, they are provided with information needed to connect to MyPhoeniX. Students may also be able to access the electronic class environment where courses are provisioned, assignments are turned in, and exams and class resources are accessed. Each student's MyPhoeniX login credentials are unique; and students may not share their login credentials with anyone or they could be subject to Student Code of Conduct violations.

University of Phoenix students attend class on-campus, online, or in a hybrid modality known as FlexNet®. Regardless of modality, all students use the same materials for a specific course, have access to all student resources available on MyPhoeniX and the electronic classroom environment. Students turn in assignments by accessing assignment links in the electronic class environment, which can be accessed through MyPhoeniX. Discussions and participation during online class weeks are asynchronous, so there is no need to be online at a specific time during each online class week. Class discussions are private, limited to members of the class. University of Phoenix authorizes Deans and administrative staff and faculty in the Colleges, Directors of Academic Affairs, Campus Academic Directors and certain university administrators to review submissions to the electronic class environment and to assignment links to assist in the resolution of grade disputes, grievances, and charges of academic dishonesty, as well as to confirm and/or investigate other academic-related issues as necessary.

Classroom Recording Policy

Students may only make audio and/or video recordings of University of Phoenix class presentations, activities, and discussions if they meet one or more of the following criteria:

- The recording is for personal academic use as part of the student’s current course and occurs with the prior written consent of the faculty member teaching the class.
- If the recording is for use outside the current course, the student obtains the prior written consent of the faculty member and the FERPA consent of every student who is personally identifiable in the recording.
- If there is a documented University of Phoenix Disabilities Service Office or Title IX authorized accommodation requiring recording of specific parts of a class session.

Faculty may make audio or video recordings of class presentations, activities, and/or discussions if they meet one or more of the following criteria:

- The recording is for sharing with students and school officials who are enrolled or participating in the current course in which such audio or video recording is made.
- If the recording is for use outside the current course, the faculty member obtains the FERPA consent of every student who is personally identifiable in the recording.
- If there is a documented University of Phoenix Disabilities Service Office or Title IX authorized accommodation requiring recording of specific parts of a class session.

Unless a class recording is made with the appropriate authorization(s) as set forth herein it shall not be copied or shared with others, posted on a website to which others have access, or used or disseminated in any other manner.

Institutional Assessment Policy

Assessment of student learning is a shared responsibility among University of Phoenix (UOPX) academic leaders, faculty, and administrators. It is a collaborative and systematic process focused on continuous quality improvement to which the student and faculty voice are foundational. UOPX has created a University Assessment Committee (UAC), granted authority by the Provost. Its purpose is to support a formalized, sustainable assessment process that affords the University an opportunity to continuously improve teaching practice, student learning, student services, and co-curricular offerings; strengthen the University’s reputation; and enhance accountability and transparency among the students, faculty, and University community. UAC includes representation from the colleges (including faculty and administrators), academic affairs, student service and co-curricular areas, Center for Teaching and Learning, Accreditation and Regulatory Compliance, and academic operations. Student and alumni feedback sourced through surveys and focus groups provides the committee opportunities to coordinate regarding initiatives.

Established cadences for formal assessment reporting on academic programs are as follows: The Academic Program Review (APR) occurs every five years. An academic program’s Health Check occurs every fifteen months. The University’s innovative, real-time course snapshot, the Rapid Assessment Process, occurs as needed according to academic leadership and assessment data. The colleges bolster these required reporting mechanisms with Student
Success Meetings, faculty council meetings, industry advisory board meetings, and discipline-specific reports such as the College of Nursing’s Systematic Plan of Evaluation. Assessment of student learning at UOPX is highly collaborative and occurs across the colleges, Center for Teaching and Learning, and Assessment and Institutional Research teams. Assessment and Institutional Research ensures a consistent, systematic assessment process that all academic teams and student services units follow. Faculty within the colleges have a significant role in the assessment of student learning outcomes and the continuous improvement of student learning. The University has formalized faculty involvement through the colleges’ dedicated teams of faculty assessment liaisons, individuals who act as stewards of the assessment process supporting general faculty work in this area.

- Assessment and Institutional Research responsibilities include:
  - Ensuring appropriate infrastructure to support assessment
  - Establishing and maintaining sustainable assessment processes and requirements
  - Ensuring faculty have opportunities to engage in the assessment process and supporting the colleges in providing these opportunities
  - Providing resources, support, and training for academic, student services, and co-curricular assessment activities

- College responsibilities include:
  - Using assessment results to improve program and course quality
  - Providing leadership over assessment activities for their programs regardless of modality
  - Ensuring compliance with regulatory, accreditor, and University assessment requirements

- Center for Teaching and Learning responsibilities include:
  - Working with program leadership and faculty to develop assessments of student learning for use by faculty in the classroom
  - Following University assessment requirements

- Faculty responsibilities include:
  - Assessing individual student learning within the classroom
  - Assisting in programmatic assessment of student learning as partners in the Academic Program Review, program Health Check, Rapid Assessment process and other College-specific assessment reporting
  - Serving as content experts and actively participating in assessment planning and processes (faculty subject matter experts and faculty assessment liaisons)
  - Providing feedback on assessment activities and course content through established channels to ensure academic freedom, including conversations with faculty supervisor or college leadership, program and course surveys, and formal assessment reporting

Each student service and co-curricular area is responsible for implementing assessment and is also supported by the Assessment and Institutional Research team. The Assessment and Institutional Research team ensures a consistent, systematic assessment process at the University level that student support units with co-curricular areas follow. Staff have a significant role in assessment and continuous improvement of student services.

- Assessment and Institutional Research responsibilities include:
  - Ensuring appropriate infrastructure to support assessment
  - Establishing and maintaining assessment processes
  - Providing resources, support, and training for assessment activities

- Student service and co-curricular area responsibilities include:
  - Participating in University assessment efforts by:
    - Collaborating with Assessment and Institutional Research to develop specific assessment plans and reports.
    - Ensuring compliance with regulatory, accreditor, and University assessment requirements

CONSUMER INFORMATION

All institutions participating in federal financial aid programs must provide required consumer information to enrolled and prospective students as well as current and prospective employees. Where applicable, each section lists specific locations where additional information is available. To request and receive this information in writing, contact the campus director or designee at a University of Phoenix location during regular business hours. A list of campus locations is available at https://www.phoenix.edu/campus-locations.html

ABOUT UNIVERSITY OF PHOENIX

Accreditation, Licensures, Reviews and Approvals

University of Phoenix is accredited, reviewed and/or approved by federal, state and international agencies, as well as private accreditation bodies.

Federal
U.S. Department of Education, Certificate of Eligibility
The University of Phoenix has been approved and participates in each of the following listed Title IV HEA programs:
• Federal Pell Grant Program
• Federal Direct Student Loan Program
• Federal Supplemental Educational Opportunity Grant Program

Institutional Accreditation

Higher Learning Commission
230 South LaSalle Street, Suite 7-500
Chicago, IL 60604-1413
Phone: 312.263.0456
800.621.7440
Fax: 312.263.7462
https://www.hlcommission.org/About-HLC/about-hlc.html

For more information about University of Phoenix accreditations and licensures, please visit https://www.phoenix.edu/about_us/accreditation.html

State and International Licensures
University of Phoenix is a private institution approved to operate in the following U.S. states and district, either through licensure, registration, general or specific approvals, consent, or exemption.
• Arizona State Board for Private Postsecondary Education
• California Bureau for Private Postsecondary Education
• Hawaii Post-secondary Education Authorization Program
• Nevada Department of Employment, Training and Rehabilitation: Commission on Postsecondary Education
• Texas Higher Education Coordinating Board

For additional information on state and international licensures visit https://www.phoenix.edu/about_us/accreditation.html

Programmatic Accreditation

Business Accreditation
The Accreditation Council for Business Schools and Programs (ACBSP) has accredited the following programs in the College of Business and Information Technology at University of Phoenix:
• Associate of Arts with a concentration in Accounting Fundamentals*
• Associate of Arts with a concentration in Business Fundamentals
• Bachelor of Science in Accounting
• Bachelor of Science in Business
• Master of Business Administration
• Master of Management
• Master of Science in Accountancy*
• Doctor of Business Administration
• Doctor of Management

*These programs are not available for new enrollment.
For additional information, please visit http://www.acbsp.org

Healthcare Accreditation
The Master of Health Administration (MHA) program is programatically accredited by the Commission on Accreditation of Healthcare Management Education (CAHME).

Commission on Accreditation of Healthcare Management Education
P.O. Box 911
Spring house, PA 19444
(301) 298-1820
Nursing Accreditation
The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington, DC 20001, 202-887-6791.

Social Work Accreditation
University of Phoenix’s Bachelor of Science in Social Work Program is accredited by the Council on Social Work Education’s Commission on Accreditation.

Accreditation of a baccalaureate or master’s social work program by the Council on Social Work Education’s Commission on Accreditation indicates that it meets or exceeds criteria for the assessment of program quality evaluated through a peer review process. An accredited program has sufficient resources to meet its mission and goals and the Commission on Accreditation has verified that it demonstrates compliance with all sections of the Educational Policy and Accreditation Standards.

Accreditation applies to all program sites and program delivery methods of an accredited program. Accreditation provides reasonable assurance about the quality of the program and the competence of students graduating from the program.

For more information about social work accreditation, you may contact Accreditation.
https://www.cswe.org/accreditation/info/contact-accreditation-staff/.

Counseling Accreditation
The Master of Science in Counseling program in Clinical Mental Health Counseling at the Arizona and Utah campuses is accredited by the Council for Accreditation of Counseling and Related Educational Programs CACREP. For additional information, please visit https://www.cacrep.org/.

Council for Accreditation of Counseling and Related Educational Programs
500 Montgomery Street, Suite 350
Alexandria, VA 22314
(703) 535-5990

The following program is accredited by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting body. Following a merger of accreditors, NCATE accreditation is administered by the Council for the Accreditation of Educator Preparation (CAEP).

The following program* is accredited at the Utah Campus:
• Master of Science in Counseling/School Counseling
*This program is not available for new enrollment.

For additional information, visit http://caepnet.org.

Council for the Accreditation of Educator Preparation
1140 19th St NW, Suite 400
Washington, DC 20036

Education Accreditation
The following programs offered by the College of Education are accredited by the National Council for Accreditation of Teacher Education (NCATE), a specialized accrediting body. Following a merger of accreditors, NCATE accreditation is administered by the Council for the Accreditation of Educator Preparation (CAEP).

The following initial teacher preparation and advanced preparation programs* (Utah-specific) are accredited:
• Bachelor of Science in Education/Elementary Education
• Master of Arts in Education/Elementary Education
• Master of Arts in Education/Secondary Education
• Master of Arts in Education/Special Education
• Master of Arts in Education/Administration and Supervision

*These programs are not available for new enrollment.

For additional information, visit http://caepnet.org.

In addition, educator/principal preparation programs have been reviewed and approved by the California Department of Education. The California specific programs (BSLS, MAED-TED, and CTEL) have been reviewed and approved by the California Commission on Teacher Credentialing (CCTC). Individual program offerings vary by state.

Additionally, the Graduate Initial Teacher Certificate programs (CERT/G-ELM, CERT/G-SEC, and CERT/G-SPE) have been reviewed and approved by the North Carolina Department of Public Instruction (NCDPI).

Additional Information
A student can view additional information at https://www.phoenix.edu/about_us/accreditation.html
To obtain a copy of University accreditation and licensure documents, or information on how to contact any of the agencies that regulate the University, contact the University Legal Services at (602) 557-1554.

Academic Programs, Facilities and Instructional Personnel Information
Please refer to the University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html, for further information on academic programs, facilities and instructional personnel information.

Articulation Agreements
Please refer to the College Articulation Agreement section of University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html, for further information on articulation agreements.

Credit Transfer
Please refer to the Acceptable Transfer Activity and Evaluation of Transfer Activity Policies in the University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html, for further information on credit transfer.
Disability Services
Please refer to the Accessibility and Disability Services Office and the Extended Time/In Progress Extension Accommodations sections of the University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html, for further information on disability services.

Faculty
University of Phoenix faculty members are accomplished managers, technology leaders, professional educators, corporate executives, financial officers, healthcare human services professionals and leaders in other professional areas who possess advanced degrees. A complete list of faculty for each school and college can be found under the Faculty Credentials section at https://www.phoenix.edu/faculty.html. A list of faculty at a particular location may be obtained from each local campus.

To find a local campus, go to https://www.phoenix.edu/campus-locations.html. Faculty profiles can be found at https://www.phoenix.edu/faculty.html

Student Demographics, Metrics and Outcomes

Student Borrowing
During the period of time spanning September 1, 2021, through August 31, 2022, 59.5% of students enrolled received federal student loans.

Loan Default Rate
The University’s loan default rate for Fiscal Year 2019 was 2.6 and the national average was 2.3.
The University’s loan default rate for Fiscal Year 2018 was 8.7 and the national average was 7.3.

Average Federal Loan Borrowing
All Students Enrolled
Annually, the University calculates the average federal loan borrowing by its students. For students who attended the University during the period July 1, 2021 to June 30, 2022, the average cumulative federal loan borrowing is displayed below. Your borrowing may be different.

<table>
<thead>
<tr>

*Includes borrowers who obtained only Subsidized, only Unsubsidized, or only Subsidized and Unsubsidized loans.
** Includes borrowers who obtained only Grad PLUS loans.
***Includes borrowers who obtained Subsidized, Unsubsidized, and/or Grad PLUS loans. Interest rate used represents the weighted average of the Grad PLUS and Subsidized/Unsubsidized rates based on the amounts borrowed.
****Includes all borrowers attending during 7/1/21 - 6/30/22. Loans represent disbursed loans, net of returns to lender, that were disbursed any time during the student’s academic history at the University through 6/30/22.
*****Interest rates represent those in effect for loans disbursed during 7/1/21 - 6/30/22 and where necessary, were weighted based on the percentage of each type of loan if the rates varied. These rates may not be representative of the rates in effect for a student’s individual loans borrowed.
Graduated Students

The table below includes all borrowers who completed a program in the respective credential level during the 2021-2022 federal award year and who obtained subsidized, unsubsidized and/or Grad PLUS loans. Amounts represent the average subsidized, unsubsidized and Grad PLUS loans disbursed. Loans are included as follows: associate degree completion - associate degree and undergraduate certificate loans; bachelor’s degree completion - bachelor’s degree, associate degree and undergraduate certificate loans; master’s degree completion - master’s degree and graduate certificate loans; doctoral degree completion - doctoral degree, master’s degree and graduate certificate loans.

<table>

<td>$29,725</td>
</tr>
</tbody>
</table>

Includes all borrowers who completed a program in the respective credential during the specified AY and who obtained Subsidized, Unsubsidized, and/or Grad PLUS loans.

Loans are included as follows:
- Undergraduate certificate completion - undergraduate certificate loans only
- Associate degree completion - associate degree and undergraduate certificate loans
- Bachelor degree completion - bachelors degree, associate degree, and undergraduate certificate loans
- Graduate certificate completion - graduate certificate loans only
- Masters degree completion - masters degree and graduate certificate loans
- Doctoral degree completion - doctoral degree, masters degree, and graduate certificate loans

Amount represents the average Subsidized, Unsubsidized, and Grad PLUS loans disbursed.

Graduation Rates

IPEDS Graduation Rates

In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must publish information regarding graduation rates as defined by the National Center for Education Statistics (NCES). This graduation measure includes the cohort of first-time, full-time (FTFT) degree/certificate-seeking undergraduate students and tracks their completion status at 150% of the normal time to complete all requirements of their program of study. A first-time student is defined as a student who has no prior postsecondary experience attending any institution for the first time at the undergraduate level.

Data are collected on the number of students entering the institution as FTFT degree- and/or certificate-seeking undergraduate students in a particular cohort year. Graduation rates are disaggregated by race and ethnicity, gender, and federal financial aid grant or loan funds. The graduation rates shown below represent students from the 2015-2016 cohort and the percentages of those students who graduated within 150% by Aug 31, 2021. The table below shows FTFT undergraduate students and is derived from the Integrated Postsecondary Education Data System (IPEDS) graduation rate survey, although shown in aggregate rather than by degree/award type. The University is a nontraditional institution that caters to a wide variety of students, including many who have previously attended another institution of higher education and would not be classified as first-time students. Data includes recipients of Pell Grants or subsidized loans or neither type of aid during the 2015-2016 cohort year (Sept. 1 - Aug. 31).

*Excludes 7 students who became deceased after entering the cohort, but before they graduated.

Institutional Graduation Rate

The 150% institutional graduation rate reflects the percentage of University students in the cohort who had completed their program of study within 150% of the published length of the program. It includes students in the cohort if they began a program in the degree level during the cohort year and attended for at least 30 days (consistent with IPEDS logic). Students who became deceased prior to completion were excluded from the cohort (consistent with IPEDS logic). The cohort year represented in the chart below is FY18 for associate and master’s, and FY14 for bachelor’s.

**Institutional Graduation Rate**

- Associates Institutional: 29.3%
- Bachelors Institutional: 32.0%
- Masters Institutional: 49.6%
- Blended Undergraduate Institutional: 31.8%
- Blended Associates, Bachelors, Masters Institutional: 33.6%
Retention Rates

IPEDS Retention Rates
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding retention rates of degree- and/or certificate-seeking first-time, full-time (FTFT) undergraduate students entering the institution.
Retention rate is a measure of the rate at which students persist in their educational program at an institution, expressed as a percentage. The table shown below is the percentage of FTFT undergraduate degree- and/or certificate-seeking students from the previous fall who were still enrolled as of August 1st of the following year.

Retention Rates for FTFT Undergraduate Students

| Count of FTFT undergraduate students enrolled Fall 2020 (8/1/2020 to 10/31/2020) | 1,740 |
| Count of FTFT undergraduate students enrolled Fall 2020 (8/1/2020 to 10/31/2020) still enrolled as of 8/1/2021 | 552 |
| Retention | 31.7% |

* Excludes students who became deceased and those who were enrolled in and completed a certificate program shorter than one year in length who would not be expected to be retained in the following year.

Current regulations require the institution to disclose its retention rate as reported to the Integrated Postsecondary Education Data System (IPEDS). The University’s FTFT bachelor’s retention rate reported to IPEDS is shown in the table below.

Retention Rates for FTFT Bachelors Students (IPEDS)

| Count of FTFT bachelors students enrolled Fall 2020 (8/1/2020 to 10/31/2020) | 853 |
| Count of FTFT bachelors students enrolled Fall 2020 (8/1/2020 to 10/31/2020) still enrolled as of 8/1/2021 | 335 |
| Retention | 39.3% |

Institutional Retention Rates
The University’s institutional retention rates reflect the percentage of students who posted their first attendance in the reported program during the cohort year (Federal Award Year July 1 - June 30). A student is deemed “retained” if he or she posted attendance in his or her fourth class within the following time frames: (i) associate, 175 days; (ii) bachelor’s (non-CBE), 175 days; (iii) master’s (non-CBE), 210 days; (iv) CBE, 126 days.

Institutional Retention Rates

| Associates Institutional | 55.4% |
| Bachelors Institutional | 71.8% |
| Masters Institutional | 70.2% |

Student Diversity

In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding student diversity as defined by the Integrated Postsecondary Education Data System (IPEDS). Data reported are for enrolled full-time students.

Table 1 represents all enrolled students from July 1, 2020, through June 30, 2021. Of the total enrolled students, those who received Pell Grant funds during the July 1, 2020, through June 30, 2021, time frame are shown in Table 2.

Table 1: All Enrolled Students by Gender and Race/Ethnicity

| Total Enrollment | 140,915 |

</tbody>
</table>

Note: Information reported on student diversity for all enrolled students is from the IPEDS 12 Month Enrollment Survey (July 1, 2020, to June 30, 2021). Pell recipients were those students from the 12 Month Enrollment Survey who were disbursed Pell funds during the July 1, 2020, to June 30, 2021 time frame.

Types of Education in Which Graduates Enroll
In accordance with the Higher Education Act (HEA) of 1965, as amended, each postsecondary educational institution must make available information regarding the types of graduate and professional education in which graduates of the institution's four-year degree programs enrolled. Approximately 24% of students who completed a bachelor's degree from University of Phoenix between July 1, 2020, and June 30, 2021, went on to enroll in a graduate or professional program. The most common programs students enrolled in are as follows:

- Business Administration and Management
- Healthcare Administration/Management
- Psychology
- Mental Health Counseling

- Management Information Systems
- The data is derived from the IPEDS Completions Survey (July 1, 2020, to June 30, 2021, data) and the National Student Clearinghouse Student Tracker to identify enrollment in graduate programs as of December 31, 2021.

*Question #6: In what industry do you work? Total number of respondents - 2,802.

**Alumni Occupations**

Based on responses from the Alumni Association's 2022 survey, the following represents occupations of University of Phoenix alumni:

- Petroleum/Energy: .6%
- Software: .6%
- Personal Services: .5%
- Entertainment & Leisure: .4%
- Hospitality Management: .5%
- Marketing Professional: .5%

*Question #7: What is your occupation? Total number of respondents - 2,774.

**Title II of Higher Education Act-Academic Year 2017-2018**

In compliance with Title II of the Higher Education Act (HEA), University of Phoenix has submitted institutional questionnaires that detail the University’s program offerings, student demographics and student performance in those states where the University has teacher education programs that have produced program completers, also known as graduates. University of Phoenix provides professional preparation for teachers in multiple states. This is an overview of the information contained in the Institutional Report for University of Phoenix.

To view these reports by state, please visit https://title2.ed.gov/Public/Home.aspx

The Department of Education is currently updating components of their database. Updated data for 2018-2019 will be posted once available. Please visit https://title2.ed.gov/Public/Home.aspx for more information.

**Title II HEA Pass-Rate Information**

Program completers achieved the following scores for academic year 2017–2018:

**Arizona**

- Traditional Assessment Data
  - Professional knowledge — Elementary: 98%
  - Professional knowledge — Secondary: 100%
  - Professional knowledge — Early Childhood: Fewer than 10 candidates, score not provided
  - Aggregate professional knowledge: 99%
  - Aggregate content areas: 98%
  - Special populations: 96%

- Alternative Assessment Data
  - California Basic Educational Skills Test (CBEST): 100%
  - Reading instruction competence assessment (RICA) — Elementary only: 69%
  - Aggregate content areas: 99%

**California**

Federal Financial Aid Application Process

To begin the federal financial aid process, students must complete the Free Application for Federal Student Aid (FAFSA), available at https://studentaid.gov/h/apply-for-aid/fafsa. This is the first step in determining a student's eligibility for federal financial aid. Federal financial aid will be processed after submitting an application for admission and registering for courses in an eligible degree program.

Not all programs are eligible for federal financial aid. Contact your enrollment representative for information on a program's eligibility for federal financial aid.

Admissions and program requirements vary by state. Please refer to the Academic Catalog for state- and/or program-specific information at: https://www.phoenix.edu/degrees/academic-catalog.html

In addition to the FAFSA, the following may be required to be completed during the federal financial aid process:

- Federal Direct Loan Master Promissory Note (MPN)
- Entrance counseling

A student should reapply for financial aid prior to the start of each new academic year.

Referrals to the Office of Inspector General

University of Phoenix is required by law to make referrals to the Office of Inspector General any time there is credible information or evidence that an applicant (student) may have engaged in fraud or other criminal misconduct in connection with the application for or receipt of federal financial aid funds.

Federal, State and Institutional Financial Aid Programs

Degree-seeking students who are U.S. citizens or eligible noncitizens enrolled in an eligible academic program at the University can apply for federal financial aid as a means of assisting with financing their education. Certificate programs may also be eligible for federal financial aid. Depending on the program, student eligibility may be need-based, non-need-based, credit-based or dependent on other specific conditions.

Students may also be eligible to receive funding through state grant or scholarship programs in their states where available. Students should contact Student Financial Services at 866.766.0766 for additional information on the financial aid programs available at each campus. A list of campuses is available at https://www.phoenix.edu/campus-locations.html
General Eligibility Requirements

General eligibility requirements that must be met prior to a student receiving federal financial aid for most federal, state, and institutional funding are as follows:

- Must be enrolled at least half-time to be eligible for Direct Loan
- Must be enrolled or accepted for enrollment as a regular student
- Victims of Natural Disaster
  - Must have a valid Social Security number (with the exception of students from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau)
- Must be admitted as a degree-seeking student to a qualified program
- Must be a U.S. citizen or eligible non-citizen
- Must have a valid Social Security number (with the exception of students from the Republic of the Marshall Islands, Federated States of Micronesia, or the Republic of Palau)
- Must be enrolled or accepted for enrollment as a regular student in an eligible degree or certificate program*
- Must be enrolled at least half time to be eligible for Direct Loan Program funds
- Must not be in default on any prior federal student loan
- Must be meeting the University’s Financial Aid Satisfactory Academic Progress standards
- Must submit all requested documents and those documents must not be found to limit the student’s eligibility
- Must not owe an overpayment on any federal financial aid grant or federal Direct Loan program funds
- Must have a high school diploma or GED certificate, or pass a test approved by the U.S. Department of Education, or have completed a high school education in a home school setting approved under state law

For additional eligibility requirements, visit https://studentaid.gov/understand-aid/eligibility/requirements

* Federal aid funding is available only for those credits required to complete the student's primary program of study. Federal aid funding will cease once the maximum number of credits for the primary program have been completed. Federal financial aid may not be available for additional coursework in the pursuit of a concentration or otherwise, if not included within the requirements of the primary program of study.

Victims of Natural Disaster

If an affected individual (student and/or parent, if applicable) impacted by a federally declared major disaster as defined in The Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122(2)) notifies the University that he/she has been impacted, any federal or state aid, whether in the form of grants or low-interest loans, received by the affected individual for the purpose of providing financial relief is not counted as income for calculating the family’s EFC. Students should contact their Finance Advisor for further information.

Grant Programs

Federal Programs

University of Phoenix participates in the following federal programs:

Federal Pell Grant

A Federal Pell Grant, unlike a loan, does not have to be repaid. Pell Grants may be awarded to undergraduate students who have not earned a bachelor’s or a professional degree. The amount of aid students can receive varies depending on their financial need, cost of attendance and other eligibility criteria.

Students can receive the Federal Pell Grant for no more than 12 semesters or the equivalent: https://studentaid.gov/understand-aid/types/grants/pell/calculate-eligibility

For more detailed information on eligibility and how to apply for the Federal Pell Grant, visit https://studentaid.gov/understand-aid/types/grants/pell

For additional information on how the University calculates and awards Pell Grants, please review the Federal Pell Grant/IASG Policy in the Financial Aid Policies appendix.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The FSEOG program is for undergraduate students pursuing their first bachelor's degree and demonstrating exceptional financial need. Federal Pell Grant recipients with the lowest expected family contributions (EFCs) will be considered first for an FSEOG. The FSEOG does not have to be repaid.

For more detailed information on eligibility and how to apply for FSEOG, visit: https://studentaid.gov/understand-aid/types/grants/fseog

Iraq and Afghanistan Service Grant (IASG)

A student whose parent or guardian was a member of the U.S. Armed Forces and died as a result of service performed in Iraq or Afghanistan after Sept. 11, 2001, may be eligible to receive the Iraq and Afghanistan Service Grant if:

- The student is pursuing a first bachelor's degree;
- The student is not eligible for a Federal Pell Grant on the basis of the student's Expected Family Contribution (EFC) but meets the remaining Federal Pell Grant Eligibility requirements; and
- At the time of the parent/guardian's death, the student was less than 24 years old OR enrolled at least part time at an institution of higher education

The maximum award of the IASG is equal to the maximum Federal Pell Grant that is available for the award year, but cannot exceed the student’s cost of attendance when coordinated with the student’s other financial aid awards. As required by the Budget Control Act of 2011 (the sequestration law), award amounts for any IASG that is first disbursed on or after October 1, 2021, and before October 1, 2022 must be reduced by 5.7 percent. This amount changes every year based on the Budget Control Act.

For more detailed information on eligibility and how to apply for the IASG, visit: https://studentaid.gov/understand-aid/types/grants/iraq-afghanistan-service

For additional information on how the University calculates and awards IASG grants, please review the Federal Pell Grant/IASG Policy in the Financial Aid Policies appendix.
State Grants
Students may also be eligible to receive funding through state grant or scholarship programs, where available. Depending on the program, student eligibility may be need-based, non-need-based, credit-based or dependent on other specific conditions. Contact Student Financial Services at (866)766-0766 for additional information on state grant and/or scholarship programs. A list of campuses is available at: https://www.phoenix.edu/campus-locations.html
The actual amount of state grants awarded to any student is contingent on the availability of funds. The University cannot guarantee any funding from the state grant sources listed, as the list is subject to change without notice based upon changes in state budgetary constraints, state law or regulation, and/or University participation.
For information regarding the grants offered by states - how to apply, eligibility, deadlines, etc. - see the list of programs and their respective websites and phone numbers below. For additional specific eligibility information, the institution may contact you directly.

Scholarships
The University of Phoenix website has a comprehensive scholarship section at https://www.phoenix.edu/tuition_and_financial_options/scholarship-opportunities.html to aid students in their scholarship efforts. This website features scholarships offered by University of Phoenix, links to various external scholarships through iGrad, scholarship resources, tips, answers to frequently asked questions (FAQ) and more.

Federal Scholarships
Children of Fallen Heroes Scholarship
A Federal Pell Grant-Eligible student whose parent or guardian died in the line of duty while serving as a public safety officer is eligible, under the Children of Fallen Heroes Scholarship, to receive a maximum Federal Pell Grant award.
To qualify for this scholarship, a student must:
• Be otherwise eligible for the Federal Pell Grant;
• Have a Federal Pell Grant eligible EFC
• Be less than 24 years of age OR enrolled at an institution of higher education at the time of the parent or guardian’s death

Definition of a public safety officer:
  • an individual serving a public agency in an official capacity, with or without compensation, as a law enforcement officer, as a firefighter, or as a chaplain;
  • an employee of the Federal Emergency Management Agency who is performing official duties of the agency in an area, if those official duties—
    - are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and
    - are determined by the director of the Federal Emergency Management Agency to be hazardous duties;
  • an employee of a state, local, or tribal emergency management or civil defense agency who is performing official duties in cooperation with the Federal Emergency Management Agency in an area, if those official duties—
    - are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and
    - are determined by the head of the agency to be hazardous duties; or
  • a member of a rescue squad or ambulance crew who, as authorized or licensed by law and by the applicable agency or entity, is engaging in rescue activity or in the provision of emergency medical services.

• A fire police officer, defined as an individual serving a public agency in an official capacity, with or without compensation, as a fire police officer, or as a chaplain:
  • a fire police officer, defined as an individual who is serving in an official capacity, with or without compensation, as a fire police officer, or as a chaplain;
  • a designated member of a legally organized public safety agency who is performing official duties—
    - in cooperation with the Federal Emergency Management Agency to be hazardous duties; or
    - are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and
    - are determined by the head of the agency to be hazardous duties; or
  • a member of a rescue squad or ambulance crew who, as authorized or licensed by law and by the applicable agency or entity, is engaging in rescue activity or in the provision of emergency medical services.

• A law enforcement officer, defined as an individual serving a public agency in an official capacity, with or without compensation, as a law enforcement officer, as a firefighter, or as a chaplain:
  • a law enforcement officer, defined as an individual who is serving in an official capacity, with or without compensation, as a law enforcement officer, as a firefighter, or as a chaplain;
  • an employee of a state, local, or tribal emergency management or civil defense agency who is performing official duties—
    - in cooperation with the Federal Emergency Management Agency to be hazardous duties; or
    - are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and
    - are determined by the head of the agency to be hazardous duties; or
  • a member of a rescue squad or ambulance crew who, as authorized or licensed by law and by the applicable agency or entity, is engaging in rescue activity or in the provision of emergency medical services.

• A firefighter, defined as an individual serving a public agency in an official capacity, with or without compensation, as a firefighter, or as a chaplain:
  • a firefighter, defined as an individual who is serving in an official capacity, with or without compensation, as a firefighter, or as a chaplain;
  • an employee of a state, local, or tribal emergency management or civil defense agency who is performing official duties—
    - in cooperation with the Federal Emergency Management Agency to be hazardous duties; or
    - are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and
    - are determined by the head of the agency to be hazardous duties; or
  • a member of a rescue squad or ambulance crew who, as authorized or licensed by law and by the applicable agency or entity, is engaging in rescue activity or in the provision of emergency medical services.

• A chaplain, defined as an individual serving a public agency in an official capacity, with or without compensation, as a chaplain:
  • a chaplain, defined as an individual who is serving in an official capacity, with or without compensation, as a chaplain;
  • an employee of a state, local, or tribal emergency management or civil defense agency who is performing official duties—
    - in cooperation with the Federal Emergency Management Agency to be hazardous duties; or
    - are related to a major disaster or emergency that has been, or is later, declared to exist with respect to the area under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.); and
    - are determined by the head of the agency to be hazardous duties; or
  • a member of a rescue squad or ambulance crew who, as authorized or licensed by law and by the applicable agency or entity, is engaging in rescue activity or in the provision of emergency medical services.

• A public safety officer, defined as an individual serving a public agency in an official capacity, with or without compensation, as a law enforcement officer, as a firefighter, or as a chaplain:
Students who believe they qualify for this scholarship must notify
the University’s Student Financial Services at StudentFinancialSer-
vice@phoenix.edu or 888-346-8679 and provide any required doc-
umentation requested. The University will determine, based on the
documentation submitted, whether or not the student meets the
eligibility criteria

**Institutional Scholarships**

University of Phoenix offers a number of institutional scholarships
to current or potential students. The University website,
https://www.phoenix.edu/tuition_and_financial_options/
Scholarship-opportunities.html is updated regularly for institu-
tional scholarships, qualifications and selection criteria as opportu-
nities become available.

**External Scholarships**

External scholarships are available to the general public, which
may include University of Phoenix students. Private outside enti-
ties develop and fund external scholarships. A student’s eligibility
for an external scholarship depends on qualifying requirements
that vary from scholarship to scholarship as determined by the
provider. We’ve worked with iGrad to provide a search tool with a
list of many available national and local scholarships. Current stu-
dents can access iGrad directly through the student portal. Pro-
spective students can create an iGrad account at
https://phoenix.igrad.com/ to learn more.

**University Tuition Adjustments**

The University understands that from time to time a student may
experience an unexpected financial hardship impacting his/her
ability to pay a tuition and fee balance owed to the University. The
University offers several programs to assist these students. These
programs will have varied eligibility criteria and may require the
student exhaust all other forms of federal financial aid including
Federal Pell Grant and Direct Subsidized and Unsubsidized Loans.
Students who are experiencing a financial hardship and wish to be
considered for these programs should speak with their Financial
Advisor.

Note: The University reserves the right to discontinue these pro-
grams without advance notice.

**Loans**

**Federal Direct Loan (DL) Program**

Direct Loans, from the William D. Ford Federal Direct Loan Pro-
gram, are low-interest loans for eligible students to help cover the
cost of higher education. Eligible students borrow directly from the
U.S. Department of Education at participating schools.

**Direct Subsidized Loans** - Direct Subsidized Loans are for students
with financial need. The University will review the results of the
FAFSA and determine the amount a student can borrow. The stu-
dent is not charged interest while enrolled in school at least half-
time.

**Direct Unsubsidized Loans** - Direct Unsubsidized Loans are avail-
able to students with and without financial need. Like subsidized
loans, the University will review the results of the FAFSA to deter-
mine the amount a student can borrow. Interest accrues (acumu-
lates) on an unsubsidized loan, even while the student is in school,
beginning on the date the loan is initially disbursed. The student
can pay the interest, or can allow it to accrue and be capitalized
(that is, added to the principal amount of the loan). If a student
chooses not to pay the interest as it accrues, this will increase the
total amount to be repaid because the student will be charged
interest on a higher principal amount.

**Terms and Conditions** - Students who receive a Direct Loan are
subject to the terms and conditions disclosed on the Federal Direct
Loan Master Promissory Note (MPN), https://studentaid.gov/
app/launchMpn.action and the Direct Loan Disclosure Statement

**Borrower’s Rights and Responsibilities** - Students receiving federal
financial aid have varying rights and responsibilities in accordance
with the Borrower’s Rights and Responsibilities Statement,
https://studentaid.gov/app/mpnUnsubHTMLPreview.action
attached to the Master Promissory Note (MPN).

For more detailed information on eligibility and how to apply for
the Federal Direct Subsidized and Unsubsidized Loan Program,
visit https://studentaid.gov/understand-aid/types/loans/subsi-
dized-unsubsidized.

*Generally, a first-time borrower is one who did not have an outstanding
balance of principal or interest on a Direct Loan or on an FFEL Program
Loan on July 1, 2013*

**Federal Direct PLUS Loan for Parent(s)**

Parents of dependent students may apply for a Direct PLUS Loan
to help pay their child’s education expenses as long as certain eligi-
bility requirements are met. Direct PLUS Loan eligibility is depend-
ent upon the applicant’s credit history. If it is determined that the
applicant has adverse credit history, the applicant will have the
option to appeal the credit decision or pursue an endorser. If a par-ent is unable to secure a Direct PLUS Loan, the dependent student
may be eligible for additional unsubsidized loans.

**Terms and Conditions** - Students whose parent(s) receive a PLUS
Loan are subject to the terms and conditions disclosed on the Fed-
eral Direct PLUS Loan Application and Master Promissory Note
(MPN) at https://studentaid.gov/app/launchMpn.action

**Borrower’s Rights and Responsibilities** - Parents receiving federal
financial aid have varying rights and responsibilities in accordance
with the Borrower’s Rights and Responsibilities Statement,
https://studentaid.gov/app/mpnPlusHTMLPreview.action,
attached to the Master Promissory Note (MPN).

For more detailed information on eligibility and how to apply for
Direct Parent PLUS Loans, visit
https://studentaid.gov/understand-aid/types/loans/plus
Federal Direct PLUS Loan for Graduate and Professional Degree Students

Graduate and professional degree students can borrow a Direct PLUS Loan to help cover education expenses at a fixed interest rate. Direct PLUS Loan eligibility is dependent upon the applicant's credit history. If it is determined that the applicant has adverse credit history, the applicant will have the option to appeal the credit decision or to obtain an endorser.

**Award Amount** - Students are eligible to receive a Graduate PLUS Loan award up to their academic year cost of attendance (COA) minus any other financial assistance received.

**Terms and Conditions** - Students who receive a PLUS Loan for Graduate and Professional programs are subject to the terms and conditions disclosed on the Federal Direct PLUS Loan Application and Master Promissory Note (MPN) at https://studentaid.gov/app/launchMpn.action

**Borrower's Rights and Responsibilities** - Students receiving federal financial aid have varying rights and responsibilities in accordance with the Borrower’s Rights and Responsibilities Statement, https://studentaid.gov/app/launchPLUS.action?plusType=grad-Plus.

For more detailed information on eligibility and how to apply for the Direct PLUS Loan for Graduate and Professional students, visit https://studentaid.gov/understand-aid/types/loans/plus and https://studentaid.gov/app/launchPLUS.action?plusType=grad-Plus.

For information regarding Federal Student Loan Interest Rates, including Direct PLUS Loans, please visit https://studentaid.gov/understand-aid/types/loans/interest-rates

**Federal Direct Subsidized and Unsubsidized Annual Loan Limits**

Federal Direct Subsidized and Unsubsidized Annual and Aggregate Loan Limits are as follows:

<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Dependent Undergraduate Student</th>
<th>Independent Undergraduate Student</th>
<th>Graduate/Professional Student</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Freshman</td>
<td>$5,500 - No more than $5,500 of this amount can be a subsidized loan</td>
<td>$9,500 - No more than $3,500 of this amount can be a subsidized loan</td>
<td>$20,500 Unsubsidized Loan only.*</td>
</tr>
<tr>
<td>2 Sophomore</td>
<td>$6,500 - No more than $4,500 of this amount can be a subsidized loan</td>
<td>$10,500 - No more than $4,500 of this amount can be a subsidized loan</td>
<td>The aggregate amounts for graduate students include loans for undergraduate study.</td>
</tr>
<tr>
<td>3 &amp; 4</td>
<td>$7,500 - No more than $5,500 of this amount can be a subsidized loan</td>
<td>$12,500 - No more than $5,500 of this amount can be a subsidized loan</td>
<td></td>
</tr>
</tbody>
</table>

A student whose parent cannot obtain a PLUS Loan is allowed to borrow additional unsubsidized federal Direct amounts up to the amounts available to independent undergraduate students. Student dependency status will be determined based on answers to questions on the FAFSA.

**Federal Education Loan Interest Rates and Origination Fees**

For information regarding Federal Student Loan Interest Rates and Origination Fees, please visit https://studentaid.gov/ed.gov/types/loans/interest-rates

**Interest Rate Cap for Military Members**

During military service, students who qualify under the Service-members Civil Relief Act may be eligible for a 6% interest rate cap on the loans obtained before entering military service. Qualifying students must contact their loan servicer to request this benefit. In addition, no interest is charged (for a period of no more than 60 months) on Direct Loans first disbursed on or after Oct. 1, 2008, while a borrower is serving on active duty or performing qualifying National Guard duty during a war, other military operation or national emergency, and serving in an area of hostilities qualifying for special pay. Qualifying students should contact their loan servicer for eligibility details and to request this benefit.

**Prior Federal Loans and Financial Aid History**

Federal financial aid borrowers can check the interest rate, servicer information and other financial aid history by logging in to StudentAid.gov.
State Loans
The University does not actively participate in nor promote any specific state loan programs. Students interested in a state loan program should contact their respective state for information on rates, how to apply, and any terms and conditions. The University will complete and provide information to the state for any state loans that have been requested as required. Based on University records, students have recently received state loans from the following states:

**Arizona**
Arizona Commission for Postsecondary Education (ACPE)
(602) 258-2435
https://highered.az.gov

Arizona Teacher Student Loan Program (formerly Math, Science, and Special Education Teacher Loan Forgiveness Program)

**New Jersey**
Higher Education Student Assistance Authority
https://www.hesaa.org/Pages/Default.aspx

NJCLASS Family Loan
https://www.hesaa.org/Pages/NJCLASSHome.aspx

**Ohio**
Ohio Higher Ed
http://www.ohiohighered.org/

Nurse Education Assistance Loan Program (NEALP)
Tamika Braswell
(614) 728-8862
https://www.ohiohighered.org/nealp

**Vermont**
Vermont Student Assistance Corp (VSAC)
(800) 882-4166 | Burlington area (802)-654-3750
https://www.vsac.org/

Vermont Student Assistance Corp Loan
https://www.vsac.org/student-loans

**Private Student Loans**
Private loans may be available for both students and parents who are not eligible for need-based federal financial aid or who want to supplement their federal and/or state financial aid. These loans are made privately through lenders and other financial institutions and are subject to a credit review and individual lender terms and conditions. Students may choose to use any eligible lender that offers private loans. The University does not maintain a list of lenders that offer private loans, nor will it endorse a particular lender. For debt management purposes, the University encourages applicants to first complete the federal financial aid application to determine eligibility for grants and federal direct loans and to borrow wisely, utilizing funding solely for direct educational expenses related to attendance at the University.

Students applying for a private loan are required to complete a Self-Certification form before the lender can disburse funds to the University. Students complete the form directly with the lender. However, the University may assist in completion of applicable sections of the form. If a student requests a self-certification form, the University will provide the written or electronic form developed by the Secretary. The lender determines eligibility and amounts are limited to the cost of attendance minus other aid, including discounts and any other resources received.

For more information on the difference between federal and private loans, please visit http://www.consumerfinance.gov/paying-for-college/choose-a-student-loan/

Financial Aid Awarding
For students who have completed all required financial aid materials, the University will evaluate student eligibility for federal, state and institutional aid programs. State grant program eligibility is determined by each state authority. The University is notified of student eligibility by the state authority. Institutional grant and scholarship eligibility determination will vary.

**Academic Year Requirements for Financial Aid Recipients**
The University defines its academic year for financial aid eligible programs as follows:

- Undergraduate Certificate programs are a minimum of 24 credits and 40 weeks of instructional time.
- Graduate Certificate programs are a minimum of 24 credits and 48 weeks of instructional time.
- Graduate Initial Teacher Certificate (Elementary and Special Education only) are a minimum of 27 credits and 61 weeks of instructional time.
- Associate programs (9-week model) are a minimum of 24 credits and 36 weeks of instructional time.
- Associate programs (5-week model) are a minimum of 24 credits and 40 weeks of instructional time.
- Bachelor’s programs are a minimum of 24 credits and 40 weeks of instructional time.
- Bachelor’s programs are a minimum of 24 credits and 48 weeks of instructional time.
- Master’s programs are a minimum of 24 credits and 48 weeks of instructional time.
- Competency Based Education (CBE) Programs are a minimum of 24 credits and 32 weeks of instructional time.
- Doctoral programs are a minimum of 24 credits and 48 weeks of instructional time.

**Note:** The academic year definition may vary based on program level, version, and course length. The academic year begins with the first eligible course of a degree program and ends when a student successfully completes both the credits and weeks of instructional time requirements. An academic year has no calendar time constraints and continues through periods of nonattendance that are less than 180 days until both the credit and weeks requirements are met. A week of instructional time is a week (a consecutive seven-day period) in which one day of instruction occurs. Instructional time does not include periods of vacation, orientation, or homework. An academic year that begins before a previous existing academic year has ended is considered an overlapping academic year.

Students who overlap courses or take courses concurrently may be required to complete additional credits to meet the number of weeks of instructional time required to complete the academic year.

The academic policy of the University prohibits a student from taking more than two courses concurrently without written approval from the Campus Director of Academic Affairs.
Cost of Attendance

The cost of attendance (COA) is used in calculating a student's amount of federal financial aid eligibility and awarding financial aid for a specific period of enrollment. The following chart lists the University's current COA. To learn more about the University's COA, refer to the Cost of Attendance Policy in the appendices.

For detailed information regarding actual tuition fees for programs and locations, contact a finance advisor or visit the tuition and fees section of the University’s academic catalog: https://www.phoenix.edu/degrees/academic-catalog.html.
Grade-Level Determination

Determination of grade level is an important part of calculating eligibility for federal and state financial aid. The University determines the student's grade level by calculating the total number of credits that were completed at the beginning of an academic year. For example, a student with 12 transfer credits at the start of his or her program at the University will be considered a grade level 1 student. After the completion of one academic year of 24 credits, the student will have a total of 36 credits completed, making the student eligible for grade level 2 loans in his or her second academic year.

The following chart illustrates the number of credits required to complete each grade level.

<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Credits Completed for Primary Program (Includes Transfer Credit)</th>
</tr>
</thead>
<tbody>
<tr>
<td>GL 1 (freshman)</td>
<td>0-24</td>
</tr>
<tr>
<td>GL 2 (sophomore)</td>
<td>25-48</td>
</tr>
<tr>
<td>GL 3 (junior)</td>
<td>49-72</td>
</tr>
<tr>
<td>GL 4 (senior)</td>
<td>73+</td>
</tr>
</tbody>
</table>

Note: A student in a two-year program cannot receive more than a grade level 2 (GL 2) annual loan limit in any given year, no matter how long it takes to complete the program. A student in an undergraduate certificate program cannot receive more than a grade level 1 (GL 1) annual loan limit in any given year, no matter how long it takes to complete the undergraduate certificate.

For information on academic year definitions, please see the Academic Year Definition Policy in the Financial Aid Policies appendix.

Professional Judgment

The University may exercise discretion to accommodate special circumstances, with respect to some aspects of eligibility, using professional judgment. Professional judgment allows the University to treat a student individually when the student has special circumstances not sufficiently addressed by standard procedures. The University uses professional judgment on a case-by-case basis.

Special circumstances will include conditions that differentiate an individual student from a whole class of students and those impacted by a federally declared major disaster, as defined in the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122(2)).

The University will not accept professional judgments made for a student by another school but will independently review the circumstances and, if appropriate, document the professional judgment decision. The decision of the University regarding professional judgment is final and cannot be appealed to the U.S. Department of Education.

If a student wishes to request a professional judgment, the student should email Student Financial Services at StudentFinancialServices@phoenix.edu or speak over the phone at 1-888-346-8679.

The following are a few examples of when the University may make a professional judgment:

- elementary or secondary school tuition,
- medical or dental expenses not covered by insurance,
- nursing home expenses not covered by insurance,
- dependent care,
- childcare costs,
- a student who is a dislocated worker,
- the loss of employment of an independent student,
- cases where a family member is a dislocated worker,
- cases where a change in the student's housing status results in homelessness,
- recent unemployment of a family member whose income is included,
- other changes in the family's income, assets or a student's status,
- number of parents enrolled at least half-time in a degree, certificate, or other program leading to a recognized educational credential at an institution with a program participation agreement.

NOTE: The use of professional judgment is neither limited to nor required in the situations mentioned above. The University will complete verification before exercising professional judgment for students who have been selected for verification.

Verification

A federal financial aid student may be selected for verification by the U.S. Department of Education Central Processing System (CPS). The CPS prints an asterisk next to the expected family contribution (EFC) on the Student Aid Report (SAR) or SAR Acknowledgement to identify the student has been selected for verification. The purpose of verification is to maintain the integrity of federal financial aid programs by verifying the information provided by students and parents on financial aid applications. For further information on the verification process and actions required, refer to the Verification and Conflicting Information Policy in the Financial Aid Policies Appendix.
Conflicting Information

The University must identify and resolve discrepancies in the information received from different sources that affect a student's eligibility for federal student aid. Some of these areas include but are not limited to:

- All student applications (e.g., Admissions Application, FAFSA, etc.)
- Need analysis documents received from ED (e.g., Institutional Student Information Records (ISIRs))
- Federal Tax Return Transcripts and copies of federal tax returns
- Information regarding a student's citizenship
- Previous educational experience (e.g., school credentials such as a high school diploma)
- Documentation of the student's Social Security Number (SSN)
- Late arriving aid from third party sources (see Other Resources section below)
- Other factors relating to the student's eligibility for Federal Student Aid Programs (e.g., compliance with the Selective Service registration requirement)

Other Resources

Students are required to disclose financial assistance (i.e., other resources) that will be paid by a third party on their behalf. Based on the type of other resource received, it may be considered estimated financial assistance (EFA). If it is considered EFA, it will be included in determining if the student's assistance exceeds the cost of attendance. For examples of other resources, please refer to the Packaging Philosophy Policy in the Financial Aid Policies Appendix.

A student must have financial need to receive all federal financial aid funds except for Direct Unsubsidized and PLUS Loans under the Direct Loans program. As such, a student's expected family contribution and other resources will be subtracted from the cost of attendance when determining eligibility for federal financial aid (Title IV). All awards, including need and non-need-based aid, cannot exceed a student's annual cost of attendance.

If the University receives other additional resources that cause the student to exceed the cost of attendance, it will adjust the awards appropriately to eliminate the overaward. This may include reducing future disbursements for a second or subsequent payment period or returning awards to the funding source. Funds will be returned in the order most beneficial to the student. Please refer to the Overawards and Overpayments Policy in the Financial Aid Policies Appendix for further information.

Satisfactory Academic Progress

Information regarding University academic progress standards for individual programs and information regarding the University's Program and Cumulative Grade Point Average policy may be found under the Academic Policies section of the appropriate University Academic Catalog at https://www.phoenix.edu/degrees/academic-catalog.html

Information regarding satisfactory academic progress for financial aid recipients can be found in the Federal Financial Aid Satisfactory Academic Progress (SAP) Policy of the Financial Aid Policies Appendix.

Satisfactory Academic Progress for VA Education Benefits

To receive Department of Veterans Affairs (VA) education benefits, a student must maintain satisfactory academic progress (SAP) and conduct accordingly, benefits will be terminated for individuals who are disqualified, suspended or expelled from the University.

Academic Probation

Academic probation (AP) shall occur when a grade point average (GPA) falls below acceptable levels for the program. Probation lasts for a period of four consecutive program-applicable courses. Concurrent enrollment is prohibited during the four-course AP sequence.

Associate degree students enrolled online should continue traditional block scheduling format with concurrent enrollment in two courses (excluding AACR and AAPF). In graduate programs, the four-course sequence excludes any undergraduate prerequisite courses.

Financial aid students will continue to receive funds during the probationary period.

Veteran students will continue to receive VA education benefits during the probation period.

The veteran will be informed of the probation, and a notation to the student VA file will be recorded when the probationary period commenced.

Academic Disqualification

Academic disqualification (AD) will result if a student fails to clear an academic probation status within four courses from the onset of probation. Veteran students will not be eligible for VA educational benefits after disqualification. The VA and student will be notified of the disqualification. To reapply, a formal application for admission must be submitted in accordance with University admission procedures. In addition, applicants should explain the reasons for the scholastic deficiencies; the manner in which the intervening time has been spent; and why they should be given favorable consideration for readmission.

The readmission file will be reviewed by the Student Appeals Center and a decision reached regarding readmission. If approved, the student would be required to complete all program requirements in effect at the time of readmission. An application for VA education benefits will also be necessary to re-establish benefits with University of Phoenix. If readmission to the University is approved, please contact your Academic Advisor to determine if your chosen program remains eligible for VA education benefits.

Student Financial Responsibilities, Policies and Options

Student Financial Responsibilities

The University will invoice students enrolled in traditional and credit-based competency-based education (CBE) programs for all courses and mandatory fees anticipated for a payment period, which represents half of the student's academic year. A payment period typically includes four courses.

The University will invoice students enrolled in direct assessment competency-based education (CBE) programs the applicable published tuition rate for the term, which represents a quarter of the student's academic year.
Students are responsible for ensuring all tuition and mandatory fees are paid, whether in attendance or not. Students can access account balances and student account information on the student portal. When a student is considered administratively, officially or unofficially withdrawn from his or her program, the University must determine how much federal financial aid funds were earned if the student is a Title IV recipient and return any unearned portion to the appropriate federal financial aid program(s). As a result, the withdrawn Title IV recipient may owe payment to the University or may be eligible to receive a refund.

**Meeting Financial Plan Obligations**

Students are subject to finance approval by Financial Services prior to enrolling in a course or term. Tuition, mandatory fees, and sales tax, if applicable, for each course or term must be paid according to the terms of the primary financial option indicated in the student’s Financial Plan located on the student website. Students may not be allowed to attend courses or the term if a payment is due or if paperwork is required. All necessary paperwork or payment arrangements should be resolved prior to the course or term deadline.

A student may be administratively withdrawn from the program for failure to make payment in accordance with the Student Responsibility to Pay Agreement. Students who are administratively withdrawn will not be permitted to attend a future course or term until the amount owed is paid in full or satisfactory payment arrangements are made. If payment for tuition and mandatory fees is not received, the student may be withdrawn from the program and subjected to the collections process. The University reserves the right to refer your delinquent account to a 3rd party collection agency. All costs of collection, court costs and reasonable attorneys’ fees may be added to delinquent accounts collected through third parties.

**Tuition**

Information regarding the University’s tuition rates is published in the University’s Academic Catalog’s Tuition and Fees section.

**Mandatory Fees**

Information regarding the University’s mandatory fees is published in the University’s Academic Catalog’s Tuition and Fees section.

**State Tax**

The University will collect sales tax on tuition, mandatory fees, digital goods or access to digital information as required by state law. Contact Student Financial Services for the current list of states requiring sales tax to be collected.

**Financial Policies**

**Multiple-Tuition Discount Policy**

The University offers various promotional offers which may have overlapping active periods. Students will receive all promotional offers for which they qualify per each promotions eligibility standards. There are some promotions which may not combine with other offers. If you have a question regarding not receiving promotional benefits for which you believe you qualify please contact Student Financial Services at StudentFinancialServices@phoenix.edu or at 888.346.8679.

**Payment Policies**

Payments are accepted on the student portal at http://my.phoenix.edu by check, credit card or debit card. Student Financial Services can also process credit card or debit card payments. The student can mail a check, certified check or money order payment to the following address:

**University of Phoenix**

Dept 880175

P.O. Box 29650

Phoenix, AZ 85038-9650

If a credit card or a debit card is provided with a completed Authorization to Charge form, tuition, mandatory fees, and applicable sales tax will be charged to that card. Automatic payments are set prior to each course upon request.

The University is not responsible for fees or penalties incurred as a result of payment with a debit card or other restrictive payment cards. The student should contact his or her financial institution for account balances, daily transaction limits and other restrictions.

**Tuition Refund Policy**

**Institutional**

**Credit Based Programs (Traditional & Competency Based)**

The following provisions pertain to all refund policies applied by the University, unless specifically stated otherwise.

- Students who withdraw from a course prior to the start date will receive a 100% refund for that course.
- Students who have completed 60% or less of the course are eligible for a pro rata refund. The pro rata refund percentage will be calculated by dividing the number of weeks remaining by the total number of weeks in the course. *
- The University does not refund tuition for any completed course.

When a student begins a program under Applicant (RR) status, pending the completion of the student admission file, and is subsequently denied admission, the student may be eligible for a full tuition refund. A request for such a refund must be made in writing to a Financial Advisor within 60 days of the denied admission. Here is an illustrative example of a refund for a 5-week course at the University:

<table>
<thead>
<tr>
<th>Weeks Attended</th>
<th>Refund for 5-Week Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Week</td>
<td>80% Refund</td>
</tr>
<tr>
<td>2 Weeks</td>
<td>60% Refund</td>
</tr>
<tr>
<td>3 Weeks</td>
<td>40% Refund</td>
</tr>
<tr>
<td>4 Weeks</td>
<td>No Refund</td>
</tr>
<tr>
<td>5 Weeks</td>
<td>No Refund</td>
</tr>
</tbody>
</table>

* Attendance for doctoral residency is submitted after the student has attended and completed all days in the residency.
Direct Assessment Competency-Based Programs
The following tuition refund policy provisions pertain to Direct Assessment CBE programs as applied by the University, unless specifically stated otherwise:

- Students who withdraw from all course(s) prior to the term start date will receive a 100% refund of the cost for the term.
- Students who do not have at least one academically related activity (ARA) recorded in at least one course within the first 14 days of the term will be dropped from all courses as of the 15th day (census date) of the term and receive a 100% refund of the cost for the term.
- Students who have met the term enrollment requirement by having at least one ARA recorded in at least one course within the first 14 days of the term must proactively request withdrawal from all courses prior to day 15 (census date) to receive a 100% refund of the cost for the term.
- Students enrolled in one or more courses, who have met the term enrollment requirement as of the 15th day (census date) of the term, will be responsible for the full cost of the term.
- A student who has met the term enrollment requirement as of the 15th day (census date) of the term will be ineligible for a refund.

resources fees are nonrefundable, unless prohibited by law. A student who withdraws from a course will be granted access to the electronic course materials for that course without additional charge if the course is retaken within 180 days of the course’s original start date.

State
If a student attends a class in one of these states, the specific state refund policy will be applied in addition to the University Institutional Refund Policy. In the event that there is a conflict in the policies, the state policy will supersede the general University policy, unless the University policy is better for the student’s situation. These policies are outlined below.

Arizona
Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement. Otherwise, students in Arizona will have tuition refunded using the University Institutional Refund Policy.

California
Students in the state of California will have tuition refunded using the University Institutional Refund Policy with the following exception: Students have the right to cancel the Enrollment Agreement and obtain a refund of charges paid through attendance at the first class session or the seventh day after enrollment, whichever is later.

To cancel enrollment, the student must submit a written request postmarked on or before the applicable time period to the campus services operations manager at the appropriate address listed below.

Refund administrative address for students attending any of the four California regions (Southern California, San Diego, Central Valley and Sacramento Valley):

University of Phoenix
3110 E Guasti Road
Ontario, CA 91761

Refund administrative address for California residents attending Online:

University of Phoenix
4035 S Riverpoint Pkwy.
Phoenix, AZ 85040

Nevada
Students in the state of Nevada will have tuition refunded using the University Institutional Refund Policy with the following exceptions:

- If it is determined the University substantially failed to furnish the program agreed upon in the enrollment agreement, the University will refund to the student all the monies paid.
- If the student withdraws, or is expelled, after the start of the first class session and before the completion of more than 60% of the program, the institution shall refund to the student the tuition agreed upon in the enrollment agreement in accordance with the University’s Institutional Refund Policy, minus 10% of the tuition agreed upon in the enrollment agreement or $150, whichever is less.
- Students who cancel enrollment any time before the start of the first class session will receive a full refund of all monies paid minus 10% of the tuition agreed upon in the enrollment agreement or $150, whichever is less.
- The University may retain any nonrefundable deposit paid to secure a position in the program upon acceptance.
- Refunds will be paid to the person who paid the tuition within 15 calendar days after one of the following, whichever is applicable:
  - The date of cancellation by a student of his or her enrollment
  - Termination by the University of the enrollment of the student
  - The last day of an authorized leave of absence, if a student fails to return after the period of authorized absence
  - The last day of attendance of a student
- For purposes of this refund calculation, the period of attendance is measured from the first day of instruction, as set forth in the Enrollment Agreement, through the last day of actual attendance, regardless of absences. In addition, tuition must be calculated using the tuition and fees set forth in the Enrollment Agreement and does not include books, educational supplies or equipment listed separately from tuition and fees. Books, educational supplies or equipment for individual use are not included in the policy for refund, and a separate refund will be paid by the University to the student if those items were not used by the student.
Online
Online students will be subject to the Arizona refund policy. Students have the right to a full refund of all monies paid, including application and materials fees, if they withdraw within three business days after signing the Enrollment Agreement. Otherwise, students will have tuition refunded using the University Institutional Refund Policy.

Financial Options
Understanding and choosing the right finance plan is critical to the successful completion of the student’s selected program. University of Phoenix offers a number of finance plan options to assist student’s in managing financial obligations. Depending on the program you enroll in, some finance plan options may not be available to you.

The University will invoice students enrolled in credit-based programs (traditional and competency based) for all courses and mandatory fees anticipated for a payment period, which represents half of the student’s academic year. A payment period typically includes four courses.

The University will invoice students enrolled in direct assessment programs (competency based) the applicable published tuition rate for the term, which represents a quarter of the student’s academic year.

The student can utilize one or more of the plans listed below, depending on personal circumstances and your program of study. For more detailed information regarding the University’s published tuition and mandatory fees for programs and locations, please refer to the University’s Academic Catalog or contact a finance advisor with any questions regarding financial options and scholarships.

Cash Plan
The Cash Plan is available to students who will be using e-checks or credit cards to pay for tuition and mandatory fees. Under the Cash Plan, tuition and mandatory fees will be assessed and invoiced in a single invoice at the beginning of the payment period or term, which is payable in full at the time of invoice or incrementally prior to the start of each applicable course.

To learn more, please visit https://www.phoenix.edu/student-orientation/paying-for-school.html

Federal Financial Aid Plan
The Federal Financial Aid Plan is available to students receiving federal grants, federal loans or both to pay for tuition and mandatory fees. Under the Federal Financial Aid Plan, tuition and mandatory fees will be assessed and invoiced in a single invoice at the beginning of the payment period.

The University will defer payment of applicable tuition and mandatory fees based on anticipated federal grant and/or loan disbursements. The Federal Financial Aid Plan requires all federal aid disbursed to be applied to tuition and mandatory fees invoiced. Tuition and mandatory fees invoiced but not paid by anticipated or actual federal grant and/or loan disbursements are payable in full at the time of invoice or incrementally prior to the start of each applicable course.

To learn more, please visit https://www.phoenix.edu/student-orientation/paying-for-school.html

Tuition Deferral Plan
The Tuition Deferral Plan is available for students who will receive military education benefits or whose employers offer to repay some or all of their employees’ tuition. Under the Tuition Deferral plan, tuition and electronic materials fees will be assessed and invoiced in a single invoice at the beginning of the payment period or term.

Military Education Benefits
The University will directly bill the U.S. Department of Veterans Affairs or U.S. Department of Defense for the student’s tuition and will defer payment of applicable tuition invoiced based on these agencies’ reimbursement policies and timeline. Electronic materials fees are payable in full at the time of invoice or incrementally prior to the start of each applicable course.

The University does not encourage or require a student using military Tuition Assistance benefits to pay his or her electronic course materials fee prior to attending class.

Employer Tuition Reimbursement
The University will defer payment of applicable tuition invoiced based on when the student will receive reimbursement from his or her employer. Electronic materials fees are payable in full at the time of invoice or incrementally prior to the start of each applicable course or term.

To learn more, please visit https://www.phoenix.edu/tuition_and_financial_options/financial_options/tuition-deferral-plan.html

Third-Party Billing Plan
The Third-Party Billing Plan is available to students who receive tribal education benefits or whose employer is approved by the University for direct billing of the student’s tuition. Under the Third-Party Billing Plan, tuition and electronic materials fees will be assessed and invoiced in a single invoice at the beginning of the payment period or term.

The University will directly bill the employer for the student’s tuition and will defer payment of applicable tuition invoiced based on the approved employer’s tuition payment policies and timeline. Electronic materials fees are payable in full at the time of invoice or incrementally prior to the start of each applicable course or term.

Approved Employer
Under the Third-Party Billing Plan, the University will directly bill the employer for the student’s tuition and will defer payment of applicable tuition invoiced based on the approved employer’s tuition payment policies and timeline. Electronic materials fees are payable in full at the time of invoice or incrementally prior to the start of each applicable course or term.

American Indian Tribal Nation Education Benefits
Several American Indian tribal nations provide funding for the tuition and electronic materials fees of a student who is a recognized member under the Third-Party Billing Plan. The University will directly bill the American Indian tribal nation and defer payment of applicable tuition and electronic materials fees invoiced based on the American Indian tribal nation’s education benefit reimbursement policy and timeline. For more information, please contact tribalrelations2@phoenix.edu

To learn more, please visit https://www.phoenix.edu/tuition_and_financial_options/financial_options/third_party_billing.html
Military Benefits

Veterans Education Benefits
Students who are entitled to federal VA education benefits must make initial contact with a campus Veterans Affairs certifying official. A formal application for admission to the University should be completed before applying for federal VA education benefits. Applications for veteran education benefits should be sent to a local campus point of contact, school certifying official at University of Phoenix central administration or Student Financial Services for submission to the U.S. Department of Veterans Affairs (VA). Each University of Phoenix program segregated by instructional modality (classroom-based or distance education) requires separate State Approving Agency (SAA) approval for the training of veterans or eligible persons. A student should contact a local campus for information on current approvals. Students who intend to use federal VA educational benefits for a specific program at an institution should confirm the program is eligible for federal VA funding on the WEAMS Institution Search website.

Federal VA education benefit eligibility and payment rates vary depending on each individual’s military history and the educational program being pursued. Only the VA can determine eligibility. For information, a student should contact a VA representative at 888 GI BILL 1 (888 442 4551) or review http://www.gibill.va.gov

If the VA determines that the student is not eligible for federal VA education benefits or determines that the student’s Certificate of Eligibility is for less than 100%, the student is responsible for paying any difference between the eligibility determination and the tuition and fees charged by the University.

Students needing to withdraw from the University should provide official notification of their intent to withdraw. Withdrawing may impact federal VA education benefits for the current course, as well as the availability of federal VA education benefits in future courses. Please contact your academic counselor to discuss the impact of withdrawing from a course.

Directed study courses have Defense Activity for Non-Traditional Education Support (DSST-DANTES) approval for tuition reimbursement. For more information on this program, a student should contact the educational service officer on the military base. University of Phoenix does not participate in the VA education advanced payment program. More information about veterans benefits can be reviewed at https://www.phoenix.edu/colleges_divisions/military.html

Visit the Department of Veterans Affairs website, http://www.gibill.va.gov, for additional information on educational entitlements.

Credit for Prior Education and Training
Credit for prior education or training must be evaluated and reported to the U.S. Department of Veterans Affairs (VA) prior to the start of week 25 of enrollment. The VA may not always pay federal education benefits after week 24 if the VA records indicate the student has a large amount of transfer credits.

Please ensure all prior education transcripts and Joint Services Transcripts (JST) (Army, Navy, Marine), Coast Guard Institute transcripts, or DD-295 and DD-214 forms are submitted for evaluation in a timely manner. The student is responsible for ensuring all transcripts are submitted to the University.

Academic credits earned for courses appearing on an official transcript from an accredited or candidate-for-accreditation college or university will be evaluated according to University policies, and accepted subject to the approval of the University Office of Admissions and Evaluation.

Transfer credits based on a different unit of credit than the one prescribed by University of Phoenix are subject to conversion before being transferred. Only the official transcript and course evaluations performed by the University Office of Admissions and Evaluation or Prior Learning Assessment Center are final. Any preliminary reviews by campus personnel are unofficial, not binding, and subject to change.

Students receiving Chapter 30, 32, 33, 35, 1606 and 1607 benefits while attending University of Phoenix North Carolina campuses are required to submit a copy of high school transcripts if they are transferring fewer than 24 credits to University of Phoenix from a previously attended postsecondary institution.

Military Tuition Assistance
To obtain federal Military Tuition Assistance, visit your local installation education office or virtual education center to receive college counseling and develop an education plan. From that point, a student can submit a Military Tuition Assistance request; for more information, visit https://www.phoenix.edu/colleges_divisions/military/military-financial-options.html.

A student can currently receive 100% of federal tuition assistance from military service, with a $250 cap per semester hour. Annual tuition assistance limits are determined by each branch of service and are subject to change at any time. If a student wants to apply for Military Tuition Assistance, that student will need to submit a completed authorization form to a military advisor at least two weeks before a course start date.

VA Tuition Assistance Top-Up Benefit
Top-Up allows VA to pay the difference between what Tuition Assistance (TA) pays and the cost of the course. The law prohibits active-duty students from receiving regular Chapter 30 benefits and TA for the same course; however, VA students, to include National Guard and Reserve servicemembers who earned Chapter 30 benefits while on active duty, in receipt of TA may receive the Chapter 30 Top-up benefit. Detailed information about Tuition Assistance Top-up and about applying for Top-up is available on the GI Bill® website, http://www.benefits.va.gov/gibill/ tuition_assistance.asp

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at https://www.benefits.va.gov/gibill.
Unearned Tuition Assistance

In alignment with the Department of Defense Memorandum of Understanding (DOD MOU), the University has a policy that returns any unearned tuition assistance (TA) funds on a proportional basis through at least the 60% portion of the period for which the funds were provided. This policy applies to military service members who receive military Tuition Assistance.

The University will return unearned tuition to the applicable military service as follows:

a. If a student does not begin attendance at the University, start a particular course, or the course is cancelled by the University, the University will return 100% of any TA funds received.

b. If a student withdraws from a course TA funds received by the University will be returned on a pro rata basis according to the student’s last date of attendance, also known as LDA. The last date of attendance will be used to determine the number of weeks the student attended the course. Once the last date of attendance has been determined, the University will calculate the pro rata percentage by dividing the number of weeks remaining by the total number of weeks in the course. Examples based on course length include:

<table>
<thead>
<tr>
<th>Weeks Attended</th>
<th>Refund for a 5-Week Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Week</td>
<td>80% Returned</td>
</tr>
<tr>
<td>2 Weeks</td>
<td>60% Returned</td>
</tr>
<tr>
<td>3 Weeks</td>
<td>40% Returned</td>
</tr>
<tr>
<td>4 Weeks</td>
<td>No Return</td>
</tr>
<tr>
<td>5 Weeks</td>
<td></td>
</tr>
</tbody>
</table>

In instances when a Service member stops attending due to a military service obligation, the University will work with the affected Service member to identify solutions that will not result in student debt for the returned portion.

c. Unearned tuition assistance funds will be returned to the service unless otherwise directed in writing by the Department of Defense or service.

Servicemember Readmission

Please refer to the Servicemember Readmission Policy in the University’s Academic Catalog for further information on the readmissions of servicemembers.

Federal Financial Aid Counseling

Federal Direct Loan Entrance Counseling

The University ensures loan entrance counseling is conducted using an online counseling module for students borrowing Federal Subsidized/Unsubsidized Loans or PLUS Loans for the first time. A link to the iGrad entrance counseling module is displayed within the University financial aid website. Entrance counseling generally includes the following:

- An explanation of the use of a Master Promissory Note (MPN)
- The importance of repayment obligation
- A description of consequences of default
- Sample repayment schedules
- Information in reference to a borrower’s rights and responsibilities
- Access information on all of your federal student loans by logging into StudentAid.gov
- The potential for a borrower becoming responsible for all accruing interest on Direct Subsidized Loans during in-school periods, grace periods and periods of authorized deferment
- The impact of borrower responsibility for accruing interest on the borrower’s total debt
- Other terms and conditions

The goal of entrance counseling is to help the borrower understand what it means to borrow federal student loans.

Federal Direct Loan Exit Counseling

The University notifies students to complete loan exit counseling online at the U.S. Department of Education website (https://studentaid.gov/exit-counseling/) within 30 days of completion of a program, withdrawal from the University or when a student ceases to be enrolled at least half-time. Exit counseling generally includes the following:

- An explanation of the use of a Master Promissory Note (MPN)
- The importance of repayment obligation
- A description of consequences of default
- Sample repayment schedules
- Information in reference to a borrower’s rights and responsibilities
- Access information on all of your federal student loans by logging into StudentAid.gov
- The potential for a borrower becoming responsible for all accruing interest on Direct Subsidized Loans during in-school periods, grace periods and periods of authorized deferment
- The impact of borrower responsibility for accruing interest on the borrower’s total debt
- A caution to the borrow about third-party debt relief companies
- Other terms and conditions

An e-mail is sent to students advising them of the exit counseling requirement with a link to complete it at https://studentaid.gov/exit-counseling/.
Federal Loan Repayment

Federal Student Loan Deferments (Postponing Payments)

A deferment is a temporary postponement of payment on your federal student loan(s) that is allowed under certain conditions. Students may be eligible for a variety of deferment options including:

- In-school deferment
- Economic hardship deferment
- Cancer treatment deferment
- Graduate fellowship deferment
- Military service and post-active duty student deferment
- Parent PLUS borrower deferment
- Rehabilitation training deferment
- Unemployment deferment

For students enrolled at least half-time at the university, in-school deferment of federal loans is generally automatic based on enrollment reporting the university provides to the National Student Loan Data System (NSLDS) on a weekly basis. If you are enrolled at the university at least half-time and your federal loans are not automatically deferred, please contact your federal loan servicer and request a loan deferment form. Completed deferment forms may be submitted by fax: (480) 643-1000 or email: studentrecordsspecialists.inbox@phoenix.edu.

For all other deferment options, students should contact their federal loan servicer. More information on each deferment option may be viewed at https://studentaid.gov/manage-loans/lower-payments/get-temporary-relief/deferment.

Federal Student Loan Simulator

The Federal Student Loan Simulator is a tool that may be used by students or potential students to calculate monthly payments under the different student loan repayment plans available. For more information regarding loan payment plans and to simulate other repayment plan options please use the ED’s loan simulator tool available at https://studentaid.gov/loan-simulator/.

Extended Repayment (Fixed or Graduated Plans) - Only available for loan amounts greater than $30,000. Payment amounts under the Pay as You Earn, Revised Pay As You Earn, Income-Based and Income-Contingent repayment plans will be available in the Loan Simulator after you enter tax filing status, adjusted gross income, family size and state of residence.

Federal Student Loan Consolidation

A Direct Loan consolidation allows a borrower to combine multiple federal student loans into one, which results in one bill, and one lender. It can also lower monthly payments by giving borrowers up to 30 years to repay their loans; however, by increasing the length of the repayment period, you will also make more payments, and pay more in interest. Most federal student loans, including the following, are eligible for consolidation:

- Direct Subsidized Loans
- Direct Unsubsidized Loans
- Subsidized Federal Stafford Loans
- Unsubsidized Federal Stafford Loans
- Direct PLUS Loans
- PLUS Loans from the Federal Family Education Loan (FFEL) Program
- Supplemental Loans for Students (SLS)
- Federal Perkins Loans
- Federal Nursing Loans
- Health Education Assistance Loans
- Some existing consolidation loans

When considering consolidation, it is important to consider the pros and cons. Consolidation could give borrowers access to alternative repayment plans, which they did not have before, and enable them to switch from a variable interest rate loan to a fixed interest rate. Consolidation may also cause borrowers to lose benefits offered with the original loans, such as interest rate discounts, principal rebates or some loan cancellation benefits, which can significantly reduce the cost of repaying loans.

More information regarding loan consolidation is located at https://studentaid.gov/app/launchConsolidation.action

Federal Student Loan Forgiveness, Cancellation and Discharge

In certain situations, borrowers can have their federal student loans forgiven, canceled, or discharged. Below is a list of the type of forgiveness, cancellation, and discharges available:

- Total and Permanent Disability Discharge
- Death Discharge
- Discharge in Bankruptcy (in rare cases)
- Closed School Discharge
- False Certification of Student Eligibility or Unauthorized Payment Discharge
- Unpaid Refund Discharge
- Teacher Loan Forgiveness
- Public Service Loan Forgiveness
- Perkins Loan Cancellation and Discharge (includes Teacher Cancellation)
- Borrower Defense to Repayment

Detailed information on these options is available at https://studentaid.gov/manage-loans/forgiveness-cancellation

Sample Standard Repayment Calculator Detail

<table>
<thead>
<tr>
<th>Loan Amount</th>
<th>$15,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest Rate</td>
<td>2.8%</td>
</tr>
</tbody>
</table>

**Repayment Summary**

<table>
<thead>
<tr>
<th>Months in Repayment</th>
<th>120</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monthly Payment</td>
<td>$143</td>
</tr>
<tr>
<td>Total Interest Payment</td>
<td>$2,174</td>
</tr>
<tr>
<td><strong>Total Loan Payment</strong></td>
<td><strong>$17,174</strong></td>
</tr>
</tbody>
</table>

With the standard plan, a fixed payment amount is due each month until loans are paid in full. Monthly repayments will be at least $50, and may have up to 10 years to repay.

Graduated Repayment Detail - 120 months starting at a payment of $79 and a final monthly payment amount of $237. Total interest paid would be $2,688, for a total of $17,688.
Financial Aid Disbursements

Federal Funds
A student is eligible to receive the first disbursement of federal financial aid when the University confirms the student is enrolled in courses for the payment period and is eligible to receive the funds. The student becomes eligible to receive a disbursement of federal financial aid for the second payment period when the student successfully completes one-half the weeks of instructional time and earns one-half the credit hours in the defined academic year (AY). Typically, the University disburses funds once the student successfully completes half the credits and weeks of instruction in the current AY, which may consist of more credit hours and weeks of instruction than the defined AY.

First-time, first-year undergraduate borrowers will not have the first installment of the Direct Loan disbursed until 30 calendar days after the program of study academic year begins.

NOTE: Students enrolled in Competency Based Programs (CBE) at the University will receive their first disbursements after the third week of classes has begun to confirm enrollment (academic related activity) in all courses scheduled for the payment period.

For additional information on student eligibility for standard, late and post-withdrawal disbursements from the University, please refer to the Disbursements Policy in the Financial Aid Policies appendix.

Federal Financial Aid Book Voucher
Pell eligible students may use Pell funds to purchase books if those funds could have been disbursed 10 days prior to the beginning of the payment period and disbursed funds would create a federal financial aid credit balance. Student Financial Services will notify these students of the University's book voucher request process. If the student requests a book voucher, the student will be provided with the lesser of the amount of the credit balance or the amount needed for the books and supplies, as determined by the University. These funds will be issued to the student no later than the seventh day of the payment period.

Students may opt out of this offer by not requesting the book voucher.

### Table: Federal Loan Disbursement Eligibility

<table>
<thead>
<tr>
<th>Federal Loans</th>
<th>First Disbursement Eligibility</th>
<th>Second Disbursement Eligibility</th>
</tr>
</thead>
<tbody>
<tr>
<td>Direct First-Time, First-Year Borrower</td>
<td>30 days after academic year or program start date</td>
<td>Successfully completes ½ weeks and credits in academic year or program, is meeting SAP and has posted attendance for the second payment period</td>
</tr>
<tr>
<td>Direct Subsequent Borrower, Parent PLUS, and Graduate/Professional PLUS</td>
<td>3 days after the academic year start date or 3 days after date of certification if the academic year start date is in the past</td>
<td>Successfully completes ½ weeks and credits in academic year or program, is meeting SAP and has posted attendance for the second payment period</td>
</tr>
</tbody>
</table>

Federal Grants

Private Loans

State and Institutional Grants

Pell Grant, Iraq Afghanistan Servicemembers Grant (IASG)

3 days from the academic year start date or 3 days from date of certification if the academic year start date is in the past

Successfully completes ½ weeks and credits in academic year or program, is meeting SAP and has posted attendance for the second payment period

Federal Student Education Opportunity Grant (FSEOG)

3 days from the academic year start date or 3 days from date of certification if the academic year start date is in the past

Successfully completes ½ weeks and credits in academic year or program, is meeting SAP and has posted attendance for the second payment period

Pell Grant

3 days from the academic year start date or 3 days from date of certification if the academic year start date is in the past

State and Institutional Grants

Variety: Dependent on individual state requirements

Federal Student Education Opportunity Grant (FSEOG)

3 days from the academic year start date or 3 days from date of certification if the academic year start date is in the past

Successfully completes ½ weeks and credits in academic year or program, is meeting SAP and has posted attendance for the second payment period

Pell Grant

3 days from the academic year start date or 3 days from date of certification if the academic year start date is in the past

State and Institutional Grants

Variety: Dependent on individual state requirements

For additional information on student eligibility for standard, late and post-withdrawal disbursements from the University, please refer to the Disbursements Policy in the Financial Aid Policies appendix.
Federal Financial Aid Credit Balance

Whenever the University credits federal financial aid funds to a student’s account and those funds exceed the student’s allowable charges, a federal financial aid credit balance occurs. The University will pay the excess federal financial aid funds directly to the student or parent as soon as possible, but no later than 14 days after the balance occurred on the student’s account. For more information, please review the Federal Financial Aid Credit Balance Policy in the Financial Aid Policies appendix.

On an exception basis, the University may, at its discretion, provide a student access to his or her anticipated federal financial aid credit balance. Students who may need to request this exception should speak with the finance department.

Note: If an exception is granted, the student will be responsible for any balance due to the University resulting from providing the student access to this anticipated federal financial aid credit balance.

Cancellation of Federal Financial Aid

The student (or parent in the case of a Parent PLUS Loan) must inform the University if all or a portion of federal financial aid funds are to be canceled. Once the loan is disbursed, the University sends the student/parent a Right to Cancel letter, which includes the time given to respond should the student and/or parent borrower wish to cancel their loan request(s). This notification is mailed after the loan disbursement has been credited to the student’s account. Borrowers who wish to cancel all or a portion of their loan must inform the University within 30 days from the date the University sends the disbursement notification. Any requests received after the 30 days but prior to 110 days from the disbursement date will be honored as a partial cancellation based on Title IV funds that are currently unapplied. The University notifies the student/parent in writing of the outcome of his or her request regardless of when the cancellation request is received.

State Funds

A payment period for state funds is defined according to individual state requirements. The payment period determines when funds are disbursed and the exact amount to be disbursed.

Awarding Aid to Transfer Students

A student who enrolls in a program at the University who has an overlapping academic year (AY) with a prior program, either at the University or at another institution is referred to as a transfer student. An overlapping AY exists if the student begins a program at the University prior to the expiration of the student’s prior AY. There are three types of transfers: external, internal, and advancing programs.

External Transfer Student

Student previously attended a program at an institution other than the University of Phoenix.

Internal Transfer Student

Student previously attended a program at the University of Phoenix but did not complete this program.

Advancing Program Student

Student previously attended a program at the University of Phoenix, completed this program, and began another program at the University.

For more information on the University’s treatment and determination of federal financial aid eligibility for transfer students, please refer to the Awarding Aid to Transfer Students Policy.

Determining Enrollment at the University

Please refer to the Enrollment Status section in the University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html, for further information on determining enrollment at the University.

Course Attendance Policy

Please refer to the Course Attendance Policy in the University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html, for further information on course attendance.

Withdrawing from the University

Circumstances may necessitate withdrawal from the University. For further information on officially, unofficially, or administratively withdrawing from the University, please see the University’s Withdrawal Policy in the Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html. For information on tuition refunds, please see the Tuition Refund Policy found earlier in this Consumer Information Guide.

Students who withdraw and are receiving federal student aid funds should refer to the Return of Title IV Policy found in the Financial Aid Policies Appendix for information regarding any impact to their federal student aid.

Leave of Absence

Any student wishing to request a Leave of Absence (LOA) should contact his or her academic counselor to discuss available options. The Leave of Absence request form can be completed by accessing the student portal. Refer to the University’s Academic Leave of Absence Policy found in the University’s Academic Catalog, https://www.phoenix.edu/programs/degree-programs/academic-catalog.html, for further information.

Students who are granted an LOA and are receiving federal student aid funds should refer to the Leave of Absence Policy found in the Financial Aid Policies Appendix for information regarding any impact to their federal student aid.

Consumer Policies and Codes of Conduct

University of Phoenix Family Educational Rights and Privacy Act

University student records are confidential for all schools receiving funding under programs administered by the U.S. Department of Education in accordance with the Family Educational Rights and Privacy Act (FERPA) of 1974. Generally, information pertaining to a student record is not to be released to a third party without written or authorized electronic consent via a FERPA release form, judicial order or lawfully issued subpoena.

The University is required to provide students a copy of its FERPA policy annually and upon written request from students. Current students can obtain a copy of the FERPA policy in the appropriate online Academic Catalog at https://www.phoenix.edu/degrees/academic-catalog.html.

Under FERPA, a student is defined as an individual who is or has attended an educational institution. Students with at least one academically related activity (or one positive attendance “Y” posted, whichever happens sooner) in a university course are considered students at University of Phoenix.

Note: University Orientation Workshops are not considered university courses.
Access to Education Records

University student records are confidential for all schools receiving funding under programs administered by the U.S. Department of Education in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA). Generally, information pertaining to students' records shall not be released to a third party without written or authorized electronic consent, via a FERPA Release form, judicial order or a lawfully issued subpoena.

Education records are defined as all records, files, documents and materials that contain information directly related to a student, and maintained by an educational institution.

The following are not interpreted as education records:

- Personal records maintained by an individual; must be kept in the sole possession of the individual and are not accessible to others
- Records of the law enforcement unit of an educational institution
- Personnel records; records related to a person as an employee not used for any other purpose
- Medical records
- Records created after the student is no longer a student; alumni records

Releasable Information - Directory

In compliance with FERPA, a University-designated representative without prior written or authorized electronic consent of the student can release the following educational record information, provided the student does not have a FERPA Hold Request form on record.

- Student name
- Home address
- Email address
- Home telephone number
- Year of birth
- Dates of attendance at the University
- University programs of study
- University degree completion dates and type of degrees earned
- Current enrollment status
- Most recent previous institutions attended and degree(s) earned
- Grade level (freshman, sophomore, junior or senior)
- Photographs
- Honors and awards received
- Participation in officially recognized activities

Exception: If a student submits written or authorized electronic requests via a FERPA Hold Request form that directory information not be released to a third party, no information can be released, absent a judicial order or a lawfully issued subpoena. A FERPA Hold Request is valid throughout the student's enrollment.

To add a FERPA Hold Request, the student must complete and submit a FERPA Hold Request form to the Registrar's Office.

For a student to remove a FERPA Hold from their record, the student will need to fill out a FERPA Hold Release form.

For a student to remove previously authorized parties from his or her record, the student would complete a FERPA Release Rescind form listing any/all parties to which that information should no longer be released.

Information Not Released - Non-Directory

Information that must not be released:

In compliance with FERPA, the following student information shall not be released by the University without prior written or authorized electronic consent of the student, a judicial order or a lawfully issued subpoena. The student's signature on the written requests shall be verified before acting upon the request.

- Place of birth
- Month and day of birth
- Social Security number (SSN), individual record number (IRN) or personal identification number (PIN)**
- Grades or grade point averages
- Course schedules
- Employment information including: employer, position held, work address or work telephone number
- Academic performance information, such as academic suspension, probation disqualification, or academic dishonesty charges
- Admission information, including test scores or entry grade point averages
- Financial and accounting information
- Gender*
- Race*
- Ethnicity*
- Citizenship*
- Country of origin*

Note: Non-directory information can only be released to third parties via telephone or in person if the student has provided written or authorized electronic consent including a security word. If the student does not complete the release information, including security word, information is not released via telephone or in person.

Note: All third parties, including parents, with inquiries require a FERPA Release form on file unless the third party meets one of the definitions under FERPA allowing access without prior written or authorized electronic consent from the student.

* Although this information may be disclosed without prior written consent according to FERPA, the University policy is to maintain the confidentiality of this student information.

** Student IRN, SSN or PIN numbers generally should not be released to a third party, unless necessary to perform a required task (e.g., Student Financial Agreement, FBI request, etc.).

Exceptions: The University may release personally identifiable information (PII), directory and non-directory information without the student's consent under the following conditions:

- School officials with legitimate educational interests, which include any University employee acting within the scope of her or his University employment, and any duly appointed agent or representative of the University acting within the scope of her or her appointment
- Person or company with whom the University has contracted as its agent acting as a school official to provide a service instead of using University employees or officials such as Apollo Education Group, Aptimus, Protiviti, National Student Clearinghouse, Taylor Corporation, Education Sales Management, InsideTrack, Salesforce, Iron Mountain, Vocado, iGrad, Google, Regent Education, TK20, College Board, Loan Science, Civitas, Pendo.io, Inc., Blackboard, Tevera, Paradigm, and other services.
Collection agencies (States Recovery Systems, FMS, CBE Group and Resolution Assets Services).

Other schools to which a student seeks or intends to enroll

Specified officials for audit and evaluation purposes

Appropriate parties in connection with financial aid to a student
  (The disclosure is in connection with financial aid for which the student has applied or received, if the information is necessary for such purposes as to determine the following: eligibility for aid, amount of aid, conditions for aid and/or enforcement of terms and conditions of the aid.)

Organizations conducting studies for, or on behalf of, the school

Accrediting organizations

Authorized representatives of the Comptroller General of the United States, Secretary of Education, or state and local educational authorities

To comply with a judicial order or lawfully issued subpoena

Appropriate officials in cases of health and safety emergencies

State and local authorities, pursuant to state law

To appropriate officials to comply with federal law (e.g., the USA Patriot Act, Solomon Amendment, SEVIS program)

Under the Campus Sex Crime Prevention Act, institutions are permitted to disclose information concerning registered sex offenders who are required to register under the Violent Crime Control & Law Enforcement Act.

The institution may disclose the results of a disciplinary proceeding if the student is an alleged perpetrator of a crime of violence or nonforcible sex offense and he or she has been found to have violated the institution’s policies and procedures with respect to the allegation. Disclosures may only be made if the institution determines that the student did violate its policies and such disclosures must only include the name of the student, violation committed and any sanction imposed by the institution against the student.

The institution must, upon written request, disclose to the alleged victim of a crime of violence, or a nonforcible sex offense, the results of any disciplinary hearing conducted by the institution against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the institution must provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.

The disclosure is to organizations conducting studies for, or on behalf of, educational agencies or institutions.

If a student initiates legal action against an educational institution, the institution may disclose to the court, without a court order or subpoena, the student’s education records that are relevant for the institution to defend itself.

The disclosure is to parents of a dependent student as defined in Section 152 of the Internal Revenue Code or to parents of students under the age of 21 when laws or university policies regarding alcohol or drugs are violated.

A school official is defined as:
  - A person employed by the University in an administrative, supervisory, academic, research or support staff position.
  - A person employed by or under contract to the University to perform a task.
  - A person serving on an institutional governing body or committee.
  - A school official has a legitimate educational interest if:
    - Performing a task specified in his or her job description or contract.
    - Performing a task related to a student’s education.
    - Providing a service or benefit related to a student or student’s family.
    - Representing a school in which a student seeks to enroll.
    - Disclosing information to federal and state authorities auditing compliance of federal or state support programs.
    - Disclosing information in connection with financial aid, to determine financial aid eligibility, amount of aid, conditions for the aid, or to enforce the terms of conditions of the aid.
    - Disclosing information to state and local officials to whom this information is specifically allowed to be disclosed pursuant to state laws if the allowed disclosure concerns the juvenile justice system and the system’s ability to effectively serve the student whose records are released.
    - Performing studies on behalf of educational institutions.
    - Disclosing information to accrediting organizations carrying out their function.
    - Complying with a judicial order or lawfully issued subpoena provided notification to the student is made before complying with the subpoena.

The University can disclose personally identifiable information (PII), directory and non-directory, without student consent if the disclosure meets one of the following conditions:

- This disclosure is to other school officials, whom the University determines have legitimate educational interests.
- The disclosure is to officials of other schools where the student seeks or intends to enroll.
- The disclosure is, subject to requirements of 34 CFR 99.35, to authorized representatives of the Comptroller General of the United States, Secretary, or state and local educational authorities.
- The disclosure is in connection with financial aid for which the student has applied or received, if the information is necessary for such purposes as to determine the following:
  - Eligibility for aid
  - Amount of aid
  - Conditions for aid
  - Enforce terms and conditions of the aid.

Financial aid means a payment of funds (or a payment in kind of tangible or intangible property to the individual) that is conditioned on the individual’s attendance at an educational agency or institution [authority: 20 U.S.C.1232g (6)(1)(O)].

Students requesting demographic or PII on other University of Phoenix students for survey or research purposes must contact the appropriate director of operations and Academic Affairs after it has been approved through the University’s Human Subjects Committee and/or Committee on Research as appropriate.

The University shall retain a record of disclosure of student information disclosed to a third party. This information will be stored on the University computer system and will contain dates, names and reasons for release. Students shall have reasonable access to their educational records, may request to review their educational records and may challenge the contents of their educational records if they feel the contents to be inaccurate, misleading or otherwise in violation of their privacy or other rights.
Student Right to Access

Students wishing to review their educational records shall submit a written request to the Registrar specifying the records to be reviewed. Only records covered by FERPA will be made available. If necessary, the Registrar’s Office will work with a campus designee so that the student can review the record.

FERPA regulations require the University to comply with the students’ right to inspect and review their academic records by responding within 45 days from the time the University receives a written request to access their records. However, the Registrar’s Office will respond to students’ requests to review their records within 14 days from receipt of the request. Students should submit their request to the University Registrar and specify the record or records they wish to review. A designated University official must be present when a student requests access to a campus location, and the student must present photo identification before access to educational records is allowed. For copies of records from a student’s file, the student must fill out and submit the Student Request for Information from Files form. Distance education students must submit a written request specifically outlining which record they would like to review.

A designated University official must be present when a student wishes to review his or her records at a campus location. This includes documents on file or student history notes that do not reference other student information. Printed files requested by the student and mailed from the Registrar’s Office will not include history notes from any record systems.

Procedure

Students alleging that their University records are inaccurate or misleading, or who allege violations of FERPA, may present their challenges to the University Registrar. Students have the right to correct record-keeping errors, but not to seek to overturn administration decisions and assessments. The Registrar shall review students’ challenges and, when appropriate, amend students’ records accordingly. Students will be notified within 14 days of the Registrar’s actions and, based on the action, may request a formal hearing.

A student must submit a request for amendment in writing to the Registrar identifying the specific portion of his or her record he or she wants changed and why he or she believes it’s inaccurate or in violation of his or her privacy. The Registrar will respond to the request within 14 days.

If the University denies the request to change the record, the Registrar will notify the student within 14 days of the decision and advise the student of his or her right to challenge the information. A student’s request for a formal hearing must be made in writing and submitted to the Registrar’s Office. The Registrar will arrange for a hearing, and notify the student within 14 days from the receipt of the request of the date, place and time of the hearing. Students may present relevant evidence and may be assisted or represented at the hearings by one or more persons of their choice, including an attorney, at the student’s expense.

The University shall be represented by a hearing panel appointed by the Registrar. The panel will be comprised of individuals that do not have a direct interest in the outcome of the hearing. The panel shall consider all relevant evidence supporting students’ allegations of inaccurate or misleading information in students’ records. Decisions of the panel will be final.

The University will provide a written decision within 14 days of the hearing based on evidence presented at the hearing, and will include a summary of evidence presented and the rationale for the decision.

If the University decides that the challenged information is not misleading, inaccurate or in violation of the student’s privacy rights, it will notify the student within 14 days of his or her right to place in the record a statement commenting on the challenged information or a statement of reasons for disagreeing with the decision.

The statement will be maintained as a part of the student’s record as long as the contested portion is maintained. If the University discloses the contested portion of the record, it must also disclose the statement.

If the University decides the information is inaccurate or in violation of the student’s right of privacy, it will amend the record and notify the student within 14 days, in writing, that the record has been amended.

Exception: Students may not inspect and review the following absent a judicial order or legally issued subpoena:

- Confidential letters and recommendations for which they have waived their rights of inspection
- Educational records containing information about more than one student (Access is permitted only to that part of the record concerning the inquiring student.)
- Records of instructional, supervisory, administrative and certain educational personnel, which are in the possession of the originator
- Records connected with an application to attend the University if the application was denied (For example, a student is enrolled in an undergraduate program and applies for admission to a graduate program but is denied.)

University of Phoenix cannot deny students access to their records. Copies do not need to be provided, unless by not providing copies, the students’ rights are denied.

Exception: The University may release foreign transcripts to students.

Rationale: Original transcripts from institutions in other countries may be difficult or impossible for students to replace. If a student is unable to order a transcript on the University student website, the student should contact the Admissions and Records Service Center at 800.866.3919 for assistance.

Students have the right to file a complaint with the FERPA. Inquiries should be directed to:

Family Policy Compliance Office
US Department of Education
400 Maryland Ave., SW
Washington, DC 20202-5920

For a period of 25 years following the death of a student, education records of deceased students may only be released to the executor of the estate (written authorization required) or immediate family members (notarized affidavit required) defined as: spouse or legally recognized domestic partner, parents, children (over the age of 18) and siblings. Beyond this time, requests for these records may be released to anyone after review and approval from the Registrar’s Office.

The University is required to provide students a copy of its FERPA policy annually and upon written request from the student.
Solomon Act

University of Phoenix complies with the Solomon Act, which provides certain information to military recruiters. Information that may be released includes the following:

- Student name
- Home address
- Telephone listing
- Age (date of birth)
- Level of education
- Academic major

If available, the following information will also be provided:
- Email address
- Degrees received
- Most recent educational institution attended

Student Loan Code of Conduct

The University protects students with established loan policies. University of Phoenix follows federal regulations that govern student loan requirements. The Student Loan Code of Conduct at https://www.phoenix.edu/tuition_and_financial_options/student_loan_code_of_conduct.html creates and maintains uniform student loan practices that focus on the best interest of student borrowers. It also manages relationships between school employees, learning institutions, lender advisory board members and student loan organizations.

University of Phoenix encourages students to review the Student Loan Code of Conduct at https://www.phoenix.edu/tuition_and_financial_options/student_loan_code_of_conduct.html to learn about loan regulations.

Student Code of Conduct

University of Phoenix has established a Student Code of Conduct. Students are expected to conduct themselves ethically, honestly and with integrity as responsible members of the University's academic community. This requires the demonstration of mutual respect and civility in all University-related academic and professional discourse.

Students are accountable for their actions and are required to work independently and collaboratively with teams in achieving learning goals and objectives. As a member of the University's academic community, students acknowledge and accept an obligation to abide by the Student Code of Conduct on or off campus which is determined to impair, interfere with or obstruct the opportunities of others to learn, or which disrupts the mission, processes or orderly functions of the University, will be deemed misconduct. A violation of the Student Code of Conduct will be subject to appropriate disciplinary action.

To review the Student Code of Conduct in its entirety, see the Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html, or contact the campus, https://www.phoenix.edu/campus-locations.html.

Consumer Privacy Policy

Summarized below are key elements of the University Privacy Policy. The full version of the policy is available at https://www.phoenix.edu/copyright-legal/privacy_policy.html

Scope of Privacy Policy

The Privacy Policy applies to Personal Information we collect about users of our Sites, Apps, Wi-Fi hotspots, and other online services, (collectively, our “Services”), as well the Personal Information we otherwise collect about individuals, including current and potential students, alumni, visitors to our campuses, prospective students, and others with whom we interact, whether online, via phone, or offline. Certain Services may be subject to additional privacy policies or privacy disclosures relating to the services provided on the Site(s).

Collection and Use of Personal Information

We collect information about you directly from you, from third parties, and automatically through your use of our Services or interactions with us. We may combine the information we collect from these various sources. This table provides a summary of the personal information we collect and how we use it, which is further explained in our full Privacy Policy. While the actual information we collect and our use of such personal information varies depending upon the nature of our relationship and interactions, the table below provides a general overview of the categories of personal information we collect and the purposes for which we use such information.

Categories of Personal Information Collected

Name, contact information, and other identifiers: such as real name, alias, postal address, telephone number(s), unique personal identifier, online identifier, internet protocol (IP) address, email address, account name, social security number, driver's license number, passport number, or other similar identifiers.

Customer records: including paper and electronic customer records containing Personal Information, such as name, signature, social security number, physical characteristics or description, address, telephone number, passport number, driver's license or state identification card number, insurance policy number, education, employment, employment history, bank account number, credit card number, debit card number, other financial information, medical information, or health insurance information.

Protected classifications: such as race, color, sex, age, religion, national origin, disability, and citizenship status.

Commercial information: including records of personal property; products or services purchased, obtained, or considered; or other purchasing or consuming histories or tendencies.

Internet or other electronic network activity information: including, but not limited to, browsing history; search history; and information regarding a consumer's interaction with an Internet website, application, or advertisement.
Geolocation data: precise geographic location information about a particular individual or device.

Audio, video, and other electronic data: audio, visual, electronic, thermal, olfactory, or similar information, such as photos, call recordings, and CCTV footage.

Employment history: professional or employment-related information.

Education information: information regarding past and present education, including institutions attended, years of attendance, courses of study, attendance records, grades, awards earned, degree(s) obtained, discipline records, financial aid awards and payment history, as well as assignments and other student-generated work or contributions to online discussions. The information collected from a student or potential student may include both directory and non-directory information as those terms are defined in the University of Phoenix Family Education Rights and Privacy Act section of this Consumer Information Guide.

Inferences drawn from any of above categories of Personal Information: inferences used to create a profile about a consumer reflecting the consumer’s preferences, characteristics, psychological trends, predispositions, behavior, attitudes, intelligence, abilities, and aptitudes.

Uses of Personal Information

- Administering applications, enrollment, registration, and financial services
- Providing support and services
- Personalizing content and experiences
- Marketing and promotional purposes
- Analyzing and improving our services and operations
- Securing and protecting our assets and rights and preventing misconduct
- Complying with legal obligations
- Supporting our general business operations

California residents. If you are a California resident, please be sure to review the Additional Information for California Residents section of the Privacy Policy for important information about the categories of personal information we collect and disclose and your rights under California privacy laws.

Your Rights and Choices

Marketing Communications

You may opt out of receiving marketing communications as follows:

- Email. If you do not wish to receive marketing emails, follow the opt-out instructions in the footer of any marketing email we send or unsubscribe here: https://www.phoenix.edu/about_us/contact_us/unsubscribe.html.
- Postal Mail. If you do not wish to receive marketing mailings, you may unsubscribe here: https://www.phoenix.edu/about_us/contact_us/unsubscribe.html.
- Phone. If you do not wish to receive marketing telephone calls, you may express your choice during the call or unsubscribe here: https://www.phoenix.edu/about_us/contact_us/unsubscribe.html.
- Text. If you do not wish to receive text messages, you may opt out by responding STOP to cancel future text messages. To get help, text HELP. You may also get additional support or help by sending an email to TextMsgSupport@phoenix.edu or by calling 866-766-0766.

Cookies and Advertising

You have certain choices about how we use your Personal Information for interest-based advertising purposes. You may also update your preferences for third party tags and cookies on our Sites using our Preference Center, or you can select Do Not Track options on your personal devices or browsers. To opt out of third party advertising cookies and tags on our Sites, select ‘Manage cookie preferences’ from the footer of our webpages and turn off Targeting cookies.

We may also use device information, particularly in mobile advertising, to help deliver our advertising and measure ad campaign effectiveness. To assist us in using device information, we participate in the Adobe Experience Cloud Device Co-op. To learn more about Adobe’s Experience Cloud Device Co-op, please visit Section 8. Interest-Based Advertising of our Privacy Policy: https://www.phoenix.edu/copyright-legal/privacy_policy.html.

Social Networking Content

You may change various user settings related to sharing your Personal Information contained in any user profile you set up as part of Social Network activities furnished by us, subject to contractual, academic, legal, or technical restrictions and reasonable notice. Note that your withdrawal from Social Network activities might prevent us from providing you with certain products or services.

Other Important Information

We have implemented security measures to protect against the loss, misuse, and alteration of the Personal Information under our control. However, no data transmission over the Internet can be guaranteed to be completely secure. As a result, although we will utilize such measures, we do not guarantee you against the loss, misuse, or alteration of Information under our control, and you provide Personal Information to us at your own risk. You should always take care how you handle and disclose your Personal Information and should avoid sending Personal Information through insecure email, Social Networks, or other Internet channels.

If you become a student, your educational information that is part of your educational record with us is subject to the U.S. Federal Family Educational Rights and Privacy Act (FERPA), state laws, and the University’s policies. To review Student Right to Access and Access to Education Records, please see the University of Phoenix Family Educational Rights and Privacy Act section of this Consumer Information Guide.

Student Complaints Policy
The Student Complaints Policy can be found in the University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html. Resolution Services oversees the student complaint process and provides a mechanism by which students receive an independent, objective review of the issue(s). Students are encouraged to first work directly with the relevant University department to resolve their issue, but should they need additional assistance they may contact Resolution Services by emailing ResolutionServices@phoenix.edu.

Filing a Complaint

Local Campus Students
University of Phoenix is regulated by various state regulatory bodies for filing complaints in the state that a student resides. If a campus based student chooses to file a complaint, he or she can submit an internal complaint to the University’s Resolution Services and/or file an external complaint with the designated state regulatory agency.

Arizona: If the complaint cannot be resolved after exhausting the institution’s grievance procedure, the student may file a complaint with the Arizona State Board for Private Postsecondary Education. The student must contact the State Board for further details. The State Board address is 1740 W. Adams, Suite 3008, Phoenix, AZ 85007; telephone (602) 542-5709; https://ppse.az.gov/.

California: The student may contact the California Bureau for Private Postsecondary Education, C/O Department of Consumer Affairs, PO Box 980818, W. Sacramento, CA 95798-0818; telephone 916.431.6959, 888.370.7589.

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau’s internet web site (www.bppe.ca.gov).

Commonwealth of the Northern Mariana Islands: The student may contact the Commonwealth of the Northern Mariana Islands Office of the Attorney General, Office of the Consumer Counsel, 2nd Floor, Juan A. Sablan Memorial Buildings, Capitol Hill, Saipan, MP 96950; telephone 670.237.7500, website: https://www.cmnioag.org/divisions/consumer-protection/online-student-complaint/

Hawaii: The student may contact the Hawaii Post-Secondary Education Authorization Program, P.O. Box 541, Honolulu, HI 96809; telephone 808.586.7327, http://cca.hawaii.gov/hpeap/.

Nevada: The student may contact the Nevada Department of Employment, Training and Rehabilitation: Employment Security Division, Commission on Postsecondary Education, 2800 E. St. Louis, Las Vegas, NV 89104; telephone (702) 486-7330.

Texas: The student may contact the Texas Higher Education Coordinating Board, 1200 E. Anderson Lane, PO Box 12788, Austin, TX 78711-2788; telephone (512) 427-6101, website: https://www.highered.texas.gov/links/student-complaints.

Distance Education Students
University of Phoenix is approved by the National Council for State Authorization Reciprocity Agreements (NC-SARA) as a SARA participating institution (http://nc-sara.org). The University has reciprocity with other SARA states for its distance education programs. Please visit the NC-SARA website for the most current list of states that participate in SARA.

Distance education students may file a complaint through the University’s internal grievance process by submitting the complaint to Resolution Services (https://www.phoenix.edu/about_us/contact_us/dispute-management.html). Students may also file a complaint with the Arizona State Board for Private Postsecondary Education (https://ppse.az.gov/complaint). After exhausting the institution’s internal complaint process and the complaint process of the Arizona State Board for Private Postsecondary Education, distance education students residing in a SARA state may appeal a complaint to the Arizona SARA Council (AZ SARA). The Arizona SARA Council will not review complaints regarding student grades, student code of conduct violations, or complaints beyond two-years of the incident. For more information visit the AZ SARA Council website (https://azsara.arizona.edu/complaints).

Copyright Infringement and Peer-to-Peer File Sharing Policy

Copyright Law and Infringement
Copyright is a form of legal protection provided by U.S. law, Title 17 U.S.C. §512(c) (2), which protects an owner’s right to control the reproduction, distribution, performance, display and transmission of a copyrighted work. The public, in turn, is provided with specific rights for fair use of copyrighted works.

Copyrighted works protect original works of authorship and include:

- Books, articles and other writings
- Songs and other musical works
- Movies and television productions
- Pictures, graphics and drawings
- Computer software
- Pantomimes and choreographic works
- Sculptural and architectural works

Copyright law provides the owner of a copyright the exclusive right to do the following:

- Reproduce the work in copies
- Prepare derivative works based upon the work
- Distribute copies of the work to the public by sale or other transfer of ownership, or by rental, lease, or lending
- Perform the work publicly
- Display the copyrighted work publicly
- Perform the work publicly by means of a digital audio transmission in the case of sound recordings

17 U.S.C. § 501(a) states, “Anyone who violates any of the exclusive rights of the copy-right owner is an infringer of the copyright or right of the author.” Generally, under the law, one who engages in any of these activities without obtaining the copyright owner’s permission may be liable for infringement.

Specific information on copyright law and fair use may be found at the following sites:
• The U.S. Copyright Office: http://www.copyright.gov
• The Electronic Frontier Foundation fair use frequently asked questions: https://www.eff.org/teachingcopyright/handouts#fairuseFAQ

**Peer-to-Peer File Sharing**

Peer-to-Peer (P2P) file sharing is a general term that describes software programs that allow computer users, utilizing compatible P2P software, to connect with each other and directly access digital files from one another’s hard drives. Many copyrighted works may be stored in digital form, such as software, movies, videos, photographs, etc. Through P2P file sharing it has become increasingly easy to store and transfer these copyrighted works to others, thus increasing the risk that users of P2P software and file-sharing technology will infringe the copyright protections of content owners. If P2P file-sharing applications are installed on your computer, you may be sharing someone else’s copyrighted materials without realizing you are doing so. As a user of the University network, recognizing the legal requirements of the files that you may be sharing with others is important. You should be careful not to download and share copyrighted works with others.

The transfer and distribution of these works without authorization of the copyright holder is illegal and prohibited.

**Violations and Penalties under Federal Law**

In addition to University sanctions under its policies as more fully described below, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or statutory damages affixed at not less than $750 and not more than $30,000 per work infringed. For willful infringement, a court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense.

**University Methods to Effectively Combat Unauthorized Distribution of Copyrighted Material and Student Sanctions**

A student’s conduct in the University classrooms and websites is subject to and must fully conform to the University Student Code of Conduct policy, its Acceptable Computer Use for Faculty and Students policy and any other applicable University policies.

The University may monitor traffic or bandwidth on the networks using information technology programs designed to detect and identify indicators of illegal P2P file-sharing activity. In addition to, or as an alternative, the University may employ other technical means to reduce or block illegal file sharing and other impermissible activities.

The University will also provide for vigorous enforcement and remediation activities for those students identified through the University Digital Millennium Copyright Act policy as potential violators or infringers of copyright.

Disciplinary sanctions will be based on the seriousness of the situation and may include remediation based on a comprehensive system of graduated responses designed to curb illegal file sharing and copyright offenses through limiting and denial of network access or other appropriate means. These sanctions may be in conjunction with additional sanctions through the University Student Code of Conduct, its Acceptable Computer Use for Faculty and Students policy and any other University policy applicable to the particular situation.

Students who are subject to professional codes of conduct that apply to their enrollment at the University shall be sanctioned according to the requirements of the respective code.

**Education and Awareness**

The University uses a variety of means to inform students, faculty and other network users about copyright laws and the response to copyright infringement claims by the University.

The University informs its campus community through the Consumer Information Guide and other periodic communications that unauthorized distribution of copyrighted material, including unauthorized P2P file sharing, may subject students and faculty to civil and criminal liabilities and their possible extent.

The Consumer Information Guide, https://www.phoenix.edu/about_us/regulatory/consumer-information.html, is available on the University website, is provided to potential students and employees, and is sent by email on a yearly basis to current students, faculty and employees.

**Legal Sources for Online Music and Videos**

The legal sources for online music and videos are reviewed annually by the University’s Sr Director of Governance, Risk and Compliance. The following links are online sources that provide information on legal access to copyrighted music and videos:

- EDUCAUSE is an association of colleges and universities, which maintains a list of legal media sources: https://www.educause.edu/focus-areas-and-initiatives/policy-and-security/educause-policy/legal-sources-online.
- The Recording Industry Association of America (RIAA) provides a list of legal music sources: https://www.riaa.com/resources-learning/for-students-educators/.
- The legal sources for online music and videos are reviewed annually by the Sr Director of Governance, Risk and Compliance.

**Digital Millennium Copyright Act Policy (DMCA)**

The University computer networks, including its online library and classroom environment, are critical assets. Accordingly, University of Phoenix respects the rights of the copyright owners and expects its faculty, staff, students and other network users to comply with U.S. copyright laws. Federal law prohibits the reproduction, distribution, public display or performance of copyrighted materials over the Internet without permission of the copyright owner, except in compliance with fair use or other copyright applicable statutory exceptions. Please refer to the University’s Copyright Infringement and Peer-to-Peer File Sharing Policy for more information.

University of Phoenix may terminate the network accounts or access to users who have repeatedly infringed on the copyrights of others. In addition to sanctions that may be applicable under the University Student Code of Conduct, the Acceptable Computer Use for Federal and Student, or other policies. The University of Phoenix, in compliance with the federal Digital Millennium Copyright Act (DMCA), has established a mandated process for receiving and tracking alleged incidents of copyright infringement. The University has designated an agent who will investigate notices of alleged copyright infringement and take appropriate actions. Such actions may include terminating repeat infringers’ accounts under the DMCA.
Copyright infringement notices must be given in writing, preferably by email, or by U.S. mail to the agent listed below:

University of Phoenix
Copyright Agent
4035 S Riverpoint Parkway
Phoenix, AZ 85040
Email: copyrightagent@phoenix.edu

If a valid DMCA notification is received, the University will respond under the 'Process for Filing Notice of Alleged Infringement' by taking down the infringing content found on our networks. On taking down content under the DMCA, the University will take reasonable steps to contact the owner of the removed content so that a counter notification may be filed. Upon receiving a valid counter notification, the University will generally restore the content in question, unless the University receives notice from the notification provider that a legal action has been filed seeking a court order to restrain the alleged infringer from engaging in the infringing activity.

The DMCA provides that you may be liable for damages including costs and attorneys’ fees if you falsely claim that someone is infringing on your copyright. Alternatively, an individual can also be liable for damages including attorneys’ fees if you materially misrepresent that an activity is infringing on the copyright of another. Therefore, the University recommends contacting an attorney if you are unsure whether a work is protected by copyright laws.

Pursuant to the DMCA, unless the University receives notification that legal action to seek a court order restraining the alleged infringer from further engaging in the infringing activity has been filed, upon receiving a valid counter notification, the University will:

- Provide the person who filed the original notification with a copy of the counter notice.
- Inform him or her that the material will be reinstated or access to it restored between 10 and 14 business days following receipt of the counter notice.

Process for Filing Notice of Alleged Infringement

Below is the process for filing a notification under the DMCA when an individual believes their work has been infringed upon. Notice must be given in writing to the designated agent as specified above and contain the following information:

- Identify in sufficient detail the copyrighted work that you believe has been infringed upon; for example, describe the work that you own.
- Identify the material that you claim is infringing on your copyright as set forth in number one and provide detailed information that is reasonably sufficient to locate the infringing item; for example, provide the link to the infringing material.
- Provide sufficient contact information: phone number, address and email address.
- If possible, provide information that allows the University to notify the alleged infringing party of notice of the alleged infringement.
- The following statement must be included in your notice: “I have a good faith belief that the use of the copyrighted materials described above and contained on the service is not authorized by the copyright owner, its agent or by protection of law.”

- The following statement must be included in your notice: “I swear, under penalty of perjury, that the information in the notification is accurate and that I am the copyright owner or am authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.”
- The notice must be signed.

Process for Filing Counter Notification of Alleged Infringement

The person or provider of the alleged infringing material may present a counter notification pursuant to the DMCA. Upon proper counter notification, the University may reinstate the removed content. Notice must be given in writing to the designated copyright agent as specified above and contain the following information:

- Identify the material that has been removed. This may include providing the location or the URL when possible.
- Provide your name, address, telephone number and email address if available.
- Provide a statement that you consent to the jurisdiction of Federal District Court for the judicial district in which you reside, or for any address outside the United States or any judicial district, in which the service provider may be found, and that you will accept service of process from the person who provided notification to the University of the alleged infringement or an agent of such person.
- Provide the following statement: “I swear, under penalty of perjury, that I have a good faith belief that the material identified above was removed or disabled as a result of a mistake or misidentification of the material to be removed or disabled.”
- The notice must be signed.

Register to Vote

University of Phoenix makes the effort to educate students regarding the importance of exercising their right to vote and makes voter registration information available at the campuses. Additionally, the University makes a good-faith effort to distribute voter registration forms to students attending locations in states covered under the National Voter Registration Act of 1993 (NVRA).

The National Mail Voter Registration Form can be used by U.S. citizens to register to vote, to report a name or address change, or to register with a political party. Please follow the generic and state specific instructions for completing the form prior to mailing it to the address provided for the state in which you reside.

For more information on elections, registration, and voting in your state please visit https://www.eac.gov/voters/register-and-vote-in-your-state. Please note that the following states do not allow for same-day voter registration so you must plan accordingly: AZ, FL, GA, HI, IL, MI, NV, NJ, NM, NC, PA, TN, TX, UT, VA, and WA.

Campus Safety and Security

Annual Security Report

University of Phoenix publishes an Annual Security Report annually by October 1st. The report consists of policy statements related to campus safety and security including, but not limited to, reporting criminal activity, policies and procedures, safety-related educational programs, awareness and prevention of crime, notification procedures, alcohol and other drugs standards of conduct and sanctions, and reported campus crime statistics for the last three calendar years.

Visit https://www.phoenix.edu/about_us/campus-safety.html to access a PDF file of each separate campuses Annual Security Report.
**Campus Safety Policies**

The University Campus Safety Policies at https://www.phoenix.edu/content/dam/altcloud/doc/about_us/ops/Campus-Safety-Policies.pdf have been prepared to increase the campus community’s awareness of current programs that exist to protect its members’ safety and well-being and to satisfy the requirements of the Drug-Free Schools and Communities Act and the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act). The information included relates to the following:

- Alcohol and other drug abuse prevention, health risks, effects of use, and counseling services
- The gathering of and reporting of crime statistics
- Available counseling and assistance resources
- Crime awareness and prevention measures
- Reporting criminal activities
- Timely warnings, emergency mass notifications, and campus alerts
- Information related to campus safety programs
- Penalties and sanctions regarding the unlawful use, sale, possession or distribution of illegal drugs and alcohol
- Probationed use or distribution of alcohol and other drugs
- Safety and awareness
- Sex offender registry
- Dating violence, domestic violence, sexual assault, and stalking policies, procedures, and programs aimed at awareness and prevention.

The information is intended to provide a useful description of University of Phoenix safety-related policies; however, it is not intended to serve as a contractual agreement between the University and the recipient. Additionally, the University will disseminate and publicize, for each of its campus locations, crime statistics from the most recently completed calendar year and two preceding calendar years within the Annual Security Report.

**Campus Crime Statistics**

The Clery Act delineates the violations that need to be reported. The University of Phoenix Annual Security Report includes all Clery Act crimes reported to campus security authorities (CSAs), regardless of who reported, whether an investigation is initiated, or whether there is any decision by a court, prosecutor, or any other non-campus official unless it has been “un-founded” by law enforcement personnel. In addition, the University’s Annual Security Report includes any Clery Act crimes reported to local law enforcement collected by the Campus Safety Coordinator through an annual information request. The statistics cover crimes reported to the University over the previous three years that occurred on-campus, in certain off-campus (noncampus) buildings or property owned or controlled by the University, and on public property within or immediately adjacent to and accessible from the campus. If a crime has occurred but has not been reported, it cannot be reflected in the following statistics. For this reason, University of Phoenix encourages everyone to report all crimes to a CSA/Campus Safety Coordinator and a local law enforcement agency.

The following Clery Act crimes meet definitions in the FBI’s Uniform Crime Reporting (UCR) Program. For the categories of Domestic Violence, Dating Violence and Stalking, definitions are provided by the Violence Against Women Reauthorization Act of 2013 (VAWA), which amended the Clery Act.

- **Criminal Offenses** - Criminal Homicide (Murder and Non-Negligent Manslaughter, Manslaughter by Negligence), Sex Offenses (Rape, Fondling, Incest, Statutory Rape), Robbery, Aggravated Assault, Burglary, Motor Vehicle Theft, and Arson
- **Hate Crimes** - Any of the above-mentioned offenses (excluding Manslaughter by Negligence) and any incidents of Larceny-Theft, Simple Assault, Intimidation, or Destruction/Damage/Vandalism of Property that were motivated by bias
- **categories of bias under the Clery Act include Race, Religion, Sexual Orientation, Gender, Gender Identity, Ethnicity, National Origin, and Disability**
- **VAWA Offenses** - Any incidents of Domestic Violence, Dating Violence, and Stalking
- **Sexual Assault** is also a VAWA Offense but is included in the Criminal Offenses category for Clery Act reporting purposes

**Arrests and Referrals for Disciplinary Action** - Weapons Law Violations, Drug Abuse Violations, and Liquor Law Violations

Specific campus location crime statistics are available electronically in their respective Annual Security Report at https://www.phoenix.edu/about_us/campus-safety.html or by requesting a paper copy of the report from a Campus Safety Coordinator (contact information can be viewed at https://www.phoenix.edu/about_us/campus-safety/campus-safety-contact-list.html) or any University representative.

University of Phoenix expressly reserves the right to modify or to adopt additional campus policies and procedures relating to campus safety, at any time, without notice.

**Statement of Policy on Sex Offender Registration**

The Campus Sex Crimes Prevention Act of 2000 provides minimum national standards for state sex offender registration and community notification programs. This Act requires the state agencies to obtain information concerning registered sex offenders’ enrollment or employment at institutions of higher education. Sex offenders who are required to register in a state must provide notice to each institution of higher education that is where the offender is employed or is a student. This notice should be directed to the Campus Safety Coordinator at their local campus.

To learn the identity of registered sex offenders on or near a campus, or anywhere in the United States, visit the sex offender databases at http://www.sxoffender.com/ and https://www.nsopw.gov/. You can search by city, county, or ZIP code. This information is collected by other agencies, and the University cannot guarantee this information is correct or complete. The database link is provided to comply with the Clery Act and for campus safety purposes only. It should not be used to intimidate, threaten, or harass. Misuse of this information may result in prosecution.

**Emergency Mass Notification Policy**

The University maintains emergency management policies, procedures, and systems to protect lives and property, and to continue necessary critical functions and essential services.

An emergency is defined as a situation that poses an immediate threat to the health or safety of someone in the campus community, at a University location, or that significantly disrupts the normal course of University business.
The Emergency Mass Notification process includes emergency escalation procedures, mass notifications and supporting systems. In an emergency, dangerous or otherwise high-risk situation, these processes enable the University to, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system to enrolled students and current employees (faculty and staff) unless issuing the notification system will, in the professional judgement of the responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The policy can be viewed in its entirety in the Campus Safety Policies at https://www.phoenix.edu/content/dam/allcloud/doc/about_uopx/Campus-Safety-Policies.pdf

Campus Safety Contact List

To help ensure the safety of the campus community, the University has campus security authority (CSA) reporting contacts, including a designated Campus Safety Coordinator at every teaching campus.

Below are some of the persons to whom students, faculty and staff should report crimes. Visitors and others not associated with the University can also contact these CSA reporting contacts to report crimes.

Security Operations Center (SOC)
866-992-3301 or 602-557-7000

Alcohol and Other Drug Abuse Prevention

The U.S. Department of Education requires institutions of higher education to implement an alcohol and other drug abuse prevention and awareness program for their students and employees. University of Phoenix abides by the federal regulations for the Drug-Free Workplace Act and the Drug Free Schools and Communities Act, regardless of individual state legalization. The University has a “zero-tolerance” policy regarding the unlawful use, sale, possession, or distribution of illegal drugs and alcohol on University controlled property, or as part of any University activity. “Zero-tolerance” means under no circumstances is the use, sale, possession, or distribution of illegal drugs or alcohol permitted on campus. Misconduct violations relating to the Student Code of Conduct, Faculty Code of Conduct, the employee Alcohol and Drug Abuse Prevention policy, and/or the University’s Code of Ethics are subject to disciplinary sanctions.

Students, faculty, and staff are expected to conduct themselves ethically, honestly and with integrity as responsible members of the University’s academic community. Any member of the University community found consuming or selling alcohol and other drugs on University property is subject to disciplinary action up to and including dismissal from the University. Policies and programs concerning alcohol and other drugs, including health risks, effects of use, penalties, and counseling and assistance resources, can be viewed in the Campus Safety Policies at https://www.phoenix.edu/about_us/campus-safety/campus-safety-policies.html.

Prohibition of Illicit Drug Use, Underage Drinking, and other Violations of Alcohol and other Drug-Related Policies

The University’s Codes of Conduct state that the unlawful manufacture, sale, delivery, unauthorized possession, or use of any illicit drug is prohibited on property owned or otherwise controlled by the University. The University enforces a “zero-tolerance” policy regarding underage drinking and will enforce state underage drinking laws on its campus premises (Note: The minimum legal drinking age in the United States is 21.) If any individual is found violating any alcohol- or other drug-related law while at a University location or activity, the University will fully cooperate with federal and state law enforcement agencies.

Institutional Sanctions for Alcohol and Other Drug Violations

The University abides by federal, state, and local sanctions regarding unlawful possession of drugs and the unlawful consumption of alcohol. Any member of the University community found consuming or selling alcohol or other drugs on University property is subject to disciplinary action up to and including dismissal from the University. Consistent with federal, state, and local sanctions, the University may impose a disciplinary sanction to students, faculty, or staff requiring the completion of an appropriate rehabilitation program. Failure to comply with disciplinary standards could result in sanctions, up to and including expulsion or termination of employment, and referral for prosecution for violation of the standards of conduct.

Academic Year Definition Policy

Overview

The Academic Year Definition Policy provides the defined academic year for each federal financial aid eligible program (by credential level) offered by the University.

Policy

A student’s academic year begins with the first eligible course of a degree program and ends when the student successfully completes the credits and weeks of instructional time requirements.

- Undergraduate Certificate Programs are a minimum of 24 credits and 40 weeks of instructional time
- Graduate Certificate Programs are a minimum of 24 credits and 48 weeks of instructional time, except the following:
  - Graduate Initial Teacher Certificate (Elementary and Special Education only) are a minimum of 27 credits and 61 weeks of instructional time
- Associate Programs (9-week model) are a minimum of 24 credits and 36 weeks of instructional time
- Associate Programs (5-week model) are a minimum of 24 credits and 40 weeks of instructional time
- Bachelor’s Programs are a minimum of 24 credits and 40 weeks of instructional time
- Master’s Programs are a minimum of 24 credits and 48 weeks of instructional time
The University makes available instructional resources and
Prior-Year Charges
California Student Tuition Recover Fund (CA STRF), if
Resource Fees (electronic course materials fees and books)
Tuition (including state sales tax) and mandatory institutional
Allowable Charges Policy
Overview
The University defines allowable charges as follows:
• Tuition (including state sales tax) and mandatory institutional fees
• rEsource Fees (electronic course materials fees and books)
  • By using the ED MAP Book Voucher, the student has authorized the use of federal financial aid funds for the book charge. If the student chooses not to use the book voucher, the authorization is no longer valid.
• California Student Tuition Recover Fund (CA STRF), if applicable
Prior-Year Charges
If a student owes allowable charges from a prior loan period, the University will use current loan period Direct Loan funds, not to exceed $200, to pay those charges. The University does not apply any other type of federal financial aid funds (e.g., Pell and FSEOG) to allowable charges for any prior loan period.

Example:
A student is enrolled in a Bachelor program and has two courses that overlap by one instructional week. The student would be completing 24 credits in 39 weeks; however, the academic year definition is a minimum of 24 credits and 40 weeks. Therefore, the academic year would not be over until the student completes at least one more week of instructional time. In order to do this, the student must complete at least one additional week in the subsequent course.

Instructional time is generally measured from the first day of class or examination and does not include scheduled breaks or orientation periods. A week of instructional time is a period of 7 consecutive days in which:
• At least one day of regularly scheduled instruction or examination occurs; OR
• The University makes available instructional resources and materials, and the student is expected to complete educational activities during that time. (applies only to asynchronous distance education coursework; that is, coursework completed on the student’s own schedule, rather than at specific, scheduled time)

Allowable Charges Policy
Overview
Federal regulations stipulate that when an institution disburses federal financial aid funds to a student by crediting the student’s account, it may do so only for allowable charges. Student loan authorization is required to apply disbursed federal financial aid funds to an allowable charge. The Allowable Charges Policy defines what those allowable charges are at the University.

Policy
Allowable Charges
The University defines allowable charges as follows:
• Tuition and mandatory institutional fees
• rEsource Fees (Books and Supplies)
  • rEsource fees encompass course textbooks and electronic materials, the University library, eBook collection, math labs, programming software, the Centers for Math and Writing Excellence, and PhoenixLink
• Living Expense
  • Room and Board (housing and food)
  • Transportation
  • Miscellaneous
  • Personal care expenses
• Federal Loan Fees
If a student is attending less than half time, the COA is limited to the following components:
• Tuition and mandatory institutional fees
• rEsource Fees
To determine the total of each component for a student’s COA, the University references its academic year definition for each credential level to establish the number of credits and months to be used. (Refer to Academic Year Definition Policy for further information.)

Exceptions include professional judgment decisions (i.e., child care costs) and elimination of an overaward using a student’s actual tuition costs for the period of enrollment. (Refer to the Overaward & Overpayments Policies for further information.)

Tuition
The tuition component for the COA is based on a per credit weighted average for each credential level across the entire University, with the exception of Competency Based Education (CBE) programs. The University documents how tuition averages are calculated and makes this information available upon request.

To determine the total tuition component for each student’s COA, the University multiplies the weighted average price per credit by the number of credits per academic year.

For CBE Programs, the tuition component for the COA is based on a cost of $300 per credit. To determine the total tuition component for each student’s COA, the University multiplies $300 price per credit by the number of credits per academic year.

rEsource Fees
The books and supplies component is calculated using a standard rEsource fee for each course in the student’s academic year based on the credential level. CBE programs are not charged a rEsource fee.
Federal Student Aid COVID-19 Exceptions Policy

Overview

This policy describes the exceptions to existing University FSA policies, and regulatory relief that schools may use to aid students impacted by the COVID-19 national emergency.

Verification and Conflicting Information Policy

Acceptable Documentation for V4 and V5

Overview

Written arrangements consist of consortium and contractual agreements. The Consortium Agreements policy documents the University’s position on participating in consortium agreements with other institutions for the purpose of receiving or processing federal financial aid funds.

Policy

The University may execute on an institutional basis and act as a host institution for students not enrolled at the University. However, the University will not execute as a host institution on an individual basis nor execute as a home or host institution for students enrolled as certificate or degree seeking students at the University.

Federal Student Aid COVID-19 Exceptions Policy

Overview

The Federal Student Aid (FSA) COVID-19 Exceptions Policy highlights the exceptions made to existing University policies for the 2019-2020, 2020-2021, 2021-2022, and 2022-2023 federal award years while administering FSA funds for students impacted by COVID-19.

Policy

In an effort to mitigate the effects of the COVID-19 national emergency, multiple federal actions were enacted to provide relief to impacted organizations and individuals.

- **March 13, 2020**: The President of the United States declared a national emergency concerning the coronavirus (COVID-19).
- **March 27, 2020**: The Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) was signed into law.
- **April 3, 2020**: The Department of Education (ED) deemed the President’s national emergency as equivalent to a federally declared major disaster, as defined in the Robert T. Stafford Disaster Relief and Emergency Assistance Act in 42 U.S.C. § 5122(2) (Stafford Act).

As a result of the above series of events, ED published a series of electronic announcements describing waivers, emergency flexibilities, and regulatory relief that schools may use to aid students impacted by the COVID-19 national emergency.

High School Completion

Applicants who have provided conflicting information or the University has reason to question the validity of the students’ high school completion or students selected for V4 or V5 verification must provide acceptable documentation, as detailed in the Verification and Conflicting Information Policy, in order to resolve verification.

Acceptable documentation related to High School Completion for the process of completing Verification Tracking Groups V4 and V5 is limited to the 2020/2021 and 2021/2022 award years. Beginning with the 2022-23 award year, high school completion status is no longer a required verification item under Verification Tracking Groups V4 or V5. Beginning with the 2022-23 award year, high school completion status is no longer a required verification item under Verification Tracking Groups V4 or V5.

Any documentation obtained through this exception cannot be used to resolve verification outside of the timeframe designated by the law (i.e. verification conducted in subsequent payment periods and award years).

Living Expense

The living expense component is a per month allowance and includes housing, utilities, food, transportation, student purchased books and school supplies, and personal care expenses (shampoo, laundry detergent, etc.).

The University calculates an average loan fee per month based on the number of months to be used. (Refer to Academic Year Definition Policy for further information)

Loan Fees

Consortium Agreements Policy

Written arrangements consist of consortium and contractual agreements. The Consortium Agreements policy documents the University’s position on participating in consortium agreements with other institutions for the purpose of receiving or processing federal financial aid funds.

Acceptable Documentation for V4 and V5

Beginning with the 2022-23 award year, high school completion status is no longer a required verification item under Verification Tracking Groups V4 or V5.

Any documentation obtained through this exception cannot be used to resolve verification outside of the timeframe designated by the law (i.e. verification conducted in subsequent payment periods and award years).
Return of Title IV Policy

Return of Unearned Aid

When an FSA recipient withdraws from the University prior to completing a payment period for which he/she received FSA funds, an R2T4 calculation must be performed to determine the amount of FSA funds earned as of the date of withdrawal as well as the amount of unearned funds that must be returned to the applicable FSA program(s), as detailed in the Return of Title IV Policy. This requirement continues to apply, even during the COVID-19 national emergency. However, for students determined to be eligible for the CARES Act provisions related to R2T4 (Cares Act relief), neither the University nor the student is required to return unearned FSA program funds to the applicable FSA program(s). Additionally, if FSA program funds were previously returned and/or reported as an overpayment for students determined to be eligible for Cares Act relief, the University is required to re-disburse these funds and/or remove the reported overpayment. The University will evaluate a student's eligibility for this exception if the student has officially withdrawn from the University during an eligible payment period and appropriately submits the University's required attestation form satisfactorily explaining why the withdrawal from an eligible payment period was the result of the COVID-19 national emergency.

Determination of Eligibility for Cares Act Relief

A student must officially withdraw by following the University's Withdrawal Procedures published in the University's Academic Catalog and designate their reason for withdrawal to be related to the COVID-19 national emergency to be considered for CARES Act relief. The University will notify potentially eligible official withdrawals via email and provide the University's Truthful Attestation of Coronavirus-Related Circumstances Form. This attestation form must be completed in full and include a detailed explanation describing why the student's withdrawal was the result of the COVID-19 emergency. The completed attestation form MUST be returned to the University within 30 days from the email notification date via email to FinancialServicesSeniorSupport@phoenix.edu. Completed attestation forms received after this deadline will be denied. Students should provide any relevant supporting documentation with the completed attestation form. The University will review each Truthful Attestation of Coronavirus-Related Circumstances Form submitted and determine whether the student meets the eligibility requirements for CARES Act relief. If the University determines the student is eligible for CARES Act relief, the University will re-disburse any FSA program funds that were included in the R2T4 calculation.

Disbursement Policy

Late Disbursement

The University is required to confirm that certain conditions are met prior to making a late disbursement of FSA program funds, and the conditions vary based on the type of FSA program fund(s) being disbursed. For more information on late disbursements, including post-withdrawal disbursements, and the conditions that must be met, please refer to the Disbursements Policy. This requirement continues to apply, even during the COVID-19 national emergency. However, for students determined to be eligible for the CARES Act provisions related to R2T4 (Cares Act relief) the University is not required to employ the conditions for determining if a late disbursement, including post-withdrawal disbursements, can be made. Consequently, for students who qualify for Cares Act relief, the University will re-disburse any FSA program funds that were included in the R2T4 calculation.

Exceptions notwithsanding, the University must still perform the R2T4 calculation and required actions within the required timelines and document the results.

If the re-disbursement of FSA program funds previously returned creates a Title IV credit balance, the University must issue funds to the student within 14 days.

Disbursements Policy

Overview

The Disbursements Policy addresses a student’s eligibility for standard, late, and post-withdrawal disbursements of federal financial aid funds from the University. The University may only disburse federal financial aid funds to eligible students for allowable charges.

Policy

The University requires the following information be completed before a disbursement of Federal Direct/PLUS loans is made:

- Confirmation of loan amount (fund acceptance)
- Entrance counseling, if applicable
- Master Promissory Note (MPN)

The following are additional items that may be required:

- University’s confirmation of financial aid satisfactory academic progress
- A 30-day disbursement delay for first year/first time borrowers
Master Promissory Note Confirmation
The University uses the multi-year MPN and practices an active confirmation process for all borrowers borrowing under the Direct Loan Program. The University requires a student to submit a new MPN if no Direct Loan disbursements are made within one year of the original MPN sign date. The University originates the loan(s) based on the student and/or parent’s confirmed loan amount(s) received during the processing of his/her financial aid for each FAFSA award year. Requests may be made for an increase or decrease to the loan amount. However, if the amount(s) of Federal Direct and/or PLUS (PLUS) loans requested exceeds the student’s cost of attendance (COA), the University only originates up to the COA.
The University will maximize the student’s Subsidized Direct Loan eligibility when awarding and originating the confirmed Direct Loan amount.

Standard Disbursement
The University will notify students, before any disbursement is made, of the amount of federal financial aid funds the student (and his/her parent) can expect to receive under each federal financial aid program for each payment period in the academic year (AY) and how and when those federal financial aid funds will be disbursed. The University will schedule disbursements according to procedures; typically, federal financial aid fund disbursements are scheduled to disburse by the 3rd day of a payment period. For students enrolled in Competency Based Education Programs (credit based), the disbursements will be made once the student has posted an academically related activity in each course. This is to confirm enrollment in all courses scheduled for the payment period. At the time of disbursement, the University will confirm the student continues to meet student eligibility requirements in addition to disbursement requirements and is eligible to receive the federal financial aid funds awarded. Typically, a student is eligible to receive a disbursement of federal financial aid funds for the first payment period of the AY when the University confirms the student has posted attendance in an eligible course(s) in the payment period and satisfactory academic progress standards were met, if applicable. The student becomes eligible to receive a disbursement of federal financial aid funds for the second payment period when the student meets the above criteria in addition to successfully completing one-half the weeks of instructional time AND earning one-half the credit hours in the defined academic year (AY). Typically, the University disburses funds once the student successfully completes half the credits and weeks of instruction in the current AY, which may consist of more credit hours and weeks of instruction than the defined AY.
At the time the AY and federal financial aid funding is initially established, if the payment periods are not equal in credit hours and weeks of instructional time, the first payment period will consist of more credit hours and/or weeks of instructional time to ensure the required credit hours and weeks of instructional time are earned/completed before the second payment period disbursement is made, as required. However, based on the student’s actual progression thru their AY, the student’s federal financial aid funding may be reevaluated resulting in the second payment period consisting of more credit hours and weeks of instructional time than the first payment period.

If a program is longer than one AY and consists of a remaining period that is more than one-half an AY, the remaining period will have two payment periods. Timing and eligibility of the disbursements are the same as outlined above. If the remaining period is equal to or less than one-half an AY, the remaining period will have one payment period. However, the University disburses federal financial aid funds in two disbursements. The second disbursement is not made until the student successfully completes one-half the weeks of instructional time AND earns one-half the credit hours in this single payment period.

Right to Cancel
Once the loan is disbursed, the University will send the student/parent a disbursement notification that contains information regarding a borrower’s Right to Cancel within 30 days from the date the University sends the disbursement notification. This notice will be sent to the student/parent no later than seven (7) days after crediting the student’s account at the University. Borrowers who wish to cancel all or a portion of their loan must login to the student website and navigate to Account > Awards & Disbursements > Change Loans to initiate the reduction or cancellation of federal financial aid within 30 days from the date the University sends the disbursement notification. If there are any further questions, students can contact Student Financial Services at StudentFinancialServices@phoenix.edu or 1-888-346-8679. Any requests received after 30 days will be denied. The University will notify the student/parent in writing the outcome of his/her request regardless of when the cancellation request is received.

Late Disbursement
Students or parents become ineligible to receive federal financial aid funds on the date the student:
• For Federal Grants, the student is no longer enrolled at the University for the award year; or
• For Direct Loans, the student is no longer enrolled at least half time
If a student completes a payment period or academic year, withdraws during a payment period or period of enrollment, or graduates, the University must make or offer the student (or parent in the case of a PLUS loan) a late disbursement of federal financial aid funds for which the student (or parent in the case of a PLUS loan) was eligible while in attendance at the University.
The U.S. Department of Education regulations do not permit the University to make any late disbursement of federal financial aid funds after 180 days from the date the University determined that the student withdrew or, if the student did not withdraw, became ineligible.
The following conditions must be met prior to the date the student became ineligible for a late disbursement:

**Program**

<table>
<thead>
<tr>
<th>Program</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pell Grant/IASG</td>
<td>No additional requirements</td>
</tr>
<tr>
<td>FSEOG</td>
<td>Student is awarded a grant</td>
</tr>
<tr>
<td>Direct Loans</td>
<td>A loan record is originated</td>
</tr>
</tbody>
</table>

The following additional limitations must be satisfied before the University may make a late disbursement:

**Direct Loans**

The University received a valid SAR/ISIR by the date established by ED; and
1. For a first-year, first-time borrower, the student completed 30 days of the program.
2. For a second disbursement, the student graduated or completed the period for which the loan was intended.

**Post Withdrawal Disbursement of Federal Financial Aid Grant Funds**

As a result of the student’s Return to Title IV Funds (R2T4) calculation, the student may be eligible to receive federal financial aid funds that had not disbursed but could have been disbursed prior to the student's withdrawal date (Refer to the R2T4 Policy for further information).

If the total amount of federal financial aid grant and/or loan funds earned by the student on the R2T4 calculation is greater than the total amount of federal financial aid disbursed to the student, or parent in the case of a PLUS loan, the student may be eligible to receive a post withdrawal disbursement (PWD).

The University does not include as a PWD any funds from a disbursement the University was prohibited from making on or before the date of the University’s determination that the student withdrew, which would apply to the following:

- A first disbursement of a Direct Loan to a first-year, first-time borrower who withdraws before completing 30 days of the program of study;
- Second or subsequent disbursements of Direct Loan funds unless the student successfully completed the loan period; or
- Disbursements of Federal Pell or IASG Grant funds to a student for whom the University did not have a valid SAR/ISIR by the deadline established by ED

A PWD is made from available grant funds before available Direct Loan funds.

**Post withdrawal Disbursement of Federal Financial Aid Loan Funds**

The University may credit a student’s account with a PWD of federal financial aid grant funds (Pell, IASG, and FSEOG), without the student’s permission, for outstanding current allowable charges. The University will obtain a student’s authorization to apply PWD grant funds toward anything other than current charges. The University disburses any amount of a PWD of federal financial aid grant funds as soon as possible, but no later than 45 days after the date of the University's determination that the student withdrew. If the student does not respond to the University’s notice for authorization, federal financial aid grant funds are used for outstanding allowable charges. (See Allowable Charges Policy for the definition of allowable charges).

**Post withdrawal Disbursement of Federal Financial Aid Loan Funds**

The University notifies a student, or parent in the case of a PLUS loan, in writing prior to making any PWD of Direct Loan funds, whether credited to the student’s account or disbursed directly to the student (or parent in the case of a PLUS loan). The written notification is sent to the student (or parent in the case of a PLUS loan) as soon as possible, and within 30 calendar days of the University's date of determination that the student withdrew. The written notification includes the following:

- The type and amount of Direct Loan funds to be credited to the student’s account or disbursed directly to the student or parent, in the case of a parent PLUS loan,
- Explanation that the student, or parent in the case of a PLUS loan, has the right to accept or decline all or a portion of the funds offered.
- Information about the borrower’s obligation to repay Direct Loan funds, if disbursed.
• A request for authorization to credit Direct Loan funds to the student’s account, indicating if authorization is not provided in writing, the student may not receive any Direct Loan funds as a direct disbursement, unless the Universityconurs.
• Information informing the borrower that no PWD will be made if he/she does not respond in writing within 30 days of the date of the letter. The University may, on an exception basis, choose to accept a late request, and/or accept verbal authorization from the borrower. The deadline for a borrower to accept a PWD is the same for both a confirmation of a Direct Loan disbursement to the student’s account and direct disbursement of a PWD.
• If the University declines to honor a late request accepting loan funds to be credited to the student’s account, or parent in the case of a PLUS loan, the University informs the student, or parent in the case of a PLUS loan, of this decision in writing.
• If the University chooses to honor a late request, all loan funds must be disbursed in accordance with the student or parent’s request. The result of the contact and final determination made concerning the disbursement is documented in the student’s file.
• Instructions to submit the request electronically or in writing directly to Student Financial Services-Operations (SFS-O) by mail, fax, or via the student website.

If the student, or parent in the case of a PLUS loan, responds in writing to the notice within 30 days of the date of the letter and authorizes the University to make all or a portion of the PWD, the funds are disbursed in the manner specified by the student, or parent in the case of a PLUS loan, within 180 days of the University’s date of the determination that the student withdrew.
If the University chooses to honor a late request, all loan funds accepted by the student, or parent in the case of a PLUS loan, are disbursed in accordance with the student’s or parent’s request. If the University declines to honor a late request accepting loan funds to be credited to student’s account, or parent in the case of a PLUS loan, the University informs the student, or parent in the case of a PLUS loan, of this decision in writing.
The University does not request federal financial aid funds for a PWD unless and until it has determined the following:
• A PWD is due and accepted by the student, or parent in the case of a PLUS loan,
• The amount of the PWD, and
• The PWD can be disbursed within three business days of receipt.

Enrollment Reporting Policy

Overview
The Enrollment Reporting policy details how the University confirms and reports the enrollment status of all Title IV students and previous Title IV students who transfer to the University.

Policy
The University reports enrollment both in the Campus-Level Record, representing the student’s overall enrollment at the University and in the Program-Level Record, for each of the academic programs the student attended using the eight-digit Office of Post-secondary Education Identifier (OPEID) for the location of the course. To complete these reporting requirements, the University contracts with the National Student Clearinghouse (NSC). NSC then provides this information to the participating guaranty agencies, lenders, and servicers.

Even though the University uses NSC for enrollment reporting, the University remains responsible for submitting timely, accurate, and complete responses to Enrollment Reporting roster files and for maintaining appropriate documentation. NSLDS sends the roster to NSC; however, if the response is not received in a timely matter, NSLDS notifies the University rather than NSC.

Reporting Schedule
The University is required to confirm enrollment information for all students on its roster file scheduled at least every two months and must do so within 15 days of the date NSLDS sends the roster to NSC. In addition, any changes in enrollment status to less than half-time, graduated, or withdrawn must be reported within 30 days of becoming aware of the change. To meet this requirement, the University confirms and reports the enrollment status of all students to the NSC on a weekly basis. NSC uses the data provided by the University to complete the Enrollment Reporting file sent from ED on a weekly basis.
NSLDS returns an error report if it identifies errors in the Enrollment Reporting file. Any identified errors must be corrected and resubmitted to NSLDS within 10 days. The University accesses the NSLDS error report via the NSC site promptly after an error is identified to ensure the necessary corrections are made within the 10-day timeframe.

Overall Enrollment Status categories

<table>
<thead>
<tr>
<th>Code</th>
<th>Status</th>
<th>How the University Reports the Status Start Date for Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td>F</td>
<td>Full-time</td>
<td>The status start date is not reported on the weekly SSCR report. It is determined by NSC based on the first day of the term (which is the course start date associated with the first academic related activity (ARA) that triggered the full-time status).</td>
</tr>
<tr>
<td>L</td>
<td>Less than half-time</td>
<td>The start date of the term date is reported.</td>
</tr>
<tr>
<td>A</td>
<td>Leave of Absence</td>
<td>The start date of the approved leave of absence.</td>
</tr>
<tr>
<td>G</td>
<td>Graduated</td>
<td>The academic complete date for the program (which is the end date of the last course).</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawn</td>
<td>The student's official last date of attendance (OLDA) at the time the system updates the status to withdrawn.</td>
</tr>
<tr>
<td>D</td>
<td>Deceased</td>
<td>The date of death (when provided) or the date the University received the request in any event the date of death is not provided.</td>
</tr>
</tbody>
</table>
**Status Start Date**
The University reports the status start date (status effective date) if the student has a Graduated (G), Deceased (D), Withdrawn (W), Less Than Half Time (L), or is on an approved LOA (A) status.

**Anticipated Graduation Dates**
The anticipated graduation date is the date the student is projected to graduate and is required only for enrollment data and students with F, Q, H, L, or A statuses.

**Federal Financial Aid Credit Balance Policy**

**Overview**
The Federal Financial Aid Credit Balance Policy addresses federal financial aid credit balances and how the University handles those credit balances when they occur on a student’s account. Whenever the University credits federal financial aid funds to a student’s account and those funds exceed the student’s allowable charges for the payment period, a federal financial aid credit balance occurs. The University will pay the excess federal financial aid funds directly to the student or parent as soon as possible, but no later than 14 days after the balance occurred on the student’s account.

**Policy**
Whenever the University credits federal financial aid funds to a student’s account and those funds exceed the student’s allowable charges (Refer to the Allowable Charges Policy for definition of allowable charges), a federal financial aid credit balance occurs. Federal financial aid credit balances will be issued to the student, or parent as applicable, within 14 days of the date federal financial aid funds are disbursed or the date the federal financial aid credit balance occurs (which is the date the funds are applied to the student’s account).

**Unclaimed Federal Financial Aid Credit Balances**
The University will refund Federal financial aid credit balances to the student or parent via electronic funds transfer (EFT). In the event direct deposit has not been setup or the EFT is rejected, a paper check will be sent to the student or parent using the student’s current address on record. Federal financial aid credit balance checks issued to students or parents are required to be negotiated within 90 days of issuance. Any refund check not cashed within the 90 days will be canceled and the University will return this unclaimed credit balance to the applicable federal financial aid program(s). In the event a check is returned to the University, the University will (re) confirm the student’s or parent’s current address and reissue this check if the current address has been updated since the original check was issued. If the current address has not been updated, the University will return this unclaimed credit balance to the applicable federal financial aid program(s).

All unclaimed credit balances will be returned in the following order:
- Unsubsidized Direct Loans (other than Direct PLUS)
- Subsidized Direct Loans
- Direct PLUS Loans
- Federal Pell Grants
- FSEOG Grants
- TEACH Grants
- Iraq and Afghanistan Service Grants

**Federal Pell Grant/IASG Policy**

**Overview**
The Federal Pell Grant/Iraq and Afghanistan Service Grant (IASG) Policy illustrates how the University calculates and awards Pell Grants (including those funds awarded under the Children of Fallen Heroes or Children of Fallen Soldiers) and IASG to eligible students.
Policy
The University calculates the annual award for Pell eligible students in nonterm credit-hour programs using Federal Pell Grant Formula 4 in conjunction with the Federal Pell Grant full-time payment schedule. The maximum duration of Pell and IASG eligibility is limited to six full-time scheduled awards, as measured by the percentage of lifetime eligibility used (LEU). A student is ineligible to receive further Pell and or IASG funds if they have 600% or greater.

Pell Grant Eligibility
Students who meet general eligibility requirements (Refer to the University’s Consumer information Guide for further information on general eligibility) and have a calculated expected family contribution (EFC) number that meets Federal Pell Grant eligibility criteria will be awarded Federal Pell Grant funding.
In addition, students who meet one of the following criteria will be awarded the Federal Pell Grant or IASG funding:

Iraq and Afghanistan Service Grant (IASG)
The IASG is awarded to students whose parent or guardian died as a result of military service in Iraq or Afghanistan after September 11, 2001 and meets one of the following requirements:
• The student was less than 24 years of age when the parent or guardian died; or
• The student was enrolled at an institution of higher education at the time of the parent or guardian’s death.

If the student is eligible for a Federal Pell Grant, the University will award and package all federal financial aid based on a zero EFC. If the student is ineligible for a Federal Pell Grant because his/her EFC is too high, the student may receive the IASG. The grant amount is equal to the maximum Federal Pell Grant for the award year and cannot exceed the student’s cost of attendance. The IASG is subject to a federal budget cut each year, known as sequestration. Because the IASG awards are subject to a federal budget cut each year, there are reductions from the award amount for which the student would otherwise have been eligible to receive. Each year, this amount changes based on the Budget Control Act of 2011.

Children of Fallen Heroes:
A student whose parent or guardian died in the line of duty while performing as a public safety officer may receive increased amount of federal financial aid under the Children of Fallen Heroes Scholarship if the student is Pell grant eligible and
• The student was less than 24 years of age when the parent or guardian died; or
• The student was enrolled at an institution of higher education at the time of the parent or guardian’s death.

In these scenarios, all federal financial aid will be based on a zero EFC. The zero EFC is only used for awarding purposes.

The U.S. Department of Education does not provide any notification of eligibility to the University. Consequently, students who believe they qualify for this scholarship must notify the University’s Student Financial Services at StudentFinancialServices@phoenix.edu or 1-888-346-8679 and provide any required documentation requested. The University will determine based on the documentation submitted whether or not the student meets the eligibility criteria. For more information, please refer to the University’s Consumer Information Guide.

Children of Soldiers:
A student whose parent or guardian died as a result of U.S. military service in Iraq or Afghanistan after September 11, 2001, may receive increased federal financial aid funds if at the time of the parent or guardian’s death the student was either less than 24 years old or was enrolled in college. Eligibility is based upon the following:
• If the student is Pell grant eligible, the student may receive a Pell grant; OR
• If the student is not Pell grant eligible because his/her EFC is too high, the student may receive an Iraq and Afghanistan Service Grant.

In these scenarios, all federal financial aid will be based on a zero EFC. The zero EFC is only used for awarding purposes.

The U.S. Department of Education (ED) notifies the University when a student appears to meet the criteria for Zero EFC treatment because a parent or guardian died as a result of U.S. military service in Iraq or Afghanistan. This is based on a match with the U.S. Department of Defense file of eligible dependents.

Calculating Payment Amounts
The award for each payment period will be based on ED’s full-time Pell payment schedule and may be subject to proration. The scheduled Pell/IASG award is prorated based on the percentage of the following:
• Credit hours scheduled to be completed in the payment period over 24 credit hours in the academic year; or
• Weeks of instructional time scheduled to be completed in the payment period over the defined instructional weeks in the academic year. (Refer to the Academic Year Definition Policy for further information)

The Pell/IASG award is calculated using the lesser percentage multiplied by the full-time Pell scheduled award.

Year Round Pell/IASG
Students may be eligible to receive up to one and one-half Pell/IASG Grant awards during a single award year, not to exceed 150% of the student’s scheduled award for the award year (Referred to as Year Round Pell). Students must meet the following criteria to be considered for a second scheduled award:
• Must be enrolled at least half-time;
• Must have received 100% of the first scheduled award in a single award year in a certificate, associate degree, or baccalaureate degree program;
• Must be enrolled in an eligible program for one or more additional payment periods during the same award year that are not otherwise fully covered by the student’s Pell Grant; and
• Must have successfully completed the credit hours of previous payment period

Crossover Payment Periods
When a payment period falls into two federal award years (payment period includes both June 30 and July 1), it is referred to as a “crossover payment period.” If a student’s academic year/loan period includes a crossover payment period, the entire payment period must be considered to occur within one federal award year.

The University determines for each Pell/IASG grant recipient the federal award year to be used to determine the recipient’s Pell/IASG grant award.

For payment periods that meet the above definition, the University will award and disburse the largest Pell/IASG grant possible based on all federal award year ISIsRs received by the University and eligible for payment at the time the student’s initial disburse-
Pell Payment Calculations and LEU Limitations

For any remaining portion of a program that is more than half of an academic year (AY) but less than a full AY, the remaining portion is divided into two payment periods. The first payment period is the period in which the student successfully completes half of the credits AND half of the weeks of instructional time in the remaining portion. A student may receive less than a Scheduled Award in an award year, if the program crosses award years and the student’s Pell Grant award in one of the award years is for a portion of the program that is less than a full AY.

- The annual award for a student in a nonterm credit-hour program is taken from the full-time payment schedule even if the student is attending less than full-time.
- Comparable prorations will be performed based on the number of credits in the payment period as they compare to the credits in the defined AY OR the number of weeks of instructional time in the payment period as they compare to the weeks of instructional time in the AY.
- The scheduled Pell award will be multiplied by the lesser of the 2 calculations to determine the Pell payment.
- If a student has more than 500% Pell LEU, the Pell payment will be the lesser amount between the proration calculation and the remaining eligibility award using the Pell LEU calculator.

Disputing the Accuracy of Pell Grant LEU Information

If a student attending the University chooses to dispute the accuracy of the Pell LEU information found in the Common Origination and Disbursement (COD) System, the University will assist the student in resolving this dispute. The University will not escalate the matter should it discover the amount of the Pell Grant LEU percentage being disputed would not, if corrected, make the student eligible for additional Pell Grant funding.

However, if there is a valid dispute, acceptable documentation to resolve the dispute must be collected. This documentation could include, for example, a written statement from the previous institution confirming the student never attended, or at least never received Pell Grant funds from that institution for the award year in question. The University will submit the documentation through the COD Web site. The Department of Education (ED), after its review of the student’s assertion and any supporting information submitted, will provide the University with a response and instructions on how to proceed. For further information, contact Student Financial Services at StudentFinancialServices@phoenix.edu or 1-888-346-8679.

Rounding

The University uses standard rounding rules, applied consistently to all students, and will round Pell and IASG Grant disbursements to the nearest dollar (not to exceed the scheduled Pell/IASG award). See exception under “Pell Payment Calculations and LEU Limitations” section below.

Recalculation

If an expected family contribution (EFC) changes due to corrections, updating, or an adjustment and the EFC change would change the Pell/IASG grant award, the University will recalculate the Pell/IASG award for the entire award year. If, as a result of the recalculation, the student received more Pell/IASG award that the student was eligible for, an overpayment exists. Refer to the Overawards and Overpayments Policy for further information on how to resolve the overpayment.

Retroactive Payments

For all prior payment periods for which a student was an eligible student within the FAFSA award year, the University may pay the total lump sum of retroactive payments in two separate installments one day apart from each other.

Regaining Eligibility

If a student resolves ineligibility criteria while attending the University (e.g. resolves a default or over borrowing), the effective date of regaining eligibility for the Federal Pell Grant and IASG programs begins with the payment period in which the issue is resolved.

Prohibition on Receiving Pell at More Than One School

Students may not receive a Pell Grant for concurrent enrollment at two or more schools. If a student is awarded Pell Grant for any period of concurrent enrollment, the student has the choice of which school to use his/her Pell Grant award eligibility but is limited to a single award from a single school. If the student determines he/she would like to use his/her Pell Grant award eligibility at the University, the University will ensure that Pell Grant originated does not result in the student receiving more than 100% or 150% (for students who qualify for “year-round” Pell) of the scheduled award. Furthermore, the University will cooperate and respond timely to all Multiple Reporting Record (MRR) and Potential Overaward (POP) notifications received from the COD system. The University will document all calls, emails, and letters that were part of its attempt to resolve a POP and/or MRR. In the event the University is unsuccessful in resolving a POP or MRR with another school, the University may contact COD School Relations for additional assistance to find a resolution to the MRR and/or POP.

A student is considered to be concurrently enrolled when s/he is enrolled at two or more schools at the same time. A student is not considered to be concurrently enrolled when s/he withdraws from one school and enrolls at least one day later at another school.

Federal Student Aid Fraud Policy

Overview

The Federal Student Aid Fraud Policy addresses the actions the University will take in situations where the University suspects that a student, employee, other individual, or contracted Third-Party Servicer has willfully falsified or misrepresented information for the purpose of obtaining federal student aid that the student would not otherwise be eligible for.
Policy
The University will investigate any student/applicant who is suspected of having engaged in fraud or other criminal misconduct in connection with the application for or receipt of federal student aid programs funds. Following the conclusion of its investigation, if the University has credible information indicating the student, an employee, another individual, or contracted Third-Party servicer may have engaged in fraud or other criminal misconduct in connection with the student’s application or receipt of federal student aid funds, the University will refer the information to the Department of Education’s Office of Inspector General (OIG).

Federal Student Aid Fraud
Federal student aid fraud is the willful misrepresentation or falsification of information for the purpose of securing federal student aid that the individual is not eligible for or not eligible for to the extent received. Federal student aid fraud can take many forms, including, but not limited to falsification of documents, discrepant information, and/or identity theft. Examples of potential instances of federal student aid fraud include, but are not limited to:

- False claims of high school diploma (or equivalent) completion
- False statements of federal tax return filing status
- False statements of income
- Unresolved conflicting information
- Patterns of misreported information from one federal award year to the next
- Falsified documents (including reporting members that are not part of your household)
- Forged signatures on an application, verification documentation or Direct Loan master promissory notes
- False statements of U.S. citizenship or eligible noncitizen
- False claims of independent student status
- Use of fictitious names, addresses, birth dates, social security numbers
- Identity theft

Federal Student Aid Fraud Investigation
If the University suspects or determines there has been intentional misrepresentation, false statements, or falsification/alteration of documents, which have resulted or could result in the awarding or disbursing of federal student aid funds for which the student is not eligible, the case shall be referred to the University’s Student Administrative Services (StAS) Financial Aid Compliance Team for investigation.

When an investigation is initiated, the University will cease processing the student’s application for federal student aid, making federal student aid award determinations, and/or disbursing federal student aid funds previously awarded. In addition, the University may cancel the student’s previously awarded federal student aid funds and/or return a federal student aid credit balance(s) to ED.

During its investigation, if the StAS Financial Aid Compliance Team determines additional documentation or actions are required, the student will be notified in writing. This notification will provide the documentation or action required from the student and the due date for submission/completion. If the student fails to provide this additional documentation or action by the due date, the University’s investigation will be deemed complete.

Upon completion of the University’s investigation, the StAS Financial Aid Compliance Team will determine whether or not the student is eligible for continued participation in federal student aid programs, notify the student of its decision, and if necessary report any overpayment of federal student aid funds received to ED or the loan servicer, as applicable.

Federal Student Aid Fraud OIG Referral
If there is any credible information indicating the student, an employee, another individual, or contracted Third-Party servicer may have engaged in fraud or other criminal misconduct in connection with the student’s application or receipt of federal student aid funds, the StAS Financial Aid Compliance Team will refer this information to the OIG for further investigation.

Note: The University is only required to refer the suspected case for investigation, not reach a firm conclusion about the conduct.

HEROES Act Policy

Overview
The HEROES Act Policy ensures service members who are receiving federal financial aid at the University are not adversely affected because of their military status and minimizes the administrative burden placed on such individuals.

Policy
If an affected individual in one of the categories within this policy notifies the University of his/her affected status, the University will ensure he/she is not disadvantaged because of that status. Contact Student Financial Services at StudentFinancialServices@phoenix.edu or 1-888-346-8679 for further information.

Category 1 Individuals
Individuals affected by the waivers and modifications under this category include persons

- who are serving on active duty during a war or other military operation, or national emergency;
- are performing qualifying National Guard duty during a war or other military operation, or national emergency;
- reside or are employed in an area that is declared a disaster area by any federal, state, or local official in connection with a national emergency; or
- suffered direct economic hardship as a direct result of a war or other military operation, or national emergency.

The following waivers and modifications affect Category 1 individuals:
Need Analysis
The University substitutes adjusted gross income plus untaxed income and benefits received in the first calendar year of the award year, or another annual income that more accurately reflects the family’s current financial circumstances for which such determination is made for any affected individual, spouse and dependents, if applicable, to reflect the financial condition of an affected individual and family. The University has the option of using the applicant’s original EFC, the EFC based on the data from the first calendar year of the award year, or the EFC based on another annual income that more accurately reflects the family’s current financial circumstances. If the University chooses to use the alternate EFC, it uses the administrative professional judgment procedures established by the Secretary as discussed in the following section.

The HEROES waivers and modifications is separate from those impacted by a federally declared major disaster as defined in The Robert T. Stafford Disaster Relief and Emergency Assistance Act (Refer to the Student Financial Aid Eligibility Policy for information on natural disasters)

Professional Judgment
To more accurately reflect financial need; the University uses professional judgment for affected individuals. The University determines the need for an affected individual by determining the most beneficial of the following:

- The individual’s need as determined using the adjusted gross income plus untaxed income and benefits received in the first or second calendar year of the award year;
- The individual’s need as determined using another annual income that more accurately reflects the family’s current financial circumstances; or
- The individual’s need as determined making no modifications. (i.e. an individual’s income increased because of serving on active duty).

The University clearly documents the reasons for any adjustment and the facts supporting the decision. In almost all cases, the University will have documentation from a third party with knowledge of the student’s unusual circumstances. As usual, any professional judgment decisions made that affect a student’s eligibility for a subsidized student financial assistance program will be reported to the Central Processing System.

Title IV Grant Overpayments
A student who withdraws from the University of Phoenix because of an affected individual status is not required to return or repay any overpayment of grant funds based on the Return of Title IV (R2T4) calculations. The University does not deny federal financial aid eligibility to an affected individual who owes an overpayment. In addition, the University does not contact the student, notify NSLDS, or refer the overpayment to Debt Collection Services. However, the affected individual’s file will be documented to include the amount of the overpayment.

The University does not apply any federal financial aid credit balance toward an overpayment before using the credit balance to pay authorized charges; pay the credit balance to the student (or parent, in the case of a PLUS loan); or use the credit balance to reduce the student’s federal financial aid loan debt (with the student’s authorization).

Verification of AGI and U.S. Income Tax Paid
For an affected individual who is required to file a U.S. income tax return and has been granted a filing extension by the IRS, the University accepts the following:

- A copy of IRS Form 4868 “Application for Automatic Extension of Time to File U.S. Individual Income Tax Return” or a copy of the IRS’s approval of an extension beyond the automatic six-month extension (if additional extension was requested); AND
- A copy of each W-2 received for the specified year or, for a self-employed individual, a statement signed by the individual certifying the amount of the AGI and U.S. income tax paid for the specified year

If an affected individual has not filed an income tax return by the filing deadline, in lieu of an income tax return, the University will accept the following to verify AGI and U.S. income tax paid:

- A statement from the individual certifying that he/she has not filed an income tax return or a request for a filing extension because he/she was called up for active duty or for qualifying National Guard duty during a war or other military operation or national emergency; AND
- A copy of each W-2 received for the specified year, or for a self-employed individual, a statement signed by the individual certifying the amount of AGI and U.S. income tax paid for the specified year

The University may request that an individual granted a filing extension submit tax information using the IRS Data Retrieval Tool, or by obtaining a tax return transcript from the IRS that lists tax account information for the specified year after the income tax return is filed. If the University receives the tax information, it will verify the income information of the tax filer(s).

Category 2 Individuals
Individuals affected by the waivers and modifications under this category include persons who

- are serving on active duty;
- are performing qualifying National Guard duty during a war or other military operation, or national emergency; or
- reside or are employed in an area that is declared a disaster area by any federal, state, or local official in connection with a national emergency.

The following waivers and modifications affect Category 2 individuals:

Post-withdrawal Disbursement (PWD)
A student who withdraws because of status as an affected individual and who is eligible for a post-withdrawal disbursement has up to 45 days to respond to a PWD offer. However, at the University’s discretion, it may honor the PWD if the student (or parent in case of a parent PLUS loan) responds to the offer after 45 days.

Leaves of Absence (LOA)
The University documents the decision for granting an approved LOA to an affected individual if that individual has difficulty providing a written LOA request because of affected status. The documentation includes both the reason for the LOA and the reason for waiving the requirement that the LOA be requested in writing. The University pays any federal financial aid credit balance to the student, or parent in the case of a parent PLUS loan, within 14 days after the balance occurred.
Loan Cancellation
The University allows an affected individual to request a cancellation up to 60 days after the date the University notifies the borrower of the right to cancel. The cancellation may be for all or a portion of a loan for which proceeds have been credited to the account at the University. If the University receives a loan cancellation after the 60-day period, the University may, but is not required to, comply with the request.

Satisfactory Academic Progress
If a student fails to meet the University’s satisfactory academic progress (SAP) standards (Refer to the SAP Policy for further information) as a direct result of being an affected individual in this category, the student may request a SAP appeal. The University will approve the appeal based on documentation of military orders.

Category 3 Individuals
Individuals affected by the waivers and modifications under this category include persons who
- are serving on active duty, or
- are performing qualifying National Guard duty during a war or other military operation or national emergency.

The following waivers and modifications affect Category 3 individuals.

Institutional Charges and Refunds
If a student is called up for active duty or for qualifying National Guard duty during a war or other military operation or national emergency, the student is eligible for a deferral of any balance owed the University. Additionally, the student is eligible for a drop credit request (DCR) for a course if the student begins the course within 60 days of return from deployment. The amount of the credit is dependent upon the number of weeks attended prior to the student withdrawing for military reasons. (Refer to the Finance Policy - Military Deployment/Military Leave)

Category 4 Individuals
Individuals affected by the waivers and modifications under this category include dependents of persons who are
- serving on active duty; or
- performing qualifying National Guard duty during a war, other military operation, or national emergency.

The following waivers and modifications affect Category 4 individuals.

Verification Signature Requirements
A dependent student is not required to submit a statement signed by one of the applicant’s parents when no responsible parent can provide the required signature because of the parent’s status as an affected individual in this category.

Signatures on the Free Application for Federal Student Aid (FAFSA), Student Aid Report (SAR), and Institutional Student Information Record (ISIR)
A dependent student is not required to provide a parent’s signature on the FAFSA, SAR, or submitting corrections electronically when there is no relevant parent to provide a signature because of the parent’s status as an affected individual in this category. The high school counselor or financial aid administrator may sign on behalf of the parent as long as the applicant provides adequate documentation concerning the parent’s inability to provide a signature due to the parent’s status as an affected individual.

Federal Student Aid Leave of Absence Policy

Overview
The Federal Student Aid Leave of Absence (LOA) Policy addresses the impact to Title IV recipient students approved for an LOA. For more information regarding the University’s Leave of Absence policy, please see the University’s Academic Catalog, https://www.phoenix.edu/degrees/academic-catalog.html. Students who need to take a formal break from their program can complete an LOA request form by accessing his/her student website at https://ecampus.phoenix.edu.

Policy

Federal Student Aid Disbursements
The University may, at its discretion, disburse Federal Pell Grant, IASC, and/or FSEOG funds to a student on an approved LOA; however, under no circumstances will the University disburse Direct loan funds to a student on an approved LOA. Credit balances resulting from federal student aid funds will be issued within 14 days of the date the credit is created.

Tuition and Fees
The University may not increase a student’s tuition and fees (e.g., institutional charges) by approving the LOA. Therefore, if an LOA is approved to begin during a course(s), the University will issue the student an LOA Tuition Credit (LOAC) if the student is withdrawn from this course and earns a W grade as a result of an approved LOA. The amount of the LOAC will ensure that the student’s tuition and fees for the payment period do not increase as a result of the University’s approval of the LOA. The LOAC will be applied to the first course(s) the student attends after the LOA end date as long as the student returns to his/her program of study within 180 days of their official last date of attendance (OLDA) prior to the LOA start date.

Failure to Return
A student is expected to return from an approved LOA, as scheduled; failure to do so may impact the student’s Direct loan repayment terms, including the expiration of the student’s grace period. If a student does not return from an approved LOA, the withdrawal date and beginning of the grace period will be the student’s last date of attendance prior to the LOA. In addition, if the student reenters, after withdrawing from the University, the previously approved LOA days will count towards the student’s LOA maximum of 180 days in a 12-month period.

Program Change During Approved LOA
If a student returns from an approved LOA and begins a new program, the University will perform a return of Title IV (R2T4) calculation to withdraw the student from his/her initial program of study. The student’s last date of attendance in these scenarios will be the last academic related activity (ARA) prior to taking the approved LOA. The University’s date of determination will be the Program Change Effective Date/Program Begin Date. Once the University has withdrawn the student from the initial program, the student will be enrolled and awarded federal aid in the new program. (Refer to the Awarding Aid to Transfer Students Policy and Re-Entry Policy for further information)
**Overawards and Overpayments Policy**

**Overview**
The Overawards and Overpayments Policy addresses how and when the University is required to resolve overawards and overpayments that occur in a student’s federal financial aid package.

**Policy**
An overaward exits if any of the following conditions are met:
- The University awards federal financial aid to a student who is ineligible for the amount received
- A student’s award in an individual federal program exceeds the regulatory maximum
- A student’s federal financial aid package exceeds his/her need
- A student’s award exceeds his/her cost of attendance (COA)
- A student is receiving a Federal Pell Grant or Iraq and Afghanistan Service Grant (IASG) at multiple schools for the same period of enrollment

An overpayment can occur:
- When an overaward cannot be corrected since some or all federal financial aid disbursements have been made
- Immediately at the time a student receives funds for a federal program for which he/she has zero eligibility

**Overawards**

**Adjusting Disbursements**
The University first attempts to eliminate an overaward by replacing the EFC with non-need-based loans, provided the student has not been awarded up to the COA. If the overaward is not resolved by replacing the EFC, the University will eliminate the overaward by cancelling or reducing any future Direct Loans or private loans first. The University may also attempt to eliminate an overaward by using actual COA charges for the academic year. If, after making these adjustments, an overaward still exists, the University will reduce aid in the following order:
- Private Loan
- Direct Graduate/Professional PLUS Loan
- Direct Parent PLUS Loan
- Direct Unsubsidized Loan
- Direct Subsidized Loan
- Institutional Grant or Scholarship Aid
- State Grant Funds

**Federal Pell Grants**
The Federal Pell Grant is never adjusted to account for other forms of financial assistance. Therefore, if a student’s financial aid package exceeds need, the University will first attempt to eliminate the overaward by reducing other financial aid awarded.

**Iraq and Afghanistan Service Grants (IASG)**
The IASG, like the Federal Pell Grant, is never adjusted to account for other forms of financial assistance. If a student’s financial aid package includes an IASG and the package exceeds the student’s need or COA, but the IASG by itself does not exceed the student’s need, the University must reduce other financial aid to eliminate the overaward. However, if the IASG payment by itself exceeds the student’s COA for a period of enrollment, the total amount of the IASG must be reduced to the federal financial aid (Title IV) COA for the period of enrollment.

If a student receiving an IASG becomes Pell eligible during the award year, the University must treat the Pell Grant as Estimated Financial Assistance (EFA) and may need to adjust the student’s financial aid package.

**Campus-Based Funds**
The University only disburses the Federal Supplemental Education Opportunity Grant (FSEOG) to students who’s FSEOG, combined with other estimated financial assistance (EFA) does not exceed the student’s financial need.

**Estimated Financial Aid Assistance Exceeds Need**
Campus-based funding allows for a $300 overaward tolerance if a student has received additional EFA not included in the calculation of the FSEOG. The $300 threshold is allowed only if an overaward occurs after Campus-Based aid has been awarded and/or disbursed and the University was unaware the student would receive additional financial assistance.

**University Responsibility**

If the overpayment occurs due to an error made by the University, the University is responsible for the overpayment and must repay the entire amount of the overpayment. The following are examples of overpayments for which the University is responsible:
- Unresolved overawards;
- Failure to complete verification;
- Miscalculated COA;

**State Grants and Pell Grant funds only**
In the event there is an overaward, if a student is awarded state grant funds and Pell Grant funds only, state grant funds will be reduced to eliminate this overaward.
Inadvertent Overborrowing
Inadvertent overborrowing occurs when a student inadvertently receives Direct Loan funds in excess of annual or aggregate loan limits. A student who has inadvertently overborrowed is ineligible for any further federal financial aid funds until:

- The student has repaid the full excess Direct Loan amount;
- The student makes satisfactory arrangements (loan reaffirmation) with the holder of the loan to repay the excess Direct Loan amount; or
- The student consolidates the Direct Loan(s) which exceeded the annual or aggregate loan limits.

Overpayment Resulting from Return to Title IV
If a student withdraws from the University and as a result of a Return to Title IV (R2T4) Calculation the student has a Federal Pell Grant overpayment, the University immediately sends a written notice to the student requesting repayment of the overpayment amount. The notice, sent within 30 days of the date of determination to any student who owes a grant overpayment as a result of the student’s withdrawal from the University, includes a statement that failure to make the repayment, or make satisfactory repayment arrangements with the holder of the overpayment will make the student ineligible for further federal financial aid until the overpayment is resolved. Students are not liable for, and the University is not required to attempt recovery of or refer to the Secretary, a Pell Grant overpayment that is less than $50 and is not a remaining balance.

If the student fails to repay the Pell Grant overpayment or make satisfactory repayment arrangements, after the University has contacted the student, the University must refer the overpayment to the U.S. Secretary of Education for collection purposes.

Other Resources
Federal financial aid, including other resources (Refer to the Packaging Philosophy Policy for examples of other resources), may never exceed a student’s COA and/or federal financial need. At times, the University may receive EFA, in the form of other resources, it was unaware of for a student. If the EFA was received after the end of the period of enrollment for a student who is still enrolled or who is intending to re-enroll, the University will include the EFA for the period in which it was received.

Packaging Philosophy Policy

Overview
The Packaging Philosophy Policy addresses the University’s packaging of financial assistance and its process to ensure students' awards do not exceed their total cost of attendance (COA) for an academic year.

Policy
Prior to determining a student’s eligibility for federal financial aid, the University confirms a valid output document - Institution Student Information Record (ISIR) - is on file. The University treats all applicants in the same manner when awarding funds, packaging up to the student’s cost of attendance (COA) by replacing the expected family contribution (EFC) with non-need based aid, unless otherwise specified by the student (or parent in case of a PLUS loan). Loan amounts that exceed the EFC must be counted as estimated financial assistance.

Determining Need
The University subtracts the EFC and all estimated financial assistance (EFA), which includes the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), and other resources from the COA to determine need for Subsidized Loan eligibility.

Example:

| $12,500 | COA |
| - 2,500 | EFC |
| - 1,600 | Pell Grant |
| - 500  | FSEOG |
| - 1,400 | Scholarship (Other Resources) |
| $6,500 | Need |

Federal Pell Grant/Iraq and Afghanistan Service Grant
The Federal Pell Grant (including those funds awarded under Children of Fallen Heroes or Children of Soldiers) or, alternatively, Iraq and Afghanistan Servicemembers Grant (IASG) is considered to be the first source of financial assistance to the student. The Iraq and Afghanistan Service Grant is NOT considered EFA. It is never included in determining if a student’s EFA exceeds need or COA.

Other Resources (Other Non-Federal Financial Aid Resources)
Other resources are included as estimated financial assistance (EFA) and count against federal financial need and COA. Other resources include, but are not limited to, the following:

- Grants and scholarships from private organizations
- University grants and scholarships
- Employer Tuition Assistance or Reimbursement, regardless of whether it is paid directly to the University
- Military tuition benefits, including benefits paid under Chapter 101 of Title 10
- AmeriCorps
Students eligible for a Graduate/Professional PLUS loan who do not request the maximum Direct Unsubsidized Loan amounts they are eligible for, are notified of their maximum Unsubsidized Loan eligibility, the loan interest rate for Direct Unsubsidized Loans and PLUS Loans, providing the opportunity to request the maximum Direct Unsubsidized Loan they are eligible for.

Conflicting Information and Other Resources
At times, the University may become aware of EFA received by the student for which it was previously unaware. This EFA is considered a type of conflicting information by the U.S. Department of Education (ED). The University is responsible for resolving ALL conflicting information in a student's file and must ensure any EFA received is accounted for in the student’s financial aid award. Refer to the Overaward and Overpayments Policy for what actions the University may be required to take to address this conflicting information.

Student Re-entering the University Policy

Overview
The Student Re-entering the University Policy addresses how the University will treat Title IV students when they withdraw from the University and re-enter the same program within 180 days or withdraw from the University and re-enter after 180 days, or re-enter into a different program of study. This federal financial aid Re-entry policy is separate from the institution’s Academic Program Re-entry policy.

Policy

Introduction
When a student withdraws from the University and subsequently returns, the timing of the student’s return and the program into which the student returns will determine the student’s financial aid award.

There are three categories:

• Student re-enters the same program within 180 days from his/her withdrawal;
• Student re-enters the same program more than 180 days after his/her withdrawal; or
• Student re-enters into a different program, regardless of when the student returns.

In assessing whether a student returned within 180 days, the 180 days is determined by counting the days between the student’s official last date of attendance (OLDA) in a course required of the program and the start date of the first course the student attends after returning to the program. OLDAs that occur during a course extension period or a University institutionally scheduled break are excluded; in these instances, a prior OLDA that meets the requirements is used for the count of days (see the Return of Title IV Policy for further information).

Re-entry within 180 days to the same program
When a student withdraws from the University and re-enters within 180 days to the same program at the University, the student remains in the same payment period the student was in when originally withdrawn. Upon the student’s re-entry, the University will evaluate and update, as needed, the student’s academic year, loan period, payment periods, and disbursement dates according to academic year definitions (Refer to the Academic Year Definition Policy and Disbursements Policy for further information). Regardless of these updates, however, the student’s cost of attendance will reflect the original educational costs associated with the payment period from which the student withdrew.

Determining Remaining Non-Need Based Aid
The University subtracts all estimated financial assistance (EFA), which includes the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), and other resources, as well as any Subsidized Loan eligibility from the COA to determine the remaining need for non-need based federal financial aid (Unsubsidized, Parent PLUS, and/or Federal Direct Graduate/Professional PLUS Loans). NOTE: The EFC is NOT included when determining the remaining non-need based aid:

</tbody>
</table>
Typically, the student is not eligible for any additional federal financial aid unless the students previously awarded and/or disbursed federal financial aid funds have been cancelled or returned when the student withdrew. Resuming the student’s eligibility for federal financial aid funds has not changed, in these instances the student is immediately eligible to receive the cancelled or returned federal financial aid funds. The University will take the following actions, if applicable, for a student who re-enters the same program within 180 days:

- Re-instate any federal financial aid funds for the payment period or academic year that had been awarded and then cancelled
- Disburse federal financial aid for the payment period the student was otherwise eligible for that had not yet been disbursed at the time the student withdrew
- Re-disburse federal financial aid that was disbursed and returned under the Return of Title IV (R2T4) provisions
- Cancel any overpayments assessed to the student as a result of the prior withdrawal

If a student withdrew, had a previous overpayment referred to Debt Resolution Services, and re-enters within 180 days, the University will send Debt Resolution Services a fax identifying the student overpayment. The fax will state the overpayment should be made void as the student has returned to the University.

When determining the award year from which federal financial aid funds will be re-disbursed or awarded/disbursed, the University must determine whether or not the original federal award year used to award federal financial aid for the applicable payment period remains open with the U.S. Department of Education. Once this determination is made, the University will proceed as follows:

- Federal Pell Grant:
  - Original Federal Award Year Open
    - The University will reinstate and disburse Federal Pell Grant funds under this Federal Award Year through the Common Origination and Disbursement (COD) website.
  - Original Federal Award Year Closed
    - The University will request the Federal Award Year be opened through the COD website, and
    - Once open, the University will reinstate and disburse Federal Pell Grant funds under this Federal Award Year through the COD website.

- Campus Based:
  - Funds Available from Original Federal Award Year
    - If the student was awarded campus-based funds and the funds are still available from the original federal award year, the University will reinstate and disburse campus based program funds from the original federal award year.
  - Funds Not Available from Original Federal Award Year
    - If the student was awarded campus based program funds and the funds are no longer available from the original federal award year, the University may, at its discretion, award campus based program funds from the current federal award year if funds are available. However, this does not increase the annual maximum campus-based funds award a student may receive.

- Federal Direct Loans:
  - Original Federal Award Year Open
    - If the student was awarded Federal Direct Loan (DL) funds and the federal award year used to award these DL funds is still open, the University will re-instate and disburse the DL funds under this Federal Award Year through the COD website.
      - The cost of attendance (COA) and expected family contribution (EFC) will reflect the educational costs associated with this Federal Award Year used to award the DL funds.
  - Original Federal Award Year Closed
    - If the student was awarded Federal Direct Loan (DL) funds and the Federal Award Year used to award these DL funds is closed, the University will request the Federal Award Year be opened through the COD website, and
    - Once open, the University will reinstate and re-disburse the Federal Direct Loan (DL) funds under this Federal Award Year through the COD website.
    - The COA and EFC will reflect the educational costs associated with the original Federal Award Year used to award the DL funds initially.

If a student returns to the University within 180 days and before the required federal financial aid funds are returned due to an R2T4 calculation, the University will not return the federal financial aid funds.

**Re-entry after 180 days in the same program**

When a student withdraws from the University and re-enters in the same program after 180 days have elapsed, the University must award the student based on new payment periods. The length of the program will be the number of credit hours and weeks of instructional time remaining in the program the student re-enters. If the remaining credit hours and weeks of instruction for the program constitute one-half of an academic year (AY) or less, the remaining hours will constitute one payment period. (Refer to the Academic Year Definition Policy and Disbursements Policy for further information.)

If the start of the program’s new AY overlaps with its previous AY, meaning the start of the program’s new AY begins before the calendar end date of its prior AY, all prior federal financial aid funds disbursed will be taken into consideration when packaging the student for the new AY.

**Re-entry into a Different Program of Study (within or after 180 days)**

When a student withdraws from the University and re-enters into a different program of study at any time, the University will award the student based on new payment periods in the new program. (Refer to the Academic Year Definition Policy and Disbursements Policy for further information.)

If the start of the new program’s AY overlaps with the previous program’s AY, meaning the start of the new program’s AY begins before the calendar end date of the prior program’s AY, all prior federal financial aid funds disbursed for the prior program’s AY will be taken into consideration when packaging the student for the new program’s AY.
Return of Title IV Policy

Overview
The Return of Title IV Policy addresses federal financial aid recipients who withdraw from the University and are subject to a Return of Title IV (R2T4) calculation. For the purpose of R2T4 calculation requirements, a recipient is a student who has actually received federal financial aid funds or has met the conditions that entitled the student to a late disbursement of federal financial aid funds. The University is required to review the amount of federal loan and grant aid a student received for the payment period, to determine what percentage of federal financial aid the student earned prior to withdrawal. The percentage of federal financial aid determined to be unearned for the payment period must be returned to the appropriate federal financial aid program(s).

Policy
When a federal financial aid recipient withdraws from the University prior to the end of a payment period, an R2T4 calculation must be performed to determine the amount of federal financial aid funds earned as of the date of withdrawal. If the total amount of federal financial aid funds earned is less than the amount of federal financial aid funds disbursed to the student or on behalf of the student in the case of a parent PLUS loan, the difference between these amounts is returned to the applicable federal financial aid programs. If federal financial aid funds earned is greater than federal financial aid funds disbursed, the difference between these amounts is treated as a post withdrawal disbursement. A R2T4 calculation is not performed if the federal financial aid recipient withdraws after successfully completing the payment period AND all funds awarded for that period have been disbursed.

Withdrawal Date
The University's Withdrawal Policy states for official, unofficial, and administrative withdrawals the University will use the student's last academically related activity (ARA) to establish the student's withdrawal date.

Exceptions
However, if this date occurs during an institutionally scheduled break or during a course extension period, it will not be used to establish a student's withdrawal date at the University for the R2T4 calculation purposes. In these instances, the student's withdrawal date and date of determination for the R2T4 calculation purposes will be established as follows:

Withdrawal Date
If a student posts an ARA during an institutionally scheduled break or during a course extension period, the University will look for the most recent ARA that occurred prior to the start of the institutionally scheduled break or course extension period. This ARA will be used as the last date of attendance or withdrawal date for Title IV purposes.

Date of Determination
The Date of Determination (DOD) for students who post academic related activities during an institutionally scheduled break will be no greater than 15 days after the end date of the institutionally scheduled break.

The University has a scheduled holiday break from December 20 thru January 4. The student posts an ARA on December 19th and December 27th. The student withdraws. The student's last ARA was on December 27th, which was during the scheduled break. The student requires an R2T4 calculation; the student's withdrawal date for the R2T4 calculation would be December 19th (the most recent ARA prior to the scheduled break). In addition, the DOD is January 19th (the 15th day after the end date of the institutionally scheduled break).

Return Calculation
The amount of federal financial aid earned is calculated by determining the percentage of the payment period completed applying this percentage to the total amount of aid disbursed and that could have been disbursed for the payment period. The payment period is defined as the period of time it takes the student to complete at least one-half of the weeks and credits in the student's academic year. For purposes of determining earned federal financial aid, a student's aid is considered disbursed if it is disbursed as of the student's last date of attendance. As long as conditions for a late disbursement (described below) are met prior to the date the student became ineligible (the student's last date of attendance), any undisbursed federal financial aid will be counted as aid that could have been disbursed.

Conditions for a Late Disbursement (Including Post Withdrawal Disbursements)
• The Department of Education (ED) processed a Student Aid Report (SAR) or Institutional Student Information Record (ISIR) with an official Expected Family Contribution (EFC) for the student (except in the case of a parent PLUS loan)
• The University originated a Direct Loan (DL)
• The University made the award to the student for a Federal Perkins loan or Federal Supplemental Educational Opportunity Grant (FSEOG)
• The University originated the award to the student for the TEACH Grant program

The University does not include as a post withdrawal disbursement any funds the University was prohibited from disbursing on or before the date the student withdrew, which would apply to the following: (Additional information is available in the Disbursements Policy)
• Second or subsequent disbursements of DL funds unless the student has graduated or successfully completed the loan period.
• Second disbursements of DL for the period that the University is prohibited from making until the student successfully completes one-half of the weeks of instructional time and one-half the credit hours in the academic year.
• Disbursements of DL or Perkins loan funds for which the borrower has not signed a promissory note.
• Disbursements of Federal Pell Grant, Iraq Afghanistan Service Grant, and TEACH Grant funds to a student for whom the University did not receive a valid SAR or a valid ISIR by the deadline date established by the Secretary in the Federal Register.
• Federal Pell Grant, Iraq Afghanistan Service Grant, and TEACH Grant funds for a subsequent payment period when the student has not successfully completed the earlier payment period for which the student has already been paid.
• Disbursements of DL funds to a first-year, first-time borrower who withdraws before the 30th day of the student’s program of study

Inadvertent Overpayments
An inadvertent overpayment occurs when the University disburses funds to a student no longer in attendance but prior to the date the University determines the student withdrew from the program. This would include any federal financial aid fund disbursements made after the student’s last date of attendance but prior to the University’s determination that the student was withdrawn. These inadvertent overpayments are included in the R2T4 calculation as aid that could have been disbursed. Only students who meet late disbursement criteria are entitled to keep federal financial aid funds disbursed as an inadvertent overpayment. If an inadvertent overpayment cannot be made as a late disbursement, the University returns the entire amount of the federal financial aid funds disbursed. If the inadvertent overpayment can be made as a late disbursement, the University returns only the unearned portion of the inadvertent overpayment within 45 days of the University’s date of determination that the student withdrew (Refer to the Disbursements Policy for further information). Unearned inadvertent overpayments are returned according to the requirements for the return of unearned funds.

Verification and the Return Calculation
If a student provides required verification documents after withdrawing from the University, but within 30 days of the date of the notification informing the student of the requirements, and in time for the University to meet the 30-day Return deadline, the University performs the R2T4 calculation based on all federal financial aid the student had established eligibility for prior to the withdrawal. For the Federal Pell Grant Program, if the student provides the verification documents after the 30-day deadline but before the earlier of 120 days after the student’s last date of attendance or the deadline established by ED each award year, the University reviews and addresses eligibility as required.

If a student does not provide all verification documents in time for the University to complete verification and meet the R2T4 deadlines, the University includes in the R2T4 calculation only the federal financial aid that was not subject to verification (unsubsidized and PLUS loan funds) and for which the conditions of a late disbursement were met prior to the withdrawal. (Refer to the Verification Policy for additional information.)

Institutionally Scheduled Breaks
Institutionally scheduled breaks of five or more consecutive days are excluded from the R2T4 calculation. This includes all holiday and administrative breaks of five or more consecutive days.

Percentage of Federal Financial Aid Earned
The calculation of Percentage of Federal Financial Aid Earned includes all financial aid disbursed or that could have been disbursed to a student. This percentage is equal to the percentage of the payment period completed by the student as of the student’s last date of attendance in the payment period. This percentage is determined using the University’s rate of progression calculation. If the student withdraws after successfully completing the payment period, 100% of the federal financial aid funds are earned and no calculation is required. If the withdrawal date occurs after the student completes more than 60% of the payment period, the student earns 100% of the federal financial aid funds.

To recognize that students completing more than 60% of the payment period earn 100% of their federal financial aid, amounts of 6001 through 6004 are not rounded for purposes of determining whether a student earned 100% of the federal financial aid for the payment period.

Rate of Progression Calculation
The percentage of the period completed is calculated as follows:

\[
\text{Number of calendar days completed in the payment period} / \text{Total number of calendar days scheduled to complete in the payment period}
\]

Total Calendar Days Completed in the Payment Period
The total number of calendar days completed in the payment period (numerator) is the count of calendar days from the payment period start date to the student’s last date of attendance.

Required Adjustments to Calendar Days Completed in the Payment Period
Calendar days are removed from calendar days completed in the payment period if any of the following occurred between the payment period start date and the student’s last date of attendance:

• Institutionally scheduled breaks of five (5) consecutive calendar days or more
• Holidays
• Administrative
• Student scheduled or selected breaks of five (5) consecutive calendar days or more between course end date and subsequent course start date
• All approved Leave of Absence calendar days
• Unapproved breaks of less than 180 days (Refer to the Re Entry Policy for additional information)

Total Calendar Days scheduled to complete in the Payment Period
The total number of calendar days in a payment period (denominator) is determined based upon the number and type (credential level and modality) of credits awarded in the payment period.

Required Adjustments to Total Calendar Days Scheduled to Complete in the Payment Period
Additional calendar days will be added to the payment period for unsuccessful course(s) completions with grades of I, IX, IP, QC, F, or W that occurred in a course prior to the course the student’s last date of attendance occurs within.

If the payment period needs to be extended, it is extended by a defined number of days based upon the following credential levels and modalities:

• Associates Program (9-week courses) - 62 days if one or two courses are needed, 126 days if three or four courses are needed
• Associates Program (5-week courses online) - 35 days if one course is needed, 70 days if two courses are needed, 105 days if three courses are needed, etc.
• Associates Program (5-week courses ground) - 29 days if one course is needed, 58 days if two courses are needed, 87 days if three courses are needed, etc.
• Bachelor Program Online - 35 days if one course is needed, 70 days if two courses are needed, 105 days if three courses are needed, etc.
Title IV Credit Balance and the return calculation

A Title IV credit balance created during the period is not released to the student nor returned to federal financial aid programs prior to performing the R2T4 calculation. The University holds these funds even if, under the 14-day credit balance payment requirements, funds are otherwise required to be released.

In the R2T4 calculation, the University includes any federal financial aid credit balance as disbursed aid. Although not included in the R2T4 calculation, any federal financial aid credit balance from a prior payment period in the academic year that remains on a student’s account when the student withdraws is included as federal financial aid funds for purposes of determining the amount of any final federal financial aid credit balance when a student withdraws. Upon application of any applicable refund policies, a federal financial aid credit balance is allocated first to repay grant overpayments owed by the student as result of the current withdrawal.

Within 14 days of the date that the University performs the R2T4 calculation, the University pays any remaining federal financial aid credit balance in one or more of the following ways:

- Pay authorized charges at the University.
- To the student (or parent for a PLUS loan).

The University applies its own refund policy before allocating a federal financial aid credit balance. However, the University does not actually complete the refund process before completing the steps for allocating the federal financial aid credit balance.

If the University is unable to locate the student (or parent) when attempting to pay a credit balance, it returns the funds to federal financial aid programs. (Refer to the Federal Financial Aid Credit Balance Policy for further information)

Return of Unearned Aid

In the R2T4 calculation, the total Amount Disbursed plus Amount that Could Have Been Disbursed to the student or on the student’s behalf, minus the Amount of Federal Financial Aid Earned by the Student determines the amount of federal financial aid funds unearned and required to be returned to the funding source. When a return of federal financial aid is required, the University and the student may both need to return funds. The University returns the lesser of the following amount to the appropriate federal financial aid program(s):

- The total amount of unearned aid; or
- The amount equal to the total University charges incurred by the student for the payment period multiplied by the percentage of unearned aid.

University (institutional) charges incurred by the student include tuition, fees, books and directed study (including state sales tax) initially assessed the student for the entire payment period. Initial charges are only adjusted for changes the University makes prior to the student’s withdrawal. The amounts of institutional charges included in the R2T4 calculation are those charged or anticipated to be charged to the student’s account. Although institutional charges may not have actually been charged due to the student’s withdrawal, the University uses the actual charges to date, to include full tuition, fees, books and directed study (including sales tax) for each course in the payment period, and estimate remaining charges based on the students’ primary campus or, as applicable. Institutional charges include all invoiced and scheduled charges, as well as any adjustments made to correct these charges, that occur prior to the beginning of the course from which the student withdrew.

Rate of Progression Examples

The following illustration demonstrates how an institution calculates the “total days completed” and the “total days scheduled to be completed” in a payment period when there are calendar days that must be excluded from the rate of progression calculation.

### # of days completed in the payment period

<table>
<thead>
<tr>
<th>Days Completed</th>
<th>76</th>
</tr>
</thead>
<tbody>
<tr>
<td>Days in Payment Period</td>
<td>140</td>
</tr>
</tbody>
</table>

#### Days Completed

To determine the total calendar days completed by the student (numerator), calculate the number of calendar days from the first day of the payment period to the student’s last date of attendance, then subtract all applicable exclusion periods.

#### Days Scheduled to be Completed

To determine the total calendar days scheduled to be completed in the payment period (denominator), calculate the number of calendar days from the first day of the payment period to the last day of the payment period, then subtract all applicable exclusion periods. In this example, the student completed 54.3% of the payment period.

### Bachelor Program Ground - 29 days if one course is needed, 58 days if two courses are needed, 87 days if three courses are needed, etc.

### Master’s/Doctoral Program Online - 42 days if one course is needed, 72 days if two courses are needed, etc.

### All approved Leave of Absence calendar days

### Student scheduled of selected breaks of five (5) consecutive calendar days or more

### Institutionally scheduled holiday breaks of five (5) consecutive calendar days or more

### Approved Leave of Absence calendar days

### Periods of non-enrollment of five (5) consecutive calendar days or more due to administrative closures

### Unapproved breaks of less than 180 days (Refer to the Re Entry Policy for additional information)
Tuition waivers for military students and Campus Footprint initiative are not counted as Estimated Financial Aid (EFA) and will be subtracted from institutional charges in the R2T4 calculation.

If after the student withdraws, the University changes the amount of institutional charges it assessed or decides to eliminate all institutional charges, those changes do not impact the institutional charges or aid earned in the calculation. The University returns federal financial aid funds to programs in the following order, up to the net amount disbursed from each:
- Unsubsidized FFEL/Direct Stafford Loan
- Subsidized FFEL/Direct Stafford Loan
- Federal Direct PLUS (Graduate Student)
- Federal Direct PLUS (Parent of Dependent Student)
- Federal Pell Grants
- FSEOG
- TEACH Grants
- Iraq & Afghanistan Service Grant (IASG)

After the University allocates its portion of unearned funds, the student must return federal financial aid owed in the same order specified above for the University. The amount of federal financial aid the student is responsible for returning is calculated by subtracting the amount returned by the University from the total amount of unearned federal financial aid funds to be returned. The student (or parent in the case of funds due to a parent PLUS Loan) must return or repay, as appropriate, the calculated amount to any federal financial aid loan program in accordance with the terms of the loan; and any federal financial aid grant program as an overpayment of the grant. The amount of a grant overpayment due from a student is limited to the amount by which the original grant overpayment exceeds one-half of the total federal financial aid grant funds received by the student. (Additional information is available in the Overawards and Overpayments Policy)

The University may round final repayment amounts, for which the University and student are responsible, to the nearest dollar.

Timelines for Return of Funds

The University completes a student’s R2T4 calculation within 30 days of the University’s date of determination. The University returns the amount of federal financial aid funds for which it is responsible as soon as possible but no later than 45 days after the date the University determines the student has withdrawn. If a student is eligible for a post-withdrawal disbursement, refer to the Disbursements Policy for information on specific timelines.

Deceased Student

If the University receives reliable information indicating an individual borrower or student for whom a parent received a PLUS loan dies, the University suspends further awarding and disbursements. An original or certified copy of the death certificate or accurate and complete photocopy of the original or certified copy of the death certificate is requested and forwarded to the Secretary of Education (Secretary). Under exceptional circumstances and on a case-by-case basis, the Secretary may approve a discharge based upon other reliable documentation supporting the discharge request.

Determination of Withdrawal of a Deceased Student

The withdrawal date for a deceased student is the last date of academic attendance or attendance at an academically related activity determined from University attendance records. The date of determination is the date the University becomes aware of the student’s death.

Return of Title IV Funds for a Deceased Student

The amount of federal financial aid funds earned by the student is calculated according to the Return of Title IV Funds (R2T4) calculation. If the calculation indicates the amount of funds earned is less than the amount disbursed to the student, or on behalf of the student in the case of a PLUS loan, the difference between these amounts is returned to the appropriate federal financial aid programs. The University does not report grant overpayments for deceased students to NSLDS or refer a grant overpayment to Debt Resolution Services, as the student’s estate is not required to return any federal financial aid funds.

The following represents procedures the University follows if a credit balance of federal financial aid funds, created from funds disbursed before the death of the student, exists after the completion of the R2T4 and the University’s refund calculations:
- Pay authorized charges owed to the University.
- Return any federal financial aid grant overpayments owed by the student for previous withdrawals from the University.
- Return any remaining credit balance to the federal financial aid programs.

If the University previously referred a grant overpayment to Debt Resolution Services, documentation will be forwarded by the University indicating the student is deceased. Based on this information and documentation, Debt Resolution Services will remove the overpayment from the student’s records. Although the student may be eligible to receive a post-withdrawal disbursement, the University is prohibited by federal financial aid Title IV regulations from further disbursements and will, therefore, not request additional funds from federal financial aid programs nor send out a post withdrawal letter.

Federal Financial Aid Satisfactory Academic Progress (SAP) Policy

Overview

The University’s Federal Financial Aid Satisfactory Academic Progress (FA SAP) policy determines whether an otherwise eligible student is meeting FA SAP in an educational program and may receive financial aid under the Title IV, HEA programs. This FA SAP policy does not supersede the institution’s academic SAP policy.

Policy

The University will calculate a student’s FA SAP based on the student’s primary program. Students must maintain FA SAP throughout the duration of their primary program to remain eligible for federal financial aid. FA SAP is assessed by qualitative and quantitative measures and is evaluated at the end of each completed payment period in the student’s primary program. For any questions regarding FA SAP, contact Student Financial Services at StudentFinancialServices@phoenix.edu or 1-888-346-8679.

Qualitative Measure

Grade Point Average

Undergraduate students must have a cumulative program grade point average (GPA) of 2.0 at the end of each completed payment period, unless otherwise defined by academic policy. Graduate students must have a cumulative program GPA of 3.0 at the end of each completed payment period.

The University uses the cumulative GPA provided by the academic system of record at the time FA SAP is evaluated (e.g., at the completion of the payment period).
Included in Pace of Completion

Courses completed with the following grades are included as attempted in the pace of completion calculation:

- A, B, C, D, and F (+/-)
- Incompletes (I, IX and IP)
- Withdrawal (W)
- Withdrawal/Failing (WF)
- No grade awarded (QC)
- Courses that are waived with credit (WC)
- Removed Course (RC)
- Pass (P)

The University rounds the calculation to the nearest hundredth of a percentage to determine if SAP has been met or not (example: 66.666 = 66.67%)

If a student applies for and is granted an academic reprieve for a course(s), the course will continue to be included in the pace of completion calculation. This is to ensure all attempted courses are being taken into consideration, as required, when calculating a student’s FA SAP as required by ED regulations.

Evaluation

The University evaluates FA SAP for the student's primary program, based on a completed payment period (generally, at least 12 credit hours). As a result of the evaluation, a student is assigned an FA SAP status.

Financial Aid Warning

Undergraduate students with less than a cumulative 2.0 GPA, or the minimum as stated in policy, and graduate students with less than a 3.0 OR who do not earn 67% of their attempted credits (cumulatively) at the end of a completed payment period, are automatically placed on financial aid warning (FW) status. The University can disburse federal financial aid funds to students on FW status for one payment period.

Financial Aid Disqualification

If a student cannot complete the program of study within the maximum timeframe (as determined at the end of the payment period) the student will be placed on financial aid disqualification (FD) status. If a student on FW status does not meet FA SAP at the end of the subsequent completed payment period, the student is not eligible for additional federal financial aid and will be placed on an FD status.

Students who are placed on an FD status are ineligible for federal financial aid. The University will not disburse federal financial aid funds to students on FD status.

Financial Aid Probation

If a student is placed on FD, the student may apply for an FA SAP appeal. Students on FD status who are granted an FA SAP appeal will be placed on financial aid probation (FP) status. Students who are placed on an FP status are eligible for federal financial aid for one probationary payment period. The University will disburse federal financial aid funds to students on FP status for one probationary payment period, provided all other eligibility requirements are met. At the completion of this probationary payment period, the student must meet the University’s FA SAP standards to maintain federal financial aid eligibility.

Student Notification

The University will notify students at any point during their enrollment if they are placed on or taken off the FW, FP, FD or Regular Student (RG) statuses, as these affect student eligibility to receive financial aid.

Quantitative Measure

The University publishes the total credit hours required to complete each academic program. The University establishes a pace of completion requirement to ensure a student will complete the program within the maximum timeframe permitted. The maximum timeframe to complete the program cannot exceed 150% of the published length of the program measured in credit hours attempted by the student. Transfer credits, taken at other institutions and applied towards the student’s primary program at the University, are included in both attempted and completed hours when measuring the student’s pace of completion and maximum timeframe.

Pace of Completion

The quantitative measure for the pace of completion is calculated using the following formula:

\[
\frac{\text{Cumulative number of credit hours the student successfully completed}}{\text{Cumulative number of credit hours the student attempted}}
\]

At the end of each payment period, the student’s pace of completion is evaluated. Students must earn at least 67% of the cumulative credit hours attempted toward completion of the primary program. Credit hours taken at other institutions and accepted toward a student’s primary program at the University are included in both attempted and completed credit hours when measuring pace of completion.

Cumulative Grade Point Average Exclusions

The following are excluded from the cumulative GPA computation:

- Waivers
- National Testing Programs
- Courses with the following grades:
  - In Progress Extension (IX)
  - AUDIT (AU)
  - Incomplete (I)
  - In Progress (IP)
  - No grade awarded (QC)
  - Removed Course (RC)
  - Passing (P)
  - Withdrawal (W)
  - Withdrawal/Failing (WF)
  - Waived with Credit (WC)
  - No Credit (NC)
- Orientations with the following completion statuses:
  - Orientation Complete (OC)
  - Orientation Not Complete (ON)
  - Orientation Extension (OX)

If a student applies for and is granted an academic reprieve for a course(s), the program GPA being used to evaluate FA SAP will be different than the program GPA recorded for academic purposes by the University’s Registrar. This is to ensure all attempted courses are being taken into consideration, as required, when calculating a student’s FA SAP as required by ED regulations.
federal financial aid.

**Financial Aid SAP Appeals**

Students placed on FD status may appeal the disqualification to regain eligibility for federal financial aid. Students may do so by submitting an FA SAP Appeal Form to Student Financial Services - Operations. The FA SAP Appeal form is located on the student website. If there are significant extenuating circumstances, the student's eligibility for federal financial aid may be reinstated for one payment period on FP status.

The University reviews all FA SAP appeals on a case-by-case basis. Approval and/or reinstatement of federal financial aid eligibility is not guaranteed. Approval is only granted when there are significant extenuating circumstances.

The University allows a student to have a maximum of two approved FA SAP appeals during their lifetime at the University. These appeals cannot be consecutive. Examples of significant extenuating circumstances may include, but are not limited to the following:

- Death of a relative
- An injury or illness of the student
- Other unusual or special circumstances

Students must explain on the FA SAP Appeal Form why the nature and timing of their significant extenuating circumstance(s) directly prohibited them from meeting and maintaining FA SAP, and what has changed in their circumstances that would allow them to demonstrate FA SAP at the next evaluation. If students have more than 12 credits remaining in their primary program, they must demonstrate the ability to graduate within the maximum timeframe allowed and meet the GPA requirements. If students have 12 or less credits remaining, they must demonstrate the ability to complete the remaining credits successfully.

All FA SAP appeal decisions made by the University are final.

**Regaining Eligibility after Payment Period of Ineligibility**

A student who is not making FA SAP regains eligibility only when the student meets the University's FA SAP requirements. Therefore, if a student loses eligibility for federal financial aid as a result of not meeting FA SAP requirements, the student must pay for credit hours taken during the ineligible payment period using non-federal financial aid funds. If the ineligible payment period is the second payment period of an academic year/loan period already established, any federal financial aid awarded for the second payment period will be canceled and, if necessary, returned to the funding source.

If the student meets all FA SAP criteria after the ineligible payment period, the student's borrower based academic year (BBAY) will start at the beginning of the eligible payment period following the period of ineligibility. The BBAY is packaged for a full 24 credits and 40 weeks of instructional time.

**Program Changes**

Students who change primary programs at the University are re-evaluated to determine which academic credits apply to the new primary program. The student’s FA SAP status at the beginning of the new program will be RG and will be evaluated at the end of each completed payment period in the new academic year. If the student changes back to a program he/she was previously in, the student’s FA SAP status will reflect the last status of the original program. Refer to the Awarding Aid to Transfer Students Policy available in the Consumer Information Guide for further information.

The University will calculate FA SAP based on all successfully completed courses applicable to the new primary program. This includes those courses taken in a previous primary program that the student successfully completed and that apply to the new primary program.

**Re Entering the University**

If a student withdraws from the University and subsequently re-enters into the same primary program, whether within 180 days or after 180 days, the FA SAP status at the time of re-entry and for the first payment period upon re-entry will be the FA SAP status the student had prior to his/her withdrawal.

If the student re-enters, at any point, into a different primary program not previously attended, the FA SAP status will reset to Regular Student (RG) status. Refer to Student Re-entering the University Policy available in the Consumer Information Guide for further information.

**Repeat Courses**

Grades for prior attempts, whether successfully completed or not, are excluded when calculating the primary program GPA. However, credits from all attempts are included in calculating pace of completion and maximum timeframe.

Note: Repeat courses taken in a primary program are counted in the FA SAP status for that primary program.

**Awarding Aid to Transfer Students Policy**

**Overview**

The Awarding Aid to Transfer Students policy documents the University’s treatment and determination of federal financial aid eligibility for students who transfer to the University from another school or advance programs (a.k.a. finish one program and begin another program) or change programs at the University.

**Policy**

**Definitions**

**Transfer Student**

A Student who enrolls in a program at the University who has overlapping academic years (AY’s) with a prior program, either at the University or at another institution is referred to as a transfer student. An overlapping AY exists if the student begins a program at the University prior to the expiration of the student’s prior AY. There are 3 types of transfers: external, internal, and advancing programs.

**External Transfer Student**

Student previously attended a program at an institution other than the University of Phoenix.

**Internal Transfer Student**

Student previously attended a program at the University of Phoenix but did not complete this program.

**Advancing Program Student**

Student previously attended a program at the University of Phoenix, completed this program, and began another program at the University.

If a student wishes to advance programs at the University, the student should contact Enrollment Services at (844) 937-8679.
Awarding Federal Aid

For all types of transfers, the University will award all federal financial aid (Federal Pell Grant, IASG, FSEOG, and Direct Loans) based on a full academic year in the (new) program at the University. (Refer to the Academic Year Definition Policy for further information on defined academic years).

Overlapping Academic Years

An academic year that begins before a prior academic year has ended is considered an overlapping academic year. This most commonly occurs when a student starts with the University after recently attending a different institution, when a student completes a prior program at the University and begins another program, or when a student changes programs at the University. Students in these scenarios should contact Student Financial Services at StudentFinancialServices@phoenix.edu or at 1-888-346-8679 to determine if they have overlapping academic years and if their financial aid eligibility will be impacted.

Federal Pell Grant Award

A student cannot receive more than 100 percent (or 150 percent, if the student is enrolled and eligible for a Year-Round Pell award) of his or her scheduled Pell Grant award for a federal aid year. (Refer to the Federal Pell Grant-IASG Policy for additional information). When a student has already received a Federal Pell Grant during the same federal aid year, the University determines the percentage of the scheduled Federal Pell Grant award that the student has already received in order to calculate the student’s remaining eligibility (if any) for a Federal Pell Grant award. The University also ensures the student does not exceed the Pell Lifetime Eligibility Used (Pell LEU).

The remaining Federal Pell Grant award amount may not be divided equally across the payment periods (PP) in the new program. Instead, the Federal Pell Grant funds must be disbursed in an amount up to the student’s remaining eligibility for each PP, except that no PP disbursement can exceed 50% of the scheduled Pell Grant annual award.

Pell Example: A student received a portion of a Federal Pell Grant for a program at ABC University, withdrew and then enrolled in a program at the University. The AY for the program at ABC University overlaps with the AY for the program at the University during the same federal aid year.

<table>
<thead>
<tr>
<th>Calculation to Determine Pell Grant Award Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>100% Scheduled Pell Grant Award at the University</td>
</tr>
<tr>
<td>Percentage of Pell Scheduled Award already used at ABC University from ED (Calculated and provided by ED)</td>
</tr>
</tbody>
</table>

Student’s maximum 100% Federal Pell Grant Award at the University

(100% Pell Scheduled Award multiplied by Percentage of Remaining Eligibility)

Federal Direct Loan Award

If the student is eligible for the Federal Subsidized and/or Unsubsidized Direct Loan program, the loan(s) at the University may not exceed the remaining balance of the student’s annual loan limits after the disbursements in the previous program are considered. The University also ensures the loan(s) awarded do not permit the student to exceed their lifetime aggregate undergraduate/graduate borrowing limits.

Direct Loan Example: A student received Subsidized and Unsubsidized Direct Loan disbursements at ABC University, withdrew and then enrolled in a program at the University. The AY for the program at ABC University overlaps with the AY for the program at the University.

The student is enrolled in a program at the University as a first year, independent undergraduate student with maximum annual Subsidized Direct Loan eligibility of $3,500 and Unsubsidized Direct Loan eligibility of $6,000.
Direct Loan Disbursements made by ABC University

Subsidized Loan disbursed  $1,750
Unsubsidized Loan disbursed  $2,000

The University must now determine the student’s remaining Subsidized and Unsubsidized Direct Loan eligibility for the 1st AY in the program at the University.

Calculations to Determining Direct Loan Award Amounts

Remaining Subsidized Loan  $3,500 - $1,750 = $1,750
(Annual Subsidized Direct Loan Limit - Subsidized Direct Loan funds disbursed)

Remaining Unsubsidized Loan Eligibility  $6,000 - $2,000 = $4,000
(Annual Unsubsidized Loan limit - Unsubsidized Loan funds disbursed)

These remaining loan fund amounts will be disbursed based on the PPs in the AY/LP at the University. (Refer to the Disbursements Policy for additional information)

Federal Supplemental Opportunity Grant Awards

The Federal Supplemental Opportunity Grant (FSEOG) will follow the same awarding process as the Federal Pell Grant program and Direct Loan Program, starting a new academic year and payment periods based on the program the student is transferring/advancing into at the University.

Verification, Secondary Confirmation of Eligible Non-Citizenship, and Conflicting Information Policy

Overview

Institutions are required to verify information provided by students selected for verification. In addition, institutions are required to complete secondary confirmation if an applicant’s eligible non-citizenship status was not confirmed by the Department of Homeland Security (DHS). Finally, institutions are required to identify and address any conflicting information in its records for the student. The Verification, Secondary Confirmation of Eligible Non-citizenship and Conflicting Information Policy addresses the Department of Education (ED) different verification groups, types of documents acceptable to complete verification and actions the University will take to address identified conflicting information.

Policy

The University is required to verify students whose FAFSA information is selected for verification by the Central Processing System (CPS). The institutional student information record (ISIR) or student aid report (SAR) document received from the CPS will indicate whether the student’s application is selected for verification. Students selected for verification must submit all required documentation requested by the University by the applicable deadline to be reviewed for federal financial aid eligibility. The University will not disburse any federal financial aid funds until verification is completed. In addition, students whose eligible non-citizenship was not confirmed by DHS must provide all required eligible non-citizenship documentation for secondary confirmation review by DHS. The University will not disburse any federal financial aid funds until secondary confirmation is completed. Students not selected by the CPS or who are exempt from verification but choose to provide taxes or other supplemental documents are not considered selected for verification. However, the University must review all documents provided and resolve any conflicting information prior to awarding and/or disbursing federal financial aid. All documents provided are retained as part of the student financial aid file.

On May 18, 2022, the U.S. Department of Education published GEN 22-06 https://fsapartners.ed.gov/knowledge-center/library/dear-colleague-letters/2022-05-18/changes-2022-2023-verification-requirements waiving verification of most Free Application for Federal Student Aid/Institutional Student Information Record (FAFSA/ISIR) information, except for Identity/Statement of Educational Purpose and High School Completion Status under Verification Tracking Groups V4 and V5. This waiver applies for the remainder of the 2022-2023 FAFSA processing and verification cycle. The University implemented the flexibilities outlined in GEN 22-06 as of 06/28/2022. Regardless of this waiver, the University will identify and resolve conflicting information concerning a student’s eligibility, including from documentation obtained during the verification process prior to or after these flexibilities were implemented.

Verification

Standard Verification Group (V1)

The University is required to verify the following information for students selected for standard verification:

- Tax Filers
  - Adjusted Gross Income
  - U.S. Income Tax Paid
  - Untaxed Portions of IRA Distributions and Pensions
  - IRA Deductions and Payments
  - Tax Exempt Interest Income
  - Education Credits
  - Number of Household Members
  - Number in College
- Non-Tax Filers
  - Income Earned from Work
  - Number of Household Members
  - Number in College
Custom Verification Group (V4)
The University verifies the following information for students selected for custom verification:
- Identity/Statement of Educational Purpose

Aggregate Verification Group (V5)
The University verifies the following information for students selected for aggregate verification:
- Identity/Statement of Educational Purpose
- Tax Filers:
  - Adjusted Gross Income
  - U.S. Income Tax Paid
  - Untaxed Portions of IRA Distributions and Pensions
  - IRA Deductions and Payments
  - Tax Exempt Interest Income
  - Education Credits
  - Number of Household Members
  - Number in College
- Non-Tax Filers:
  - Income Earned from Work
  - Number of Household Members
  - Number in College

Acceptable Documentation V1, V4 and V5

Tax Filers
The following documentation is acceptable for completing verification of tax filers:
- Specified tax year's tax account information of the tax filer that the Secretary has identified as having been obtained from the Internal Revenue Service (IRS) through the IRS Data Retrieval Tool and that has not been changed after the information was obtained from the IRS;
- A transcript obtained at no cost from the IRS or other relevant tax authority of a U.S. territory (Guam, American Samoa, the U.S. Virgin Islands) or commonwealth (Puerto Rico and the Northern Mariana Islands), or a foreign government that lists the specified tax year's tax account information of the tax filer;
- A signed copy of the income tax return and the applicable schedules that were filed with the IRS or other relevant tax authority that lists the specified tax year's tax account information of the tax filer;
- A copy of income tax return and the applicable schedules that were filed with the IRS or other relevant tax authority that lists the specified tax year's tax account information of the tax filer(s); and
- A copy of IRS Form W 2 for each source of employment income received for the specified tax year or an equivalent document

In some scenarios, all schedules, forms, and/or worksheets for the tax filing

The University will confirm or update the AGI and income based on the documentation submitted and use the proportional distribution method to determine taxes paid.

Amended Tax Return
When the University becomes aware that a tax filer has filed, or will file, an amended tax return, it will obtain a signed copy of the IRS Form 1040X that was filed with the IRS for the specified tax year, in addition to one of the following:
- An IRS Tax Return Transcript (that will only include information from the original tax return and does not have to be signed), any other IRS tax transcript(s) that includes all of the income and tax information required to be verified, or a copy of the tax return; or
- IRS DRT information on an ISIR record with all tax information from the original tax return

In rare cases, when an applicant and/or spouse, or parent(s) did not file an IRS Form 1040X with the IRS, but whose tax and income information was amended by the IRS, the University may accept documentation that includes the change(s) made by the IRS, in addition to one of the items mentioned above.

Other Tax Returns
If the tax filer filed a tax return with Commonwealth of Puerto Rico, the U.S. Virgin Islands, the Commonwealth of the Northern Mariana Islands, or Guam, the University will obtain a signed copy of the income tax return filed with the relevant tax authority.

If the tax filer filed a tax return with the tax authority for American Samoa, the person must provide a copy of his/her tax account information.

If the tax filer filed a tax return with tax authorities not mentioned above, (i.e. foreign tax authority) and the person indicates that he/she is unable to obtain the tax account information, the person must provide documentation that the tax authority charges a fee to obtain that information, along with a signed copy of his/her income tax return that was filed with the relevant tax authority.

Victims of Identity Theft
For an individual who was a victim of IRS tax-related identity theft, the University may accept the following documentation:
- A Tax Return DataBase View (TRDBV) transcript obtained from the IRS; and
- A statement signed and dated by the tax filer indicating that he or she was a victim of IRS tax-related identity theft and that the IRS has been made aware of the tax-related identity theft.

If a filer is unable to obtain a TRDBV transcript, he/she may submit other official IRS documentation as long as it contains all the information needed to complete verification. However, the filer must first attempt to get a TRDBV before he/she can use a copy of other official IRS documentation.

Filers of Joint Returns Who Are No Longer Married
If the filer of a joint return has become widowed, divorced, or separated since filing the return, for verification purposes, it may be necessary to determine the individuals' income and taxes paid using the joint tax transcript and the relevant IRS W-2 forms.

The following documents are required from the student/spouse/parent in order to perform a separation of income (SOI):
- A signed and dated SOI Authorization Form,
- A transcript obtained from the IRS or other relevant tax authority that lists the specified tax year's tax account information of the tax filer(s); or
- A copy of the income tax return and the applicable schedules that were filed with the IRS or other relevant tax authority that lists the specified tax year's tax account information of the tax filer(s); and
- A copy of IRS Form W 2 for each source of employment income received for the specified tax year or an equivalent document

In some scenarios, all schedules, forms, and/or worksheets for the tax filing

The University will confirm or update the AGI and income based on the documentation submitted and use the proportional distribution method to determine taxes paid.
The income and tax information are converted to U.S. dollars and the University uses the information on the forms that most closely correspond to the income information reported on an IRS tax return. If an individual from a foreign country is not required under the country’s government agency rules to file an income tax return, the University will accept a signed statement from the individual certifying all income and taxes paid for the tax year.

**Filing Extensions**

If the individual has been granted an automatic six-month extension by the IRS, the applicant must still verify income and tax information either by using the IRS Data Retrieval Tool or by submitting to the University an IRS Tax Return Transcript. If the required documentation is not submitted to the University by the established deadline, the student must return all Title IV aid disbursed before the student was selected, except for Direct Subsidized Loans, Direct Unsubsidized Loans, and Direct PLUS Loans. However, this is not applicable to individuals granted a filing extension beyond the University’s established deadline because the individual was called up for active duty or for qualifying National Guard duty during a war or other military operation or national emergency (Refer to the HEROES Policy for further information).

If the individual(s) has been granted a filing extension by the IRS beyond the automatic six-month extension for the tax year, the University will accept the following as documentation:

- A copy of the IRS Form 4868 “Application for Automatic Extension of Time to File U.S. Individual Income Tax Return;”
- A copy of the IRS’s approval of an extension beyond the automatic six-month extension for the applicable tax year;
- Confirmation of non-filing from the IRS or other relevant taxing authority dated on or after October 1, 2020, except dependent students (“Verification of Nonfiling Letter”);
- See “Non-Tax Filers” section below if individual is unable to obtain a “Verification of Nonfiling Letter”
- A copy of the IRS Form W-2 for each source of employment income received for the applicable tax year by an individual that has been granted a filing extension; AND
- If self-employed, a signed statement certifying the amount of the AGI and U.S. income tax paid for the specified tax year;

**Note:** The University will not delay completing verification if the above documentation is submitted for those individuals granted IRS extensions. However, if the University receives the actual IRS transcript at a later date, it must reverify the AGI and taxes paid.

**Non Tax Filers**

Students, spouses, and/or parents who have not filed a tax return, and are not required to file, will not have an AGI. They must report income earned from work on the FAFSA, including any income reported on the individual’s W-2 forms, and other earnings from work not reported on these forms. If selected for verification and income was earned, the student, spouse, and/or parent are required to provide copies of W-2 forms from each employer. In addition, the person must provide a signed statement certifying the sources and amounts of income earned from work not on W-2s and that the person has not filed and is not required to file a tax return. The University will also require the person (except dependent students) to submit a “Verification of Nonfiling (VNF) Letter” from the IRS dated on or after October 1, 2020. If an individual is unable to obtain VNF from the IRS and the University has no reason to question the good-faith effort to obtain the required documentation, the University will accept the following:

- A signed statement certifying that the individual
- Attempted to obtain the VNF from the IRS or other tax authorities and was unable to obtain the required documentation; and
- Has not filed and is not required to file an applicable income tax year return, and a listing of the sources of any applicable year income earned by the individual from work and the amount of income from each source; and
- A copy of IRS form W-2, or an equivalent document, for each source of applicable tax year employment income received by the individual

If a student, spouse, and/or parent submits a signed statement claiming non-tax filer status and the University has reason to believe the person was required to file a U.S. tax return, this constitutes conflicting information and must be resolved.

The following is a chart to assist in determining whether or not an individual is required to file an income tax return.

<table>
<thead>
<tr>
<th>Your filing status is...</th>
<th>AND at the end of 2020 you were...</th>
<th>THEN file a return if your gross income was at least...</th>

In addition to the above chart, a person must file a return if any of the conditions below apply for the tax year.

- You owe any special taxes, including any of the following.
  - Alternative minimum tax.
  - Additional tax on a qualified plan, including an individual retirement arrangement (IRA), or other tax-favored account.
  - Recapture of first-time homebuyer credit.
  - Household employment taxes. But if you are filing a return only because you owe this tax, you can file Schedule H by itself.
  - Social security and Medicare tax on tips you did not report to your employer or on wages you received from an employer who did not withhold these taxes.
- You were called up for active duty or for qualifying National Guard duty during a war or other military operation or national emergency (Refer to the HEROES Policy for further information).
• Write-in taxes, including uncollected social security and Medicare or RRTA tax on tips you reported to your employer or on group-term life insurance and additional taxes on health savings accounts.
• Recapture taxes.
• You (or your spouse, if filing jointly) received HSA, Archer MSA or Medicare Advantage MSA distributions.
• You had net earnings from self-employment of at least $400.
• You had wages of $108.28 or more from a church or qualified church-controlled organization that is exempt from employer social security and Medicare taxes.
• Advance payments of the premium tax credit were made for you, your spouse, or a dependent who enrolled in coverage through the Marketplace. You or whoever enrolled you should have received Form(s) 1095-A showing the amount of the advance payments.
• Advance payments of the health coverage tax credit were made for you, your spouse, or a dependent. You or whoever enrolled you should have received Form(s) 1095-H showing the amount of the advance payments.
• You are required to include amounts in income under section 965 or you have a net tax liability under section 965 that you are paying in installments under section 965(h) or deferred by making an election under 965(i).

Number in Household

Unless the student/parent qualifies for one of the permitted exemptions provided below, the University requires the student (if dependent, requires the parent) submit a verification worksheet (VWS) listing the name and age of each household member who is or will be attending an eligible postsecondary educational institution. The household member must be at least a half-time student in the specified award year and the name of the educational institution must be listed.

NOTE: If the name of the educational institution listed is not an eligible postsecondary educational institution, the University will make a correction to remove the name of the household member from the in college.

Exemptions to verification of number in college:

Independent student if:
• Household size reported is 1 AND college size reported is 1
• Household size reported is 2 AND college size reported is 1
• Household size reported is 3 AND college size reported is 1

Dependent student if:
• Household size reported is 2 AND college size reported is 1
• Household size reported is 3 AND college size reported is 1
• Household size reported is 3 AND college size reported is 1

Number in College

Unless the student/parent qualifies for one of the permitted exemptions provided below, the University requires the student (if dependent, requires the parent) submit a verification worksheet (VWS) listing the name and age of each household member who is or will be attending an eligible postsecondary educational institution. The household member must be at least a half-time student in the specified award year and the name of the educational institution must be listed.

NOTE: If the name of the educational institution listed is not an eligible postsecondary educational institution, the University will make a correction to remove the name of the household member from the in college.

Exemptions to verification of number in college:

Independent student if:
• Household size reported is 1 AND college size reported is 1
• Household size reported is 2 AND college size reported is 1
• Household size reported is 3 AND college size reported is 1

Dependent student if:
• Household size reported is 2 AND college size reported is 1
• Household size reported is 3 AND college size reported is 1
• Household size reported is 3 AND college size reported is 1

Identity/Statement of Educational Purpose

The following is acceptable documentation to verify a student’s statement of educational purpose/identity:
• An unexpired valid government-issued photo identification, such as a driver’s license or passport
• A signed statement certifying the federal financial aid received will only be used for educational purposes to pay the cost of attending the University for the specified award year.

If the documentation is presented in person, the University will maintain an annotated copy of the ID provided by the student and will include the date the identifying document was received and the name of the University official who obtained the documentation.

If the student is unable to provide the information in person, the following must be provided to the University:
• A copy of a government-issued photo identification, such as a driver’s license or passport
• The copy of the government issued ID does not need to be notarized or signed by the notary; and
• An original notarized statement of educational purpose signed by the student for the specified award year.

An original document must contain wet signatures for the student and the notary as well as the required stamp or seal.
Selection after Disbursement
The student or University may submit corrections to the SAR/ISIR, and the student's application may then be selected for verification. If the student's enrollment status is Withdrawn (W), the University is not required to verify the student's information unless the student returns to the University in the same award year. If the student's enrollment status is anything other than withdrawn (W), the University will not make subsequent disbursements until the student's updated application is verified. If the student does not submit verification documents, the student is responsible for repaying all federal financial aid for which he/she is not eligible, including funds already disbursed for the award year. The student does not have to repay any Direct Loan disbursements made prior to selection as these funds will be repaid according to the terms of the master promissory note; however, the University will cancel any further Direct Loan.

Completing Verification
When the University has obtained all necessary verification documents from the student, the documentation is compared to the ISIR/SAR record. If the verification process shows the student's information is correct, and there are no outstanding issues or conflicting information, the student will be awarded. If the verification process shows the student information requires corrections, the awarding process will not continue until the University receives a final and valid federal output document (ISIR) with an official EFC. Verification is complete once the University has received all the requested documentation and a valid SAR/ISIR (one that has all the accurate and complete information). This includes any necessary corrections, which must be made by the applicable federal deadlines.

If the University has reason to believe a student or parent, if dependent student, is trying to avoid completing verification and/or suspects potential fraud, the University will initiate an investigation of the student. During the period of investigation, the University will cease award and disbursement of all federal financial aid funds to the student. If satisfactory resolution in the investigation cannot be reached, the student will lose eligibility for federal financial aid funds for at least the federal award year. In addition, based on the outcome of the University's investigation, any credible information indicating that the student may have engaged in fraud or other criminal misconduct in connection with his or her application for federal student aid will be referred to the U.S. Department of Education's Office of Inspector General (OIG). Please refer to the University's Federal Student Aid Fraud Policy for more information.

Disbursements
The University will not make disbursements of federal financial aid until verification is completed.

Change Dependency Status due to Change in Marital Status
The University will not update a student's dependency status based on a change in the student's marital status after filing of the FAFSA.

Consequences of a Change in FAFSA Information
For the subsidized student financial assistance programs, if the FAFSA information changes as a result of verification, the University will recalculate the student's Pell Grant on the basis of the EFC on the correct valid SAR/ISIR. The University will disburse any additional funds under that award only if the University receives a correct valid SAR/ISIR for the student, and only to the extent additional funds are payable based on the recalculation.

For all other subsidized student financial assistance programs, if information changes as a result of verification, the University will adjust the student’s financial aid package on the basis of the corrected EFC on the valid SAR/ISIR.

Verification and Professional Judgment
If a student requests a professional judgment and is also selected for verification, the University will require the verification be completed before exercising any type of professional judgment.

Reporting the Student's Verification Status to the CPS
When the University disburses a Federal Pell Grant award, it reports the student's verification status at the time of disbursement when it reports the payment. Note: This reporting requirement applies even if the student’s application was not selected for verification. However, the University leaves the verification status code field blank if the student was not selected for verification or the selected ISIR transaction has a CPS transaction process date that is after the date the student was no longer enrolled at the University.

Verification Timelines
The University will require Federal Pell Grant, campus-based, and Direct loan students selected for verification to submit all requested verification documents to the University within 30 days of the notification date informing the student of the requirements. If the documents are not submitted or are incomplete by this deadline, appropriate actions are taken, as required, based upon the student's enrollment status as of the deadline date.

For the Federal Pell Grant Program, if the student provides the verification documents after the 30-day deadline, but before the earlier of 120 days after the student’s last date of attendance or the deadline established by the U.S. Department of Education each award year, the University will review and address eligibility as required.

If based on corrections, there is an increase in the Federal Pell Grant amount and the student's valid ISIR is received after he/she is no longer enrolled but before the annual Federal Register deadline, the University will pay the student the higher award amount.

Student Notification
The University will notify the student, in writing, of verification requirements and timelines for submission of necessary documents. Selected students receive the following:

- Documentation requirements
- Timeline of 30 days to return the required documentation
- Correction procedures (provided during the initial application process)
• Consequences of not returning the documents within the prescribed timelines, which may include cancellation of tuition deferral and request of immediate payment of outstanding tuition charges
• Information in reference to written notification of award changes resulting from verification, which are forwarded within 20 days of required adjustments

Verification and Crossover Payment Periods
During a crossover payment period (a payment period that includes both June 30 and July 1), the University will award and disburse federal financial aid funds using the first federal award year ISIR that is ready to be used. Once a federal award year ISIR has been used for awarding and disbursing federal financial aid funds, the University will no longer follow up with the student on collecting documents to complete verification unless those documents are needed for a future academic year.
If the University has reason to believe a student is trying to avoid completing the verification requirements and suspects potential fraud, the University will not award federal financial aid funds using the unselected ISIR. Instead, the University will require the student to complete the verification requirements or lose eligibility for the crossover payment period.

Verification Exclusions
The exclusion described here are applicable only to the affected individual. All other requirements for verification still apply to the non-affected parties (i.e., if one parent meets an exclusion, the student and the other parent are still required to complete verification requirements).
A selected student is exempt from the verification requirements based on the following unusual circumstances:
• The student dies,
• The student will not receive federal financial aid for reasons other than failure to complete the verification, or
• The student was selected for verification after the date the student was no longer enrolled at the University, the University is not aware that the student intends to reenroll for the award year, and no further disbursements (including late) will be made.
Parents of a dependent student are exempt from verification requirements if any of the following apply:
• Both parents are mentally incapacitated,
• Both parents or the custodial parent has died
• They reside in a country other than the United States and cannot be contacted by normal means, or
• They cannot be located because the student does not have and cannot obtain their contact information
A spouse of an independent student is exempt from verification requirements if any of the following apply:
• The spouse has died,
• The spouse is mentally incapacitated,
• The spouse resides in a country other than the United States and can't be contacted by normal means, or
• The spouse cannot be located because the student does not have and cannot obtain contact information
If a student selected for verification dies before the deadline for completing verification and does not complete the verification process, the University will not 1) make any further disbursements on the student’s behalf, 2) originate or disburse the student’s Direct Subsidized Loan, and 3) consider any funds disbursed on an interim basis as an overpayment.

The University will document in the student’s file the basis for any exclusion, other than the death of a student, using a signed statement from the student.

Verification Following Natural Disasters
If an affected individual, impacted by a federally declared major disaster as defined in The Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5122(2)), notifies the University that he/she has been impacted:
• For students whose records are lost or destroyed because of a natural disaster, the University is not required to complete verification. The student’s file is documented accordingly and the Pell Grant disbursements for students affected will reflect a verification status code “S”, which reflects selected but not verified.
• The University will waive the requirement of a signed verification worksheet verifying number of family members in household and number of family household members enrolled in an eligible postsecondary institution when no parent can provide the required signatures because the parent(s) is affected by a disaster. In these scenarios, the University will note and retain an explanation of why the student’s parent(s) was not able to sign the verification worksheet.

The University will extend the verification document submission deadline to 90 days for students affected by a natural disaster and whose records were not lost or destroyed. If the required verification documents are not submitted within this deadline and the University can document the reason is due to a natural disaster, the University will not perform verification and will document the student’s file accordingly.

Third Step Verification of a Student's Eligible Non-Citizenship Status
To be eligible for federal grant and loan programs, a student must be a U.S. citizen, permanent resident or other eligible noncitizen. An exception is provided for a citizen of the Federated States of Micronesia, Republic of the Marshall Islands, or the Republic of Palau to receive Federal Pell Grant but not Direct loans. Citizens of Palau are also eligible for Federal Supplemental Education Opportunity Grant (SEOG).
If the U.S. Department of Education (ED) is unable to confirm the student’s U.S. citizenship or eligible non-citizenship status via database matches with the Department of Homeland Security (DHS), the University is required to perform third step verification by collecting and submitting the student’s eligible non-citizenship status documentation to DHS for manual review and approval.

Student Notification
The University will notify the student if third step verification of his/her eligible non-citizenship is required based on the information provided by the CPS on the student’s ISIR and request the student provide ALL the following documents:
• a hard copy or electronic image of the original eligible non-citizenship document
• Eligible non-citizen Affidavit
Students will be given 30 days to submit these required documents to the University. If a student fails to submit the necessary documents by the deadline established, they will forfeit consideration of federal grant and loan funds for the award year in which they applied for.
Timelines
The University will submit the required documentation received from the student to DHS within 10 days via the SAVE system. DHS-USCIS will return their response of third step verification via the SAVE system no later than 15 business days. If DHS is unable to provide third step verification, the University will not award the student any federal grant or loan funds. The University will notify the student of the results of third step verification.

Resolving Conflicting Information
If the University has conflicting information concerning a student's eligibility or has any reason to believe a student's application information is incorrect, the University will resolve such discrepancies before awarding and/or disbursing federal financial aid funds. If discrepancies are identified that were not present at the time the federal financial aid funds were disbursed, the University will reconcile the conflicting information and the student will be responsible for repayment of any federal financial aid funds they were not eligible to receive. The University will report the student to ED as a federal grant and/or loan overpayment to collect repayment of these funds from the student.

Examples of conflicting information may include, but are not limited to the following:

• Social security numbers
• Date of birth
• Legal name
• Discrepant tax data (including whether or not the student/parent was required to file a tax return)
• Number in Household
• Number in College
• Student or parent Marital status
• High school completion
• Unearned income or resources
• Other Resources, such as Employer Tuition Reimbursement (See the University's Packaging Philosophy Policy for other examples of "other resources")
STUDENTS’ RIGHTS AND RESPONSIBILITIES

Students’ Right to Privacy

The University of Phoenix maintains compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended. FERPA defines requirements which are designed to protect the privacy of student records maintained by the University. The law requires that:

1. Students should be provided access to official records directly related to them. Students who wish to see their records must make an appointment or submit a written request through the University Registrar’s Office or local campus office.
2. Students may not remove any materials, but are entitled, at their expense, to one copy of any materials contained in their file, unless a disclaimer appears on the document indicating that the student is not to be given a copy, or if the student waived the rights to the document.
3. Students will be given the opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the faculty member.
4. Students’ written or authorized electronic consent must be received prior to releasing personally identifiable student data from their records to other than a specified list of exceptions.

The University is authorized to release public directory information concerning students. Directory information includes the student’s name, address, phone number, year of birth, program of study, dates of attendance, dates of admission, degree completion dates and types of degrees earned, enrollment status, grade level, photographs, honors, and awards received, participation in officially recognized activities and the most recent previous educational agency or institution attended by the student. Directory information is subject to release by the University at any time unless the Registrar has received a prior written request from the student specifying that the information not be released.

The University is authorized to provide access to student records to University officials and employees who have legitimate educational interests for such access; these are persons who have responsibilities in the University’s academic, administrative, service, or research functions.

A copy of the University’s FERPA policy is available to students through the Registrar’s Office or the student portal at: http://my.phoenix.edu.

Education records also will be released pursuant to a judicial order or a lawfully issued subpoena, but only after the student is given reasonable and necessary notification of the University’s intent to comply with the subpoena before release of the records.

Students have the right to restrict disclosure of directory information by submitting a FERPA Hold Request Form to the Registrar’s Office. Requests are valid throughout student’s enrollment unless otherwise notified. Please send or fax your request to: Registrar, University of Phoenix, 4035 South Riverpoint Parkway, Phoenix, AZ 85040, Fax (480) 643-1600.

Student Organizations

It is the policy of University of Phoenix (UOPX) to provide our students with opportunities to form student organizations that are recognized under the University’s Conditions of Recognition for Student Organizations.

Conditions of Recognition for Student Organizations

The University has established the following minimum criteria that each student organization must meet to be recognized by, and to function within, the University of Phoenix community:

- A Recognized Student Organization (RSO) is independently installed, organized, and managed by students enrolled and actively attending the University.
- All student members of a University RSO must be enrolled in and must have posted positive attendance within the last 90 days.
- RSOs must operate under the appropriate bylaws and/or policies to ensure that their student members remain in good academic and financial standing with the University and are free from code of conduct violations and related disciplinary action.
- RSOs are recognized by, but not official units of UOPX.
- RSOs must have a published purpose/mission and goals/objectives, operate under a formal leadership/governance structure, participate in the annual assessment process, and maintain membership rosters, financial statements, meeting minutes, assessment plans and reports, etc. These items shall be submitted upon initial application and upon annual review or more frequently, as required or requested.
- Recognized Student Organization Application/Annual Report and Renewal Request submission must be accompanied by an Assessment Matrix attachment with assessment plan sections (Area Assessed, Criteria, University Learning Goals, Measure and Metric) columns completed. At the end of an application/renewal period the Assessment Matrix template submitted the year prior must be updated including the completed Findings and Action Plan sections.
- RSOs must have a University-approved University liaison. The role of the University liaison is voluntary and intended to serve as a liaison between the campus-based student organization and the University and to provide general guidance related to installing, organizing, leading, managing, assessing, and sustaining a healthy and productive student organization. If it becomes necessary for a student organization to be dissolved, the University liaison will provide guidance/support to ensure a seamless exit strategy for the participating students, student organization, and the University.
- RSOs may not possess any financial ties or result in any financial impact to UOPX. All expenses related to installing, organizing, leading, managing, and/or sustaining a RSO are the sole responsibility of the RSO.
The tax status of the University does not extend to RSOs. RSOs must follow all local, state, and federal guidelines. RSOs have sole responsibility for securing, maintaining, or demonstrating that they operate under the appropriate nonprofit tax exemptions (i.e., 501(c)(7) or tax employer identification numbers, as appropriate. Under no circumstances are RSOs allowed to use the federal tax numbers or designations of UOPX.

Consistent with the UOPX Mission, RSOs must strive to enhance the student experience, the University’s culture, and their communities as demonstrated with the organization’s purpose/mission and charter.

RSOs must meet all Conditions of Recognition and agree to abide by all UOPX regulations, policies, and procedures. This includes, but is not limited to, all Academic Catalog policies, campus safety policies, consumer information policies, public relations policies, marketing/advertising guidelines, privacy policies, and the student, faculty, and staff codes of conduct.

RSOs must be open to all students who meet the membership requirements. RSOs may not limit membership based on race, color, gender, age, religion, disability or perceived disability, veteran status, sexual orientation, gender identity, national origin, or any other category protected by federal, state, or local laws.

RSOs must submit a Student Organization Recognition application to the UOPX Office of Accessibility, Equity & Inclusion and be approved by the University to receive formal recognition status and recognition-related benefits. Formal recognition and access to the recognition-related benefits will not be granted until an application is reviewed and approved.

Recognition status will expire at the end of each fiscal year, August 31st. A request for recognition renewal must be submitted no later than August 31st each year to remain officially recognized as a RSO. Exceptions will be made for new RSOs with approval granted between July and December of that same year. Upon approval, recognition status and benefits will be renewed for one year. This ensures proper maintenance of each RSO’s recognition and continued compliance with regulatory, policy, and procedural changes.

RSOs that are academically oriented or request to install an institutional-level chapter/chapter must receive approval from the appropriate institutional sponsor.

The bylaws and /or policies for any RSO must meet the minimum standards outlined in the Recognized Student Organizations Handbook.

RSOs must meet one of the University’s approved RSO Types and Recognition Statuses as defined below.

Approved RSO Types

Academic (excluding Honor Societies) - Academic organizations are generally intended for students with common academic interests, pursuing a particular field of study, and/or students who are interested in academic engagement and support beyond the classroom.

Honor Societies - Honor Societies are generally geared toward students who demonstrate a high level of academic achievement. Membership in honor societies is typically by invitation and criteria based.

Professional - Established professional associations are generally intended for students with a specific program, interest area, and possibly occupational aspirations in a professional field (e.g., Project Management Institute [PMI], Society for Human Resource Management [SHRM]).

Service - Service organizations are generally intended for students seeking opportunities to participate in community service and/or philanthropic activities.

Affinity - Student organizations with the goal to empower historically underrepresented students in their endeavors of college matriculation and job attainment. These requests are considered on a case-by-case basis.

Approved RSO Recognition Statuses

University-Level Recognition - RSOs, which have been approved by the University and the participating student organization’s corporate office to install an institutional-level charter/chapter under which all local campus sites would operate. For example, UOPX installed the Delta Mu Delta Lambda Sigma institutional charter in 2009, under which all campus sites are eligible to apply to install a local area co-chapter.

Local Campus-Level Recognition - Additional local campus sites that have been approved by the University to operate under the governance/oversight of the institutional-level recognized charter/chapter. For example, the Phoenix campus has been approved to install a ‘co-chapter’ which operates under the University’s Delta Mu Delta Lambda Delta institutional-level charter.

Single Site Recognition - RSOs which have been approved by the University and the participating RSO’s corporate office to install a charter/chapter to operate separately and independently at one of the University’s local campus sites.

Online Recognition - Student organizations which, under certain circumstances, are not functional on a campus due to temporary or permanent closures. Both the Local Campus and Single Site Recognition would be limited and RSOs would be redirected to an online status.

Non-Standard Recognition - RSOs which do not fit any of the other recognized affiliation statuses may apply for affiliation under this status. These requests are considered on a case-by-case basis.

Equal Opportunity, Harassment, and Nondiscrimination

Policy on Nondiscrimination

The University is committed to providing an educational environment that is free from discrimination, harassment, and retaliation. To ensure compliance with federal and state civil rights laws and regulations, and to affirm its commitment to promoting equity in all aspects of the educational program or activity, the University has developed policies and procedures that provide a prompt, equitable, and impartial process for allegations of discrimination or harassment on the basis of protected class status and for allegations of retaliation.

Resolution Services oversees implementation of the University’s policy on Equal Opportunity, Harassment, and Nondiscrimination. The University’s Title IX Coordinator has the primary responsibility for coordinating the University’s efforts related to investigation, resolution, and implementation of sanctions to stop, remediate, and prevent discrimination, harassment, and retaliation prohibited under this policy.
The Title IX Coordinator acts with independence and authority free from bias and conflicts of interest. The members of the Title IX Team are trained to ensure they are not biased for or against any party in a specific case, or for or against Complainants and/or Respondents. Complaints or notice of alleged policy violations, or inquiries about or concerns regarding this policy and procedures, may be made internally to:

Bridget Beville, Vice President, Resolution Services & Title IX Coordinator
4035 S. Riverpoint Parkway
Phoenix, AZ 85040
602-557-1823 office
480-273-0455 mobile
TIXC@phoenix.edu

The University's 504 Coordinator is responsible for overseeing efforts to comply with Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990 (ADA), and the ADA Amendments Act of 2008, prohibiting discrimination on the basis of a disability and requiring the University to provide accommodations to otherwise qualified disabled students in all University programs and activities. Questions may be directed internally to:

Kelly Hermann, Vice President, Accessibility, Equity & Inclusion & 504 Coordinator
4035 S. Riverpoint Parkway
Phoenix, AZ 85040
602.387.9936
Section.504Coordinator@phoenix.edu

Inquiries may be made externally to:
Office for Civil Rights (OCR)
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202-1100
Customer Service Hotline #: (800) 421-3481
Facsimile: (202) 453-6012
TDD#: (877) 521-2172
Email: OCR@ed.gov
Web: http://www.ed.gov/ocr

Scope
The core purpose of this policy is the prohibition of all forms of discrimination. When an alleged violation of this policy is reported, the allegations are subject to resolution using one of two processes outlined below as determined by the Title IX Coordinator. These procedures may be applied to incidents, to patterns, and/or to the campus climate, all of which may be addressed and investigated in accordance with this policy.

Any person whose acts deny, deprive, or limit the educational access, benefits, and/or opportunities of any member of the University community, guest, or visitor on the basis of that person’s actual or perceived membership in the protected classes defined below is in violation of this policy.

This policy is interpreted broadly to include online and cyber manifestations of any of the behaviors prohibited below, when those behaviors occur in or have an effect on the University’s education program and activities or use University networks, technology, or equipment.

Jurisdiction
This policy applies to the University's education program and activities, to conduct that takes place on campus or online or on property owned or controlled by the University or at University-sponsored events.

The University may also extend jurisdiction to off-campus and/or online conduct when the Title IX Coordinator determines that the conduct affects a substantial University interest, including any situation that is detrimental to the educational interests or mission of the University and/or has continuing effects on the University community.

Definitions
Advisor: The person chosen by a party or appointed by the University to accompany the party to meetings related to the resolution process, to advise the party on that process, and to conduct cross-examination for the party at a Formal Grievance Process hearing, if any.

Complainant: The individual who is alleged to be the victim of conduct that could constitute harassment or discrimination based on a protected class.

Education Program or Activity: Locations, events, or circumstances where the University exercises substantial control over both the Respondent and the context in which the harassment or discrimination occurs.

Formal Complaint: A document filed by a Complainant or signed by the Title IX Coordinator alleging Title IX Sexual Harassment against a Respondent and requesting an investigation of the allegations.

Mandated Reporter: Any University employee obligated by policy to share knowledge, notice, and/or reports of actual or suspected harassment, discrimination, and/or retaliation with the Title IX Coordinator.

Preponderance of the Evidence: The standard of proof used to determine whether a Respondent is responsible for a violation of this policy, meaning whether a policy violation is more likely than not.

Protected Class: Race, color, religion, creed, sex, pregnancy (including lactation, childbirth, and related medical conditions), sexual orientation, gender, gender identity or expression, familial or marital status, age (40 or older), physical or mental disability, medical condition (any health impairment related to a diagnosis, record, or history of cancer), genetic information (including testing and characteristics), national origin, ancestry, ethnicity, citizenship, military or veteran status, or any other status or characteristic protected by applicable federal, state, or local law.

Respondent: The individual who has been reported to be the perpetrator of conduct that could constitute harassment or discrimination based on a protected class.

Supportive Measures: Non-disciplinary, non-punitive individualized services offered to the Complainant or the Respondent designed to restore or preserve equal access to the education program or activity, including measures designed to protect the safety of all parties or the educational environment, or deter harassment, discrimination, and/or retaliation. Supportive measures may include, but are not limited to, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, security escorts, mutual restrictions on contact between the parties, changes in work location, leaves of absence, increased security and monitoring of certain areas, counseling referrals and other similar measures.
Title IX Coordinator: The official designated by the University to ensure compliance with Title IX and who has the primary responsibility for coordinating Recipient's efforts related to the intake, investigation, resolution, and implementation of supportive measures to stop, remediate, and prevent discrimination, harassment, and retaliation prohibited under this policy. For the purposes of executing this policy, a designee may be assigned by the Title IX Coordinator.

Prohibited Conduct

Harassment

Discriminatory harassment is defined as unwelcome conduct by any member or group of the community on the basis of actual or perceived membership in a class protected by policy or law. The University does not tolerate discriminatory harassment of any employee, student, visitor, or guest and will act to remedy all forms of discriminatory harassment when reported, whether or not the harassment rises to the level of creating a hostile environment. For purposes of this policy, harassment is any verbal or physical conduct designed to threaten, intimidate or coerce any individual covered by this policy.

The following examples of harassment are intended to be guidelines and are not exclusive when determining whether there has been a violation of this policy:

- Verbal harassment includes epithets, slurs, and negative stereotyping, and comments that are offensive or unwelcome regarding any characteristic or status protected by this policy or applicable law.
- Non-verbal harassment includes distribution, display or discussion of any written or graphic material that ridicules, denigrates, insults, belittles or shows hostility, aversion or disrespect toward an individual or group because of any characteristic or status protected by this policy or applicable law.
- Physical harassment includes assault, unwanted touching, or blocking normal movement because of an individual's protected status.
- A hostile environment is one that unreasonably interferes with, limits, or effectively denies an individual's educational access, benefits, or opportunities. This discriminatory effect results from harassing verbal, non-verbal, written, graphic, or physical conduct that is severe or pervasive, and objectively offensive. When discriminatory harassment rises to the level of creating a hostile environment, the University may impose sanctions through application of the appropriate grievance process below. The University reserves the right to address offensive conduct and/or harassment that 1) does not rise to the level of creating a hostile environment, or 2) that is of a generic nature not based on a protected status, under the applicable Code of Conduct.

Sexual Harassment

On May 19, 2020, the U.S. Department of Education issued a Final Rule under Title IX of the Education Amendments of 1972 that defines the meaning of "sexual harassment" (including forms of sex-based violence). Under the Final Rule, the University must narrow both the geographic scope of its authority to act under Title IX and the types of "sexual harassment" subject to its Title IX investigation and adjudication process.

Only incidents falling within the Title IX definition of sexual harassment will be subject to the Title IX Formal Grievance Process.

Title IX Sexual Harassment means conduct on the basis of sex that satisfies one or more of the following:

- An employee conditioning educational benefits on participation in unwelcome sexual conduct (i.e., quid pro quo);
- Unwelcome conduct that a reasonable person would determine is so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the University's education program or activity;
- Sexual assault (as defined in the Clery Act);
- Dating Violence (as defined in the Violence Against Women Act (VAWA) amendments to the Clery Act);
- Domestic Violence (as defined in the Violence Against Women Act (VAWA) amendments to the Clery Act);
- Stalking (as defined in the Violence Against Women Act (VAWA) amendments to the Clery Act).

All other incidents, including those that meet the following definition of sexual harassment will be subject to the Standard Grievance Process.

Sexual Harassment is unwelcome, sex-based and/or gender-based verbal, non-verbal, written, online and/or physical conduct that satisfies one or more of the following:

- Takes the form of quid pro quo harassment;
- Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature by a person having power or authority over another when submission to such sexual conduct is made either explicitly or implicitly a term or condition of an individual's work or educational development or performance, or evaluation thereof.
- Creates a hostile environment;
- A hostile environment is created when sexual harassment is severe, and/or persistent and/or pervasive and objectively offensive, such that it unreasonably interferes with, denies, or limits the ability to participate in or benefit from the University's education program and activities.
- is retaliatory.

Other Civil Rights Offenses

The following offenses are prohibited forms of discrimination when the act is based upon the Complainant's actual or perceived membership in a protected class.

- Sexual Exploitation, defined as: taking non-consensual or abusive sexual advantage of another for their own benefit or for the benefit of anyone other than the person being exploited, and that conduct does not otherwise constitute sexual harassment under this policy.
- Threatening or causing physical harm, extreme verbal, emotional, or psychological abuse, or other conduct which threatens or endangers the health or safety of any person;
- Discrimination, defined as actions that deprive, limit, or deny other members of the community of educational or employment access, benefits, or opportunities;
- Intimidation, defined as implied threats or acts that cause an unreasonable fear of harm in another;
• Bullying, defined as repeated and/or severe aggressive behavior likely to intimidate or intentionally hurt, control, or diminish another person, physically and/or mentally

Retaliation
Retaliation is defined as any materially adverse action taken because of a person’s participation in a protected activity. Protected activity includes reporting an incident that may implicate this policy, participating in the grievance process, supporting a Complainant or Respondent, or assisting in providing information relevant to an investigation.

The University or any member of the University community is prohibited from taking materially adverse action by intimidating, threatening, coercing, harassing, or discriminating against any individual for the purpose of interfering with any right or privilege secured by law or policy, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this policy and procedure.

Charges against an individual for Code of Conduct violations that do not involve sex discrimination or sexual harassment but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX, constitutes retaliation.

Acts of alleged retaliation should be reported immediately to the Title IX Coordinator for investigation.

Reporting Harassment, Discrimination and/or Retaliation
Reports of harassment, discrimination, and/or retaliation may be made at any time (including during non-business hours) using any of the following options:
• Directly to the Title IX Coordinator via phone, email, text or in-person;
• Directly to Resolution Services;
• By informing any mandated reporter, such as a faculty member, academic counselor, Campus Security Authority (CSA) or Human Resources Business Partner (HRBP);
• By calling the Ethics & Compliance Helpline at 888-310-9569 or filling out an online form at http://www.UOPXhelpline.com.

All University faculty and employees are mandated reporters and expected to report actual or suspected harassment or discrimination of which they become aware and must promptly share all known details of a report made to them in the course of their employment, including the identities of both parties, with the Title IX Coordinator.

All reports are acted upon promptly, and every effort is made by the University to preserve the privacy of reports, meaning information related to an allegation will be shared with a limited number of University employees who “need to know” in order to assist in the assessment, investigation, and resolution of the report.

There is no time limitation on reporting. However, if the Respondent is no longer subject to the University’s jurisdiction and/or significant time has passed, the ability to investigate, respond, and provide remedies may be limited or impossible.

If a Complainant does not wish for their name to be shared, does not wish for an investigation to take place, or does not want a formal complaint to be pursued, they may make such a request to the Title IX Coordinator, who will evaluate that request in light of the duty to ensure the safety of the University community and to comply with state or federal law.

The Title IX Coordinator has ultimate discretion over whether to proceed when the Complainant does not wish to do so, and the Title IX Coordinator may sign a Formal Complaint to initiate a grievance process upon completion of an appropriate violence risk assessment.

Parties reporting sexual assault, domestic violence, dating violence, and/or stalking should be aware that under the Clery Act, the University must issue timely warnings for incidents reported to them that pose a serious or continuing threat of bodily harm or danger to members of the campus community. The University will ensure that a Complainant’s name and other identifying information is not disclosed, while still providing enough information to make safety decisions in light of the potential danger.

Upon receipt of notice or a complaint of an alleged violation of this policy, the Title IX Coordinator engages in an initial assessment to determine jurisdiction and which process applies.

Anonymous Reports
Reports may also be made anonymously, without identification of the Complainant. However, anonymous reports typically limit the University’s ability to investigate, respond, and provide remedies, depending on what information is shared. Anonymous reports will be preliminarily investigated to the extent possible, both to assess the underlying allegation(s) and to determine if supportive measures can be provided. The University cannot provide supportive measures to an unidentified Complainant.

False Allegations & Information
Deliberately false and/or malicious accusations under this policy, as opposed to allegations which, even if erroneous, are made in good faith, are a serious offense and will be subject to appropriate disciplinary action. Additionally, witnesses and parties providing knowingly false evidence or deliberately misleading an official conducting an investigation will be subject to discipline under the applicable Code of Conduct.

Amnesty
To encourage reporting and participation in the process, the University maintains a policy of offering parties and witnesses amnesty from minor policy violations related to the incident. Amnesty may also be granted to Respondents and witnesses on a case-by-case basis.

Standard Grievance Process for Allegations of Harassment, Discrimination and/or Retaliation
The procedures described below apply to allegations of harassment, discrimination and/or retaliation on the basis of protected class status and Sexual Harassment as defined by this policy.

If a factual nexus exists between the allegation of harassment, discrimination and/or retaliation and the alleged actions, the Title IX Coordinator initiates one of two responses:
• Informal Resolution - typically used for less serious offenses and only when all parties agree, or when the Respondent is willing to accept responsibility for violating policy. This can also include a remedies-only response.
• Administrative Resolution - investigation of policy violation(s) and recommended finding, subject to a determination by the Title IX Coordinator and the opportunity to appeal to an Appeal Panel.

Resolution proceedings are private. All persons are expected to maintain the privacy of the proceedings in accordance with University policy.

The investigation and subsequent Administrative Resolution determine whether this policy has been violated.
At any point during the initial assessment or investigation, if the Title IX Coordinator determines that reasonable cause does not support the conclusion that policy has been violated, the process will end, and the parties will be notified.

**Informal Resolution**

Informal Resolution is applicable when the parties voluntarily agree to resolve the matter or when the Respondent accepts responsibility for violating this policy or when the Title IX Coordinator can resolve the matter informally by providing remedies to resolve the situation.

It is not necessary to pursue Informal Resolution first in order to pursue Administrative Resolution, and any party participating in Informal Resolution can stop the process at any time and request the Administrative Resolution process.

**Respondent Accepts Responsibility for Alleged Violations**

The Respondent may accept responsibility for all or part of the alleged policy violations at any point during the resolution process. If the Respondent accepts responsibility, the Title IX Coordinator makes a determination that the individual is in violation of this policy and then determines appropriate sanction(s) or responsive actions, which are promptly implemented in order to effectively stop the harassment, discrimination, and/or retaliation; prevent its recurrence; and remedy the effects of the conduct, both on the Complainant and the University community.

If the Respondent accepts responsibility for all of the alleged policy violations and the Title IX Coordinator has determined appropriate sanction(s) or responsive actions, the process is over. The Complainant will be informed of this outcome. If Respondent accepts responsibility for some of the alleged policy violations, the remaining allegations will continue to be investigated and resolved.

**Administrative Resolution**

Administrative Resolution can be pursued for any behavior for which the Respondent has not accepted responsibility that constitutes conduct covered by this policy. Administrative Resolution starts with a thorough, reliable, and impartial investigation. If Administrative Resolution is initiated, the Title IX Coordinator will promptly provide written notification of the investigation to the parties. Notification will include a meaningful summary of the allegations and the policies allegedly violated.

**Investigation**

The Title IX Coordinator assigns an Investigator(s) free from bias and conflicts of interest who will make a good faith effort to complete the investigation as promptly as circumstances permit and will communicate regularly with the parties to update them on the progress and timing of the investigation.

The University aims to complete all investigations within a sixty (60) day period, which can be extended as necessary for appropriate cause by the Title IX Coordinator, with notice to the parties as appropriate.

Investigations involve interviews with all relevant parties and witnesses, obtaining available, relevant evidence, and identifying sources of expert information, as necessary.

All parties have a full and fair opportunity, through the investigation process, to suggest witnesses and questions, to provide evidence, and to fully review and respond to evidence.

Any evidence that is relevant and credible may be considered, including an individual's prior misconduct history as well as evidence indicating a pattern of misconduct. The process should exclude irrelevant or immaterial evidence and may disregard or provide little weight to evidence lacking in credibility or that is improperly prejudicial.

The Investigator(s) will provide an investigation report summarizing the investigation and evidence and provide parties with a copy of the draft investigation report when it is completed, including relevant evidence, analysis, credibility assessments, and recommended finding(s). Each party has a full and fair opportunity to respond to the report in writing within ten (10) days of receipt. The Investigator(s) will incorporate relevant elements of the parties' written responses into the final investigation report, include any additional relevant evidence, and make any necessary revisions.

The Investigator(s) will share the report with the Title IX Coordinator for review and feedback and then provide a final report to the Title IX Coordinator. The report will include recommended finding(s) based on a preponderance of the evidence.

**Determination**

Within a reasonable time of receiving the Investigator's recommendation, the Title IX Coordinator reviews the report and all responses, and then makes the final determination on the basis of the preponderance of the evidence.

The recommendation of the investigation should be strongly considered but is not binding on the Title IX Coordinator. The Title IX Coordinator may invite and consider impact statements from the parties if and when determining appropriate sanction(s), if any. If the Respondent admits to the violation(s), or is found in violation, the Title IX Coordinator, in consultation with other administrators as appropriate, determines sanction(s) and/or responsive actions, which are promptly implemented in order to effectively stop the harassment, discrimination, and/or retaliation; prevent its recurrence; and remedy the effects of the discriminatory conduct, both on the Complainant and the University community.

**Notice of Outcome**

The Title IX Coordinator will timely provide the parties with a written Notice of Outcome to include findings, any sanction(s), and a detailed rationale, delivered simultaneously to the parties. Unless based on an acceptance of violation by the Respondent, the determination may be appealed by either party.

The Notification of Outcome also includes the grounds on which the parties may appeal and the steps the parties may take to request an appeal of the findings.

**Sanctions**

Factors considered when determining a sanction may include, but are not limited to:

- The nature, severity of, and circumstances surrounding the violation(s)
- The Respondent's disciplinary history
- Previous allegations or allegations involving similar conduct
- The need to bring an end to the discrimination, harassment, and/or retaliation
- The need to prevent the future recurrence of discrimination, harassment, and/or retaliation
- The need to remedy the effects of the discrimination, harassment, and/or retaliation on the Complainant and the University community
- The impact on the parties
- Any other information deemed relevant by the Title IX Coordinator
Range of Sanctions - Students
The following sanctions may be imposed upon students singly or in combination:

- **Warning**: A formal statement that the conduct was unacceptable and a warning that further violation of any University policy, procedure, or directive will result in more severe sanctions/responsive actions.
- **Suspension**: Termination of student status for a definite period of time not to exceed two years and/or until specific criteria are met.
- **Expulsion**: Permanent termination of student status and revocation of rights to be on campus for any reason or to attend Recipient-sponsored events. This sanction will be noted permanently as a Conduct Expulsion on the student’s official transcript.
- **Withholding Diploma**: The University may withhold a student’s diploma for a specified period of time and/or deny a student participation in commencement activities.
- **Revocation of Degree**: The University reserves the right to revoke a degree previously awarded for violations committed by a student prior to graduation.
- **Other Actions**: In addition to or in place of the above sanctions, the Title IX Coordinator may assign any other sanctions as deemed appropriate.

Range of Sanctions - Faculty
The following sanctions may be imposed upon faculty singly or in combination:

- **Warning**: A formal statement that the conduct was unacceptable and a warning that further violation of any University policy, procedure or directive will result in more severe sanctions, including the rescission of active faculty status.
- **Implementation of a remediation plan as appropriate**
- **Removal from assigned course(s)**
- **Restrictions on future teaching assignments**
- **Loss of teaching privileges altogether**
- **Other Actions**: In addition to or in place of the above sanctions, the Title IX Coordinator may assign any other sanctions as deemed appropriate.

All Respondents are expected to comply with the assigned sanctions within the timeframe specified by the Title IX Coordinator. Failure to abide by the sanction(s) imposed by the date specified, whether by refusal, neglect, or any other reason, may result in additional sanction(s), including suspension, expulsion, and/or termination from the University and may be noted on a student’s official transcript.

A suspension will only be lifted when compliance is achieved to the satisfaction of the Title IX Coordinator.

Appeals
All requests for appeal must be submitted in writing to the Title IX Coordinator within ten (10) business days of the delivery of the Notice of Outcome. Either party may appeal, but appeals are limited to the following grounds:

- A procedural error or omission occurred that significantly impacted the outcome of the hearing (e.g., substantiated bias, material deviation from established procedures.)
- To consider new evidence, unknown or unavailable during the investigation, that could substantially impact the original finding or sanction. A summary of this new evidence and its potential impact must be included.

- The sanction(s) are disproportionate to the violation and the cumulative record of the Respondent.

When any party requests an appeal, the Title IX Coordinator will share the appeal with the other party or other appropriate persons such as the Investigator(s), who may file a response within three (3) business days.

A three-member Appeals Panel will be designated by the Title IX Coordinator from those who have not been involved in the process previously and include a manager, director, and College Dean or Vice President. The Appeals Panel will review the appeal request(s) and if grounds are not sufficient for an appeal, or the appeal is not timely, the Appeals Panel dismisses the appeal.

If the Appeals Panel finds that at least one of the grounds is met by at least one party, additional principles governing the review of appeals include the following:

- Decisions are to be deferential to the original decision, making changes to the finding only when there is clear error and to the sanction(s) only if there is compelling justification to do so.

- Appeals are not intended to be full re-hearings (de novo) of the allegation(s). In most cases, appeals are confined to a review of the written documentation and pertinent documentation regarding the grounds for appeal.

- An appeal is not an opportunity for the Appeals Panel to substitute their judgment for that of the original Investigator(s) or Title IX Coordinator merely because they disagree with the finding and/or sanction(s).

- Appeals granted based on new evidence should normally be remanded to the Investigator(s) for reconsideration.

- Sanctions imposed as the result of Administrative Resolution are implemented immediately unless the Title IX Coordinator stays their implementation in extraordinary circumstances, pending the outcome of the appeal.

- All parties will be informed in writing within three (3) business days of the outcome of the appeal.

- Once an appeal is decided, the outcome is final; further appeals are not permitted, even if a decision or sanction is changed on remand.

- In rare cases when a procedural error cannot be cured by the original Investigator(s) and/or Title IX Coordinator (as in cases of substantiated bias), the Appeals Panel may recommend a new investigation and/or Administrative Resolution process.

- In cases in which the appeal results in Respondent’s reinstatement to the University or resumption of privileges, all reasonable attempts will be made to restore the Respondent to their prior status, recognizing that some opportunities lost may be irreplaceable in the short term.

Grievance Process for Allegations of Title IX Sexual Harassment
Response to Allegations
Upon receipt of a complaint or notice to the Title IX Coordinator of an allegation of Title IX Sexual Harassment, the Title IX Coordinator will promptly contact the Complainant to:

- discuss the availability of supportive measures and consider the Complainant’s wishes with respect to supportive measures;
- inform the Complainant of the availability of supportive measures with or without filing a Formal Complaint; and
- explain the process of filing a Formal Complaint.
If a supportive and remedial response is preferred, the Title IX Coordinator works with the Complainant to identify their wishes and then seeks to facilitate implementation. The Title IX Formal Grievance Process is not initiated, though the Complainant can elect to initiate it at a later time. If the Title IX Formal Grievance Process is preferred, the Title IX Coordinator determines if the alleged misconduct falls within the scope of Title IX.

- If it does, the Title IX Coordinator will initiate the appropriate process.
- If it does not, the Title IX Coordinator assesses which policies and/or procedures may apply and refers the matter accordingly. Dismissing a complaint under Title IX is just procedural and does not limit the University's authority to address a complaint through another applicable process.

Emergency Removal

Respondents may be removed from the University’s education program or activity on an emergency basis. The University will undertake an individualized safety and risk analysis to determine if there is an immediate threat to the physical health or safety of any student or other individual arising from the allegations that justifies removal. The Respondent will be provided with notice of Emergency Removal and the opportunity to challenge the decision immediately following the removal.

Dismissal (Mandatory and Discretionary)

The University must dismiss a Formal Complaint or any allegations therein if, at any time during the investigation or hearing, it is determined that:

- The conduct alleged in the Formal Complaint would not constitute Title IX Sexual Harassment as defined in this policy, even if proved; and/or
- The conduct did not occur in an educational program or activity controlled by the University and/or the University does not have control over the Respondent; and/or
- The conduct did not occur against a person in the United States; and/or
- At the time of filing a Formal Complaint, a Complainant is not participating in or attempting to participate in the University’s education program or activity.

The University may dismiss a Formal Complaint or any allegations therein if, at any time during the investigation or hearing:

- A Complainant notifies the Title IX Coordinator in writing that the Complainant would like to withdraw the Formal Complaint or any allegations therein; or
- The Respondent is no longer enrolled in or employed by the University; or
- Specific circumstances prevent the University from gathering evidence sufficient to reach a determination as to the Formal Complaint or allegations therein.

Upon any dismissal, the University will promptly send written notice of the dismissal and the rationale for doing so simultaneously to the parties. A dismissal decision is appealable by any party under the procedures for appeal below.

Resolution Processes

The processes described below apply only to allegations of Title IX Sexual Harassment involving students, employees, or faculty members that meet the Title IX Sexual Harassment definition in this policy.

Upon receipt of a complaint or notice to the Title IX Coordinator of an allegation of Title IX Sexual Harassment, the University will initiate at least one of three responses:

- Offer supportive measures because the Complainant does not want to proceed formally; and/or
- Facilitate an Informal Resolution; and/or
- Initiate the Title IX Formal Grievance Process including an investigation and a live hearing.

Resolution proceedings are private. All persons present at any time during the resolution process are expected to maintain the privacy of the proceedings in accordance with University policy. While there is an expectation of privacy around what Investigators share with parties during interviews, the parties have discretion to share their own knowledge and evidence with others if they so choose.

The University will make a good faith effort to complete the resolution process within a sixty (60)-to-ninety (90) business day time period, including appeal, which may be extended as necessary for appropriate cause at the sole discretion of the Title IX Coordinator, who will provide notice and rationale for any extensions or delays to the parties as appropriate, as well as an estimate of how much additional time will be needed to complete the process.

Any individual materially involved in the administration of the resolution process, including the Title IX Coordinator, Investigator(s), and Decision-maker(s) may neither have nor demonstrate a conflict of interest or bias for a party generally, or for a specific Complainant or Respondent.

The parties may, at any time during the resolution process, raise a concern regarding bias or conflict of interest, and the Title IX Coordinator will determine whether the concern is reasonable and portable. If so, another individual will be assigned and the impact of the bias or conflict, if any, will be remedied. If the source of the conflict of interest or bias is the Title IX Coordinator, concerns should be raised with the University’s Ethics & Compliance Department via email at office.complianceuopx@phoenix.edu or the Ethics Helpline at www.uopxhelpline.com.

Right to an Advisor

The parties may each have an Advisor of their choice present with them for all meetings and interviews within the resolution process, if they so choose. The Advisor may be a friend, mentor, family member, attorney, or any other individual a party chooses to advise, support, and/or consult with them throughout the resolution process. The Advisor is not an advocate and does not represent the parties in the process.

The Advisor is entitled to inspect and review evidence prior to the resolution process, including those challenging credibility.

The parties are not permitted to directly cross-examine each other or any witnesses during the hearing. Cross-examination must be conducted by the parties’ Advisors. Restrictions regarding the extent to which an Advisor may participate in the Formal Grievance process are further outlined in the Hearing Procedures section of this policy.
The University cannot guarantee equal advisory rights, meaning that if one party selects an Advisor who is an attorney, but the other party does not or cannot afford an attorney, the University is not obligated to provide an attorney. The Title IX Coordinator will offer to assign a trained Advisor for any party if the party so chooses.

The University is obligated to investigate and adjudicate in a prompt timeframe under Title IX and may refuse to grant extension requests to accommodate the schedule of an Advisor. The determination of what is reasonable shall be made by the Title IX Coordinator.

**Informal Resolution**

Parties are not required to participate in an Informal Resolution process and Informal Resolution may only be used if a Formal Complaint is filed. Any party participating in Informal Resolution can stop the process at any time and begin or resume the Title IX Formal Grievance Process.

Informal Resolution may be used with the voluntary, written consent of both parties:

- When the Respondent accepts responsibility for violating policy and wants to accept a sanction and end the resolution process; or
- When the Title IX Coordinator can resolve the matter by providing supportive measures to remedy the situation.

Prior to implementing Informal Resolution, both parties will be provided with written notice of the reported misconduct and any sanctions or measures that may result from participating in such a process.

If Informal Resolution is applicable, the Title IX Coordinator will determine whether all parties and the University are able to agree on responsibility, sanctions, and/or remedies. If so, the Title IX Coordinator accepts the Respondent’s admission of responsibility and implements agreed-upon sanctions and or remedies, in coordination with other appropriate administrator(s), as necessary. The result is not subject to appeal once all parties indicate their written assent to all agreed upon terms of resolution.

Informal Resolution is not available to resolve allegations that an employee sexually harassed a student.

**Formal Grievance Process**

The Formal Grievance Process includes an objective evaluation of all relevant evidence obtained, including both inculpatory and exculpatory evidence. Credibility determinations may not be based solely on an individual’s status or participation as a Complainant, Respondent, or witness.

Relevant evidence and questions refer to any questions and evidence that tends to make an allegation of sexual harassment more or less likely to be true and do not include the following types of evidence and questions, which are deemed irrelevant at all stages of the Formal Grievance Process:

- Evidence and questions about the complainant’s sexual predisposition or prior sexual behavior unless they are offered to prove that someone other than the respondent committed the conduct alleged by the complainant or they concern specific incidents of the complainant’s prior sexual behavior with respect to the respondent and are offered to prove consent.
- Evidence and questions that constitute, or seek disclosure of, information protected under a legally-recognized privilege.
- Any party’s medical, psychological, and similar records unless the party has given voluntary, written consent.

There is a presumption that the Respondent is not responsible for alleged misconduct unless and until a determination of responsibility is made at the conclusion of the Formal Grievance Process. The standard of proof used to determine responsibility is preponderance of the evidence.

**Notice of Allegations**

The Title IX Coordinator will provide a Notice of Allegations to both parties as soon as practicable after receiving a Formal Complaint.

The Notice of Allegations will include:

- The identity of the involved parties (if known),
- The precise misconduct being alleged,
- The date and location of the alleged incident(s) (if known),
- The specific policies implicated,
- A description of the applicable procedures,
- A statement that the University presumes the Respondent is not responsible for the reported misconduct unless and until the evidence supports a different determination,
- A statement that determinations of responsibility are made at the conclusion of the process and that the parties will be given an opportunity to inspect and review all directly related and/or relevant evidence obtained during the review and comment period,
- A statement that the parties may have an advisor of their choice, who may be, but is not required to be, an attorney.

The institution will provide sufficient time for the parties to review the Notice of Allegations before any initial interview.

**Investigations**

All investigations are thorough, reliable, impartial, prompt, and fair. Investigations involve interviews with relevant parties and witnesses; obtaining available, relevant evidence; and identifying sources of expert information, as necessary.

Through the investigation process, all parties have a full and fair opportunity to suggest witnesses and questions, to provide evidence and expert witnesses, and to review and respond to all evidence on the record.

The Title IX Coordinator appoints an Investigator who will make a good faith effort to complete the investigation as promptly as circumstances permit and will communicate regularly with the parties to update them on the progress and timing of the investigation. Investigator(s) will complete the following steps (not necessarily in this order):

- Provide each interviewed party and witness an opportunity to verify the Investigator’s summary of the relevant evidence/testimony from their respective interviews and meetings.
- Allow each party the opportunity to suggest witnesses and questions they wish the Investigator(s) to ask of the other party and witnesses.
- Interview all available, relevant witnesses and conduct follow-up interviews as necessary.
- Prior to the conclusion of the investigation, provide the parties and their respective Advisors (if so desired by the parties) with a list of witnesses whose information will be used to render a finding.
- Write a comprehensive investigation report fully summarizing the investigation, all witness interviews, and addressing all relevant evidence.
Prior to the conclusion of the investigation, provide the parties and their respective Advisors (if so desired by the parties) a copy of the draft investigation report as well as an opportunity to inspect and review all of the evidence obtained as part of the investigation that is directly related to the reported misconduct, including evidence upon which the Recipient does not intend to rely in reaching a determination, for a ten (10) business day review and comment period so that each party may meaningfully respond to the evidence.

- The Investigator(s) may elect to respond in writing in the investigation report to the parties’ submitted responses and/or to share the responses between the parties for additional responses.

- Incorporate relevant elements of the parties’ written responses into the final investigation report, include any additional relevant evidence, make any necessary revisions, and finalize the report.

- Share the report with the Title IX Coordinator for their review and feedback.

- Incorporate any relevant feedback, and share the final report and a file of any directly related evidence that was not included in the report with all parties and their Advisors at least ten (10) business days prior to a hearing.

Once the final investigation report is shared with the parties, the Title IX Coordinator will refer the matter for a hearing and select an appropriate Decision-maker. The Title IX Coordinator may not serve as a Decision-maker but may serve as an administrative facilitator of the hearing if their previous role in the matter does not create a conflict of interest.

Hearings
No less than ten (10) business days prior to the hearing, the Title IX Coordinator will send notice of the hearing to the parties. The hearing body will consist of a single Decision-maker.

The Title IX Coordinator will provide the names of persons who will be participating in the hearing, all pertinent documentary evidence, and the final investigation report to the parties at least ten (10) business days prior to the hearing.

If any party or witness does not appear at the scheduled hearing, the hearing may be held in their absence, and the party’s or witness’s testimony and any statements given prior to the hearing will not be considered by the Decision-maker. No inference may be drawn about responsibility based solely on a party’s or witness’s absence from the hearing or refusal to answer questions.

The parties may have the assistance of an Advisor of their choosing at the hearing and will be required to have one present for any questions they may desire to ask. The party must notify the Title IX Coordinator if they do not have an Advisor, and the University will appoint one. Each party must have an Advisor present. There are no exceptions.

Any evidence that the Decision-maker determine(s) is relevant and credible may be considered. The Decision-maker does not consider: 1) incidents not directly related to the possible violation, unless they evidence a pattern; 2) the character of the parties; or 3) questions and evidence about the Complainant’s sexual predisposition or prior sexual behavior, unless such questions and evidence about the Complainant’s prior sexual behavior are offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or if the questions and evidence concern specific incidents of the Complainant’s prior sexual behavior with respect to the Respondent and are offered to prove consent.

At the hearing, the Decision-maker has the authority to hear and make determinations on all allegations of discrimination, harassment, and/or retaliation and may also hear and make determinations on any additional alleged policy violations that have occurred in concert with the discrimination, harassment, and/or retaliation, even though those collateral allegations may not specifically fall within this policy.

Hearing Procedures
The Decision-maker will answer all questions of procedure. The Decision-maker will allow witnesses who have relevant information to appear at a portion of the hearing in order to respond to specific questions from the Decision-maker and the parties and will then be excused.

The Investigator(s) will present a summary of the final investigation report and will be subject to questioning by the Decision-maker and the parties (through their Advisors). The Investigator(s) will be present during the entire hearing process, but not during deliberations.

Neither the parties nor the Decision-maker may ask the Investigator(s) their opinions on credibility, recommended findings, or determinations, and the Investigators, Advisors, and parties will refrain from discussion of or questions about these assessments. If such information is introduced, the Decision-maker will direct that it be disregarded.

Once the Investigator(s) present their report and are questioned, the parties and witnesses may provide relevant information in turn, beginning with the Complainant, and then in the order determined by the Decision-maker. The parties/witnesses will submit to questioning by the Decision-maker and then by the parties through their Advisors (“cross-examination”).

All cross-examination questions are subject to a relevance determination by the Decision-maker. The Advisor will pose the proposed question, allow the Decision-maker to consider it, and the Decision-maker will determine whether the question will be permitted, disallowed, or rephrased. Only questions that are permitted may be answered.

If a party’s Advisor refuses to comply with the Recipient’s established rules of decorum for the hearing, the University may require the party to use a different Advisor. If an Advisor refuses to comply with the rules of decorum, the University may provide that party with a different Advisor to conduct cross-examination on behalf of that party.

The Decision-maker will limit or disallow questions on the basis that they are irrelevant, unduly repetitious (and thus irrelevant), or abusive. The Decision-maker has final say on all questions and determinations of relevance, subject to any appeal. The Decision-maker will not entertain argument from the Advisors on relevance once the Chair has ruled on a question.

If a party or witness chooses not to submit to cross-examination at the hearing, either because they do not attend the meeting, or they attend but refuse to participate in questioning, then the Decision-maker may not rely on any prior statement made by that party or witness at the hearing (including those contained in the investigation report) in the ultimate determination of responsibility. The Decision-maker must disregard that statement. Evidence provided that is something other than a statement by the party or witness may be considered.

Hearings (but not deliberations) are recorded for purposes of review in the event of an appeal. The parties may not record the proceedings and no other unauthorized recordings are permitted. The recording of the hearing will not be provided to parties or advisors.
The Decision-maker will deliberate in closed session to determine whether the Respondent is responsible or not responsible for the policy violation(s) in question using the preponderance of the evidence standard. If the Respondent is found responsible, the Decision-maker will review any pertinent conduct history provided and will determine the appropriate sanction(s) in consultation with other appropriate administrators, as required.

The Decision-maker will then prepare a written deliberation statement and deliver it to the Title IX Coordinator, detailing the determination, rationale, the evidence used in support of its determination, the evidence disregarded, credibility assessments, and any sanctions. This report must be submitted to the Title IX Coordinator within three (3) business days of the end of deliberations, unless the Title IX Coordinator grants an extension. If an extension is granted, the Title IX Coordinator will notify the parties.

**Notice of Outcome**

Using the deliberation statement, the Title IX Coordinator will prepare a Notice of Outcome within five (5) business days of receiving the Decision-maker’s deliberation statement, which will be shared with the parties simultaneously. The Notice of Outcome will identify the specific policy reported to have been violated, including the relevant policy section, and will contain a description of the procedural steps taken by the University from the receipt of the misconduct report to the determination, including any and all notifications to the parties, interviews with parties and witnesses, methods used to obtain evidence, and hearings held.

The Notice of Outcome will also specify the finding on each alleged policy violation; the findings of fact that support the determination; conclusions regarding the application of the relevant policy to the facts at issue; a statement of, and rationale for, the result of each allegation to the extent the University is permitted to share such information under state or federal law; any sanctions issued which the University is permitted to share according to state or federal law; and any remedies provided to the Complainant designed to ensure access to the University’s educational or employment program or activity, to the extent the University is permitted to share such information under state or federal law. The Notice of Outcome will also include information on the relevant procedures and bases for any available appeal.

**Sanctions**

Previous disciplinary action of any kind involving the Respondent may be considered in determining an appropriate sanction upon a determination of responsibility. This information is only considered after a finding or admission of responsibility. Factors considered when determining a sanction/responsive action may include, but are not limited to:

- The nature, severity of, and circumstances surrounding the violation(s)
- The Respondent's disciplinary history
- Previous allegations or allegations involving similar conduct
- The need to bring an end to the discrimination, harassment, and/or retaliation
- The need to prevent the future recurrence of discrimination, harassment, and/or retaliation
- The need to remedy the effects of the discrimination, harassment, and/or retaliation on the Complainant and the University community

- The impact on the parties
- Any other information deemed relevant by the Decision-maker

**Range of Sanctions - Students**

The following sanctions may be imposed upon students singly or in combination:

- Warning: A formal statement that the conduct was unacceptable and a warning that further violation of any University policy, procedure, or directive will result in more severe sanctions.
- Suspension: Termination of student status for a definite period of time not to exceed two years and/or until specific criteria are met.
- Expulsion: Permanent termination of student status and revocation of rights to be on campus for any reason or to attend Recipient-sponsored events. This sanction will be noted permanently as a Conduct Expulsion on the student’s official transcript.
- Withholding Diploma: The University may withhold a student’s diploma for a specified period of time and/or deny a student participation in commencement activities.
- Revocation of Degree: The University reserves the right to revoke a degree previously awarded for violations committed by a student prior to graduation.
- Other Actions: In addition to or in place of the above sanctions, the Decision-maker may assign any other sanctions as deemed appropriate.

**Range of Sanctions - Part-Time Faculty**

The following sanctions may be imposed upon part-time faculty singly or in combination:

- Warning: A formal statement that the conduct was unacceptable and a warning that further violation of any University policy, procedure or directive will result in more severe sanctions, including the rescission of active faculty status.
- Implementation of a remediation plan as appropriate
- Removal from assigned course(s)
- Restrictions on future teaching assignments
- Loss of teaching privileges altogether
- Other Actions: In addition to or in place of the above sanctions, the Decision-maker may assign any other sanctions as deemed appropriate.

**Range of Sanctions - Employees (including Full-Time Faculty)**

The following sanctions may be imposed upon employees singly or in combination:

- Warning - Verbal or Written
- Performance Improvement/Management Process
- Required Training or Education
- Loss of Oversight or Supervisory Responsibility
- Demotion
- Suspension with pay
- Suspension without pay
- Termination
- Other Actions: In addition to or in place of the above sanctions, the Decision-maker may assign any other sanctions as deemed appropriate.
All Respondents are expected to comply with the assigned sanctions within the timeframe specified by the final Decision-maker. Failure to abide by the sanction(s) imposed by the date specified, whether by refusal, neglect, or any other reason, may result in additional sanction(s), including suspension, expulsion, and/or termination from the University and may be noted on a student’s official transcript.

A suspension will only be lifted when compliance is achieved to the satisfaction of the Title IX Coordinator.

**Appeals**

Either party may file a Request for Appeal, but it must be submitted in writing to the Title IX Coordinator within ten (10) days of the delivery of the Notice of Outcome.

A three-member Appeal Panel comprised of a manager, director, and College Dean or Vice President will be designated by the Title IX Coordinator, one of whom will serve as the Appeal Chair. No appeal panelists will have been involved in the process previously. The Request for Appeal will be forwarded to the Appeal Chair for consideration to determine if the request meets the grounds for appeal. This review is not a review of the merits of the appeal, but solely a determination as to whether the request meets the grounds and is timely filed.

Appeals are limited to the following grounds:

- Procedural irregularity that affected the outcome of the matter; and
- New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
- The Title IX Coordinator, Investigator(s), or Decision-maker(s) had a conflict of interest or bias for or against Complainants or Respondent(s) generally or the specific Complainant or Respondent that affected the outcome of the matter.

If any of the grounds in the Request for Appeal do not meet the grounds, the request will be denied by the Chair and the parties and their Advisors will be notified in writing of the denial and the rationale.

If any of the grounds in the Request for Appeal meet the grounds, then the Appeal Chair will notify the parties and their Advisors, the Title IX Coordinator, and, when appropriate, the Investigators and/or the original Decision-maker(s) will be provided a copy of the request with the approved grounds and then be given ten (10) business days to submit a response to the portion of the appeal that was approved and involves them.

The Chair will collect any additional information needed and all documentation regarding the approved grounds. The Appeal Panel will render a decision in no more than three (3) business days, barring exigent circumstances. All decisions are by majority vote and apply the preponderance of the evidence standard.

A Notice of Appeal Outcome will be sent to all parties simultaneously including the decision on each approved ground and rationale for each decision. The Notice of Appeal Outcome will specify the finding on each ground for appeal, any specific instructions for remand or reconsideration, any sanctions that may result which the University is permitted to share according to state or federal law, and the rationale supporting the essential findings to the extent the University is permitted to share under state or federal law.

**Sanctions Status During the Appeal**

Any sanctions imposed as a result of the hearing are stayed during the appeal process. The University may still place holds on official transcripts, diplomas, graduations, and course registration pending the outcome of an appeal if the original sanctions included suspension or expulsion.

**Appeal Considerations**

- Decisions on appeal are to be deferential to the original decision, making changes to the finding only when there is clear error and to the sanction(s)/responsive action(s) only if there is a compelling justification to do so.
- Appeals are not intended to provide for a full re-hearing (de novo) of the allegation(s). In most cases, appeals are confined to a review of the written documentation or record of the original hearing and pertinent documentation regarding the specific grounds for appeal.
- An appeal is not an opportunity for the Appeal Panel to substitute their judgment for that of the original Decision-maker merely because they disagree with the finding and/or sanction(s).
- The Appeal Panel may consult with the Title IX Coordinator on questions of procedure or rationale, for clarification, if needed.
- Appeals granted based on new evidence should normally be remanded to the original Investigator(s) and/or Decision-maker for reconsideration. Other appeals may be remanded at the discretion of the Title IX Coordinator or, in limited circumstances, decided on appeal.
- Once an appeal is decided, the outcome is final: further appeals are not permitted, even if a decision or sanction is changed on remand (except in the case of a new hearing).
- In rare cases where a procedural error cannot be cured by the original Decision-maker (as in cases of bias), the appeal may order a new hearing with a new Decision-maker.
- The results of a remand to a Decision-maker cannot be appealed. In cases in which the appeal results in reinstatement to the University or resumption of privileges, all reasonable attempts will be made to restore the Respondent to their prior status, recognizing that some opportunities lost may be irreparable in the short term.

**Extended Time and In Progress Extension (IX)**

In accordance with Section 504 of the Rehabilitation Act (Section 504) of 1973 and the Americans with Disabilities Act (ADA) of 1990 and as amended in 2008, the University of Phoenix (UOPX) offers qualified students with disabilities reasonable accommodations upon request. These accommodations are determined by the Accessibility and Disability Services Office (ADS) following a consultative, deliberative process between the student and their assigned disability services advisor (DSA).

Students with approved extended time for assignments are provided with reasonable additional time to complete their work, both for timed and untimed assignments. Students are encouraged to submit their work throughout the course to take advantage of formative feedback and assessment from the faculty to improve performance on future course assignments.

- The time allotted will be specified on the student’s accommodation agreement, and in the notification that will be sent to faculty at the start of the course or upon approval of a student’s accommodation, if accommodations are requested after the course has begun.
• Extended time for timed assignments will amount to either time and a half (1.5x) or double (2x) the time allowed for students to complete the assessment or assignment.
• Students with an approved ADA accommodation for extended time for individual assignments will be allotted four additional days per week to submit their work without penalty, including the final week of the course. The granting of extended time accommodations allows students to submit all work for the course up to 11:59 pm Arizona time on the fourth day after the end of the course.
• Extended time for assignments does not apply to discussion and learning team assignments. These assignments are collaborative in nature and are typically time dependent. Students who have concerns about the impact of their disability on discussion and learning team assignments should discuss these concerns with their DSA.

A student who needs additional time to complete course work may request an In Progress Extension (IX). An IX must be requested by 11:59 pm Arizona time through the fourth day after the course has ended. The student will request the IX from their assigned DSA and will receive five additional weeks to complete the course. The DSA will communicate the new deadline date to both the student and the faculty.

If a student requires additional time beyond the approved IX, the student may submit a request to the Disability Services Manager (DSM) with documentation of the disability-related need for additional time. The DSM will communicate a decision regarding the request to the student and the assigned DSA, who will inform the faculty. Students who disagree with the determination made by the DSM can file a grievance in accordance with the grievance policy.

Accessibility and Disability Services Office Contact Information

The Accessibility and Disability Services Office provides students with the opportunity to contact a Disability Services Advisor, via email, 24 hours a day. For more information, please visit: http://www.phoenix.edu/students/disability-services.html. The department’s mailing address and phone number is:

4035 S. Riverpoint Parkway
Phoenix, AZ 85040
Phone: 602.557.1157
Fax: 602.333.0737

Acceptable Computer Use for Faculty and Students

University computing and communication resources are for approved business and educational purposes consistent with University policies and procedures.
• Computing and communication resources include all components of the University’s computer information systems, including, but not limited to, facilities, hardware, software, network infrastructure, and related devices, including those used for voice and video communication.
• The University’s computing and communication resources are the property of the University. Use of University computing and communication resources is a privilege and is provided as a service to the University’s users. Among other purposes, these resources are provided for the delivery of curriculum and related materials; for conducting online classes; for conducting educational research; for communication between and among students, faculty, and staff; and for accessing and obtaining the University’s services.

By using University computing and communication resources, all users, including students and faculty, assume personal responsibility for appropriate use, and agree to comply with this policy and all other applicable University policies, including, but not limited to, the Student and Faculty Codes of Conduct, and further agree to comply with all applicable local, state, and federal laws and regulations. Any user using the University’s computing and communication resources in violation of these policy requirements, or using these resources without authorization, or in excess of their authorization, will be subject to appropriate review processes and sanctions in accordance with the Student and Faculty Codes of Conduct and other applicable policies and laws. In addition, all activity and information, including personal activity and information on University systems, may be monitored and recorded. Any individual accessing University computing and communication resources consents to such monitoring and is advised that if such monitoring reveals unauthorized or criminal activity, members of the University of Phoenix Information Security (or other personnel designated by information security) will provide the evidence from monitoring to the appropriate University officials for investigation and possible release to law enforcement authorities.

General Requirements of Users

Users of University computing and communication resources must:
• Comply with this policy and all applicable local, state, and federal laws and regulations.
• Not intentionally compromise the confidentiality, integrity, or availability of University computing and communication resources.
• Not attempt to circumvent the University’s physical, technical, or administrative security measures.
• Abide by the provisions of the Student Code of Conduct (for students) or the provisions of the Faculty Code of Conduct (for faculty members).
• Be truthful and accurate in personal identification.
• Respect the rights and privacy of others.
• Maintain the security of their user resource accounts.
• Comply with the terms of use of any University or third-party service provider website(s).
Intellectual Property
Users must adhere to applicable intellectual property law, and the terms and conditions of any and all software licensing agreements and/or copyright laws as specified by the vendor or licensor.
- Unauthorized use of University trademarks or logos and other protected trademarks and logos is prohibited.
- Infringing upon the copyright, trademark, patent, or other intellectual property rights of others in computer programs or electronic information (including plagiarism and unauthorized use or reproduction) is prohibited.
- The unauthorized storing, copying, or use of audio files, images, graphics, computer software, data sets, bibliographic records, and other protected property is prohibited except as permitted by law.

Privacy & Security
The University strives to maintain the confidentiality, integrity, and availability of its systems, networks, and data. The University implements policies to ensure that access to sensitive data is restricted to those individuals who have authorized permission. The following sections describe how information security personnel may monitor computing and communication resources for violations of the Acceptable Use policy.

Monitoring
System and network activities of users are routinely logged and monitored. These activities include:
- Use of accessed accounts
- Time and duration of network activity
- Web pages accessed and duration of access
- Network software accessed
- Volume of data storage and transfers

In the case of a suspected violation of this policy, University officials may authorize information security personnel to conduct a more detailed investigation to gather evidence on the suspected violation.

Restriction of Access to Computing and Communication Resources
Access to University computing and communication resources is a privilege that may be wholly or partially restricted without prior notice and without consent of users:
- If required by applicable local, state, or federal law, or University policy.
- If a reasonable suspicion exists that there has been or may be a violation of local, state or federal law or regulation, or University policy.
- If required to protect the confidentiality, integrity, or availability of computing and communication resources.

Conditions for Permitting Inspection, Monitoring, or Disclosure
The University may permit the inspection, monitoring, or disclosure of e-mail, computer files, and network transmissions when:
- Required or permitted by local, state or federal law, including public records law, or by subpoena or court order.
- The University or its designated agent reasonably believes that a violation of local, state or federal law or University policy has occurred.
- Necessary to protect the confidentiality, integrity, or availability of computing and communication resources.

Confidentiality
Confidentiality of e-mail and other network transmissions cannot be completely assured. All users should exercise caution when sending personal, financial, confidential, or sensitive information by e-mail or across the Internet.

Responsibility to Inform User of Unauthorized Access or Disclosure
If the University believes unauthorized access to or disclosure of private user information has occurred, the University will make reasonable efforts to inform the affected user, except when notification is impractical or when notification would be detrimental to an investigation of a violation of law or policy.

Reporting Violations and Enforcement
Any actual or suspected violation of this policy should immediately be brought to the attention of the system administrator of the equipment or facility most directly involved. Alternatively, a report may be made directly to Resolution Services or University of Phoenix Information Security.

Resolution Services - Conduct Resolutions
4035 S. Riverpoint Parkway
Phoenix, AZ 85040
602-557-5566
Email: ConductResolutions@phoenix.edu

University of Phoenix Information Security
4035 South Riverpoint Parkway
Phoenix, AZ 85040
FAX: (602) 557-6606
e-mail: infosecurity@phoenix.edu

Response to a Reported Violation
Upon receiving notice of a violation, the University may temporarily suspend a user’s privileges or move or delete the allegedly offensive material pending further investigation. A person accused of a violation will be notified of the charge and have an opportunity to respond before a determination is made whether a violation occurred and what sanction(s), if any, are warranted. Cases will be referred to the University disciplinary process appropriate to the violator’s status (i.e., faculty member or student) and/or to appropriate law enforcement authorities.

In addition to sanctions available under University policies, the University may impose a temporary or permanent reduction or elimination of access privileges to computing and communication resources.

The University may temporarily suspend any account, whether the account user is suspected of any violation, if it is believed to be necessary to preserve the integrity of University computing and communication resources or the University itself. The University will provide appropriate notice to the account user. Servers and computers that threaten the security of University systems will be removed from the network and allowed to reconnect only with the approval of information security personnel.

In the event of any inconsistency or conflict between this policy and any other University policy or terms or conditions faculty/students may be subject to, the University reserves the right to resolve such conflicts in its sole discretion.
Violation Examples

The list below contains examples of actions considered to be a violation of this policy. It is not intended to be all-inclusive, nor does it represent all possible violations or the applicability of any other law or policy to those facts.

- Unlawful communications, including threats of violence, obscenity, pornography, and harassing communications.
- Unauthorized, anonymous communication is prohibited. All users are required to cooperate with appropriate University personnel or other authorized personnel when investigating the source of anonymous messages.
- Misrepresenting or forging the identity of the sender or the source of electronic communication.
- Altering the content of a message originating from another person or computer with intent to deceive.
- Use of University computing and communication resources for private business or commercial activities.
- Fundraising or advertising on behalf of non-University organizations.
- The unauthorized selling of University computing and communication resources.
- Unauthorized attempts to acquire and use the user ID or passwords of others.
- Interference with or disruption of the computer or network accounts, services, or equipment of others.
- The intentional propagation of computer "worms" and "viruses," the sending of electronic chain mail, denial of service attacks, and inappropriate "broadcasting" of messages to large numbers of individuals or hosts.
- Failure to comply with requests from appropriate University officials to discontinue activities that threaten the operation or integrity of computers, systems, or networks, or otherwise violate this policy.
- Revealing passwords or otherwise permitting the use by others (by intent or negligence) of personal accounts for computer and network access without authorization.
- Altering or attempting to alter files or systems without authorization.
- Unauthorized scanning of networks for security vulnerabilities.
- Attempting to alter any University computing or networking components (including, but not limited to, bridges, routers, and hubs) without approval or beyond one's level of authorization.
- Negligent or intentional conduct leading to disruption or damage of University data, systems, or networks.
- Downloading Copyrighted material on University or personal resources connected to the University networks.

Pregnant and Parenting Students

Any member of the University of Phoenix (UOPX) community may report a violation of this policy to any supervisor, manager, or to the Title IX Coordinator. The Title IX Coordinator is responsible for overseeing complaints of discrimination involving pregnant and parenting students.

The Title IX Coordinator for University of Phoenix is:
Bridget Beville, JD
TIXC@phoenix.edu
602.557.1823

Overview:
Under the U.S. Department of Education’s (ED) Title IX regulations, an institution that receives federal funding “shall not discriminate against any student, or exclude any student from its education program or activity, including any class or extracurricular activity, on the basis of such student’s pregnancy, childbirth, false pregnancy, termination of pregnancy, or recovery therefrom.” According to the ED, appropriate treatment of a pregnant student includes granting the student leave “for so long a period of time as is deemed medically necessary by the student’s physician,” and then effectively reinstating the student to the same status as was held when the leave began.

This generally means that pregnant students will be given an opportunity to make up missed work wherever possible. Extended deadlines, make-up assignments (e.g., papers, quizzes, tests, participation, team assignments, and presentations), and incomplete grades that can be completed at a later date should all be employed.

Definitions:
Title IX Accommodation: Changes in the academic environment or typical operations that enable pregnant students or students with pregnancy-related conditions to continue to pursue their studies and enjoy the equal benefits of the University.

Title IX Extension: An up to five-week period after class ends that students can use to submit late work without penalty.

Pregnancy and Pregnancy-Related Conditions: Include (but are not limited to) pregnancy, childbirth, miscarriage, false pregnancy, termination of pregnancy, conditions arising in connection with pregnancy, and recovery from these conditions.

Pregnant Student/Birth Parent: refers to the student who is or was pregnant. This policy and its pregnancy-related protections apply to all pregnant persons, regardless of gender identity or expression.

Supporting Documentation: Documentation from the student’s physician or other qualified medical professional that includes the student’s name, evidence of the pregnancy or pregnancy-related condition and the dates on which they occurred. Examples include, but are not limited to, hospital discharge paperwork, a signed letter from the doctor, medical appointment paperwork, ultrasound picture, temporary birth certificate.
Reasonable Title IX Accommodations for Students Affected by Pregnancy, Childbirth, or Related Conditions

- Faculty and staff will not require students to limit their studies as the result of pregnancy or pregnancy-related conditions.
- Students with pregnancy-related conditions are entitled to reasonable Title IX accommodations so that they will not be disadvantaged in their course of study and may seek assistance from the Title IX Office, up to 6 weeks following childbirth or pregnancy related event.
- Reasonable Title IX accommodations include, but are not limited to:
  - Extending deadlines and allowing the student to make up tests or assignments (including participation and team assignments) missed for pregnancy-related absences;
  - Excusing medically necessary absences (which must be granted irrespective of classroom attendance requirements.) Medically necessary absences require supporting documentation.
  - Students immediately receive in-class accommodations upon disclosure of a pregnancy or pregnancy-related condition. Any additional time granted after the course ends must be approved.

Title IX and ADA Accommodations

Occasionally students are entitled to both Title IX accommodations and reasonable accommodations on the basis of disability due to pregnancy complications and a co-existing permanent diagnosis. In these instances, the student will receive the benefit of both policies as appropriate. The Title IX and Disability Services Offices work together to ensure students are accommodated and faculty receive necessary guidance and support.

Faculty Responsibilities Upon Disclosure of a Pregnancy or Pregnancy-Related Conditions

Upon disclosure of a pregnancy or pregnancy-related condition, faculty must refer the student to the Title IX Office and:

- Inform the student they are entitled to in-class accommodations, (Parenting accommodations are handled differently, see the section, "Modified Academic Responsibilities for Parenting Students")
- It is not necessary to collect any supporting documentation from the student or wait for approval while the course is in progress. Reasonable Title IX accommodations apply upon disclosure and for the entire course.
- In-class accommodations are retroactive. If the student discloses the last week of class, they can make up late work for the entire class. If late penalties have already been deducted for any assignment, those points must be returned.
- Students may not re-submit work already completed for a better grade. They may only receive extensions on due dates for assignments that have not been submitted.
- Allow the student to submit late work without penalty for all assignments.
- Allow the student the opportunity to make up participation points and learning team assignments. Alternate assignments with equal point values are acceptable.
- Work with the student directly to develop a modified schedule for submitting work.

Students are allowed to submit outstanding course work up to four (4) days after the course end date. If all outstanding work is received by the four-day deadline, faculty must grade the work and post a final grade for the course.

In-class accommodations are separate from an in-progress extension (IX). Not all students request or are approved for an IX grade.

In-Progress Extension (IX)

If a student needs additional time beyond the four-day extension to submit work, they may request an in-progress extension (IX) under Title IX. In-progress extensions are a specific type of incomplete grade and students and faculty are required to follow this policy in order to process an IX grade under Title IX.

Students must request an In-Progress Extension (IX) and provide supporting documentation to the Title IX Office within four days of the end of the course. IX extensions requested after the four days will not be approved unless special circumstances exist as determined by the Title IX Office.

Students may receive an additional five weeks to complete coursework if an IX grade is approved. If the IX is not approved, the student's current grade stands.

The Title IX Office determines whether supporting documentation is sufficient to approve an IX. Once supporting documentation is reviewed and deemed satisfactory, the Title IX Office will work with classroom operations to process the IX and notify the faculty to post the IX grade with the 5-week extension deadline date. Students are required to complete all work by that date and notify faculty when coursework has been submitted.

Modified Academic Responsibilities for Parenting Students

- Students with child caretaking/parenting responsibilities because of the birth of a child may request a Title IX accommodation period during the first six weeks from the time the child entered the home. A request to extend the accommodation period may be granted when additional time is required by medical necessity or extraordinary caretaking/parenting responsibilities.
  - Students whose spouse or partner gives birth may receive accommodations for up to six weeks after the birth of the child. Proof of birth is required for accommodations to be approved.
  - Faculty must refer students to the Title IX Office and wait for approval before granting accommodations.
- During the modification period, the student's academic requirements will be adjusted, and deadlines postponed as appropriate, in collaboration among the Title IX Office, Student Services, and course faculty.
- Once accommodations have been approved, students should work directly with course faculty to submit late work and must communicate to faculty when that work has been completed and ready to be graded.
- If for any reason students are not able to work with their course faculty to obtain appropriate modifications, students should notify the Title IX Office as soon as possible so they can help facilitate needed modifications.
Retaliation and Harassment

- University faculty and staff are prohibited from interfering with students’ rights to take leave, seek Title IX accommodation, or otherwise exercise their rights under this policy.
- University faculty and staff are prohibited from retaliating against students for exercising their rights articulated by this policy, including imposing or threatening to impose negative educational outcomes because students request leave or modification, file a complaint, or otherwise exercise their rights under this policy.
- Faculty who do not follow this policy and provide reasonable Title IX accommodation once a student discloses pregnancy or a pregnancy-related condition may be in violation of the Faculty Code of Conduct and disciplined accordingly.

Financial Aid Implications

Students receiving an accommodation pursuant to this policy must still maintain Satisfactory Academic Progress (SAP) and are responsible for repayment of financial aid funds received. Students should contact their Finance Advisor with any questions related to financial aid funds.
STUDENT CODE OF CONDUCT

A. Purpose
1. Students are accountable for their actions and are expected to conduct themselves ethically, honestly, and with integrity as responsible members of University of Phoenix (UOPX) community. This requires the demonstration of mutual respect and civility in all University-related activities and interactions. The Student Code of Conduct applies to all interactions whether conducted in-person, telephonically, via text, chat, email, social media, or through any other electronic platform, including any University learning management system.

2. As an internal administrative process, students are entitled to a fair and impartial review of any reported issue(s). Finding a student in violation of University policy and subject to sanctions must be supported by a preponderance of the evidence, meaning it is more likely than not that a violation occurred. When a student is unable to conform their behavior to these expectations as demonstrated by egregious or repeated violations, the student conduct process may determine that the student should no longer share in the privileges of participating in the educational community.

3. Assigned sanctions will take into consideration the context and seriousness of the violation. Sanctions are intended to provide students the opportunity to reflect on their choices, develop ethical decision-making, and bring their behavior into conformance with community expectations. Sanctions may include, but are not limited to, an assigned workshop or tutorial, a failing course grade, suspension, expulsion, or rescission of a conferred degree.

B. Jurisdiction
Generally, University jurisdiction shall be limited to conduct that occurs on University property and at University-related events, online, or that adversely affects the University community or the pursuit of its objectives. The Director of Student Conduct, in consultation with the Vice President of Resolution Services, may also apply this policy to off-campus conduct and to actions online when the off-campus conduct, or online action affects a substantial University interest. The University has continuing jurisdiction over students who withdraw from the University while conduct proceedings regarding that student are still active or pending.

C. Definitions

Student: Any person currently admitted or registered or who participates in a University function, such as orientation, in anticipation of enrollment, or those individuals who were students at the time of an alleged violation as well as individuals on University premises or using any University system for any purpose related to admission or enrollment. Persons who are not officially enrolled but who have a continuing relationship as a student with the University are considered “students.”

Intellectual Property: Property (such as an idea, invention, or process) that derives from the work of the mind or intellect.

Course Materials: Syllabus, discussion questions, worksheets, lectures, or any other written or recorded material produced by the University or faculty.

Preponderance of Evidence: The standard or proof used to determine whether a student is responsible for a violation of the Code of Conduct.

Suspension: Suspension is separation of the student from the University for a specified period, after which the student is eligible to return. During suspension students are not allowed to attend any University class, University facility, or University event. During the period of suspension, there is a hold on the student’s University records which may prevent the student from obtaining transcripts, verifications, or a degree from the University.

Expulsion: Expulsion is permanent separation from the University and the termination of the student’s status as a UOPX Student, and exclusion from all premises, privileges, and activities without the possibility of readmission.

Rescission of a Conferred Degree: Canceling and revoking a degree previously awarded by the University.

University Community: All individuals who have a relationship with or to the University (or had at the time of the incident), including but not limited to students, employees, faculty, contractors, consultants, suppliers, or other entities engaged by the University to provide services or goods when on University property or while acting in a capacity defined by their relationship to the University.

D. Prohibited Conduct
1. Academic Misconduct. The University requires that students adhere to the ethical standards necessary to maintain individual and institutional academic integrity. As members of the University’s academic community, students acknowledge and accept responsibility to ensure submission of academic work does not constitute academic misconduct as defined below.

Expectations of Students: It is the responsibility of each student to refrain from infractions of academic integrity, from conduct that may lead to suspicion of such infractions, and from conduct that aids others in such infractions.

a. Plagiarism: The intentional or unintentional use of another’s work, in whole or in part, without acknowledging the source and presenting that material as one’s own academic work. This includes, but is not limited to:

i. Reproduction and submission of another person’s work, whether published or unpublished. This also includes using materials from third parties that sell or provide free of charge academic papers or assignments, regardless of how the third party describes their mission, purpose, or materials.

ii. Using another’s ideas, written words, or intellectual property without properly acknowledging the source:

   1. Quoting a source word-for-word without providing quotation marks and citations.

   2. Submitting work that is substantially identical to another source in content or organization without appropriately citing the source.

   3. Using other intellectual property in a work without appropriate citations, permissions, or rights (when applicable). Intellectual property includes but is not limited to images, presentations, videos, software programs, computer code, charts, figures, illustrations, and artistic or musical composition.

University of Phoenix, 2022-2023
b. Cheating: Any attempt by a student to gain an unfair academic advantage by means other than their own knowledge. This includes, but is not limited to:
   i. Assisting another student to plagiarize, copy, or observe one's own work. This includes submission of work to third parties that sell or provide free of charge academic papers or assignments, regardless of how the third party describes their mission, purpose, or materials.
   ii. Using the textbook, manuals, electronic devices, or other materials in a manner not authorized by faculty or the University.
   iii. Allowing another person, whether free of charge or for hire, to complete work on one's behalf, including any classroom post, assignment, quiz, test, exam, or similar evaluation, or doing the same in place of another person.
   iv. Providing or requesting assistance from another person in a manner not authorized in writing by faculty.

c. Fabrication or Falsification: Falsification or invention of any information, citation, data, or document. This includes the invention or alteration of data or results or relying on another source's results in any assignment without proper acknowledgment of that source. Fabrication includes citing sources that the student has not actually used or consulted.

d. Self-plagiarism, Double-Dipping, or Dovetailing: Submitting one's own academic work that is identical or substantially similar to one's own work previously submitted, unless specifically authorized by the course faculty or course curriculum.

e. Sale or Distribution of Course Materials: Delivering, uploading, or distributing copyrighted course materials without the express permission of the copyright holder.

2. Behavioral Misconduct: The University requires that students adhere to the behavioral standards necessary to maintain a positive and productive learning environment. The following examples of prohibited misconduct are not exclusive or all-inclusive but are intended to provide examples of the types of behavior that may result in disciplinary action under the Student Code of Conduct.

   a. Disruption or obstruction of advising, facilitation, instruction, research, administration, disciplinary proceedings, or other University activities.

   b. Unprofessional conduct including threatening, bullying, or verbal abuse of any member of the University community by any means (e.g., conduct, speech, written notes, learning management system [i.e., Blackboard] electronic mail, messaging, text, chat, etc.). This includes, but is not limited to, the use of threats, profanity, and demeaning or intimidating comments.

   c. Inflicting harm upon or reckless disregard for the health or safety of any person or taking any action for the purpose of inflicting harm upon any person.

   d. Engaging in discrimination or harassment as defined by the University's Equal Opportunity, Harassment, and Non-Discrimination Policy.

   e. Retaliation, including but not limited to intimidation, threat, coercion, or any other type of discrimination or harassment because of an individual's complaint, report, or participation in a protected activity.

   f. Misuse of Access: Providing another person access to password or privacy protected University information, including but not limited to:
      i. Sharing or providing logins or passwords allowing another access to student systems and information.
      ii. Sharing or providing verification information allowing another to pose as the student.
      iii. Allowing or having unauthorized possession, duplication, sharing or use of means of access to any University building or property.

   g. Failure to comply with reasonable lawful requests or directives of University officials or agents, including security officers, acting in the good faith performance of their duties or interference with faculty or staff acting in the performance of their official duties.

   h. Carrying of weapons on University property or at University-sanctioned events, including firearms and any other item designed or used for inflicting bodily harm or physical damage. (This policy is not applicable to students who are law enforcement officers required, by law, to carry firearms at all times).

   i. Using, dealing in, or being under the influence of alcohol, illegal drugs, or other substances prohibited by local, state, or federal law (including cannabis) or use or possession of drug paraphernalia while occupying University property, at University-sanctioned events, or when meeting with campus personnel.

   j. Use of any tobacco or nicotine product, including electronic cigarettes or vaporizers while occupying University property, at University-sanctioned events, or when meeting with University staff or faculty.

   k. Acts of Dishonesty including but not limited to,
      i. Providing false or misleading information to any University official, faculty member, or office.
      ii. Forgery, alteration, or misuse of any University document, record, or instrument of identification.
      iii. Aiding, abetting, or procuring another person to violate a University policy.

   l. Identity Theft.
      i. Possessing or using another person's name, address, Social Security Number (SSN), bank or credit card account number, or other identifying information without that person's knowledge and consent.
      ii. Filing a false claim of identity theft with the University.

   m. Theft, unauthorized use or unauthorized possession of University property or services or property belonging to any member of the University community.

   n. Failure to use the University's computing and communication resources for approved educational purposes consistent with University policies and procedures.

   o. Any action that causes damage or which would tend to cause damage to University property or property of a member of the University community.

   p. Improper on Camera Behavior
      i. Failure to appear on camera dressed as if present in a physical classroom or office setting.
      ii. Failure to maintain an area free from disruption and distractions visible during camera communication.
      iii. Failure to behave, whether intentionally or unintentionally, in a professional manner.
E. Procedure for Processing Alleged Violations of the Student Code of Conduct

1. Investigation: Alleged violations will be investigated in a prompt, thorough, and impartial manner. Conduct Resolutions acts as the fact-finder and will explore information relevant to the allegation. Investigations involve obtaining available, relevant evidence, which may include, but is not limited to, pertinent documents and statements from witnesses.
   a. During an investigation a student may be removed from class, campus-sanctioned events, or other University functions.
   b. A hold may be placed on the student’s records at any point in the disciplinary process pending the resolution of all outstanding matters or to assure compliance with sanctions. This includes but is not limited to placing holds on future scheduling, degree conferral, receiving transcripts, or program updates.
   c. In exceptional circumstances, where the continued presence or participation of a student would present a serious threat to any other person or the University, it may be determined that an immediate suspension is warranted. A student who is immediately suspended will be withdrawn from any current course and may not attend any University class or event pending final resolution of the matter.

2. Notification: Following an investigation, if it is more likely than not that a violation has occurred, the student will be notified in writing of one of the following:
   a. Warning. A warning letter is notice to the student that a violation of the University Student Code of Conduct has occurred, and that continued or repeated violations of specified conduct may be cause for further disciplinary action. This letter is not appealable and no response from the student is requested or required.
   b. Charge. A charge letter is notice to the student that their alleged actions are in violation of the University’s Student Code of Conduct and subject to the disciplinary process. These letters request a student response and are appealable.

3. Student Response: The student has ten (10) calendar days from the date of the Charge Letter to submit a written response to the University. The Response should include all relevant information and materials the student wishes the University to consider. The Response is also the student’s opportunity to provide exculpatory evidence, and explain any extenuating circumstances relevant to the issue.
   a. If the student does not provide a written Response within ten (10) calendar days, the case will proceed without the student’s input.

4. Decision
   a. Conduct Resolutions will apply a preponderance of the evidence standard to determine whether a violation occurred and determine what sanction(s), if any, are warranted.
   b. The decision and sanction(s) will be communicated in writing to the student.
   c. In accordance with the requirements under the Higher Education Opportunity Act (HEOA), upon written request, the University will disclose to an alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the institution against the student(s) who is/are the alleged perpetrator(s) of the crime or offense. If the alleged victim is deceased because of the alleged crime or offense, UOPX will provide the results of the disciplinary hearing conducted by the victim’s next of kin, if requested. Compliance of this disclosure does not constitute a violation of the Family Educational Rights and Privacy Act (FERPA).

5. Sanctions: If a violation is found, sanctions will be appropriate to the violation, taking into consideration the context and seriousness of the violation. Sanctions may include, but are not limited to, an assigned workshop or tutorial, a failing course grade, suspension, expulsion, or rescission of a conferred degree.

   a. Students who are suspended or expelled from the University remain responsible for all tuition, fees, and charges associated with their attendance. Students sanctioned with expulsion have the right to appeal.

6. Appeals
   a. Appeals must be requested in writing within ten (10) calendar days from the date of the decision letter. Appeals will only be accepted for review on one or more of the following grounds:
      i. The student can provide new evidence, which was unavailable at the time of the initial response, that could substantially impact the original finding.
      ii. University procedures were not followed.
      iii. The student was sanctioned with expulsion.
   b. If a student meets one or more of the grounds for appeal, a Student Discipline Review Committee (SDRC) will be convened to hear the appeal. The SDRC is facilitated by an impartial administrator and is comprised of three (3) University representatives who will make a determination whether the original decision will be upheld, amended or reversed. The SDRC’s decision will be communicated directly to the student.
   c. The SDRC’s decision on the matter is final and no further appeals will be allowed.
Candidates in programs leading to certification or licensure are subject to greater scrutiny because of their anticipated entry into a licensed profession. Additionally, candidates who will be interacting with members of the community, i.e., students, patients, families, clients, participate in external activities as part of their academic program and are expected to represent the University as professionals and adhere to the ethics and standards of their profession, irrespective of where these activities occur.

In addition to being subject to the Student Code of Conduct, candidates are also expected to follow the Supplemental and Professional Standards for their respective program (“Standards”), as both address a candidate’s affective attributes and disposition to be in the selected chosen profession. Adherence to these standards includes off-site activities and locations when the candidate’s behavior affects the reputation of the University and/or the integrity of the program.

A candidate’s ability to satisfactorily meet the Standards is a matter of ongoing academic judgment made by the respective College. Additionally, University of Phoenix faculty members have a legal, ethical, and academic responsibility to ensure candidates refrain from unsafe or unprofessional practices.

Definitions

A. Supplemental Standards

Academic Judgment: The College’s assessment of whether the candidate’s behavior demonstrates the attributes and disposition to be in the selected chosen profession.

Candidate: Any student who enrolls in a licensure or certification program or a program that has anticipated interactions with members of the community.

Off-Site Activities: Field Placement, Clinical, Rotation, Practicum, Internship, Preceptorship or any other activity that is required as part of the candidate’s program at a location other than the classroom.

Referral: Notice to the College that a candidate may be in violation of one or more of these standards.

Remediation Plan: The method the College uses to remediate the candidate to return to the program, if possible.

B. Professional Standards

College of Nursing Programs

The College of Nursing standards address a candidate’s affective attributes and disposition to be nurses, nurse practitioners and/or healthcare providers. The College adheres to the broader nursing community’s ethical standards and candidates are required to adhere to the following:

1. American Nurses Association (ANA) Code of Ethics for Nurses

   The College of Nursing adheres to the ANA Code of Ethics for Nurses. Students are expected to read, understand, and perform in compliance with this Code. Candidates can locate the ANA code of Ethics at: http://www.nursingworld.org/codeofethics

2. Nurse Practice Act (by state)

   Because nursing care poses a risk of harm to the public if practiced by professionals who are unprepared or incompetent, the state, through its police powers, is required to protect its citizens from harm. That protection is in the form of reasonable laws to regulate nursing. Students are required to read, understand, and perform in compliance with their state’s Nurse Practice Act. Candidates can locate this information at https://www.ncsbn.org/npa.htm

3. ANA Principles for Social Networking and the Nurse

   ANA’s Principles for Social Networking and the Nurse: Guidance for the Registered Nurse provides guidance to registered nurses on using social networking media in a way that protects patients’ privacy and confidentiality and maintains the standards of professional nursing practice. A copy of the ANA Principles for Social Networking and the Nurse can be found at: https://www.nursingworld.org/practice-policy/nursing-excellence/official-policy/statements/ana-principles/

4. Candidates in the College of Nursing will assume responsibility for their own health as well as their own professional behavior.
College of Social and Behavioral Sciences, Counseling, and Human Services Programs

**Counseling**
1. Candidates in counseling programs are required to follow guidelines outlined in:

**Human Services**
1. Candidates in the Human Services program are required to follow guidelines outlined in the National Organization for Human Services (NOHS) Code of Ethics at: https://www.nationalhuman-services.org/ethical-standards-for-hs-professionals

**Social Work**
1. Candidates in the Social Work program are required to adhere to the broader social work community’s ethical standards and to the following:
   - National Association of Social Workers (NASW) Code of Ethics
     The Social Work Program adheres to the NASW Code of Ethics. Candidates are expected to read, understand, and perform in compliance with this code. Candidates can locate the NASW Code of Ethics at: https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English

2. Professional Social Workers
   Social work care poses a risk to of harm to the public if practiced by professionals who are unprepared or incompetent, the state, through its police powers, is required to protect its citizens from harm. That protection is in the form of reasonable laws to regulate social work. Students are required to read, understand, and perform in compliance with their state’s social work statutes. Candidates can locate their state's statutes at: https://www.aswb.org/licenses/

   The standards provided by NASW, ASWB, CSWE, & CSWA describe a uniform set of technology standards for professional social workers to use as a guide in their practice. A copy of these standards can be found at: https://www.socialworkers.org/includes/newIncludes/homepage/PRA-BRO-33617.TechStandards_FINAL_POSTING.pdf
4. Candidates are required to participate in and complete work consistent with professional social work practice, including satisfactory performance in the nine competencies identified by CSWE. These competencies can be found at: https://www.cswe.org/getattachment/Accreditation/Accreditation-Process/2015-EPAS/2015EPAS_Web_FINAL.pdf.aspx.

**College of Education Programs**

**Educator Licensure**
Candidates in a program leading to certification or licensure interact with students, parents, and the school community and participate in field placements and student teaching practicums as part of their academic program and are required to adhere to the following:
1. The candidate is committed to reflection, assessment, and learning as an ongoing process.
2. The candidate believes that all students can learn and succeed and is adaptable to differentiated instruction.
3. The candidate maintains positive collaborative interpersonal interactions with faculty, students, and the school community.

**Administration and Supervision**
Candidates in a program leading to certification or licensure as school administrators interact with students, parents, and the school community and participate in internships as part of their academic program and are required to adhere to the following:
1. The candidate is committed to assessment and learning as an ongoing process.
2. The candidate believes that all students can learn and is adaptable to differentiated instruction.
3. The candidate is committed to high-quality standards, expectations, and performances from self, staff, students, and others.
4. The candidate believes in involving stakeholders in order to work toward common goals.
5. The candidate values and is committed to timely communication to inform the community and public.
6. The candidate believes that diversity benefits the school and is committed to working effectively with people from all backgrounds.
7. The candidate believes in and is committed to continual school innovation and improvement.
8. The candidate is committed to motivating others to enhance professional development, organizational growth, and student achievement.

**College of Health Professions**

**Public Health**
Candidates in the public health program are required to adhere to the broader public health community’s ethical standards and to the following:
1. The American Public Health Association Public Health Code of Ethics
   The College of Health Professions expects that students read, understand, and incorporate these Principles into course assignments and in the conduct of their practicum. Students may locate the Public Health Code of Ethics at: https://www.apha.org/-/media/files/pdf/membergroups/ethics/code_of_ethics.ashx
Policy on Nursing Ethics and Professional Competence

The University of Phoenix Policy on Nursing Ethics and Professional Competence is defined as compliance with the following nursing guidelines:

- **University of Phoenix Professional Nursing Responsibilities.**
- **American Nurses Association Code for Nurses.**

The policy sets forth expectations and regulations for professional and ethical conduct by students enrolled in College of Nursing programs. The policy states that all forms of unethical behavior or professional incompetence are to be reported and reviewed. Reported violations will be addressed through a formal process to the College of Nursing.

Expectations for conduct and the standards are discussed in the beginning classes for College of Nursing programs. Content supporting this information is provided to students in their program handbooks.

Policy on Counseling Ethics Standards

The University of Phoenix Policy on Counseling Ethics Standards is defined as compliance with the American Counseling Association Code of Ethics, Standards of Practice, and the American Association for Marriage and Family Therapy Code of Ethics. The policy sets forth expectations and regulations for conduct by Master of Science in Counseling students who enroll in the University. The policy states that all forms of unethical behavior are to be reported and reviewed. Reported violations will be addressed by a Counseling Ethics Committee. Expectations for ethical conduct are discussed in the Student Program Handbook.

Students determined to be in violation of ethics standards may be sanctioned, which may include expulsion from the University.
SUPPLEMENTAL AND PROFESSIONAL STANDARDS REFERRAL PROCESS & PROCEDURE

Upon notice that a candidate may not be meeting one or more of the Standards, the College will review the information, the candidate's history, and any additional information that will assist in appropriately addressing the issue(s) presented. If the respective College determines that a candidate may not be meeting one or more of the Standards, they may file a Referral.

Referrals provide the College the opportunity to review the candidate's behavior and determine whether counseling, remediation, or withdrawal from the program is appropriate. The process is designed to be remedial in nature, as the goal is for candidates to understand what is expected of them to be successful in their profession.

If at any time during the process the candidate fails to meaningfully participate, the College may recommend the student be withdrawn from the program. Program withdrawals must be approved by the College Dean.

Candidates are not permitted to have representation by an attorney or any other third party at any time during the process. This process is separate from the Student Code of Conduct disciplinary process, but they may run concurrently. Candidates charged with violating the Student Code of Conduct are subject to the policies, procedures, and sanctions under that policy in addition to these standards.

A Student Code of Conduct charge may be the basis for a Referral if the underlying incident indicates these Standards have not been met. Similarly, a Referral may be the basis for a Student Code of Conduct charge.

Candidates are not subject to expulsion for a Standards violation, only for a violation of the Student Code of Conduct if found responsible.

Notice of Referral

1. Once the College determines a Referral should proceed, the candidate will be provided a Letter of Referral identifying the applicable Standards and the student's deficiencies in meeting them.
2. Candidates have ten (10) calendar days from the date of receipt to provide a written response to the College. Candidates are required to respond to the Letter of Referral.
   a. Failure to respond may result in the candidate being indefinitely suspended at the conclusion of the current course or immediately if not currently enrolled.
3. The candidate is required to meet with the College for the purpose of discussing the Referral and, if necessary, developing a Remediation Plan to correct identified deficiencies.
4. If a candidate fails to meet with the College within thirty (30) calendar days of the date of receipt of the Letter of Referral, the candidate will be suspended at the conclusion of the current course or immediately if the candidate is not currently enrolled. The candidate will remain suspended indefinitely until the Referral is resolved.

Remediation Plan

In the event a candidate is placed on a Remediation Plan, they will be provided with a written copy. The Remediation Plan includes what is required of the candidate and the allotted timeframe for completion. The College has final authority over the terms of the Remediation Plan.

1. The candidate is expected to maintain regular contact with the College regarding their progress, including any barriers to completion.
2. The candidate must complete the Remediation Plan requirements in the time prescribed and submit documentation of completion to the College for review.
3. After review of the documentation by the College, the candidate will be notified in writing whether the Remediation Plan was successfully completed.
4. If a candidate does not successfully complete the Remediation Plan, the candidate will be suspended at the conclusion of their current course or immediately if not currently enrolled. Non-completion may also result in an additional Referral.
   a. A student suspended for failure to complete the Remediation Plan will be reinstated upon successful completion of the Remediation Plan.

Retention Committee

For candidates with more than one Referral or who engage in serious misconduct, the College may refer students to a Retention Committee. Any candidate with a history of more than two Referrals may be automatically referred to a Retention Committee.

1. Candidates will be notified in writing of the convening of a Retention Committee and potential outcomes.
2. Candidates have ten (10) calendar days from the date of notice to provide a written response.
   a. Failure to respond may result in the candidate being suspended at the conclusion of the current course or immediately if not currently enrolled. A candidate suspended solely for failure to respond will remain suspended until the candidate's response is received and the student has met with the Retention Committee.
   b. The candidate will be notified in writing of the decision of the Retention Committee, including any right of appeal.
3. Failure by the candidate to meet with the Retention Committee within thirty (30) calendar days following receipt of the notification will result in the candidate being suspended indefinitely at the conclusion of the current course or immediately if not currently enrolled. A candidate suspended solely for failure to meet with the Retention Committee will be reinstated upon meeting with the Retention Committee.
4. The Retention Committee is comprised of one member of College leadership and two (2) faculty members within the candidate's College.
5. The candidate has the opportunity to address the Retention Committee and is expected to provide insight regarding the Referral. The Retention Committee and the candidate will address the issues that appear to be hindering the candidate's academic progress and possible solutions. The Retention Committee will determine whether a Remediation Plan or withdrawal from the program is necessary.

6. After meeting with the candidate, the Retention Committee will deliberate and make one of the following decisions:
   a. Take no action;
   b. Institute a Remediation Plan; or
   c. Withdraw the candidate from the program.

**Decision**

The candidate will be notified in writing within seven business days of the Retention Committee's decision and information on the appeal process if applicable. Any decision by the Retention Committee is part of the candidate's record and may be taken into consideration should the candidate receive any future referral.

1. **Take No Action**
   a. No further action steps are necessary by the candidate.
   b. A decision to take no action is final and cannot be appealed.

2. **Institute a Remediation Plan**
   a. A Remediation Plan will be instituted according to the above-titled section.
   b. A decision to institute a Remediation Plan is final and cannot be appealed.

3. **Withdraw the Candidate from the Program**
   a. Upon a decision that the candidate be withdrawn from the program, the candidate will be scholastically suspended.
   b. A summary report, generally containing findings and recommendations, will be forwarded to the College Dean, who has the ultimate authority to accept, reject, or modify the recommendation of the Retention Committee and render a final decision.
   c. The candidate has the right to appeal a final program withdrawal to the Central Administration Appeals Committee (CAAC).
      i. The candidate must file a written statement within ten (10) calendar days of receipt of the decision. The notification will provide the student with information on submitting such appeal.
      ii. If no appeal is filed within ten (10) calendar days of receipt of the decision, the program withdrawal is final and the student will remain scholastically suspended.
   d. Central Administration Appeals Committee
      i. The CAAC is comprised of three senior University representatives, at least one of which is from the appropriate College.
      ii. The CAAC reviews information provided by the College, including any information considered by the Retention Committee and the candidate's written appeal.
      iii. The CAAC will make one of the following decisions:
          a. Uphold the program withdrawal.
          b. Reverse the withdrawal and reinstate the candidate back into the program and remediate, if applicable.
          iv. The student will be notified in writing of the CAAC's decision.
          v. The decision of the CAAC is final.
STUDENT COMPLAINTS

The University of Phoenix (UOPX) has established specific processes for students to submit complaints related to a violation or misapplication of a current policy, procedure, or established practice. Except as otherwise provided, students should first attempt to resolve their concerns with the department representative(s) involved or a supervisor as set forth in Step One below. If the issue cannot be resolved through informal means, the student may file a complaint in writing with Resolution Services for an impartial evaluation.

Complaints related to academic policies, including but not limited to, Grades, Grade Disputes and Corrections, Academically-Related Appeals, Student Code of Conduct, and Supplemental or Professional Standards, must first adhere to those respective procedures before filing a complaint with Resolution Services.

Issues related to student financial aid eligibility are addressed as described in the Consumer Information Guide (CIG.) The evaluation by Resolution Services includes a determination of whether CIG policies were followed.

Step One: Internal Resolution

Students should first attempt to resolve their issue(s) by contacting the following individuals/departments, and using the process set forth in the corresponding section(s) of the Academic Catalog, as referenced below. Please note that the information provided below represents only the initial contact with whom such complaints should be reported. Students should carefully consult the Academic Catalog to gain a more complete understanding of the processes associated with each.

- Allegations of discrimination, harassment, or retaliation: Title IX Coordinator, Resolution Services. See Equal Opportunity Harassment and Nondiscrimination Policy for applicable definitions and procedures.
- Student Code of Conduct Violations: Manager, Resolution Services. See Student Code of Conduct for applicable definitions and procedures.
- General Student Complaints: Sr. Director of Student Resolutions, Resolution Services.
- Complaints relating to financial aid, account balances, or collections: Student Financial Services. See Consumer Information Guide for applicable policies and procedures.
- Academic Policy and Grade Disputes: College Dean or designee. See exceptions to Academic Policy - Student Appeals Center and Grade Disputes and Corrections policy, respectively.

Step Two: Mediation

If a student’s issue(s) are of a legal nature and cannot be resolved as a result of Step One, all parties are encouraged to participate in a formal mediation session facilitated by a professional, neutral mediator. Mediation is not mandatory but is strongly encouraged as an effective way to resolve disputes.

The physical location for the mediation shall be mutually selected by the parties. If the parties elect mediation, the costs associated with the mediation shall be paid by the University. Both the student and the University shall submit in writing to the other the name(s) of one or more professional, neutral mediators as a potential mediator in the matter. The parties will exercise their best efforts to agree on the selection of a mediator. If the parties cannot agree on the selection of a mediator, then the parties can submit the matter to the American Arbitration Association (AAA) for the purpose of having a neutral mediator appointed in accordance with AAA’s mediation rules.

The mediator shall schedule the mediation as expeditiously as possible. All parties will have the opportunity to attend and participate in the mediation. Any party may be represented by counsel of his or her choosing, at his or her own expense. The mediator shall direct how the mediation will be conducted. As with all mediations, any resulting resolution must be mutually agreed to by the parties, which shall constitute a final and binding resolution of the matter.

Step Three: Binding Arbitration

If a student’s issue(s) are of a legal nature and cannot be resolved as a result of Steps One and Two, all parties are encouraged to participate in binding arbitration as an alternative to resolving the dispute in a court of law. Arbitration is not mandatory but is strongly encouraged as an effective way to resolve disputes.

If the parties mutually agree to binding arbitration as the method to resolve their dispute, the following shall apply:

- The parties shall select the neutral arbitrator and/or arbitration sponsoring organization by mutual agreement. If the parties cannot mutually agree to an arbitrator and/or arbitration sponsoring organization, the arbitration will be held and the arbitrator selected under the auspices of the American Arbitration Association (“AAA”). Except as provided in this Agreement, the arbitration shall be held in accordance with the then current Consumer Arbitration Rules of the AAA (“AAA Rules”). The AAA Rules are available by navigating to the “Rules and Procedures” section of www.adr.org, or by requesting a hard copy from the University Legal Services, currently at 4035 S. Riverpoint Parkway, Phoenix, Arizona 85040.
• In arbitration, the parties will have the right to conduct adequate civil discovery, bring dispositive motions, and present witnesses and evidence as needed to present their cases and defenses, and any disputes in this regard shall be resolved by the arbitrator. The arbitrator may award any party any remedy to which that party is entitled under applicable law, but such remedies shall be limited to those that would be available to a party in his or her individual capacity in a court of law for the claims presented to and decided by the arbitrator, and no remedies that otherwise would be available to an individual in a court of law will be forfeited by virtue of this Agreement. The arbitrator shall apply the substantive law of the state in which the claim arose, or federal law, or both, as applicable to the claims asserted. The arbitrator is without authority to apply any different substantive law.

• Each party will pay the fees for his, her or its own attorneys, subject to any remedies to which that party may later be entitled under applicable law. The University shall initially bear the administrative costs associated with the conduct of the Arbitration, subject to: (1) a one-time payment by the student toward these costs equal to the filing fee then required by the court of general jurisdiction in the state where the student in question attended the University (if the student is financially unable to pay a filing fee, the student will be relieved of the obligation to pay the filing fee); and (2) any subsequent award by the arbitrator in accordance with applicable law. In the event the law (including the common law) of the jurisdiction in which the arbitration is held requires a different allocation of arbitral fees and costs, then such law will be followed.

• The Federal Rules of Evidence shall apply. The arbitrator shall have jurisdiction to hear and rule on pre-hearing disputes and is authorized to hold pre-hearing conferences by telephone or in person, as the arbitrator deems necessary. The arbitrator shall have the authority to entertain a motion to dismiss and/or a motion for summary judgment by any party and shall apply the standards governing such motions under the Federal Rules of Civil Procedure and applicable federal common law.

• The arbitrator will issue a decision or award in writing, stating the essential findings of fact and conclusions of law. Except as may be permitted or required by law, as determined by the arbitrator, neither a party nor an arbitrator may disclose the existence, content, or results of any arbitration hereunder without the prior written consent of all parties. A court of competent jurisdiction shall have the authority to enter a judgment upon the award made pursuant to the arbitration.

Complaints to the California Bureau for Private Postsecondary Education

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau’s internet website (www.bppe.ca.gov).

Student Loans and Financial Aid

If you obtain a loan to pay for an educational program, you will have the responsibility to repay the full amount of the loan, plus interest, less the amount of any refund. If you have received federal student financial aid funds, you are entitled to a refund of moneys not paid from federal student financial aid program funds. Students receiving federal financial aid have varying rights and responsibilities in accordance with the Borrower’s Rights and Responsibilities Statement, http://www.direct.ed.gov/pubs/dlrigh.ts.pdf, attached to the Master Promissory Note (MPN).

Student Address Changes

Students are required to immediately notify the University any time they change their current address. Students can provide this notification by updating their current address in the Contact Information section of their profile on the student website (http://my.phoenix.edu).

If you are a student enrolled in any of the following programs that prepare for licensure or certification, you will also need to contact your University Advisor if your current address changes to another state or jurisdiction:

Bachelor of Science in Education/Elementary Education (BSED/E)
Bachelor of Science in Education/Early Childhood Education (BSED/ECH)
Bachelor of Science in Liberal Studies (BSLS)
Master of Arts in Education/Elementary Teacher Education (MAED/TED-E)
Master of Arts in Education/Secondary Teacher Education (MAED/TED-S)
Master of Arts in Education/Special Education (MAED/SPE)
Master of Arts in Education/Administration and Supervision (MAED/ADM)
Alternative Pathway/Elementary Education (CERT/AP-E)
Alternative Pathway/Secondary Education (CERT/AP-S)
Alternative Pathway/Special Education (CERT/AP-SE)
Graduate Initial Teacher Certificate/Elementary (CERT/G-ELM)
Graduate Initial Teacher Certificate/Secondary (CERT/G-SEC)
Graduate Initial Teacher Certificate/Special Education (CERT/G-SPE)
Bachelor of Science in Nursing/LPN/LVN to BSN (P/VN/BSN)
Master of Science in Nursing/Family Nurse Practitioner (MSN/FNP)
Master of Science in Nursing/Family Nurse Practitioner (California) (MSN/FNP-CA)
Master of Science in Nursing Concentration in Nurse Administration (MSN/ADM)
Master of Science in Nursing Concentration in Nurse Education (MSN/NED)
Master of Science in Nursing Concentration in Informatics (MSN/INF)
Doctor of Nursing Practice (DNP)
Post Master's Certificate in Nurse Administration (CERT/NAD)
Post Master's Certificate in Nurse Education (CERT/NED)
Post Master's Certificate/Family Nurse Practitioner (FNP)
Bachelor of Science in Nursing (BSN)
Bachelor of Science in Nursing (Competency Based) (BSN-CB)
Bachelor of Science in Social Work (BSSW)
Master of Science in Counseling Clinical Mental Health Counseling (MSC/CCMH)
Master of Science in Counseling/Marriage, Family and Child Therapy (MSC/MFCT)
Master of Science in Counseling School Counseling (MSC/SC)
ACADEMIC QUALITY AND OUTCOMES ASSESSMENT

Academic Quality and Outcomes Assessment
Ensuring Consistent Quality

Over the last four decades, University of Phoenix has made significant investments in developing and maintaining systems to ensure academic quality. These systems enable the institution to measure and evaluate the University's effectiveness in meeting its mission and purposes and to use the evidence to continuously improve students' educational experiences and institutional processes. The comprehensive nature of the academic quality systems and the data produced provide the University with significant and meaningful input that is used to review and improve every aspect of the institution. Data gathered from course evaluations and student learning assessment are used in the curriculum development process and in the creation of faculty professional development tools. Data gathered from the continuous evaluation of institutional processes and systems are used to streamline processes and to make administrative support systems more user-friendly, continuously building on the analysis of information gathered.

Academic Quality Improvement and Outcomes-based Assessment

Academic quality is an integral part of the culture of continuous improvement at University of Phoenix. The University’s focus on academic quality improvement ensures that the institution is meeting its mission through continuous assessment and evaluation of faculty, curriculum, and processes.

Curriculum Development

The University of Phoenix curriculum and its design are grounded in philosophical and theoretical frameworks that guide best practice in andragogy. Academic leadership of programs capture in-demand skills through collaboration with faculty, programmatic industry councils, and accreditation requirements. Resulting from this work, curriculum is mapped to student learning outcomes and skills, learning activities and assessments are designed, and continuous improvement processes are implemented.

Assessment of Student Learning

For University of Phoenix, the purpose of outcomes-based assessment of student learning is to generate information to the faculty, program, college and school, and University about the efficacy of its curricula and educational practices in enabling students to achieve exit-level expectations at the course, program, and institutional levels. Assessment answers the question: How well are University of Phoenix students meeting the general education, programmatic, and institutional learning outcomes underscored by the University’s mission? Its findings inform opportunities for curricular and pedagogical improvement, decision-making processes for policy consideration and resource allocation, and accountability. The process for outcomes-based assessment of student learning uses the Plan, Do, Check, Act model of continuous improvement. By utilizing this model to guide assessment processes, the colleges design programs with clear measurable outcomes aligned to specific job skills based on employment data and scaffolds learning so students have sufficient opportunities to demonstrate the outcomes; systematically gather evidence of student learning through data analytics and qualitative feedback; analyze and interpret assessment learning results using insights from faculty; and use assessment findings to improve student learning.

Academic assessment provides the means for monitoring the educational experience of our students and gathering evidence of student learning. The University’s academic assessment processes include an ongoing combination of direct measures, such as course-embedded assignments, portfolios, and exams, and indirect measures that gather information from students, alumni, and employers. The instruments and measures are designed to provide valid and reliable evidence to support continuous improvement of academic programs.

Assessment of Students’ Educational Experiences and Administrative and Educational Support Units

Another major component of ensuring academic quality improvement is the assessment of students’ educational experiences and the processes of administrative and educational support units. A cadre of instruments and measures are used to monitor the day-to-day educational systems involving student, faculty, curriculum, and administrative services. By performing interim program review, evaluating faculty adherence to program standards and practices, and making small-scale resource decisions, information from academic quality improvement resources is used for assessing overall quality and compliance.

Multiple Measures of Effectiveness Academic Program Review

Academic Program Review (APR) at University of Phoenix is designed to foster academic excellence at all levels of the University. The APR affords UOPX faculty and college/school leadership the information to support the improvement of student learning; the structure to assess program quality, relevancy, and currency; the opportunity to reflect on the alignment of program goals with institutional mission and strategic initiatives; and the provision of data and evidence to support college/school and institutional planning, budgeting, and decision-making. The APR is a key component of the University’s assessment process. Schedules for data collection across academic programs are managed according to the University Program Lifecycle. Completed reports are hosted on the UPL site for accreditation and regulatory purposes.

Student End-of-Course Survey (SEOCS)

Students in all courses complete an End-of-Course Survey, which focuses on students’ evaluation of the curriculum, educational effectiveness, and faculty skills and abilities. These measures are of significant value in diagnosing how well each component of the University’s teaching/learning model is functioning in meeting student needs.

Faculty End-of-Course Survey (FEOCS)

Faculty complete an End-of-Course Survey, which focuses on curriculum evaluation, educational effectiveness, administrative and support services, and access to technology. Because faculty are required to be highly qualified practitioners of the subjects they teach, they serve as an invaluable resource for evaluating programmatic curriculum. Faculty are also the University’s best resource for determining whether students are professionally and academically prepared to benefit from their educational experiences.
Faculty Grading Practices
Accurate and fair evaluation of student academic performance is an important attribute of an effective educational program. Accordingly, measures of grade variance are reported by program. Grade variance for campus and individual faculty members are reported as elements of feedback for self-improvement and compliance with University standards of good practice.

Academic Alumni Questionnaire
Graduates are invited to evaluate the effectiveness of their University of Phoenix education after they have had sufficient time to integrate their learning with the demands of their career and personal responsibilities. Using measures driven by the University's mission, the alumni identify factors that influenced their student experience at the University of Phoenix, the major personal and professional goals they achieved, the quality of their academic experience according to the stated learning outcomes, the effectiveness of the University's teaching/learning model in helping them achieve their career goals. Data gleaned from the Questionnaire is used in program evaluation.

Persistence, Retention, and Graduation Studies
Numerous special studies are undertaken to explore trends and issues of potential significance to academic decision-makers in program evaluation. These studies may include enrollment by academic program, persistence and graduation rates by admission status (first-time; lower-and upper-division transfers), gender and race/ethnicity, class size by rating of faculty and educational effectiveness, etc. Emphasis is placed on examining the nature and extent to which students' educational needs and expectations are being met during the enrollment process, throughout their course work, when they graduate, and in their continuing professional development as alumni.

Classroom Performance Review
The University is committed to providing excellent instructors, which necessarily calls for an ongoing system of faculty evaluation. Faculty members receive periodic Classroom Performance Reviews and feedback from Student End-of-Course Surveys. Faculty members also have an opportunity to provide the University with input about course curriculum, University services, and other related topics at the end of each course. Campus staff review and follow up on all input and feedback from students and faculty. A periodic Classroom Performance Review is completed for each active faculty member annually. The review represents one method of faculty evaluation based on a class observation.

Each review is conducted with a standardized form by a trained reviewer. Based on the observation, campus academic leadership and the faculty member discuss strengths and areas for improvement related to the faculty member's facilitation skills, assessment and feedback practices, coverage of course objectives, and overall class management.
Whether you are a recent graduate or a long-time University of Phoenix alumni, you are automatically a part of the Alumni Association. To gain access to your lifetime benefits, visit the alumni website at phoenix.edu/alumni. Connect with other alumni for professional networking, and start exploring the benefits available to you:

**Career Resources**
Graduates receive lifetime access to our full suite of alumni career resources, including career support through PhoenixLink™ and our Career Services for Life™ commitment. PhoenixLink™ is a career portal for alumni to have access to resume building tools, schedule career coaching appointments, and view career planning and development resources. For more information, visit phoenix.edu/alumni/career-resources.

**Alumni Services**
- **PhoenixLink™ Network** – Join our exclusive career network, where you can connect with like-minded individuals in your professional field or based on your interests. Reach out to your peers one-on-one to get help from other alumni or be a mentor to others. You may also submit your business to be featured on the Business Directory. Find out more at phoenix.edu/alumni/join-network/phoenixlink.
- **Benefits & Discounts** – Access exclusive benefits and discounts at over 900 merchants tailored to you, based on your interests. You can even promote your business to 75,000+ active members. Visit uopxdiscounts.perkspot.com to start saving on your favorite brands today. For more alumni benefits, including special offers on tuition pricing and professional development courses, visit phoenix.edu/alumni/benefits-discounts.
- **Career Coaching** – Get guidance for your career goals by meeting with one of our University Career Coaches; up to a $200 an hour value complimentary to you, for life. You’ll get a personalized action plan, covering topics from career clarity and resume review to job search prep and mock interviewing. Schedule an appointment at phoenix.edu/alumni/career-resources.
- **Alumni Chapters** – There are currently 50 Alumni Chapters throughout the country. Join a chapter to network with local alumni, attend social events, and give back to the community. To find a chapter closest to you, visit phoenix.edu/alumni/join-network/chapters.
- **Alumni Chronicles** – University of Phoenix alumni come from all walks of life to achieve great things, from students who overcome adversity to get to the classroom to graduates who are gamechangers in their industry. Read your fellow alumni’s stories at phoenix.edu/alumni-chronicles. Want to share your success story and inspire others too? Tell us how you worked hard, overcame obstacles, and earned your degree at phoenix.edu/alumni/tell-us-your-story.
- **Social Media** - When our network grows, so does yours. Connect and stay in touch with fellow graduates near and far through LinkedIn®, Facebook®, Twitter®, and Instagram® online communities.
- **Homecoming** - The Alumni Association hosts Homecoming festivities across the country every year. Come together for networking and fun with local Phoenixes. Other local alumni chapter and career events are held throughout the year. Visit phoenix.edu/alumni for upcoming events near you.

**Financial Services**
- **Student Loan Resources** - Manage your student loan repayment options and make better financial decisions with iGrad, our complimentary financial planning tool. Visit phoenix.igrad.com/landing/uopx-alumni-landing.

**Academic Resources**
- **Complimentary online resources** - Keep learning and brush up on skills you use in the workplace with continued 24/7 access to the University’s Alumni Library phoenix.edu/library, the Center for Mathematics Excellence phoenix.edu/mathematics-excellence and the Center for Writing Excellence found through the student portal.
- **Transcripts** - Need a copy of your transcript? Visit phoenix.edu/students/transcripts to order one.

UNIVERSITY POLICIES

Registration

Applicants to the University must enter into the most current program of study available in their state or jurisdiction and modality. Students must sign an Enrollment Agreement for the program of study which they intend to pursue. The student’s Enrollment Agreement defines the student’s curriculum and program requirements. The executed Enrollment Agreement will be effective for one year from the date signed. A signed Enrollment Agreement must be on file before students are allowed to start class. A Social Security number (SSN) is required to be recorded on a student’s education record if the student has or will receive US Federal Title IV funding, US Federal Veterans Affairs funding, or US educational tax credit/T-1098. Students who have not or will not be receiving these types of funding will need to complete the Social Security Number Override Verification form if the student prefers to have the SSN omitted from their education record. Should the University be made aware that US Federal Title IV funding, US Federal Veterans Affairs funding, or US educational tax credit/T-1098 has or will be disbursed to a student, the student’s SSN will be added to their education record by the Registrar’s Office. If this occurs, the student will be notified by the Registrar’s Office that the SSN Override has been administratively rescinded.

Student Identification

All students are assigned a unique student identifier called an Individual Record Number (IRN). This is the primary number students use to obtain campus, web and voice response services. A letter and ID card will be mailed upon request. Current students may have the option to visit their local campus or learning center and have a picture identification (ID) card created. In order for an ID card to be printed you must:

- Be in an active status with University of Phoenix (Full time, Less Than Half Time, or Leave of Absence)
- Before issuing the Photo Student ID, a government issued ID must be provided to staff to confirm student identity and eligibility

The Photo Student ID card will be issued by University staff at the local campus or learning center. Not all local campuses or learning centers may offer this service.

Official Evaluation

The Office of Admission and Evaluation (or designees) reviews applicants’ required admission documents to render an official evaluation decision. A signed Enrollment Agreement must be on file prior to completing the official evaluation, and must be signed within 90 days of the Admission Application or Program Change Addendum. Upon completion of the evaluation, the student will be placed in the ‘OF’ Evaluation Status and will receive official communication of the decision.

Admission Statuses

University of Phoenix (UOPX) recognizes the following admission statuses for degree and credit-bearing certificate seeking students:

- Applicant: (RR)
- Admitted: (AM)
- Admitted with Condition: (AC)
- Deferred: (DF)
- En-route Credential: (EC)

Applicants qualify for Applicant (RR) status after account creation while completing the application for admission. Students in RR admission status are being evaluated for admission to the University. Students on RR admission status may attend up to four UOPX courses upon signing the Enrollment Agreement and payment of the application fee (if applicable).

Admitted with Condition: (AC)

Admitted with Condition (AC) status is applicable for a University sponsored risk-free period for designated programs. Applicants will be eligible for this status if they meet the following criteria:

- Have not previously been admitted as a regular student to the University
- Have not previously attended a credit-bearing course with the University

Students will be placed in AC status after all admission documents have been received, the admission file has been reviewed, and the minimum admission requirements for the chosen program have been met. As a condition of admission, students on AC status must meet class attendance requirements in the fourth week of their first course (or after) and have all transfer credits evaluated prior to being unconditionally admitted.

En-route Credential: (EC)

Students who are pursuing an en-route credential on the way to earning a higher-level degree program will be placed in En-route Credential (EC) admission status for the lower level program being earned en-route. A student’s admissibility as a regular student will be enforced and maintained under the degree program associated with the student’s Enrollment Agreement.

Admitted: (AM)

Applicants will be granted unconditional admission and placed in Admitted (AM) status after all admission documents have been received, the admission file has been reviewed, and all admission requirements and conditions for the chosen program have been met.

Deferred: (DF)

Applicants will be placed in Deferred (DF) admission status if documents or information required for admission (AM) are missing from the file. Applicants will remain on DF status until the required documentation or information is received. Applicants in DF status cannot attend class and will be administratively withdrawn from the University until the status is resolved.
Provisional: (PV)
Students in designated master's degree programs who meet all admission requirements except the minimum GPA requirement for their program may be admitted in Provisional (PV) status. Students admitted in PV status must achieve a GPA of 3.0 in their UOPX coursework by the end of the fourth completed program applicable course. Students with a GPA below 3.0 at the end of the fourth completed program-applicable course will be disqualified for admission (DA) and will remain in PV admission status. Concurrent enrollment is prohibited in this status.

Effective for Enrollment Agreements signed 7/1/2020 or later: Students admitted in PV status will not be placed on Academic Probation (AP) status within the first four program-applicable courses completed at the University. If students do not achieve a GPA of 3.0 by the end of their fourth course, when they return from Disqualified for Admission (DA) status they will also be placed on AP status.
The following criteria will apply to courses completed as part of the PV requirement:
• Non-credit-bearing coursework will not be counted.
• Students may repeat courses. Repeated courses, designated with a repeat (R) code on the transcript will count toward the four course PV requirement.

Applicant International Credentials: (RI)
Applicants will be placed in Applicant International Credentials (RI) status if the applicant is applying to UOPX using copies of international credentials. Applicants will not be granted unconditional admission using copies of international credentials until verification or an original international academic record is received. Students in RI admission status may attend up to four UOPX courses.

Non-Degree: (ND)
Applicants interested in taking coursework at the University, but not interested in pursuing a degree or credit-bearing certificate, may register as non-degree students and be placed in Non-Degree (ND) status.

Denied for Cause: (DC)
Applicants who have violated a University policy or procedure or who have committed some other act which, if he or she were already a student would pose a risk to the University or would subject him or her to sanctions for violating the Student Code of Conduct, will be placed in denied for cause (DC) status and will be administratively withdrawn from the University.

Denied: (DN)
Applicants will be placed in Denied Admission (DN) status and will be administratively withdrawn from the University if the minimum requirements for admission to a program are not met.

Admission Deadline Exceeded: (DE)
Students who are unable to attain AM status by the deadlines defined in the University’s Admission Deadlines policy will be placed in Admission Deadline Exceeded (DE) status and administratively withdrawn from the University.

Re-entry Required (RE)
Students who were previously placed in one of the following admission statuses for a program, but who have not posted positive attendance in a course for the time designated by the Academic Program Re-entry policy, will be placed in Re-entry Required (RE) admission status: AM, PV, IV, OP, or AC. Students placed in RE status may return to their academic program if they meet the criteria outlined in the Academic Program Re-entry policy and their specific program policy.

Admission Deadlines
University of Phoenix (UOPX) cannot guarantee that students who begin coursework will be admitted to their degree or credit-bearing certificate program. Students in all programs except Competency-Based Education (CBE) programs must be officially admitted by the completion of their fourth UOPX course. Students who are unable to be admitted by the completion of their fourth UOPX course will be administratively withdrawn from the University and placed in Admission Deadline Exceeded (DE) admission status.

Students in Credit-Based CBE programs must be officially admitted by the completion of their first 16-week block of concurrently-enrolled courses, and students in Direct Assessment CBE programs must be officially admitted by the end of the first term in which they meet the term enrollment requirement. Students in CBE programs who are unable to be admitted by these deadlines will be administratively withdrawn from the University and placed in Admission Deadline Exceeded (DE) admission status.

General International Admissions Information
Graduate applicants relying on educational credentials from an institution outside of the United States (US) to meet admission requirements may enroll in University of Phoenix (UOPX) courses prior to official admission only if they meet all the following requirements:
• If residing in the US, have an appropriate immigrant or nonimmigrant status that does not prohibit educational studies;
• Graduate applicants must have a pre-evaluation completed by the Office of Admissions and Evaluation indicating that the applicant has the appropriate academic background to meet admission requirements;
• Must satisfy all other program-specific admission requirements. Applicants who have earned an undergraduate degree, or other transfer credit, from an institution outside of the US, but who have earned a master's degree from a college or university with approved institutional accreditation are eligible to enroll with the University at the graduate level. All program-specific admission requirements must have been satisfied by the master's degree.

Undergraduate applicants relying on educational credentials from an institution outside of the US may enroll in UOPX courses upon the completion of their Admission Application and Enrollment Agreement provided that they meet all admission requirements for their selected program.

For applicants with academic records from colleges or universities earned outside of the US, the University will accept copies of academic records issued from international institutions to conduct a pre-evaluation. These are used to determine comparability of previous academic studies for unofficial placement and advisement purposes.

For official admission and transfer credit evaluation purposes, previous academic credentials earned outside of the US must meet the University’s verification standards prior to rendering an official admission or transfer credit decision. Verification of previous academic credentials earned outside of the US can be satisfied by one of the following methods:
• Receipt and verification of official academic credentials issued directly to UOPX by the applicant’s previous institution;
• Receipt and verification of official academic credentials held in possession of the applicant as the official record of academic studies conducted in the applicant’s specific country;
• Receipt and verification of official correspondence issued directly to UOPX by the applicant’s previous institution indicating that copies of academic credentials or level study is valid;
• Receipt of an official professional evaluation issued directly to UOPX by the applicant’s previous institution;

For applicants with academic records from colleges or universities earned outside of the US with approved institutional accreditation, academic credentials will be subject to the same policies as credentials issued from a domestic institution.

Secondary completion credentials earned outside of the US are considered comparable to US secondary completion credentials and do not need to be validated unless required by the applicant’s state or jurisdiction.

Applicants who completed high school/secondary school outside of the US, in a country where English is not the official language, must meet the English language proficiency requirement for admission. Specific English language proficiency policies are included with each program’s admission requirements.

If documents are issued to UOPX in a language other than English, the applicant will be required to obtain an official translation and submit it to UOPX. Translations must be completed and verified by an official translation service, a foreign language department of an accredited college or university, the country’s embassy/consulate, or by the Office of Admissions and Evaluation at UOPX if translation services are provided for that specific language.

The University is authorized under federal law to enroll nonimmigrant applicants. UOPX only issues Forms I-20/A-B to border commuters and approved doctoral applicants during their residency in the US. Form I-20/A-B is required by applicants who need to obtain F-1 (Student) visas to attend school in the US. The University is only authorized to issue the I-20 for applicants who will attend specific campus locations and programs recorded with the Department of Homeland Security.

Admission of international applicants will only be made as permitted by US law. UOPX will not admit a resident of, or individual located in, a country that is subject to any of the sanctions programs administered by the US Office of Foreign Assets Control (“OFAC”) nor any individual that has been designated a: Specially Designated National (“SDN”), Foreign Sanctions Evader (“FSE”), Blocked Person, Denied Person or other similar classification, as defined by US Law. For purposes of this policy an international applicant is defined as a non-US citizen or an applicant with a non-US (including US territories) address. Applicants fitting this definition must complete an International Student Acknowledgement, which includes consent for background screening and the applicant’s consent to allow the University to process the applicant’s personal information.

UOPX does not market its educational services to individuals in certain countries. Individuals who reside in such jurisdictions will not be enrolled or admitted unless they are a US citizen or are affiliated with the US Military, subject to OFAC (Office of Foreign Assets Control) restrictions.

All academic credentials sent to UOPX will become the possession of UOPX and will not be returned to applicants unless prior approval was granted by the Office of Admission and Evaluation.

Admissions Appeal Process for Expelled Students

Expelled students are not eligible for admission to University of Phoenix (UOPX).
• No appeals will be accepted for students expelled from UOPX.
• Appeals will be reviewed for students who were expelled from other institutions. Applicants for admission are not eligible to begin classes until formal approval of the appeal is obtained.

Student Falsification of Information

All students applying for admission to the University have the responsibility to submit a complete and accurate application package including all academic and professional credentials required. Submitting incomplete, false, or misleading information may be grounds for dismissal at any time.

Acceptable Transfer Activity

The following completed transfer activity types will be reviewed for transfer into the University:
1. Coursework which was completed at an institution that offers associate degrees or higher, which was accredited, or a candidate for accreditation at the time the student attended, by an approved institutional accrediting body, or a foreign institution recognized/authorized by the country’s Ministry of Education, will be reviewed for transfer into the University. In addition, graduate level coursework from institutions that hold accreditation through the ABA (American Bar Association) or that have been provisionally approved for accreditation may also be reviewed for transfer into the University. Coursework from ABA accredited institutions that is not from a graduate level program will not be accepted.
2. American Council on Education (ACE) credit recommendations (e.g. Military)
3. National College Credit Recommendation Service (NCCRS) credit recommendations
4. National testing program credit earned from:
   a. College Level Examination Program (CLEP®
   b. Excelsior
   c. Berlitz
   d. National League of Nursing Exams (NLN)
   e. Advanced Placement Examinations (AP)
   f. Defense Language Proficiency Tests (DLPT)
   g. DSST Exams (previously DANTES and USAFI)
5. Prior learning that has been assessed for credit-worthiness by the Prior Learning Assessment (PLA) department within the Office of Admissions and Evaluation, one of the University’s colleges, or the Provost’s Office.
To evaluate previously completed transfer activity, the University must receive transcripts, mark sheets, and documents that are originals from the issuing institution. Documents from Canada or the United States and its territories must be submitted in a sealed envelope or via an approved alternative means such as fax, Escrip, or EDI directly to the University of Phoenix (UOPX). All transcripts that state “issued to the student” are not considered official and will not be used for evaluation.

Applicants with academic records from colleges or universities in other countries: The University will accept copies of academic records issued from international institutions with no time of issue limitation. If transcripts are received directly from the institution in a sealed envelope, no verification will be required. Students with international credentials will be placed on an admission status of RI (Applicant International Credentials) until either the verification or official document is received from the issuing institution.

CLEP® is a registered trademark of the College Entrance Examination Board, registered in the U.S. and/or other countries

**Evaluation of Transfer Activity**

Only transfer activity evaluations performed by the University's Office of Admissions & Evaluation (OAE) or their approved designee are official. Any preliminary reviews by campus personnel or OAR are unofficial, not binding, and subject to change. The following criteria are applied to the evaluation of all transfer credit:

1. Credit-bearing coursework in which students earn a minimum grade of "C-" or grades of credit, pass, or satisfactory may be accepted towards students' degree requirements.
2. Acceptable transfer activities will be transferred as semester hour credit.
3. The University will accept courses that are numbered as non-remedial, college level, transferrable, or degree applicable, as determined by the issuing institutions transcript key.
4. Credit is transferred by course level (i.e., lower division, upper division, graduate, doctoral) as awarded by the issuing institution.
5. Physical Education activity credits are limited to four credits.
6. Application of transferrable credit, and limitations on transferability of credit, are determined by program requirements and by state or jurisdiction.

Specific regulatory requirements regarding credit application limits are listed in the table below and apply to residents and non-residents attending a UOPX ground campus located in a restricted state, regardless of modality of study (unless otherwise stated in the table below). Use this table for the given states only.

**Prior Learning Assessment Eligibility Guidelines**

University of Phoenix (UOPX) offers Prior Learning Assessment (PLA) as an option by which officially evaluated students can earn assessed credits toward degree completion requirements.

All prior learning must have academic equivalence to college-level learning to be awarded credit.

- All coursework, professional training, and experiential learning must be of sufficient academic merit, and must be determined to have learning, rigor and breadth of knowledge at the post-secondary level as defined by the University’s acceptable transfer activity policy.
- Credit is granted for demonstrated knowledge, not for experience alone. Learning must be clearly differentiated from experience through the appropriate demonstration of knowledge application and supporting documentation.

Students are required to submit official and verifiable supporting documentation for all courses, professional training, and experiential journals upon applying to PLA. This documentation includes, but is not limited to, proof of completion, proof of course length, proof of course modality, course descriptions, and verification letters. Documentation of professional training submitted for evaluation must match the timeframe in which the license was completed.

The student must demonstrate college-level writing skills in experiential journals conforming to the writing standards required of all students enrolled at UOPX.

Credits will be awarded for coursework, professional training, and experiential learning only when it does not duplicate credits previously applied as transfer activities, the UOPX required course of study, or topics from other submissions for credit.

UOPX integrates best practices and frequently consults and reviews standards from industry leaders such as the Council for Adult Experiential Learning (CAEL) and the American Council on Education (ACE) when assessing prior learning.

UOPX recognizes credit recommendations of the American Council on Education ACE/CREDIT Guide, the American Council Guide to Educational Credit by Examination, and the National College Credit Recommendation Service (NCCRS). Credit is awarded using the recommendations as a guide and is not required to be assessed internally by the University's PLA department.

Courses which have been transcripted for academic college-level credit by a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation are not eligible for evaluation through the assessment process, whether or not credit has been awarded, unless they are Continuing Education Units (CEU), professional training courses, extension courses, or courses that are generally considered less than degree applicable college-level credit.

UOPX or Apollo Education Group noncredit courses and certificates resulting in Continuing Education Units (CEUs), Professional Development Units (PDUs), or Contact Hours cannot be submitted to the University's internal PLA department for assessment.

PLA may apply toward both the lower division and upper division credit requirements of the University’s undergraduate degree programs unless otherwise specified in policy or limited by the state or jurisdiction of a student’s residence. PLA may also apply toward graduate level requirements upon the assessment and review of the activity by the appropriate college in which the associated graduate-level program or courses reside.

Students may not rewrite an experiential journal more than once. Students may submit a completed experiential journal up to 90 days after a journal topic has been removed or modified from the Approved Journal Topic List.

The University of Phoenix Code of Academic Integrity Policy is applicable to all PLA submissions.
Prior Learning Assessment Credit Assessment
Credit is awarded based on clock hours or academic content equivalence as determined by Prior Learning Assessment (PLA) evaluators, one of the University’s colleges, or the Provost’s Office. All applicable coursework and training determined to be post-secondary content using a clock-hour conversion will be evaluated for PLA credit using the following clock hour-to-credit ratio:
- 15 in-person classroom instruction clock hours = 1 semester credit
- 30 laboratory = 1 semester credit
- 30 self-paced study clock hours = 1 semester credit
If an item submitted for professional training review is determined by the PLA evaluator to be so extensive that it is worth more than three credits, the evaluator may recommend division of the content into multiple course titles.
Experiential journals will be awarded one, two, or three lower division or upper division undergraduate semester credits as indicated on the Approved Journal Topics List.
With an approved journal, the student will be awarded the credit as indicated in the journal submission documentation. Incomplete or unsatisfactory journals will not be awarded credit. No partial credit will be awarded for journals.
Experiential journals will be awarded credit limited in application to elective and/or general education options at the undergraduate level only.
Assessed credits will appear on the student’s University of Phoenix transcript after they are awarded.
Students have the right to challenge credit awards. Challenges must be submitted to PLA in writing by the student within six weeks of the date of the credit award letter. Challenges received after this date will not be considered.
A student enrolled in an associate degree program may earn a maximum of 15 credits for experiential journals and a student enrolled in a bachelor's degree program may earn a maximum of 30 credits for experiential journals.
Corporate Agreement - Credit Recommendation Guide
The University creates corporate agreements with other corporations as appropriate in order to enhance transfer credit options for students coming to University of Phoenix. Transfer credit recommendations are created in the format of a Credit Recommendation Guide (CRG).
CRGs define transferability, applicability, and individual credit recommendations of corporations' professional training/seminars (assessed as comparable to college-level learning) to University undergraduate degree program credit requirements. Credits indicated on a CRG are only a recommendation and not a guarantee of credits to be awarded as professional training programs, as content may change over time.
Evaluation and determination of credit award for activities listed on the CRG will follow the Credit Assessment Guidelines as indicated in PLA Credit Assessment. A list of corporations with which University of Phoenix has established corporate agreements can be viewed at http://www.phoenix.edu/admissions/prior_learning_assessment/corporate-credit-recommendation-guide.html.
Prior Learning Assessment Fees
There are no fees associated with the services rendered or awarding of credit through Prior Learning Assessment.
Standardized Credit Recommendations
Credits awarded through the assessment process are applicable to University of Phoenix degrees, and may be transferable subject to the receiving institution's discretion.
Credit awards are applied toward UOPX Degrees. Student degree program admission is required (all other transfer credit applied in the program) prior to portfolio submission.
Approved Institutional Accrediting Bodies for Transfer Activities and Admission Requirements
The University requires that transfer coursework, or previously completed degrees for admission or for waiving specified program requirements, be completed at institutions with accreditation that meets the standards appropriate to the specific University program requirement to be satisfied.
Transfer coursework or previously completed degrees must come from institutions accredited by one of the following institutional accrediting bodies. In some cases, the nature of the University program requirement to be satisfied requires that coursework or previously completed degrees come from an institution accredited by an institutional accrediting body from a more restrictive list. In such cases, the approved accrediting bodies will be specified in the program's policy.
- ACCJC - Accrediting Commission for Community and Junior Colleges
- HLC - Higher Learning Commission
- MSACHE - Middle States Commission on Higher Education
- NECHE - New England Commission of Higher Education
- NWCCU - Northwest Commission on Colleges and Universities
- SACSCOC - Southern Association of Colleges and Schools Commission on Colleges
- WSCUC - Western Senior College and University Commission
- AARTS - Association of Advanced Rabbinical and Talmudic Schools, Accreditation Commission
- ABHE - Association of Biblical Higher Education
- ABHEES - Accrediting Bureau of Health Education Schools
- ACCSC - Accrediting Commission of Career Schools and Colleges
- ACCET - Accrediting Council for Continuing Education and Training
- ACICS - Accrediting Council for Independent Colleges and Schools
- ATS - Association of Theological Schools in the United States and Canada / Commission on Accrediting
- COE - Council on Occupational Education
- DEAC - Distance Education Accrediting Commission
- NACCAS - National Accrediting Commission of Career Arts & Sciences
- TRACS - Transnational Association of Christian Colleges & Schools / Accreditation Commission
College Articulation Agreement

Articulation agreements will define the transferability and applicability of a given course or program into the University from the Articulation Institution to satisfy University of Phoenix (UOPX) lower division credit requirements for undergraduate degree programs. College Articulation Agreements will only be created for institutions that offer associate degrees, or higher, that are accredited by an approved institutional accrediting body.

Transient Student Policy

A transient student is an individual who is enrolled in a degree program at an outside institution but is approved to complete non-degree coursework at University of Phoenix (UOPX) to fulfill program requirements at their home institution. Prior to being scheduled for coursework at UOPX, transient students must have a Transient Student Request form from one of the approved institutions listed below on file.

- Paul Quinn College
- South Carolina State University

Students attending the University as transient students:
- Will be held accountable for, and be governed by, all University classroom, conduct, and other associated policies regarding student behavior and academic progression as set forth in the University’s Academic Catalog.
- Will not be reviewed for the specific University admission requirements as a degree-seeking student.
- Are held to their home institution’s academic preparedness requirements and will not be individually reviewed for satisfying University pre-requisite requirements for the courses they are entering.

Preferred Transfer Institution Policy Exceptions

Applicants to University of Phoenix (UOPX) who are transferring from closed (or closing) institutions will be allowed exceptions to specific UOPX admission and academic policies if UOPX is designated as a preferred transfer institution. Policy exceptions will be established, where reasonable, to ensure a timely and efficient admission process and to minimize any loss of credits in transfer.

Credit Application Limits Effective 4/1/2020:

<table>
<thead>
<tr>
<th>State</th>
<th>Total Credit Awards</th>
<th>Areas Restricted</th>
</tr>
</thead>
<tbody>
<tr>
<td>Georgia Residents (Local Campuses and Online)</td>
<td>Undergraduate students cannot exceed 75% of their degree being earned using a combination of these award types.</td>
<td>- Transfer credits</td>
</tr>
<tr>
<td></td>
<td>Graduate students cannot exceed 66% of their degree being earned using a combination of these award types.</td>
<td>- National Testing Programs - Including A.C.E. evaluated military or workforce training activities (e.g. StraighterLine, Sophia Learning, Study.com)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Portfolio Assessments</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Experiential Journals</td>
</tr>
</tbody>
</table>

Coursework earned in the following ways will not be accepted in direct transfer towards University program requirements:
1. Credit is not awarded for transfer activity that duplicates or is regressive to previously completed transfer activities, either at the same or a different transferring institution. If a transcript is received by the University following initial evaluation that shows that a transfer activity duplicates an activity that has already been accepted in transfer or successfully completed at UOPX, only the credit awarded to the initial activity will be accepted and reviewed for applicability to the student’s program.
2. Professional development level or vocational courses as determined by the issuing institution’s transcript key or program description.

**Associate degree transfer policy:** Students transferring to University of Phoenix (UOPX) into an undergraduate bachelor’s degree program (excluding BSN, LPN/BSN, LVN/BSN, P/VN/BSN, BSLS, BSED, BS/BIO, BA/ENG, BS/EVS, BS/HST, BSCYB, BSCS, and BSIT [all concentrations]) with a previously completed Associate of Arts degree from an institution with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, will be considered as satisfying the lower division elective and general education requirements making the student required course of study ready at UOPX. Students using this policy will still need to meet all prerequisite or specific content requirements as outlined in the Academic Progression and General Education Requirements policy sections for their chosen program. For students using this policy, credits applied towards the UOPX degree program may not exceed the amount of credits earned for the previously completed Associate of Arts degree.

**California block transfer policy:** Students transferring to UOPX into an undergraduate bachelor’s degree program (excluding BSN, LPN/BSN, LVN/BSN, P/VN/BSN, BSLS, BSED, BS/BIO, BA/ENG, BS/EVS, BS/HST, BSCYB, BSCS, and BSIT [all concentrations] or students residing in Arkansas, Nevada, Oregon, or Puerto Rico) with a previously completed CSU (California State University) or IGETC (Interssegmental General Education Transfer Curriculum) certification from a California college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation will be considered as satisfying the general education liberal arts component for their degree program. Students using this policy will still need to meet all prerequisite or specific content requirements as outlined in the Academic Progression and General Education Requirements policy sections for their chosen program. Students may appeal transfer activity evaluation decisions to the Student Appeals Center (SAC) within 90 days from notification of the decision by the University.

A signed Enrollment Agreement must be on file prior to the official evaluation being completed. Once evaluated and applied, transfer activities may not be unapplied.

**NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION**

The transferability of credits you earn at University of Phoenix is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree, diploma, or certificate you earn is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree, diploma, or certificate that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending University of Phoenix to determine if your credits or degree, diploma or certificate will transfer.

**Reverse Transfer Agreements**

University of Phoenix has established reverse transfer agreements with transfer agreement institutions. With a reverse transfer agreement in place, University of Phoenix will notify the transfer agreement institution through the National Student Clearinghouse for students that have consented to the release of their records to a previously attended institution that also are meeting certain credit requirements that indicate the student may be eligible to earn an associate degree from the transfer institution.

The transfer institution may pursue communication with the student to discuss requirements and may award the associate degree to the student per its discretion after an official credit evaluation is conducted.

**Add or Change Program or Modality**

Students changing their program or adding an additional program must enter into the most current program available in their state or jurisdiction. Students making a permanent change from one modality to another (e.g., online to local campus, or local campus to online) are required to sign a new Enrollment Agreement specific to the new modality.

**Course Waivers**

The University defines a course waiver as the substitution of a required course at the University with a course at the same level or higher listed on an official transcript from another institution, or another acceptable transfer activity.

- The University may apply course waivers based on evaluation of completed coursework as indicated on the student’s official transcript(s).
- Students may request a course waiver through the Office of Admissions & Evaluation. An official catalog course description must accompany every course waiver request. An official transcript from the institution where the course was completed must also be submitted, unless it has previously been submitted to the University as part of the application process.
- Once evaluated and applied, course waivers may not be unapplied.
- Nationally recognized and/or industry accepted certifications or training programs may be used to waive certain courses in the required course of study upon approval by the appropriate college, and will not require Prior Learning Assessment. All waivers using certifications must be verified by an official transcript or completion documentation from the certifying organization.
- The program policies for the student’s program should be reviewed for program-specific course waiver policies.
Course Equivalencies

Equivalent courses are University approved courses that act as an acceptable alternative to a required course, as determined by the applicable college, and may apply to a program in place of that required course. Courses must have substantially similar content, course objectives, and/or learning outcomes. Equivalencies are subject to change based on program update or college need.

Equivalent courses must be at the same level or higher than the courses they are replacing and must have the same number of credit hours or higher.

Combination equivalencies are used when the content of two or more courses taken together are deemed to have substantially similar content, course objectives, and/or learning outcomes to the content of one course. Unless stated otherwise, when a combination equivalency is used to satisfy a course, the excess credits from the combination may apply toward the Additional Liberal Arts, Interdisciplinary, and/or Elective requirements for the program. If all courses needed to satisfy a combination equivalency are not successfully completed, the equivalency will not be satisfied. Students should complete the required course as outlined in the program policy.

When equivalent courses are completed, only the most recently completed course will be counted for credit and GPA calculations. Equivalent courses are subject to the minimum grade requirement for courses applicable to a student's program.

Academic Advisement

All students will have an Academic Counselor to support them in their educational journey from the start of their first class until after graduation. Academic Counselors work with students holistically on needs that exist both inside and outside of the classroom. Academic Counselors collaborate with students on the development of their individualized academic plans, assist with educational milestones, and maintain the commitment to earn a degree. Academic Counselors also educate students regarding the requirements of their academic program, ensure that students have the information they need to make informed decisions about their career goals, and provide coaching to support students in overcoming any obstacles that may arise on their path to graduation.

Additional services available on the student website include transfer credit summaries, official grades, program GPA, the ability to request transcripts, and access to a variety of career resources. All students are notified of their official transfer of credits at the time of official evaluation and may review their official transcript evaluation, which includes evaluation of course waivers for core courses in the student's Academic Plan. Progress toward degree completion can be reviewed at any time on their student website.

Enrollment Status

The University recognizes the following enrollment statuses:

<table>
<thead>
<tr>
<th>Enrollment Status</th>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active Full-Time</td>
<td>F</td>
<td>The student's required academic workload for their program is at least 6 credits for an academic year, the student is meeting course attendance and the student's official last date of attendance based on Academically Related Activities (ARAs) does not exceed 14 days. Institutionally Scheduled Breaks and In Progress Extension (IX) grades are excluded from the 14-day out of attendance calculation.</td>
</tr>
<tr>
<td>Active Less Than Half Time</td>
<td>L</td>
<td>The student's required academic workload for their program amounts to less than the 6 credits for an academic year, as determined by the institution. In addition, the student is meeting course attendance and student's official last date of attendance based on ARAs does not exceed 14 days. Institutionally Scheduled Breaks and IX grades are excluded from the 14-day out of attendance calculation.</td>
</tr>
<tr>
<td>Leave of Absence</td>
<td>A</td>
<td>The student is on an approved Leave of Absence (LOA).</td>
</tr>
<tr>
<td>Withdrawn</td>
<td>W</td>
<td>The student has been withdrawn from the University.</td>
</tr>
<tr>
<td>Academic Complete</td>
<td>C</td>
<td>Academic program requirements have been satisfied, as identified by the academic complete date field in the academic system of record; however, the student's program has not been officially audited nor has the University Registrar's Office officially conferred the credential.</td>
</tr>
<tr>
<td>Graduated</td>
<td>G</td>
<td>The student has completed all program requirements and credential is conferred.</td>
</tr>
<tr>
<td>Deceased</td>
<td>D</td>
<td>The student is deceased.</td>
</tr>
</tbody>
</table>
The University recognizes the following course statuses:

**AW (Administrative Withdrawal)**
Student has been withdrawn from a course for failure to meet academic, admissions, candidacy, financial, or code of conduct policies.

**AU (Audit)**
Student has received appropriate approvals to observe the course and will not receive a letter grade.

**CO (Completed)**
Student has attended enough workshops to meet minimum attendance requirements and to receive a letter grade.

**DR (Dropped)**
Student was in a SC or EN course status and has requested to be removed from the course. The student has not met the minimum attendance requirements in the course.

**EN (Enrolled)**
Student has satisfied at least one week of positive class attendance and continues to actively meet class attendance requirements.

**OB (Obsolete)**
Student has been scheduled for a course that has been retired and that will no longer be offered by the University.

**SC (Scheduled)**
Student has been scheduled for a course and no class attendance has been posted.

**TA (Insufficient Attendance)**
Student has been automatically removed from the course due to not meeting minimum class attendance requirements.

**WI (Withdrawn for Admissions)**
Student has not been officially evaluated or student has been removed from Admitted (AM) status after completing five courses.

**WO (Waived with Credit)**
The Office of Admissions and Evaluation or the Registrar's Office has processed a waiver.

**WP (Withdrawn for Prerequisite)**
Student has failed to meet the course or program prerequisite requirement.

**WV (Exemption)**
Course has been waived without credit.

The program level enrollment status determines a student’s overall enrollment status with the University. If there are multiple programs on record, the overall enrollment status will reflect the enrollment status of the program with the most recent activity.

**Course Status**

**Course Attendance Policy**

Attendance is mandatory in all University courses. Students satisfy course attendance requirements through the activities listed below:

- **Online:** Students must post at least one Academically Related Activity on at least one day during the online week.
- **Local Campus and In Person Residency:** Students must physically attend the local campus workshop meeting during the scheduled class and sign the attendance roster. Excluding in-person residencies and students in the MSC/CCMH program, students at the Phoenix campus have the option to attend the local campus workshop meeting during the scheduled class time virtually; virtual attendance is recorded based on students accessing the online virtual class session in Blackboard Collaborate during the scheduled class time.

Students attending the Phoenix campus, who are using VA Chapter 33 Benefits, must attend class in-person at least once during each course in order to be eligible for the local MHA rate when in-person attendance resumes at the campus.

- Most local campus courses meet four hours per week.
- Most in-person residency courses meet eight hours per day and require daily sign-in on the attendance roster.

**Directed Study:** Students must post one Academically Related Activity during the scheduled class during the online week.

**FlexNet:** Students are in attendance at the local campus workshops if they physically attend the local campus workshop meeting during the scheduled class hours and sign the attendance roster. They are in attendance during the online class weeks if they post one Academically Related Activity on at least one day during the online week.

**Candidacy Statuses**

**Level 1 Candidate Status:** Level 1 candidate status is determined at the time of admission and is based on the admission requirements for the desired program. Not all programs have a candidate status requirement.

- **1S:** Level 1 Candidate Status Satisfied: Applicant has met admission requirements and has been admitted.
- **1N:** Level 1 Candidate Status Not Satisfied: Applicant has not met admission requirements, has been denied admission, and therefore does not meet the requirements to achieve Level 1 candidate status. Applicants in a 1N candidate status are restricted from taking courses and are administratively withdrawn from the University until admission requirements are met.

**Level 2 Candidate Status:** Level 2 candidate status is a review of additional requirements needed for the student to progress in their program past a certain point, as designated in program policy.

- **2S:** Level 2 Candidate Status Satisfied: Student has met the additional requirements by the specified deadline indicated in the program requirements.
- **2N:** Level 2 Candidate Status Not Satisfied: Student has not met the additional requirements by the specified deadline indicated in the program requirements. A candidate with a status of 2N will be administratively withdrawn from the University and restricted from attending any future courses until the requirements are met.
• **Preceptorship Clinical Courses:** Students enrolled in preceptorship courses are not required to meet classroom workshop attendance in person as they are required to complete supervised clinical hours offsite. Attendance for the course is recorded weekly by the faculty member as documented on the attendance roster to record preceptorship progression. Students are responsible for notifying the faculty member prior to the start of the course workshop week if they are no longer engaging in required supervised clinical activity, and plan to withdraw from the course, to ensure attendance is recorded accurately.

• **Counseling Residency Courses:**
  - **Online week:** Students must post at least one Academically Related Activity at least one day during the online week.
  - **Three day residency:** Attendance for the course is determined by the online week requirements. Students who do not physically attend any day during the in person residency will receive a failing grade for the course.

**Unexcused Absence Policy**

Unexcused absences will result in an automatic "W" grade if students miss more than the maximum allowed absences. Students who miss equal to or less than the maximum allowed absences by the end of their course will receive a letter grade and will not be eligible to receive a "W". Refer to the chart below:

<table>
<thead>
<tr>
<th>Number of workshops</th>
<th>Allowed Absences</th>
<th>Absences resulting in Withdrawal (W) grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-4</td>
<td>0</td>
<td>1</td>
</tr>
<tr>
<td>5-9</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>9 (Online associate)</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>10-59 (excluding CBE courses)</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>60+</td>
<td>9</td>
<td>10</td>
</tr>
</tbody>
</table>

Students may submit a request for an excused absence prior to or after the missed week of attendance (for courses with a weekly attendance requirement), for one of the following reasons with supporting documentation:
- **Military deployment**
  - Documentation can consist of military orders.
- **Required military training**
  - Documentation can consist of military training orders.
- **Extreme serious illness or hospitalization of student or family member**
  - Documentation can include a note from the doctor or release from the hospital. The documentation does not need to contain specifics of the medical condition and/or injury, etc.
- **Title IX - Pregnancy and Childbirth**
  - A student must be excused for medically necessary absences due to pregnancy, pregnancy-related conditions, or childbirth for as long as the doctor deems the absence(s) medically necessary.
  - Documentation can include a note from the doctor, release from the hospital, and any other documentation that would typically be required for other medically necessary absences.
- **Death of a family member**
  - Documentation can consist of a copy of the deceased’s obituary.
- **Jury Duty**
  - Documentation can consist of a copy of the jury summons.
- **Other extenuating circumstances**
  - Students may request an excused absence based on extenuating circumstances, as approved by the University.
- **Natural disaster, inclement weather, or emergency situations that require campus(es) to cancel classes.**

**Academically Related Activities**

Academically Related Activities (ARAs) are used to determine academic engagement, and a student's official last date of attendance and corresponding enrollment status at the University. ARAs are also used to determine the effective date of active and withdrawn enrollment statuses. The following activities that occur on or after the course start date and on or before the course end date will be considered ARAs by the University:
- Discussion posts via Blackboard in a course
- Assignment submissions posted via Blackboard in a course
- Quiz/Exam submissions via Blackboard in a course
- Participation in an interactive tutorial, webinar, or other interactive computer-assisted instruction that is graded and required in a course
- Participation in a learning team session with one or more other classmates conducted via Blackboard Collaborate, that lasts at least two minutes, excluding faculty-led instruction sessions
- Learning team discussion posts in the Assignment Submissions section via Blackboard in a course
- Student interactions with faculty regarding academic matters via Blackboard Messages or Collaborate sessions
- Physical Attendance verified by a signed attendance roster in local campus and in-person residency courses only

ARAs will not be recorded for Audited (AU) courses regardless of activity type, or for orientations that are required for admission to a program and that are not part of the program’s required course of study.
Concurrent Enrollment

- Concurrent enrollment is defined as simultaneous enrollment in any two or more University of Phoenix (UOPX) courses. Students enrolled in courses outside the University are excluded from this definition. Courses will be considered concurrent when start and/or end dates overlap.
- Students enrolled in an undergraduate or graduate degree program may not enroll in more than two credit-bearing courses concurrently.
- Non-degree students, who have successfully completed one course with the University, may enroll in up to three non-degree, credit-bearing courses concurrently.
- Concurrent enrollment is prohibited in the following scenarios:
  - the first two courses at their current program level, unless they are enrolled in a CBE program.
  - during the Phoenix Success Series for students in Pathway B
  - student is on Academic Probation (AP) status.
- Some programs may have additional program-specific concurrent enrollment policies. Any additional requirements are documented within policy for those specific programs.

Course Credits

All credits issued for successfully completed University of Phoenix course work are in semester credits. Courses numbered 100-299 carry undergraduate, lower division credit. Courses numbered 300-499 carry undergraduate, upper division credit. Courses numbered 500-599 carry graduate credit. Professional courses numbered 600-699 may be applied to either undergraduate or graduate credit requirements. Courses numbered 700-799 carry doctoral credit.

Most courses are three semester credits. In a typical three-credit course, and consistent with federal and accreditation requirements regarding the award of college credit, students can expect to engage in a minimum of 45 hours of faculty directed learning activities including classroom-based instruction/discussion, learning team projects, and/or additional learning activities (e.g., simulations, tutorials, videos, etc.). Additionally, students can expect to engage in a minimum of 90 hours of faculty recommended homework (i.e., reading, research, assignment development, and class preparation). These faculty-directed and student-directed expectations are intended to ensure a minimum level of content coverage and overall curriculum rigor is achieved in addressing the course objectives.

Grading Procedures

Course grades can be viewed on the student website (http://my.phoenix.edu) on the Academic Plan tab. In addition, students may view their grades on the official and unofficial transcript available on the home page by selecting Order Transcript. Faculty members are required to post final grades within seven days of completion of the course.

The University has established the following grading guidelines to be complied with by all faculty.

Grade Definitions

Student grades represent the work and knowledge level attained within the regularly scheduled course dates. Only the faculty member assigned to teach a specific course is authorized to issue grades to the students in the course. Final grades may only be changed by the faculty member after the grades have been submitted if an approved formal grade dispute is on file or if the faculty member determines the original grade was improperly calculated.

Effective 9/1/2007, the University of Phoenix (UOPX) has established the following grading guidelines with which all faculty must comply:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A–</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B–</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
</tbody>
</table>

The following grades are not issued quality points and do not calculate into the GPA:

I = Incomplete
IP = In Progress
IX = In Progress extension
W = Withdrawal
P = Passing
AU = Audit
QC = No grade awarded
NC = No credit
WC = Waived with credit
RC = Removed Course

The minimum passing grade for a University course is D–; however, some University programs and courses require higher minimum grades. Minimum grade requirements are documented within policy for those specific programs. Students who receive a grade below the minimum passing grade established for a course will not earn quality points, as the grade is considered a failing grade.
A = Outstanding achievement. Student demonstrates intellectual initiative in accomplishing course goals and objectives through high levels of originality and creativity.

B = Very good work. Student performance meets designated course goals and objectives by demonstrating understanding of the course materials at an acceptable level.

C = Average work. Student performance demonstrates average comprehension and satisfactory achievement of the course goals and objectives.

D = Minimally acceptable work. Student performance demonstrates minimum acceptable performance in accomplishing course goals and objectives.

F = Failing. Student performance demonstrates unsatisfactory or below minimally acceptable achievement in accomplishing course goals and objectives.

I = INCOMPLETE. Student is granted extension to complete assignments. A student who receives an Incomplete is given up to five weeks, at the discretion of the faculty, beginning five days after the scheduled course completion date, to complete the course requirements and receive a grade.

Each assignment submitted during the Incomplete extension period will receive a 20% deduction, regardless of the circumstances under which the Incomplete was granted. Students who do not complete any additional course requirements prior to the new deadline will be awarded the grade earned for the entire course, as though an Incomplete grade had not been requested. Faculty members are required to produce completed Incomplete Grade Contracts as needed to enforce the new course completion deadline.

Incomplete grades shall be granted for active duty military personnel, regardless of component and including reserve and National Guard personnel who are deployed in operational war zones or in adjacent geographic areas in support of operational war zones. An “operational war zone” is, for purposes of this policy, defined as an area of operations where military personnel are engaged in active conflict or in post-conflict activities. If the student would like an opportunity to complete the course while deployed, an Incomplete “I” grade can be issued instead of a “W” grade. The “I” grade may be issued with an initial extension of six (6) weeks beyond the traditional five (5) week extension. The practice of deducting 20% per assignment submitted during the Incomplete extension period shall be waived for deployed students.

IP = IN PROGRESS. An IP grade may be awarded in the following instances:

- IP grade can only be awarded in qualified courses by the instructor. The IP grade allows the student additional time to complete requirements. IP grades will default to a QC or an F, depending on the course, if a letter grade is not posted by the instructor by the end of the IP timeframe. Faculty are not required to subtract one letter grade for IP grade awards.

IX = IN PROGRESS EXTENSION. An IX grade may be awarded in the following instances:

- This grade is only awarded to eligible students who are approved for reasonable accommodations under the Americans with Disabilities Act (ADA) or Title IX.
- For ADA: A new IX course completion date for ADA accommodations must be determined by the Disability Services Advisor. The Registrar’s Office will work with the Disability Services Advisor to determine the IX course completion date for ADA accommodations.
- For Title IX: A new IX course completion date for Title IX accommodations must be determined by Title IX. The Registrar’s Office will work with the Title IX Coordinator to determine the IX course completion date for Title IX accommodations.
- Students who are approved for reasonable accommodations will not have their grades penalized after completing the course to comply with an academic adjustment granted by the University in accordance with ADA and Title IX.
- IX grade will default to an F when the course exceeds its expiration date and no grade has been submitted.

QC = No grade awarded. A QC is awarded in the following instances:

- This grade may be used for zero credit courses once the attendance requirement has been satisfied.
- A QC grade may automatically post for certain Doctoral and Counseling courses when the IP period expires and no formal grade has been submitted.
- This grade allows students to repeat a course without penalizing their GPA in eligible courses.

AU = AUDIT. Students will receive a designation of “AU” on their permanent record which will not carry any academic credit because there is no measurement of the student’s performance.

W = WITHDRAWAL. Student withdrew due to exceeding the maximum allowable absences from the course or has been administratively withdrawn by the University. A “W” grade will be issued in the following scenarios:

- The student recorded positive class attendance in at least one scheduled week and did not meet the class attendance requirements due to exceeding the maximum allowable absences.
- The student recorded positive class attendance in at least one week and has been administratively withdrawn from the University and/or program during the course.

P = PASSING. Student satisfactorily completed the course.

NC = NO CREDIT. Student withdrew from the course; no grade was issued.

WC = WAIVED WITH CREDIT. UOPX required course, waived with credit.

RC = REMOVED COURSE. Student has posted attendance in a course that has been approved by the University Registrar (or designee) to be removed from the schedule, without a W grade, for administrative purposes. RC grades are not recorded on official transcripts.

Grade Reports and Transcripts

At the end of each course, the faculty member submits and posts grades for each student. Students can view their course information including grades, GPA, program information and scheduled courses online at http://my.phoenix.edu. The student’s official transcript is prepared by the Registrar’s Office. The official transcript will show the current enrollment status, all program(s) and GPAs as well as courses, grades, credits, and dates of instruction for all graded for-credit courses taken at University of Phoenix. Credits awarded from the Prior Learning Assessment will be recorded on the transcripts as the credits are awarded and assessment fees are paid. Only a summary of credits transferred by institutions will be included on the transcript. If itemized information for these credits

Credits awarded from the Prior Learning Assessment will be
Program and Cumulative Grade Point Average

Program GPA is calculated using all University of Phoenix (UOPX) courses applicable to the student’s degree or certificate program. Program GPA is the sum of the student’s UOPX program-specific quality points divided by the sum of the student’s UOPX attempted credits.

UOPX cumulative GPA is a calculation of all completed UOPX courses. Cumulative GPA is the sum of the student’s UOPX quality points divided by the sum of all the student’s UOPX attempted credits.

The following quality points are associated with the respective grades below:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>

Program applicable coursework that may not apply toward the program in terms of credit but is needed to fulfill a proficiency, prerequisite, or other degree requirement will be included in the program GPA.

Academic Forgiveness

- University of Phoenix (UOPX) provides the following academic forgiveness options for students.
- **Course Repeat:** Students wanting to improve their GPA may repeat a previously completed course, or an equivalent to a previously completed course. The initial course will be removed from the GPA calculation, and the most recent course will be applied and calculated regardless of the grade earned. Additionally, the credits earned for the initial course will no longer apply to the student’s record. Refer to Academic Standing and Scholastic Disqualification policies within each program for additional guidelines or limitations.
- **Academic Reprieve:** To allow for a student’s program GPA to recover from lower grades earned due to extenuating life circumstances, students enrolled in an undergraduate degree program, who have completed at least four GPA-applicable UOPX courses, may request to have two course grades removed from calculating into their program GPA for the duration of their undergraduate studies at UOPX.
- Undergraduate students may request to remove only one graduate course completed with a passing grade and applied to their undergraduate program (e.g., through a master’s pathway). Undergraduate students who request to remove a graduate course may request to remove only one undergraduate course. They will not be able to request the removal of another graduate course in a graduate program.
- Students enrolled in a graduate degree program, who have completed at least four GPA-applicable UOPX courses, and who are not on Provisional Admission (PV) status, may request to have one course removed from calculating into their program GPA for the duration of their graduate studies at UOPX.
- Doctoral and certificate programs are not eligible for Academic Reprieve. Students may not request Academic Reprieve on any doctoral course even if it is applied to a graduate program (e.g., through a doctoral pathway).
- Courses removed from the program GPA through Academic Reprieve will continue to apply to the cumulative GPA.
- Required course of study courses in which students earned a non-passing grade, and any course that earns a non-passing grade as a result of a student code of conduct sanction, are not eligible for Academic Reprieve. Additionally, courses that have a minimum grade requirement are not eligible for Academic Reprieve; this may include capstone, practicum, clinical, internship, field placement, and student teaching courses.
- Students who request Academic Reprieve for a course that received a passing grade will continue to receive credit for the course after the grade has been removed from the program GPA calculation.
- Students using Academic Reprieve for a general education or elective course that received a non-passing grade will have the grade removed from their program GPA, but will be required to satisfy the applicable requirement through another UOPX course or an acceptable transfer activity.
- All courses and their associated grades, for which grades are removed from the program GPA calculation as part of the University’s Academic Forgiveness policy, will continue to appear on the student’s official transcript.
- Students are not eligible to apply Academic Reprieve to a program after the degree has been conferred.
Grade Disputes and Corrections

- The University has established a dispute process for students who believe a grade has been awarded incorrectly.
- Student grades may not be changed by the faculty member after the grades have been submitted unless the student initiates the formal grade dispute process or the faculty member determines the original grade was improperly calculated.
- Requests or disputes related to grades must be resolved by the faculty member in accordance with academic policies. The faculty member's decision is final, unless the dispute alleges discrimination or harassment.
- Disputes challenging the accuracy of a grade must be submitted by the student to the faculty member within six weeks from the grade posting date. Grade disputes based on work submitted, class participation, or claiming a calculation error are to be resolved solely by the faculty member, whose decision is final.
- Disputes challenging a grade that also allege discrimination or harassment by the faculty member are addressed according to the Equal Opportunity, Harassment, and Nondiscrimination policies.
- Disputes challenging a grade that also allege violation of an established University policy (other than discrimination or harassment) are addressed by the relevant director of academic affairs, or designee, who may mediate a resolution between the student and faculty member. The decision regarding whether to change the grade rests solely with the faculty member when adhering to academic policies.
- Formal grade disputes will only be reviewed if the student initiated the grade dispute process with their faculty member within six weeks from the grade posting date.
- Decisions for grade disputes must be rendered prior to credential conferral.

Program Academic Standing

The University recognizes the following Program Academic statuses for degree and certificate seeking students:

**Regular (RG)** - Student is in compliance with applicable academic standing and progression program requirements.

**Academic Probation (AP)** - Students will be placed on AP status when their program GPA falls below the minimum GPA required in their program. Students on AP status are restricted to a period of four consecutive (completed) program-applicable courses to bring their GPA to the minimum requirement for their program. Only courses that start and end after the course that placed the student on AP status will apply toward the AP course sequence. Concurrent enrollment is prohibited in this status.

**Effective for Enrollment Agreements signed 7/1/2019 or later:** Students will not be placed on AP status within the first four cumulative GPA applicable courses completed at the University if they meet the following criteria:
- The student is enrolling into an associate or bachelor's degree program (excluding nursing programs)
- The student does not have positive recorded attendance in a UOPX course prior to 7/1/2019
- The student has not completed more than three previous cumulative GPA applicable UOPX courses that started on or after 7/1/2019.

Upon completion of the fourth course, students who are below their minimum required program GPA will be placed on AP status and restricted to a period of four consecutive (completed) program-applicable courses to bring their GPA to the minimum requirement for their program.

**Effective for Enrollment Agreements signed 7/1/2022 or later:** Students enrolling into a master's degree program who do not have positive recorded attendance in a UOPX graduate level course prior to 7/1/2022, and who have not completed more than two previous cumulative-GPA-applicable UOPX graduate level courses that started on or after 7/1/2022, will not be placed on AP status within the first four consecutive-GPA-applicable graduate level courses completed at the University. Upon completion of the third course, students who are below their minimum required program GPA will be placed on AP status and restricted to a period of four consecutive (completed) program-applicable courses to bring their GPA to the minimum requirement for their program. This policy does not apply to students who begin their program in Provisional admission status.

**Effective for enrollment agreements signed 7/1/2020 or later:** Students initially admitted to graduate degree programs on Provisional status (PV) will not be placed on AP within the first four program-applicable courses completed at the University. If students do not achieve a GPA of 3.0 by the end of their fourth course, when they return from Disqualified for Admission status (DA) they will also be placed on AP status.

Students on AP status will have their program academic status evaluated at the time of official evaluation into the new program or program version based on the applicability of previously completed UOPX coursework.

**Student Academic Standing**

The University recognizes the following student academic statuses for degree and certificate seeking students:

**Regular (RG)** - student is compliant with applicable academic standing and progression program requirements.

**Disqualified for Admission (DA)**

Students who are provisionally admitted are placed in DA status when they fail to achieve the minimum-required GPA at the end of the Provisional Admission (PV) period. The date of disqualification is determined by the course end date of the final course completed within the PV period.

Students placed in DA status:
- will be administratively withdrawn from the University and are not eligible to reapply until six months from the date of disqualification.
- may not transfer to another program (including concentration, emphasis, specialization, or major) until they have completed the disqualification period.
• upon returning, students whose program GPA is more than 20% below the minimum program requirement (e.g., 1.6 GPA for programs that require a 2.0 GPA and 2.4 GPA for programs that require a 3.0 GPA) are required to retake or replace the program applicable course(s) that have the lowest grade(s) earned until they are within 20% of their program's minimum required GPA.
• Students in Nursing and Counseling Programs Only: must be granted approval by the Student Appeals Center to return to the University and must meet all conditions of the appeal decision.

Academic Disqualification (AD)
Students on Academic Probation (AP) will be placed in AD status when they fail to achieve the minimum-required GPA at the end of the probationary period. The date of disqualification is determined by the course end date of the final course completed within the AP sequence. The University will note the date a student is placed in and removed from AD on the permanent transcript.

Students placed in AD status:
• will be administratively withdrawn from the University and are not eligible to return until six months from the date of disqualification.
• may not transfer to another program (including concentration, emphasis, specialization, or major) until they have fulfilled the disqualification period.
• upon returning, students whose program GPA is more than 20% below the minimum program requirement (e.g., 1.6 GPA for programs that require a 2.0 GPA and 2.4 GPA for programs that require a 3.0 GPA) are required to retake or replace the program applicable course(s) with the lowest grade(s) earned until they are within 20% of their program's minimum required GPA.
• Students in Nursing and Counseling Programs Only: must be granted approval by the Student Appeals Center to return to the University and must meet all conditions of the appeal decision.

Scholastic Disqualification (SD)
Students are placed in SD status when they do not meet the minimum grade requirement for a designated course in their program. If the minimum grade is not earned, the course will be treated as a non-passing grade (F) and will be awarded zero (0.00) credit. The course will be counted in the calculation of the program GPA based on attempted credits. The University will note the date a student is placed in and removed from SD on the permanent transcript.

Students placed in SD status:
• will not be allowed to continue in their program until they have fulfilled the requirements for progression as determined by their academic program's policies.
• may not transfer to another program (including concentration, emphasis, specialization, or major) without an approved SAC appeal, or until they have fulfilled the requirements for progression.

Scholastic Suspension (SS)
Students are placed in SS status when they are suspended for a designated period or indefinitely from the University. The student will be administratively withdrawn and the University will note the dates of suspension on the permanent transcript. Students placed in SS status will not be allowed to continue in their program or transfer to another program (including concentration, emphasis, specialization, or major) until the designated period for the suspension has ended and/or the student's status has been updated.

Expulsion (EX)
Students are expelled, and placed in EX status, when they are administratively withdrawn from the University and not permitted to return under any circumstance. The date of expulsion is noted on the official transcript.

Maximum Credit Limits
The University has identified the maximum number of credits a student may complete during a 12-month period. This limit is determined based on the student's actual start date in their program at University of Phoenix (UOPX). The number of credits completed within a 12-month period is limited by the program level and the student's academic progression.

• Undergraduate students may complete a maximum of 45 UOPX credits in a 12-month period.
• Graduate students may complete a maximum of 39 UOPX graduate credits in a 12-month period.

Students who are enrolled in both graduate and undergraduate programs are limited by the undergraduate credit maximum.

Late Assignments
Individual course assignments will be accepted up to four days after the assignment due date, with a maximum 10% deduction for lateness. This includes final week individual assignments, which may be submitted up to four days after the course end date.

Course participation requirements must be met within the designated course week.

Academic Recognition
University of Phoenix (UOPX) recognizes exceptional academic performance by students in a degree program on a semi-annual basis through placement on the Dean’s List for their college, or on the University President’s List.

To be eligible for recognition through placement on their college Dean’s List, associate, bachelor’s, and master’s degree program students must meet the following criteria for courses completed during the six months prior to each semi-annual Dean’s List publication:
• Complete at least 12 UOPX semester hour credits that are applicable to the program GPA toward an associate, bachelor’s, or master’s degree program.
• Have no courses on the student record with I, IX, IP, F, or Credit-Based CBE NM grades (students will be eligible if any of these grades are subsequently changed to an acceptable grade).
• Achieve a qualifying GPA for UOPX courses completed during the six-month eligibility period without the use of Academic Reprieve or course repeats to achieve the qualifying GPA:
  • Associate and bachelor’s programs: 3.50 - 3.99
  • Master’s programs: 3.70 - 3.99

To be eligible for recognition through placement on the University President’s List, associate, bachelor’s, master’s, and doctoral students must meet the following criteria for courses completed during the six months prior to each semi-annual President’s List publication:
• Complete at least 12 UOPX semester hour credits that are applicable to the program GPA toward an associate, bachelor’s, or master’s degree program, or at least nine UOPX semester hour credits that are applicable to the program GPA toward a doctoral program.

University of Phoenix, 2022-2023
UNIVERSITY POLICIES
• Have no courses on the student record with I, IX, IP, F, or Credit-Based CBE NM grades (students will be eligible if any of these grades are subsequently changed to an acceptable grade), or that have been removed from calculating into the program GPA through course repeats or Academic Reprieve.
• Achieve a qualifying GPA of 4.0 for UOPX courses completed during the six-month eligibility period without the use of Academic Reprieve or course repeats to achieve the qualifying GPA.

Direct Assessment CBE, certificate, and en-route programs are not eligible for Dean’s or President’s list.

Institutional Review Board

• The University of Phoenix (UOPX) Institutional Review Board (IRB) will review all studies, pilot studies, institutional reliance or affiliation agreements, policies and legal/regulatory requirements that involve human subjects research before any study or sponsored or non-sponsored research begins. Research conducted using human subjects will be reviewed on a regular basis depending on the IRB decision rendered to ensure compliance with all federal and state laws. No researcher can begin collecting data before receiving IRB approval for the study.
• The IRB is expected to review a research study design presented by the researcher to determine risk to the human research subjects (including physical, psychological/emotional, social, social desirability, and economic risk) as there may be ethical issues that affect the rights and welfare of research participants.
• UOPX holds a Federal Wide Assurance filed with the US Department of Health and Human Services (FWA: 00004202) and maintains an IRB to assure that all UOPX research involving human subjects complies with federal human research regulations (45 CFR 46).
• The UOPX IRB follows the ethical principles set forth in The Belmont Report: Ethical Principles and Guidelines for the Protection of Human Subjects of Research, the federal human research regulations (45 CFR 46), and guidance from the federal Office of Human Research Protections (OHRP).
• All faculty, students, staff, and external researchers who engage with UOPX for their research, sponsored or non-sponsored, involving human subjects must have the UOPX IRB review and approve their study, or have their study determined exempt from oversight before beginning any research activities associated with a pilot study or a full research study. There are no exceptions if human subjects are involved. Doctoral students must have an approved proposal through the Quality Review Methods (QRM) process and should have their dissertation chair work as a co-principal investigator (co-PI). If UOPX faculty, staff, or students are part of the study population, then Committee on Research (COR) approval is required before an IRB review can be conducted.
• UOPX has charged the IRB with ensuring that all legal/regulatory and ethical codes are upheld for studies conducted by UOPX researchers at all institutional and non-institutional sites of this institution both domestic and foreign.
• All students, staff, faculty, and external researchers who are conducting human subject research under the auspices of UOPX are required to complete an IRB application and have this application reviewed before they begin any research activities involving human subjects. Researchers must complete human subjects’ ethics training through the Collaborative Institutional Training Initiative (CITI) Program and receive CITI certification prior to submitting an IRB application for review and beginning research activities. CITI certifications must be renewed every two years while conducting research reviewed by the UOPX IRB.

Required Procedures: IRB Review, Research and Reports

• IRB Review: The UOPX IRB conducts an initial review of the research protocol using the IRBNet application and all protocol forms based on the federal categories for human subject protections. The protocol forms address both federal and institutional requirements for the study. The initial review of research determines which research studies require full-committee review and which may be reviewed via expedited, exempt, or non-human subject research processes.
• IRB Research: The UOPX IRB provides annual oversight of studies that are determined to be of more than minimal risk to participants. In these cases, researchers are to file a Continuing Review of Research if the study has not been completed within the approval period set forth at initial review, which typically is one year from the initial decision. The IRB can decide that a shorter approval period is appropriate. Studies that are determined to be minimal risk or less than minimal risk are not given an expiration date after the initial exempt determination or approval. For those studies that require continuing review, the Continuing Review of Research form is found in the UOPX IRBNet system.
• IRB Reports: The UOPX IRB may reach out to researchers if the following situations occur: serious or continuing noncompliance with 45 CFR 46 or institutional policies, and if study participants contact UOPX or the IRB Office with a complaint about a study. Researchers are to contact the UOPX IRB Office if unanticipated problems or adverse effects occur during a study being conducted. Unanticipated problems are unexpected incidents (in terms of the nature, severity, or frequency) where an IRB-approved research protocol and informed consent documents are not followed; such incidents relate, or possibly relate, to participation in the research (“possibly relate” means there is a reasonable possibility that the incident or experience or outcome may have been caused by the procedures involved in the research) and the research places participants or others at a greater risk of harm (physical, psychological, economic, or social harm) than was previously known or recognized. Based on an IRB review of the unanticipated problem based on the criteria listed, consideration of substantive changes in the research protocol or informed consent process or other corrective actions may need to occur up to and including suspension or termination of IRB approval. Researchers are to contact the UOPX IRB Office as soon as possible if an unanticipated problem or adverse effect occurs during the study.
Research, Scholarship, and Surveys

General Research Policies

- University of Phoenix (UOPX) encourages student, faculty, and staff research and scholarship efforts. To support faculty, student, and staff research efforts, the University provides an Office of Scholarship Support (OSS) and a series of Research Centers for researchers.
- Research for purposes of this policy is defined as scholarly and scientific inquiry projects focused upon the collection and analysis of empirical data and facts.
- Researchers are students, faculty, staff, or external constituents of UOPX who plan to systematically sample, collect, and analyze data for public dissemination.
- All researchers associated with or conducting research at UOPX must gain appropriate approvals prior to conducting research.
- All research conducted by any student, faculty, or staff of UOPX is subject to Institutional Review Board (IRB) approval. The IRB is a federally required review of all research requests to determine:
  - if the work is research,
  - if the research is on human subjects,
  - if human subjects are involved, the overall risks and if they are protected and treated fairly.
- Research taking place within or involving UOPX, where the subject of any proposed research is UOPX, must gain appropriate approvals prior to conducting research, regardless of the researcher’s affiliation.

The Committee on Research (COR) shall be responsible for the review and approval of any and all research and scholarship, for public dissemination, where UOPX is recognized as a subject. UOPX is considered a subject when the research study:
- samples students, faculty, and staff associated with UOPX
- involves requests that include UOPX records, data, or materials
- uses UOPX-associated systems, websites, and/or tools.

All researchers using UOPX as a subject for research require COR approval prior to UOPX IRB approval. IRB will not approve any UOPX focused studies without COR approval.
- IRB and COR are two separate and distinct groups operating within the structure of Academic Affairs. While the IRB is a federally mandated committee, with the mandate of protecting human subjects from unethical research practices, the development and use of COR is entirely internal to UOPX. If a person or group has received permission from COR to pursue research activities at UOPX and their activities will impact protected populations, as defined under federal law, they must still submit their proposed research to UOPX’s IRB or they must show that they have received approval from another university’s IRB. Approval by COR shall not be misconstrued as approval by an IRB. Further approval from another, non-UOPX IRB prior to COR submission shall not be misconstrued as approval by COR.

- Failure to Comply: Those found doing research related activities and not following these policies, including failure to provide the resulting data, analysis and research instrumentation to the OSS, may be subject to appropriate disciplinary action, including, but not limited to, those documented in the Student Code of Conduct, Employee Handbook and/or Faculty Code of Conduct.

Required Procedures: Conducting Research on UOPX

Students, Faculty, Staff or Data

- Research studies where UOPX is selected or identifiable as a subject or sample must submit a formal request to the Committee on Research (COR) for exempt or approval prior to conducting research.
- COR is a UOPX-wide committee run by the OSS.
- The COR can be found at: https://research.phoenix.edu/content/committee-research Office of Scholarship Support

Leave of Absence

- Students who need to take a formal break from their program must submit a signed, written request for a Leave of Absence (LOA) that includes the date and the reason for the request. All students actively enrolled in certificate and degree programs at the University are eligible to request a LOA.
- Students may be approved by the University for multiple LOAs in a 12-month period; however, the total of all approved LOAs may not exceed 180 calendar days in the 12-month period, including approved LOA days that occur during a period of time when the student is subsequently withdrawn.
- A LOA will not be approved if a student requests the LOA after 14 consecutive days of nonattendance, is in an unofficial withdrawal (UW) status, and the request is not due to unforeseen circumstances that occurred prior to the UW status.
- If a student requests an LOA start date in the future and is officially withdrawn, unofficially withdrawn, or administratively withdrawn from the University prior to the start date of the LOA, the LOA will be denied.
- The University will not allow a student to take two consecutive LOAs separated by an institutionally scheduled break.
- Student must return to the same program of study in which they took the LOA.
- Student must return on the date designated as the Return Date on their LOA Request Form, or the student will be withdrawn from the University.

University Withdrawal

The University Withdrawal policy addresses a student’s separation from the University and is applicable to all students enrolled in degree or certificate programs. Students may be officially, unofficially, or administratively withdrawn. When a student is withdrawn, the University records both a withdrawal effective date and a date of determination (the date when the University determined that the criteria for withdrawal was met).

- Official Withdrawal: Students who provide official notification of the intent to withdraw from the University are considered official withdrawals (OW).
  - The withdrawal date for an official withdrawal is the last date of academic attendance or attendance of an academically related activity (ARA) determined from University attendance records. This date is always earlier than or equal to the date the student notifies the University of his or her official withdrawal.
The date of determination (DOD) for students who officially withdraw from the University is the latter of the student’s withdrawal effective date or the date the student indicated in their notification to the University of his/her official withdrawal.

Students wishing to officially withdraw from the institution may complete the self-service Official Withdrawal automated process via the University student website.

Students who wish to rescind their intent to withdraw from the University must participate in an ARA after the effective date provided on the student’s Official Withdrawal form.

**Unofficial Withdrawal:** Students who do not provide official notification to the University of their intent to withdraw are considered unofficial withdrawals (UW) after 14 days of consecutive nonattendance in an ARA determined from University attendance records.

The withdrawal date for students who cease attendance at the University, including a student who does not return from an approved leave of absence, is the last date of attendance in an ARA determined from University attendance records.

- For a student who fails to return from an approved leave of absence, the University will review the student record on or after the approved LOA end date.
- For a student who is unofficially withdrawn, the DOD is the 15th day after the last attendance at an academically related activity.
- For a student who fails to return from an approved leave of absence, the DOD is the day after the student’s approved LOA end date.
- If a student is granted an extension in the course he or she is currently attending and the intent is to complete the course, the days in the extension period will not count toward the 14 days of consecutive nonattendance in an ARA. During this time a student in an extension period will remain in active status. An extension of the course is indicated by the issuance of an IX (In Progress Extension) grade.
- For a student who is granted an IX grade and does not post an ARA after the IX grade extension end date, the DOD is the day after the student’s IX grade extension end date.

**Administrative Withdrawal:** Students who are withdrawn from the University for failing to meet admission, academic, candidacy, financial or code of conduct policies are considered administrative withdrawals (AW).

- The withdrawal date for students who are AW is the last date of academically attendance or attendance in an ARA that occurred prior to the decision to administratively withdraw the student.
- The DOD for students who are AW from the University is the date the University decides to administratively withdraw the student.

**Course Cancellation**

The University may need to cancel or re-schedule a student’s course due to unforeseen circumstances. In such situations, the University will work with students to reschedule or to transfer to a comparable course. Any payments made for cancelled courses will be refunded or applied to another University course.

**Directed Study Information**

With approval of the Campus and Academic Director or designated appointee, students may complete college-approved courses, as available, via directed study as outlined below:

- **Undergraduate and graduate degree program enrollment:** a maximum of 12 completed credits in the program
- **Doctoral degree program enrollment:** a maximum of 21 completed credits
- **Credit-bearing certificate program enrollment, consisting of four or more courses:** a maximum of 3 completed credits in the program.
- **Deployed active duty military students (local campus only):** a maximum of 15 completed credits per academic year after providing official documentation of the deployment timeframe to their local campus.

As an exception to the program limits outlined in this policy, students in the following programs may complete college-approved courses, as available, via directed study as outlined below:

- Master of Science in Counseling: a maximum of 9 completed credits toward a degree program upon approval by the program chair or designated appointee.
- Doctor of Nursing Practice: a maximum of 12 completed credits in the program upon approval of the Associate Dean or designated appointee.
- College of Doctoral Studies post master’s certificates: a maximum of 15 completed credits in the program upon approval of the campus director of academic affairs or designated appointee.

Students enrolled in a competency-based education (CBE) program cannot complete CBE courses via directed study.

**Course Audit Policy**

With approval of a Director of Academic Affairs or designated appointee, students may register for and audit University courses. Auditing students are passive participants in the class and are not held accountable for Study Group Task/Team work nor for assignment submission unless otherwise negotiated with the faculty member.

Auditing students are governed by all University policies and procedures that apply to non-auditing students. Auditing students who have met the minimum attendance requirements for the course will receive a grade of “AU” on their permanent record which will not carry any academic credit.

ARAs will not generate in Audited (AU) courses regardless of activity type.

Students who have selected to audit a course may not change their auditing status after the start of the course.
**Academic Program Re-Entry**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry into an expired program.
- Any students in College of Education, College of Nursing, or College of Social and Behavioral Sciences programs that either lead to professional licensure or certification, or that require a license, credential, or certification for admission are exempt from this general re-entry policy. Re-entry students who wish to re-enter these programs should review their specific program’s re-entry policies and consult the appropriate University representative for guidance.

**Servicemember Readmission**

An institution may not deny admission or readmission to a person who is a member of, applies to be a member of, performs, has performed, applies to perform, or has an obligation to perform, service in the uniformed services on the basis of that membership, application for membership, performance of service, application for service, or obligation to perform service. This applies to service in the uniformed services and to spouses of those in the uniformed services, whether voluntary or involuntary, on active duty in the Armed Forces, on active duty for training, and National Guard or Reserve duty for a period of more than 30 consecutive days under a call or order to active duty of more than 30 consecutive days. This policy also applies to members of the national guard of any state or the United States Armed Forces Reserves, and to the spouses of those serving, who are ordered to either state or federal reserve component duty.

- The Servicemember Readmission policy will also apply to servicemembers as defined in the paragraph above that are temporarily unable to attend class for less than 30 days due to a military service obligation.

Any student whose absence from the University is necessitated by reason of service in the uniformed services is entitled to readmission if all the following criteria are met:

- The student (or an appropriate officer of the Armed Forces or official of the Department of Defense) gives advanced verbal or written notice to Student Services or Enrollment as far in advance as reasonable under the circumstances of the student's upcoming service obligation. No advance notice by the student is required if the giving of such notice is precluded by military necessity (e.g., a mission, operation exercise, or requirement that is classified, or a pending or ongoing mission, operation, event that may be compromised or otherwise adversely affected by public knowledge). In addition, any student (or appropriate officer of the Armed Forces or official of the Department of Defense) who did not give advance notice of service to the appropriate University representative will meet the notice requirements by submitting, at the time the student seeks readmission, documentation (e.g., deployment paperwork or a letter from the student’s commanding officer) to confirm that military duty was the reason for the student's absence.
- The cumulative length of the absence and of all previous absences from the University by reason of service in the uniformed services cannot exceed five years.
- The student must give oral or written notice of intent to return to the University within three years after the completion of the period of service.
- A student who is hospitalized or convalescing due to an illness or injury incurred or aggravated during the performance of service must notify the University within two years after the end of the period needed for recovery from the illness or injury.

If the student does not submit a notification of intent to re-enter within the time limits or documentation sufficient to establish the student's eligibility for readmission, the student is subject to the University established Leave of Absence policy and general practices.

A student's eligibility for readmission under this policy terminates upon the occurrence of any of the following events:

- A separation of such person from the Armed Forces (including the National Guard and Reserves) with a dishonorable or bad conduct discharge,
- A dismissal of such person permitted under section 1161(a) of Title 10, USC,
- A dropping of such person from the roles pursuant to section 1161(b) of Title 10, USC.

Provided students meet the readmission criteria, the University must promptly readmit students to their program by assisting them in enrolling in the next available class or classes in their program unless they request a later date of readmission or unusual circumstances require the University to admit them at a later date. Unusual circumstances may include the length of any necessary retraining or intervening changes in the circumstances of the University.

When providing readmission to a servicemember, the University must readmit the servicemember with the same academic status as when the student was last admitted. This includes those students who were admitted but did not attend because of service in the uniformed services. The student will be enrolled with the same academic status as long as the University admits the student under the following conditions:
• The student is admitted to the same program to which the student was last admitted or, if that exact program is no longer offered, the program that is most similar, unless the student requests or agrees to enroll into a different program.
• The student is admitted with the same enrollment status that the student last held, unless the student requests or agrees to admission with different enrollment status.
• The student is admitted with the same number of credit hours completed previously, unless the student is readmitted to a different program or program version to which the completed credit hours are not transferable.
• The student is admitted with the same academic standing in terms of satisfactory academic progress (SAP) the student previously had.
• If the student is readmitted to the same program, for the first academic year in which the student returns, the student will be assessed:
  - The tuition and fee charges that the student was or would have been assessed for the academic year during which the student left the institution; or
  - Up to the amount of tuition and fee charges that other students in the program are assessed for that academic year, if veterans’ education benefits, or other servicemember education benefits, will pay the amount in excess of the tuition and fee charges assessed for the academic year in which the student left the institution; or
• If a student is admitted to a different program, and for subsequent academic years for a student admitted to the same program, the student will be charged no more than the institutional charges that other students in the program are assessed for that academic year.

If the student is not prepared to resume the program at the point where the student left off, or will not be able to complete the program, the University will make reasonable efforts to help the student become prepared to complete the program including, but not limited to, providing refresher courses at no extra cost and allowing the student to retake a pretest at no extra cost.

If after reasonable efforts, the student is still not prepared to resume the program at the point the student left off, or the University determines that there are no reasonable efforts that can be taken to prepare the student to resume the program at the point the student left off, or to enable the student to complete the program, the University is not required to readmit the student.

Military Deployment

University of Phoenix supports the educational needs of servicemember students who are temporarily unable to attend class due to military service obligations. The following policy applies both to servicemember students, and to students who are spouses of servicemembers.

When students learn they will be temporarily unable to attend class due to military service obligations, students must notify their academic representative and their faculty member either orally or in writing. In order for the University to provide accommodation(s), students must provide documents sufficient to show the student has a military service obligation.

No advance notice by the student is required if giving of such notice is prohibited by military requirements (e.g. deployment, operation, exercise, or requirement that is classified, or a pending or ongoing mission, operation, exercise or requirement that may be compromised or otherwise adversely affected by public knowledge). In addition, any student (or appropriate officer of the Armed Forces or official of the Department of Defense) who did not give advance notice of service to the appropriate University representative, will meet the notice requirements by submitting, at the time the student seeks re-admission, signed documentation (e.g. deployment paperwork or a letter from the student’s commanding officer) to confirm that military duty was the reason for the student’s absence.

The University is unable to coordinate decisions regarding the student’s record or take action on the student’s record through a third party without appropriate authorization granted through a Power of Attorney.

If the student is enrolled in a course at the time of their military service obligation and would like an opportunity to complete the course in which they are currently enrolled, there are four accommodations which may be used to support the student:
• Excused absences may be granted in accordance with the Excused Absence policy. The University will use discretion and take such action only if the excused absences would benefit the student.
• Allow the student additional time to complete assignments missed due to military service obligation.
• Any points which would normally be deducted for lost participation should be removed from the calculation of the student’s final grade for the affected period.
• An Incomplete (I) grade will be issued instead of a Withdrawal (W) grade. The I grade may be issued with an initial extension of six weeks beyond the traditional five-week extension (for a total of 11 weeks). No grading penalties will be applied to students who receive an I grade for military service obligations.

If the student will be unable to complete the course due to military service obligation, the student may drop from the course and receive a full refund of tuition and fees for the course and a "W" grade will be issued.

Students who will be temporarily unable to attend class due to military service obligations are advised to contact Student Financial Services regarding the status of their account and/or financial aid.
• If documentation is provided at the time of the military service obligation, Student Financial Services will review the student’s account and if it is determined to be applicable, will place the student in Military Forbearance status and/or on a Leave of Absence. Military Forbearance status ensures students do not continue to incur tuition charges and that current tuition charges are placed on hold for payment until the student returns from deployment.

In the event the student wishes to re-enter their program following their military service obligation, the University’s Servicemember Readmission policy may apply.
Holiday Calendar

The University’s holiday calendar is listed below.

2022-2023 Online Holiday Calendar
Winter Break December 20, 2022 - January 2, 2023

2022-2023 Online Associates Holiday Calendar
Winter Break December 20, 2022 - January 2, 2023

Institutionally Scheduled Break

For all students, the University’s winter institutionally scheduled break for the 2022/2023 award year is December 20, 2022 - January 2, 2023.

For students attending a local campus, one or more additional University institutionally scheduled break(s) may apply for University observed holidays for the 2022/2023 award year. For University observed holidays, a one week institutionally scheduled break will be placed on a student’s academic record in the event that the student is enrolled in a course that has been extended at a local campus due to a University observed holiday; the actual dates of the institutionally scheduled break will vary based upon the observed holiday. Currently the University observes the following additional holidays: Memorial Day, Fourth of July, Labor Day, Columbus Day, Thanksgiving Day and day following, Martin Luther King Jr. Day, and Juneteenth.

Program Completion Deadlines

The following program completion deadlines outline the timeframes allotted to students to complete all requirements for their selected program version.

<table>
<thead>
<tr>
<th>Program</th>
<th>Years for Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Certificate</td>
<td>within 5 years</td>
</tr>
<tr>
<td>Associate of Arts</td>
<td>within 5 years</td>
</tr>
<tr>

Students who are enrolled in more than one program at a time, wherein all of the courses required for one of the programs are scheduled and completed under the other program (e.g., all of the courses for a certificate program on the student’s record are scheduled and completed under a bachelor’s degree program on the record), will only have a program completion deadline for the program that the courses are scheduled under, and will be held to that deadline for both programs.

Program completion deadlines are calculated based on the course start date for the first credit-bearing course in which a student is scheduled and posts positive recorded class attendance after their enrollment agreement sign date for their program.

Students who are actively attending their final program-applicable course (i.e., meeting attendance requirements for the course) at the time their program completion deadline expires and complete all program requirements during the final course, will still be considered to have completed their program within the completion deadline.

In order to apply to a student’s program, only transfer activities completed before a student’s program completion deadline will be considered for evaluation and application to the student’s program.

Changes to a selected major, concentration, emphasis, or en-route credential in which a student remains in the same program version will not result in a change to the student’s program completion deadline.

Changes from a competency-based education (CBE) program to the corresponding standard version of that same program will not result in a change to the student’s program completion deadline.

Students who change their program and/or version will have a new program completion deadline calculated based on the course start date for the first credit-bearing course in which they were scheduled and post positive recorded attendance under their new program and/or version after the student signature date on the most recent enrollment agreement on file.

Students who post positive class attendance, change their program, and then revert back to their prior program version, will be held to their original program completion deadline for that program version.

Credential Conferral

The Registrar’s Office will confer a student’s degree or certificate upon the completion of all academic program requirements.

Following credential conferral, the University will issue one physical diploma or certificate to the student, and one digital copy of the diploma or certificate (which can be authenticated on the University’s website), with the approved name, address, and email address indicated by the student on their student website. If a diploma name is not provided on the student website, the certificate or diploma will be issued with the official name recorded in the student information system.

The date documented on the diploma will reflect the last day of the month in which all program requirements were completed and applied.
The date documented on the certificate will reflect the date on which all program requirements were completed and applied. Degree and certificate conferral dates cannot precede the date the program was approved and became available in the student's state or jurisdiction.

Once a credential has been conferred, modifications cannot be made to a student's official academic record (e.g., students taking coursework to improve their program GPA).

**Degree Posting**

Degrees are conferred and posted to students' academic record with the last day of the month in which all degree requirements are completed. Degree requirements are considered to be met when all credit bearing and non-credit bearing requirements have been met, and all credit has been posted to the academic record. Students who have met all of the requirements and completed a degree program with (UOPX) are eligible to participate in commencement.

Students who have not yet completed degree requirements are eligible to participate in commencement ceremonies when they meet coursework to improve their program GPA.

**Graduation with Honors**

Students in associate and bachelor's degree programs with a qualifying program GPA will graduate with the following Latin honors designations, based on the program GPA achieved. The applicable honors designation below will appear on the University diploma and official transcript.

- Cum Laude: 3.70 - 3.84
- Magna Cum Laude: 3.85 - 3.94
- Summa Cum Laude: 3.95 - 4.00

Students in master's degree programs with a program GPA of 3.90 or higher will graduate with distinction. The 'With Distinction' designation will appear on the University diploma and official transcript.

Direct Assessment Competency-Based Education (CBE) programs are not eligible for graduation honors.

**Participation in Commencement Ceremony**

Commencement ceremonies are held at locations across the country. Degree seeking students who meet the eligibility requirements may participate in any University of Phoenix (UOPX) commencement ceremony. Registration information and a complete listing of scheduled commencement ceremonies may be accessed via the student portal.

Students who have met all of the requirements and completed a degree program with (UOPX) are eligible to participate in commencement.

Students who have not yet completed degree requirements are eligible to participate in commencement ceremonies when they meet the requirements as outlined below.

- Regular (RG) student academic status by the ceremony registration deadline date
- Regular (RG) program academic status by the ceremony registration deadline date
- Satisfaction of all financial obligations to the University

- Completion of degree requirements within the specific credit limits outlined below by the final registration deadline:
  - Associate: successful completion of all but 6 credits
  - Bachelor's and master's: successful completion of all but 9 credits
  - Doctoral: successful completion of all credit and non-credit bearing degree requirements, including an approved dissertation or applied project, and signature page signed by the Dean.

Students who do not meet the eligibility requirements will not be allowed to participate in commencement ceremonies.

Students who attend commencement ceremonies prior to completing their degree requirements are not guaranteed an academic credential. Academic standards must be met for an academic credential to be awarded. Students may fail to meet these standards after attending commencement ceremonies.

All associate, bachelor's, and master's degree students eligible for commencement, who have met the University graduation honors requirements applicable to their degree by the commencement ceremony date, will be recognized at commencement ceremonies with the applicable University honor cord.

Students who attend commencement ceremonies and wear the University honor cord prior to degree conferral are not guaranteed the applicable graduation honors designation on the University diploma and official transcript. Academic standards must be met in order for a degree with graduation honors to be awarded. Students may fail to meet the University's graduation honors standards after attending commencement ceremonies.

Certificate students are not eligible to participate in commencement ceremonies.

**Multiple University Credentials**

Students may earn multiple credentials from University of Phoenix (UOPX). The following policies apply:

- Only one degree in a specific discipline may be earned at the bachelor's and master's program levels; however, students can earn multiple degrees in different disciplines within those program levels. For the purpose of this policy, the term discipline refers to the subject or content area for the program (e.g., Psychology, Accounting, Cybersecurity, etc.).
- Students may earn only one certificate in a specific discipline at each course level (lower division, upper division, graduate, doctoral).
- Students who have been conferred from a degree or certificate program cannot return and enroll into a lower level degree or certificate in the same discipline as their previously completed program.
- Programmatic residency must be met for each credential through the completion of a prescribed minimum number of credits.
- Program-specific exceptions and programmatic residency requirements that do not fall within the above guidelines are outlined in specific program policies.
Students may only earn one associate degree.
Students may not complete more than one degree program from the College of Doctoral Studies, with the exception of the Educational Specialist (EdS) program. EdS graduates may earn any doctoral degree in addition to their EdS credential.

Unless otherwise stated within a program policy, students may receive a certificate in the same area of focus as the specialization, concentration, or emphasis in their degree program.

**Braille Embossed Diplomas**

Students may submit a request for a braille embossed diploma to the Disability Services Department. Requests for braille embossed diplomas should be submitted to DisabilityManagerQuestions@phoenix.edu. Approved requests will be routed to the Registrar’s Office for fulfillment. Students must provide appropriate documentation and be officially degree conferred.

**Posthumous Degrees**

The University may present posthumous degrees for deceased students who were enrolled, posted positive attendance in a University degree program, were in good academic standing, and had not been administratively withdrawn in a University program at the time of their death.

Posthumous degrees may be presented to immediate family members, or to the executor of the estate of a deceased student, who submit a written request and documentation of the student’s passing.

**Rescinding Academic Credentials**

Situations may arise where it becomes necessary for University of Phoenix (UOPX) to rescind a previously conferred academic credential (degree or certificate).

UOPX reserves the right to rescind academic credentials under the authority and direction of the University Provost and Registrar. An academic credential may be rescinded if it is discovered that a student had not fulfilled all of the credit-bearing and/or non-credit-bearing requirements. Other scenarios in which a credential may be rescinded include, but are not limited to, student, faculty, and administrator errors; student code of conduct violations; plagiarism; dishonesty; fraud; misrepresentation; or misconduct by students, staff, faculty, and administrators.

**Disclaimer on Job Placement**

The purpose of degree and certificate programs offered by the University of Phoenix is to educationally prepare the student for gainful employment in recognized occupations related to the field of study by providing a quality education that integrates theory with practical application. The University offers other educational products that are developed to help a student develop skills or learn other content that can help the student in their current occupation or assist in extending the nature and range of careers available.

Also, the University makes available career services, including information about possible salaries and projected job growth, that can help the student investigate and prepare for the employment marketplace. However, the employment outcome for an individual will vary based on multiple factors, including, but not limited to, prior work experience, geographic location, and other factors specific to the individual. Accordingly, University of Phoenix cannot and does not guarantee job placement, career advancement, continued employment, or salary level.

**Letter Request**

All student letter requests must be processed by the Registrar’s Office. Students may contact the Admissions and Records Service Center to request letters and will be required to verify their identity per FERPA guidelines.

Directory information requests do not require a FERPA Release form.

A FERPA release is required if a letter containing non-directory information is to be faxed, mailed, or sent by encrypted email to a third party.

A FERPA release is required if a letter containing non-directory information is to be faxed, mailed, or sent by encrypted email to the student, and the student does not have the fax number, mailing address, or email address listed on the official student record.

A FERPA release is not required for students who call the Admissions and Records Service Center directly, successfully complete the Student Verification Process, and request non-directory information to be sent to themselves provided the fax number, mailing address, or email address is on the official student record. A FERPA release is also not required for letters sent to the Letter Center in the student portal because this requires an individual user ID and password.

The Registrar’s Office is unable to provide letters of recommendation or assist with scholarship letters or scholarship nominations. Students may ask their faculty members to provide a recommendation for them, but granting such requests is at the faculty’s discretion. Recommendations provided by faculty members are personal recommendations and will not be provided on UOPX letterhead.

In lieu of providing a letter of recommendation, the Registrar’s Office can provide a University of Phoenix approved letter or a customized letter based on information in the student’s record that can be validated by the Registrar’s Office.

Students may call the National Student Clearinghouse at (703) 742-4200 to verify information related to their enrollment. If the National Student Clearinghouse has sent information to lenders within the last 30 days, an enrollment verification letter is not required by the lender.

**Forms**

The University Registrar’s Office processes forms requiring a school official’s signature, coordinating with other departments to provide information as needed.

University of Phoenix may not be able to complete certain forms or accommodate certain form requests.

Directory information requests do not require a FERPA Release form.

A FERPA release is required if the form is to be faxed, mailed, or sent by encrypted email to a third party for non-directory information.

A FERPA release is required if the form containing non-directory information is to be faxed, mailed, or sent by encrypted email to the student, and the student does not have the fax number, mailing address, or email address listed on the official student record.
A FERPA release is not required for students who call the Admissions and Records Service Center directly, successfully complete the Student Verification Process, and request non-directory information to be sent to themselves provided the fax number, mailing address, or email address is on the official student record. A FERPA release is also not required for forms sent to the Letter Center in the student portal because this requires an individual user ID and password.

Students may call the National Student Clearinghouse (NSC) at (703)/742-4200 to verify their enrollment information has been sent to the student’s lender, or to request that the Clearinghouse resend the information to the student’s lender. The University of Phoenix OPE-ID code is 020988.

Name and Social Security Number Changes

The University requires documentation of legal name and social security number changes. The following primary forms of identification will be accepted for a legal name change:
A copy of one of the following forms of identification will be accepted as proof of your legal name change. The document provided must be signed and must accurately reflect your full legal name.

- Court Ordered Name Change
- Social Security Card
- Passport/Passport Card
- Permanent Resident Card
- Certificate of Naturalization
- Driver’s License
- International students may also submit: National Identity Card

These forms must illustrate the name exactly how it is requested on the Name Change form. A signed social security card issued by the Social Security Administration is required for changes in social security numbers.

Record Maintenance

University of Phoenix requires applicants/students to complete and sign all student related documents in connection with their education record. Only the applicant/student may sign forms that require a signature (wet signature or e-signature).

Do Not Call Policies

- Consumers who are listed on the National or a State Do Not Call List may not be called for sales or solicitation purposes unless: (i) the consumer has provided Prior Express Written Consent to the University, or (ii) the call is a Manual Call, and an Established Business Relationship (EBR) exemption exists with the consumer.
- University of Phoenix may not send solicitous prerecorded voice messages to any consumer's wireline or wireless number without Prior Express Written Consent from a consumer and prior approval from Ethics, Compliance, and Data Privacy.
- Upon request, the University will provide consumers a copy of the DNC policy by emailing Office.ComplianceUOPX@phoenix.edu.

Exceptions to Academic Policy - Student Appeals Center

Requests for exceptions to academic policy must be submitted in writing to the Student Appeals Center (SAC). Exceptions may be granted based upon academic rationale and the student's individual circumstances. Students must provide the reason(s) why an exception should be granted, refer to each specific policy being appealed, and provide all relevant supporting documentation. The SAC determines the eligibility of the request and whether it will go forward.

If a student's initial SAC appeal is denied, that decision may be reviewed by a SAC 2nd Level Committee if the student provides new information not previously considered.

SAC decisions are ineligible for appeal through any other entity within University of Phoenix (UOPX).

California Early Completion Option

- California residents may qualify, per state Commission requirements, for the Early Completion Option. This allows candidates to earn a preliminary credential in Multiple Subject or Single Subject by completing an internship and the supervised student teaching component and teaching performance assessments.
- The California Early Completion Option consists of credit-bearing, non-degree coursework. Candidates are not completing a University of Phoenix (UOPX) certificate or degree.
- The California Early Completion Option requires:
  - Completion of the following coursework (120 pre-service hours):
    - **MAED/TED 07CA**
      - Multiple Subject: MTE 506CA; MTE 518CA; ELL 500; SPE 514CA; RDG 537CA; MTE 522CA
    - **Single Subject:** MTE 506CA; SEC 508CA; ELL 500; SPE 514CA; RDG 542CA; MTE 523CA
    - **MAED/TED 08 CA and MAED/TED 9CA**
      - Multiple Subject: MTE 511; ELM 533; ELL 500; MTE 512; RDG 556; ELM 532
      - Single Subject: MTE 511; SEC 533; ELL 500; MTE 512; RDG 558; SEC 532
  - Upon successful completion of required Early Completion Option (ECO) coursework and completion of additional requirements as determined by the California Commission on Teacher Credentialing (CCTC) and listed on the ECO checklist, students are eligible to apply for the intern credential.
  - Early Completion Option students enrolled in this option must validate a full-time student teaching experience (minimum 17 weeks) as the teacher of record.
    - Students must successfully complete 17 weeks of supervised student teaching experience. Candidates will be assigned a faculty supervisor by the University throughout the program and their student teaching experience.
    - Students will be assigned a mentor at the school site for the duration of their district contract.
    - Students must earn a B or better in each of the student teaching seminars. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of "B" in each of the student teaching seminars will not earn quality points, as the grade is considered a failing grade.
Students have only one opportunity to successfully complete the student teaching experience.

Early Completion Option students who have completed coursework but have not met their Institutional Recommendation (IR) requirements within the contracted school year, may not be eligible to maintain their internship credential.

Early Completion Option students must pass the Teacher Performance Assessment (edTPA), Task 1 on their first attempt before being eligible for the intern credential. Additionally, the remaining edTPA Tasks must be passed on their first attempt and within one year of being issued the intern credential.

Students who do not pass any of the edTPA Tasks on their first attempt must transition to the CA internship option in the MAED / TED CA programs.

Non-Degree Students

Students who wish to complete one or more courses with the University without enrolling in a degree or certificate program are considered non-degree students and will be enrolled under the Non-Degree (ND) admission status. Non-degree students are subject to all institutional policies, except those that indicate they are specific to degree-seeking or certificate-seeking students. Non-degree students can only enroll in courses associated with a degree or certificate program that has been approved in their state or jurisdiction of residency. Non-Degree courses are divided into the following categories:

• General education or elective for-credit courses that are not currently part of a required course of study for a degree or certificate program.

• Courses that are part of a required course of study for a degree or certificate program.

• For-credit courses that are part of an extension offering for a college or non-credit-bearing courses that are part of a Continuing Education offering.

• Students may not have any Continuing Education for Educators (COLEXT-ED) coursework apply to any program requirements (including general education, interdisciplinary, elective, or required course of study requirements) unless that coursework was completed prior to the Enrollment Agreement sign date for a degree or certificate program.

Enrollment of international students into non-degree courses in any of the three categories will only be made as permitted by US law. University of Phoenix (UOPX) will not enroll into non-degree courses a resident of, or individual located in, a country that is subject to any of the sanctions programs administered by the US Office of Foreign Assets Control (OFAC) nor any individual that has been designated a: Specially Designated National (SDN), Foreign Sanctions Evader (FSE), Blocked Person, Denied Person, or other similar classification, as defined by US Law. For the purposes of this policy an international student is defined as a non-US citizen or a student with a non-US (including US territories) address.

Applicants fitting this definition must complete an International Student Acknowledgement, which includes consent for background screening and the applicant’s consent to allow the University to process the applicant’s personal information.

University of Phoenix does not market its educational services to individuals in certain countries. Individuals who reside in such jurisdictions will not be enrolled or admitted unless they are a US citizen or are affiliated with the US Military, subject to OFAC (Office of Foreign Assets Control) restrictions.

To enroll in for-credit courses that are classified as general education, elective, or part of a required course of study for a degree or certificate program, non-degree students must meet the following academic preparedness requirements:

• High school graduation from an institution that holds state approval to confer high school diplomas or are accredited or a candidate for accreditation at the time the student attended by an acceptable accrediting body, GED certificate, GED transcript with successful completion posted, CHSPE (California High School Proficiency Examination) certificate, or completion of the HiSET examination with a passing score.

• Nevada: Applicants attending a local campus in Nevada must submit a copy of their high school diploma, high school transcript with graduation posted, GED certificate, GED transcript with successful completion posted, CHSPE examination results, or a letter on letterhead from the high school records office confirming the date of graduation. Students may submit a college transcript which documents high school attended and date of completion or a copy of a DD-214 showing high school graduation or equivalency to satisfy this requirement.

• Students who completed high school/secondary school outside of the US, in a country where English is not the official language, must meet the English language proficiency requirement.

• Students who reside in the US must meet one of the following requirements:
  • Be a legal resident of the US
  • Have been granted permanent residency
  • Have a valid visa that does not prohibit educational studies
  • Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Students must list TPS as the visa type on the enrollment paperwork.
  • Have been granted asylum or refugee status
  • Have a valid F1 Visa

• Students who reside in Canada must meet one of the following requirements for admission:
  • Be a legal resident of Canada
  • Be a landed immigrant
  • Have a valid visa that does not prohibit educational studies

• Must meet state immunization and Health Insurance Requirements

• Provide an unofficial or official transcript demonstrating that any applicable prerequisites have been satisfied for their selected course(s). If the prerequisites were satisfied with UOPX coursework a transcript would not be required. To satisfy a prerequisite the course must meet the following criteria:
  • have been completed at a college or university with approved institutional accreditation, or is a candidate for accreditation.
  • have been completed with a grade of “C” or better, or comparable passing benchmark
  • be comparable in content and must be an equivalent level or higher level course
  • Must not have been expelled from UOPX or other institutions.

Non-degree students who wish to complete graduate level courses that are part of the required course of study for a degree or certificate program must provide proof of completion of an undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for approved insti-
tutional accreditation, or comparable undergraduate bachelor’s
degree or higher earned at a recognized foreign institution or a
graduate degree from an ABA accredited institution (i.e., JD, LLB,
LLM). If the institution became accredited while the student was
attending, a minimum of 75% of the coursework taken toward the
degree must have been completed while the institution was accred-
ited or during the candidacy period.
Non-degree students may complete an unlimited number courses;
however, non-degree students will not be awarded a degree or cer-
tificate unless they are officially admitted into a degree or certifi-
cate program. Non-degree students who are admitted into a degree
program will need to meet the following credit residency require-
ments:
- 18 credits toward a graduate degree required course of study
completed after admission into the degree program.
- 30 credits toward an undergraduate degree required course of
study completed after admission into the degree program.

Except for courses in the College of Nursing, non-degree students
will not be held to minimum grade requirements applicable to stu-
dents in a certificate or degree program. They will receive credit for
a course as long as they do not receive a failing grade. However, if
they later choose to enroll in a certificate or degree program with
the University, those students would be held to the higher mini-
imum grade requirements for those courses in order to receive
credit for them in the program.

Some for-credit courses have additional academic preparedness
requirements for non-degree students.

Additional academic preparedness requirements by course:

College of Business and Information Technology: Concurrent
Enrollment Program Courses
Students enrolled in an approved BSM Pathway Agreement Insti-
tution Concurrent Enrollment Program (CEP) or BSIT Pathway
Agreement Institution CEP may be scheduled for non-degree
courses as outlined on the BSM Pathway Agreement Transfer Path-
way Guides or the BSIT Pathway Agreement Transfer Pathway
Guides.

College of Health Professions Individual Concurrent Enrollment
Program Courses
Students enrolled in an approved BSHM Pathway Agreement Insti-
tution Concurrent Enrollment Program (CEP) may be sched-
uled for non-degree courses as outlined on the BSHM Pathway Agreement Transfer Pathway Guides.

College of Social and Behavioral Sciences Individual Counseling
Non-Degree Courses
- Non-degree students with a graduate degree in counseling or
related field (e.g., Psychology, school counseling, school
psychology, gerontology counseling, rehabilitative counseling)
may complete a maximum of four (4) graduate level courses
from the available counseling course selection. The academic
leadership responsible for the administration of counseling
courses programs may waive prerequisite coursework with the
appropriate graduate degree and/or clinical experience.
- Non-degree students who are not alumni of a UOPX counseling
program are not eligible to complete Internship and practicum
coursework and no appeals will be accepted.

• Applicants to the Master of Science in Counseling (MSC)
programs must complete the Graduate Portfolio I course as
required for admission to their MSC program. Students who do
not pass the Graduate Portfolio I course will be denied
admission to the MSC program and may retake the course in 30
days. A student failing Graduate Portfolio I on the second
attempt must wait 6 months before the next re-attempt. Students
will be required to follow the Supplemental Standards referral
process before any re-attempts. Passing the Graduate Portfolio I
is limited to a total of three attempts. If the student does not
meet the minimum grade requirement on the third attempt, they
will be denied admission and administratively withdrawn from
the MSC program.

College of Nursing Individual Nursing Non-Degree Courses
Students enrolled in an approved RN-BSN Pathway Agreement
Institution Concurrent Enrollment Program (CEP) may be sched-
uled for non-degree courses as outlined on the RN-BSN Pathway
Agreement Transfer Pathway Guides.

RN-BSN Pathway Agreement CEP students who have been scho-
lastically disqualified will not be allowed to continue until they
have taken the following steps: (E6)
- Met with the Campus College Chair, an assigned nursing faculty
member, or designee to discuss the non-passing grade and
resolve any concerns moving forward.
- Completion of the Academic Progression Student Agreement
form, signed by the student and returned to Campus College
Chair, or designee.
- Retake of the course which placed them on scholastic disqual-
ification and satisfy the grade requirement.

In addition to any course prerequisites required for non-degree
students enrolling in nursing courses, students must provide docu-
mentation of a valid, unrestricted / unencumbered RN license in
all states in which the applicant holds an active nursing license. For
applicants holding licenses in multiple jurisdictions, all active
licenses must be valid, unrestricted / unencumbered through the
duration of the program. Applicants from the following territories
must hold a RN license obtained by taking the US NCLEX-RN
exam. Students must provide documentation showing successful
completion of the US NCLEX-RN exam:
- Guam
- American Samoa
- Northern Mariana Islands
- US Virgin Islands
- Puerto Rico
Non-degree students enrolling in master’s level nursing courses must provide documentation of an undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

Non-degree students enrolling in doctoral level nursing courses must provide documentation of a master’s degree or higher in nursing (MSN or MN) from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or equivalent graduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

**College of Doctoral Studies Individual Doctoral Non-Degree Courses**

Non-degree students enrolling in doctoral courses must provide proof of completion of a graduate degree from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, or equivalent graduate degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e., JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

**COVID-19 Related Interim Policy Exceptions**

As a result of measures taken by businesses, government agencies, and educational and healthcare institutions across the world to prevent the spread of the COVID-19 virus, University of Phoenix is allowing the following policy exceptions for students for the duration of time in which such measures continue to be in place, effective as of the week of 3/16/2020.

- **Leave of Absence (LOA) Requests**: LOA requests related to the COVID-19 pandemic will be treated as an unforeseen circumstance until the end of the first payment period that begins after the COVID-19 national emergency is rescinded.

Admission Procedures

Application Process
Potential students applying for admission to the University’s undergraduate degree programs begin the admission process by submitting a complete and accurate application. An application which is later verified to contain incomplete, false or misleading information may be grounds for dismissal and administrative withdrawal. Once the application has been received by the University, applicants are responsible for ensuring the completion of their admission file. No applicant will be formally accepted for admission until their admission file is complete and officially evaluated. Formal written notice is provided by the central Office of Admissions & Evaluation upon formal acceptance.

The University will advise students which admission file documents are required in order to begin a program of study. Students may attend their first four courses under Applicant status. Students, however, must submit all admission documentation and gain unconditional admission status prior to the start of their fifth course. Students failing to submit all documentation prior to the end of the required time frame will be administratively withdrawn until formally admitted by the central Office of Admissions & Evaluation. The University cannot guarantee that a student who begins course work under Applicant status will be admitted to the degree program.

Undergraduate students who have served in the United States military must submit their Joint Services Transcript (JST) or a transcript from a military university or college (Community College of the Air Force and US service academies) with approved institutional accreditation. If these documents are unavailable, American Council on Education Registry Transcripts (AARTS and SMARTS) or discharge papers (DD-214) will be accepted. This is a requirement if students will be applying for VA educational assistance.

Applications of individuals who have not gained admission to, or enrolled in the University, will be kept on file for one year. After that time, the applicant is required to submit a new application and materials for admission review.

Transcript Requests of Other Institutions
Because institutions vary in the time they take to respond to transcript requests, all transcripts should be requested immediately upon submission of an application. University staff will process all requests for transcripts on behalf of the student unless the transferring institution does not accept third party requests. However, it remains the student’s responsibility to ensure that all transcripts are submitted to the University. Students must sign a “Transcript Request Form” for each transcript being requested from educational institutions and national testing programs.

Official Transcript Time Limits
All official transcripts must show an issuance date not more than one year prior to receipt by the University. This is to ensure that all prior course work is reflected on the transcript, unless students are attending a military university or college (Community College of the Air Force and US service academies) with approved institutional accreditation. If these documents are unavailable, American Council on Education Registry Transcripts (AARTS and SMARTS) or discharge papers (DD-214) will be accepted. This is a requirement if students will be applying for VA educational assistance.

Official foreign records do not have the same time limit issuance requirements, as these documents may be difficult to obtain. This exception does not apply to Canada or U.S. territories.

Undergraduate Admission Requirements
Most undergraduate programs have additional admission requirements listed within the program specific information. All applicants are expected to meet the following admission requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).

- Nevada: Applicants attending a local campus in Nevada must submit a copy of their high school diploma, high school transcript with graduation posted, GED certificate, GED transcript with successful completion posted, CHSPE examination results or a letter on letterhead from the high school records office confirming the date of graduation. Students may submit a college transcript which documents high school attended and date of completion or a copy of a DD-214 showing high school graduation or equivalency to satisfy this requirement. This Nevada requirement does not apply to College of Education programs.

- Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet one of the following exceptions in order to meet the English Language Proficiency Requirement:
  - Achieved a minimum score of 213 on the computer-based test (cBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
  - Achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
  - Achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.
  - Achieved a minimum score of 69 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam (prior to 02/01/2012) within two years of application to the University.
  - Successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
- Achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.

-or-

- Achieved a minimum passing score of 100 on the Duolingo English Test within two years of application to the University.

-or-

- Achieved a minimum passing score of 170 on any one of the five acceptable Cambridge English Qualifications and Tests (no time frame required).

The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:

- The applicant has successfully completed thirty (30) transferable, academic semester credits at a college or university with approved institutional accreditation in the United States.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.
- The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.
- The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.
- The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.

Applicants who reside in the United States must meet one of the following requirements:

- Be a legal resident of the United States
- Have been granted permanent residency
- Have a valid visa that does not prohibit educational studies
- Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
- Have been granted asylum or refugee status.

Applicants who reside in Canada must meet one of the following requirements:

- Be a legal resident of Canada
- Be a landed immigrant
- Have a valid visa that does not prohibit educational studies
- A completed and signed undergraduate application
- A signed Enrollment/Disclosure Agreement.
- Signed Hardware/Software Agreement
- Completion of any state-specific required documents or forms.

Applicants who have been expelled from other institutions are not eligible for admission to University of Phoenix.

Students who have been expelled from University of Phoenix are not eligible for readmission to University of Phoenix. No appeals will be accepted.

Students enrolled in programs that are not administered under the risk free period policy*, who list less than 24 previous college credits as recognized by the University on the admissions application, are required to successfully complete a University Orientation Workshop (UNIV 100 or UNIV 101) to be officially admitted (AM).

Unless excused because of religious belief or medical condition, students attending a physical campus in Nevada are required to submit to the University proof of immunity to Tetanus, Diphtheria (Td or Tdap), and Measles, Mumps, Rubella (MMR). Students under 23 years of age and having fewer than 24 credits must also submit to the University proof of immunity against Meningitis; vaccination with at least one dose of a quadrivalent meningococcal conjugate vaccine (MenACWY) on or after age 16 will satisfy this requirement.

All residents of Hawaii are required to submit immunization information to the University.

The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1956, be immunized for measles-mumps-rubella (MMR). Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

For enrollments effective on or after July 1, 2020. Varicella: The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1979, be immunized for Varicella (Chickenpox). Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of Varicella. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

As an exception, a signed, documented diagnosis or verification of a history of varicella disease or herpes zoster by a practitioner may be substituted for a record of varicella vaccination.

For enrollments effective on or after July 1, 2020 Tetanus, Diphtheria, Pertussis (Td) / Pertussis (Tdap): The Hawaii State Department of Health requires that all students attending school at a campus in this state be immunized for Tetanus Diphtheria, and Pertussis (TDAP). Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of Varicella. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).
Exemptions from the MMR, Varicella, and Tdap immunization requirements may be granted for the following reasons:

- A medical exemption may be granted to specific vaccines.
- A US licensed physician (M.D. or D.O.) must state in writing that giving a specific vaccine would endanger the student's life or health, and specify the reason based on valid medical contraindications.
- The physician must state the length of time during which the vaccine would endanger the student's health or life.
- The exemption certification must be signed by the physician.
- A religious exemption may be granted if the student signs a statement certifying that the student's religious beliefs prohibit the practice of immunization. Requests for religious exemptions based on exemptions to specific immunizing agents will not be granted.
- If the State of Hawaii Director of Health determines that there is a danger of an outbreak from any of the diseases for which immunization is required, no exemption shall be recognized and inadequately immunized students shall be excluded from school until the Director has determined that the outbreak is over.
- A copy of each exemption must be kept in the student's health record at school.

The Hawaii State Department of Health requires that all students attending school at a campus in Hawaii must present a TB Clearance obtained within 12 months prior to their first attendance in a post-secondary school in Hawaii or a TB Clearance obtained after age sixteen. A TB Clearance must be submitted with the Hawaii TB Clearance form prior to the first night of class or the student will not be permitted to attend class. Students may submit a copy of their TB Clearance received prior to their attendance at another Hawaii post-secondary school.

* Programs administered under the risk free period policy are indicated as such in the “General Information” section of the program’s policy in the catalog.

Residency Requirements and Course Waivers for Bachelor Programs

Please see the program for any additional program specific residency requirements and course waivers. The following does not apply to nursing and education programs in addition to the AACR.

- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at University of Phoenix.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Life Experience Journals credit is not eligible to waiver courses in the required course of study.
  - Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.

Residency Requirements and Course Waivers for Associate Programs

Please see the program for any additional program specific residency requirements and course waivers. The following does not apply to nursing and education programs in addition to the AACR.

- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 15 credits from a combination of Required Course of Study and General Education courses must be completed at University of Phoenix.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Life Experience Journals credit is not eligible to waive courses in the required course of study.
University Orientation Workshop - Effective 11-1-2010 to 1-1-2019

Applicants to designated undergraduate programs requiring the University Orientation Workshop for admission who list less than 24 previous college credits as recognized by the University on the admissions application are required to successfully complete the three week University Orientation Workshop (UNIV 100 for online or UNIV 101 for local campus) prior to attending a credit bearing degree applicable course.

The following define the University Orientation Workshop statuses:

- Orientation Complete (OC): Applicant has attended all three weeks and successfully submitted all assignments.
- Orientation Not Complete (ON): Applicant has not successfully completed all Orientation Workshop requirements and will remain on Orientation Pending (OP) admission status. Applicants will be allowed two attempts to successfully complete the Orientation Workshop. After a second unsuccessful attempt, participants are required to sit out for a period of six months after the last posted attendance in the second attempt.
- Orientation Extended (OX): An extension has been awarded to eligible applicants who require reasonable accommodations under Americans with Disabilities Act (ADA). If an applicant does not fulfill the Orientation Workshop requirements at the end of the extension period, the OX status will default to Orientation Not Complete (ON) status.

OC and ON completion statuses are not considered grades and will not be calculated in the GPA. Students who were previously admitted to the University are not required to complete the University Orientation Workshop.

Risk Free Period Policy

The first three weeks of the first course constitute the trial period for programs that are eligible for the risk free period policy. First time attendees who indicate less than 24 previous college credits (as recognized by the University) on the admission application, who have not previously been admitted as a regular student to the University, and who are intending to pursue such programs will participate in the trial period and will be conditionally admitted. This trial period will apply to all repeated attempts to complete the first course in the program while students are in Admitted with Condition status. Students will be eligible for unconditional admission to the University after meeting class attendance requirements in the fourth week of their first course (or after the fourth week) and after having transfer credits evaluated. Students will not be eligible for Title IV, HEA funds until they are admitted as a regular student after the trial period has completed.

Once admitted as a regular student, students become eligible for Title IV, HEA program funds back to the beginning of the payment or loan period, as applicable, including the trial period. Students who decide not to continue in the trial period may opt out with no financial obligation prior to meeting class attendance requirements for their fourth week in their first course with the University. Students who withdraw after the trial period and do not continue enrollment will not be eligible for Title IV, HEA program funds for the trial period.

Students will indicate their intent to continue with their program by meeting class attendance requirements in week four or after of their first course, at which point the trial period ends.

Students completing the trial period that meet class attendance requirements for their fourth week or after will be financially responsible for all associated course charges. Students that record positive class attendance in at least one class that do not meet the class attendance requirements for the course due to exceeding maximum allowable absences will receive a "W" grade for the course which will be documented on the University of Phoenix transcript.

Programs that are eligible for the risk free period policy are indicated as such in the "General Information" section of the program's policy in the catalog.

Academic Progression Requirements

Phoenix Success Series (Pathway A and Pathway B Programs)

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- In addition to GEN/201, Pathway A students are required to complete 3 credits of College Composition, which will contribute to fulfillment of the General Education requirements.
- Following GEN/201, Pathway B students are required to complete coursework in the remaining Phoenix Success Series (PSS) categories, which will contribute to fulfillment of the General Education requirements.

Critical Thinking in Everyday Life
Concurrent enrollment is prohibited during any of the PSS courses.
• The PSS must be completed within the first six courses upon enrollment and prior to beginning the required course of study. The PSS contributes to fulfillment of General Education and Elective requirements.

**University Proficiency Requirements**

Undergraduate students must satisfy math and English proficiencies as an academic progression requirement in their program. Students have the following options to fulfill proficiency:

- Successful completion of UOPX math and English courses designated as applicable to the proficiency requirement
- Comparable approved institutional accredited transfer coursework, or credit recommended by the American Council on Education transfer coursework that meets the following requirements:
  - Grade of C- or better (or academic equivalent)
  - At least 2 semester credits
  - Eligible to receive general education credits
- National College Credit Recommendation Service (NCCRS) credit recommendations
- Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam.
- Demonstrate competency by meeting the minimum passing score on a UOPX approved placement exam.

Students who satisfy the English and/or math proficiency and sign a new Enrollment Agreement may carry forward the completed proficiency into their new program/version provided they have remained in continuous attendance according to the University’s Academic Program Re-entry policy.

**Math Pathways**

College deans determine the appropriate baseline math courses necessary for student success. The designated Math Pathway(s) will be outlined within each program’s policies. The University offers the following Math Pathways:

- Mathematics for Elementary Educators
- Quantitative Reasoning
- Statistics
- College Algebra
- Calculus

**General Education**

In its commitment to help working adults achieve their professional and personal goals, the University of Phoenix endorses the role of General Education in ensuring student success in the classroom, the workplace, and the community. The General Education curriculum, which is developed through the College of General Studies, provides instruction that focuses on Liberal Arts, Humanities, Science, and Mathematics. Undergraduate General Education requirements emphasize exposure to and exploration of topics in a variety of General Education categories. This background provides students with the perspectives needed for meaningful self-examination of personal and social values, as well as enhanced ability to understand and navigate social, technological, scientific, and cultural change.

**General Education Student Learning Outcomes**

- In addition to the knowledge and skills related to the University Learning Goals, graduating students should attain certain knowledge, skills, and abilities within the various General Education categories. Therefore, students should be able to demonstrate the following learning outcomes by the time they complete their General Education requirements:
  - Students will apply effective communication skills in a variety of contexts.
  - Students will utilize quantitative reasoning skills for a variety of purposes.
  - Students will utilize scientific thinking and inquiry skills for a variety of purposes.
  - Students will apply critical and creative thinking skills in a variety of contexts.
  - Students will apply intercultural and interpersonal awareness in a variety of contexts.

**General Education Categories**

The curriculum within the General Education catalog is comprised of traditional categories. The required number of credits in each category varies by program and may be found within the program specific requirements. The General Education categories and curriculum ensure that students are exposed to content essential to a baccalaureate experience. Categories within General Education curriculum are as follows:

- **Communication Arts**, credit requirements vary by program. Course work in Communication Arts focuses on the development and application of writing, speaking, collaboration, and interpersonal communication skills.
- **English/Language Arts**, credit requirements vary by program. Course work in English/Language Arts focuses on the development and application of writing, speaking, collaboration, and interpersonal communication skills.
- **Mathematics**, credit requirements vary by program. Course work in Mathematics develops quantitative and analytical skills in the fields of mathematics and advanced logic. The area does not include courses in which mathematics is merely an applied component (such as finance and accounting), nor does it include mathematics foundation courses below the level of college algebra.
- **Social Sciences**, credit requirements vary by program. Course work in Social Sciences promotes understanding of human behavior as well as the structure and dynamics of social systems. Emphasis is on the discovery of patterns in social processes and institutions, both past and present. Courses in anthropology, sociology, economics, ethnic and gender studies, geography, political science, psychology, history, and certain communications courses focusing on mass media and society typically satisfy these requirements. In accord with the General Education requirements, Nevada students must take six units of social science credits. However, three of those units may be HIS 311 Nevada and the U.S. Constitutions, which is required for Nevada students.
Social Studies, credit requirements vary by program.
Course work in Social Studies promotes understanding of human behavior as well as the structure and dynamics of social systems. Emphasis is on the discovery of patterns in social processes and institutions, both past and present. Courses in anthropology, sociology, economics, ethnic and gender studies, geography, political science, psychology, history, and certain communications courses focusing on mass media and society typically satisfy these requirements.

Humanities, credit requirements vary by program.
Course work in Humanities focuses on the development of ideas and values, appreciation of cultural and artistic achievements, and the evaluation of human experience. Courses in general humanities, philosophy, literature, fine arts, music, theater, and religious studies normally satisfy requirements in this area. Certain courses in political science and intellectual history emphasizing the development of cultural thought processes may also satisfy humanities requirements.

Fine Arts, credit requirements vary by program.
Course work in Fine Arts focuses on the development of ideas and values, appreciation of cultural and artistic achievements, and the evaluation of human experience. Courses in general humanities, philosophy, literature, fine arts, music, theater, and religious studies normally satisfy requirements in this area. Certain courses in political science and intellectual history emphasizing the development of cultural thought processes may also satisfy humanities requirements.

Science/Technology, credit requirements vary by program.
Course work in Science/Technology provides students with an understanding of nature and the physical world, along with knowledge of the methods scientists use to study the world around them. Courses in astronomy, biology, chemistry, physics, anatomy and physiology, geology, and environmental science typically satisfy requirements in this area. All students must complete a minimum of three credits in the physical/biological sciences as part of the Science/Technology requirement. Certain courses in geography or aerospace studies that emphasize the earth's physical characteristics, weather, and climate are included in the science category, along with highly specialized course work in the social sciences such as physical anthropology, archaeological field methods, and psychology courses that focus on human physiological processes. Technology refers to the application of scientific knowledge in making and using tools to enhance culture. Course work in the area of technology that satisfies General Education requirements includes engineering, materials science, electronics courses that emphasize theory and design, and computer science courses that focus on programming languages and hardware/software engineering. Courses that focus primarily on the social and environmental conflicts that arise over the uses of technology usually satisfy requirements in the social sciences and humanities.

Liberal Arts, credit requirements vary by program.
Students will pursue additional breadth in the Liberal Arts by selecting courses from any of the categories listed above.

Interdisciplinary, credit requirements vary by program.
To fulfill this requirement, students may select additional General Education courses, or any University courses other than those in their major field. The intent of this requirement is to further increase students' exposure to the categories listed and to facilitate their exposure to a field of study beyond the necessarily narrow scope of their professional interest. Students are encouraged to explore diverse content areas to add breadth to their academic and professional knowledge base.

Program Length

Associate Programs
The established "normal time" to complete a program is as follows:
- Education - 90 to 104 weeks,
- General Studies - 90 to 104 weeks,
- Health Professions - 90 to 106 weeks,
- Social and Behavioral Sciences - 90 to 109 weeks,
- Business and Information Technology - 90 to 106 weeks.
The ranges provided above account for possible concentrations and/or bridge versions available within the chosen degree program. The term "normal time" means the length of time it would take a student to complete this program if the student is continuously enrolled, takes a full course load, successfully completes each attempted course, and does not have any transfer credits. Students may exceed or complete prior to the anticipated "normal time" for a variety of reasons that are individual to the student.

Bachelor Programs
The established "normal time" to complete a program is as follows:
- Education - 206 to 222 weeks,
- General Studies - 204 to 206 weeks,
- Health Professions - 200 to 204 weeks,
- Nursing - 155 to 215 weeks,
- Nursing (Competency Based) - 48 weeks,
- Social and Behavioral Sciences - 200 to 225 weeks,
- Business and Information Technology - 200 to 204 weeks.
The ranges provided above account for possible concentrations and/or bridge versions available within the chosen degree program. The term "normal time" means the length of time it would take a student to complete this program if the student is continuously enrolled, takes a full course load, successfully completes each attempted course, and does not have any transfer credits. Students may exceed or complete prior to the anticipated "normal time" for a variety of reasons that are individual to the student.
COLLEGE OF GENERAL STUDIES

The College of General Studies houses the Bachelor of Arts in English and Bachelor of Science in Environmental Science programs. In addition, the College supports the General Education catalog, which encompasses courses in Liberal Arts, Humanities, Sciences, and Mathematics. Courses in Liberal Arts and Humanities help students learn to think critically and creatively, communicate effectively in a variety of contexts, and understand the complexities of diverse cultural identities. Studying the Sciences gives students insight into the fundamental processes of nature and provides the basics needed to understand and interpret modern scientific accomplishments. Courses in Mathematics help students develop quantitative reasoning skills allowing them to effectively evaluate assumptions and support arguments with quantitative evidence. Students will learn foundational skills to prepare them for academic, personal, and profession success, and will gain an appreciation for the benefits of lifelong learning.

Associate of Arts/Professional Focus

The following Associate of Arts/Professional Focus (AA/PF) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Associate of Arts with a Professional Focus (AA/PF) program is available exclusively online to students who have completed an approved registered apprenticeship program. The AA/PF provides a solid foundation in liberal arts and sciences, while allowing students to transfer in credits from a completed approved apprenticeship program to satisfy Professional Focus requirements. Graduates of the program will receive a transcript that includes their Professional Focus. In the AA/PF program, students can learn valuable skills, including:

- Time management
- Organization
- Critical thinking and Problem Solving
- Writing skills
- Interpersonal communication

Note: This program is not eligible for Title IV Financial Aid.

General Information for the AA/PF

- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for the AA/PF

All applicants are expected to meet the following admissions requirements:

- Applicants for admission must provide proof of completion of the educational component of a registered apprenticeship program that has been reviewed and approved by the University for admission to the AA/PF program.

Degree Requirements for the AA/PF

- Completion of a minimum of 60 credits:
  - General Education - Liberal Arts Component: 33 credits
  - Professional Focus/Interdisciplinary: 18 credits
  - Electives: 9 credits
- A minimum grade point average (GPA) of 2.0.
- Students must complete the AA/PF degree within 5 years.
- The Professional Focus is reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as: Associate of Arts

General Education Requirements for the AA/PF

The General Education requirements for this program are the following:

Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Must include 6 credits of quantitative reasoning or higher order math
Science & Technology, 6 credits
Must include: 3 credits in the physical or biological sciences
Humanities, 6 credits
Pathway B must include: 3 credits in critical thinking
Must include: GEN 201
Social Science, 6 credits
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 3 credits
Professional Focus/Interdisciplinary, 18 credits
Articulated transfer credits from completion of an approved apprenticeship program will be applied to the Professional Focus/Interdisciplinary category. University of Phoenix coursework and acceptable transfer activities may also be completed to fulfill professional focus credits.

Electives, 9 credits

With the exception of GEN 201, General Education, Interdisciplinary, and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students may be able to satisfy select General Education requirements through an approved apprenticeship program articulation agreement to facilitate seamless transfer for apprenticeship program completers.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the AA/PF

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Professional Focus for the AA/PF

- The AA/PF program requires a Professional Focus. The University does not certify students in their Professional Focus but acknowledges their qualifications by recognizing their transferable coursework from an approved registered apprenticeship program. University of Phoenix coursework may also be recognized to fulfill professional focus credits.
- Students are required to submit proof of completion of an approved apprenticeship program as an admissions requirement.

Residency Requirements and Course Waivers for the AA/PF

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 15 credits must be completed at UOPX.

Re-entry for the AA/PF

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.

- No appeals will be accepted for re-entry into an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enter a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

Bachelor of Arts in English

The following Bachelor of Arts in English (BA/ENG) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The purpose of the Bachelor of Arts in English program is to prepare students from diverse backgrounds for roles in which communication and critical thinking are of primary importance. The program will provide students with foundational knowledge and skills in contemporary and classical approaches to literature, writing, and rhetoric. The curriculum is designed to prepare graduates to apply critical thinking, relevant theory, and analysis to written works. Curriculum also allows students to conduct research, create content, and receive, deliver, and incorporate feedback that demonstrates cultural and situational awareness. In this program of study, students have the option of creating a culminating portfolio of work that showcases their relevant skills. This program does not directly prepare students for teacher licensure; however, it provides an academic foundation for students interested in pursuing further graduate education necessary for postsecondary teaching positions in Liberal Arts.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of General Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Develop knowledge related to foundations in literature, writing, research, and rhetoric
- Apply relevant theory and research to the analysis and critique of written works
- Create original written work that responds to a specific purpose and audience
- Integrate feedback to revise and enhance written works
BA/ENG Preferred Sequence and Prerequisites- Pathway A and Pathway B

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Lower Division Courses - 15 credits**

- **ENG 280 ~** .......................................................... 3 credits
- **Rhetoric and Critical Thinking**
- **ENG 270 ~** .......................................................... 3 credits
- **Literary Interpretation and Analysis**

Select 2 courses:

- **LIT 255 ~** .......................................................... 3 credits
- **Survey of American Literature to 1860**
- **LIT 265 ~** .......................................................... 3 credits
- **Survey of American Literature since 1860**

**OR**

- **LIT 235 ~** .......................................................... 3 credits
- **Survey of English Literature to 1798**
- **LIT 245 ~** .......................................................... 3 credits
- **Survey of English Literature since 1798**

**Lower Division Major Electives**

In addition to the courses listed above, students are required to complete 3 Lower Division Major Elective credits. The 3 credits may be satisfied by the following means:

- Approved UOPX 200-level course with LIT, WRIT, RHET, or ENG prefix.
- A 200-level or higher transfer activity with a LIT, WRIT, RHET, or ENG prefix that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date.

**Upper Division Courses - 33 credits**

- **LIT 375 ~** .......................................................... 3 credits
- **Literary Theory and Criticism**
- **WRIT 320 ~** .......................................................... 3 credits
- **Advanced Composition for the English Major**
- **RHET 300 ~** .......................................................... 3 credits
- **Rhetorical Theories**
- **ENG 480 ~** .......................................................... 3 credits
- **Applied Rhetoric**

**Upper Division Major Electives**

In addition to the courses listed above, students are required to complete 21 Upper Division Major Elective credits. The 21 credits may be satisfied by the following means:

- Approved UOPX Upper Division course with LIT, WRIT, RHET, or ENG prefix.
- Upper Division transfer activity with a LIT, WRIT, RHET, or ENG prefix that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date.

**Focus Study -15 credits**

To satisfy the Focus Study requirement, students must complete 15 credits in a content area(s) outside of their selected major, nine (9) of which must be upper division. It is strongly recommended the 15 credits be in the same content area; however, students may satisfy the requirement with any eligible UOPX course or acceptable transfer activity. Credits completed and applied to the Focus Study requirement may not be applied to another program requirement.

**General Information for the BA/ENG**

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

**Degree Requirements for the BA/ENG**

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education 42 credits
  - Major-English 48 credits
  - Focus Study 15 credits
  - Elective Credits 15 credits
- A minimum of 42 upper division credits.
- Completion of a fifteen (15) credit Focus Study, nine (9) of which must be upper division.
- A minimum grade point average (GPA) of 2.0.
The diploma awarded for this program will read as: Bachelor of Arts in English

**Degree Requirements for the BA/ENG for Arkansas Students**

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 54 credits
  - Major-English: 48 credits
  - Focus Study: 15 credits
  - Elective Credits: 3 credits
- A minimum of 42 upper division credits.
- Completion of a fifteen (15) credit Focus Study, nine (9) of which must be upper division.
- A minimum grade point average (GPA) of 2.0.
The diploma awarded for this program will read as: Bachelor of Arts in English
General Education Requirements for the BA/ENG

A minimum of 42 of the 120 credits must be in the general education areas approved by the University.

Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing

Must include: GEN 201

Interdisciplinary Component, 3 credits

Pathway B must include: 6 credits in college-level research and writing

Social Science, 6 credits

Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology

Science & Technology, 6 credits

Pathway B must include: at least three (3) credits in the physical or biological sciences

Humanities, 6 credits

Pathway B must include: 3 credits in critical thinking

Additional Liberal Arts, 3 credits

Foreign Language, 6 credits

NTP Foreign Language Exams may be used to satisfy foreign language requirements.

General Education Requirements for the BA/ENG for Arkansas Students

A minimum of 51 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits

Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing

Mathematics, 6 credits

Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology

Science & Technology, 9 credits

Pathway B must include: a minimum of 6 credits in lab science

Social Science, 9 credits

Pathway B must include: 3 credits in critical thinking

Mathematics, 6 credits

Pathway B must include: 3 credits in psychology

Science & Technology, 9 credits

Pathway B must include: a minimum of 6 credits in lab science

Interdisciplinary Component, 3 credits

NTP Foreign Language Exams may be used to satisfy foreign language requirements.

Additional Liberal Arts, 6 credits

Foreign Language, 6 credits

The Social Science requirement may also be satisfied with any transfer coursework with U.S. History or Government content.

Pathway B must include: 3 credits in psychology

Students who lack 67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BA/ENG

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BA/ENG

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Experiential Journal credit is not eligible to waive courses in the required course of study.

Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.

Students in this program may waive a maximum of 15 credits from their required course of study (which includes the lower division and upper division major electives.)

Re-entry for the BA/ENG

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Bachelor of Science in Environmental Science

The following Bachelor of Science in Environmental Science (BS/EVS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science degree with a mathematics requirement and primary majors in natural sciences and history is designed to provide students with substantive academic content in the discipline of their choice. The degree provides an academic content area foundation for students interested in pursuing further graduate or alternative route methodology courses required for teaching certification in all states. The degree also provides an academic foundation for students interested in pursuing further graduate education necessary for postsecondary teaching positions in liberal arts at most colleges and Universities. This program does not directly prepare students for certification or licensure as a teacher. The degree also provides an academic foundation for students interested in pursuing further graduate education necessary for postsecondary teaching positions in natural science or history at most colleges and universities. Focused studies are designed to provide an interdisciplinary component that will increase the student’s breadth of learning. The program will provide workers in business and government, as well as education, with learning that promotes critical thinking, information utilization, collaboration, communication, and analytical skills essential to effective and efficient work productivity. The major in Environmental Science is designed to provide students with a comprehensive understanding of the relationship between scientific principles and the environment. Topics will include biological and ecological fundamentals, the environment and society, environmental management and law, global health, risk assessment, ethics, and technology.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of General Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
• Develop knowledge that is foundational to the physical and biological sciences
• Evaluate environmental phenomena using social, environmental, and financial principles
• Construct scientific arguments to accurately assess environmental risk
• Utilize environmental regulation to examine human activity
• Apply environmental policy in the management of the environment

Preferred Sequence and Prerequisites for the BS/EVS
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Major Requirements

Lower Division Courses - 23 credits

Major Courses - 23 credits
CHM 150 ~ ........................................................................... 4 credits
General Chemistry I
CHM 151 ~ ........................................................................... 4 credits
General Chemistry II
GLG 220 ~ ........................................................................... 3 credits
Physical Geology
BIO 101 ........................................................................... 3 credits
Principles of Biology
ENV 100 ........................................................................... 3 credits
Principles of Environmental Science
SCI 256 ~ ........................................................................... 3 credits
People, Science and the Environment
BIO 280 ~ ........................................................................... 3 credits
Conservation Biology
Upper Division Courses - 33 credits

Major Courses - 21 credits
BIO 315 ~ ........................................................................... 3 credits
Ecology and Evolution
SUS 300 ~ ........................................................................... 3 credits
Environmental Sustainability

Public Policy Analysis  
ENV 340 ~ ................................................................. 3 credits  
Energy and the Environment  
ENV 315 ~ ................................................................. 3 credits  
Global Change  
BIO 325 ~ ................................................................. 3 credits  
Economic Botany  
ENV 330 ~ ................................................................. 3 credits  
Global Environmental Health  
ENV 350 ~ ................................................................. 3 credits  
Water and Wastewater Treatment Technology

The University reserves the right to modify the required course of study.  

**Focus Study - 15 credits**

To satisfy the Focus Study requirement, students must complete 15 credits in a content area(s) outside of their selected major, nine (9) of which must be upper division. It is strongly recommended the 15 credits be in the same content area; however, students may satisfy the requirement with any eligible UOPX course or acceptable transfer activity. Credits completed and applied to the Focus Study requirement may not be applied to another program requirement.

**General Information for the BS/EVS**

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.

Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

**Degree Requirements for the BS/EVS**

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 36 credits
  - Major-Environmental Science: 56 credits
  - Focus Study: 15 credits
  - Elective Credits: 13 credits
  - A minimum of 42 upper division credits.

- Completion of a fifteen (15) credit Focus Study, nine (9) of which must be upper division.
- A minimum grade point average (GPA) of 2.0.
- Students may choose additional elective credits to fulfill upper division and elective requirements.
- The diploma awarded for this program will read as: Bachelor of Science in Environmental Science

**General Education Requirements for the BS/EVS**

A minimum of 36 of the 120 credits must be in the general education areas approved by the University.

**Electives Requirement 13 credits**

- Select elective courses to meet the minimum upper division and general education requirements for the Bachelor of Science in Environmental Science degree.
- Communication Arts Requirement(s) 6 credits
  - Pathway A must include: 3 credits of College Composition
  - Pathway B must include: 6 credits in college-level research and writing
- Mathematics Requirement(s) 9 credits
  - Must include: MTH 231, equivalent or higher
  - Must include 6 credits of college algebra or higher
- Social Science Requirement(s) 6 credits
  - Pathway B must include: 3 credits in economics
  - Pathway B must include: 3 credits in psychology
- Science/Tech Requirement(s) 6 credits
  - Must include at least three (3) credits in the physical or biological sciences
- Additional Liberal Arts Requirement(s) 3 credits
  - Pathway B must include: 3 credits in critical thinking
  - Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

**Academic Progression Requirements for the BS/EVS**

THIS PAGE WAS LEFT BLANK INTENTIONALLY
The College of Social and Behavioral Sciences offers undergraduate and graduate degree programs in a number of diverse academic areas including counseling, psychology, social work, criminal justice and security, and public administration. The College provides innovative, relevant, and student-focused educational programs designed to prepare students for opportunities of service and leadership in the fields of social and behavioral sciences. These programs are developed and taught by highly skilled practitioners in their respective fields who emphasize knowledge, skills, dispositions, and lifelong learning as essential elements for professional practice. Through individual and collaborative work in theory and practice, students can acquire the knowledge and skills needed for today’s work environment.

**Associate of Arts in Criminal Justice**

The following Associate of Arts in Criminal Justice (AACJS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Associate of Arts in Criminal Justice Program is to prepare individuals for criminal justice occupations. The program will provide students with cognitive, interpersonal, and collaborative skills to navigate a rapidly changing environment. The program is designed to accommodate those requiring basic knowledge, as well as individuals seeking a foundational understanding of the field.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College Humanities and Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Explain the foundational components of the criminal justice system.
- Apply interpersonal and collaborative communication skills.
- Explain societal issues in the criminal justice system.

**Program Purpose**

The University’s Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement or corrections or as a peace officer with any particular local, state, federal, tribal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

**Preferred Sequence and Prerequisites for the AACJS**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- **CJS 201 ~ Introduction to Criminal Justice**
  - 3 credits
- **CJS 221 ~ Cultural Diversity in Criminal Justice**
  - 3 credits
- **CJS 241 ~ Introduction to Police Theory and Practices**
  - 3 credits
- **CJS 251 ~ Introduction to Criminal Court Systems**
  - 3 credits
- **CJS 255 ~ Introduction to Corrections**
  - 3 credits
- **CJS 245 ~ Juvenile Justice Systems and Processes**
  - 3 credits

The University reserves the right to modify the required course of study.

The Associate of Arts in Criminal Justice degree program does not satisfy the requirements of the Minnesota Police Officer Standards and Training Board. Students will not qualify to be a police officer nor sit for the licensing exam in Minnesota upon successful completion of this program. The University’s security and criminal justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal, tribal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a security and criminal justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for AACJS

All applicants are expected to meet the following admissions requirements:
- Applicants must be at least 16 years of age at the time of application.
- Signed Acknowledgment Form

Degree Requirements for AACJS

- Completion of a minimum of 60 credits that include the following distribution:
  - General Education: 36 credits
  - Required Course of Study: 18 credits
  - Electives: 6 credits
- A minimum grade point average (GPA) of 2.0.
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional education balance in order to complete the minimum general education credits required for their program.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Completion of a minimum of 60 credits that include the following distribution:
  - General Education: 36 credits
  - Required Course of Study: 18 credits
  - Electives: 6 credits
- A minimum grade point average (GPA) of 2.0.
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional education balance in order to complete the minimum general education credits required for their program.

General Education Requirements for the AACJS

The General Education requirements for this program are the following:
- Communication Arts, 6 credits
- Pathway A must include: 3 credits of College Composition
- Pathway B must include: 6 credits in college-level research and writing
- Mathematics, 6 credits
- Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
- Science and Technology, 6 credits
- Must include at least three (3) credits in the physical or biological sciences
- Humanities, 6 credits
- Pathway B must include: 3 credits in critical thinking
- Social Science, 6 credits
- Pathway B must include: 3 credits in economics
- Pathway B must include: 3 credits in psychology
- Additional Liberal Arts, 6 credits
- Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the AACJS

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the AACJS

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 15 credits from a combination of Required Course of Study, General Education, and Elective courses must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AACJS

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
The Bachelor of Science in Criminal Justice Administration (BSCJA) program is offered at all University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depends on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Criminal Justice Administration is intended to equip adult learners with a fundamental understanding of the essential components comprising the American criminal justice system. Students will learn basic management, administrative and financial skills relative to criminal justice agencies. The program also strives to familiarize students with current trends, research techniques, and problem-solving methods in the discipline. This program is designed to bridge the gap between theory and practical application through core instruction in criminal justice as it is represented in the domains of law enforcement, criminal courts, and corrections.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:

- Apply administrative practices within the criminal justice system.
- Apply professional dispositions and ethical conduct in criminal justice administration.
- Analyze procedures within criminal justice programs and public policies.
- Integrate research and theories in criminal justice administration.
- Evaluate innovative strategies for serving diverse populations within the criminal justice system.

Program Purpose

The University's Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement or corrections or as a peace officer with any particular local, state, federal, tribal or international agency, there are numerous additional qualifications (and often disqualifications), depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

Preferred Sequence and Prerequisites for the BSCJA

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

CJA 316 ~ ................................................................. 3 credits
Survey of Criminal Justice

CJA 326 ~ ................................................................. 3 credits
Ethics in Criminal Justice

CJA 336 ~ ................................................................. 3 credits
Diversity in Criminal Justice

CJA 346 ~ ................................................................. 3 credits
Theories of Criminology and Victimology

CJA 356 ~ ................................................................. 3 credits
Organizational Behavior and Management

CJA 376 ~ ................................................................. 3 credits
Interagency Communication

CJA 386 ~ ................................................................. 3 credits
Research Statistics

CJA 416 ~ ................................................................. 3 credits
Budget, Finance, and Planning

CJA 426 ~ ................................................................. 3 credits
Grant Writing and Funding

CJA 436 ~ ................................................................. 3 credits
Mental Health Services and Crisis Intervention

CJA 446 ~ ................................................................. 3 credits
Criminal Justice Policy Analysis and Program Evaluation

CJA 456 ~ ................................................................. 3 credits
Contemporary Issues and Futures in Criminal Justice

CJA 476 ~ ................................................................. 3 credits
Criminal Justice Problem-Solving Methods
a graduate for any such position.
The University’s security and criminal justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal, tribal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a security and criminal justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

General Information for the BSCJA
- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for the BSCJA
All applicants are expected to meet the following admissions requirements:
- Signed Acknowledgement Form

Degree Requirements for the BSCJA
- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 36 credits
  - Required Course of Study: 42 credits
  - Electives: 42 credits
- A minimum of 42 upper division credits.
- A minimum grade point average (GPA) of 2.00.
- The diploma awarded for this program will read as: Bachelor of Science in Criminal Justice Administration

Academic Progression Requirements for the BSCJA
- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.
- The capstone course (CJA 486) may not be taken concurrently with any other BSCJA required course of study courses.

Residency Requirements and Course Waivers for the BSCJA
Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Journal credit is not eligible to waive courses in the required course of study.
- Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
- Students in this program may waive a maximum of 9 credits from their required course of study.
- The following course in the required course of study may not be waived: CJA 486

General Education Requirements for the BSCJA
A minimum of 36 of the 120 credits must be in the general education areas approved by the University.
- Communication Arts, 6 credits
  - Pathway A must include: 3 credits of College Composition
  - Pathway B must include: 6 credits in college-level research and writing
- Mathematics, 6 credits
  - Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
- Science and Technology, 6 credits
  - Must include at least 3 credits in the physical or biological sciences
- Humanities, 6 credits
  - Pathway B must include: 3 credits in critical thinking
- Social Science, 6 credits
  - Pathway B must include: 3 credits in economics
  - Pathway B must include: 3 credits in psychology
- Additional Liberal Arts, 6 credits
  - Must include: GEN/201
With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use
elective credits to waive the balance. Students must use elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

**Criminal Justice/Security Masters Pathway for the BSCJA**

Bachelor of Science in Criminal Justice Administration students who wish to transition into the University's Master of Science/Administration of Justice and Security (MS/AJS) or Master of Public Administration (MPA) degree programs may complete up to three (3) of the following courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.

**MS/AJS Pathway Courses**

- AJS 505 ~ ................................................................. 3 credits
- Foundations of Justice and Security
- AJS 515 ~ ................................................................. 3 credits
- Criminological Theory and Risk Mitigation
- AJS 525 ~ ................................................................. 3 credits
- Cybercrime and Information Security

**MPA Pathway Courses**

- MPA 503 ~ ................................................................. 3 credits
- Public Administration Institutions and Processes
- COM PA523 ~ .......................................................... 3 credits
- Communications for Public Administrators
- LAW PA513 ~ ........................................................... 3 credits

**Re-entry for the BSCJA**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student who has been out of attendance for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.

- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

**Bachelor of Science in Public Administration**

The following Bachelor of Science in Public Administration (BSPA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Public Administration program prepares individuals for careers in government at the federal, state, and local levels, and nonprofit entities. The program provides students with skills related to communication, ethics, civic leadership, law and policy, research and planning, public finance and budgeting, public programs, and human resources to positively impact communities.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Analyze public administration concepts.
- Apply public administration management practices.
- Analyze research methodologies for public administration.
- Apply the ethical standards of public administration.
- Examine fiduciary practices in public administration.

**Preferred Sequence and Prerequisites for the BSPA**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- BPA 201 ~ ................................................................. 3 credits
- Foundations of Public Administration
- BPA 200 ~ ................................................................. 3 credits
- Public Sector Communications
- BPA 304 ~ ................................................................. 3 credits
- The Public Policy Environment
- BPA 321 ~ ................................................................. 3 credits
- Personnel Management
- BPA 332 ~ ................................................................. 3 credits
- Public Budgeting
- BPA 371 ~ ................................................................. 3 credits
- Intergovernmental Relations
- BPA 381 ~ ................................................................. 3 credits
- Public Administration Policy, Legal Issues, Law & Ethics
- BPA 382 ~ ................................................................. 3 credits
- Fiscal Management
- BPA 385 ~ ................................................................. 3 credits
- Research in Public Administration
BPA 390 ~ ................................................................. 3 credits
Program Implementation and Evaluation
BPA 422 ~ ................................................................. 3 credits
Organizational Behavior and Leadership
BPA 441 ~ ................................................................. 3 credits
Urban and Regional Planning
BPA 445 ~ ................................................................. 3 credits
Conflict Resolution and Risk Management
BPA 451 ~ ................................................................. 3 credits
Capital Improvement Planning & Management

The University reserves the right to modify the required course of study.

**General Information for the BSPA**
- First time attendees with the University indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate’s degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate’s degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

**Additional Admission Requirements for the BSPA**
All applicants are expected to meet the following admissions requirements:
- Signed Acknowledgement Form

**Degree Requirements for the BSPA**
- Completion of a minimum of 120 credits that include the following distribution:
  - General Education - 36 credits
  - Required Course of Study - 42 credits
  - Electives - 42 credits
- A minimum of 30 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Public Administration

**Academic Progression Requirements for the BSPA**
- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

- Students must successfully complete a minimum of 24 general education credits prior to entry into the first required course of study course. The 24 credits may be satisfied using UOPX coursework or applied transfer credit.

The 24 general education credits must consist of:
- 6 credits in Communication Arts
- 6 credits in Humanities
- 6 credits in Social Science
- 6 credits in the combination of any of the following categories:
  - Science and Technology
  - Physical or Biological Science
  - Additional Liberal Arts
  - Mathematics
  - Electives

**Residency Requirements and Course Waivers for the BSPA**
- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at UOPX.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Experiential Journal credit is not eligible to waive courses in the required course of study.
  - Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
  - Students in this program may waive a maximum of 12 credits from their required course of study.
  - The following course(s) may not be waived: BPA 441, BPA 445, BPA 451
General Education Requirements for the BSPA
A minimum of 36 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Puerto Rico students may not use conversational English to satisfy Communication Arts.

Mathematics, 6 credits
Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher

Science and Technology, 6 credits
Must include at least 3 credits in the physical or biological sciences

Social Science, 6 credits
Pathway B must include: 3 credits in critical thinking
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology

Additional Liberal Arts, 6 credits
Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Public Administration Masters Pathway for the BSPA
Bachelor of Science in Public Administration students who want to transition into the University’s Master of Public Administration (MPA) degree program may complete up to three (3) of the following courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.

MPA Pathway Courses
MPA 503 ~ ............................................................................... 3 credits
Public Administration Institutions and Processes
COM PA523 ~ ................................................................. 3 credits
Communications for Public Administrators
LAW PA513 ~ ................................................................. 3 credits
Law and Public Administration

Re-Entry for BSPA
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

Bachelor of Science in Correctional Program Support Services
The following Bachelor of Science in Correctional Program Support Services (BSCPSS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Correctional Program Support Services prepares students interested in working with justice-involved populations in community, human services, and institutional settings. The program will provide students with foundational knowledge and skills in human services, service delivery, advocacy, behavioral health, and management. The program provides instruction in correctional assessment, case management, facilitation skills, systems of therapeutic intervention, reintegration strategies, diversity, and legal and ethical dispositions.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Analyze evidence-based practices and trends for working with diverse individuals in community, human services, and institutional settings.
- Integrate knowledge, skills, and theory for structuring and administering direct service delivery and use of appropriate interventions with clients.
- Apply ethical decision-making models when resolving problems and/or issues related to providing support services and advocacy for justice-involved individuals.
- Examine biopsychosocial principles as they relate to personal, social, and organizational problems and/or issues.
Preferred Sequence and Prerequisites for the BSCPSS

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

CPSS 210 ~ Introduction to Criminal Justice
CPSS 215 ~ Foundations of Criminal Behavior
Survey of Corrections in the United States
CPSS 240 ~ 3 credits

CPSS 300 ~ Working with the Correctional Population
CPSS 316 ~ Social Psychology and Criminal Behavior
CPSS 330 ~ Ethics and Values for Support Services Professionals
CPSS 331 ~ Diversity and Special Populations
CPSS 370 ~ Intake, Assessment, and Classification
Case Planning and Case Management
CPSS 395 ~ 3 credits

Program Facilitation Skills
CPSS 410 ~ Overview of Mental Health in Criminal Justice
CPSS 415 ~ Working with Juvenile Offenders
CPSS 420 ~ Issues of Substance Abuse and Addiction
CPSS 400 ~ Institutional and Community-Based Programs

The University reserves the right to modify the required course of study.

Degree Requirements for the BSCPSS

Bachelor of Science in Correctional Program Support Services

Required Course of Study: 42 credits
General Education: 36 credits
Electives: 42 credits

Additional Admission Requirements for the BSCPSS

All applicants are expected to meet the following admissions requirements:

- No work experience and/or current employment is required for this program.
- Signed Acknowledgement Form
- A signed Professional Non-Academic Requirement Addendum Form.

Degree Requirements for the BSCPSS

Completion of a minimum of 120 credits that include the following distribution:

- General Education: 36 credits
- Required Course of Study: 42 credits
- Electives: 42 credits
- A minimum of 30 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Correctional Program Support Services

General Education Requirements for the BSCPSS

A minimum of 36 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Pathway A must include: 3 credits in college composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Pathway A must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
Science and Technology, 6 credits
Pathway B must include: 3 credits in the physical or biological sciences
Humanities, 6 credits
Pathway B must include: 3 credits in critical thinking
Social Science, 6 credits
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 6 credits
Pathway B must include: 3 credits in critical thinking
Additional Liberal Arts, 6 credits
Pathway B must include: 3 credits in economics
Additional Liberal Arts, 6 credits
Pathway B must include: 3 credits in psychology

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

**Academic Progression Requirements for the BSCPSS**

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

**Residency Requirements and Course Waivers for the BSCPSS**

- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Experiential Journal credit is not eligible to waive courses in the required course of study.
  - Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
  - Students in this program may waive a maximum of 12 credits from their required course of study.
  - The following course(s) may not be waived: CPSS 400

**Public Administration Masters Pathway for the BSCPSS**

Bachelor of Science in Correctional Program Support Services students who want to transition into the University's Master of Public Administration (MPA) degree program may complete up to three (3) of the following courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.

**MPA Pathway Courses**

- MPA 503 ~ ................................................................. 3 credits
- Public Administration Institutions and Processes
- COM PA523 ~ ............................................................. 3 credits
- Communications for Public Administrators
- LAW PA513 ~ ............................................................. 3 credits
- Law and Public Administration

**Re-entry for the BSCPSS**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the Institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry into an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enter a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.
Bachelor of Science in Industrial-Organizational Psychology

The following Bachelor of Science in Industrial-Organizational Psychology (BSIOP) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The mission of the Bachelor of Science in Industrial and Organizational Psychology is to prepare students to support healthy organizational cultures and to address organizational issues by applying psychological principles to personnel, administration, management, sales and marketing functions within an industrial and organizational setting. This program provides a foundation in Psychological theories and methodologies used by industrial organizational psychology practitioners, social, cognitive and motivational processes and ethics.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills, and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply Industrial/Organizational psychological principles in managing human work performance and interactions.
- Develop a working knowledge of Psychology's content domains and their application.
- Apply scientific reasoning to psychological research of the human experience.
- Integrate diversity and ethical considerations to psychological practices.

Program Purpose

The Bachelor of Science in Industrial-Organizational Psychology provides a foundation in psychology and its relevance and application to industry and organizational settings. This program does not lead to professional certification or licensure as a psychologist, counselor, or other mental health practitioner.

Preferred Sequence and Prerequisites for the BSIOP

Courses requiring prerequisites are identified by a – symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- PSY 203T Foundations of Psychology, 3 credits
- PSY 205T Life Span Human Development, 3 credits
- PSY 340 Biological Foundations in Psychology, 3 credits
- PSY 390 Learning and Cognition, 3 credits
- PSY 335 Research Methods, 3 credits
- PSY 400 Social Psychology, 3 credits
- PSY 315 Statistical Reasoning in Psychology, 3 credits

Bachelor of Science in Industrial-Organizational Psychology, 42 credits

Diversity and Cultural Factors in Psychology, 3 credits
Industrial/Organizational Psychology, 3 credits
Motivational Processes in Human Psychology, 3 credits
Professional Ethics, 3 credits
Organizational Cultures, 3 credits
Group Dynamics, 3 credits
Assessment Tools for Organizations, 3 credits

General Information for the BSIOP

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for the BSIOP

All applicants are expected to meet the following admissions requirements:

- Signed Hardware/Software Agreement

Degree Requirements for the BSIOP

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 36 credits
  - Required Course of Study: 42 credits
  - Electives: 42 credits
- A minimum of 30 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Industrial-Organizational Psychology
General Education Requirements for the BSIOP
A minimum of 36 of the 120 credits must be in the general education areas approved by the University.
With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
Students who lack 67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
Communication Arts, 6 credits
- Pathway A must include: 3 credits of College Composition
- Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
- Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
Science and Technology, 6 credits
- Must include at least three (3) credits in the physical or biological sciences
Humanities, 6 credits
- Pathway B must include: 3 credits in critical thinking
Social Science, 6 credits
- Pathway B must include: 3 credits in economics
- Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 6 credits
- Must include: GEN 201

Academic Progression Requirements for the BSIOP
- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BSIOP
- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for ES&T courses) from current program enrollment agreement sign date with a grade of ‘C’ (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Journal credit is not eligible to waive courses in the required course of study.
- Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
- Students in this program may waive a maximum of 12 credits from their required course of study.

Psychology Masters Pathway for the BSIOP
Bachelor of Science in Industrial-Organizational Psychology students who want to transition into the University’s Master of Science in Industrial-Organizational Psychology (MSIOP) degree program may complete up to three (3) of the following courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.
- PSYCH 599 - ................................................................. 3 credits
- Foundations of Graduate Study in Psychology
- PSYCH 614 - ................................................................. 3 credits
- Social Psychology
- PSYCH 620 - ................................................................. 3 credits
- Multicultural and Social Issues in Psychology

Re-Entry for BSIOP
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
• No appeals will be accepted for re-entry into an expired program.
• Any students in College of Education, College of Nursing, or College of Social and Behavioral Sciences programs that either lead to professional licensure or certification, or that require a license, credential, or certification for admission are exempt from this general re-entry policy. Re-entry students who wish to re-enter these programs should review their specific program’s re-entry policies and consult the appropriate University representative for guidance.

Bachelor of Science in Applied Psychology/Concentration in Media and Technology
The following Bachelor of Science in Applied Psychology/Concentration in Media and Technology (BSAP/MT) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The mission of the Bachelor of Science in Applied Psychology Program is to prepare students use psychology applications in contemporary life and employment settings such as business and industry, government, education, military and community agencies. This program provides a foundation in developmental, social, cognitive, and behavioral psychology with a concentration in the interactions and impacts of media and technology on humans.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:

• Students will apply psychological theories and concepts when creating solutions to complex technology mediated human problems.
• Students will analyze existing behavioral research in designing solutions to complex human challenges associated with technology mediated social engagement and learning.
• Students will apply ethical standards to address, social media, cultural, and learning problems.
• Students will analyze complex human challenges associated with learning environmental, technology mediated social engagement and learning.
• Students will apply psychological principles and practices that advance social and technological communications.

Program Purpose
The Bachelor of Science in Applied Psychology provides a contemporary perspective on the applications of psychology to mediated communication, relationships and learning, and the roles technology plays in human interactions. This program does not lead to professional certification or licensure as a psychologist, counselor or other mental health practitioner.

Preferred Sequence and Prerequisites for the BSAP/MT - Pathway A and Pathway B
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- PSY 203 ~ prerequisite applies to Pathway B only .................3 credits
- Foundations of Psychology
- PSY 205 ~ prerequisite applies to Pathway B only .................3 credits
- Life Span Human Development
- IT 200 ~ prerequisite applies to Pathway B only .................3 credits
- Digital Skills for the 21st Century
- PSY 245 ~ .................................................................3 credits

- Cyber Communications
- APMT 470 ~ .................................................................3 credits
- Digital Learning

The University reserves the right to modify the required course of study.

General Information for the BSAP/MT
• First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
• Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
• Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.

164
• Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for the BSAP/MT
All applicants are expected to meet the following admissions requirements:
• Signed Hardware/Software Agreement

Degree Requirements for the BSAP/MT
• Completion of a minimum of 120 credits that include the following distribution:
  • General Education: 57 credits
  • Required Course of Study: 45 credits
  • Required Program Electives (must include 9 upper division credits): 18 credits
• A minimum of 42 upper division credits.
• A minimum grade point average (GPA) of 2.0.
• Concentrations or emphases are reflected on the transcript only and will not appear on the diploma.
• The diploma awarded for this program will read as: Bachelor of Science in Applied Psychology

General Education Requirements for the BSAP/MT
A minimum of 57 of the 120 credits must be in the general education areas approved by the University.

Additional Liberal Arts, 9 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Must include 6 credits of quantitative reasoning or higher
Science and Technology, 6 credits
Must include at least three (3) credits in the physical or biological sciences
Humanities, 6 credits
Pathway B must include: 3 credits in critical thinking
Must include: GEN 201
Social Science, 6 credits
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 9 credits
Interdisciplinary Component, 18 credits
Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.
Physical Education activity credits are limited to four (4) credits.

Academic Progression Requirements for the BSAP/MT
• Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
• Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
• Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BSAP/MT
• Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
• In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  • The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  • The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of 'C' (2.0) or better or comparable passing benchmark for nontraditional credits.
  • The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  • Experiential Journal credit is not eligible to waive courses in the required course of study.
  • Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
• Students in this program may waive a maximum of 24 credits from their required course of study.
• The 18 Required Program Elective credits can be completed in a combination of the following areas Business, Communication, Culture, Diversity, Economics, Global Perspectives, Human Resource, Information Systems, Journalism, Leadership, Management, Marketing, and Media and must include 9 upper division credits. The 18 Required Program Elective credits may be satisfied by any of the following means:
  • UOPX coursework.
  • Transfer activity that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date.
**Psychology Masters Pathway for the BSAP/MT**

Bachelor of Science in Applied Psychology with a concentration in Media and Technology students who want to transition into the University's Master of Science in Industrial-Organizational Psychology (MSIOP) degree program may complete up to three (3) of the following courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.

**MSIOP Pathway Courses**
- PSYCH 599 ~ .................................................................3 credits
- Foundations of Graduate Study in Psychology
- PSYCH 614 ~ .................................................................3 credits
- Social Psychology
- PSYCH 620 ~ .................................................................3 credits

**Multicultural and Social Issues in Psychology**

**Re-Entry for BSAP/MT**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

**Bachelor of Science in Social Work**

The following Bachelor of Science in Social Work (BSSW) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Social Work (BSSW) program provides development of social work theory into application of professional skills to enhance the lives of diverse individuals, families, organizations, and communities. The program prepares students to be effective, ethical, culturally-aware social workers who advocate for social change and promote resilience in a rapidly evolving global environment. Graduates will be prepared to apply knowledge, skills, and social work values aligned with industry standards of the Council of Social Work Education Standards (CSWE). The program includes a required supervised field education component.

The BSSW program meets the educational requirements in select states for graduates to pursue social work licensure in states that provide for licensure or certification at the bachelor's degree level. View state licensure requirements for this program: www.phoenix.edu/state-licensure-requirements/social-work

This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates must update their current address with the University and contact their Academic Advisor immediately when such change occurs to ascertain the effect upon their program. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will recognize ethical dilemmas, and apply relevant laws, regulations, and codes of ethics to make ethical decisions that promote human and community well-being.
- Students will apply cultural awareness, self-awareness and self-regulation skills in engaging and working with diverse clients at the micro, mezzo, and macro system levels.
- Students will analyze theories of human need and advocate for the advancement of social, economic, and environmental justice.
- Students will apply research-informed practice, social science research methods and theories to inform and improve social work research, practice, policies, and service delivery.
• Students will comprehend and translate policies that impact delivery of services at the global, federal, state, and local levels and advocate for policy and policy change that enhances human and community well-being.
• Students will apply human behavior in the social environment and other multidisciplinary theoretical frameworks to engage with diverse clients and constituencies using interpersonal and inter-professional skills.
• Students will identify needs and intervention strategies in collaboration with diverse populations and constituencies by applying appropriate assessment methods.
• Students will plan and implement multi-disciplinary intervention strategies for achieving agreed-upon goals and enhancing the capacities of diverse populations and constituencies.
• Students will compare and contrast interventions, outcomes, policies and processes to monitor and enhance practice, policy and service delivery effectiveness at the micro, mezzo, and macro level.

**Program Purpose**
The Bachelor of Science in Social Work (BSSW) is an undergraduate degree program that provides a foundation in social work theory and teaches the application of professional social work values, principles, standards and techniques to educationally prepare graduates to pursue state licensure or certification as a bachelor’s level social worker in select states. Licensure requirements vary by state, and students must ascertain and meet the licensure requirements in any state in which they desire to practice. There may be additional qualifications and/or disqualifications applicable in order to become a social worker. See the licensure requirements and contact information for your state: www.phoenix.edu/state-licensure-requirements/social-work.

**Preferred Sequence and Prerequisites for the BSSW - Pathway A and Pathway B**
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

SWRK 200 ~ Introduction to Social Work
SWRK 210 ~ Social Problems and Programs
SWRK 220 ~ Professional and Ethical Behaviors for Social Work Practice
SWRK 301 ~ Communication Techniques
SWRK 310 ~ Human Behavior and the Social Environment I
SWRK 320 ~ Social Welfare Policy and the Law
SWRK 330 ~ Social Work Practice: Individuals and Families
SWRK 340 ~ Social Work Practice: Groups
SWRK 345 ~ Social Advocacy: Child Endangerment and Global Factors
SWRK 350 ~ Social Justice and Diversity in Social Work
SWRK 360 ~ Social Work Practice: Communities and Organizations
SWRK 380 ~ Social Work Practice: Communities and Organizations
SWRK 390 ~ Social Welfare Policy Application
SWRK 400 ~ Research and Evaluation in Social Work Practice
SWRK 421 ~ Human Behavior and the Social Environment II
SWRK 480 ~ Applying Social Work Practice Skills
SWRK 460 ~ Research and Evaluation in Social Work Practice
SWRK 470 ~ Social Work Capstone and Portfolio

**Field Education**
In addition to the courses listed above, students must complete 6 credits of Field Education coursework. Students have the option to choose to complete two 15-week Field Education courses (SWRK 405 and SWRK 420) or a single 15-week course (SWRK 425). Students cannot complete SWRK 425 and SWRK 405 or SWRK 420.

SWRK 405 ~ Field Education I
SWRK 420 ~ Field Education II
SWRK 425 ~ Field Education Block

The University reserves the right to modify the required course of study.

**General Information for the BSSW**
• First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
• Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
• Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
• Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.
Additional Admission Requirements for the BSSW
All applicants are expected to meet the following admissions requirements:
• No work experience and/or current employment is required for this program.
• A signed Criminal Conviction Disclosure Form.
• A signed Non-Academic Requirement Addendum Form.

Degree Requirements for the BSSW
• Completion of a minimum of 120 credits that include the following distribution:
  • General Education: 54 credits
  • Required Course of Study (BSSW): 60 credits
  • Electives: 6 credits
• A minimum of 42 upper division credits.
• A minimum grade point average (GPA) of 2.0.
• The diploma awarded for this program will read as: Bachelor of Science in Social Work

General Education Requirements for the BSSW
A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Must include 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
Science and Technology, 6 credits
Must include three (3) credits in the physical or biological sciences
Humanities, 6 credits
Pathway B must include: 3 credits in critical thinking
Must include: GEN 201
Social Science, 6 credits
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 6 credits
Interdisciplinary Component, 18 credits
Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
• University of Phoenix coursework
• Activity that is acceptable in transfer to the University

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSSW
• Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
• Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
• Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Minimum Grade Requirements for the BSSW
• Scholastic Disqualification courses and minimum grade requirements are included below. Students who fail to meet the minimum grade requirement for SWRK 200, SWRK 425, SWRK 405, and SWRK 420 will be scholastically disqualified and will be allowed to repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be temporarily withdrawn from the program and will be placed on scholastic suspension.

Students are required to achieve a minimum grade of "B" or better in the following courses. A "B-" grade is not acceptable: SWRK 200
Students are required to achieve a minimum grade of "C" or better in the following courses. A "C-" grade is not acceptable: SWRK 405, SWRK 420, SWRK 425

Students who have been scholastically disqualified from SWRK 200 will not be allowed to continue in their degree program until they have taken the following steps:
• Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
• Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Students who fail to meet the minimum grade requirement for SWRK 425, SWRK 405, and SWRK 420 will be required to follow the professional standard referral process. Field Education is a key component of the BSSW program and failure to meet the minimum grade requirement will require a robust remediation plan with input from a college designee.

Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have fulfilled the requirements for reentry as determined by the college's designee.
Students in the College of Social and Behavioral Sciences programs may not transfer credit to the University from courses taken from other schools while academically or scholastically disqualified.

Residency Requirements and Course Waivers for the BSSW

- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with ACCJC, HLC, MSChE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, or that is a candidate for approved institutional accreditation, or as part of a Social Work degree at a Council on Social Work Education (CSWE) accredited college or university.
  - The activity must have been completed within the past five (5) years current program enrollment agreement sign date with a grade of "C" (2.0) or better.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Journal credit is not eligible to waive courses in the required course of study.
- Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
- Students in this program may waive a maximum of 24 credits from their required course of study.
- The following courses in the Required Course of Study may not be waived: SWRK 200, SWRK 330, SWRK 340, SWRK 360, SWRK 380, SWRK 405, SWRK 420, SWRK 425

Field Education for the BSSW

Students in the BSSW program must complete 400 hours of field education at a social work placement site. Students may complete their field education hours in either a single (SWRK/425) or two (SWRK/405 and SWRK/420) Field Education course(s). Students are required to meet attendance and course requirements for the Field Education coursework while completing their placement.

Re-Entry for the BSSW

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students must submit an appeal to the Student Appeals Center to re-enter their program that is not yet expired.
- No appeals will be accepted for re-entry to an expired program.
COLLEGE OF BUSINESS AND INFORMATION TECHNOLOGY

Consistent with the values, mission, and purpose of the University of Phoenix, the College of Business and Information Technology mission is to provide innovative, industry-relevant, and accessible higher education that prepares learners to be competent, responsible, and ethical practitioners and leaders for career success. Our goal is to make a difference in the lives of our students and their organizations. Through its integrated network of faculty, staff, and business and IT collaborators, the College of Business and Information Technology will be a preferred source for finding and developing emerging leaders for organizations through the delivery of real-time education solutions that are relevant and immediately applicable to solving business challenges. The College of Business and Information Technology adheres to core values that are consistent with the University’s values of Brave, Honest, and Focused. We believe that every staff and faculty member should have a commitment to learning, intellectual diversity, embracing innovation and improving society. We should empower excellence while acting with integrity, and treating others as we would like to be treated.

**Associate of Arts/Concentration in Business Fundamentals**

The following Associate of Arts/Concentration in Business Fundamentals (AABFN) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Associate of Arts in Business Fundamentals prepares students for a variety of management and administrative positions across diverse organizations. The program provides students with essential business knowledge and skills in leadership, management, business communication, information systems, problem solving, and accounting. The program curriculum and framework are designed to align with industry-recognized standards to provide graduates with proficiencies needed in contemporary business industries.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply problem-solving strategies to real-life business scenarios.
- Apply business principles to address a variety of organizational needs.

**Preferred Sequence and Prerequisites for the AABFN**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

The University reserves the right to modify the required course of study.

**General Information for the AABFN**

- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

**Additional Admission Requirements for the AABFN**

All applicants are expected to meet the following admissions requirements:

- Applicants must be at least 16 years of age at the time of application.

**Degree Requirements for the AABFN**

- Completion of a minimum of 60 credits:
  - General Education Component: 36 credits
  - Required Course of Study (AABFN): 18 credits
  - Electives: 6 credits
- A minimum grade point average (GPA) of 2.0.
- Students earning the associate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
- Students earning this associate as a program add to completion of a bachelor degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the associate degree to be eligible for associate conferral.
Concentrations or emphases are reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as:

Associate of Arts

General Education Requirements for the AABFN

The General Education requirements for this program are the following:

- Communication Arts, 6 credits
- Pathway A must include: 3 credits of College Composition
- Pathway B must include: 6 credits in college-level research and writing
- Mathematics, 6 credits
- Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
- Science and Technology, 6 credits
- Must include at least three (3) credits in the physical or biological sciences
- Humanities, 6 credits
- Pathway B must include: 3 credits in critical thinking
- Social Science, 6 credits
- Pathway B must include: 3 credits in economics
- Pathway B must include: 3 credits in psychology
- Additional Liberal Arts, 6 credits
- Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

For a description of the preceding general education areas, see the Undergraduate Programs section within this catalog.

Academic Progression Requirements for the AABFN

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the AABFN

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 15 credits from a combination of Required Course of Study, General Education, and Elective courses must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of ‘C’ (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Experiential Journal credit is not eligible to waive courses in the required course of study.

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AABFN

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 15 credits from a combination of Required Course of Study, General Education, and Elective courses must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of ‘C’ (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Experiential Journal credit is not eligible to waive courses in the required course of study.

Students in this program may waive a maximum of 6 credits from their required course of study.

The Bachelor of Science in Business

The following Bachelor of Science in Business (BSB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs and en-route credentials depend on student demand and other factors. Not all programs and en-route credentials may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Business (BSB) undergraduate degree program is designed to prepare graduates with the requisite knowledge, skills, and abilities to effectively apply various business principles and tools in an organizational setting. The BSB foundation is designed to bridge the gap between theory and practical application, while examining the areas of accounting, communications, diversity and inclusion, economics, finance, business law and ethics, management, marketing, organizational behavior, business analytics, and information systems. Students are required to demonstrate a comprehensive understanding of the undergraduate business curricula through a business capstone course.
Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
- Integrate decision-making skills to address business needs.
- Integrate business concepts and principles to advance organizational goals.
- Analyze interrelationships among distinct functional areas of an organization.
- Analyze logistics involved in global business operations.

The University reserves the right to modify the required course of study.

General Information for the BSB
- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

En-Route Credentials for the BSB
- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor’s degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree, lower division certificate, and/or upper division certificate. Listed below are all of the possible en-route credentials:
  - Associate of Arts with a Concentration in Business Fundamentals
  - Business Analytics Certificate
  - Financial Planning Certificate
  - Human Resource Management Certificate
  - Leadership and Management Certificate
  - General Management Certificate
  - Marketing Certificate
  - Operations Management Certificate
  - Project Management Certificate
  - Small Business Management and Entrepreneurship Certificate
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
  - Successful completion of all the courses outlined in the enrollment agreement for the credential
  - Achievement of the minimum program GPA
  - Fulfillment of the minimum University residency requirement
  - Completion of all en-route credential requirements, including any course retakes needed to ensure the en-route credential GPA requirement is met, prior to conferral of the bachelor’s degree.
• Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

**Degree Requirements for the BSB**

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 36 credits
  - Required Course of Study: 42 credits
  - Electives: 42 credits
- A minimum of 30 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Business

**General Education Requirements for the BSB**

A minimum of 36 of the 120 credits must be in the general education areas approved by the University.

- Communication Arts, 6 credits
- Pathway A must include: 3 credits of College Composition
- Pathway B must include: 6 credits in college-level research and writing
- Mathematics, 6 credits
- Must include 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
- Science and Technology, 6 credits
- Must include at least three (3) credits in the physical or biological sciences
- Humanities, 6 credits
- Pathway B must include: 3 credits in critical thinking
- Social Science, 6 credits
- Pathway B must include: 3 credits in economics
- Pathway B must include: 3 credits in psychology
- Additional Liberal Arts, 6 credits
- Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

**Academic Progression Requirements for the BSB**

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

**Residency Requirements and Course Waivers for the BSB**

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Experience Journal credit is not eligible to waive courses in the required course of study.

Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.

Students in this program may waive a maximum of 12 credits from their required course of study.

The following course(s) may not be waived: BUS 475
Any student in a competency-based education (CBE) program is any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student. Any program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance. Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into their program version is still available in that modality.

**Bachelor of Science in Business Administration (BSBA) or Master of Management (MM) degree programs may complete up to three courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.**

**MBA Pathway Courses**
- MGT 526 ~ ................................................................. 3 credits
- Managing in a Changing Environment
- ORG 535 ~ ............................................................. 3 credits
- People and Organizations
- LDR 535 ~ ............................................................. 3 credits
- Leading Change

**MM Pathway Courses**
- MGT 526 ~ ................................................................. 3 credits
- Managing in a Changing Environment
- ENT 527 ~ ............................................................. 3 credits

**Re-entry for the BSB**
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

**Bachelor of Science in Management**

The following Bachelor of Science in Management (BSM) program is offered at all University of Phoenix campus locations: Online, depending on state of residency. The availability of programs and en-route credentials depend on student demand and other factors. Not all programs and en-route credentials may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Management (BSM) degree program is designed to develop the professional knowledge and skills of cross-functional managers in an organization. The BSM degree enhances skills necessary for improved organizational effectiveness in a dynamic and evolving workplace. The program focuses on the development of management roles and emphasizes skills necessary to align resources, and to improve communication, productivity, and effectiveness. Upon completion of the program, students will possess the skills and competencies needed to determine and implement key management decisions and develop skills in leadership, human resource management, change management, and core business functional areas.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate management principles necessary for organizational effectiveness.
- Evaluate the effectiveness of processes used to achieve organizational goals.
- Integrate key problem-solving strategies in the analysis and recommendation of business decisions.
- Analyze interrelationships among distinct functional areas of an organization.

**Program Category Requirements, Preferred Sequence and Prerequisites for the BSM**

The University reserves the right to modify the required course of study.

General Information for the BSM
- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on their admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Students placed in Pathway A or Pathway B are required to complete the courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Degree Requirements for the BSM
- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 36 credits
  - Required Course of Study: 30 credits
  - Electives: 54 credits
- A minimum of 30 upper division credits.
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Bachelor of Science in Management

General Education Requirements for the BSM
A minimum of 36 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition  
Pathway B must include: 6 credits in college-level research and writing

Mathematics, 6 credits
- must include 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher

Science and Technology, 6 credits  
Must include at least three (3) credits in the physical or biological sciences

Humanities, 6 credits  
Pathway B must include: 3 credits in critical thinking

Social Science, 6 credits  
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology

Additional Liberal Arts, 6 credits  
Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Activity that is comparable in content and semester credit hours to the course at the University
- Activity that is a candidate for accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.

Academic Progression Requirements for the BSM
- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BSM
Students meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Experiential Journal credit is not eligible to waive courses in the required course of study.

Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless
transfer for Associate degree completers. Students in this program may waive a maximum of 6 credits from their required course of study. The elective requirement may be satisfied by any of the following means:

- Any upper and/or lower division UOPX coursework.
- Previously completed UOPX graduate coursework.
- Any upper division, lower division, and/or graduate transfer activity that is acceptable for transfer.

The following course(s) and their equivalents may not be waived:

**MGT 498**  
Business Master’s Pathway for the BSM  
Bachelor of Science in Management students who want to transition into the University’s Master of Business Administration (MBA) or Master of Management (MM) degree programs may complete up to three (3) of the following courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.

**MM Pathway Courses**

- MGT 526 ~ .......................................................... 3 credits  
- ENT 527 ~ .......................................................... 3 credits  
- Opportunity Assessment and Innovation  
- LDR 535 ~ .......................................................... 3 credits

**Re-entry for the BSM**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.

- Re-entry students who cannot complete their program within their program completion deadline who are not shifting into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

**Bachelor of Science in Accounting**

The following Bachelor of Science in Accounting (BSACC) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs and en-route credentials depend on student demand and other factors. Not all programs and en-route credentials may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Accounting (BSACC) is designed to provide knowledge and skills necessary to an accounting career. Topics include, key accounting and business coursework, financial accounting, managerial accounting, and auditing and taxation. In addition to Generally Accepted Accounting Principles (GAAP), the program also covers the International Financial Reporting Standards (IFRS). Students are also exposed to varied business disciplines including economics, statistics, law, corporate finance, and marketing to provide the general business overview and context necessary for a career in accounting. The program also addresses professional values, communications and leadership skills, strategic and critical thinking skills, and technology skills of the professional accounting environment.

Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. While this program was designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA), the University of Phoenix cannot, and will not, provide any assurance that completion of this program will allow a successful student to qualify within the student’s specific jurisdiction. Potential applicants should check with the appropriate organization within their jurisdiction to determine requirements. States frequently change their requirements for examination. There is no assurance that at the time of degree completion the specific jurisdiction’s requirements will be consistent with the requirements at the time of admission.
Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate generally accepted accounting principles throughout the accounting cycle.
- Evaluate accounting and financial information to make business decisions.
- Integrate ethical, legal, and accounting standards and assumptions into financial practices.
- Integrate business practices into accounting and financial operations.

The University reserves the right to modify the required course of study.

General Information for the BSACC

- First time attendees with the University who indicate less than
  24 previous college credits (as recognized by the University) on
  the admission application and who meet the requirements for
  “Admitted with Condition” status, will be admitted with
  condition to this program according to the risk free period
  policy.

- Prior Learning Assessment and credits earned through
  National Testing Programs are excluded from the calculation
  of previous college credits.

- Applicants who disclose a previously completed associate
  degree or higher, or 48 or more completed credits from a college
  or university with approved institutional accreditation on their
  admission application will be placed in Pathway A. Applicants
  who do not disclose a previously completed associate degree or
  higher, or 48 or more completed credits from a college or
  university with approved institutional accreditation on their
  admission application will be placed in Pathway B.
• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
• Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

En-Route Credentials for the BSACC
Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor’s degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree. Listed below are all of the possible en-route credentials:
• Associate of Arts with a Concentration in Business Fundamentals
• Students may apply for conferment of an en-route credential upon meeting the following program requirements:
  • Successful completion of all the courses outlined in the enrollment agreement for the credential
  • Achievement of the minimum program GPA
  • Fulfillment of the minimum University residency requirement
  • Completion of all en-route credential requirements, including any course retakes needed to ensure the en-route credential GPA requirement is met, prior to conferment of the bachelor’s degree.
• Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Degree Requirements for the BSACC
• Completion of a minimum of 120 credits that include the following distribution:
  • General Education: 36 credits
  • Required Course of Study: 78 credits
  • Electives: 6 credits
  • A minimum of 30 upper division credits.
  • A minimum grade point average (GPA) of 2.0.
  • The diploma awarded for this program will read as: Bachelor of Science in Accounting

General Education Requirements for the BSACC
A minimum of 36 of the 120 credits must be in the general education areas approved by the University.
Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
Science and Technology, 6 credits
Must include at least three (3) credits in the physical or biological sciences
Humanities, 6 credits
Pathway B must include: 3 credits in critical thinking
Social Science, 6 credits
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 6 credits
Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
• University of Phoenix coursework
• Activity that is acceptable in transfer to the University
Students who lack .67 or fewer general education credits may use elective credits to waive the balance. Students must use elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BSACC
• Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
• Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
• Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BSACC
Students must meet the established University residency requirement for degree conferment. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:
• The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
• The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
• The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.
Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
Students in this program may waive a maximum of 30 credits from their required course of study.
The following courses in the Required Course of Study may not be waived: ACC 497, BUS 475
Business Master’s Pathway for the BSACC

Bachelor of Science in Accounting students who want to transition into the University’s Master of Business Administration (MBA) or Master of Management (MM) degree programs may complete up to two (2) of the following courses (or a direct equivalency) as part of their electives credits which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.

MBA Pathway Courses
MGT 526 ~ .................................................................3 credits
Managing in a Changing Environment
ORG 535 ~ ..............................................................3 credits
People and Organizations

MM Pathway Courses
MGT 526 ~ .................................................................3 credits
Managing in a Changing Environment
ENT 527 ~ .................................................................3 credits
Opportunity Assessment and Innovation

Re-entry for the BSACC

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-bas ed education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Bachelor of Science in Communication

The following Bachelor of Science in Communication (BS/COM) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs and en-route credentials depend on student demand and other factors. Not all programs and en-route credentials may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Communication prepares students for a variety of professional roles that require effective communication skills across diverse organizations. The program’s curriculum, built in close collaboration with industry and academic experts, emphasizes theory and application in the domains of interpersonal, intercultural, organizational, corporate, public relations, mediation, and social media communication.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Integrate theories and best practices to determine communication strategies.
• Develop communication plans for diverse purposes.
• Evaluate strategies for implementing communication plans in a variety of environments.
• Evaluate communication effectiveness for a variety of contexts.

General Information for the BS/COM

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Degree Requirements for the BS/COM

- Prior to completing the University's three-year enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- Pathway A must include: 3 credits of College Composition
- Pathway B must include: 6 credits in college-level research and writing
- Mathematics, 6 credits
- Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
- Science and Technology, 6 credits
- Must include at least three (3) credits in the physical or biological sciences
- Humanities, 6 credits
- Pathway A must include: 3 credits in critical thinking
- Social Science, 6 credits
- Pathway B must include: 3 credits in economics
- Additional Liberal Arts, 6 credits
- Must include: GEN 201
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the BS/COM

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BS/COM

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

No appeals will be accepted for re-entry to an expired program.

Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Associate of Arts/Concentration in Information Technology

The following Associate of Arts/Concentration in Information Technology (AAITT) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs and en-route credentials depend on student demand and other factors. Not all programs and en-route credentials may be available to all residents of all states. Please contact your enrollment representative for more information.

The Associate of Arts degree in Information Technology program introduces students to a variety of information technology concepts and principles in programming, data analytics, cybersecurity and networking. The AAITT provides students with a foundation of technical skills necessary for additional skill building as they enter the field of IT.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate information technology solutions to address common business problems.
- Determine information systems security solutions to secure the data, users, and devices on a network.

Program Purpose

The Associate of Arts in Information Technology program provides a foundation of multiple information technology topics preparing students for entry level roles in IT. The program does not prepare students for any direct certifications but contains coursework aligned to the CompTIA ITF+, Security+ and Network+ certifications, as well as the EC Council CSCIU.
Program Category Requirements and Prerequisites for the AAITT

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

The University reserves the right to modify the required course of study.

General Information for the AAITT

- First time attendees with the University indicate less than 24 previous college credits (as recognized by the university) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk-free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate's degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate's degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for the AAITT

All applicants are expected to meet the following admissions requirements:
- Applicants must be at least 16 years of age at the time of application.

Degree Requirements for the AAITT

- Completion of a minimum of 60 credits.
  - General Education Component - 36 credits
  - Required Course of Study (AAITT) - 18 credits
  - Electives - 6 credits
  - A minimum grade point average (GPA) of 2.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma.
- The diploma awarded for this program will read as: Associate of Arts

General Education Requirements for the AAITT

The General Education requirements for this program are the following:
- Communication Arts, 6 credits
  - Pathway A must include: 3 credits of College Composition
  - Pathway B must include: 6 credits in college-level research and writing
- Puerto Rico students may not use conversational English to satisfy Communication Arts.
- Mathematics, 6 credits
  - Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
- Science & Technology, 6 credits
  - Must include at least three (3) credits in the physical or biological sciences
  - Humanities, 6 credits
  - Pathway B must include: 3 credits in critical thinking
  - Social Science, 6 credits
  - Pathway B must include: 3 credits in psychology
- Additional Liberal Arts, 6 credits
  - Must include: GEN 201
- Nevada campus students must complete three (3) credits in Nevada Constitution. This does not include Nevada students attending online. With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
  - University of Phoenix coursework
  - Activity that is acceptable in transfer to the University
  - Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Academic Progression Requirements for the AAITT

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the AAITT

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 15 credits from a combination of Required Course of Study, General Education, and Elective courses must be completed at UOPX. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:
- The activity must have been completed at a from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
• The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.

• The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

• Students in this program may waive a maximum of 6 credits from their required course of study.

Re-entry for the AAITT

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

• Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

• Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.

• Re-entry students who cannot complete their program within the program completion deadline may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

• No appeals will be accepted for re-entry into an expired program.

• Any students in College of Education, College of Nursing, or College of Social and Behavioral Sciences programs that either lead to professional licensure or certification, or that require a license, credential, or certification for admission are exempt from this general re-entry policy. Re-entry students who wish to re-enter these programs should review their specific program’s re-entry policies and consult the appropriate University representative for guidance.

The following Associate of Science in Cybersecurity (ASCYB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Associates degree program in Cybersecurity focuses on the tasks and skills involved in various jobs in cybersecurity, the technologies used to perform those tasks and to prepare for a career as a cybersecurity professional. This degree supports preparation for industry certifications in either policy or hands-on defense relevant to Cybersecurity and concludes with an appropriate Capstone project.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Evaluate the network security elements associated with defending the cyber domain through the use of STEM principles.

• Summarize the processes necessary to protect all assets of an infrastructure in the cyber domain.

• Assess an organization’s infrastructure, including compliance with cybersecurity policies and governance and other risk assessment standards.

Program Purpose

The Associate of Science in Cybersecurity is an associate degree that provides students with the knowledge and skills they need to pursue a career in cybersecurity. The program is aligned to three EC Council certifications: Secure Computer User, Network Defender, and Ethical Hacker but does not directly lead to any type of professional or industry certification.

Program Category Requirements for the ASCYB

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

</table>
Students who are placed in Pathway A may choose to complete their program requirements. Applicants who disclose a previously completed associate degree or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B. ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.

Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

- CYB 235 ~ .......................... 3 credits
- Project Ethical Hacking

The University reserves the right to modify the required course of study.

**General Information for the ASCYB**

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

---

**Additional Admission Requirements for the ASCYB**

All applicants are expected to meet the following admissions requirements:

- Applicants must be at least 16 years of age at the time of application.
- Signed Hardware/Software Agreement

**Degree Requirements for the ASCYB**

- Completion of a minimum of 63 credits:
  - General Education Component: 27 credits
  - Required Course of Study: 18 credits
  - Cybersecurity Electives: 15 credits
  - Cybersecurity Capstone: 3 credits
- A minimum grade point average (GPA) of 2.0.
- The diploma awarded for this program will read as: Associate of Science in Cybersecurity

**General Education Requirements for the ASCYB**

The General Education requirements for this program are the following:

- Communication Arts, 6 credits
  - Pathway A must include: 3 credits in College Composition
  - Pathway B must include: 6 credits in college-level research and writing
- Mathematics, 6 credits
  - Must include: 6 credits of quantitative reasoning or higher; 6 credits of statistics or higher
- Science & Technology, 6 credits
  - Must include: CYB 100
- Humanities, 3 credits
  - Must include: 3 credits in the physical or biological sciences
- Social Science, 3 credits
  - Pathway B must include: 3 credits in social sciences and psychology
- Additional Liberal Arts, 3 credits
  - Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

**Academic Progression Requirements for the ASCYB**

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

**Residency Requirements and Course Waivers for the ASCYB**

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 15 credits from a combination of Required Course of Study and General Education courses must be completed at UOPX.

In order to be granted a waiver for a course in the required course
of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Students in this program may waive a maximum of 12 lower division credits from their required course of study and cybersecurity electives.

The following course(s) may not be waived: CYB 215, CYB 235

**Re-entry for the ASCYB**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

---

**Bachelor of Science in Cybersecurity**

The following Bachelor of Science in Cybersecurity (BSCYB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Cybersecurity programs provide students with a deeper understanding of a variety of topics in the cybersecurity field. These topics include cyber domain, Internet networking, fundamental security concepts to mitigate packet vulnerabilities, security team participation, cloud computing and wireless security. Students further expand their knowledge and skill development through cybersecurity courses in one of two specializations, Cybersecurity Operations or Cybersecurity Analyst Defender, both of which are closely aligned to industry certifications through EC Council and CompTIA.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Examine an organization's infrastructure to ensure compliance with cybersecurity standards and policies.
- Evaluate organizational policies and strategies to determine potential cybersecurity vulnerabilities.
- Apply a variety of hacking tools and techniques to expose risk and protect and secure network systems in a variety of organizations.
- Apply the known phases of ethical hacking to protect and secure networks systems in a variety of organizations.
- Apply object-oriented scripting to solve potential cyber-security attacks.

**Program Category Requirements for the BSCYB**

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Cybersecurity Core, 30 total credits**

- Capstone Bachelor Design
- CYB 492 ~ ................................................................. 3 credits
- Capstone Bachelor Implementation
The University reserves the right to modify the required course of study.

General Information for the BSCYB
- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.
Additional Admission Requirements for the BSCYB

All applicants are expected to meet the following admissions requirements:

- Signed Hardware/Software Agreement
- Completed and signed Elective Track Selection form
- Students who have previously completed an Associate of Arts or Associate of Science degree from a college or university with approved institutional accreditation, will be considered as satisfying 6 credits of communication arts, 6 credits of mathematics, 3 credits of science and technology, 3 credits of humanities, 6 credits of social science, and 9 credits of interdisciplinary requirements. This includes Phoenix Success Series, College Composition, Math Pathways, and math and English proficiency requirements without any course content or timeframe restrictions. The transfer coursework will be applied as a block at the time of admission to the program.

Students using this policy will need to meet the following conditions:

- Satisfy the entry course sequence (GEN 201), unless otherwise stated in policy.
- Satisfy CYB 320 in humanities with the UOPX course or a comparable transfer activity.
- Satisfy CYB 160 in social science with the UOPX course or a comparable transfer activity.
- Meet all prerequisite or state specific content requirements as outlined in the General Education Requirements and Program Category Requirements and Prerequisites policy sections for their BSCYB program.

Degree Requirements for the BSCYB

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 42 credits
  - Required Course of Study: 36 credits
  - Lower Division Cybersecurity Electives: 18 credits
  - Upper Division Cybersecurity Electives: 18 credits
  - Upper Division IS&T Electives: 6 credits
  - A minimum of 42 upper division credits.
  - A minimum grade point average (GPA) of 2.0.
  - The diploma awarded for this program will read as: Bachelor of Science in Cybersecurity

General Education Requirements for the BSCYB

A minimum of 42 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Must include: 6 credits of quantitative reasoning or higher; 6 credits of statistics or higher
Science & Technology, 3 credits
Must include at least three (3) credits in the physical or biological sciences
Humanities, 6 credits
Must include: CYB 320
Pathway B must include: 3 credits in critical thinking
Social Science, 9 credits

Must include: CYB 160
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 3 credits
Must include: GEN 201
Interdisciplinary Component, 9 credits
Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.
Physical Education activity credits are limited to four (4) credits.
With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Graduate Information Systems and Technology coursework may be completed as an option to satisfy credits within the Upper Division Information Systems and Technology Electives requirement.

Academic Progression Requirements for the BSCYB

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BSCYB

- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate-level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Experiential Journal credit is not eligible to waive courses in the required course of study.
• Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
• Students in this program may waive a maximum of 12 lower division credits from their required course of study and cybersecurity electives.
• Students in this program may waive a maximum of 18 upper division credits from their required course of study and cybersecurity electives.
• The 6 credit Upper Division Information Systems and Technology Electives requirement may be satisfied by any of the following means:
  • Upper Division or Graduate IS&T UOPX coursework.
  • Previously completed Information Systems and Technology coursework.
  • Upper Division Certificate approved in the student’s state or jurisdiction.
  • Upper Division or Graduate Information Technology transfer activity that is acceptable for transfer and was completed within the past five (5) years from current program enrollment agreement sign date.
• The following course(s) may not be waived: CYB 490, CYB 492

Re-entry for the BSCYB
• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Bachelor of Science in Information Technology

The following Bachelor of Science in Information Technology (BSIT) program is offered at these University of Phoenix campus locations:
• Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Information Technology (BSIT) program provides the knowledge to successfully apply information technology theory and principles to address real world business opportunities and challenges. The program covers fundamental and advanced knowledge in core technologies such as information technology, networking and cloud infrastructure, data, cybersecurity, programming and other supporting IT principles.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Students will apply key principles of systems analysis and design to selected business processes within the organization in order to implement effective information systems.
• Students will employ network and data solutions to align with key business requirements and industry best practices to improve organizational IT operations.
• Students will be able to design and develop key database models aligning with business requirements for storage, retrieval and use of data.
• Students will implement cybersecurity solutions that comply with global governance best practices.
• Students will demonstrate an ability to evaluate, design, and implement application programs to meet business processes.

Program Category Requirements for the BSIT
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Information Technology, 6 total credits
CIS 207 .......................................................... 3 credits
Introduction to Information Systems Fundamentals
BSA 385 ~ .................................................. 3 credits
Intro to Software Engineering

Business Systems and Implementation, 6 total credits
BSA 375 ~ ................................................... 3 credits
Fundamentals of Business Systems Development
CMGT 410 ~ ............................................. 3 credits
Project Planning and Implementation

Networking, 6 total credits
CYB 205 ~ .................................................. 3 credits
Infrastructure Administration
NTC 362 ~ ................................................. 3 credits
Fundamentals of Networking
Students who are placed in Pathway A may choose to complete study. The University reserves the right to modify the required course of study.

General Information for the BSIT
- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for the BSIT
All applicants are expected to meet the following admissions requirements:
- Signed Hardware/Software Agreement
- Students who have previously completed a Associate of Arts or Associate of Science degree from a college or university with approved institutional accreditation, will be considered as satisfying their lower division elective, general education (including Phoenix Success Series, College Composition, and Math Pathways), and math and English proficiency requirements without any course content or timeframe restrictions. The transfer coursework will be applied as a block at the time of admission to the program. Students utilizing this policy will need to meet the following conditions:
  - Satisfy the entry course sequence (GEN 201), unless otherwise stated in policy.
  - Complete a minimum of 6 credits of Information Systems and Technology elective coursework.
  - Complete a minimum of 12 credits of upper division Information Systems and Technology elective coursework.
  - Meet all prerequisite or state specific content requirements as outlined in the General Education Requirements and Program Category Requirements and Prerequisites policy sections for their BSIT program.

Degree Requirements for the BSIT
A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Must include: 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher; or 6 credits of college algebra or higher
Science & Technology, 3 credits
Must include at least three (3) credits in the physical or biological sciences
Humanities, 6 credits
Pathway B must include: 3 credits in critical thinking
Must include: GEN 201
Social Science, 6 credits
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 6 credits
Interdisciplinary Component, 12 credits
Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement. Physical Education credits are limited to four (4) credits. With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University

The 6 credit Information Systems and Technology Electives requirement may be satisfied by any of the following means:

- Lower Division or Upper Division IS&T UOPX coursework.
- Previously completed Lower Division and Upper Division IS&T coursework.
- Lower Division or Upper Division Certificate approved in the student’s state or jurisdiction.

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement. Physical Education credits are limited to four (4) credits.

Academic Progression Requirements for the BSIT

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BSIT

- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be at an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

- Experiential Journal credit is not eligible to waive courses in the required course of study.
- Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
- Students in this program may waive a maximum of 24 credits from their required course of study.
- The 12 credit Upper Division Information Systems and Technology Electives requirement may be satisfied by any of the following means:
  - Upper Division IS&T UOPX coursework.
  - Previously completed Upper Division or Graduate IS&T coursework.
  - Upper Division Certificate approved in the student's state or jurisdiction.

- Upper Division Certificate approved in the student’s state or jurisdiction.

- The following course(s) may not be waived: BSA 425

Re-entry for the BSIT

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

**Bachelor of Science in Computer Science**

The following Bachelor of Science in Computer Science (BSCS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

In the Bachelor of Science in Computer Science (BSCS) program focuses on the design of computer systems from a scientific perspective. Students will be introduced to computer science theory and concepts in algorithms and logic, programming, computer and network architecture, and software development. Students learn how these topics relate to computing problems and solutions.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Analyze a complex computing problem to apply principles of computing and other relevant disciplines to identify solutions.
- Evaluate a computing-based solution to meet a given set of computing requirements in the context of the program’s discipline.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.

**Program Category Requirements and Prerequisites for the BSCS**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Computer Science Theory, 8 total credits**

- **CSS 200** ~ Departmental Admission 2 credits
- **Foundations of Computer Science**
- **CSS 329** ~ Departmental Admission 3 credits
- **Ethics in Computer Science**

**Algorithms and Complexity, 6 total credits**

- **PRG 211** ~ Departmental Admission 3 credits
- **Algorithms and Logic for Computer Programming**

**Data Structures for Problem Solving**

- **DAT 305** ~ Departmental Admission 3 credits
- **Data Structures for Problem Solving**

**Programming Languages, 9 total credits**

- **DAT 210** ~ Departmental Admission 3 credits
- **Data Programming Languages**
- **PRG 420** ~ Departmental Admission 3 credits
- **Java Programming I**
- **PRG 421** ~ Departmental Admission 3 credits
- **Java Programming II**

**Software Development & Web Design, 12 total credits**

- **WEB 240** ~ Departmental Admission 3 credits
- **Web Design Fundamentals**
- **BSA 385** ~ Departmental Admission 3 credits
- **Intro to Software Engineering**
- **CSS 422** ~ Departmental Admission 3 credits
- **Software Architecture**
- **CSS 440** ~ Departmental Admission 3 credits
- **Artificial Intelligence and Big Data Trends**

**Computer Architecture and Networking, 9 total credits**

- **CSS 421** ~ Departmental Admission 3 credits
- **Computer Organization and Architecture**
- **POS 355** ~ Departmental Admission 3 credits
- **Introduction to Operating Systems**
- **NTC 362** ~ Departmental Admission 3 credits
- **Introduction to Operating Systems**
- **POS 355** ~ Departmental Admission 3 credits
- **Computer Organization and Architecture**
- **CSS 430** ~ Departmental Admission 3 credits
- **Algorithmic Theory and Practice**

**Math for Computer Science Majors, 6 total credits**

- **MTH 221** ~ Departmental Admission 3 credits
- **Discrete Math for Information Technology**
- **MTH 360** ~ Departmental Admission 3 credits
- **Linear Algebra**

**Capstone, 3 total credits**

- **CSS 450** ~ Departmental Admission 3 credits
- **Computer Science Capstone**

The University reserves the right to modify the required course of study.

**General Information for the BSCS**

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
• Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.

• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.

• Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

**Additional Admission Requirements for the BSCS**

All applicants are expected to meet the following admissions requirements:

• Signed Hardware/Software Agreement

• Students who have previously completed a Associate of Arts or Associate of Science degree from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, will be considered as satisfying their communication arts, humanities, social science, additional liberal arts, and interdisciplinary requirements. This includes College Composition, Phoenix Success Series, and English proficiency requirements without any course content or timeframe restrictions. The transfer coursework will be applied as a block at the time of admission to the program. Students using this policy will need to meet the following conditions:

  • Satisfy the entry course sequence (GEN 201), unless otherwise stated in policy.
  
  • Complete a minimum of 11 credits in Mathematics (3 credits of college algebra or higher, and 8 credits of calculus or higher).
  
  • Complete a minimum of 8 credits in the physical or biological sciences with two labs.
  
  • Complete a minimum of 18 credits of Information Systems and Technology elective coursework.
  
  • Meet all prerequisite or state specific content requirements as outlined in the General Education Requirements and Program Category Requirements and Prerequisites policy sections for their BSCS program.

**Degree Requirements for the BSCS**

• Completion of a minimum of 120 credits that include the following distribution:

  • General Education: 49 credits
  
  • Required Course of Study: 55 credits
  
  • Information Systems and Technology Electives: 18 credits
  
  • A minimum of 39 upper division credits.
  
  • A minimum grade point average (GPA) of 2.0.
  
  • The diploma awarded for this program will read as: Bachelor of Science in Computer Science

**General Education Requirements for the BSCS**

A minimum of 49 of the 120 credits must be in the general education areas approved by the University.

- Communication Arts, 6 credits
- Pathway A must include: 3 credits of College Composition
- Pathway B must include: 6 credits in college-level research and writing
- Mathematics, 11 credits
- Must include: 3 credits of college algebra (MTH 220) or higher, and 8 credits of calculus or higher
- Note: BSCS students who take MTH 220 are not required to complete MTH 219 as a prerequisite.
- Physical/Biological Science, 8 credits
- Must include: 8 credits in physics, 8 credits in chemistry, or 8 credits in biology
- Must include a minimum of one lab
- Humanities, 6 credits
- Pathway B must include: 3 credits in critical thinking
- Must include: GEN 201
- Social Science, 6 credits
- Pathway B must include: 3 credits in economics
- Pathway B must include: 3 credits in psychology
- Additional Liberal Arts, 3 credits
- Interdisciplinary Component, 9 credits

Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.

Physical Education activity credits are limited to four (4) credits.

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

• University of Phoenix coursework

• Activity that is acceptable in transfer to the University

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Students may use two calculus courses each worth a minimum of 3 semester credits (or 4 quarter credits) to satisfy the 8 credits of calculus, but will be required to make up the credits with other Liberal Arts General Education credits to meet the minimum requirements.

Students with one or two calculus courses each worth a minimum of 3 semester credits (or 4 quarter credits) but who do not have a 3-credit college algebra course will be required to make up the 3-credit college algebra requirement with other Liberal Arts General Education credits to meet the minimum requirements.

Students may use 6 semester credits in physics, chemistry, or biology to satisfy the 8-credit physical/biological science requirement, provided all the coursework is in the same discipline and includes a transferrable lab component. However, they will be required to make up the credits with other Liberal Arts General Education credits to meet the minimum requirements.
Academic Progression Requirements for the BSCS

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

Residency Requirements and Course Waivers for the BSCS

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Journal credit is not eligible to waive courses in the required course of study.

Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers. Students in this program may waive a maximum of 21 credits from their required course of study.

The 18 credit Information Systems and Technology Electives requirement may be satisfied by any of the following means:

- Lower Division or Upper Division Information Systems and Technology UOPX coursework.
- Previously completed Lower Division or Upper Division Information Systems and Technology coursework.
- Lower Division or Upper Division Information Systems and Technology transfer activity that is acceptable for transfer and was completed within the past five (5) years from current program enrollment agreement sign date.

The following course(s) may not be waived: CSS 450

Re-entry for the BSCS

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program. Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- Re-entry students who cannot complete their program version within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

Bachelor of Science in Data Science

The following Bachelor of Science in Data Science (BSDS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Data Science (BSDS) undergraduate degree program is designed to prepare students with the fundamental knowledge and skills needed to analyze, manipulate, and process data sets using statistical software. Foundational BSDS courses provide practical training in techniques used to transform structured and unstructured data sets into meaningful information that can be used to identify data patterns and trends and drive strategic decision making. Program content includes data mining, data modeling, data-oriented programming languages, statistical analysis, and data storytelling/visualization. Students will demonstrate a comprehensive understanding of the undergraduate curricula through the completion of an applied capstone course.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
• Perform statistical analyses using data-oriented programming languages and business software
• Analyze structured and unstructured data sets for meaningful information
• Evaluate business decisions using data mining and modeling
• Communicate business strategies via data visualization and storytelling

BSDS Program Category Requirements and Prerequisites

Some courses require prerequisites. Prerequisites and course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Data Science Fundamentals, 18 total credits
- BSA 250 ................................................................. 3 credits
- Foundations of Data Analytics
- BIS 340 ................................................................. 3 credits
- Advanced Spreadsheet Applications
- DBM 300 .............................................................. 3 credits
- Database Fundamentals
- DBM 370 .............................................................. 3 credits
- Database Administration
- QNT 375 .............................................................. 3 credits
- Business Data Analytics
- DSC 460 .............................................................. 3 credits
- Big Data

Data Science Programming, 18 total credits
- PRG 211 ................................................................. 3 credits
- Algorithms and Logic for Computer Programming
- DAT 210 .............................................................. 3 credits
- Data Programming Languages
- DAT 305 .............................................................. 3 credits
- Data Structures for Problem Solving
- PRG 310 .............................................................. 3 credits
- Programming in Python
- PRG 315 .............................................................. 3 credits
- R for Data Science
- DAT 325 .............................................................. 3 credits
- SQL

Data Mining and Modeling, 18 total credits
- DSC 350 ............................................................... 3 credits
- Exploratory Data Analysis
- IM 310 ................................................................. 3 credits
- Data Analytics and Modeling
- DAT 350 .............................................................. 3 credits
- Analyzing and Mining Data
- DSC 330 .............................................................. 3 credits
- Data Communication and Visualization for Business
- DSC 435 .............................................................. 3 credits
- Machine Learning
- DSC 445 .............................................................. 3 credits
- Predictive Modeling

Data Science Capstone, 3 total credits
- DSC 495 ............................................................... 3 credits

Data Science Capstone

The University reserves the right to modify the required course of study.

General Information for the BSDS

• First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
• Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
• Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
• Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Degree Requirements for the BSDS

• Completion of a minimum of 120 credits that include the following distribution:
  • General Education: 36 credits
  • Required Course of Study (BSDS): 57 credits
  • Electives: 27 credits
  • A minimum of 30 upper division credits.
  • A minimum grade point average (GPA) of 2.0.
  • The diploma awarded for this program will read as: Bachelor of Science in Data Science

General Education Requirements for the BSDS

A minimum of 36 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics, 6 credits
Must include 6 credits quantitative reasoning or higher; or 6 credits of statistics or higher
Science & Technology, 6 credits
Must include at least three (3) credits in the physical or biological sciences
Humanities, 6 credits
Pathway B must include: 3 credits in critical thinking
Social Science, 6 credits
Pathway B must include: 3 credits in economics
Pathway B must include: 3 credits in psychology
Additional Liberal Arts, 6 credits
Must include: GEN 201

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
• University of Phoenix coursework
Activity that is acceptable in transfer to the University
Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

### Academic Progression Requirements for the BSDS
- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

### Residency Requirements and Course Waivers for the BSDS
- Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher-level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Experiential Learning (essay) credit is not eligible to waive courses in the required course of study.
  - Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
- Students in this program may waive a maximum of 12 credits from their required course of study.
- The following course(s) may not be waived: DSC 495

### Business Masters Pathway for the BSDS
Bachelor of Science in Data Science students who want to transition into the University’s Master of Business Administration (MBA), Master of Management (MM), or Master of Science in Data Science degree programs may complete up to three (3) of the following courses (or a direct equivalency) as part of their electives which are required for degree completion. The pathway courses may be taken only after completion of the required course of study.

#### MBA Pathway Courses
- MGT 526 ~ 3 credits
- Managing in a Changing Environment
- ORG 533 ~ 3 credits
- People and Organizations
- LDR 535 ~ 3 credits
- Leading Change

#### MM Pathway Courses
- MGT 526 ~ 3 credits
- Managing in a Changing Environment
- ENT 527 ~ 3 credits
- Opportunity Assessment and Innovation
- LDR 535 ~ 3 credits
- Leading Change

#### MSDS Pathway Courses
- DSC 510 ~ 3 credits
- Data Science
- DBM 502 ~ 3 credits
- Database Management
- DAT 565 ~ 3 credits
- Data Analysis and Business Analytics

### Re-Entry for the BSDS
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry into an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enter a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
As the health care industry expands and evolves at a rapid rate, jobs in health care administration business functions are expected to increase. Medical and health service managers employment are projected to grow by 18 percent from 2018 to 2028. Whether you are already working in the field and looking to deepen your knowledge and advance in your profession, or if you are new to health care and want to gain the skills needed to launch a new career, The University of Phoenix®/College of Health Professions will equip you with the leading-edge training you need to succeed in today’s dynamic health care environment—and to effectively tackle tomorrow’s challenges.

**The Bachelor of Science in Health Administration**

The following Bachelor of Science in Health Administration (BSHA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Health Administration (BSHA) Program is designed to integrate a framework of general education courses with a health care curriculum that prepares the graduate with the foundational knowledge needed to enter today’s challenging health industry. The BSHA curriculum addresses the basic body of knowledge, understanding, and skills identified as relevant to an ever expanding and diverse health care arena. Coursework includes content in some of the following areas—management, finance, legal and ethical parameters, risk and quality management, human resources, and information systems. Upon completion of the core curriculum health care students have the opportunity to select an area of focus that is designed to expand their professional opportunities.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate a health care organization from a market-based perspective.
- Evaluate financial and economic issues in the health care industry.
- Evaluate the impact of legal and regulatory requirements on the delivery of health care.
- Evaluate the application of risk and quality management concepts in the health care industry.
- Analyze the utilization and application of technology within a health care organization.
- Evaluate management and adaptable leadership skills in the health care industry.

**BSHA Foundation Courses**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- HCS 120 ~ (Prerequisite Required for Pathway B Only) 3 credits
- Medical Terminology for Health Care Professionals
- HCS 131 3 credits
- Business Communication Skills for Health Care Professionals
- HCS 235 3 credits
- Health Care Delivery in the U. S.
- HCIS 140 3 credits
- Fundamentals of Electronic Health Records

**BSHA Core Courses**

- HCS 305 3 credits
- Health Care Professional Development
- HCS 335 3 credits
- Health Care Ethics and Social Responsibility
- HCS 325 3 credits
- Health Care Management
- HCS 370 3 credits
- Organizational Behavior
- HCS 341 3 credits
- Human Resources in Health Care
- HCS 380 3 credits
- Health Care Accounting
- HCS 385 3 credits
- Health Care Finance
- HCS 490 3 credits
- Health Care Consumer - Trends and Marketing
- HCS 457 3 credits
- Public and Community Health
- HCS 483 3 credits
- Health Care Information Systems
- HCS 451 3 credits
- Health Care Quality Management and Outcomes Analysis
- HCS 465 3 credits
- Health Care Research Utilization
- HCS 499 3 credits
- Health Care Strategy Capstone
BSHA Health Administration Electives
The electives below are intended for students earning their Associates en-route to the BSHA or students pursuing the BSHA with no en-route credential.
Students may satisfy the 15 credit Upper Division Health Administration Electives using the courses below and their respective equivalencies. Students earning a certificate en-route will fulfill the 15 credit Upper Division Health Administration Electives using the certificate coursework.
The College of Health Professions recommends students select and complete all courses within one elective track.

General Health Administration Elective Track:
- HCS 430
- Legal Issues in Health Care: Regulation and Compliance
- HCS 446
- Facility Planning
- HCS 455
- Health Care Policy: The Past and the Future
- HCS 456
- Risk Management
- HCS 475
- Leadership and Performance Development

Health Information Systems Track:
- HCIS 410
- Project Planning and Implementation in Health Care
- BSA 376
- Systems Analysis and Design
- NTC 361
- Network and Telecommunications Concepts
- DBM 381
- Database Concepts
- HCIS 420
- Information Systems Risk Management in Health Care

Retail Health Management Track:
- RHM 410
- The Landscape of Health Care in Retail Health Clinics
- RHM 420
- The Management of Retail Health Clinics
- RHM 430
- Technology and Digital Health Care in Retail Health Clinics
- RHM 440
- Regulatory and Compliance in the Retail Health Environment
- RHM 450

Retail Health Financial Strategies
- LSM 404
- Introduction to Lifespan Management
- LSM 412
- Management within the Lifespan Industry
- LSM 417
- Regulations in Lifespan Management
- LSM 423
- Financial Strategies for Lifespan Management
- LSM 429

Lifespan Management Capstone
The University reserves the right to modify the required course of study as necessary.

General Information for the BSHA
- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

En-Route Credentials for the BSHA
- Students may declare and earn additional credentials that are approved in their state or jurisdiction en-route to completing the bachelor’s degree. Students must sign and submit the enrollment agreement that corresponds with the unique combination of desired credentials to be earned. Possible credentials include an associate degree and/or upper division certificate.
- Students may apply for conferral of an en-route credential upon meeting the following program requirements:
  - Successful completion of all the courses outlined in the enrollment agreement for the credential
  - Achievement of the minimum program GPA
  - Fulfillment of the minimum University residency requirement
  - Completion of all en-route credential requirements, including any course retakes needed to ensure the en-route credential GPA requirement is met, prior to conferral of the bachelor’s degree.
- Students may elect to update or remove the selected credentials by completing a new enrollment agreement reflecting the new selection of credentials.

Degree Requirements for the BSHA
- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 45 credits
  - Required Course of Study (BSHA): 51 credits
  - Upper Division Health Administration Electives: 15 credits
  - Electives: 9 credits
  - A minimum of 42 upper division credits.
  - A minimum grade point average (GPA) of 2.0.
The diploma awarded for this program will read as:

**Bachelor of Science in Health Administration**

### General Education Requirements for the BSHA

A minimum of 45 of the 120 credits must be in the general education areas approved by the University.

- Communication Arts, 6 credits
- Mathematics, 6 credits
- Must include 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
- Science and Technology, 6 credits
- Pathway B must include: 3 credits in critical thinking
- Must include: HCS 245
- Pathway B must include: 3 credits in psychology
- Additional Liberal Arts, 6 credits
- Interdisciplinary Component, 9 credits
- Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement. Physical Education activity credits are limited to four (4) credits.

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University
- Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.
- Students may use coursework worth a minimum of two semester credits to satisfy the three credits for HCS/245 provided it is comparable in content and semester credits to the University course it is replacing.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be able to continue in the BSHA program.
- Students in this program are required to achieve a minimum grade of "C" (2.0) in course listed below. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University.
- HCS 499 Health Care Strategy Capstone
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the BSHA program.

### Residency Requirements and Course Waivers for the BSHA

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

### Academic Progression Requirements for the BSHA

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

### Minimum Grade Requirements for the BSHA

- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be able to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the BSHA program.

### MHA Pathway Policy for the BSHA

Bachelor of Science in Health Administration (BSHA) students who want to transition into the Masters of Health Administration (MHA) degree program may complete a maximum of six (6) graduate-level credits as part of their Elective requirement. These courses may only be taken after the completion of the required course of study.

**MHA 505** ................................................................. 3 credits

**MHA 507** ................................................................. 3 credits

Creating a sustainable legacy: healthy communities

**Academic Progression Requirements for the BSHA**

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

**Minimum Grade Requirements for the BSHA**

- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be able to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the BSHA program.

**Residency Requirements and Course Waivers for the BSHA**

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

### Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.

Students in this program may waive a maximum of 15 upper division credits from their required course of study. Students may also waive 12 lower division credits from the required course of study.
The Upper Division Health Administration Elective requirement may be satisfied by any of the following means:

- Approved UOPX Health Administration Elective coursework.
- Upper division Certificate approved in the student’s state or jurisdiction.

The following course(s) may not be waived: HCS 305, HCS 499

**Re-entry for the BSHM**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

**The Bachelor of Science in Health Management**

The following Bachelor of Science in Health Management (BSHM) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information. 

The Bachelor of Science in Health Management (BSHM) degree program is designed to develop the professional knowledge and skills of managers in a dynamic and evolving health care industry. Students who have existing credits from health-related programs will be prepared for management opportunities in the health care industry. The program focuses on providing knowledge and skills for strategic decision making, regulatory compliance, finance, and technology.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate financial strategies related to the management of health care organizations.
- Evaluate regulatory guidelines that impact the health care industry.
- Assess technology factors that impact the health care industry.
- Analyze management principles and strategies within health care organizations.

**BSHM Program Category Requirements- Pathway A and Pathway B**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Health Care Electives, 12 total credits**

**Health Care Business Communications, 3 total credits**
- HCS 321 ~ .................................................................3 credits

**Business Communication for Health Care Managers**

**Management, 12 total credits**
- HCS 325 ~ .................................................................3 credits
- Health Care Management
- HCS 341 ~ .................................................................3 credits
- Human Resources in Health Care
- HCS 370 ~ .................................................................3 credits
- Organizational Behavior
- HCS 412 ~ .................................................................3 credits
- Project Management for Health Care Professionals

**Ethics and Social Responsibility, 3 total credits**
- HCS 335 ~ .................................................................3 credits
- Health Care Ethics and Social Responsibility

**Technology, 3 total credits**
- HCS 487 ~ .................................................................3 credits
- Technology and Systems Approach for Health Care Managers

**Data, 3 total credits**
- HCS 493 ~ .................................................................3 credits
- Data Analytics for Health Care Managers

**Regulatory, 3 total credits**
- HCS 468 ~ .................................................................3 credits
- Regulatory and Compliance within the Health Care Industry

**Marketing, 3 total credits**
- HCS 472 ~ .................................................................3 credits
- Marketing in the Health Care Industry

**Finance, 3 total credits**
- HCS 385 ~ .................................................................3 credits
- Health Care Finance

**Strategy, 3 total credits**
- HCS 498 ~ .................................................................3 credits
- Strategic Decision Making for Health Care Managers

The University reserves the right to modify the required course of study as necessary.
General Information for the BSHM
• Applicants who disclose a previously completed associate’s degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate’s degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
• Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

Additional Admission Requirements for the BSHM
All applicants are expected to meet the following admissions requirements:
• Applicants must have a minimum of 30 program applicable college-level credits.

Degree Requirements for the BSHM
• Completion of a minimum of 120 credits that include the following distribution:
  • General Education: 45 credits
  • Required Course of Study: 36 credits
  • Health Care Electives: 12 credits
  • Electives: 27 credits
• A minimum of 36 upper division credits.
• A minimum grade point average (GPA) of 2.0.
• The diploma awarded for this program will read as: Bachelor of Science in Health Management

General Education Requirements for the BSHM
A minimum of 45 of the 120 credits must be in the general education areas approved by the University.
• Communication Arts, 6 credits
  Pathway A must include: 3 credits of College Composition
  Pathway B must include: 6 credits in college-level research and writing
• Mathematics, 6 credits
  Must include 6 credits of quantitative reasoning or higher; or 6 credits of statistics or higher
• Science and Technology, 6 credits
  Must include at least three (3) credits in the physical or biological sciences
• Humanities, 6 credits
  Pathway B must include: 3 credits in critical thinking
  Must include: GEN 201
• Social Science, 6 credits
  Pathway B must include: 3 credits in economics
• Additional Liberal Arts, 6 credits
  Interdisciplinary Component, 9 credits
  Any credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement.
  Physical Education activity credits are limited to four (4) credits.
  With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:
  • University of Phoenix coursework

Academic Progression Requirements for the BSHM
• Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
• Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
• Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.
• Students must successfully complete 12 credits of the Health Care Electives and math and English proficiencies prior to entry in HCS 321.

Minimum Grade Requirements for the BSHM
• Students in this program are required to achieve a minimum grade of “C” (2.0) in course listed below. A “C-” grade is not acceptable. Students who fail to receive a minimum grade of “C” will be scholastically disqualified from the University.
• HCS 498 Strategic Decision Making for Health Care Managers
• Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the BSHM program.

Residency Requirements and Course Waivers for the BSHM
• Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits come from a combination of the Required Course of Study, General Education, and Electives completed at UOPX.
• In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  • The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  • The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
  • The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
• Experiential Journal credit is not eligible to waive courses in the required course of study.
• Providing that University residency policy is met, through an approved articulation agreement or Educational Pathway Agreement (EPA) students may be able to waive courses outside of standard course waiver policy requirements to facilitate seamless transfer for Associate degree completers.
• Students in this program may waive a maximum of nine upper division credits from their required course of study.
• The 12 credit Health Care Elective requirement will not be included in the maximum credits that can be waived from the required course of study and may be satisfied by any of the following means:
  • Any upper and/or lower division Health Care UOPX coursework.
  • Any lower division, upper division or graduate Health Care transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
  • Lower or upper division Health Care National Testing Program exams that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
  • Lower or upper division Health Care American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
  • Lower or upper division Health Care Prior Learning Assessment (PLA) credits awarded to activities completed within the past ten (10) years from current program enrollment agreement sign date.
• The following course(s) and their equivalents may not be waived: HCS 498

**MHA Pathway Policy for the BSHM**

Bachelor of Science in Health Management (BSHM) students who want to transition into the Masters of Health Administration (MHA) degree program may complete a maximum of six (6) graduate-level credits as part of their Elective requirement. These courses may only be taken after the completion of the required course of study.

**Re-entry for the BSHM**

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.

• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.

• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

• No appeals will be accepted for re-entry to an expired program.

• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Programs in the College of Nursing are designed to support the career advancement and educational needs of registered nurses, who are looking to expand their professional horizons. In an era of unprecedented and disruptive change in the health care industry—from shifting patient demographics, to the emergence of new models like telemedicine and retail medicine, to an increasingly complex licensing and credentialing environment—today's nurses must work hard to navigate the changes and remain on the leading-edge of their professions.

Whether you are a registered nurse looking to bolster your credentials to meet today's higher standards, or an advanced-practice nurse seeking to expand your knowledge and take on greater leadership challenges, The University of Phoenix® College of Nursing will equip you with the deep industry insight and up-to-the-minute knowledge and skills you need to become the nurse tomorrow needs.

**Accreditation- College of Nursing Programs**

The baccalaureate degree program in nursing and master's degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

**International Nursing Honor Society**

The mission of Sigma is advancing world health and celebrating nursing excellence in scholarship, leadership, and service. The honor society provides products and services that advance the learning and professional development of members and all nurses who strive to improve the health of the world’s people.

University of Phoenix, College of Nursing is a member of the Omicron Delta chapter of Sigma, a virtual chapter that supports members across the globe. Membership is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship and to nurse leaders exhibiting exceptional achievements in nursing.

Sigma has more than 135,000 active members who reside in more than 100 countries. There are roughly 540 chapters at more than 700 institutions. To learn more about Sigma visit their website at www.nursingsociety.org. To learn more about the Omicron Delta chapter visit their website at https://omicrondelta.sigmanursing.org/home

**Academic Progression Requirements for all Current Nursing Programs**

**License Requirement**

All nursing program students must hold a valid, unrestricted/unencumbered RN license in all states and jurisdictions in which the applicant holds an active nursing license. Students must also hold a valid and unrestricted/unencumbered RN license for the state in which they practice.

All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. With the exception of Hawaii, students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. In Hawaii, students must possess a valid Hawaii license.

**Scholastic Disqualification**

Students who receive a non-passing grade in a Nursing CORE course (CORE courses are listed in the program description of the program handbook) will be required to meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns prior to retaking the course that placed the student on scholastic disqualification.

Students will also be required to complete and sign an Academic Progression Student Agreement Form.

**Drug Testing**

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion of substance abuse, or otherwise indicates that the student may be impaired by drugs or alcohol without reasonable justification, will be required to undergo a "for-cause" 15-panel drug screen plus an alcohol drug test.
Bachelor of Science in Nursing

The following Bachelor of Science in Nursing (BSN) program is offered at University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Bachelor of Science in Nursing (BSN) is a program designed to develop the professional knowledge and skills of registered nurses. The curriculum builds on a foundation of biological, physical, and social sciences, which contribute to the science of nursing. The liberal arts components enhance the development of the intellectual, social, and cultural aspects of the professional nurse. This baccalaureate program includes behavioral objectives that concentrate on the development of the nurse’s role as researcher, practitioner, and leader. Using human caring as a framework, registered nurses are prepared as generalists who are able to apply critical thinking, professional skills, and knowledge to patient outcomes and health care systems.

The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Demonstrate evidence-based, holistic, patient centered care that reflects knowledge of the health-illness continuum.
- Implement appropriate health promotion and disease prevention strategies for diverse individuals, families, and populations across the life span.
- Demonstrate professional standards of moral, ethical, and legal conduct in health care industry.
- Apply leadership and organizational principles that promote safe health care delivery and nursing practice.
- Incorporate strategies that influence health policy at state, national, and international levels for the provision of safe, quality patient care.
- Integrate patient care communication and information technology systems in health care delivery to improve patient outcomes.
- Utilize interprofessional care coordination strategies to promote quality patient care.

Program Purpose

The Registered Nurse to Bachelor of Science in Nursing is a post-licensure education program designed for nurses with an active and unencumbered RN license who wish to obtain a bachelor’s degree in the professional field of nursing. The program is designed to develop the professional knowledge and skills of registered nurses and prepare them as generalists who are able to apply critical thinking, professional skills and knowledge to make clinical decisions that will result in positive patient outcomes and support healthcare systems.

Additional Admission Requirements for the BSN

All applicants are expected to meet the following admissions requirements:

- Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico
The Lower Division Nursing requirement will be satisfied using: RN-BSN Pathway Agreement for Concurrent Enrollment Students. Students transferring to University of Phoenix into an Associate Degree or Bachelor of Science degree in Nursing must meet the following requirements:

- Completion of a nursing diploma, an associate degree in nursing, or post-secondary diploma in nursing from a college or university with approved institutional accreditation or foreign equivalent earned at a recognized foreign institution; California Board of Registered Nursing (BRN) approved program.
- International students who are residents outside of the United States or approved US Territories must meet the following requirements:
  - Completion of a nursing diploma, an associate degree in nursing, or foreign equivalent program.
  - All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN License equivalency.
  - All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
  - Applicants who reside in Canada must meet one of the following requirements for admission:
    - Be a legal resident of Canada
    - Be a landed immigrant
    - Have a valid visa that does not prohibit educational studies
  - A signed Foreign Nursing Memorandum of Understanding must be on file.
  - The Lower Division Nursing requirement will be satisfied using students valid unrestricted / unencumbered RN license.
  - Signed Criminal Background Check Disclosure.
  - Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
  - Signed FERPA Release/Drug Test or Failure to Test Results
  - Signed Clinical Assurance Statement form
  - Students transferring to University of Phoenix into an undergraduate RN to BSN program with a previously completed Associate of Arts degree (any emphasis), Associate of Applied Arts Degree with an emphasis in Nursing, an Associate of Science Degree with an emphasis in Nursing or an Associate of Applied Science Degree with an emphasis in Nursing from a college or university with approved institutional accreditation, will be considered as satisfying their lower division elective, general education, and math and English proficiency requirements without any course content or timeframe restrictions. Students utilizing this policy will still need to meet all pre-requisite or state specific content requirements as outlined in the Academic Progression and General Education Requirements policy sections for their chosen program.
  - RN-BSN Pathway Agreement Concurrent Enrollment Students Only: Applicants transferring to University of Phoenix with a completed Associate degree in nursing from an approved Pathway Agreement Institution will be eligible to satisfy lower division general education program requirements within their BSN as outlined on the RN-BSN Pathway Agreement Transfer Guide. Prior to enrolling into the BSN program applicants must:
    - Have a signed Concurrent Enrollment Memorandum of Understanding on file.
    - Complete NSG 302, NSG 416, NSG 426, and NSG 451 at the University of Phoenix under the ND-NURSE 001 Non-degree program code.
    - Meet all other BSN admission requirements.

Degree Requirements for the BSN

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 47 credits
  - Required Course of Study: 33 credits
  - Lower Division Nursing: 40 credits
  - A minimum of 33 upper division credits.
  - A maximum of 87 lower division credits
  - A minimum grade point average (GPA) of 2.0.
- University of Phoenix offers assessment of prior learning as an option by which students can earn assessed credits toward degree completion requirements. Registered nurses, enrolled in the BSN program, whose nursing education was completed at a non-US institution, or a non-accredited institution, may be evaluated for transferable non-nursing credits for degree completion.
- The diploma awarded for this program will read as: Bachelor of Science in Nursing

Academic Progression Requirements for the BSN

- All students enrolling in the BSN program will take NSG 302 as their first course.
- Students may take courses required for the Bachelor of Science in Nursing degree in any sequence as long as the prerequisite(s) for each course has been satisfactorily completed.
- Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
- Satisfy University Proficiency Requirements
  - A clinical course may not be taken concurrently with any other course. The clinical courses in this program include: NSG 482CA, NSG 486CA.
  - Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.

Minimum Grade Requirements for the BSN

- Students must successfully complete all required courses with a grade of “C” or better before proceeding to the next course. A “C-” grade is not acceptable. If students do not pass a required course with a “C-” or better, they will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.

Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.

Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the BSN

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 3 credits from their required course of study. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 451, NSG 456, NSG 468, NSG 482, NSG 486, NSG 482CA, NSG 486CA, and NSG 498.

General Education Requirements for the BSN

A minimum of 47 of the 120 credits must be in the general education areas approved by the University.

Communication Arts, 6 credits
ENG/220, equivalent or higher
Mathematics, 6 credits
Must include 6 credits of statistics or higher.
Natural/Physical Sciences, 12 credits
Humanities, 6 credits
Social Science, 6 credits
Interdisciplinary Requirements, 11 credits
Any earned credit may be applied to the Interdisciplinary Component, with the exception of the following: credits applied to course(s) in the Required Course of Study as a waiver, equivalent course(s) to the BSN Required Course of Study, LD nursing credits from a nursing diploma or ADN program, and credits that apply to other areas of general education or the nursing Required Course of Study.

Physical Education activity credits are limited to four (4) credits.

Note: Six (6) upper division Nursing Pathway course credits may be applied to the interdisciplinary category.

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Nursing Pathway for BSN

Bachelor of Science in Nursing students who want to transition into the University’s Master of Science in Nursing (MSN) degree programs may complete two (2) of the following courses as part of their upper division elective credits which are required for degree completion. The nursing pathway courses may be taken only after completion of the required course of study.

Pathway Courses to MSN/ADM, MSN/NED, MSN/INF

- NSG 511
- NSG 512

Re-entry for the BSN

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

An appeal will be required for re-entry if:
- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student cannot complete their program within their program completion deadline and the program is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
The College of Education offers undergraduate programs designed for future educators combining content and pedagogical preparation. These programs are developed and taught by skilled practitioners who work in their respective fields, and emphasize knowledge, skills, dispositions, and lifelong learning as essential elements for professional practice. Each program blends theory and practice through a combination of individual and collaborative work to foster a learning environment that allows students to build their knowledge base and apply what they have learned to “impact student learning one educator at a time.” Each student/applicant is responsible for checking with his/her state Department of Education and/or school district to determine specific credentialing requirements.

**Bachelor of Science in Education/Elementary Education**

The following Bachelor of Science in Education/Elementary Education (BSED/E) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Elementary (BSEd-E) is an undergraduate degree program preparing candidates for teacher licensure. The guiding philosophy of the BSEd/E program is to provide students with the skills and knowledge that will allow them to become competent and effective educators. This program focuses on elementary student learning by developing the skills of the educator responsible for that learning. Student teaching is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels. The focus of each observation will relate to specific course content.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design and implement effective instruction in the elementary classroom to produce a positive impact on student learning.
- Evaluate effective professional practice in elementary education.
- Apply professional ethics to their instructional practices in elementary education.
- Evaluate learning principles to differentiate instruction to meet the needs of diverse elementary student populations.
- Create innovative strategies to incorporate technology in an elementary classroom setting.

**Program Purpose**

The Bachelor of Science in Education/Elementary Education is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers and includes a clinical component requiring field experiences and student teaching. Requirements for licensure vary by state, please visit [www.phoenix.edu/state-licensure-requirements/teacher-education](http://www.phoenix.edu/state-licensure-requirements/teacher-education) to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.
Program Category Requirements
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits
GEN 201 .................................................................3 credits
Foundations for University Success
Orientation, 0 total credits
EDU 300 ..............................................................................0 credits
Orientation to Teacher Education
History and Foundations of Education, 6 total credits
EDU 301 ~ .................................................................3 credits
Foundations of Education
EDU 315 ~ .................................................................3 credits
Legal & Ethical Issues in Education
pre-requisite applies to B Track only
Educational Theories and Models, 6 total credits
EDU 311 ~ .................................................................3 credits
Models and Theories of Instruction
EDU 321 .................................................................3 credits
Classroom Management
Human Development, 3 total credits
EDU 305 ~ .................................................................3 credits
Child Development
pre-requisite applies to B Track only
Assessment, 3 total credits
EED 400 ..............................................................................3 credits
Assessment in Elementary Education
Reading, 9 total credits
RDG 350 .................................................................3 credits
Children’s Literature
RDG 420 ~ .................................................................3 credits
Elementary Methods - Reading/Language Arts
RDG 415 ~ .................................................................3 credits
Diagnosis and Remediation of Reading Difficulties
Special Populations, 9 total credits
SEI 300 ..............................................................................3 credits
Structured English Immersion
SEI 301 ~ .................................................................3 credits
Advanced Structured English Immersion Methods
SPE 300 ..............................................................................3 credits
Orientation to the Exceptional Child
Elementary Methods, 15 total credits
EED 416 ~ .................................................................3 credits
Elementary Methods - Mathematics
EED 420 ~ .................................................................3 credits
Elementary Methods - Science
EED 425 ~ .................................................................3 credits
Elementary Methods - Health/PE
EED 430 ~ .................................................................3 credits
Elementary Methods - Social Studies
EED 435 ~ .................................................................3 credits
Elementary Methods - Fine Arts

Student Teaching and Field Experience, 9 total credits
EDU 390 ~ .............................................................................1 credit
Elementary Education Seminar
EED 498 ~ .............................................................................4 credits
Elementary Student Teaching, Seminar I
EED 499 ~ .............................................................................4 credits
Elementary Student Teaching, Seminar II
New Jersey, North Carolina, Utah, Maryland, and Illinois residents will take EED 496 in place of EED 498 and EED 499
EED 496 ~ .............................................................................8 credits
Student Teaching
The University reserves the right to modify the required course of study.

General Information for the BSED/E
• First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for "Admitted with Condition" status, will be admitted with condition to this program according to the risk free period policy.
• Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
• Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
• Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A

Additional Admission Requirements for the BSED/E
• A signed BSEd/E New Student Checklist.
• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

Additional Admission Requirements for Montana Residents with admission application or program change agreement signed 1/1/2020 or later
Students residing in Montana must provide verification of the following:
• Completion of the online course, An Introduction to Indian Education for All in Montana

Additional Admission Requirements for Oregon residents with an admission application or program change agreement signed 10/1/2021 or later
Students residing in Oregon must provide a screen shot from the Oregon Teacher Standards and Practices Commission Public Educator search, confirming they have never held an Oregon Educator license.
Candidacy Status for the BSED/E

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.

- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student’s file and uploaded to the student’s official record.

  - Credits applied through waiver are included for Candidacy Status Level 2 Review. Students who waive 9 or more credits in their required course of study will be eligible for a 3 credit extension to complete the requirements for Candidacy Status Level 2
  - Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.

Georgia residents seeking a Georgia certificate:

Additional Candidacy Level II Requirements:

- Obtain a Georgia Pre-service Certificate. The steps to qualify for this certificate include:
  - Completion of GACE Educator Ethics Assessment
  - Signed Pre-service certification application
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Completed Background Check Form

Due to state requirements, Georgia candidacy level II requirements must be met prior to students posting attendance in their first credit bearing course in the required course of study.

Mississippi residents with enrollment agreements signed 10/1/2022 or thereafter seeking a Mississippi certificate:

Additional Candidacy Level II Requirements:

- Obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service Certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the BSED/E

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 54 credits
  - Required Course of Study: 63 credits
  - Electives: 3 credits
  - A minimum of 60 upper division credits in the Required Program Category Preferred Sequence.
  - A minimum of 54 of the 120 credits must be in the general education areas approved by the University.
  - A minimum grade point average (GPA) of 2.5.
  - Satisfactory completion and uploading of the Teacher Work Sample (TWS), or teacher performance assessment (depending on state of residency).
  - Satisfactory completion of any required internship, student teaching, practicum courses and/or alternative clinical practice.
  - Complete course within the sequence specified by course prerequisite requirements.
  - Meet state requirements as set forth by state of residency to receive state endorsement.
  - Completion of My Time Log (100 hours minimum or more as required by state of residency). To ensure student’s meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
  - All students must complete the minimum number of credits required by their degree program.
  - Georgia residents attending Online and Local Campus students who complete field experience, student teaching, and apply for state certification 9/1/2015 or thereafter must complete:
    - GACE Educator Ethics Exit Exam (360)
    - The diploma awarded for this program will read as: Bachelor of Science in Education Elementary Education

Academic Progression Requirements for the BSED/E

Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs. Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy. Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy. Undergraduate students must satisfy math and English proficiencies as an academic progression requirement in their program.

Students have the following options to fulfill proficiency:

- Successful completion of UOPX math and English courses designated as applicable to the proficiency requirement
- Comparable transfer coursework from a college or university with approved institutional accreditation, or credit recommended by the American Council on Education transfer activity that meets the following requirements:
  - Grade of C- or better (or academic equivalent)
  - At least 2 semester credits
  - Eligible to receive general education credits
• National College Credit Recommendation Service (NCCRS) credit recommendations
• Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam.
• Demonstrate competency by meeting the minimum passing score on a UOPX approved placement exam.

Students who satisfy the English and/or math proficiency and sign a new Enrollment Agreement may carry forward the completed proficiency into their new program/version provided they have remained in continuous attendance according to the University’s Academic Program Re-entry policy.

Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:

• Passing scores on the designated state content knowledge exam.

The validity period of passing exam scores is determined by each state at its discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

• Verification of immunization or TB test results (district specific)
• Verification of the completion of 100 hours of field experience (or more as required by state of residency).
• Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number
• State Specific Requirements: Students residing in the states below must complete additional coursework prior to starting student teaching.
• Direct Licensure Applicants: Students in states that accept the Arizona program in order to directly apply for initial licensure in their home state:

**Montana Enrollment Agreements signed prior to 1/1/2020:** Students residing in Montana must provide verification of the following:
- Completion of the online course, An Introduction to Indian Education for All in Montana

**Wyoming:** Students residing in Wyoming must provide verification of the following prior to the student teaching placement:
- Completion of a Wyoming Constitution course or demonstration of knowledge by examination

**Missouri Residents with Enrollment Agreements signed prior to 1/1/2020:** Students residing in Missouri must provide verification of the following:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam

**New Jersey Residents with Enrollment Agreements signed prior to 1/1/2020:** Students residing in New Jersey must provide verification of the following:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam

**New Mexico Residents with Enrollment Agreements signed prior to 1/1/2020:** Students residing in New Mexico must provide verification of the following:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam

**Puerto Rico:** Students residing in Puerto Rico must provide verification of the following:
- Completion of a Puerto Rico History course

**Texas Residents with Enrollment Agreements signed prior to 1/1/2020:** Students residing in Texas must provide verification of the following prior to the student teaching placement:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam

**South Dakota Residents with Enrollment Agreements signed prior to 7/1/2022:** Students residing in South Dakota must provide verification of the following:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam

**Mississippi Residents with Enrollment Agreements signed prior to 10/1/2022:** Mississippi residents seeking a Mississippi certificate must first obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
- Signed Pre-service certification Application
- Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
- Signed and notarized Verification of Lawful Presence (VLP) Affidavit
- Institutional Program Verification (IPV) form

Students must complete all General Education requirements prior to completion of EDU 390.

Candidates will be required to have a 2.5 GPA for the program at the time they apply for the student teaching experience and prior to the approval of their student teaching experience.

Pennsylvania candidates with Enrollment Agreements signed 7/1/2017 or later are required to have a minimum cumulative 3.0 GPA at the time they apply for the student teaching experience and prior to the approval of their student teaching experience.

Guam candidates with Enrollment Agreements signed 7/1/2017 or later are required to have a minimum cumulative 2.7 GPA at the time they apply for the student teaching experience and prior to the approval of their student teaching experience.

Georgia candidates who complete SPE 300 (or equivalent) after 5/1/2019, must earn a B or better to receive credit for the course.

Georgia candidates who did not receive a C or better in the course prior to 5/1/2019 must retake SPE 300 with a grade of B or better to be eligible for the IR.
Minimum Grade Requirements for the BSED/E

- A candidate must earn a grade of "B" or better in all student teaching courses in order to complete this program. Grades of "B-" are not accepted. Students who fail to receive a minimum grade of "B" in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or student teaching: EDU 390, EED 496, EED 498, EED 499.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from the program.

Residency Requirements and Course Waivers for the BSED/E

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study. Upon the successful completion of the Child Development Associate (CDA), Florida Department of Education Early Childhood Professional Certificate (ECPC) or the Florida Child Care Professional Credential (FCPC) candidates transferring to UOPX may waive 12 credits using the following coursework in the BSEd/E program. The options for credit application are based upon specific GE requirements for each state.

* 3 credits in social studies
* 9 credits in additional liberal arts
  or
* 12 credits in social studies
  or
* 12 credits in any combination of social studies, additional liberal arts or electives

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "C" (2.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: EDU 300, EDU 311, EDU 321, EDU 390, EED 416, EED 496, EED 498, EED 499, GEN 127, GEN 201, RDG 415, SPE 300.

Candidates may waive SEI 300 and/or SEI 301 if they meet one of the following requirements:

- Completion of an Arizona Department of Education (ADE) approved SEI course(s) at an institution of higher education.

Candidates who provide evidence of the completion of 3 credits of SEI coursework may waive SEI 300 with credit, and SEI 301 without credit. Candidates must complete ECH 418 (or equivalent) to make up the credit deficiency for SEI 301.

Candidates who provide evidence of 6 credits of SEI coursework may waive both SEI 300 and SEI 301 with credit.

- Completion of an Arizona Department of Education (ADE) approved district/individual trainer led workshop.

Candidates who provide evidence of the completion of a state approved workshop that is 45 clock hours may waive SEI 300 with credit, and SEI 301 without credit. Candidates must complete ECH 418 (or equivalent) to make up the credit deficiency for SEI 301.

Candidates who provide evidence of the completion of a state approved workshop that is 90 clock hours may waive both SEI 300 and SEI 301 with credit.

- Verification of one of the following endorsements:
  - Arizona Full SEI Endorsement (SEI 300)

Candidates who hold this endorsement may waive SEI 300 with credit, and SEI 301 without credit. Candidates must complete ECH 418 (or equivalent) to make up the credit deficiency for SEI 301.

- Arizona English as a Second Language Endorsement (SEI 300 and SEI 301)

Candidates who hold this endorsement may waive both
SEI 300 and SEI 301 with credit.

General Education Requirements for the BSED/E

A minimum of 54 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing

Mathematics Requirement(s) 12 credits
6 credits must include MTH 213 and MTH 214
Must include 6 credits of quantitative reasoning or higher

Physical/Biological Science Requirement(s) 6 credits
Effective for Residents of Arizona, Missouri, New Jersey, New Mexico, and Texas with Enrollment Agreements signed 1/1/2020 or later: 3 credits must include HIS 210 (or equivalent)

3 credits must include ETH 120

Effective for Residents of South Dakota with Enrollment Agreements signed 7/1/2022 or later: 3 credits must include HIS 210 (or equivalent)

Effective for Residents of New Jersey with Enrollment Agreements signed 1/1/2020 or later: 3 credits must include SC 220T (or equivalent)

Social Studies Requirement(s) 9 credits
3 credits must include HIS 301
3 credits must include ETH 120

Effective for Residents of Arizona, Missouri, New Jersey, New Mexico, and Texas with Enrollment Agreements signed 7/1/2022 or later: 3 credits must include HIS 210 (or equivalent)

Fine Arts Requirement(s) 3 credits
Art, music, drama or dance

Humanities Requirement(s) 3 credits
Pathway B must include: 3 credits in critical thinking

Additional Liberal Arts Requirement(s) 9 credits

Physical Education activity credits are limited to four (4) credits.

All undergraduate students are required to complete the minimum general education credits required by their program version. Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses. Students may use a 2 semester credit Cultural Diversity course to satisfy the ETH 120 requirement, 2 semester credit Constitution course to satisfy the HIS 301 constitution requirement, 2 semester credit Arizona Constitution course to satisfy the HIS 210 requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

With the exception of GEN 201, General Education and Elective course requirements may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University

Students who lack .67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

Field Experience for BSED/E

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours (or more as required by state of residency) of verified field experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each field experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided field experience requirements. The guided field experience requirements will be satisfied through the completion of Guided Field Experience assignments in specific courses required by the candidate’s program. Documentation of field experience will be reviewed by university staff prior to student teaching. Candidates must follow necessary guidelines outlined in the program handbook to satisfy field experience requirements.

Student Teaching for the BSED/E

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culminating experience of the Bachelor of Science in Education program. Students must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
- Student teaching must occur in a K-8 self-contained classroom setting under the supervision of a certified teacher. This applies to self-contained settings only, not departmentalized settings.
- Candidates wishing to do their student teaching in a single subject in grades 6-8 must provide the following prior to Student Teaching I:
  - Passing scores on the state mandated content exam for elementary
  - Passing scores on the state mandated content exam for the single subject content area the candidate would like to teach in grades 6-8.
  - The candidate must earn a “B” or better in Elementary Education Seminar. If a candidate receives less than a “B” (B- or lower), the student will receive a grade of “F” for the course, they will be Scholastically Disqualified and they must repeat the course.
- Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience Candidates who choose to postpone student teaching must postpone their enrollment in these seminars.
- Student teaching can only be repeated one time.
- Removal from a placement at the request of an appointed administrator from the student teaching location or UOPX:
Candidates who do not successfully complete their mid-term evaluation will be withdrawn from their student teaching course, issued a grade of "F", and placed on Scholastic Disqualification. This experience counts as one of their two student teaching attempts.

- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.

Candidates that do not successfully complete a successive attempt of the student teaching experience will be removed from the program, placed on Scholastic Suspension, and are not eligible for re-entry.

Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.

Students should complete student teaching within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the student teaching courses).

Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project, or teacher performance assessment (depending on state of residency).

Student teaching cannot be waived unless a documented exception exists in program policy. SAC appeals to waive student teaching will not be accepted.

Out of State Student Teaching

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching online. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online Administrative Offices for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Elementary Education Seminar with a "B" or better.

Candidates must enroll in the remaining Student Teaching Seminars online while completing their student teaching experience.

Candidates need to work directly with the Online Administrative Offices to complete the requirements for verification of placement.

Re-entry for the BSED/E

Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.

Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
Missouri, Montana, New Jersey, New Mexico, Puerto Rico, South Dakota, Texas, and Wyoming residents: seeking to re-enter an Arizona-approved program who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.

Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

**Institutional Recommendation for the BSED/E**

Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.

Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Georgia candidates who completed SPE 300 (or equivalent) prior to 5/1/2019 will not be eligible for an Institutional Recommendation (IR) unless they received a C or better in the course. Students must retake SPE 300 with a grade of B or better to be eligible for the IR.

**Arizona Teaching Intern Certificate Route**

The student teaching intern certificate is optional and is not a requirement for participation in clinical practice (student teaching). The certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate.

The requirements are:

- Verification of all program academic progression requirements
- Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number

- Enrollment in the clinical practice course
- Completed coursework with a minimum GPA of 3.0
- Passing score on the professional knowledge portion of the Arizona Teacher Proficiency Assessment that corresponds to the teaching certificate the teacher candidate is pursuing
- A request for issuance of the student teaching intern certificate from the district superintendent or charter school superintendent and the EPP.
- University written supervision plan

Placement decisions of student teaching intern certificate holders shall only be based on collaborative agreements between the Arizona Department of Education and the Local Education Agency. A student teaching intern certificate holder may not teach in a special education classroom unless the certificate holder has a bachelor’s degree.

**Bachelor of Science in Liberal Studies (California)**

The following Bachelor of Science in Liberal Studies (BSLS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Liberal Studies (BSLS) is an undergraduate liberal studies program that combines content and pedagogical preparation required for multiple subject credential candidates. Field experiences are integrated throughout the program, with a culminating student teaching experience. The program and field experiences are designed to emphasize mastery of state standards with ongoing assessment to measure candidate competency.

View state licensure requirements for this program: [www.phoenix.edu/state-licensure-requirements/teacher-education](http://www.phoenix.edu/state-licensure-requirements/teacher-education)

This program, which leads to certification or licensure in California, is only approved to be offered in California. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates seeking to continue in a teacher licensure program outside of California would be required to change programs or update to a comparable Arizona-approved program.

Programs are available in select states. Candidates must keep their address up-to-date and contact their Academic Advisor immediately when any changes occur to ascertain the effect upon their educational goals.

Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the possible change upon their ability to progress in the program.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design and implement effective instruction in the elementary classroom to produce a positive impact on student learning.
- Design and implement effective instruction in the elementary classroom to produce a positive impact on student learning.
- Evaluate effective professional practice in elementary education.
- Apply professional ethics to their instructional practices in elementary education.
- Evaluate learning principles to differentiate instruction to meet the needs of diverse elementary student populations.
- Create innovative strategies and incorporate technology in an elementary classroom setting.
Program Purpose

The Bachelor of Science in Liberal Studies is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state; please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Orientation, 0 total credits

EDU 300CA ~ prerequisite only applies to Pathway B .... 0 credits
Orientation to Teacher Education

Introductory Course, 3 total credits

GEN 201 .................................................................................. 3 credits
Foundations for University Success
GEN 127 .................................................................................. 3 credits
University Studies for Success

Foundations of Education, 3 total credits

EDU 301CA ~ ........................................................................... 3 credits
Foundations of Education

Education Models & Theories, 6 total credits

EDU 311CA ~ ........................................................................... 3 credits
Models and Theories of Instruction
EDU 321CA ~ ........................................................................... 3 credits
Classroom Management

Human Development, 3 total credits

EDU 305CA ~ ........................................................................... 3 credits
Child Development

Reading, 3 total credits

RDG 420CA ~ ........................................................................... 3 credits
Elementary Methods: Reading and Language Arts

Special Populations, 6 total credits

SPE 300CA ~ ........................................................................... 3 credits
Orientation to the Exceptional Child
ELL 300 ~ ........................................................................... 3 credits
Instruction and Assessment of English Language Learners

Elementary Methods & Assessment, 6 total credits

EED 436CA ~ ........................................................................... 3 credits
Elementary Methods: Social Science and Fine Arts
EED 438CA ~ ........................................................................... 3 credits
Elementary Methods: Mathematics and Science

Field Experience and Student Teaching, 8 total credits

Students who began TPA 001 prior to 1/1/2018:
EED 498CA ~ ........................................................................... 4 credits
Elementary Student Teaching, Seminar I
EED 499CA ~ ........................................................................... 4 credits
Elementary Student Teaching, Seminar II

Students with no prior completion of a TPA course as of 1/1/2018 and later:
EED 491CA ~ ........................................................................... 4 credits
Elementary Clinical Practice A

TPA, 2 total credits

Students who began TPA 001 prior to 1/1/2018:
TPA 001 ~ obsolete 7/1/2020 ................................................. 1 credit
Subject Specific Pedagogy
TPA 002 ~ obsolete 7/1/2020 ................................................. 1 credit

Designing Instruction

Students with no prior completion of a TPA course as of 1/1/2018 and later:
TPA 100 ~ ........................................................................... 1 credit
TPA Planning and Instruction
TPA 200 ~ ........................................................................... 1 credit
TPA Instruction and Assessment

The University reserves the right to modify the required course of Study.

General Information for the BSLS

• First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.

• Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.

• Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.

• ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.

• Students who are placed in the Accelerated Pathway may choose to pursue the standard pathway without appeal, but must complete the standard pathway in its entirety upon the change. Students who are placed in the standard pathway must appeal to pursue the Accelerated Pathway.

Additional Admission Requirements for the BSLS

All applicants are expected to meet the following admissions requirements:

• A signed New Student Checklist.

• Students who reside outside of the state of California are not eligible to apply.

• For students with an admission application or program change enrollment agreement signed prior to 1/1/2018: a signed CalTPA Code of Honor
• Students who have previously completed an Associate degree for transfer in Elementary Teacher Education, Early Childhood, Child and Adolescent Development, or in a similarly related education field in the state of California with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACS-COC, or WSCUC accreditation, will be considered as satisfying 48 general education credits within the program. This includes the following: 12 credits in English/Language Arts, 3 credits in Mathematics, 12 credits in Physical/Biological Science, 12 credits in Social Studies, and 9 credits in Fine Arts. The transfer coursework will be applied as a block at the time of admission to the program.

Students using this policy will need to meet the following conditions:
• Satisfy the entry course sequence (GEN 201), unless otherwise stated in policy
• Complete 9 credits in English/Language Arts (3 credits in American Literature, 3 credits in College Composition, and RDG 201CA)
• Complete 9 credits in Mathematics (3 credits in Quantitative Reasoning, MTH 213, and MTH 214)
• Complete 3 credits in Social Studies (HIS 110CA)
• Complete 6 credits in Humanities (HUM 375CA and PHL 310CA)
• Complete 6 credits in Health/Physical Education (3 credits in Human Nutrition and HPE 270)
• Meet all pre-requisite, proficiency, and/or state specific content requirements as outlined in the program policies.

Candidacy Status for the BSLS

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.

Level 2 Candidate Status is completed prior to the completion of EDU 301CA. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student’s file and uploaded to the student’s official record.

• Completion of all General Education Requirements
• Demonstration of basic skills proficiency

Students who reside in California and are enrolled in a California approved program (BSLS) must meet approved basic skills proficiency as determined by the California Commission on Teacher Credentialing.

• Verification of Certificate of Clearance
• Must provide one of the following verifications:
  • The candidate provides evidence of having met subject matter through one of the California Commission on Teacher Credentialing approved options.
  • The candidate provides evidence of having attempted the appropriate subject matter examination(s).

Degree Completion Requirements for the BSLS

Completion of a minimum of 121 credits that include the following distribution:
• General Education: 81 credits
• Required Course of Study: 40 credits
• A minimum of 43 upper division credits.
• A minimum of 81 of the 121 credits must be in the general education areas approved by the University.
• A minimum grade point average (GPA) of 2.5.
• Completion of Teacher Performance Assessment
• Satisfactory completion of student teaching.
• Completion of My Time Log (100 hours). To ensure student’s meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
• All Students must complete the minimum number of credits required by their degree program.
• The diploma awarded for this program will read as: Bachelor of Science in Liberal Studies

Academic Progression Requirements for the BSLS

Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.

Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.

In addition to GEN 201, Pathway A students are required to complete 3 credits of College Composition which will contribute to completion of General Education requirements.

Following GEN 201, Pathway B students are required to complete coursework in the remaining Phoenix Success Series categories which will contribute to completion of General Education requirements:
• Psychology - 3 credits - PSY 110
• College level research and writing - 6 credits - ENG 100, ENG 200
• Economics - 3 credits - FP 100
• Critical thinking - 3 credits - HUM 115

Concurrent enrollment is prohibited during any of the Phoenix Success Series courses.

The Phoenix Success Series must be completed within the first 6 courses upon enrollment and prior to beginning the required course of study. The Phoenix Success Series contributes to fulfillment General Education and elective requirements. Undergraduate students must satisfy math and English proficiencies as an academic progression requirement in their program. Students have the following options to fulfill proficiency:

Note: Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

https://www.ctc.ca.gov/credentials/leaflets/multiple-subject-teaching-credential-cl561c
• Successful completion of UOPX math and English courses designated as applicable to the proficiency requirement.
• Comparable transfer coursework from a college or university with approved institutional accreditation, or credit recommended by the American Council on Education transfer activity that meets the following requirements:
  - Grade of C- or better (or academic equivalent)
  - At least 2 semester credits
  - Eligible to receive general education credits
  - National College Credit Recommendation Service (NCCRS) credit recommendations
  - Achieve a passing score (as established by the American Council on Education) on a comparable National Testing Program (NTP) exam.
  - Demonstrate competency by meeting the minimum passing score on a UOPX approved placement exam.
Students who satisfy the English and/or math proficiency and sign a new Enrollment Agreement may carry forward the completed proficiency into their new program/version provided they have remained in continuous attendance according to the University’s Academic Program Re-entry policy.
Candidates must provide verification of the following prior to beginning student teaching. Candidates must provide:
  - Verification of Subject Matter proficiency through a California Commission on Teacher Credentialing approved option.
  - The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation, or that is a candidate for accreditation.
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Minimum Grade Requirements for the BSLS
A candidate must earn a grade of “B” or better in all student teaching courses in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or student teaching: EED 498CA, EED 499CA, EED 491CA, EED 492CA
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
  - If the candidate does not receive a grade of “B” or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from the program.
Residency Requirements and Course Waivers for the BSLS
Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at UOPX. Students in this program may waive a maximum of 9 credits from their required course of study.
In order to be granted a waiver with credit for a course in the required course of study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, or that is a candidate for accreditation.
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed and transcripted from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation with which the University of Phoenix has an approved articulation agreement.
  - The course must have been completed with a grade of “C” (2.0) or better during the effective dates of the approved articulation agreement.
  - The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.
Students may use a 2 semester credit Constitution course to satisfy the HIS 305CA or HIS 110CA constitution requirement, or a 2 semester credit Education Math course to satisfy the MTH 213CA and MTH 214CA requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the...
minimum requirements.
The following courses in the Required Course of Study may not be waived: EED 491CA, EED 492CA, EED 498CA, EED 499CA, GEN 127, GEN 201.

General Education Requirements for the BLS
A minimum of 81 of the 121 credits must be in the general education areas approved by the University. English/Language Arts, 27 credits
Must include the following:
Pathway B must include: 3 credits in college-level research and writing
15 credits in Written and Non-Written Communication
6 credits in Language and Linguistics
6 credits in Reading
Note: The 3 credits in college-level research and writing required for Pathway B students applies towards the 15 credits in Written and Non-Written Communication requirement.
Note: If a B- or better is obtained in ENG 210, the student will qualify to waive the writing section of the CBEST. If a B- or better is obtained in ENG 295 or ENG 270, the student will qualify to meet the reading section of the CBEST.
Mathematics, 12 credits
Must include: MTH 213 & MTH 214
Must include 6 credits of quantitative reasoning or higher
Note: If a B- or better is obtained in any of the math classes outlined, the student will qualify to waive the Math section of the CBEST.
Physical/Biological Science, 12 credits
Must include the following:
3 credits in Physics
3 credits in Biology
3 credits in Chemistry
3 credits in Earth Science
Social Studies, 18 credits
Must include the following:
6 credits in World History
6 credits in CA History (HIS 305)
6 credits in U.S. History (HIS 110CA)
Fine Arts, 6 credits
Must include: ARTS 100, ARTS 230
Health/Physical Education, 6 credits
Must include the following:
3 credits in Health/PE (HPE 270)
3 credits in Human Nutrition
Coursework which was completed at an institution that offers associate degrees or higher, which was accredited, or a candidate for accreditation at the time the student attended, by an approved institutional accrediting body, or a foreign institution recognized/authorized by the country’s Ministry of Education, will be reviewed for transfer into the University.
In order to satisfy RDG 201CA with transfer coursework, a student must have completed a previous course which meets the following criteria:
• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework).
Coursework in which students earn a minimum grade of “C-” or grades of credit, pass or satisfactory will be accepted towards student’s degree requirements.
All undergraduate students are required to complete the minimum general education credits required by their program version.
Students who lack .67 or fewer general education credits may use liberal arts credits to satisfy the balance in order to complete the minimum general education credits required for their program.

Field Experience for BLS
Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified field experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each field experience will relate to specific course content and will follow a structured format. As part of the verified field experiences, candidates must also complete guided field experience requirements. The guided field experience requirements will be satisfied through the completion of Guided Field Experience assignments in specific courses required by the candidate’s program. Documentation of field experience will be reviewed by university staff and faculty prior to student teaching. Candidates must work with their university and follow necessary guidelines outlined in the program handbook to arrange and satisfy field experience requirements. Candidates must be placed for field experience by the university. A Certificate of Clearance and negative TB test is required prior to Field Experience placement. Students who have failed to meet program requirements for Field Experience must complete the academic progression student agreement form, to be signed by the student and returned to the appointed administrator.

Student Teaching for the BLS
Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.
• Student teaching is the culminating experience of the Bachelor of Science in Liberal Studies program. Candidates must complete prerequisites leading up to Student Teaching Seminar I prior to beginning the student teaching experience.
• Candidates must complete a total of two placements, one in each of the two elementary grade levels: K-2 and 3-6. These placements must be in self-contained classroom settings in which the candidate teaches the four core subject areas - English language arts, math, social studies, and science - to the same group of students.

• Enrollment Agreements signed prior to 7/1/2021: One placement is seven weeks and the other placement is eight weeks.
• Enrollment Agreements signed 7/1/2021 or later: One placement is eight weeks and the other placement is nine weeks.
• Candidates must earn a “B” or better in Elementary Education Seminar. If a candidate receives less than a “B” (B- or lower, or “W”), the student will receive a grade of “F” for the course, they will be Scholastically Disqualified and they must repeat the course.
• Candidates must be enrolled in Student Teaching Seminar I and II during their student teaching experience. If a candidate chooses to postpone student teaching they must postpone their enrollment in these seminars.

• Student teaching can only be repeated one time.

• Removal from a placement at the request of an appointed administrator from the student teaching location or UOPX:

  • Candidates who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their first student teaching course or while transitioning between their student teaching courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the candidates’ successful completion of their supplemental standards remediation process. This experience counts as one of their two student teaching attempts.

    -Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

  • Candidates who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their student teaching courses, will be withdrawn from the student teaching course, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two student teaching attempts.

    -Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

• Unapproved self-terminations of student teaching:

  • Candidates that execute an unapproved self-termination of student teaching, prior to starting and posting attendance in their first student teaching course or while transitioning between their student teaching courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the candidates’ successful completion of their supplemental standards remediation process. This experience counts as one of their two student teaching attempts.

    -Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

• Candidates that do not successfully complete a successive attempt of the student teaching experience will be removed from the program, placed on Scholastic Suspension, and are not eligible for re-entry.

• Candidates must student teach in a self-contained elementary setting. Candidates may not student teach in special education.

• Candidates should complete student teaching within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the student teaching courses).

  • Enrollment Agreements signed prior to 7/1/2021: Candidates must complete a minimum of 15 weeks of student teaching.

  • Enrollment Agreements signed 7/1/2021 or later: Candidates must complete a minimum of 17 weeks of student teaching.

• Candidates must complete a minimum of 8 credit hours of student teaching, including the completion of a Teaching Performance Assessment.

• Student teaching cannot be waived unless a documented exception exists in program policy. SAC appeals to waive student teaching will not be accepted. **Re-entry for the BSLS**

Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may re-enter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice. Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version. Missouri, Montana, New Jersey, New Mexico, Puerto Rico, Texas and Wyoming residents: seeking to re-enter an Arizona-approved program who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version. Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must re-enter the current program version and successfully complete all courses required by their reentry credit summary.

Effective for California residents with an enrollment agreement signed 1/1/2020 or later: Candidates re-entering a teacher licensure program must complete the edTPA Student Teaching courses. Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter. **Institutional Recommendation for the BSLS**

• Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state).
Upon completion candidates' records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Candidates must apply for their initial IR within one year of completing all academic requirements. The time limit between completion of coursework and institutional recommendation (IR) for license or endorsement is 12 months. Failure to complete the IR process within this time period will result in a program review and may require additional coursework or assessments for currency.

All students obtaining an IR after 7/1/2020, must complete edTPA. The IR will not be issued unless evidence of passing edTPA is provided.

Candidates must provide verification of coursework in U.S. Constitution and Health Education (with a grade of "C" or better).

Candidates must provide verification of current and appropriate CPR certification, as defined by the California Commission on Teacher Credentialing, prior to being recommended for their credential.

Candidates must pass the RICA exam.

Candidates must pass their Teacher Performance Assessment.

Bachelor of Science in Education/Early Childhood Education

The Bachelor of Science in Education (BSED) with a specialization in Early Childhood Education is an undergraduate degree program preparing candidates for teacher licensure in the field of early childhood (birth to age eight, grade 3). The curriculum is aligned with the Interstate Teaching Assessment and Support Consortium’s (InTASC) model core teaching standards and the National Association for the Education of Young Children (NAEYC) standards. The curriculum includes common core standards, child development and learning, building family and community relationships, cultural diversity, assessment to support young children and families, strong content knowledge to build developmentally appropriate and meaningful curriculum and experiences, and professionalism and ethics of educators. Throughout the program, students are required to complete verified field experiences and student teaching.

Teaching Performance Assessment 1: Subject-Specific Pedagogy and Teaching Performance Assessment 2: Designing Instruction a total of three times each. Candidates are required to complete a remediation process if they have failed the corresponding assessment two times. This remediation process must be completed prior to the third attempt.

Teaching Performance Assessment 3: Assessing Learning and Teaching Performance Assessment 4: Culminating Teaching Experience are required in order to be provided with an Institutional Recommendation. These assessments can only be attempted two times each.

Candidates must earn a score of 3 or 4 on each Teaching Performance Assessment to be considered passing. Scores of 1 or 2 are not considering passing scores.

Candidates who are unable to pass Teaching Performance Assessment 1: Subject-Specific Pedagogy and Teaching Performance Assessment 2: Designing Instruction after the allotted number of attempts are permanently removed from the program.

TPA 1 and TPA 2 = 3 attempts

Students who transfer into the BSLS program and have documentation of passing TPA 1: Subject-specific Pedagogy and/or TPA 2: Designing Instruction while attending another university are not required to complete the corresponding preparation courses TPA 001 - Subject-specific Pedagogy and/or TPA 002 - Designing Instruction. Students should submit a course waiver request to apply the TPA 1 and/or TPA 2 assessments to the TPA 001 and/or TPA 002 courses at University of Phoenix.
Program Purpose
The Bachelor of Science in Education/Early Childhood is an undergraduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to work with children from pre-K through grade 3 or age 8 as a licensed early childhood educator. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design and implement effective instruction in the early childhood classroom to produce a positive impact on student learning.
- Apply effective professional practice in early childhood education.
- Evaluate professional ethics to their instructional practices in early childhood education.
- Evaluate learning principles to differentiate instruction to meet the needs of diverse early childhood populations.
- Create innovative strategies and incorporate developmentally appropriate technology in an early childhood setting.

Program Category Requirements
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Introductory Course, 3 total credits
GEN 201 (A Track) ......................................................... 3 credits
FOUNDATIONS FOR UNIVERSITY SUCCESS
GEN 127 (B Track) ......................................................... 3 credits
UNIVERSITY STUDIES FOR SUCCESS
Orientation, 0 total credits
ECH 300 ~ ................................................................. 0 credits
Orientation to Early Childhood Education
History and Foundations of Education, 9 total credits
ECH 301 ~ ................................................................. 3 credits
Foundations of Early Childhood Education
EDU 215 ~ ................................................................. 3 credits
Ethics and Social Responsibility in Education
ECH 418 ~ ................................................................. 3 credits
Community and Family Engagement
Educational Theories and Models, 6 total credits
ECH 211 ~ ................................................................. 3 credits
Instructional Strategies for Early Childhood Education
ECH 321 ~ ................................................................. 3 credits
Developmentally Effective Learning Environments
Human Development, 3 total credits
ECH 205 ~ ................................................................. 3 credits
Early Childhood Growth and Development

Assessment, 3 total credits
ECH 400 ~ ................................................................. 3 credits
Assessment and Evaluation in Early Childhood

Reading, 6 total credits
RDG 351 ~ ................................................................. 3 credits
Early Childhood Literacy Development
RDG 416 ~ ................................................................. 3 credits
Methods of Teaching in Early Childhood Language and Literacy

Special Populations, 9 total credits
SEI 300 ~ ................................................................. 3 credits
Structured English Immersion
SEI 301 ~ ................................................................. 3 credits
Advanced Structured English Immersion Methods
ECH 302 ~ ................................................................. 3 credits
Exceptionalities of the Young Child

Early Childhood Methods, 12 total credits
ECH 416 ~ ................................................................. 3 credits
Methods of Teaching in Early Childhood: Math
ECH 420 ~ ................................................................. 3 credits
Methods of Teaching in Early Childhood: Science
ECH 430 ~ ................................................................. 3 credits
Methods of Teaching in Early Childhood: Social Studies
ECH 435 ~ ................................................................. 3 credits
Methods of Teaching in Early Childhood: Arts & Music

Student Teaching and Field Experience, 9 total credits
ECH 390 ~ ................................................................. 1 credit
Early Childhood Student Teaching Seminar
ECH 496 ~ ................................................................. 8 credits
Early Childhood Student Teaching
New Jersey, North Carolina, Utah, Maryland, and Illinois residents will take ECH 497 in place of ECH 496.
ECH 497 ~ ................................................................. 8 credits
Student Teaching

The University reserves the right to modify the required course of study.

General Information for the BSED/ECH

- First time attendees with the University who indicate less than 24 previous college credits (as recognized by the University) on the admission application and who meet the requirements for “Admitted with Condition” status, will be admitted with condition to this program according to the risk free period policy.
- Prior Learning Assessment and credits earned through National Testing Programs are excluded from the calculation of previous college credits.
- Applicants who disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway A. Applicants who do not disclose a previously completed associate degree or higher, or 48 or more completed credits from a college or university with approved institutional accreditation on their admission application will be placed in Pathway B.
- ACE recommended military credit will be calculated as part of the 48 or more completed credits for pathway placement.
- Students who are placed in Pathway A may choose to complete courses from Pathway B and will not be required to change pathways. Students who are placed in Pathway B must appeal to pursue Pathway A.

**Additional Admission Requirements for the BS/ED/ECH**

All applicants are expected to meet the following admissions requirements:
- A signed BS/ED/ECH New Student Checklist.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

**Additional Admission Requirements for Montana Residents with admission application or program change agreement signed 1/1/2020 or later**

Students residing in Montana must provide verification of the following:
- Completion of the online course, An Introduction to Indian Education for All in Montana

**Additional Admission Requirements for Oregon residents with an admission application or program change agreement signed 10/1/2021 or later**

Students residing in Oregon must provide a screen shot from the Oregon Teacher Standards and Practices Commission Public Educator search, confirming they have never held an Oregon Educator license.

**Candidacy Status for the BS/ED/ECH**

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.
- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 Required Course of Study (Core) credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student’s file and uploaded to the student’s official record. Credits applied through waiver are included for Candidacy Status Level 2 Review. Students who waive 9 or more credits in their required course of study will be eligible for a 3 credit extension to complete the requirements for Candidacy Status Level 2.
  - Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.

**Georgia residents seeking a Georgia certificate**:

Additional Candidacy Level II Requirements:
- Obtain a Georgia Pre-service Certificate. The steps to qualify for this certificate include:
  - Completion of GACE Educator Ethics Assessment
  - Signed Pre-service certification application
- Signed and notarized Verification of Lawful Presence (VLP) Affidavit
- Completed Background Check Form

Due to state requirements, Georgia candidacy level II requirements must be met prior to students posting attendance in their first credit bearing course in the required course of study.

**Mississippi residents with enrollment agreements signed 10/1/2022 or thereafter seeking a Mississippi certificate**:

- Obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

**Degree Completion Requirements for the BS/ED/ECH**

- Completion of a minimum of 120 credits that include the following distribution:
  - General Education: 57 credits
  - Required Course of Study: 60 credits
  - Electives: 3 credits
- A minimum of 48 upper division credits.
- A minimum grade point average (GPA) of 2.5.
- Satisfactory completion and uploading of the Teacher Work Sample (TWS) or teacher performance assessment (depending on state of residency).
- Satisfactory completion of any required student teaching and/or alternative clinical practice.
- Meet state requirements as set forth by state of residency to receive state endorsement.
- Completion of My Time Log (100 hours minimum or more as required by state of residency). To ensure student’s meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
- Georgia residents attending online and Local Campus students must complete:
  - GACE Educator Ethics Exit Exam (360)
  - The diploma awarded for this program will read as: Bachelor of Science in Education
  - Early Childhood Education
  - Students who have graduated from any BS Early Childhood Education program leading to initial teacher certification are not eligible for admission to any MAED/TED programs.

**Academic Progression Requirements for the BS/ED/ECH**

- Students placed in Pathway A or Pathway B are required to successfully complete GEN 201 prior to proceeding into additional coursework in their programs.
- Following GEN 201, Pathway B students must complete the requirements outlined in the Phoenix Success Series policy.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.
• Candidates must provide verification of content knowledge mastery prior to beginning student teaching. Candidates must provide:
  • Passing scores on the designated state content knowledge exam.
  • Verification of immunization or TB test results (district specific)
  • Verification of the completion of 100 hours of field experience (or more as required by state of residency).
  • Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

• State Specific Requirements: Students residing in the states below must complete additional coursework prior to starting student teaching.
  • Direct Licensure Applicants: Students in states that accept the Arizona program in order to directly apply for initial licensure in their home state:
    Montana Enrollment Agreements signed prior to 1/1/2020: Students residing in Montana must provide verification of the following:
      - Completion of the online course, An Introduction to Indian Education for All in Montana
    Wyoming: Students residing in Wyoming must provide verification of the following prior to the student teaching placement:
      - Completion of a Wyoming Constitution course or demonstration of knowledge by examination
    Reciprocity Licensure Applicants: Students who must obtain Arizona licensure first and then apply to their home state through reciprocity must complete:
      Missouri Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in Missouri must provide verification of the following:
        - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
      New Jersey Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in New Jersey must provide verification of the following:
        - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
      New Mexico Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in New Mexico must provide verification of the following:
        - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
      Puerto Rico: Students residing in Puerto Rico must provide verification of the following:
        - Completion of a Puerto Rico History course

Texas Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in Texas must provide verification of the following prior to the student teaching placement:
  - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam

South Dakota Residents with Enrollment Agreements signed prior to 7/1/2022: Students residing in South Dakota must provide verification of the following:
  - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam

Mississippi Residents with Enrollment Agreements signed prior to 10/1/2022: Mississippi residents seeking a Mississippi certificate must first obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

  • Students must complete all General Education requirements prior to completion of ECH 390.
  • Candidates will be required to have a 2.5 GPA for the program at the time they apply for the student teaching experience and prior to the approval of their student teaching experience.
  • Pennsylvania candidates with Enrollment Agreements signed 7/1/2017 or later are required to have a minimum cumulative 3.0 GPA at the time they apply for the student teaching experience and prior to the approval of their student teaching experience.
  • Guam candidates with Enrollment Agreements signed 7/1/2017 or later are required to have a minimum cumulative 2.7 GPA at the time they apply for the student teaching experience and prior to the approval of their student teaching experience.
  • Georgia candidates who complete ECH 302 (or equivalent) after 5/1/2019, must earn a B or better to receive credit for the course.
  • Georgia candidates who did not receive a C or better in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or student teaching: ECH 390, ECH 496, ECH 498, ECH 499, ECH 497.

Minimum Grade Requirements for the BSED/ECCH
• Candidates must earn a “B” or better in all student teaching courses in order to complete this program. Grades of “B-“ are not accepted. Students who fail to receive a minimum grade of “B” in any of the following courses will be
  Disqualified from the University and required to complete a remediation process prior to repeating the course and/or student teaching: ECH 390, ECH 496, ECH 498, ECH 499, ECH 497.
• Students who have been Scholastically Disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
• Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
• If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from the program.

**Residency Requirements and Course Waivers for the BSED/ECH**

Students must meet the established University residency requirement for degree conferral. The University requires that a minimum of 30 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 30 credits from their required course of study.

Upon the successful completion of the Child Development Associate (CDA), Florida Department of Education Early Childhood Professional Certificate (ECPC), or the Florida Child Care Professional Credential (FCCPC) candidates transferring to University of Phoenix may waive 21 credits using the following coursework in the BSED/ECH program:

- 3 credits in social studies
- 9 credits in additional liberal arts
- ECH 301: Foundations of Early Childhood (3 credits)
- ECH 205: Growth and Development (3 credits)
- ECH 321: Developmentally Effective Learning Environments (3 credits)

Candidates may waive SEI 300 and/or SEI 301 if they meet one of the following requirements:

- Completion of an Arizona Department of Education (ADE) approved SEI course(s) at an institution of higher education. Candidates who provide evidence of the completion of 3 credits of SEI coursework may waive SEI 300 with credit, and SEI 301 without credit. Candidates must complete RDG 350 (or equivalent) to make up the credit deficiency for SEI 301.

Candidates who provide evidence of 6 credits of SEI coursework may waive both SEI 300 and SEI 301 with credit.

- Completion of an Arizona Department of Education (ADE) approved district/individual trainer led workshop. Candidates who provide evidence of the completion of a state approved workshop that is 45 clock hours may waive SEI 300 with credit, and SEI 301 without credit. Candidates must complete RDG 350 (or equivalent) to make up the credit deficiency for SEI 301.

Candidates who provide evidence of the completion of a state approved workshop that is 90 clock hours may waive both SEI 300 and SEI 301 with credit.

- Verification of one of the following endorsements:
  - Arizona Full SEI Endorsement (SEI 300)
  - Arizona English as a Second Language Endorsement (SEI 300 and SEI 301)

Candidates who hold this endorsement may waive both SEI 300 and SEI 301 with credit.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, or that is a candidate for accreditation.

- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “C” (2.0) or better.

- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credit, up to thirty (30) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill Associate of Arts degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation with which the University of Phoenix has an approved articulation agreement.

- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.

- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

The following courses in the Required Course of Study may not be waived: ECH 211, ECH 300, ECH 302, ECH 321, ECH 390, ECH 416, ECH 496, ECH 498, ECH 499, ECH 497, RDG 416

**General Education Requirements for the BSED/ECH**

A minimum of 57 of the 120 credits must be in the general education areas approved by the University.

English/Language Arts Requirement(s) 12 credits
Pathway A must include: 3 credits of College Composition
Pathway B must include: 6 credits in college-level research and writing
Mathematics Requirement(s) 12 credits
6 credits must include MTH 213 and MTH 214
Must include 6 credits of quantitative reasoning or higher
Physical/Biological Science Requirement(s) 6 credits
Effective for Residents of New Jersey with Enrollment Agreements signed 1/1/2020 or later: 3 credits must include SCI 220T (or equivalent)
Social Studies Requirement(s) 9 credits
3 credits must include ETH 120
3 credits must include HIS 301
Student Teaching for the BSED/ECH

Student teaching is the culminating experience of the Bachelor of Science in Early Childhood program. Students must complete prerequisites leading up to Student Teaching prior to beginning the student teaching experience.

Effective for Residents of Arizona, Missouri, New Jersey, New Mexico, and Texas with Enrollment Agreements signed 7/1/2022 or later: 3 credits must include HIS 210 (or equivalent)

Effective for Residents of South Dakota with Enrollment Agreements signed 7/1/2022 or later: 3 credits must include HIS 210 (or equivalent)

Fine Arts Requirement(s) 6 credits
Art, music, drama or dance

Humanities Requirement(s) 3 credits
Pathway B must include: 3 credits in critical thinking

Additional Liberal Arts Requirement(s) 9 credits

With the exception of GEN 201, General Education and Elective courses may be satisfied using any of the following means:

- University of Phoenix coursework
- Activity that is acceptable in transfer to the University

Students who lack 67 or fewer general education credits may use interdisciplinary or elective credits to waive the balance. Students must use interdisciplinary or elective credits to waive the general education balance in order to complete the minimum general education credits required for their program.

All undergraduate students are required to complete the minimum general education credits required by their program version. Unless otherwise noted, no timeframe or minimum grade (other than a passing grade) is required when applying UOPX or transfer coursework to the mandatory General Education courses. Students may use a 2 semester credit Cultural Diversity course to satisfy the ETH 120 requirement, 2 semester credit Constitution course to satisfy the HIS 301 constitution requirement, 2 semester credit AZ Constitution course to satisfy the HIS 210 requirement, or a 2 semester credit Education Math course to satisfy the MTH 213 and MTH 214 requirements, but will be required to make up the credit with other Liberal Arts General Education credit to meet the minimum requirements.

Field Experience for BSED/ECH

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours (or more as required by state of residency) of verified field experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each field experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided field experience requirements. The guided field experience requirements will be satisfied through the completion of Guided Field Experience assignments in specific courses required by the candidate’s program. Documentation of field experience will be reviewed by university staff prior to student teaching. Candidates must follow necessary guidelines outlined in the program handbook to satisfy field experience requirements.

Student Teaching for the BSED/ECH

Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Student teaching is the culmination of the Bachelor of Science in Early Childhood program. Students must complete prerequisites leading up to Student Teaching prior to beginning the student teaching experience.

- Candidates must earn a “B” or better in Early Childhood Education Seminar. If a candidate receives less than a “B” (B- or lower, or “W”), the student will receive a grade of “F” for the course, they will be Scholastically Disqualified and they must repeat the course.

- Candidates must be enrolled in Early Childhood Student Teaching courses during their student teaching experience. Candidates who choose to postpone student teaching must postpone their enrollment in these courses.

- Student teaching can only be repeated one time.

- Removal from a placement at the request of an appointed administrator from the student teaching location or UOPX:
  - Student teachers who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their student teaching course or while transitioning between their student teaching courses, will result in candidates being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two student teaching attempts.
  - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.

- Student teachers who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their student teaching course, will be withdrawn from the student teaching course, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two student teaching attempts.
  - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.

- Unapproved self-terminations of student teaching:
  - Student teachers that execute an unapproved self-termination of student teaching, prior to starting and posting attendance in their student teaching course or while transitioning between their student teaching courses, will result in candidates being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two student teaching attempts.
  - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
• Candidates must student teach in a self-contained early childhood setting. Candidates may not student teach in special education.

Single Placement: One Student Teaching Placement (Minimum of 12 weeks, state specific)
• Candidates enrolled in the BSEd/ECH program taking the Arizona Preferred Course sequence shall complete a single student teaching placement for a minimum of twelve (12) weeks in a grade no lower than Kindergarten and within the grade span of the Early Childhood Education license being sought.

Even though the West Virginia license allows a K-4 grade span, West Virginia candidates shall complete clinical practice in a grade span of Kindergarten through third grade.

Prior to 09/01/2020, students taking the Arizona Preferred Course sequence were required to complete ECH 498 and ECH 499 student teaching courses. Students who completed ECH 498 prior to 01/01/2021 may complete ECH 499. Effective 01/01/2021, students taking the Arizona preferred course sequence shall take the ECH 496 student teaching course. ECH 498 and ECH 499 are the seminar courses corresponding with a dual placement and ECH 496 is the seminar course corresponding with a single placement.

• Candidates enrolled in the BSEd/ECH program who reside in edTPA consequential states (DE/NJ/TN/NC/UT/MD/IL) shall complete a single student teaching placement for a minimum of twelve (12) weeks in a grade no lower than Kindergarten and within the grade span of the Early Childhood Education license being sought.

Dual Placement: Two Separate Student Teaching Experiences for a Total of Twelve (12) Weeks
• Hawaii, Montana, North Dakota, Nevada, and South Dakota candidates will complete two separate student teaching experiences for a total of twelve (12) weeks. Student teaching must include a minimum of six (6) weeks in a teaching setting serving children birth through preschool/prekindergarten and a minimum of six (6) weeks in a teaching setting serving children in kindergarten through Grade 3. The birth through preschool/pre-kindergarten student teaching site must be licensed by the Department of Health Services or regulated by tribal or military authorities.

Students with enrollment agreements signed prior to 02/01/21 shall have the option to complete either one twelve-week student teaching placement in a grade no lower than Kindergarten, and within the grade span of the Early Childhood Education license being sought OR two separate student teaching placements (Birth-Pre-K & K-3) as long as they are continuously enrolled. Continuous enrollment for the purposes of this policy refers to students with a positive recorded attendance in a program applicable course within 365 days.

- **South Dakota**: Students must pursue licensure through reciprocity regardless of the placement option they complete.
- **North Dakota and Nevada**: Students who complete one twelve-week single student teaching placement must pursue licensure through Reciprocity.

For students with enrollment agreements signed on or after 04/01/21:
- **Hawaii and Montana**: Student shall complete one twelve-week single student teaching placement. Students can then pursue licensure through Direct Apply.
- **North Dakota, Nevada, and South Dakota**: Students shall complete one twelve-week single student teaching placement. Students shall pursue licensure through Reciprocity.

- Students should complete student teaching within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the student teaching courses).
- Students must complete a minimum of 8 credit hours of student teaching, including the completion of a Teacher Work Sample project, or teacher performance assessment (depending on state of residency).
- Student teaching cannot be waived unless a documented exception exists in program policy. SAC appeals to waive student teaching will not be accepted.
Out of State Student Teaching

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching online. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online Administrative Offices for a list of participating states and procedures for student teaching placement.

- Candidates must successfully pass the Early Childhood Seminar with a "B" or better.
- Candidates must enroll in the remaining Student Teaching courses online while completing their student teaching experience.
- Candidates need to work directly with the Online Administrative Offices to complete the requirements for verification of placement.

Re-entry for the BSED/ECH

- Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Missouri, Montana, New Jersey, New Mexico, Puerto Rico, South Dakota, Texas, and Wyoming residents: seeking to re-enter an Arizona-approved program who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the BSED/ECH

- Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR). Candidates may be required to list deficiencies or deny the request for an IR. Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

- Georgia candidates who completed ECH 302 (or equivalent) prior to 5/1/2019 will not be eligible for an Institutional Recommendation (IR) unless they received a C or better in the course. Students must retake ECH 302 with a grade of B or better to be eligible for the IR.

Arizona Teaching Intern Certificate Route

The student teaching intern certificate is optional and is not a requirement for participation in clinical practice (student teaching). The certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate.

The requirements are:
- Verification of all program academic progression requirements
- Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number
- Enrollment in the clinical practice course
- Completed coursework with a minimum GPA of 3.0
- Passing score on the professional knowledge portion of the Arizona Teacher Proficiency Assessment that corresponds to the teaching certificate the teacher candidate is pursuing
- A request for issuance of the student teaching intern certificate from the district superintendent or charter school superintendent and the EPP
- University written supervision plan

Placement decisions of student teaching intern certificate holders shall only be based on collaborative agreements between the Arizona Department of Education and the Local Education Agency. A student teaching intern certificate holder may not teach in a special education classroom unless the certificate holder has a bachelor’s degree.

Bachelor of Science in Education/Educational Studies

The following Bachelor of Science in Education/Educational Studies (BSED/ES) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Education/Educational Studies (BSED/ES) degree is a non-teaching degree designed to facilitate the development of professional knowledge, skills and understanding of the teaching and learning process. The program provides students with information across a variety of education topics with an emphasis in the field of education.

**Note: This program is not eligible for Federal Student Financial Aid funds.**
Program Purpose

The Bachelor of Science in Education/Educational Studies is an undergraduate degree program intended for students who have completed all coursework from a UOPX initial licensure program with the exception of both student teaching courses. The program does not prepare students for any type of professional certification or state licensure as a teacher. It is only intended as a degree completion option.

BS/ED/ES Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Students must choose 3 courses from the following list:

- AET 500 Foundations of Adult Learning Theory .......................... 3 credits
- AET 508 Community-Based Education ................................. 3 credits
- AET 552 Marketing Adult Education ................................. 3 credits
- AET 560 Facilitating Change ........................................... 3 credits
- AET 562 Social Media for Professional Learning ............................ 3 credits

The University reserves the right to modify the required course of Study.

Additional Admission Requirements for the BS/ED/ES

Applicants are expected to meet all admissions requirements:

- Applicants enrolling in this program must have been admitted and officially evaluated into their UOPX previous pre-licensure program.
- All versions of the following University of Phoenix previous pre-licensure programs are eligible for admission to the BS/ED/ES:
  - BS/ED/E
  - BS/ED/E-MTH
  - BS/ED/E-SOC
  - BS/ED/E-SCI
  - BS/ED/E-ELA
  - BS/ED/E-SCI
  - BS/SL
- Applicants to this program must have completed all coursework from their University of Phoenix previous pre-licensure program with the exception of both Student Teaching courses.
- Students will be eligible for admission to the BS/ED/ES program provided that the Enrollment Agreement sign date for the previous pre-licensure program is no more than nine and a half (9.5) years in the past. Applicants must be able to complete all requirements of the degree within 10 years of the Enrollment Agreement sign date of the previous pre-licensure program.

Degree Completion Requirements for the BS/ED/ES

- Completion of a minimum of 121 credits:
  - Previous Pre-licensure BS/ED or BSLS Credits: 112 credits
  - Educational Studies Electives: 9 credits
- Students in this program may be required to complete up to 130 credits depending on the credits that were required for the previous pre-licensure program.
- Completion of three (3) BS/ED/ES Elective courses in addition to all completed coursework from the previous pre-licensure program, with the exception of student teaching.
- A minimum grade point average (GPA) of 2.5.
- BS/ED/ES graduates will not be permitted to return to complete student teaching and receive a degree in any previous pre-licensure program at the University. In addition students will not be permitted to enter a new Bachelor or Master level pre-licensure program.
- The diploma awarded for this program will read as: Bachelor of Science in Education Educational Studies

Residency Requirements and Course Waivers for the BS/ED/ES

Students must meet the established University residency requirement for degree conferral. The University requires that all nine (9) elective credits must be completed at University of Phoenix in order to meet residency.

Re-entry for the BS/ED/ES

- Students who have been out of attendance for more than one year must complete an Enrollment Agreement for the BS/ED/ES program and will be eligible for re-entry into the program provided that they are able to complete all requirements of the degree within 10 years of the Enrollment Agreement sign date of the previous pre-licensure program.
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.

No appeals will be accepted for re-entry into an expired program.

Any students in College of Education, College of Nursing, or College of Social and Behavioral Sciences programs that either lead to professional licensure or certification, or that require a license, credential, or certification for admission are exempt from this general re-entry policy. Re-entry students who wish to re-enter these programs should review their specific program's re-entry policies and consult the appropriate University representative for guidance.

GRADUATE PROGRAMS

Admission Procedures

Application Process
Students seeking admission to the University’s graduate programs in business, management, information systems, nursing, counseling, or education begin the admission process by submitting a complete and accurate application. An application which is later verified to contain incomplete, false or misleading information may be grounds for dismissal and administrative withdrawal. Once the application has been received by the University, applicants are responsible for ensuring the completion of their admission file. No applicant will be formally accepted for admission until their admission file is complete and officially evaluated. Formal written notice is provided by the central Office of Admissions & Evaluation upon formal acceptance.

The University will advise students which admission file documents are required in order to begin a program of study. Students may attend their first four courses under Applicant status. Students, however, must submit all admission documentation and gain unconditional admission status prior to the start of their fifth course. Students failing to submit all documentation prior to the end of the required time frame will be administratively withdrawn until formally admitted by the central Office of Admissions & Evaluation.

Applications of individuals who have not gained admission or enrolled in the University will be kept on file for one year. After that time, the applicant is required to submit a new application and material. A second application fee (if applicable) is not required.

Transcript Requests of Other Institutions
Because institutions vary in the time they take to respond to transcript requests, all transcripts should be requested immediately upon submission of an application and application fee (if applicable). University staff will process all requests for transcripts on behalf of the student unless the transferring institution does not accept third party requests. However, it remains the student’s responsibility to ensure that all transcripts are submitted to the University. The student must sign a “Transcript Request Form” for each transcript being requested from educational institutions. The University’s application fee (if applicable) covers the student’s expense for requesting official transcripts.

Graduate Admission Requirements

For graduate education and doctoral admission requirements please refer to the education and doctoral section(s) of the catalog. Most graduate programs have additional admission requirements listed within the program specific information. All applicants are expected to meet the following admission requirements:

- Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet one of the following exceptions in order to meet the English Language Proficiency Requirement:
  - Achieved a minimum score of 213 on the computer-based test (cBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
  -or-
  - Achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
  -or-
  - Achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.
  -or-
  - Achieved a minimum passing score of 69 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam (prior to 02/01/2012) within two years of application to the University.
  -or-
  - Successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
  -or-
  - Achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.
  -or-
  - Achieved a minimum passing score of 100 on the Duolingo English Test within two years of application to the University.
  -or-
  - Achieved a minimum passing score of 170 on any one of the five acceptable Cambridge English Qualifications and Tests (no time frame required).
Applicants who have been expelled from other institutions are not eligible for readmission to University of Phoenix. No appeals will be accepted.

Students may not receive a graduate degree and a graduate-level certificate in the same area of focus.

Applicants who have been granted permanent residency must have attended school at a campus in this state who were born after December 31, 1956, be immunized for measles-mumps-rubella (MMR). Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of MMR. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

For enrollments effective on or after July 1, 2020. Varicella: The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1979, be immunized for Varicella (Chickenpox). Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of Varicella. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

As an exception, a signed, documented diagnosis or verification of a history of varicella disease or herpes zoster by a practitioner may be substituted for a record of varicella vaccination.

Exemptions from the MMR, Varicella, and Tdap immunization requirements may be granted for the following reasons:

- A medical exemption may be granted to specific vaccines.
  - A US licensed physician (M.D. or D.O.) must state in writing that giving a specific vaccine would endanger the student's life or health, and specify the reason based on valid medical contraindications.
  - The physician must state the length of time during which the vaccine would endanger the student's health or life.
  - The exemption certification must be signed by the physician.
A religious exemption may be granted if the student signs a statement certifying that the student's religious beliefs prohibit the practice of immunization. Requests for religious exemptions based on exemptions to specific immunizing agents will not be granted.

If the State of Hawaii Director of Health determines that there is a danger of an outbreak from any of the diseases for which immunization is required, no exemption shall be recognized and inadequately immunized students shall be excluded from school until the Director has determined that the outbreak is over.

A copy of each exemption must be kept in the student's health record at school.

The Hawaii State Department of Health requires that all students attending school at a campus in Hawaii must present a TB Clearance obtained within 12 months prior to their first attendance in a post-secondary school in Hawaii or a TB Clearance obtained after age sixteen. A TB Clearance must be submitted with the Hawaii TB Clearance form prior to the first night of class or the student will not be permitted to attend class. Students may submit a copy of their TB Clearance received prior to their attendance at another Hawaii post-secondary school.

**Program Length**

The anticipated "normal time" to complete a master level program is as follows: Education - 71 to 94 weeks, Health Professions (single degree) - 84 to 102 weeks, Health Professions (Competency Based) - 48 weeks, Health Professions (dual degree) - 117 to 147 weeks, Nursing (single degree) - 87 to 100 weeks, Nursing (MSN/FNP) - 165 weeks, Nursing (dual degree) - 109 weeks, Social and Behavioral Sciences (Criminal Justice, Psychology, Public Administration) - 72 to 108 weeks, Social and Behavioral Sciences (Counseling) - 126 to 173 weeks, Business and Information Technology - 72 to 102 weeks, Business and Information Technology (Competency Based) - 48 weeks. The ranges provided above account for possible concentrations and/or bridge versions available within the chosen degree program. The term "normal time" means the length of time it would take a student to complete this program if the student is continuously enrolled, takes a full course load successfully completes each attempted course and does not have any transfer credits. Students may exceed or complete prior to the anticipated "normal time" for a variety of reasons that are individual to the student.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
The College of Social and Behavioral Sciences offers undergraduate and graduate degree programs in a number of diverse academic areas including counseling, psychology, social work, criminal justice and security, and public administration. The College provides innovative, relevant, and student-focused educational programs designed to prepare students for opportunities of service and leadership in the fields of social and behavioral sciences. These programs are developed and taught by highly skilled practitioners in their respective fields who emphasize knowledge, skills, dispositions, and lifelong learning as essential elements for professional practice. Through individual and collaborative work in theory and practice, students can acquire the knowledge and skills needed for today's work environment.

**Master of Science in Counseling Clinical Mental Health Counseling**

The following Master of Science in Counseling Clinical Mental Health Counseling (MSC/CCMH) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Counseling Clinical Mental Health Counseling is a 60-63 credit program that prepares graduates to work as practitioners with diverse clients in various mental health environments, including private practice, hospitals, and public and private mental health agencies. Students learn the foundations of counseling including theories and their application with groups and individuals; assessment and evaluation; counseling and consultative relationships; career planning; research methods; legal and ethical concerns, trauma and crisis, and program development, implementation, and evaluation. The program addresses critical issues facing clinical mental health counselors and includes supervised practicum and internship experiences where students obtain practical experience prior to graduation. Students in the program must pass the Counselor Preparation Comprehensive Examination (CPCE) as part of the graduation requirements.

**Program Purpose**

The Master of Science in Counseling/Clinical Mental Health Counseling program prepares students for licensure as a professional counselor in jurisdictions where it is offered. In order to practice as a counselor in most states, the student must be licensed as an LPC (licensed professional counselor), MFT (marriage and family therapist), or other comparable state professional license designation. License requirements vary by state. Students should ensure they stay updated on the licensure requirements in any state in which the student desires to practice. Review state licensure requirements at www.phoenix.edu/state-licensure-requirements/ ccmh

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will develop a professional identity as an advocate and steward for the counseling profession.
- Social and Cultural Diversity: Students will integrate social and cultural diversity competencies into their practice as a professional counselor.
- Human and Growth Development: Students will integrate human growth and development theories and principles into their counseling practices.
- Career Development: Students will integrate career development theories and principles into their counseling practices.
- Counseling and Helping Relationships: Students will integrate counseling theories, models, and techniques into their counseling practices.
- Group Counseling and Group Work: Students will integrate group counseling theories and practices into their counseling practices.
- Assessment and Testing: Students will execute counseling assessment and testing processes and procedures to guide their practice as a clinical mental health counselor.
- Research and Program Evaluation: Students will evaluate research and programs to inform counseling practice

Additional Admission Requirements for the MSC/CCMH
All applicants are expected to meet the following admissions requirements:
- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e., JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- A signed Criminal Conviction Disclosure Form.
- A signed Professional Counseling Non-Academic Requirement Addendum Form.
- Successful completion of CCMH 502, Graduate Portfolio. If the student is denied admission because of the unacceptable grade, the student may retake CCMH 502 in 30 days. A student failing CCMH 502 on the second attempt, must wait 6 months before the next re-attempt. Students will be required to follow the Supplemental Standards referral process before any re-attempts. Passing CCMH 502 is limited to a total of three attempts. If the student does not meet the minimum grade requirement on the third attempt, the student will be denied admission, and administratively withdrawn from this program.

Degree Requirements for the MSC/CCMH
- Completion of a minimum of 60 credits
- Required Course of Study: 60 credits
- A minimum program grade point average (GPA) of 3.0.
- Students are required to complete and to score at or above the minimum criterion for the Counselor Preparation Comprehensive Exam (CPCE) or another assessment/examination instrument as authorized by the Dean of the College. Successful completion of the capstone assessment is a degree completion and graduation requirement. Capstone examinations may not be scheduled before completion of core curriculum requirements. The University provides students with the opportunity to take the exam three times at no cost. Additional attempts to pass the exam are the student’s financial responsibility.
- This program requires a score at or above the minimum criterion on a capstone examination.
- Completion of Internship (600 hours) and Practicum (100 hours).
- The diploma awarded for this program will read as: Master of Science in Counseling Clinical Mental Health Counseling

Academic Progression Requirements for the MSC/CCMH
- Residency courses contain multiple requirements for academic progression therefore, sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Residency courses are: CNSL 503R, CNSL 513R, CNSL 523R.
- Clinical Practice courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Clinical Practice courses are: CCMH 592, CCMH 597A, CCMH 597B.
- Completion of all courses with a grade of “B-” or better. Students must maintain an overall GPA of at least 3.0.

Academic Standing and Minimum Grade Requirements for the MSC/CCMH
- Students in this program may not attend any further courses after being assigned a grade of incomplete in CNSL 503R, CCMH 535, CCMH 544, CCMH 548, CNSL 513R, CCMH 568, CNSL 523R, and CCMH 592.
- All MSC courses, except for courses that are outlined in the syllabus as Pass/Fail, must be completed with a grade of “B-” or better. MSC students will be placed on Scholastic Disqualification if a minimum grade of “B-” is not attained. If a student repeats a course due to receiving a grade that is less than a “B-” and does not receive a grade of “B-” or better the second time, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
Students must successfully complete CNSL 503R Graduate Portfolio Residency I in order to continue in this program. Students who don't successfully complete CNSL 503R may not enroll in any subsequent coursework until the course has been successfully completed. Students who fail CNSL 503R may repeat the course after three (3) months and will be required to follow the Supplemental Standards referral process. If the student does not meet the minimum grade requirement on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program.

Students who fail to meet the minimum grade requirement for CNSL 513R, CNSL 523R, CCMH 592, CCMH 597A, and CCMH 597B will be required to follow the Supplemental Standards referral process. The Residencies and Clinical Placements are key components of the MSC/CCMH program and failure to meet the minimum grade requirement will require a robust remediation plan with input from a college designee.

Students in the College of Social and Behavioral Sciences graduate programs may not transfer credit to the University from courses taken from other schools while academically or scholastically disqualified.

Residency Requirements and Course Waivers for the MSC/CCMH

Students in this program may waive a maximum of 9 credits from their required course of study. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSOC, or WSCUC accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B-" or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- The following courses in the Required Course of Study may not be waived: CCMH 544, CCMH 548, CCMH 592, CCMH 597A, CCMH 597B, CNSL 503R, CNSL 513R, and CNSL 523R

Re-entry for the MSC/CCMH

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student. Re-entry students must retake the portfolio course if they never completed a residency course; otherwise, they will be required to retake the most recently graded residency course. Re-entry students who must retake the portfolio course must pass it before being re-admitted to the program. Re-entry students who must retake a residency course will be re-admitted to the program prior to scheduling the course.

Students seeking re-entry into the program are required to submit an appeal to the Student Appeals Center (SAC).

If students retake CCMH 502 Graduate Portfolio and they do not pass the course, they will be denied admission and may retake CCMH 502 in three (3) months as long as they would not exceed three total attempts to complete the course. Students will be required to follow the Supplemental Standards referral process before any re-attempts. Passing Graduate Portfolio is limited to a total of three attempts, which includes the attempts prior to their original admission to the program. If the student does not meet the minimum grade requirement on the third attempt, the student will be denied admission, and administratively withdrawn from this program.

No appeals will be accepted for re-entry to an expired program.
Master of Science in Counseling Clinical Mental Health Counseling (California)

The following Master of Science in Counseling Clinical Mental Health Counseling (MSC/CCMH) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Counseling Clinical Mental Health Counseling is a 60-63 credit program that prepares graduates to work as practitioners with diverse clients in various mental health environments, including private practice, hospitals, and public and private mental health agencies. Students learn the foundations of counseling including theories and their application with groups and individuals; assessment and evaluation; counseling and consultative relationships; career planning; research methods; legal and ethical concerns, trauma and crisis, and program development, implementation, and evaluation. The program addresses critical issues facing clinical mental health counselors and includes supervised practicum and internship experiences where students obtain practical experience prior to graduation. Students in the program must pass the Counselor Preparation Comprehensive Examination (CPCE) as part of the graduation requirements.

Program Purpose
The Master of Science in Counseling/Clinical Mental Health Counseling program meets the California Licensed Professional Clinical Counselor (LPCC) educational requirements for registration with the Board of Behavioral Sciences (BBS) as an Associate Professional Clinical Counselor (APCC). Upon successful completion of all educational requirements and required postgraduate supervised clinical hours, graduates are eligible to sit for LPCC licensure exam in California. Students should ensure they stay updated on the licensure requirements in any state in which the student desires to practice. Review state licensure requirements at www.phoenix.edu/state-licensure-requirements/ccc

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will develop a professional identity as an advocate and steward for the counseling profession.
- Social and Cultural Diversity: Students will integrate social and cultural diversity competencies into their practice as a professional counselor.
- Human and Growth Development: Students will integrate human growth and development theories and principles into their counseling practices.
- Career Development: Students will integrate career development theories and principles into their counseling practices.
- Counseling and Helping Relationships: Students will integrate counseling theories, models, and techniques into their counseling practices.
- Group Counseling and Group Work: Students will integrate group counseling theories and practices into their counseling practices.
- Assessment and Testing: Students will execute counseling assessment and testing processes and procedures to guide their practice as a clinical mental health counselor.
- Research and Program Evaluation: Students will evaluate research and programs to inform counseling practice.

Additional Admission Requirements for the MSC/CCMH

All applicants are expected to meet the following admissions requirements:

• An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

• A signed Criminal Conviction Disclosure Form.

• A signed Professional Counseling Non-Academic Requirement Addendum Form

• Successful completion of CCMH 502, Graduate Portfolio. If the student is denied admission because of the unacceptable grade, the student may retake CCMH 502 in 30 days. A student failing CCMH 502 on the second attempt, must wait 6 months before the next re-attempt. Students will be required to follow the Supplemental Standards referral process before any re-attempts. Passing CCMH 502 is limited to a total of three attempts. If the student does not meet the minimum grade requirement on the third attempt, the student will be denied admission, and administratively withdrawn from this program.

Degree Requirements for the MSC/CCMH

• Completion of a minimum of 60 credits:
  • Required Course of Study: 60 credits
  • A minimum program grade point average (GPA) of 3.0.
  • Students are required to complete and to score at or above the minimum criterion for the Counselor Preparation Comprehensive Exam (CPCE) or another assessment/examination instrument as authorized by the Dean of the College. Successful completion of the capstone assessment is a degree completion and graduation requirement. Capstone examinations may not be scheduled before completion of core curriculum requirements. The University provides students with the opportunity to take the exam three times at no cost. Additional attempts to pass the exam are the student’s financial responsibility.
  • This program requires a score at or above the minimum criterion on a capstone examination.
  • Completion of Internship (600 hours) and Practicum (100 hours).
  • The diploma awarded for this program will read as: Master of Science in Counseling Clinical Mental Health Counseling

Academic Progression Requirements for the MSC/CCMH

• Residency courses contain multiple requirements for academic progression therefore, sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Residency courses are: CNSL 503R, CNSL 513R, CNSL 523R
  • Clinical Practice courses contain multiple requirements for academic progression; therefore sufficient time is needed for faculty to conduct a thorough assessment of student coursework. Clinical Practice courses are: CCMH 592, CCMH 597A, CCMH 597B
  • Completion of all courses with a grade of “B-” or better. Students must maintain an overall GPA of at least 3.0.
Academic Standing and Minimum Grade Requirements for the MSC/CCMH

- Students in this program may not attend any further courses after being assigned a grade of incomplete in CNSL 503R, CCMH 535, CCMH 544, CCMH 548, CNSL 513R, CCMH 568, CNSL 523R, and CCMH 592.
- All MSC courses, except for courses that are outlined in the syllabus as Pass/Fail, must be completed with a grade of “B-” or better. MSC students will be placed on Scholastic Disqualification if a minimum grade of “B-” is not attained. If a student repeats a course due to receiving a grade that is less than a “B-” and does not receive a grade of “B-” or better the second time, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
- Students must successfully complete CNSL 503R Graduate Portfolio Residency I in order to continue in this program. Students who don’t successfully complete CNSL 503R may not enroll in any subsequent coursework until the course has been successfully completed. Students who fail CNSL 503R may repeat the course after three (3) months and will be required to follow the Supplemental Standards referral process. If the student does not meet the minimum grade requirement on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students who fail to meet the minimum grade requirement for CNSL 513R, CNSL 523R, CCMH 592, CCMH 597A, CCMH 597B, and CCMH 597C will be required to follow the Supplemental Standards referral process. The Residencies and Clinical Placements are key components of the MSC/CCMH program and failure to meet the minimum grade requirement will require a robust remediation plan with input from a college designee.
- Students in the College of Social and Behavioral Sciences graduate programs may not transfer credit to the University from courses taken from other schools while academically or scholastically disqualified.

Residency Requirements and Course Waivers for the MSC/CCMH

- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B-” or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Students seeking re-entry into the program are required to submit an appeal to the Student Appeals Center (SAC).
- If students retake CCMH 502 Graduate Portfolio and they do not pass the course, they will be denied admission and may retake CCMH 502 in three (3) months as long as they would not exceed three total attempts to complete the course. Students will be required to follow the Supplemental Standards referral process before any re-attempts. Passing Graduate Portfolio is limited to a total of three attempts, which includes the attempts prior to their original admission to the program. If the student does not meet the minimum grade requirement on the third attempt, the student will be denied admission, and administratively withdrawn from this program.
- If students are required to retake a residency course, they must receive a grade of “B-“ or better in order to continue in the program. Students will be placed in Scholastic Disqualification student academic status if a minimum grade of “B-“ is not attained. Students who receive an Incomplete (I) grade may not enroll in any other coursework until the minimum grade requirement has been met. Students who fail the residency course may repeat the course after three (3) months and will be required to follow the Supplemental Standards referral process. If the student does not meet the minimum grade requirement on the second attempt, the student will be scholastically suspended, and permanently withdrawn from this program.
- No appeals will be accepted for re-entry to an expired program.
Master of Science in Counseling/Marriage, Family and Child Therapy

The following Master of Science in Counseling/Marriage, Family and Child Therapy (MSC/MFCT) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Counseling degree program with a specialization in Marriage, Family, and Child Therapy provides the required knowledge and skills for students to become competent and ethical practitioners. The MSC/MFCT specialization provides an understanding of marriage and family therapy in recovery-oriented care to the community. Students are involved in a variety of educational and clinical activities that prepare them to help their clients achieve their goals. The program prepares graduates to work as practitioners with diverse clients in various clinical environments, including private practice, hospitals, schools, non-profit, public, and private mental health agencies. Students learn the foundations of counseling including theories and their application with individuals, children, families, couples, and groups; assessment and evaluation; counseling and consultative relationships; career planning; research methods; legal and ethical concerns, trauma and crisis, and program development, implementation, and evaluation. In addition, the specialization covers cultural competency and sensitivity, including a familiarity with the racial, cultural, linguistic, and ethnic backgrounds of persons living in California. View state licensure requirements for this program: www.phoenix.edu/state-licensure-requirements/mfct

Program Purpose

The Master of Science in Counseling/Marriage, Family and Child Therapy program prepares students for licensure as a Marriage and Family Therapist in jurisdictions where it is offered. In order to practice as a counselor in most states, the student must be licensed as a MFT (marriage and family therapist), LPC (licensed professional counselor), or other comparable state professional license designation. License requirements vary by state. Students should ensure they stay updated on the licensure requirements in any state in which the student desires to practice. Review state licensure requirements.

California students: The Master of Science in Counseling/Marriage, Family and Child Therapy degree program meets the California Licensed Marriage and Family Therapist (LMFT) and Licensed Professional Clinical Counselor (LPCC) educational requirements for registration with the Board of Behavioral Sciences (BBS) as an Associate Marriage and Family Therapist (AMFT) and an Associate Professional Clinical Counselor (APCC). Upon successful completion of all educational requirements and required postgraduate supervised clinical hours, graduates are eligible to sit for the LMFT and LPCC licensure exams in California. Review state licensure requirements (CA specific). Review state licensure requirements at www.phoenix.edu/state-licensure-requirements/mfct

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Develop a professional identity as an advocate and steward for recovery-oriented care in the marriage and family therapy and clinical counseling professions.
- Integrate social and cultural diversity competencies in professional practice.
- Integrate human growth and development theories and principles in clinical practice.
- Integrate career development theories and principles in clinical practice.
- Integrate counseling theories, models, and techniques in clinical practice.
- Integrate group counseling theories and methods in clinical practice.
- Execute assessment and testing processes and procedures to guide clinical practice.
- Evaluate research and programs to inform professional practice.
- Integrate theories, principles, and methods of marital and family systems approaches in clinical practice.

Students who don't successfully complete MFCC 503 and MFCC 505 may not enroll in any subsequent coursework until the course has been successfully completed. Students who fail MFCC 503 and MFCC 505 may repeat the course after three (3) months and will be required to follow the Supplemental Standards referral process. Students will have 3 attempts. If the student does not meet the minimum grade requirement on the third attempt, the student will be scholastically suspended, permanently withdrawn, from this program.
- Students who fail to meet the minimum grade requirement for MFCC 503, MFCC 505, MFCC 592, MFCC 597A, and MFCC 597B will be required to follow the Supplemental Standards referral process. Portfolio courses and Clinical Placements are key components of the MSC/MFCT program and failure to meet the minimum grade requirement will require a robust remediation plan with input from a college designee.
- Students in the College of Social and Behavioral Sciences graduate programs may not transfer credit to the University from courses taken from other schools while academically or scholastically disqualified.

Residency Requirements and Course Waivers for the MSC/MFCT
- Students in this program may waive a maximum of 9 credits from their required course of study.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation, or that is a candidate for accreditation.
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- The following courses in the Required Course of Study may not be waived: MFCC 503, MFCC 505, MFCC 510CA, MFCC 553CA, MFCC 592, MFCC 597A, MFCC 597B

Re-entry for the MSC/MFCT
- All students who have been out of attendance for one (1) year or more in a counseling program must retake and pass the most recently graded Portfolio class before being readmitted to the program.
- If students are required to retake MFCC/502 Graduate Portfolio I and they do not pass the course, they will be denied admission and may retake MFCC/502 in three (3) months as long as they would not exceed three total attempts to complete the course. Students will be required to follow the Supplemental Standards referral process before any re-attempts. Passing Graduate Portfolio I is limited to a total of three attempts, which includes the attempts prior to their original admission to the program. If the student does not meet the minimum grade requirement on the third attempt, the student will be denied admission, and administratively withdrawn from this program.
- If students are required to retake a portfolio course, they must receive a passing grade in order to continue in the program. Students will be placed in Scholastic Disqualification student academic status if a passing grade is not attained. Students who receive an Incomplete (I) grade may not enroll in any other coursework until the minimum grade requirement has been met. Students who fail the portfolio course may repeat the course after three (3) months and will be required to follow the Supplemental Standards referral process. If the student does not meet the minimum grade requirement on the third attempt, the student will be denied admissions, and administratively withdrawn from this program.
- No appeals will be accepted for re-entry to an expired program.

Master of Science in Psychology

The following Master of Science in Psychology (MSP) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Psychology program focuses on the general rather than clinical psychological study of individuals, applied to various industries and settings such as business, government services, social services, and education. The program will provide individuals with an understanding of the cognitive and affective processes that underlie the individual human experience and behavior; research methodologies by which this knowledge is acquired; critical thinking and problem solving necessary to evaluate behavior; and the application of theoretical principles.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
- Integrate psychological principles and practice in the context of human interactions.
- Assess the implications of psychological research on the human experience.
- Evaluate professional considerations related to ethics and diversity.
- Synthesize appropriate tactics for personal and professional communication in psychology.

Program Purpose
The Master of Science in Psychology is an educational degree program that provides a foundation of knowledge in the field of psychology. This program does not prepare students for any type of professional certification or licensure as a psychologist.
Preferred Sequence and Prerequisites for the MSP
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Specialty Areas in Applied Psychology

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSP
All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e., JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- No work experience is required for this program.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admmissibility.

Degree Requirements for the MSP

- Completion of a minimum of 36 graduate credits:
  - Required Course of Study: 36 credits
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Science in Psychology

Residency Requirements and Course Waivers for the MSP
Completion of a minimum of 27 credits of the required course of study to meet University residency requirements. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past ten (10) years for IS&T courses from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 9 credits from their required course of study.

The following course(s) may not be waived: PSYCH 599, PSYCH 694

Re-entry for the MSP

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry into an expired program.
The Master of Science in Industrial-Organizational Psychology (MSIOP) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Industrial-Organizational Psychology is designed for professionals who seek to broaden their knowledge and apply the principles of industrial-organizational (I-O) psychology in business and organizational settings. The program will provide individuals with an understanding of personnel psychology, work force performance, motivation, assessment, and feedback. Additionally, the program focuses on organizational development, leadership, and management through incorporation of ethical and professional standards in I-O psychology.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:

- Integrate Industrial/Organizational psychological principles in human work performance and interactions.
- Evaluate the implications of psychological research on the human experience.
- Evaluate considerations related to ethics and diversity.
- Synthesize appropriate personal and professional communication in psychology.

Program Purpose

The Master of Science in Industrial-Organizational (I-O) Psychology is an educational degree program that provides a foundation of knowledge in the field of I-O Psychology. This program does not prepare students for any type of professional certification or licensure as a psychologist.

Preferred Sequence and Prerequisites for the MSIOP

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Degree Requirements for the MSIOP

A minimum of 36 graduate credits:
- Required Course of Study: 36 credits
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Science in Industrial-Organizational Psychology.

Residency Requirements and Course Waivers for the MSIOP

Completion of a minimum of 27 credits of the required course of study to meet University residency requirements. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 9 credits from their required course of study.

The following course(s) may not be waived: PSYCH 599, PSYCH 678

Re-entry for the MSIOP

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.

• Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

• Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.

• Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

• No appeals will be accepted for re-entry into an expired program.

• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enter a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Master of Science/Administration of Justice and Security

The following Master of Science/Administration of Justice and Security (MS/AJS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The mission of the Master of Science/Administration of Justice and Security program is to provide students with administrative skills required in both public (criminal justice) and private (security) sectors. While distinctions between the roles of justice and security organizations are understood, the degree emphasizes an understanding of administrative responsibilities common to both disciplines. The program focuses on public policy, strategic planning, risk management, and ethical decision making in the criminal justice and security professions. The degree provides students with problem-solving skills that blend industry theory with practical application of best practices.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:

• Assess administration and management strategies of criminal justice and security.
• Evaluate industry related problem-solving strategies.
• Evaluate strategic operational planning methodologies.
• Critique industry related data.
• Evaluate the impact of diversity within communities, agencies, and organizations.

Program Purpose

The University’s Criminal Justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal, tribal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a Criminal Justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.
MS/AJS Preferred Sequence and Prerequisites

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

AJS 503 ~ .................................................................................. 1 credit
Intro to Graduate Study in Criminal Justice and Security

Legal Issues in Justice and Security
AJS 587 ~ .................................................................................. 3 credits
Contemporary Issues in Investigative Methodologies
AJS 590 ~ .................................................................................. 3 credits
Public Policy and Civil Rights
AJS 594 ~ .................................................................................. 3 credits
Program Development and Evaluation

The University reserves the right to modify the required course of study. The University's security and criminal justice programs are educational degree programs. For those interested in pursuing a career in law enforcement, corrections or as a peace officer with any particular local, state, federal, tribal or international agency, there are numerous additional qualifications (and often disqualifications) depending on the position. Before enrolling in a security and criminal justice program, potential students are highly encouraged to check with the relevant agency for a complete list of position requirements. The University makes no representations regarding whether any particular University program will qualify a graduate for any such position.

Additional Admission Requirements for the MS/AJS

All applicants are expected to meet the following admission requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admittance.
- Signed Acknowledgement Form

Degree Requirements for the MS/AJS

- The completion of a minimum of 37 credits:
  - Required Course of Study: 37 credits
  - A minimum program grade point average (GPA) of 3.0.
  - The diploma awarded for this program will read as: Master of Science
  - Administration of Justice and Security

Residency Requirements and Course Waivers for the MS/AJS

- Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 28 credits in the Required Course of Study, must be completed at UOPX.
- Students in this program may waive a maximum of 9 credits from their required course of study.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
  - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- The following course(s) may not be waived: AJS 594
Re-entry for the MS/AJS

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry into an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enter a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Master of Public Administration

The following Master of Public Administration (MPA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The purpose of the Master of Public Administration (MPA) program is to develop individuals with leadership opportunities within the public sector, and nonprofit entities. This program focuses on serving the community within the realm of social, economic, regulatory, political, and cultural environments, that impact diverse public service organizations, programs, and processes. Learners will gain advanced knowledge and skills in operational and ethical principles and values for public service. The Master of Public Administration program curriculum is based on the current accreditation standards set forth by the National Association of Schools of Public Affairs and Administration (NASPAA).

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate leadership and management skills in context of public service organizations.
- Integrate public administration principles in the policy process.
- Analyze problem-solving approaches to public administration issues.
- Analyze public service perspectives in fiduciary public administration environments.
- Apply strategies for communicating with diverse and changing populations in public administration.

The following Master of Business Administration (MBA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Business Administration (MBA) program prepares students in the functional areas of business allowing them to develop managerial skills necessary to be effective in a rapidly changing business environment. The program is designed for students with an interest in entering or advancing their careers in business. The program reflects current research of leadership competencies as well as graduate business standards as reflected by existing international accreditation agencies. In addition to the University learning goals, the MBA program prepares students to do the following:

- Recognize and solve problems systematically to make better business decisions.
- Manage, develop, and motivate personnel to meet changing organizational needs. Discover how diversity and values strengthen working relationships and contribute to effective problem solving.
- Leverage technology in a global environment to create sustainable competitive advantage.
- Evaluate risks and develop plans to lessen or eliminate their impact.
- Develop awareness of one’s own personal values and how they affect business decision making.
- Assess whether an organization’s plans and actions are aligned to meet its values.
- Integrate knowledge and reach decisions with incomplete or limited information.

- Understand a broad range of theoretical and practical applications in business.

### Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate decision-making skills to deliver organizational value in dynamic environments
- Create strategies for sustainable organizational success that integrates the organization’s mission and vision with societal values.
- Synthesize leadership skills to foster innovation and facilitate change in a dynamic business environment.
- Evaluate the global environment to sustain an organization’s competitive advantage.
- Integrate managerial skills to support strategic execution in a rapidly changing business environment.

- The course must have been completed within the past ten (10) years with a "B" (3.0) or better; and

Additional Admission Requirements for the MBA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e., JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated in cumulative GPA for admissibility.

Degree Requirements for the MBA

The degree requirements for this program are the following:

- Completion of a minimum of 33 credits:
  - Program Content Areas: 33 credits
- A minimum GPA of 3.0.
- Students must take courses within a sequence specified by course prerequisite requirements.
- The diploma awarded for this program will read as: Master of Business Administration

Academic Progression Requirements for the MBA

- Managing within a Changing Environment (MGT 526) must be taken as the first core course in the program.
- Strategic Planning & Implementation (STR/581 or an alternative strategy course) must be taken as the last core course in the program.

Residency Requirements and Course Waivers for the MBA

- The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 24 graduate level credits at the University.
- Students in this program may waive a maximum of 9 credits from their required course of study.
- Students who are pursuing multiple UOPX degrees must complete 30 unique credits within the MBA 024 program to satisfy residency for MBA degree conferral.
- In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:
  - The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
  - The course must have been completed within the past ten (10) years with a "B" (3.0) or better; and

Doctoral Pathway Option

- The doctoral pathway allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral degree program, students are eligible to satisfy required course(s) within the doctoral degree program.
- Students must earn a B- or better in the doctoral level courses in order to apply them toward the master's degree program and the doctoral degree program. Students who are allowed to apply a doctoral course with a grade lower than a B- to their master's program will need to retake the course in the doctoral program to achieve a B-grade.
- Student schedules may need to be adjusted, or students will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic counselor and finance advisor for further information.

Re-entry for the MBA

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered to be a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

• No appeals will be accepted for re-entry to an expired program.

• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Master of Management

The following Master of Management (MM) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Management degree program promotes the development of management competencies through the practical application of theory, business and management diagnostics, and the formulation of creative management and consulting solutions. Students will acquire a wide range of tools, concepts and methodologies to design, conduct, and follow through on successful leadership and entrepreneurship practices. In addition, students will be able to actively develop their interpersonal and business-related management skills in order to foster leadership, creative thinking, collegiality, and teamwork ability in an international context. The Master of Management will provide students with first-hand knowledge of the tools and techniques used by successful consultants in the competitive leadership, entrepreneurship and management industry.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Synthesize management functions to support attainment of goals in a variety of organizations.

• Align strategic management competencies with organizational needs to foster innovation and facilitate change within dynamic business environments.

• Synthesize leadership skills to support strategic execution in rapidly changing business environments.

• Evaluate business research and analytics to support accountability in planning and decision-making in a variety of business environments.

• Integrate business law, regulations, and ethics in the management of diverse organizations.

Program Category Requirements Preferred Sequence and Prerequisites for the MM

Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated in cumulative GPA for admissibility.
Degree Requirements for the MM
The degree requirements for this program are the following:
• Completion of a minimum of 33 credits:
  • Program Content Areas: 33 credits
  • A minimum GPA of 3.0.
• Students must take courses within a sequence specified by course prerequisite requirements.
• The diploma awarded for this program will read as: Master of Management

Academic Progression for the MM
• Managing within a Changing Environment (MGT 526) must be taken as the first core course in the program.
• Innovation and Design: Capstone Project (ENT 588 or an alternative strategy course) must be taken as the last core course in the program.

Residency Requirements and Course Waivers for the MM
The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 24 graduate level credits at the University.
In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:
• The course must have been completed at a regionally or approved nationally accredited, or candidate for accreditation, college or university;
• The course must have been completed within the past ten (10) years with a “B” (3.0) or better; and
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students who are pursuing multiple UOPX degrees must complete 24 unique credits within the MM program to satisfy residency for MM degree conferral. Upon approval by the College of Business and Information Technology, students may be able to waive certain Tier I courses outside of standard course waiver policy requirements through an approved Graduate PLA Package.

Students in this program may waive a maximum of 9 credits from their required course of study.
The following course(s) may not be waived: ENT 588, MGT 526 The College of Doctoral Studies offers a pathway opportunity for master’s degree students who are interested in taking doctoral courses as part of the master’s degree program.

Doctoral Pathway Option
• The doctoral pathway allows a master’s degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral degree program, students are eligible to satisfy required course(s) within the doctoral degree program.
• Students must earn a B- or better in the doctoral level courses in order to apply them toward the master’s degree program and the doctoral degree program. Students who are allowed to apply a doctoral course with a grade lower than a B- to their master’s program will need to retake the course in the doctoral program to achieve a B- grade.
• Student schedules may need to be adjusted, or students will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic counselor and finance advisor for further information.

Re-entry for the MM
• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Master of Information Systems

The following Master of Information Systems (MIS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Information Systems (MIS) program provides students with knowledge of how IT leads and supports businesses today. Graduate students learn key theories and principles for how to address real world business opportunities and challenges. Key concepts include how to lead IT development, projects and initiatives as well as addressing technical debt while managing IT operations and innovation.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design information systems that address the needs of an organization and considers emerging technologies.
- Create an effective IT plan required for key roles, resources, operational metrics, and risk responses needed to maintain information systems within an organization.
- Develop methods to drive innovation and change management to support growth within an organization.
- Students create the vision, direction and strategic purpose of an information systems project that supports the needs of an organization.
- Students construct a plan to meet the regulatory, compliance and security issues within an organization.

MIS Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Tier 1: Information Systems Technology Core Knowledge, 18 total credits

- CMGT 545 ~ Influcence and Leadership in Tech
- CMGT 554 ~ IT Infrastructure
- CMGT 555 ~ Systems Analysis and Development
- CMGT 556 ~ Enterprise Models
- CMGT 575 ~ CIS Project Management
- CMGT 558 ~ Strategic Management of Technology and Innovation

Tier 2: Information Systems Management & Strategy, 18 total credits

- CMGT 582 ~ Security & Ethics
- BSA 531 ~

IT Architecture in the Age of Cloud
CMGT 578 ~

CIS Strategic Planning
DAT 565 ~

Data Analysis and Business Analytics
CMGT 559 ~

Managing Risk and Security vs Opportunity
CMGT 583 ~

IS Integration

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MIS

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e-JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Signed Hardware/Software Agreement

Degree Requirements for the MIS

- Completion of a minimum of 36 credits:
  - Required Course of Study: 36 credits
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Information Systems

Residency Requirements and Course Waivers for the MIS

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 24 credits in the program, must be completed at UOPX.

In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 12 credits from...
their required course of study.

Re-entry for the MIS

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Master of Science in Cybersecurity

The following Master of Science in Cybersecurity (MSCYB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Cybersecurity required course of study focuses on deepening the understanding of cybersecurity and operations at an enterprise level. Students will learn topics in information assurance like how threat analysis, incident response, and vulnerability detection contribute to a cybersecurity strategy along with an understanding of how standards and policies can serve as a guideline for risk mitigation. Students gain exposure to software, cloud and network security as well as ethical issues in the cybersecurity industry. Students can choose to pursue elective topics in areas like leadership or tactical cybersecurity before completing a capstone course where they apply their learning through a security team participation course.

Program Purpose

The Master of Science in Cybersecurity degree program provides students an advanced background in cybersecurity that builds off previous knowledge or experience in the field of IT. This program contains content aligned to ISACA Certified Information Security Manager (CISM), CompTIA Cybersecurity Analyst (CySA+) and (ISC)2 Certified Cloud Security Professional (CCSP) and Certified Secure Software Lifecycle Professional (CSSLP) industry certifications but does not directly lead to any type of professional or industry certification.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students design elements of an enterprise using standards and tactics in cybersecurity.
- Students consider ethical and privacy protocols in enterprise cybersecurity.
- Implement cybersecurity frameworks and policies in risk management.

Graduate Cybersecurity Electives, 18 total credits

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the MSCYB

- An undergraduate degree or higher in information technology or a related field (cybersecurity, computer science, etc.), or an undergraduate degree or higher, in any discipline, with a minimum of 18 transferable credits in information technology or a related field (cybersecurity, computer science, etc.) from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Applicants must have two years of work experience in information technology (IT) or a related field.
- Signed Hardware/Software Agreement

Degree Requirements for the MSCYB

- Completion of a minimum of 39 credits:
  - Required Course of Study: 21 credits
  - Graduate Cybersecurity Electives: 18 credits
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Science in Cybersecurity

Residency Requirements and Course Waivers for the MSCYB

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 27 credits in the program, must be completed at UOPX. In order to waive a course in the major course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The 18 credit Graduate Cybersecurity Electives requirement may be satisfied by any of the following means:

- Graduate Cybersecurity UOPX coursework.
- Graduate Cybersecurity transfer activity that is acceptable for transfer and was completed within the past five (5) years from current program enrollment agreement sign date.

Students in this program may waive a maximum of 12 credits from their required course of study.

Re-entry for the MSCYB

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program version during the candidacy period based on the maximum credit limit for their program version, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Master of Science in Data Science

The following Master of Science in Data Science (MSDS) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Data Science (MSDS) graduate degree program prepares students to design, manage, and analyze data sets and models used to optimize functionality, scalability, and reliability and improve business system performance. Courses include content in enterprise database design, systems analysis, data warehousing, programming and data processing, statistical methodologies, data queries and interpretation, data patterns and trend analysis, business intelligence, and data presentation. Students will complete an applied capstone course that focuses on the strategic application of data science to improve business decision making.
Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate data from disparate sources while preserving data integrity
- Evaluate enterprise data for meaningful patterns and trends
- Develop presentations to explain data and share insights
- Recommend value-added solutions for business problems using statistically relevant data.

Program Category Requirements and Prerequisites for the MSDS

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSDS

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet the English language proficiency requirement for admission.

- Signed Hardware/Software Agreement

Degree Requirements for the MSDS

The completion of a minimum of 36 credits:

- Required Course of Study: 36 credits
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read as: Master of Science in Data Science

Residency Requirements and Course Waivers for the MSDS

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 24 credits in the program, must be completed at UOPX.

In order to waive a course in the major course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher-level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 12 credits from their required course of study.

The following courses may not be waived: DSC 590
Re-entry for the MSDS

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry into an expired program.
- Any students in College of Education, College of Nursing, or College of Social and Behavioral Sciences programs that either lead to professional licensure or certification, or that require a license, credential, or certification for admission are exempt from this general re-entry policy. Re-entry students who wish to re-enter these programs should review their specific program’s re-entry policies and consult the appropriate University representative for guidance.

COLLEGE OF HEALTH PROFESSIONS

As the health care industry expands and evolves at a rapid rate, jobs in health care administration business functions are expected to increase. Medical and health service managers employment are projected to grow by 18 percent from 2018 to 2028. Whether you are already working in the field and looking to deepen your knowledge and advance in your profession, or if you are new to health care and want to gain the skills needed to launch a new career, The University of Phoenix® College of Health Professions will equip you with the leading-edge training you need to succeed in today’s dynamic health care environment—and to effectively tackle tomorrow’s challenges.

Master of Health Administration

The following Master of Health Administration (MHA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Health Administration v004 provides leaders and aspiring leaders in the health sector with the insight and skills necessary to drive the future of healthcare by facilitating cross-system transformation and improving outcomes for patients, populations, and providers. The program’s curriculum, built via close collaboration with industry and academic experts, anticipates emerging needs trends in the health sector. Areas of inquiry include industry and organizational dynamics in the health sector, visioning the future, forming strategic relationships, leading with authenticity in complex healthcare environments, and transformation and execution in diverse health system contexts.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate industry and organizational dynamics in the healthcare environment.
- Generate core business strategies based on innovative concepts developed in the program.
- Construct strategic relationships with diverse stakeholders across the health sector to achieve business objectives with a current or desired employer.
- Develop a leadership identity that reflects traits required in complex healthcare environments.
- Produce a personal legacy that fosters investment in people and the community to drive the future of health care.
- Foster the ability to create and execute operational improvement plans that address transformation, communication, and execution elements within the sector.

MHA Program Category Requirements Preferred Sequence and Prerequisites

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Organizational Dynamics in Health Care Systems, 12 total credits

- MHA 505 ................................................................. 3 credits
- Systems Thinking in Health Care Environments
- MHA 506 ~ ............................................................. 3 credits
- Ethical Marketing: The New Health Care Economics
- MHA 507 ~ ............................................................. 3 credits
- Leveraging Informatics in The Health Sector
- MHA 508 ~ ............................................................. 3 credits
- Navigating The Regulatory Environment In Health Care
- MHA 598 ~ ............................................................. 3 credits
- Leveraging Results To Build Brand In The Health Sector

Visioning the Future: Creating Industry Trends in the Health Sector, 6 total credits

- MHA 515 ~ ............................................................. 3 credits
- Scanning The Health Sector as an Industry Expert
- MHA 516 ~ ............................................................. 3 credits
- Operating in Structure: Health Sector Policy and Governance

Strategic Relationships, 3 total credits

- MHA 520 ~ ............................................................. 3 credits
- Sector Stakeholders: Identifying and Cultivating Alliances

Adaptive Leadership, 6 total credits

- MHA 542 ~ ............................................................. 3 credits
- Leading With Authenticity in The Health Sector
- MHA 543 ~ ............................................................. 3 credits
- Tackling The Talent War in The Health Sector

Personal Legacy and Investment in the Future of Health Care, 3 total credits

- MHA 560 ~ ............................................................. 3 credits
- Creating A Sustainable Legacy: Healthy Communities

Transformation and Execution, 6 total credits

- MHA 599 ~ ............................................................. 3 credits
- Capstone: Leading the Organization Through Change

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the MHA
All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the transcript only and will not include previous coursework.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA

- Completion of a minimum of 36 credits:
  - Program Content Areas: 36 credits
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Residency Requirements and Course Waivers for the MHA

Students in this program may waive a maximum of 9 credits from their required course of study. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. undergraduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: MHA 599

Students who have successfully completed the below certificates prior to enrollment in the MHA may waive the listed course with any of the courses contained within the certificate. These approved waivers will not count towards the maximum waiver limit in the program.

- CERT/G-HCP - MHA 508
- CERT/G-HCS - MHA 560
- CERT/G-INF - MHA 507

Minimum Grade Requirements for the MHA

- Students in this program are required to achieve a minimum grade of “C” (2.0) in courses listed below. A “C-” grade is not acceptable. Students who fail to receive a minimum grade of “C” will be scholastically disqualified from the University: MHA 542, MHA 599
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Re-entry for the MHA

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Master of Health Administration Concentration in Informatics

The following Master of Health Administration Concentration in Informatics (MHA/INF) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Health Administration prepares leaders and aspiring leaders in the health sector by providing the competencies necessary to drive the future of healthcare through effective facilitation of cross-system transformation and the improvement of health outcomes for patients, populations, and providers. Areas of inquiry include industry and organizational dynamics, visioning the future, forming strategic relationships, leading with authenticity, creating a sustainable personal legacy, and transformation and execution in diverse health system contexts. As the health industry continues to undergo unprecedented growth, “health” is beginning to encompass everything from patient care to community engagement to overarching system design. The curricular framework for the newest version of the MHA is provided by the industry standard American College of Healthcare Executives (ACHE). The program provides UOPX students with an academically rigorous and integrated experience that requires both critical thinking and creativity, while remaining aligned to professional and industry standards. The concentration in Health Care Informatics presents informatics as the strategic acquisition, interpretation and utilization of data to lead organizations in the health sector. The focus of the program is on informatics as an evolving and interdisciplinary field related to the sourcing, compiling and synthesis of data across the health sector. Topics include staffing to meet an organization’s informatics needs, assessing the interoperability of systems, effectively sourcing data from repositories within and outside the organization, and presenting data in health organization contexts. Also presented are emerging best practices administrators need to successfully address quality, safety, and cost of care, and lead data-driven initiatives that place the patient/consumer at the center of care.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate industry and organizational dynamics in the healthcare environment.
- Generate core business strategies based on innovative concepts and perspectives.
- Construct strategic relationships with diverse stakeholders across the health sector to achieve business objectives with a current or desired employer.
- Develop a leadership identity that reflects traits required in complex healthcare environments.
- Produce a personal legacy that fosters investment in people and the community to drive the future of health care.
- Foster the ability to create and execute operational improvement plans that address transformation, communication, and execution elements within the sector.
- Learners will analyze informatics in health administration contexts to inform strategic data sourcing and decision-making.
- Learners will distinguish the ways in which data are utilized across diverse health information systems.
- Learners will critique health information system implementation and interaction across the health sector.

MHA/INF Program Category Requirements Preferred Sequence and Prerequisites

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Organizational Dynamics in Health Care Systems, 9 total credits**

- MHA 505 ~ .............................................................................. 3 credits
- Systems Thinking in Health Care Environments
- MHA 506 ~ .............................................................................. 3 credits
- Ethical Marketing: The New Health Care Economics
- MHA 508 ~ .............................................................................. 3 credits
- Navigating The Regulatory Environment In Health Care
- MHA 598 ~ .............................................................................. 3 credits
- Leveraging Results To Build Brand In The Health Sector

**Visioning the Future: Creating Industry Trends in the Health Sector, 6 total credits**

- MHA 515 ~ .............................................................................. 3 credits
- Scanning The Health Sector as an Industry Expert
- MHA 516 ~ .............................................................................. 3 credits
- Operating in Structure: Health Sector Policy and Governance

**Strategic Relationships, 3 total credits**

- MHA 520 ~ .............................................................................. 3 credits
- Sector Stakeholders: Identifying and Cultivating Alliances

**Adaptive Leadership, 6 total credits**

- MHA 542 ~ .............................................................................. 3 credits
- Leading With Authenticity in The Health Sector
- MHA 543 ~ .............................................................................. 3 credits
- Tackling The Talent War in The Health Sector

**Personal Legacy and Investment in the Future of Health Care, 3 total credits**

- MHA 560 ~ .............................................................................. 3 credits
- Creating A Sustainable Legacy: Healthy Communities

**Informatics Concentration, 9 total credits**

- HINF 500 ~ .............................................................................. 3 credits
- Informatics for Health Administration
- HINF 520 ~ .............................................................................. 3 credits
- Data Management and Design in Health Administration
- HINF 510 ~ .............................................................................. 3 credits
- The Systems Life Cycle

**Transformation and Execution, 6 total credits**

- MHA 599 ~ .............................................................................. 3 credits
- Capstone: Leading the Organization Through Change

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the MHA/INF

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A minimum program grade point average (GPA) of 3.0.
- Completion of a minimum of 42 credits:
  - Degree Requirements for the MHA/INF
    - Completion of a minimum of 42 credits:
      - Program Content Areas: 33 credits
      - Concentration: 9 credits
    - A minimum program grade point average (GPA) of 3.0.
  - Concentrations are reflected on the transcript only and will not appear on the diploma.
  - A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
  - All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Residency Requirements and Course Waivers for the MHA/INF

Students in this program may waive a maximum of 9 credits from their required course of study.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: MHA 599

Students who have successfully completed the below certificates prior to enrollment in the MHA may waive the listed course with any of the courses contained within the certificate. These approved waivers will not count towards the maximum waiver limit in the program.

- CERT/G-HCP - MHA 508
- CERT/G-HCS - MHA 560
- CERT/G-INF - MHA 507

Minimum Grade Requirements for the MHA/INF

- Students in this program are required to achieve a minimum grade of “C” (2.0) in courses listed below. A “C-” grade is not acceptable. Students who fail to receive a minimum grade of “C” will be scholastically disqualified from the University: HINF 500, HINF 520, HINF 510, MHA 542, MHA 599
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Re-entry for the MHA/INF

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Master of Health Administration Concentration in Health Care Compliance and Privacy

The following Master of Health Administration Concentration in Health Care Compliance and Privacy (MHA/HCP) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Health Administration prepares leaders and aspiring leaders in the health sector by providing the competencies necessary to drive the future of healthcare through effective facilitation of cross-system transformation and the improvement of health outcomes for patients, populations, and providers. Areas of inquiry include industry and organizational dynamics, visioning the future, forming strategic relationships, leading with authenticity, creating a sustainable personal legacy, and transformation and execution in diverse health system contexts. As the health industry continues to undergo unprecedented growth, “health” is beginning to encompass everything from patient care to community engagement to overarching system design. The curricular framework for the newest version of the MHA is provided by the industry standard American College of Healthcare Executives (ACHE). The program provides UOPX students with an academically rigorous and integrated experience that requires both critical thinking and creativity, while remaining aligned to professional and industry standards. The concentration in Health Care Privacy and Compliance is designed for individuals who have an interest in facilitating and maintaining organizational integrity in health care systems. The program focuses on the knowledge and competencies necessary to assist the healthcare industry in compliance practices, ethical considerations and policy implementation regarding privacy, regulatory affairs and legal obligations. The purpose of the concentration is to prepare learners for successful navigation of the emerging field of health care compliance, and to respond to the diverse regulations, best practices in the compliance profession of the health care industry. Content provided in the academic concentration will prepare the learner to sit for the Certificate in Healthcare Compliance (CHC) examination of the Health Care Compliance Association (HCCA.)

Program Purpose

The Master of Health Administration with a concentration in Health Care Compliance and Privacy program prepares leaders and aspiring leaders in the healthcare sector by providing the competencies necessary to drive the future of healthcare through effective facilitation of cross-system transformation and the improvement of health outcomes for patients, populations, and providers. The Health Care Compliance and Privacy concentration within this program is designed to prepare leaders and aspiring leaders for leadership positions in compliance and privacy within the health care industry that require competency in compliance practices, ethical considerations, and policy implementation regarding privacy, regulatory affairs and legal obligations within the healthcare industry. The program educationally prepares students to sit for the Certificate in Healthcare Compliance (CHC) examination.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate industry and organizational dynamics in the healthcare environment.
- Generate core business strategies based on innovative concepts developed in the program.
- Construct strategic relationships with diverse stakeholders across the health sector to achieve business objectives with a current or desired employer.
- Develop a leadership identity that reflects traits required in complex healthcare environments.
- Produce a personal legacy that fosters investment in people and the community to drive the future of health care.
- Foster the ability to create and execute operational improvement plans that address transformation, communication, and execution elements within the sector.
- Learners will create compliance and privacy practices for diverse health care organizations.
- Students will create an identity as a leader in compliance and privacy within the health care industry.
- Learners will evaluate ethical considerations regarding leadership of compliance and privacy practices across the health care industry.

Capstone: Leading the Organization Through Change
The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MHA/HCP
All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admission.
- A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/HCP
- Completion of a minimum of 45 credits:
  - Program Content Areas: 33 credits
  - Concentration: 12 credits
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as: Master of Health Administration

Residency Requirements and Course Waivers for the MHA/HCP

Students in this program may waive a maximum of 9 credits from their required course of study.
In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: MHA 599

Students who have successfully completed the below certificates prior to enrollment in the MHA 004 may waive the listed course with any of the courses contained within the certificate. These approved waivers will not count towards the maximum waiver limit in the program:
- CERT/G-HCP - MHA 508
- CERT/G-HCS - MHA 560
- CERT/G-INF - MHA 507

Minimum Grade Requirements for the MHA/HCP

- Students in this program are required to achieve a minimum grade of "C" (2.0) in courses listed below. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University: HCP 513, HCP 514, HCP 516, HCP 517, MHA 542, MHA 599
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA program.

Re-entry for the MHA/HCP

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
The following Dual Degree in Master of Health Administration/Master of Business Administration (MHA/MBA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Health Administration (MHA)/Master of Business Administration (MBA) dual degree program prepares leaders who can effectively respond to the dynamic and ever-changing health care industry while providing in-depth knowledge to business management practices. The dual degree provides graduates with a distinct edge and greater flexibility in shaping a meaningful career by covering essential business knowledge and industry specific skills. Students have the capacity to critically examine and evaluate issues and trends that are influential to the destiny of a broad and evolving health care system. Curriculum is tailored to the needs of the health care business leader by providing content in areas such as finance, policy, research, technology, human resources, economics, marketing, and strategic planning. The program also emphasizes the identification, analysis, and solution of complex management problems for a growing industry. In addition, the dual degree offers students to customize the curriculum by selecting elective courses to maximize career goals and opportunities.

Marketing for Health Care
Concentrations are reflected on the transcript only and will not be calculated into the GPA that conferred the degree will not be calculated into the GPA. A minimum program grade point average (GPA) of 3.0 is required. The completion of a minimum of 58 credits is required for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, be completed at University of Phoenix.

Additional Admission Requirements for the MHA/MBA

All applicants are expected to meet the following admissions requirements:

• An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admittance.

• A minimum equivalent of three (3) years of full-time, post-high school professional work experience within the past ten years.

• All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.

Degree Requirements for the MHA/MBA

The completion of a minimum of 58 credits:

• MHA Credits: 34 credits
• MBA Credits: 24 credits

A minimum program grade point average (GPA) of 3.0.

Concentrations are reflected on the transcript only and will not appear on the diplomas. Two diplomas will be awarded for this dual degree. The diplomas will read as:

Master of Health Administration
Master of Business Administration

Residency Requirements and Course Waivers for the MHA/MBA

• Students who have earned a graduate degree in Health Administration (MHA) or Business Administration (MBA) may not receive a certificate in the same area of focus. Example: a student may not earn an MHA/MBA/GR degree and a GER certificate; however, students who have completed a certificate may return to receive a Master of Health Administration/Master of Business Administration (MHA/MBA) degree with a concentration in the same area as the completed certificate or another approved concentration.

• Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 46 credits in the Required Course of Study, must be completed at University of Phoenix.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.

• The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

• Requests to waive a course within a concentration must be submitted to the Student Appeals Center (SAC).

• Students in this program may waive a maximum of 12 credits from their required course of study.

• Upon approval by the College of Health Professions, students may be able to waive certain courses outside of standard course waiver policy requirements through an approved Graduate PLA Package.

• The following course(s) may not be waived: HCS 504, HCS 589, HRM 595, MGT 521, PM 598, QRB 501

The College of Doctoral Studies offers a pathway opportunity for master's degree students who are interested in taking doctoral courses as part of the master's degree program.

Doctoral Pathway Option

• The doctoral pathway allows a master's degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral degree program, students are eligible to satisfy required course(s) within the doctoral degree program.

• Students must earn a B- or better in the doctoral level courses in order to apply them toward the master’s degree program and the doctoral degree program. Students who are allowed to apply a doctoral course with a grade lower than a B- to their master’s program will need to retake the course in the doctoral program to achieve a B- grade.

• Student schedules may need to be adjusted, or students will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic counselor and finance advisor for further information.
Minimum Grade Requirements for the MHA/MBA

- Students in this program are required to achieve a minimum grade of "B" (3.0) in the following course: HCS 589. A "B-" grade is not acceptable. Students who fail to receive a minimum grade of "B" will be scholastically disqualified from the University.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MHA/MBA program.

Re-entry for the MHA/MBA

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline or if their program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Master of Public Health Concentration in Community Health Leadership

The following Master of Public Health Concentration in Community Health Leadership (MPH/CHL) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

Learners of the Community Health Leadership program will master public health competencies necessary to lead community health programs and public health initiatives that positively impact the health of individuals, families and diverse populations. This program will prepare learners to lead community health need assessments; engage, mobilize, and organize community stakeholders; create and implement sustainable strategies and programs for diverse groups; and be an advocate for improving social health determinants that impact community health outcomes.

This program is not accredited or endorsed by the Council on Education for Public Health (CEPH), National Commission for Health Education Credentialing (NCHEC), and the Association of Schools and Programs of Public Health (ASPPH).

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Assess community health needs to develop public health programs which respond to diverse cultures of communities being served.
- Create and implement community health programs utilizing appropriate learning, communication, organizational, social, and behavior change principles.
- Evaluate and apply principles of biostatistics, environmental health, epidemiology, and social-behavioral models to the prevention of diseases that are important to communities.
- Evaluate programs and appropriately apply public health research findings to community health initiatives.
- Advocate for improved health outcomes, communicate shared vision, influence change, and champion solutions to organizational and community challenges.
- Evaluate current local and global health trends and create recommendations for institutional and health policy response aimed at improving community health outcomes.
- Mobilize and collaborate with key stakeholders and partners to promote community health and quality of life initiatives in diverse settings.
- Create and market health communications for individuals and groups from diverse cultural, ethnic, and educational backgrounds using a variety of technology and multidisciplinary approaches.
- Lead public health professionals and manage multidisciplinary system stakeholders in organizational and community health settings.
Program Purpose
The Master of Public Health with a concentration in Community Health Leadership (MPH/CHL) program prepares graduates to function in leadership roles in health education and community health settings. This program does not prepare or lead to any type of licensure or certification.

MPH/CHL Program Preferred Sequence and Prerequisites
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

MPH 510 ~ ...............................................................................3 credits
Public Health Professional Practice

MPH 520 ~ ...............................................................................3 credits
Social and Behavioral Aspects of Public Health

MPH 530 ~ ...............................................................................3 credits
Epidemiology Concepts and Public Health Diseases

MPH 540 ~ ...............................................................................3 credits
Environmental and Occupational Health Management

MPH 550 ~ ...............................................................................3 credits
Public Health Statistics

MPH 560 ~ ...............................................................................3 credits
Public Health Systems and Services Administration

CHL 610 ~ ................................................................................3 credits
Community Health Assessment

CHL 620 ~ ................................................................................3 credits
Community Health Engagement and Organizing

CHL 630 ~ ................................................................................3 credits
Planning and Implementing Community Health Initiatives

CHL 640 ~ ................................................................................3 credits
Evaluating Community Health Initiatives

ELECTIVE ~ ...............................................................................3 credits

MPH 680 ~ ...............................................................................3 credits
Community Health Leadership Experience I

MPH 690 ~ ...............................................................................3 credits
Community Health Leadership Experience II

Students must select one(1) course listed below to fill their elective credits:

MPH 600 ~ ...............................................................................3 credits
Community Resiliency and Response Preparedness

MPH 601 ~ ...............................................................................3 credits
Public Health Promotion and Education

MPH 602 ~ ...............................................................................3 credits
Public Health Communication and Advocacy

MPH 603 ~ ...............................................................................3 credits
Race and Ethnicity Determinants of Health

MPH 604 ~ ...............................................................................3 credits
Special Topics in Public Health

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MPH/CHL
All applicants are expected to meet the following admissions requirements:

• Must have completed one of the following:
  • An undergraduate degree or higher in a health related field completed within 10 years of their initial enrollment agreement sign date from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
  • An undergraduate degree or higher completed within 10 years of their initial enrollment agreement sign date from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree earned at a recognized foreign institution and a minimum equivalent of 3 years of full-time work experience in a public health related role. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

Degree Requirements for the MPH/CHL
• Completion of a minimum of 42 credits:
  • Required Course of Study: 39 credits
  • Electives: 3 credits

• A minimum program grade point average (GPA) of 3.0.
• Concentrations are reflected on the transcript only and will not appear on the diploma.
• The diploma awarded for this program will read as: Master of Public Health

Residency Requirements and Course Waivers for the MPH/CHL
The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 33 graduate level credits at the University.

Students in this program may waive a maximum of 9 credits from their required course of study. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.

• The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: MPH 680, MPH 690

**Minimum Grade Requirements for the MPH/CHL**

- Students in this program are required to achieve a minimum grade of “C” (2.0) in courses listed below. A “C-” grade is not acceptable. Students who fail to receive a minimum grade of “C” will be scholastically disqualified from the University: CHL 620, CHL 630, CHL 640, MPH 510, MPH 520, MPH 530, MPH 540, MPH 550, MPH 560, MPH 570, MPH 600, MPH 601, MPH 602, MPH 603, MPH 604
- Students in this program are required to achieve a minimum grade of “B” (3.0) in courses listed below. A “B-” grade is not acceptable. Students who fail to receive a minimum grade of “B” will be scholastically disqualified from the University: MPH 680, MPH 690
- Students who have been scholastically disqualified (excluding MPH 680 and MPH 690) will not be allowed to continue in their degree program until they have taken the following steps:
  - Complete the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course that placed them on scholastic disqualification and satisfy the grade requirement.
- Students who do not meet the minimum grade requirement for MPH 680 or MPH 690 must complete the Professional Standards process instead of the academic progression student agreement form.
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the MPH program.

**Practicum Requirements for the MPH/CHL**

All MPH students are required to complete a culminating project and practicum experience as part of their degree requirement, and will receive 3 credits for the practicum experience, and 3 credit hours for the culminating project; for a total of 6 credit hours. These courses require at least 200 practice experience hours (100 hours per course) committed to a public health placement site.

- The minimum time for a practice experience is 200 hours. However, individuals with evidence of a minimum equivalent of 3 years of full-time experience and currently employed full-time with primary responsibilities as a public or community health professional in a public health setting would be eligible for 80 hours credit toward the practicum. This credit would reduce the minimum practice requirement to 120 hours. Students must submit a SAC appeal requesting the exception prior to enrolling in the first practicum course: MPH 680.
- Students must start MPH 690 within 6 months of the completion date of MPH 680. If the student does not meet that deadline, the student will be required to retake MPH 680.
- The practicum can be completed at a student’s place of employment provided the experience differs from that of their job requirements and duties.

**Re-entry for the MPH/CHL**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
Programs in the College of Nursing are designed to support the career advancement and educational needs of registered nurses, who are looking to expand their professional horizons. In an era of unprecedented and disruptive change in the health care industry—from shifting patient demographics, to the emergence of new models like telemedicine and retail medicine, to an increasingly complex licensing and credentialing environment—today’s nurses must work hard to navigate the changes and remain on the leading-edge of their professions.

Whether you are a registered nurse looking to bolster your credentials to meet today’s higher standards, or an advanced-practice nurse seeking to expand your knowledge and take on greater leadership challenges, The University of Phoenix® College of Nursing will equip you with the deep industry insight and up-to-the-minute knowledge and skills you need to become the nurse tomorrow needs.

**Accreditation- College of Nursing Programs**

The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

**International Nursing Honor Society**

The mission of Sigma is advancing world health and celebrating nursing excellence in scholarship, leadership, and service. The honor society provides products and services that advance the learning and professional development of members and all nurses who strive to improve the health of the world’s people. University of Phoenix, College of Nursing is a member of the Omicron Delta chapter of Sigma, a virtual chapter that supports members across the globe. Membership is by invitation to baccalaureate and graduate nursing students who demonstrate excellence in scholarship and to nurse leaders exhibiting exceptional achievements in nursing.

Sigma has more than 135,000 active members who reside in more than 100 countries. There are roughly 540 chapters at more than 700 institutions. To learn more about Sigma visit their website at www.nursingsociety.org. To learn more about the Omicron Delta chapter visit their website at https://omicrondelta.sigmanursing.org/home

**Academic Progression Requirements for all Current Nursing Programs**

**License Requirement**

All nursing program students must hold a valid, unrestricted/unencumbered RN license in all states and jurisdictions in which the applicant holds an active nursing license. Students must also hold a valid and unrestricted/unencumbered RN license for the state in which they practice.

All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. With the exception of Hawaii, students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. In Hawaii, students must possess a valid Hawaii license.

**Scholastic Disqualification**

Students who receive a non-passing grade in a Nursing CORE course (CORE courses are listed in the program description of the program handbook) will be required to meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns prior to retaking the course that placed the student on scholastic disqualification. Students will also be required to complete and sign an Academic Progression Student Agreement Form.

**Drug Testing**

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion of substance abuse, or otherwise indicates that the student may be impaired by drugs or alcohol without reasonable justification, will be required to undergo a "for-cause" 15-panel drug screen plus an alcohol drug test.
Master of Science in Nursing Concentration in Informatics

The following Master of Science in Nursing Concentration in Informatics (MSN/INF) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Nursing with a concentration in Nursing Informatics (MSN/INF) program prepares registered nurses to become leaders in the field of Nursing Informatics. Advanced nursing theory and research provide the foundation for nurse leaders to influence the future of nursing and health care. Specialty informatics courses allow students to focus on contemporary industry-required competencies such as: interpretation, analysis, and translation of health care data into meaningful information; healthcare information workflow and project management; and design, implementation, evaluation of health information systems and technologies that improve patient outcomes and reduce risk. The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply organizational and systems leadership concepts to the management of human, fiscal, and physical healthcare resources for diverse populations in a variety of settings.
- Evaluate processes, systems, and utilization of current technology to support continuous quality improvement and improve patient outcomes across the care continuum in a variety of settings.
- Synthesize scholarship from a variety of sources and translate to promote implementation of evidence-based practice.
- Evaluate healthcare policy, regulatory, legal, economic, ethical, and sociocultural environments to advocate for patients and effect change in the healthcare system based on their role.
- Critique evidenced-based delivery within an interdisciplinary team to serve diverse populations in a variety of local, national, and global settings.
- Evaluate methodologies to utilize nursing informatics to support best patient outcomes.
- Evaluate the regulatory requirements impacting use of informatics within healthcare.
- Create plans for the use of nursing informatics to collect data and support research.
- Evaluate the function of nursing informatics within the System Design Life Cycle structures.

Program Purpose

This is a post-licensure nursing program designed for nurses with current RN licensure who desire to obtain a Master of Science degree in Nursing with a focus on Nursing Informatics (MSN/INF). The program prepares the graduate to function in nursing informatics leadership roles; specialize in the design and use of electronically stored data to influence quality in care delivery; and provide evidence of meeting quality, compliance, and regulatory standards and requirements. Students may be eligible to sit for the Informatics Nursing Certification Exam and should contact the American Nurses Credentialing Center for eligibility requirements.

MSN/INF Required Course Sequence and Prerequisites

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

NSG 511 .................................................................3 credits
Contemporary Nursing Practice
NSG 512 .................................................................3 credits
Nursing Research
NSG 513 .................................................................3 credits
Inter-professional Leadership and Management
NSG 514 .................................................................3 credits
Health Law, Policy, Ethics, and Global Trends
NSG 541 .................................................................3 credits
Data Analysis and Management
NSG 542 .................................................................3 credits
Information Workflow
NSG 543 .................................................................3 credits
Database Management
NSG 544 .................................................................3 credits
Evaluation and Application of Information
NSG 516IN ~ .........................................................3 credits
Practicum I
NSG 517IN ~ .........................................................3 credits
Practicum II
Graduate Elective Requirement...............................6 credits

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSN/INF

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelors degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Students with undergraduate degrees or higher from a college or university with approved institutional accreditation, in a field other than nursing are required to enroll in the MSN Bridge program.
• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admisssibility. For applicants residing in Oregon or attending the Oregon campus, an undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for admission.

• Current employment is not a requirement for admission.

• Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must hold a RN license obtained by taking the US NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico

• International students who are residents outside of the United States or approved US Territories must meet the following requirements:
  - Completion of a nursing diploma, associates degree in nursing, or foreign equivalent program.
  - All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
  - All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
  - Applicants who reside in Canada must meet one of the following requirements for admission:
    - Be a legal resident of Canada
    - Be a landed immigrant
    - Have a valid visa that does not prohibit educational studies
  - A signed Foreign Nursing Memorandum of Understanding
  - Signed Criminal Background Check Disclosure
  - Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
  - Signed FERPA Release/Drug Test or Failure to Test Results
  - Signed Clinical Assurance Statement form

Degree Requirements for the MSN/INF

• Completion of a minimum of 36 credits:
  • Required Course of Study: 30 credits
  • Graduate Electives: 6 credits
• A minimum program grade point average (GPA) of 3.0.
• Concentrations are reflected on the transcript only and will not appear on the diploma. The diploma awarded for this program will read as: Master of Science in Nursing

Academic Progression Requirements for the MSN/INF

• Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
• Clinical experiences/hours cannot be completed during work time at the student’s place of employment.
• A clinical course may not be taken concurrently with any other course.
• Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.
• Students are required to start NSG 516ED, NSG 516AD, or NSG 517IN within 6 months of the completion date of NSG 516ED, NSG 516AD or NSG 516IN respectively. Students who do not begin NSG 516ED, NSG 517AD, or NSG 517IN within 6 months will be required to repeat the NSG 516ED, NSG 516AD, or NSG 516IN.

Minimum Grade Requirements for the MSN/INF

• All MSN bridge and graduate level MSN courses must be completed with a grade of C or better. Grades "C-" are not accepted. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
• Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
• Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/INF

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 24 credits in the Required Course of Study for MSN/ADM and MSN/INF, must be completed at UOPX.

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study for MSN/NED, must be completed at UOPX.

Students in this program may waive a maximum of 6 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 5161N, NSG 5171N, NSG 541, NSG 542, NSG 543, NSG 544

The 6 credit Graduate Elective Requirement for the MSN/INF may be satisfied by the following means:
• An approved UOPX Graduate Elective course.
• An approved Graduate PLA Package for certain courses listed as approved UOPX Graduate Electives.
• Previously completed UOPX graduate level coursework that is comparable in credits to the University course it is replacing.
• Graduate transfer coursework that is acceptable for transfer and meets the following requirements:
  • Comparable in credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework).
  • Completed within the past ten (10) years from current program enrollment agreement sign date
  • A minimum grade of “C-” or better.

Re-entry for the MSN/INF

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• An appeal will be required for re-entry if:
  • The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
  • The student cannot complete their program within their program completion deadline and the program is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.

Master of Science in Nursing Concentration in Informatics Bridge

The following Master of Science in Nursing Concentration in Informatics Bridge (MSN/INF) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Nursing with a concentration in Nursing Informatics (MSN/INF) program prepares registered nurses to become leaders in the field of Nursing Informatics. Advanced nursing theory and research provide the foundation for nurse leaders to influence the future of nursing and health care. Specialty informatics courses allow students to focus on contemporary industry-required competencies such as: interpretation, analysis, and translation of health care data into meaningful information; healthcare information workflow and project management; and design, implementation, evaluation of health information systems and technologies that improve patient outcomes and reduce risk.

The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.
Program Purpose
This is a post-licensure nursing program designed for nurses with current RN licensure who desire to obtain a Master of Science degree in Nursing with a focus on Nursing Informatics (MSN/INF). The program prepares the graduate to function in nursing informatics leadership roles; specialize in the design and use of electronically stored data to influence quality in care delivery; and provide evidence of meeting quality, compliance, and regulatory standards and requirements. MSN/INF Required Course Sequence and Prerequisites
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). To ensure course scheduling availability, the College of Health Professions, College of Nursing recommends the following course selections to satisfy the bridge requirements:

Nursing Bridge 1
NSG 416 is the preferred option to satisfy the Nursing Bridge 1 requirement.
NSG 416 ................................................................. 3 credits
Theoretical Development and Conceptual Frameworks
NSG 415 ................................................................. 3 credits
Theory-Based Nursing Practice
NUR 403 ................................................................. 3 credits
Theories and Models of Nursing Practice

Nursing Bridge 2
NSG 451 is the preferred option to satisfy Nursing Bridge 2.
NSG 451 ................................................................. 3 credits
Professional Nursing Leadership Perspectives
NSG 397 ................................................................. 3 credits
Professional Nursing Role
NUR 391 ................................................................. 3 credits
Professional Nursing Practice
NUR 440 ................................................................. 3 credits
Health Assessment and Promotion for Vulnerable Population

Nursing Bridge 3
NSG 456 is the preferred course option to satisfy the Nursing Bridge 3 requirement.
NSG 456 ................................................................. 3 credits
Research Outcomes Management for the Practicing Nurse
NSG 455 ................................................................. 3 credits
Evidence-Based Practice and Statistics
NUR 443 ................................................................. 3 credits
Evidence-Based Nursing Research and Practice

Required Course Sequence
NSG 511 ~ ................................................................. 3 credits
Contemporary Nursing Practice
NSG 512 ~ ................................................................. 3 credits
Nursing Research
NSG 513 ~ ................................................................. 3 credits
Inter-professional Leadership and Management
NSG 514 ~ ................................................................. 3 credits
Health Law, Policy, Ethics, and Global Trends
NSG 541 ................................................................. 3 credits
Data Analysis and Management
NSG 542 ~ ................................................................. 3 credits
Information Workflow
NSG 543 ~ ................................................................. 3 credits
Database Management
NSG 544 ~ ................................................................. 3 credits
Evaluation and Application of Information
NSG 516IN ~ ............................................................ 3 credits
Practicum I
NSG 517IN ~ ............................................................ 3 credits
Practicum II
Graduate Elective Requirement ........................................... 6 credits

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSN/INF
All applicants are expected to meet the following admissions requirements:

• An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelors degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• Students with undergraduate degrees or higher from a college or university with approved institutional accreditation, in a field other than nursing are required to enroll in the MSN Bridge program.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admittance. For applicants residing in Oregon or attending the Oregon campus, an undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for admission.

• Current employment is not a requirement for admission.

• Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must hold a RN license obtained by taking the US NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  • Guam
  • American Samoa
  • Northern Mariana Islands
  • US Virgin Islands

University of Phoenix, 2022-2023
COLLEGE OF NURSING
• Puerto Rico

• International students who are residents outside of the United States or approved US Territories must meet the following requirements:

• Completion of a nursing diploma, associates degree in nursing, or foreign equivalent program.

• All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.

• All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.

• Applicants who reside in Canada must meet one of the following requirements for admission:
  -Be a legal resident of Canada
  -Be a landed immigrant
  -Have a valid visa that does not prohibit educational studies

• A signed Foreign Nursing Memorandum of Understanding

• Signed Criminal Background Check Disclosure

• Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure

• Signed FERPA Release/Drug Test or Failure to Test Results

• Signed Clinical Assurance Statement form

Degree Requirements for the MSN/INF

• Completion of a minimum of 45 credits.

• Required Course of Study: 39 credits

• Graduate Electives: 6 credits

• A minimum program grade point average (GPA) of 3.0.

• Concentrations are reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as:
Master of Science in Nursing

Academic Progression Requirements for the MSN/INF

• Students enrolling in the MSN bridge program must complete the three MSN bridge courses with a C or better in each course prior to enrolling in NSG 511 - Contemporary Nursing Practice.

• Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.

• Clinical experiences/hours cannot be completed during work time at the student's place of employment.

• A clinical course may not be taken concurrently with any other course.

• Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 15 panel, plus alcohol drug test.

• Students are required to start NSG 517ED, NSG 517AD, or NSG 517IN within 6 months of the completion date of NSG 516ED, NSG 516AD or NSG 516IN respectively. Students who do not begin NSG 517ED, NSG 517AD, or NSG 517IN within 6 months will be required to repeat the NSG 516ED, NSG 516AD, or NSG 516IN.

Minimum Grade Requirements for the MSN/INF

• All MSN bridge and graduate level MSN courses must be completed with a grade of C or better. Grades "C-" are not accepted. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.

• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:

  • Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.

  • Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.

  • Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/INF

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 24 credits in the Required Course of Study for MSN/ADM and MSN/INF, must be completed at UOPX.

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study for MSN/NED, must be completed at UOPX.

Students in this program may waive a maximum of 6 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.

• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 516IN, NSG 517IN, NSG 541, NSG 542, NSG 543, NSG 544.

The 6 credit Graduate Elective Requirement for the MSN/INF may be satisfied by the following means:

- An approved UOPX Graduate Elective course.
- An approved Graduate PLA Package for certain courses listed as approved UOPX Graduate Electives.
- Previously completed UOPX graduate level coursework that is comparable in credits to the University course it is replacing.
- Graduate transfer coursework that is acceptable for transfer and meets the following requirements:
  - Comparable in credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework).
  - Completed within the past ten (10) years from current program enrollment agreement sign date.
  - A minimum grade of "C-" or better.

Re-entry for the MSN/INF

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

An appeal will be required for re-entry if:

- The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
- The student cannot complete their program within their program completion deadline and the program is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.

Master of Science in Nursing Concentration in Nurse Administration

The following Master of Science in Nursing Concentration in Nurse Administration (MSN/ADM) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Nursing with a concentration in Nursing Administration (MSN / ADM) program prepares registered nurses to become leaders in the field of Nursing Administration.

Advanced nursing theory and research provide the foundation for nurse leaders to influence the future of nursing and health care. Speciality Administration courses allow students to focus on contemporary industry-required competencies such as: leadership and management within and between diverse healthcare organizations; communication, collaboration, and relationship management within interprofessional teams; systems thinking and design as a means to improve quality, safety, patient outcomes, and reduce risk. The baccalaureate degree program in nursing and master's degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply organizational and systems leadership concepts to the management of human, fiscal, and physical healthcare resources for diverse populations in a variety of settings.
- Evaluate processes, systems, and utilization of current technology to support continuous quality improvement and improve patient outcomes across the care continuum in a variety of settings.
- Synthesize scholarship from a variety of sources and translate to promote implementation of evidence-based practice.
- Evaluate healthcare policy, regulatory, legal, economic, ethical, and sociocultural environments to advocate for patients and effect change in the healthcare system based on their role.
- Critique evidenced-based delivery within an interdisciplinary team to serve diverse populations in a variety of local, national, and global settings.
- Formulate a strategic plan and distinguish the key components required for success.
- Analyze a budget and assure needed resources are planned for.
- Predict the needed resources (human and financial) to meet desired outcomes.
- Implement change to meet desired quality measures.
- Modify policies to meet external regulatory and accreditation standards.
Program Purpose

This is a post-licensure nursing program designed for nurses with current RN licensure who desire to obtain a Master of Science degree in Nursing with a focus on Nursing Administration (MSN/ADM). The program prepares the graduate to function in leadership and administrative roles within the profession of nursing. Students may be eligible to sit for the Nurse Executive Certification Exam and should contact the American Nurses Credentialing Center for eligibility requirements.

MSN/ADM Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Additional Admission Requirements for the MSN/ADM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelors degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- Students with undergraduate degrees or higher from a college or university with approved institutional accreditation, in a field other than nursing are required to enroll in the MSN Bridge program.

- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admittance. For applicants residing in Oregon or attending the Oregon campus, an undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for admission.

- Current employment is not a requirement for admission.

- Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico

- International students who are residents outside of the United States or approved US Territories must meet the following requirements:
  - Completion of a nursing diploma, associates degree in nursing, or foreign equivalent program.
  - All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
  - All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
  - Applicants who reside in Canada must meet one of the following requirements for admission:
    - Be a legal resident of Canada
    - Be a landed immigrant
    - Have a valid visa that does not prohibit educational studies

- A signed Foreign Nursing Memorandum of Understanding
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results
- Signed Clinical Assurance Statement form
Students who have been scholastically disqualified will not be permitted to repeat a course one time in their program; students permanently withdrawn from the program. Students are only allowed to repeat the NSG 516ED, NSG 516AD, or NSG 516IN respectively. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. The student will be restricted from scheduling future courses and will be removed from any course they are currently attending.

Clinical experiences/hours cannot be completed during work time at the student’s place of employment.

A clinical course may not be taken concurrently with any other course.

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.

Students are required to start NSG 517ED, NSG 517AD, or NSG 517IN within 6 months of the completion date of NSG 516ED, NSG 516AD or NSG 516IN respectively. Students who do not begin NSG 517ED, NSG 517AD, or NSG 517IN within 6 months will be required to repeat the NSG 516ED, NSG 516AD, or NSG 516IN.

Degree Requirements for the MSN/ADM

- Completion of a minimum of 36 credits.
- Required Course of Study: 30 credits
- Graduate Electives: 6 credits
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as: Master of Science in Nursing

Academic Progression Requirements for the MSN/ADM

- Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
- Clinical experiences/hours cannot be completed during work time at the student’s place of employment.
- A clinical course may not be taken concurrently with any other course.

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.

Students are required to start NSG 517ED, NSG 517AD, or NSG 517IN within 6 months of the completion date of NSG 516ED, NSG 516AD or NSG 516IN respectively. Students who do not begin NSG 517ED, NSG 517AD, or NSG 517IN within 6 months will be required to repeat the NSG 516ED, NSG 516AD, or NSG 516IN.

Minimum Grade Requirements for the MSN/ADM

- All MSN bridge and graduate level MSN courses must be completed with a grade of C or better. Grades “C-” are not accepted. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.

- Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
- Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/ADM

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 24 credits in the Required Course of Study for MSN/ADM and MSN/INF, must be completed at UOPX. Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study for MSN/NED, must be completed at UOPX. Students in this program may waive a maximum of 6 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.

Program Purpose

This is a post-licensure nursing program designed for nurses with current RN licensure who desire to obtain a Master of Science degree in Nursing with a focus on Nursing Administration (MSN/ADM). The program prepares the graduate to function in leadership and administrative roles within the profession of nursing. Students may be eligible to sit for the Nurse Executive Certification Exam and should contact the American Nurses Credentialing Center for eligibility requirements.

MSN/ADM Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

To ensure course scheduling availability, the College of Health Professions, College of Nursing recommends the following course selections to satisfy the bridge requirements:

Nursing Bridge 1

NSG 416 is the preferred option to satisfy Nursing Bridge 1 requirement.

NSG 416 .................................................................3 credits
Theory-Based Nursing Practice
NSG 415 .................................................................3 credits
NSG 403 .................................................................3 credits
Theories and Models of Nursing Practice
NSG 440 .................................................................3 credits
Nursing Bridge 2

NSG 451 is the preferred option to satisfy Nursing Bridge 2.

NSG 451 .................................................................3 credits
Professional Nursing Leadership Perspectives
NSG 397 .................................................................3 credits
Professional Nursing Role
NSG 391 .................................................................3 credits
Professional Nursing Practice
NSG 440 .................................................................3 credits
Health Assessment and Promotion for Vulnerable Population
NSG 456 is the preferred course option to satisfy Nursing Bridge 3 requirement.

NSG 456 .................................................................3 credits
Research Outcomes Management for the Practicing Nurse
NSG 455 .................................................................3 credits
Evidence-Based Practice and Statistics
NSG 443 .................................................................3 credits
Evidence-Based Nursing Research and Practice
Required Course Sequence

NSG 416.................................................................3 credits
Theoretical Development and Conceptual Frameworks
NSG 451 .................................................................3 credits
Professional Nursing Leadership Perspectives
NSG 456 .................................................................3 credits
Research Outcomes Management for the Practicing Nurse
NSG 511 .................................................................3 credits
Contemporary Nursing Practice
NSG 512 .................................................................3 credits
Nursing Research
NSG 513 .................................................................3 credits
Inter-professional Leadership and Management
NSG 514 .................................................................3 credits
Health Law, Policy, Ethics, and Global Trends
NSG 557 .................................................................3 credits
Organizational Dynamics and Systems Thinking
NSG 577 .................................................................3 credits
Continuous Quality Monitoring and Outcomes Improvement
NSG 547 .................................................................3 credits
Human Resources Management
Applicants who reside in the United States or in one of the US Territories must meet the following requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Students with undergraduate degrees or higher from a college or university with approved institutional accreditation, in a field other than nursing are required to enroll in the MSN Bridge program.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admission. For applicants residing in Oregon or attending the Oregon campus, an undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for admission.
- Current employment is not a requirement for admission.
- Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico
- International students who are residents outside of the United States or approved US Territories must meet the following requirements:
  - Completion of a nursing diploma, associates degree in nursing, or foreign equivalent program.
- All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
- All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
- Applicants who reside in Canada must meet one of the following requirements for admission:
  - Be a legal resident of Canada
  - Be a landed immigrant
  - Have a valid visa that does not prohibit educational studies
- A signed Foreign Nursing Memorandum of Understanding
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Signed FERPA Release/Drug Test or Failure to Test Results
- Signed Clinical Assurance Statement form

### Degree Requirements for the MSN/ADM

- Completion of a minimum of 45 credits:
  - Required Course of Study: 39 credits
  - Graduate Electives: 6 credits
- A minimum program grade point average (GPA) of 3.0.
- Concentrations are reflected on the transcript only and will not appear on the diploma.
- The diploma awarded for this program will read as: Master of Science in Nursing

### Academic Progression Requirements for the MSN/ADM

- Students enrolling in the MSN bridge program must complete the three MSN bridge courses with a C or better in each course prior to enrolling in NSG 511 - Contemporary Nursing Practice.
- Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
- Clinical experiences/hours cannot be completed during work time at the student's place of employment.
- A clinical course may not be taken concurrently with any other course.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 15 panel, plus alcohol drug test.
The course must have been completed at a college or university.

Residency Requirements and Course Waivers for the MSN/ADM

- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
  - Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
  - Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Minimum Grade Requirements for the MSN/ADM

- All MSN bridge and graduate level MSN courses must be completed with a grade of C or better. Grades “C-” are not accepted. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.

- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
  - Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
  - Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/ADM

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 24 credits in the Required Course of Study for MSN/ADM and MSN/INF, must be completed at UOPX.

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study for MSN/NED, must be completed at UOPX.

Students in this program may waive a maximum of 6 credits from their required course of study.

- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 516ED, NSG 517AD, NSG 547, NSG 557, NSG 567, NSG 577

The 6 credit Graduate Elective Requirement for the MSN/ADM may be satisfied by the following means:

- An approved UOPX Graduate Elective course.
- An approved Graduate PLA Package for certain courses listed as approved UOPX Graduate Electives.
- Previously completed UOPX graduate level coursework that is comparable in credits to the University course it is replacing.
- Graduate transfer coursework that is acceptable for transfer and meets the following requirements:
  - Comparable in credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework).
  - Completed within the past ten (10) years from current program enrollment agreement sign date
  - A minimum grade of "C-" or better.

Re-Entry for the MSN/ADM

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- An appeal will be required for re-entry if:
  - The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
  - The student cannot complete their program within their program completion deadline and the program is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
  - No appeals will be accepted for re-entry to an expired program.
Master of Science in Nursing Concentration in Nurse Education

The following Master of Science in Nursing Concentration in Nurse Education (MSN/NED) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Masters of Science in Nursing with a concentration in Nursing Education (MSN/NED) program prepares registered nurses to become leaders in the field of Nursing Education. Advanced nursing theory and research provide the foundation for nurse leaders to influence the future of nursing and health care. Specialty education courses allow students to focus on contemporary industry-required competencies such as: design, implementation, and evaluation of nursing curriculum, facilitation of learner development and socialization; interpretation, analysis, and translation of evidence to guide student learning and assessment strategies.

The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Utilize interprofessional collaboration to advance patient education, enhance accessibility of care, analyze practice patterns, and improve health care outcomes.

Program Purpose

This is a post-licensure nursing program designed for nurses with current RN licensure who desire to obtain a Master of Science degree in Nursing with a focus on Nursing Education (MSN/NED). The program prepares graduates for leadership roles in nursing education, and to function as a nurse educator in a variety of practice and educational settings. Graduates may be eligible to sit for the Nurse Educator Certification Exam and should contact the National League for Nursing for eligibility requirements.

MSN/NED Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Additional Admission Requirements for the MSN/NED

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelors degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
• Students with undergraduate degrees or higher from a college or university with approved institutional accreditation, in a field other than nursing are required to enroll in the MSN Bridge program.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility. Or applicants residing in Oregon or attending the Oregon campus, an undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for admission.

• Current employment is not a requirement for admission.

• Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam.

   Students must provide documentation showing successful completion of the US NCLEX-RN exam:
   • Guam
   • American Samoa
   • Northern Mariana Islands
   • US Virgin Islands
   • Puerto Rico

• International students who are residents outside of the United States or approved US Territories must meet the following requirements:
  • Completion of a nursing diploma, associates degree in nursing, or foreign equivalent program.
  • All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
  • All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
  • Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
    • Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.

Degree Requirements for the MSN/NED

• Completion of a minimum of 36 credits:
  • Required Course of Study: 36 credits
  • A minimum program grade point average (GPA) of 3.0.
  • Concentrations are reflected on the transcript only and will not appear on the diploma.
  
The diploma awarded for this program will read as: Master of Science in Nursing

Academic Progression Requirements for the MSN/NED

• Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from taking any courses and will be removed from any course they are currently attending.

• Clinical experiences/hours cannot be completed during worktime at the student’s place of employment.

• A clinical course may not be taken concurrently with any other course.

• Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 15 panel, plus alcohol drug test.

• Students are required to start NSG 516ED, NSG 517AD, or NSG 517IN within 6 months of the completion date of NSG 516ED, NSG 516AD or NSG 516IN respectively. Students who do not begin NSG 516ED, NSG 517AD, or NSG 517IN within 6 months will be required to re-take the NSG 516ED, NSG 516AD, or NSG 516IN.

Minimum Grade Requirements for the MSN/NED

• All MSN bridge and graduate level MSN courses must be completed with a grade of C or better. Grades “C-” are not accepted. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they re-take the course will be permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be permanently withdrawn from the program.

• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
• Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
• Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/NED

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix. Students in this program may waive a maximum of 6 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 516ED, NSG 517ED, NSG 531, NSG 532, NSG 533, NSG 534

Re-Entry for the MSN/NED

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• An appeal will be required for re-entry if:
  • The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
  • The student cannot complete their program within their program completion deadline and the program is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
• No appeals will be accepted for re-entry to an expired program.

Master of Science in Nursing Concentration in Nurse Education Bridge

The following Master of Science in Nursing Concentration in Nurse Education Bridge (MSN/NED) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Masters of Science in Nursing with a concentration in Nursing Education (MSN/NED) program prepares registered nurses to become leaders in the field of Nursing Education. The program prepares graduates for leadership roles in nursing education, and to function as a nurse educator in a variety of practice and educational settings. Graduates may be eligible to sit for the Nurse Educator Certification Exam and should contact the National League for Nursing for eligibility requirements.

MSN/NED Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). To ensure course scheduling availability, the College of Health Professions, College of Nursing recommends the following course selections to satisfy the bridge requirements:

Nursing Bridge 1

NSG 416 is the preferred option to satisfy the Nursing Bridge 1 requirement.
NSG 416 ................................................................................... 3 credits
Theoretical Development and Conceptual Frameworks
NSG 415 ................................................................................... 3 credits
Theory-Based Nursing Practice
NUR 403 ................................................................................... 3 credits
Theories and Models of Nursing Practice

Nursing Bridge 2

NSG 451 is the preferred option to satisfy Nursing Bridge 2.
NSG 451 ................................................................................... 3 credits
Professional Nursing Leadership Perspectives
NSG 397 ................................................................................... 3 credits
Professional Nursing Role
NUR 391: Professional Nursing Practice ................................. 3 credits
NUR 440: Health Assessment and Promotion for Vulnerable Population ................................. 3 credits

**Nursing Bridge 3**
NSG 456 is the preferred course option to satisfy the Nursing Bridge 3 requirement.

NSG 456: Research Outcomes Management for the Practicing Nurse ................................. 3 credits
NSG 455: Evidence-Based Practice and Statistics ................................. 3 credits
NUR 443: Evidence-Based Nursing Research and Practice ................................. 3 credits

**Required Course Sequence**
NSG 416: Theoretical Development and Conceptual Frameworks ................................. 3 credits
NSG 451: Professional Nursing Leadership Perspectives ................................. 3 credits
NSG 456: Research Outcomes Management for the Practicing Nurse ................................. 3 credits
NSG 511: Contemporary Nursing Practice ................................. 3 credits
NSG 512: Nursing Research ................................. 3 credits
NSG 513: Inter-professional Leadership and Management ................................. 3 credits
NSG 514: Health Law, Policy, Ethics, and Global Trends ................................. 3 credits
NSG 501: Pathophysiology, Assessment Variables and Pharmacology I ................................. 3 credits
NSG 502: Pathophysiology, Assessment Variables & Pharmacology II ................................. 3 credits
NSG 531: Program and Course Development ................................. 3 credits
NSG 532: Innovative Curriculum Design ................................. 3 credits
NSG 533: Educational Assessment and Evaluation ................................. 3 credits
NSG 534: Facilitating Engaged Learning ................................. 3 credits
NSG 516ED: Practicum I ................................. 3 credits
NSG 517ED: Practicum II ................................. 3 credits

The University reserves the right to modify the required course of study.

**Additional Admission Requirements for the MSN/NED**

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- Students with undergraduate degrees or higher from a college or university with approved institutional accreditation, in a field other than nursing are required to enroll in the MSN Bridge program.

- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admission. For applicants residing in Oregon or attending the Oregon campus, an undergraduate degree posted transcript with a cumulative grade point average (GPA) of 3.0 is required for admission.

- Current employment is not a requirement for admission.

- Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico
• International students who are residents outside of the United States or approved US Territories must meet the following requirements:
  • Completion of a nursing diploma, associates degree in nursing, or foreign equivalent program.
  • All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
  • All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
  • Applicants who reside in Canada must meet one of the following requirements for admission:
    - Be a legal resident of Canada
    - Be a landed immigrant
    - Have a valid visa that does not prohibit educational studies
  • A signed Foreign Nursing Memorandum of Understanding
  • Signed Criminal Background Check Disclosure
  • Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
  • Signed FERPA Release/Drug Test or Failure to Test Results
  • Signed Clinical Assurance Statement form

Degree Requirements for the MSN/NED

• Completion of a minimum of 45 credits:
  • Required Course of Study: 45 credits
  • A minimum program grade point average (GPA) of 3.0.
  • Concentrations are reflected on the transcript only and will not appear on the diploma.

The diploma awarded for this program will read as: Master of Science in Nursing

Academic Progression Requirements for the MSN/NED

• Students enrolling in the MSN bridge program must complete the three MSN bridge courses with a C or better in each course prior to enrolling in NSG 511 - Contemporary Nursing Practice.
• Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
• Clinical experiences/hours cannot be completed during work time at the student’s place of employment.
• A clinical course may not be taken concurrently with any other course.

• Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.
• Students are required to start NSG 517ED, NSG 517AD, or NSG 517IN within 6 months of the completion date of NSG 516ED, NSG 516AD or NSG 516IN respectively. Students who do not begin NSG 517ED, NSG 517AD, or NSG 517IN within 6 months will be required to repeat the NSG 516ED, NSG 516AD, or NSG 516IN.

Minimum Grade Requirements for the MSN/NED

• All MSN bridge and graduate level MSN courses must be completed with a grade of C or better. Grades "C-" are not accepted. Students who do not pass these courses with a grade of C or better will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
  • Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
  • Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/ NED

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 30 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study.
In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: NSG 516ED, NSG 517ED, NSG 531, NSG 532, NSG 533, NSG 534

Re-entry for the MSN/NED

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• An appeal will be required for re-entry if:
  • The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: academic disqualification (AD), scholastic suspension (SS), or scholastic disqualification (SD).
  • The student cannot complete their program within their program completion deadline and the program is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.

Master of Science in Nursing/Family Nurse Practitioner

The following Master of Science in Nursing/Family Nurse Practitioner (MSN/FNP) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Nursing (MSN) program enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares registered nurses to function in leadership and advanced practice roles within the profession of nursing. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care. Students complete core courses in advanced nursing content, process, and leadership. Specialty concentrations allow students to focus learning on developing increased knowledge and skills in a specific area of content or advanced practice role.

The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791. View state licensure requirements for this program: www.phoenix.edu/state-licensure-requirements/nursing

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Synthesize Advanced Practice assessment to generate accurate clinical decisions.
• Integrate theory and evidence to provide holistic health care services to improve or maintain optimum health for all family members.
• Manage holistic health care for individuals and diverse populations across the life span.
• Integrate ethical principles in delivering care to patients across the lifespan.
• Synthesize state Nurse Practice Acts and/or regulatory guidelines to practice lawfully.

Program Purpose

The Master of Science in Nursing/Family Nurse Practitioner is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a master’s degree and prepare for advanced practice as a family nurse practitioner (FNP). The program educationally prepares nurses for advanced practice, including how to function in leadership roles in practice and educational settings, and emphasizes comprehensive, preventative care in addition to treatment. As part of this program, students are required to complete a five-day residency on campus that requires the student to fulfill competency checkoffs of both clinical and procedural skills under the direction of faculty. Graduates are eligible to sit for the American Nurses Credentialing Center (ANCC) Family Nurse Practitioner–Board Certified (FNP-BC) credential or the American Association of Nurse Practitioners (AANP) Family Nurse Practitioner–Certified (FNP-C) credential.

Preferred Sequence and Prerequisites for MSN/FNP

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Students must successfully complete all clinical requirements in the 5-day immersive experience (residency) during the final week of NRP 571.

NRP 513 ~ ................................................................................4 credits
Clinical Applications of Theory and Research
NRP 508 ~ .................................................................4 credits
Health Policy and Role of the Advanced Practice Nurse
NRP 511 ~ .................................................................4 credits
Advanced Pathophysiology
NRP 507 ~ .................................................................4 credits

Management of Women’s Health Issues .......................... 4 credits
NRP 543 ~ ................................................................. 4 credits
Management of Pediatric and Adolescent Populations
NRP 590 ~ ................................................................. 8 credits
Final Preceptorship
The University reserves the right to modify the required course of
study.

Additional Admission Requirements for the MSN/FNP

All applicants are expected to meet the following admissions
requirements:
• An undergraduate degree or higher with an upper division
   major in nursing from a college or university with approved
   institutional accreditation, or comparable undergraduate
   bachelor’s degree or higher earned at a recognized foreign
   institution. If the institution became accredited while the
   student was attending, a minimum of 75% of the coursework
   taken toward the degree must have been completed while the
   institution was accredited or during the candidacy period.
• Students with undergraduate degree or higher in a field other
   than nursing from a college or university with approved
   institutional accreditation are required to enroll in the MSN/
   FNP Bridge program.
• A cumulative GPA of 3.0 for all coursework listed on the degree
   posted transcript at the same level as the conferred degree (i.e.,
   graduate or doctoral) is required for admission. Transfer
   coursework that was earned outside of the institution that
   conferred the degree will not be calculated into the cumulative
   GPA for admissibility.
• Equivalent grade of “C” or better in undergraduate core science
   courses. Core science courses may include: Chemistry, Biology,
   Anatomy & Physiology, Pharmacology, Pathophysiology and
   Microbiology.
• A minimum equivalent of three years of full-time post high
   school work experience within the past ten years of which two
   years must be in clinical based RN experience. Full-time work is
defined as 32 hours per week for the MSN/FNP program.
• Applicants must reside in the United States or in one of the US
   Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant
   holds an active nursing license. For applicants holding licenses
   in multiple jurisdictions, all active licenses must be valid,
   unrestricted / unencumbered through the duration of the
   program. Applicants from the following territories must also
   hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful
   completion of the US NCLEX-RN exam:
   • Guam
   • American Samoa
   • Northern Mariana Islands
   • US Virgin Islands
   • Puerto Rico
• Nursing students in the state of Florida attending ground based
   or FlexNet MSN or RN/BSN programs must hold a RN license
   from the state of Florida for admissions, as mandated by the
   Florida State Board of Nursing.
• Military and VA nursing students may hold a RN license from
   any state as ruled by federal guidelines. Clinical placement of
   military or VA students must be completed in VA or military
   environments or the student is subject to obtaining a Florida RN
   license for placement.
• Signed Professional Non-Academic Requirement form
• Signed Residency Agreement form
• Signed Criminal Background Check Disclosure
• Signed Acknowledgement of Criminal Conviction Prohibition
  for Placement and Licensure
• Completed and verified negative criminal background check;
  criminal background check cannot have been completed more
  than one year prior to the Admission Agreement sign date.
• Signed FERPA Release/Drug Test or Failure to Test Results
• Signed Clinical Assurance Statement form
• Successful completion of FNP 101, MSN/FNP Program
  Orientation. If the student does not pass their first attempt of
  FNP 101 because of an unacceptable grade, the student may
  make a second attempt to complete FNP 101 within 90 days. A
  student failing FNP 101 on the second attempt must wait 6
  months before reapplying. Passing FNP 101 is limited to a total
  of three attempts.

If a student who has successfully completed FNP 101 does not
begin their program within one year from the date the
Enrollment Agreement was signed, the student will need to
successfully complete FNP 101 again before beginning the
program. By signing a new Enrollment Agreement to replace the
expired form, students will again have a total of three attempts
to successfully complete FNP 101. Prior attempts under the
expired Enrollment Agreement will not count toward these
three attempts.

Degree Requirements for the MSN/FNP

• Completion of a minimum of 48 credits:
  • Required Course of Study: 48 credits
  • A minimum program grade point average (GPA) of 3.0.
• Satisfactory completion of the Nurse Practitioner Preceptorship
  and all required clinical hours.
• The diploma awarded for this program will read as:
  Master of Science in Nursing
Family Nurse Practitioner

Academic Progression Requirements for the MSN/FNP

MSN, and post-master’s certificate students must possess a valid,
unrestricted/unencumbered RN license in the state which they are
completing clinical hours or possess a valid, unrestricted/unencumbered compact (multistate) state license that is recognized in
the state in which they are completing clinical hours. RN licenses
must be valid and unrestricted/unencumbered in all states and
jurisdictions in which the applicant holds an active nursing license.
All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. VA and active duty
military students are allowed to practice nursing in a state or coun-
try where they are not licensed as long as they are practicing nurs-
ing in a federal facility. If any RN license held by the student
becomes restricted or encumbered, the student will be restricted
from scheduling future courses and will be removed from any
course they are currently attending.
All General Policies and Standards as listed in the Nursing Program Handbook must be met and verified prior to any clinical experience and must be maintained throughout the duration of all clinical activities.
Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.
All Clinical Case Logs and Time Logs must be submitted within 30 days of the activity. Clinical log hours not submitted within 30 days will be denied and not count towards clinical hour requirements for the course.
Students may have only one In Progress (IP) grade on their records at a time.
Minimum Grade Requirements for the MSN/FNP
- Students must successfully complete all required graduate level courses with a grade of "B" or better before proceeding to the next course. A "B-" grade is not acceptable. If students do not pass a required course with a "B" or better, they will be scholastically disqualified. Students in the Bridge version of the MSN/FNP or the MSN/FNP-CA are required to earn a minimum grade of "C" in the MSN bridge courses. A "C-" grade is not acceptable. If students do not pass the courses with a "C" or better, they will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
  - Complete of the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
  - Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/FNP
Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 32 credits in the Required Course of Study, must be completed at UOPX.
Students with a previously completed MSN degree from any institution will be eligible to waive NRP/513 upon admission to the program.
Students in this program may waive a maximum of 16 credits from their required course of study upon review by the Dean of Nursing via a SAC Appeal.
In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form.
The following courses in the Required Course of Study may not be waived: NRP 507, NRP 531, NRP 543, NRP 555, NRP 556, NRP 563, NRP 571, NRP 590
Re-entry for the MSN/FNP
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Students seeking re-entry into a program version that is accepting new enrollments and is the most current in their state or jurisdiction are required to submit an appeal to the Student Appeals Center.
- Students seeking re-entry into MSN/FNP will not carry forward a previously applied waiver for NRP 507.
- No appeals will be accepted for re-entry to an expired program.
Master of Science in Nursing/Family Nurse Practitioner (Bridge)

The following Master of Science in Nursing/Family Nurse Practitioner (MSN/FNP) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Science in Nursing (MSN) program enhances the knowledge and skills of registered nurses with baccalaureate-degree preparation. The program prepares registered nurses to function in leadership and advanced practice roles within the profession of nursing. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care. Students complete core courses in advanced nursing content, process, and leadership. Specialty concentrations allow students to focus learning on developing increased knowledge and skills in a specific area of content or advanced practice role. The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Synthesize Advanced Practice assessment to generate accurate clinical decisions.
• Integrate theory and evidence to provide holistic health care services to improve or maintain optimum health for all family members.
• Manage holistic health care for individuals and diverse populations across the life span.
• Integrate ethical principles in delivering care to patients across the lifespan.
• Synthesize state Nurse Practice Acts and/or regulatory guidelines to practice lawfully.

Program Purpose

The Master of Science in Nursing/Family Nurse Practitioner is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a master’s degree and prepare for advanced practice as a family nurse practitioner (FNP). The program educationally prepares nurses for advanced practice, including how to function in leadership roles in practice and educational settings, and emphasizes comprehensive, preventative care in addition to treatment. As part of this program, students are required to complete a five- day residency on campus that requires the student to fulfill competency checkoffs of both clinical and procedural skills under the direction of faculty. Graduates are eligible to sit for the American Nurses Credentialing Center (ANCC) Family Nurse Practitioner-Board Certified (FNP-C) credential.

Preferred Sequence and Prerequisites for MSN/FNP

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

To ensure course scheduling availability, the College of Nursing recommends the following course selections to satisfy the bridge requirements:

Nursing Bridge 1

NSG 416 ~ ................................................................. 3 credits
Theoretical Development and Conceptual Frameworks
NSG 415 ................................................................. 3 credits
Theory-Based Nursing Practice
NUR 403 ................................................................. 3 credits
Theories and Models of Nursing Practice

Nursing Bridge 2

NSG 451 ~ ................................................................. 3 credits
Professional Nursing Leadership Perspectives
NSG 397 ................................................................. 3 credits
Professional Nursing Role
NUR 391 ................................................................. 3 credits
Professional Nursing Practice
NUR 440 ................................................................. 3 credits
Health Assessment and Promotion for Vulnerable Population

Nursing Bridge 3

NSG 456 ~ ................................................................. 3 credits
Research Outcomes Management for the Practicing Nurse
NSG 455 ................................................................. 3 credits
Evidence-Based Practice and Statistics
NUR 443 ................................................................. 3 credits
Evidence-Based Nursing Research and Practice

Required Course of Study

Students must successfully complete all clinical requirements in the 5 day immersive experience (residency) during the final week of NRP 571.

NRP 513 ~ ................................................................. 4 credits
Clinical Applications of Theory and Research
NRP 508 ~ ................................................................. 4 credits
Health Policy and Role of the Advanced Practice Nurse
NRP 511 ~ ................................................................. 4 credits
Advanced Pathophysiology
NRP 507 ~ ................................................................. 4 credits
Advanced Pharmacology
NRP 531 ~ ................................................................. 4 credits
Advanced Health Assessment I
NRP 571 ~ ................................................................. 4 credits
Advanced Health Assessment II and Clinical Procedures
NRP 555 ~ ................................................................. 4 credits
Adult and Geriatric Management I
NRP 556 ~ ................................................................. 4 credits
Adult and Geriatric Management II
NRP 563 ~ ................................................................. 4 credits
Management of Women’s Health Issues
NRP 543 ~ ................................................................. 4 credits
Management of Pediatric and Adolescent Populations
Additional Admission Requirements for the MSN/FNP

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or comparable undergraduate bachelors degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- Students with undergraduate degree or higher in a field other than nursing from a college or university with approved institutional accreditation are required to enroll in the MSN/FNP Bridge program.

- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

- Equivalent grade of "C" or better in undergraduate core science courses. Core science courses may include: Chemistry, Biology, Anatomy & Physiology, Pharmacology, Pathophysiology and Microbiology.

- A minimum equivalent of three years of full-time post high school work experience within the past ten years of which two years must be in clinical based RN experience. Full-time work is defined as 32 hours per week for the MSN/FNP program.

- Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico

- Nursing students in the state of Florida attending ground based or FlexNet MSN or RN/BSN programs must hold a RN license from the state of Florida for admissions, as mandated by the Florida State Board of Nursing.

- Military and VA nursing students may hold a RN license from any state as ruled by federal guidelines. Clinical placement of military or VA students must be completed in VA or military environments or the student is subject to obtaining a Florida RN license for placement.

- Signed Professional Non-Academic Requirement form

- Signed Residency Agreement form

- Signed Criminal Background Check Disclosure

- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure

- Completed and verified negative criminal background check; criminal background check cannot have been completed more than one year prior to the Enrollment Agreement sign date.

- Signed FERPA Release/Drug Test or Failure to Test Results

- Signed Clinical Assurance Statement form

- Successful completion of FNP 101, MSN/FNP Program Orientation. If the student does not pass their first attempt of FNP 101 because of an unacceptable grade, the student may make a second attempt to complete FNP 101 within 90 days. A student failing FNP 101 on the second attempt must wait 6 months before reapplying. Passing FNP 101 is limited to a total of three attempts.

If a student who has successfully completed FNP 101 does not begin their program within one year from the date the Enrollment Agreement was signed, the student will need to successfully complete FNP 101 again before beginning the program. By signing a new Enrollment Agreement to replace the expired form, students will again have a total of three attempts to successfully complete FNP 101. Prior attempts under the expired Enrollment Agreement will not count toward these three attempts.

Degree Requirements for the MSN/FNP

- Completion of a minimum of 57 credits:
  - Required Course of Study: 57 credits
  - A minimum program grade point average (GPA) of 3.0
  - Grades earned in MSN bridge courses are calculated in the MSN grade point average (GPA).
  - Satisfactory completion of the Nurse Practitioner Preceptorship and all required clinical hours.
  - The diploma awarded for this program will read as: Master of Science in Nursing Family Nurse Practitioner
**Academic Progression Requirements for the MSN/FNP**

MSN, and post-master's certificate students must possess a valid, unrestricted/unencumbered RN license in the state in which they are completing clinical hours or possess a valid, unrestricted/unencumbered compact (multistate) state license that is recognized in the state in which they are completing clinical hours. RN licenses must be valid and unrestricted/unencumbered in all states and jurisdictions in which the applicant holds an active nursing license. All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. VA and active duty military students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.

All General Policies and Standards as listed in the Nursing Program Handbook must be met and verified prior to any clinical experience and must be maintained throughout the duration of all clinical activities.

Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test. All Clinical Case Logs and Time Logs must be submitted within 30 days of the activity. Clinical log hours not submitted within 30 days will be denied and not count towards clinical hour requirements for the course.

Students may have only one In Progress (IP) grade on their records at a time.

**Minimum Grade Requirements for the MSN/FNP**

- Students must successfully complete all required graduate level courses with a grade of “B” or better before proceeding to the next course. A “B-” grade is not acceptable. If students do not pass a required course with a “B” or better, they will be scholastically disqualified. Students in the Bridge version of the MSN/FNP or the MSN/FNP-CA are required to earn a minimum grade of “C” in the MSN bridge courses. A “C-” grade is not acceptable. If students do not pass the courses with a “C” or better, they will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.

- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.

- Complete of the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.

- Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

**Residency Requirements and Course Waivers for the MSN/FNP**

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 32 credits in the Required Course of Study, must be completed at UOPX.

Students with a previously completed MSN degree from any institution will be eligible to waive NRP/513 upon admission to the program. Students in this program may waive a maximum of 16 credits from their required course of study upon review by the Dean of Nursing via a SAC Appeal.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form.

The following courses in the Required Course of Study may not be waived: NRP 507, NRP 531, NRP 543, NRP 555, NRP 556, NRP 563, NRP 571, NRP 590

**Re-entry for the MSN/FNP**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Students seeking re-entry into a program version that is accepting new enrollments and is the most current in their state or jurisdiction are required to submit an appeal to the Student Appeals Center.
- Students seeking re-entry into MSN/FNP Bridge will not carry forward a previously applied waiver for NRP 507.
- No appeals will be accepted for re-entry to an expired program.
The Master of Science in Nursing (MSN) program enhances the knowledge and skills of registered nurses with baccalaureate degree preparation. The program prepares registered nurses to function in leadership and advanced practice roles within the profession of nursing. Advanced nursing theory and research provide the foundation for nurses to influence the future of nursing and health care. Students complete core courses in advanced nursing content, process, and leadership. Specialty concentrations allow students to focus learning on developing increased knowledge and skills in a specific area of content or advanced practice role.

The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791. The baccalaureate degree program in nursing at University of Phoenix is also accredited by the American Association of Colleges of Nursing, 211 East Wisconsin Avenue, Suite 2200, Milwaukee, WI 53202-5200, 414-272-4600.

Program Purpose

The Master of Science in Nursing/Family Nurse Practitioner is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a master’s degree and prepare for advanced practice as a family nurse practitioner (FNP). The program educationally prepares nurses for advanced practice, including how to function in leadership roles in practice and educational settings, and emphasizes comprehensive, preventative care in addition to treatment. As part of this program, students are required to complete a five-day residency on campus that requires the student to fulfill competency checkoffs of both clinical and procedural skills under the direction of faculty. Graduates are eligible to sit for the American Nurses Credentialing Center (ANCC) Family Nurse Practitioner-Board Certified (FNP-BC) credential or the American Association of Nurse Practitioners (AANP) Family Nurse Practitioner-Certified (FNP-C) credential.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Synthesize Advanced Practice assessment to generate accurate clinical decisions.
- Integrate theory and evidence to provide holistic health care services to improve or maintain optimum health for all family members.
- Manage holistic health care for individuals and diverse populations across the life span.
- Integrate ethical principles in delivering care to patients across the lifespan.
- Synthesize state Nurse Practice Acts and/or regulatory guidelines to practice lawfully.

Preferred Sequence and Prerequisites for MSN/FNP-CA

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Students must successfully complete all clinical requirements in the 5-day immersive experience (residency) during the final week of NRP 571CA.

Management of Pediatric and Adolescent Populations
NRP 590CA ~ ..............................................................................8 credits
Final Preceptorship

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSN/FNP-CA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or comparable undergraduate bachelors degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Students with undergraduate degree or higher in a field other than nursing from a college or university with approved institutional accreditation are required to enroll in the MSN/FNP-CA Bridge program.
- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Equivalent grade of “C” or better in undergraduate core science courses. Core science courses may include: Chemistry, Biology, Anatomy & Physiology, Pharmacology, Pathophysiology and Microbiology.
• A minimum equivalent of three years of full-time post high school work experience within the past ten years of which two years must be in clinical based RN experience. Full-time work is defined as 32 hours per week for the MSN/FNP-CA program.
• Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  • Guam
  • American Samoa
  • Northern Mariana Islands
  • US Virgin Islands
  • Puerto Rico
• Signed Professional Non-Academic Requirement form
• Signed Residency Agreement form
• Signed Criminal Background Check Disclosure
• Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
• Completed and verified negative criminal background check; criminal background check cannot have been completed more than one year prior to the Enrollment Agreement sign date.
• Signed FERPA Release/Drug Test or Failure to Test Results
• Signed Clinical Assurance Statement form
• Successful completion of FNP 101, MSN/FNP Program Orientation. If the student does not pass their first attempt of FNP 101 because of an unacceptable grade, the student may make a second attempt to complete FNP 101 within 90 days. A student failing FNP 101 on the second attempt must wait 6 months before reapplying. Passing FNP 101 is limited to a total of three attempts.

If a student who has successfully completed FNP 101 does not begin their program within one year from the date the Enrollment Agreement was signed, the student will need to successfully complete FNP 101 again before beginning the program. By signing a new Enrollment Agreement to replace the expired form, students will again have a total of three attempts to successfully complete FNP 101. Prior attempts under the expired Enrollment Agreement will not count toward these three attempts.

Degree Requirements for the MSN/FNP-CA
• Completion of a minimum of 48 credits:
  • Required Course of Study: 48 credits
  • A minimum program grade point average (GPA) of 3.0.
  • Satisfactory completion of the Nurse Practitioner Preceptorship and all required clinical hours.
  • The diploma awarded for this program will read as: Master of Science in Nursing Family Nurse Practitioner

Academic Progression Requirements for the MSN/FNP-CA
• MSN, and post-master's certificate students must possess a valid, unrestricted / unencumbered RN license in the state which they are completing clinical hours or possess a valid, unrestricted / unencumbered compact (multistate) state license that is recognized in the state in which they are completing clinical hours. RN licenses must be valid and unrestricted / unencumbered in all states and jurisdictions in which the applicant holds an active nursing license.

All active licenses must remain valid and unrestricted / unencumbered through the duration of the program. VA and active duty military students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
• All General Policies and Standards as listed in the Nursing Program Handbook must be met and verified prior to any clinical experience and must be maintained throughout the duration of all clinical activities.

If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Students with undergraduate degree or higher in a field other than nursing from a college or university with approved institutional accreditation are required to enroll in the MSN/FNP-CA Bridge program.
- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Equivalent grade of “C” or better in undergraduate core science courses. Core science courses may include: Chemistry, Biology, Anatomy & Physiology, Pharmacology, Pathophysiology and Microbiology.
- A minimum equivalent of three years of full-time post high school work experience within the past ten years of which two years must be in clinical based RN experience. Full-time work is defined as 32 hours per week for the MSN/FNP-CA program.
- Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico
  - Signed Professional Non-Academic Requirement form
  - Signed Residency Agreement form
  - Signed Criminal Background Check Disclosure
  - Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
Completed and verified negative criminal background check; criminal background check cannot have been completed more than one year prior to the Enrollment Agreement sign date.

Signed FERPA Release/Drug Test or Failure to Test Results

Signed Clinical Assurance Statement form

Successful completion of FNP 101, MSN/FNP Program Orientation. If the student does not pass their first attempt of FNP 101 because of an unacceptable grade, the student may make a second attempt to complete FNP 101 within 90 days. A student failing FNP 101 on the second attempt must wait 6 months before reapplying. Passing FNP 101 is limited to a total of three attempts.

If a student who has successfully completed FNP 101 does not begin their program within one year from the date the Enrollment Agreement was signed, the student will need to successfully complete FNP 101 again before beginning the program. By signing a new Enrollment Agreement to replace the expired form, students will again have a total of three attempts to successfully complete FNP 101. Prior attempts under the expired Enrollment Agreement will not count toward these three attempts.

**Degree Requirements for the MSN/FNP-CA**

- Completion of a minimum of 57 credits
- Required Course of Study: 57 credits
- A minimum program grade point average (GPA) of 3.0. Grades earned in MSN bridge courses are calculated in the MSN grade point average (GPA).
- Satisfactory completion of the Nurse Practitioner Preceptorship and all required clinical hours.
- The diploma awarded for this program will read as: Master of Science in Nursing
  Family Nurse Practitioner

**Academic Progression Requirements for the MSN/FNP-CA**

- MSN, and post-master’s certificate students must possess a valid, unrestricted/unencumbered RN license in the state which they are completing clinical hours or possess a valid, unrestricted/unencumbered compact (multistate) state license that is recognized in the state in which they are completing clinical hours. RN licenses must be valid and unrestricted/unencumbered in all states and jurisdictions in which the applicant holds an active nursing license.
- All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. VA and active duty military students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
- All General Policies and Standards as listed in the Nursing Program Handbook must be met and verified prior to any clinical experience and must be maintained throughout the duration of all clinical activities.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.
- All Clinical Case Logs and Time Logs must be submitted within 30 days of the activity. Clinical log hours not submitted within 30 days will be denied and not count towards clinical hour requirements for the course.
- Students may have only one In Progress (IP) grade on their records at a time.

**Minimum Grade Requirements for the MSN/FNP-CA**

- Students must successfully complete all required graduate level courses with a grade of “B” or better before proceeding to the next course. A “B-” grade is not acceptable. If students do not pass a required course with a “B” or better, they will be scholastically disqualified. Students in the Bridge version of the MSN/FNP or the MSN/FNP-CA are required to earn a minimum grade of “C” in the MSN bridge courses. A “C-” grade is not acceptable. If students do not pass the courses with a “C” or better, they will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
  - Complete of the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
  - Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

**Residency Requirements and Course Waivers for the MSN/FNP-CA**

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 32 credits in the Required Course of Study, must be completed at UOPX. Students with a previously completed MSN degree from any institution will be eligible to waive NRP 513CA upon admission to MSN/FNP-CA.

Students in this program may waive a maximum of 16 credits from their required course of study upon review by the Dean of Nursing via a SAC Appeal.
In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form.
- The following courses in the Required Course of Study may not be waived: NRP 507CA, NRP 531CA, NRP 543CA, NRP 555CA, NRP 556CA, NRP 563CA, NRP 571CA, NRP 590CA

Re-entry for the MSN/FNP-CA

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Students seeking re-entry into a program version that is accepting new enrollments and is the most current in their state or jurisdiction are required to submit an appeal to the Student Appeals Center.
- Students seeking re-entry into MSN/FNP (California Bridge) will not carry forward a previously applied waiver for NRP 507CA.
- No appeals will be accepted for re-entry to an expired program.

Master of Science in Nursing/Psychiatric Mental Health Nurse Practitioner

The following Master of Science in Nursing/Psychiatric Mental Health Nurse Practitioner (MSN/PMH) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The mission of the Master of Science in Nursing Psychiatric Mental Health Nurse Practitioner (MSN/PMH) program is to prepare students for positions as advanced practice registered nurses who provide neuropsychiatric care and treatment for a diverse psychiatric patient population in a variety of healthcare settings. Students will employ an array of techniques to holistically care for and treat patients with mental disorders. The program will provide students with knowledge and skills related to neuropsychiatric assessment, prevention, selfcare management, psychotherapeutic interventions, pharmacological management, and addiction services for people living with neuropsychiatric/mental disorders across the lifespan.

The baccalaureate degree program in nursing and master’s degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:

- Synthesize advanced practice assessment to generate accurate clinical diagnosis
- Integrate theory and evidence to provide holistic healthcare services to improve or maintain optimum health for all family members.
- Manage holistic healthcare for individuals and diverse populations across the life span.
- Integrate ethical principles in delivering care to patients across the lifespan.
- Synthesize state Nurse Practice Acts and/or regulatory guideline to practice lawfully.
- Apply principles of quality and safety to improve patient-centered outcomes across the life span.

Program Purpose

The Master of Science in Nursing Psychiatric Mental Health Nurse Practitioner (MSN/PMH) program prepares registered nurses (RNs) for advanced practice as a PMHNP. In this role, the advanced practice registered nurse (APRN) holistically cares for patients with neuropsychiatric/mental disorders to include the prescribing of psychotropic medication, the provision of psychotherapy and addiction services, and the promotion of selfcare management skills. Graduates of the MSN/PMH program are eligible to sit for the American Nurses Credentialing Center (ANCC) PMHNP national certification examination.

Preferred Sequence and Prerequisites for the MSN/PMH

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). MSN/PMH students must successfully complete all clinical requirements in the 5 day immersive experience (residency) during the final week of NRP 571.

NRP 513 ~ ........................................................................ 4 credits
Clinical Applications of Theory and Research
NRP 508 ~ ........................................................................ 4 credits
Health Policy and Role of the Advanced Practice Nurse
NRP 511 ~ ........................................................................ 4 credits
Advanced Pathophysiology
NRP 507 ~ ........................................................................ 4 credits
Advanced Pharmacology
NRP 531 ~ ........................................................................ 4 credits
Advanced Health Assessment I
NRP 571 ~ ........................................................................ 4 credits
Advanced Health Assessment II and Clinical Procedures
PMH 501 ~ ........................................................................ 4 credits
Neuropsychiatric Disorders
PMH 502 ~ .................................................................4 credits
Neuropsychiatric Pharmacology
PMH 503 ~ .................................................................4 credits
Psychotherapy for Individuals, Families, and Groups
PMH 504 ~ .................................................................4 credits
Psychiatric Management of Adult and Geriatric Patients
PMH 505 ~ .................................................................4 credits
Psychiatric Management of Children and Adolescents
PMH 506 ~ .................................................................8 credits
Psychiatric Mental Healthcare Across the Life Span

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSN/PMH

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Students with undergraduate degree or higher in a field other than nursing from a college or university with approved institutional accreditation are required to enroll in the MSN/PMH Bridge program.
- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Equivalent grade of "C" or better in undergraduate core science courses. Core science courses may include: Chemistry, Biology, Anatomy & Physiology, Pharmacology, Pathophysiology and Microbiology.
- A minimum equivalent of three years of full-time post high school work experience within the past ten years of which two years must be in clinical based RN experience. Full-time work is defined as 32 hours per week for the MSN/PMH program.
- Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico
- Signed Professional Non-Academic Requirement form
- Signed Residency Agreement form
- Signed Criminal Background Check Disclosure
- Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
- Completed and verified negative criminal background check; criminal background check cannot have been completed more than one year prior to the Enrollment Agreement sign date.
- Signed FERPA Release/Drug Test or Failure to Test Results
- Signed Clinical Assurance Statement form
- Successful completion of PMH 101, MSN/PMH Program Orientation. If the student does not pass their first attempt of PMH 101 because of an unacceptable grade, the student may make a second attempt to complete PMH 101 within 90 days. A student failing PMH 101 on the second attempt must wait 6 months before reapplying. Passing PMH 101 is limited to a total of three attempts.
- If a student who has successfully completed PMH/101 does not begin their program within one year from the date the Enrollment Agreement was signed, the student will need to successfully complete PMH/101 again before beginning the program. By signing a new Enrollment Agreement to replace the expired form, students will again have a total of three attempts to successfully complete PMH/101. Prior attempts under the expired Enrollment Agreement will not count toward these three attempts.

Degree Requirements for the MSN/PMH

- Completion of a minimum of 52 credits:
  - Required Course of Study: 52 credits
  - A minimum program grade point average (GPA) of 3.0.
  - Satisfactory completion of the Psychiatric Mental Health Nurse Practitioner Preceptorship and all required clinical hours.
  - The diploma awarded for this program will read as:
    - Master of Science in Nursing
    - Psychiatric Mental Health Nurse Practitioner

Academic Progression Requirements for the MSN/PMH

- MSN and post-master's certificate students must possess a valid, unrestricted/unencumbered RN license in the state in which they are completing clinical hours or possess a valid, unrestricted/unencumbered compact (multistate) state license that is recognized in the state in which they are completing clinical hours. RN licenses must be valid and unrestricted/unencumbered in all states and jurisdictions in which the applicant holds an active nursing license.

All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. VA and active duty military students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.

- All General Policies and Standards as listed in the Nursing Program Handbook must be met and verified prior to any clinical experience and must be maintained throughout the duration of all clinical activities.
• Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a "for-cause" 15 panel, plus alcohol drug test.
• Students may have only one In Progress (IP) grade on their records at a time.

Minimum Grade Requirements for the MSN/PMH
• Students must successfully complete all required graduate level courses with a grade of "B" or better before proceeding to the next course. A "B-" is not acceptable. If students do not pass a required course with a "B" or better, they will be scholastically disqualified. Students in the Bridge version of the MSN/PMH are required to earn a minimum grade of "C" in the MSN bridge courses. A "C-" is not acceptable. If students do not pass the courses with a "C" or better, they will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
  • Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair or designee.
  • Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/PMH
Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 36 credits in the Required Course of Study, must be completed at UOPX.
Students with a previously completed MSN degree from any institution will be eligible to waive NRP 513 upon admission to MSN/PMH.
Students in this program may waive a maximum of 16 credits from their required course of study upon review by the Dean of Nursing via a SAC Appeal.
In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  • The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
  • The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
  • The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form.

The following courses in the Required Course of Study may not be waived: NRP 507, NRP 531, NRP 571, PMH 503, PMH 504, PMH 505, PMH 506

Re-Entry for the MSN/PMH
• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Students seeking re-entry into a program version that is accepting new enrollments and is the most current in their state or jurisdiction are required to submit an appeal to the Student Appeals Center.
• Students seeking re-entry into MSN/FNP will not carry forward a previously applied waiver for NRP 507.
• No appeals will be accepted for re-entry to an expired program.

Master of Science in Nursing/Psychiatric Mental Health Nurse Practitioner Bridge

The following Master of Science in Nursing/Psychiatric Mental Health Nurse Practitioner Bridge (MSN/PMH) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The mission of the Master of Science in Nursing Psychiatric Mental Health Nurse Practitioner (MSN/PMH) program is to prepare students for positions as advanced practice registered nurses who provide neuropsychiatric care and treatment for a diverse psychiatric patient population in a variety of healthcare settings. Preferred Sequence and Prerequisites for the MSN/PMH
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

MSN/PMH Bridge students must successfully complete all clinical requirements in the 5 day immersive experience (residency) during the final week of NRP 571.

Nursing Bridge 1
NSG 416 is the preferred option to satisfy the Nursing Bridge 1 requirement.

NSG 416 ~ .................................................................3 credits
Theoretical Development and Conceptual Frameworks
NSG 415 ~ .................................................................3 credits
Theory-Based Nursing Practice
NUR 403 ~ .................................................................3 credits
Theories and Models of Nursing Practice

Nursing Bridge 2
NSG 451 is the preferred option to satisfy Nursing Bridge 2.

NSG 451 ~ .................................................................3 credits
Professional Nursing Leadership Perspectives
NSG 397 ~ .................................................................3 credits
Professional Nursing Role
NUR 401 ~ .................................................................3 credits
Professional Nursing Practice
NUR 440 ~ .................................................................3 credits
Health Assessment and Promotion for Vulnerable Population

Nursing Bridge 3
NSG 456 is the preferred course option to satisfy the Nursing Bridge 3 requirement.

NSG 456 ~ .................................................................3 credits
Research Outcomes Management for the Practicing Nurse
NSG 455 ~ .................................................................3 credits
Evidence-Based Practice and Statistics

NUR 443 ~ .................................................................3 credits
Evidence-Based Nursing Research and Practice

Required Course Sequence

NRP 513 ~ .................................................................4 credits
Clinical Applications of Theory and Research
NRP 508 ~ .................................................................4 credits
Health Policy and Role of the Advanced Practice Nurse
NRP 511 ~ .................................................................4 credits
Advanced Pathophysiology
NRP 507 ~ .................................................................4 credits
Advanced Pharmacology
NRP 531 ~ .................................................................4 credits
Advanced Health Assessment I

Additional Admission Requirements for the MSN/PMH
All applicants are expected to meet the following admissions requirements:
• An undergraduate degree or higher with an upper division major in nursing from a college or university with approved institutional accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
• Students with undergraduate degree or higher in a field other than nursing from a college or university with approved institutional accreditation are required to enroll in the MSN/PMH Bridge program.
• A cumulative GPA of 3.0 for all coursework listed on the degree transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admittance.
• Equivalent grade of “C” or better in undergraduate core science courses. Core science courses may include: Chemistry, Biology, Anatomy & Physiology, Pharmacology, Pathophysiology and Microbiology.
• A minimum equivalent of three years of full-time post high school work experience within the past ten years of which two years must be in clinical based RN experience. Full-time work is defined as 32 hours per week for the MSN/PMH program.
• Applicants must reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico
• Signed Professional Non-Academic Requirement form
• Signed Residency Agreement form
• Signed Criminal Background Check Disclosure
• Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
• Completed and verified negative criminal background check; criminal background check cannot have been completed more than one year prior to the Enrollment Agreement sign date.
• Signed FERPA Release/Drug Test or Failure to Test Results
• Signed Clinical Assurance Statement form
• Successful completion of PMH 101, MSN/PMH Program Orientation. If the student does not pass their first attempt of PMH 101 because of an unacceptable grade, the student may make a second attempt to complete PMH 101 within 90 days. A student failing PMH 101 on the second attempt must wait 6 months before reapplying. Passing PMH 101 is limited to a total of three attempts.
If a student who has successfully completed PMH/101 does not begin their program within one year from the date the Enrollment Agreement was signed, the student will need to successfully complete PMH/101 again before beginning the program. By signing a new Enrollment Agreement to replace the expired form, students will again have a total of three attempts to successfully complete PMH/101. Prior attempts under the expired Enrollment Agreement will not count toward these three attempts.

Degree Requirements for the MSN/PMH
• Completion of a minimum of 61 credits:
  • Required Course of Study: 61 credits
  • A minimum program grade point average (GPA) of 3.0.
  • Satisfactory completion of the Psychiatric Mental Health Nurse Practitioner Preceptorship and all required clinical hours.
  • The diploma awarded for this program will read as: Master of Science in Nursing Psychiatric Mental Health Nurse Practitioner

Academic Progression Requirements for the MSN/PMH
• MSN and post-master’s certificate students must possess a valid, unrestricted/unencumbered RN license in the state which they are completing clinical hours or possess a valid, unrestricted/unencumbered compact (multistate) state license that is recognized in the state in which they are completing clinical hours. RN licenses must be valid and unrestricted/unencumbered in all states and jurisdictions in which the applicant holds an active nursing license.
All active licenses must remain valid and unrestricted/unencumbered through the duration of the program. VA and active duty military students are allowed to practice nursing in a state or country where they are not licensed as long as they are practicing nursing in a federal facility. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
• All General Policies and Standards as listed in the Nursing Program Handbook must be met and verified prior to any clinical experience and must be maintained throughout the duration of all clinical activities.
• Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.
• Students may have only one In Progress (IP) grade on their records at a time.

Minimum Grade Requirements for the MSN/PMH
• Students must successfully complete all required graduate level courses with a grade of “B” or better before proceeding to the next course. A “B-” is not acceptable. If students do not pass a required course with a “B” or better, they will be scholastically disqualified. Students in the Bridge version of the MSN/PMH are required to earn a minimum grade of “C” in the MSN bridge courses. A “C-” is not acceptable. If students do not pass the courses with a “C” or better, they will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the retake of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:

- Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
- Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair or designee.
- Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.

Residency Requirements and Course Waivers for the MSN/PMH

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 36 credits in the Required Course of Study, must be completed at UOPX.

Students with a previously completed MSN degree from any institution will be eligible to waive NRP 513 upon admission to MSN/PMH.

Students seeking re-entry into a program version that is no longer available by submitting the following to the Program Chair or designee:

- Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair or designee.

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Re-Entry for the MSN/PMH

- Students seeking re-entry into a program version that is accepting new enrollments and is the most current in their state or jurisdiction are required to submit an appeal to the Student Appeals Center.
- Students seeking re-entry into MSN/FNP will not carry forward a previously applied waiver for NRP 507.
- No appeals will be accepted for re-entry to an expired program.

Doctor of Nursing Practice

The following Doctor of Nursing Practice (DNP) program is offered at both University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Doctor of Nursing Practice (DNP) builds on the foundation of the graduate nursing competencies. Students who have achieved a master’s in nursing will complete 31 credits in doctoral education. Program content focuses on advocacy; scientific evidence and innovations for improvement in patient and health care outcomes; leadership strategies; and accountability to transform health care delivery by designing, evaluating, and continuously improving the context within health care delivery. Graduates are prepared for the expanding role functions and the needs of advanced nursing practice. Graduates of the DNP, with a blend of clinical, organizational, economic, and leadership skills, are prepared to significantly influence health care outcomes.

Program Purpose

The Doctorate of Nursing Practice degree program prepares graduates in innovative and evidence-based nursing practice that integrates evaluation and application of research evidence and leadership into practice, and develops a commitment to scholarship and advancement of the nursing profession. This program does not prepare students for any type of professional certification or state licensure as a nurse or an Advanced Practice Nurse.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate scientific underpinnings to advance nursing practice and improve the health care environment following state Nurse Practice Acts and/or regulatory guidelines.
- Construct leadership strategies to improve health care outcomes.
- Translate scientific evidence and innovations to improve population health status and care outcomes.
- Synthesize scholarly evidence, judgment and accountability in designing, delivering and evaluating a project to impact health outcomes.
DNP Program Category Requirements
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Doctoral Foundations of Practice Scholarship, 1 total credit**
DNP 700 ~ ................................. 1 credit

**DNP Expectations Seminar**

**Improvement Science, 9 total credits**
DNP 701 ~ ........................................ 3 credits
Biostatistics and Epidemiology
DNP 710 ~ ........................................ 3 credits
Evidence-Based Practice Measurement and Clinical Inquiry
DNP 715 ~ ........................................ 3 credits
Information Systems and Health Care Delivery Technology

**Leadership, 6 total credits**
DNP 725 ~ ........................................ 3 credits
Policy and Regulation in Health Care
DNP 730 ~ ........................................ 3 credits
Organizational and Systems Leadership

**Advanced Nursing Practice, 6 total credits**
DNP 705 ~ ........................................ 3 credits
Philosophy, Theory, and Science for Nursing Practice
DNP 740 ~ ........................................ 3 credits
Clinical Prevention and Population Health

**DNP Applied Project, 9 total credits**
DNP 750 ~ ........................................ 3 credits
DNP Applied Project I
DNP 751 ~ ........................................ 3 credits
DNP Applied Project II
DNP 752 ~ ........................................ 3 credits
DNP Applied Project III

The University reserves the right to modify the required course of study.

**Additional Admission Requirements for the DNP**
All applicants are expected to meet the following admissions requirements:

- A master’s degree or higher in nursing (MSN or MN) from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or equivalent graduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 3.0 for all coursework listed on the MSN or MN degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- A minimum equivalent of three years of full-time, post high school work experience within the past ten (10) years, of which one (1) year must be in a job that requires a RN license within the past three (3) years. Full-time work is defined as 32 hours per week for the DNP program.
- Current employment in a nursing role or access to an appropriate health care organization environment in which to complete the work-related course assignments.
- Approval of the Associate Dean or designee is required on the applicant’s Program Eligibility Verification form, which validates an approved admission essay.
- Applicants residing in the continental United States or in one of the US Territories must have documentation of a valid, unrestricted, unencumbered RN license in all states in which an applicant holds an active nursing license. Applicants from the following territories must also hold a RN license obtained by taking the NCLEX-RN exam. Students must provide documentation showing successful completion of the US NCLEX-RN exam:
  - Guam
  - American Samoa
  - Northern Mariana Islands
  - US Virgin Islands
  - Puerto Rico
- International students who are residents outside of the United States or approved US Territories must meet the following requirements:
  - Completion of a nursing diploma, associate’s degree in nursing, or foreign equivalent program.
  - All students, with the exception of students residing in Canada or Puerto Rico, will be required to validate their International Nursing License equivalency by CGFNS (Commission on Graduates of Foreign Nursing Schools) or ICD (International Consultants of Delaware) for RN equivalency.
  - All Canadian students must complete the RN License Verification Form and submit documentation of a valid, unrestricted, unencumbered RN license.
  - Applicants who reside in Canada must meet one of the following requirements for admission:
    - Be a legal resident of Canada
    - Be a landed immigrant
    - Have a valid visa that does not prohibit educational studies
  - A signed Foreign Nursing Memorandum of Understanding
  - A signed current Hardware/Software agreement verifying Internet access and multimedia equipped computer.
  - A signed Research Library Access Agreement.
  - Signed Criminal Background Check Disclosure
  - Signed Acknowledgement of Criminal Conviction Prohibition for Placement and Licensure
  - Signed FERPA Release/Drug Test or Failure to Test Results
  - Signed Clinical Assurance Statement form
• Effective for admission applications or program change enrollment agreements signed 10/1/2020 or later, applicants must successfully complete DNP 101, DNP Program Orientation. If the student does not pass their first attempt of DNP 101, the student may make a second attempt to complete DNP 101 within 90 days of the end date of the first DNP 101 orientation. A student failing DNP 101 on the second attempt must wait 6 months from the end date of the second attempt before reapplying. Passing DNP 101 is limited to a total of three attempts.

If a student who has successfully completed DNP 101 does not begin their program within one year from the date the Enrollment Agreement was signed, the student will need to successfully complete DNP 101 again before beginning the program. By signing a new Enrollment Agreement to replace the expired form, students will again have a total of three attempts to successfully complete DNP 101. Prior attempts under the expired Enrollment Agreement will not count toward these three attempts.

**Degree Requirements for the DNP**

DNP students are subject to the following degree requirements:
- Completion of a minimum of 31 credits
- A minimum grade point average (GPA) of 3.0
- Students must earn a minimum of 1000 hours of post-baccalaureate practice to achieve the eight Essentials of the DNP. Episodic advanced nursing practice experiences are integrated throughout the curriculum with project courses. Within the immersion practice courses students apply, integrate, and synthesize the DNP Essentials to a leadership focused area of practice (including care management of individuals and populations, administration of nursing or healthcare organizations, health policy development and implementation), validated by measured milestones that culminate in a final DNP Applied Project.
- Written approval of the DNP Applied Project Proposal.
- Successful oral defense and written completion of the final DNP Applied Project.
- Students must hold a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For students holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program.

**Academic Standing and Minimum Grade Requirements for the DNP**

- Students must successfully complete all required courses with a grade of “B−” or better before proceeding to the next course. If students do not pass a required course with a “B−” or better, they will be scholastically disqualified. Students who fail to achieve the minimum grade requirement when they retake the course will be scholastically suspended and permanently withdrawn from the program. Students are only permitted to repeat a course one time in their program; students who successfully complete the take of a course while on scholastic disqualification, but then fail to achieve the minimum grade in a subsequent course, will be scholastically suspended and permanently withdrawn from the program.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
  - Complete the academic progression student agreement form, which must be signed by the student and submitted to the Program Chair, or designee.
  - Retake the course which placed them on scholastic disqualification and satisfy the grade requirement.
Practicum Requirements

- Up to 500 DNP practice hours may be awarded upon enrollment for:
  - National certification for advanced nursing practice,
  - Master’s nursing program practicum (academically supervised Master’s Essentials)
  - Committee or Office within a State, National, or International professional nursing organization
  - Participant in policy development and implementation
  - Other advanced practice activities that meet DNP Essentials

- The remaining required hours will be attained across the program with the following percent achievement levels prior to beginning the following DNP practice courses:
  - DNP 750 - 20%
  - DNP 751 - 50%
  - DNP 752 - 90%

Residency Requirements for the DNP

- Students must meet established University residency requirement for degree conferral. The University requires that 31 credits in the Required Course of Study, must be completed at UOPX.
- Students may not waive any courses in this program.

Re-entry for the DNP

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Students seeking re-entry into a program version that is accepting new enrollments and is the most current in their state or jurisdiction are required to submit an appeal to the Student Appeals Center.
- No appeals will be accepted for re-entry to an expired program.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
The College of Education offers graduate level degree and non-degree courses designed for future teachers and current educators. These programs are developed and taught by skilled practitioners who work in their respective fields, and emphasize knowledge, skills, dispositions, and lifelong learning as essential elements for professional practice. Each program blends theory and practice through a combination of individual and collaborative work to foster a learning environment that allows students to build their knowledge base and apply what they have learned to “impact student learning one educator at a time.” Graduate students may choose to pursue a major in a variety of areas. Graduate non-degree programs include several state-specific certificates/endorsements designed for current educators. Each student/applicant is responsible for checking with his/her state Department of Education and/or school district to determine specific credentialing requirements.

**Master of Arts in Education/Administration and Supervision**

The following Master of Arts in Education/Administration and Supervision (MAED/ADM) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education/Administration and Supervision program prepares candidates for principal licensure. The standards-based program is designed to provide principal candidates with the knowledge, skills, and dispositions necessary to be successful school leaders who can apply theory to practice. The program encompasses instructional leadership, organizational management, technology management, and data-driven decision-making. An administrative internship is an integral component of the program, providing candidates with a field-based experience in the various aspects of school administration and supervision.

The Master of Arts in Education/Administration and Supervision (MAED/ADM) is an Arizona-based program for principal licensure that provides the academic preparation to apply for initial principal certification in select states.

Principal licensure requirements vary by state. Candidates located in a state that does not provide a direct path to licensure will be required to obtain Arizona certification first, prior to seeking licensure in their home-state as an out-of-state prepared candidate. The Arizona certification process requires candidates to pass all Arizona-specific licensure requirements including any Arizona-specific exams (or home state equivalents if recognized by Arizona Department of Education).

After obtaining an Arizona principal license, candidates may be required to complete testing or other additional certification state requirements, at additional cost, in their home state to obtain state licensure there. Program requirements may change based upon state agency licensure requirements and they can be found on the principal licensure page. The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the principal licensure page regularly prior to contacting your state agency for state-specific licensure requirements.

Candidates beginning or resuming a principal program are strongly encouraged to discuss state licensure requirements with their Education Program Specialist and regularly review state specific licensure requirements in the state where they plan to practice.

This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates must keep their address up-to-date with the University and contact their Academic Advisor immediately when any change occurs to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.

**Program Purpose**

The Master of Arts in Education/Administration and Supervision is a graduate degree program intended to prepare candidates for K-12 school principal licensure. Candidates for this program have already earned a bachelor’s degree. The program includes a clinical component requiring field experiences and an administrative internship above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/principal to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a principal with any local, state or federal entity.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design and implement school leadership practices to produce a positive impact on P-12 student learning.
- Evaluate effective professional practice.
- Apply professional ethics to leadership practices.
- Evaluate community factors to address the needs of diverse populations.
- Evaluate research and synthesize information from multiple sources.
MAED/ADM Required Course of Study

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MAED/ADM

All applicants are expected to meet the following admissions requirements:

- Students enrolled in this program must have an undergraduate degree or higher from college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A minimum equivalent of three (3) years post-high school work experience including 18 months of instructional experience in a P-12 setting.
- Illinois residents: A minimum of 30 months of instructional experience in a P-12 setting.
- Idaho Residents: A minimum of 30 months of instructional experience in a P-12 setting.
- Nevada residents: A minimum of 42 months of instructional experience in a P-12 setting.
- Delaware Residents: A minimum of 42 months of instructional experience in a P-12 setting.
- Guam Residents: A minimum of 42 months of instructional experience in a P-12 setting.
- Louisiana Residents: A minimum of 42 months of instructional experience in a P-12 setting.
- New Hampshire Residents: A minimum of 42 months of instructional experience in a P-12 setting.
- New Jersey Residents: A minimum of 42 months of instructional experience in a P-12 setting.
- US Virgin Islands Residents: A minimum of 42 months of instructional experience in a P-12 setting.
- Pennsylvania Residents: A minimum of 42 months of instructional experience in a P-12 setting.
- New Mexico Residents: A minimum of 54 months of instructional experience in a P-12 setting.
- The teaching or instructional experience must be as a contracted teacher in either a traditional or year-round public or private school.
- Teaching experience is defined as stand-up teaching or facilitation with a pre-school (P)-12 school-age population. The following constitutes teaching experience:
  - Verifiable (contracted) P-12 instructional classroom experience - 40 hours per week
- All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
• Applicants must provide evidence of a current teaching license.
• The current teaching license must be a renewable standard or professional license. Licenses that are designated as temporary, substitute, emergency, probationary, intern, or other non-professional licenses will not be accepted.
• A signed MAED/ADM New Student Checklist.
• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

Additional Admission Requirements for Maryland Residents with Admissions Application or Program Change Agreement Signed 1/1/2020 or Later
• Completion of 3 semester hours in Special Education must be verified for admission.

Additional Admission Requirements for Montana Residents with Admissions Application or Program Change Agreement Signed 1/1/2020 or Later
• Completion of the online course, An Introduction to Indian Education for All, must be verified for admission.

Degree Completion Requirements for the MAED/ADM
• Completion of a minimum of 38 credits:
  • Required Course of Study: 35 credits
  • Administrative Elective: 3 credits
• A minimum grade point average (GPA) of 3.0.
• Completion of signature assignments.
• Completion of My Time Log (30 hours minimum or more as required by state of residency). To ensure student’s meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
• Satisfactory completion of any required internship and/or practicum courses with a grade of “B” or better.
• Students must take courses within a sequence specified by course prerequisite requirements.
• State Specific Requirements: Students residing in the states below must complete additional coursework prior to degree conferral
  • Direct Licensure Applicants: Students in states that accept the Arizona program in order to directly apply for initial licensure in their home state:
    - Maryland Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in Maryland must provide verification of the following:
      • Completion of three (3) semester hours in Special Education
    - Montana Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in Montana must provide verification of the following:
      • Completion of the online course, An Introduction to Indian Education for All in Montana
    - South Dakota: Students residing in South Dakota must provide verification of the following:
      • Suicide Awareness and Prevention Training
• The diploma awarded for this program will read as: Master of Arts in Education Administration and Supervision

Minimum Grade Requirement for the MAED/ADM
• Candidates must earn a “B” or better in all internship courses in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or internship: ADMIN 591A, ADMIN 591B, ADMIN 591C
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  • Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
• If the candidate does not receive a grade of “B” (3.0) or better on the second attempt, the candidate will be scholastically suspended and permanently withdrawn from program.

Residency Requirements and Course Waivers for the MAED/ADM
The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 32 graduate level credits at the University. Students in this program may waive a maximum of 6 credits from their required course of study. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
• The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, or that is a candidate for accreditation.
• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: ADMIN 591A, ADMIN 591B, ADMIN 591C, COM 516, EDD 581.

Students may satisfy the Administrative Elective requirement using a previously completed activity in leadership. The activity must be acceptable for transfer per the University transfer policies, a minimum of 2.67 semester credits, graduate level (or higher), and have been completed within the past 5 years from current program enrollment agreement sign date with a grade of B or better or comparable passing benchmark for nontraditional credits.

The College of Doctoral Studies offers a pathway opportunity for students who are interested in taking doctoral courses as part of
the master's degree program.

**Doctoral Pathway Option**

- The doctoral pathway allows a master’s degree student to substitute up to two graduate level courses with designated doctoral level courses. Upon admission to the selected doctoral degree program, students are eligible to satisfy required course(s) within the doctoral degree program.
- Students must earn a B- or better in the doctoral level courses in order to apply them toward the master’s degree program and the doctoral degree program. Students who are allowed to apply a doctoral course with a grade lower than a B- to their master's program will need to retake the course in the doctoral program to achieve a B- grade.
- Student schedules may need to be adjusted, or students will need to overlap courses since doctoral courses are eight weeks in length. Students should speak with their academic counselor and finance advisor for further information.

**Institutional Recommendation for the MAED/ADM**

- Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.
- Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Candidates may be required to verify classroom teaching experience and/or teacher certification prior to being issued an IR. Teaching experience and/or certification requirements vary by state.

**Arizona:**

- Students must verify three (3) years of classroom teaching experience prior to issuance of Institutional Recommendation.

**Illinois and Idaho:**

- Students must provide evidence of four (4) years of teaching experience for Institutional Recommendation and/or issuance of an administrative license.

**Nevada, Delaware, Guam, Louisiana, New Hampshire, New Jersey, US Virgin Islands, Pennsylvania:**

- Students must provide evidence of 5 years of teaching experience for Institutional Recommendation and/or issuance of an administrative license.

**New Mexico:**

- Students must provide evidence of six (6) years of teaching experience for Institutional Recommendation and/or issuance of administrative license.

**Hawaii:**

- Students that have applied a course waiver using the Hawaii Certification Institute for School Leaders (HICISL) Program approved by the Hawaii State Department of Education and holding a Professional School Administrator Certificate are not eligible to receive an Institutional Recommendation from the University of Phoenix.

**Internship Policies for the MAED/ADM**

- The Administrative Internship is a minimum 240-hour placement. Some states may require more than 240 hours for the Administrative Internship. Candidates will be required to follow the guidelines within their state.
- Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number prior to beginning ADMIN 591A. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.
- Each campus establishes operational policies related to placement and completion of the internship. Candidates must follow the guidelines in place at their campus.
- Candidates must take the internship courses concurrently with the internship experience. If a candidate chooses to postpone the internship, he/she must postpone their enrollment in the internship courses.
- Candidates must pass each Administrative Internship course with a grade of “B” or better in order to avoid Scholastic Disqualification.

**Removal from a placement at the request of an appointed administrator from the internship location or UOPX:**

- Candidates who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their first internship course or while transitioning between their internship courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn from the course. This experience counts as one of their two internship attempts.
- Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
- Candidates who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their internship courses, will be withdrawn from the internship course, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two internship attempts.
- Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

**Unapproved self-terminations of an internship:**

- Candidates that execute an unapproved self-termination of an internship, prior to starting and posting attendance in their first internship course or while transitioning between their internship courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn from the course. This experience counts as one of their two internship attempts.
- Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter. Candidates that execute an unapproved self-termination of their internship course, will be issued a grade of "F", and will be placed on Scholastic Disqualification. This experience counts as one of their two internship attempts. Candidates who have been out of attendance for more than one year and have completed all degree requirements, will be removed from the internship program. Upon completion of their last required course in the program, the internship experience will be removed from the program. Candidates must appeal to the Student Appeals Committee (SAC) to return to their original program version. The following Master of Arts in Education/Administration and Supervision (Non-Licensure) (California) program provides a masters degree, non-licensure, for alternative candidates who have been approved by the Student Affairs Committee on academic grounds and are not eligible for another UOPX degree. Candidates who have been approved to return to their original program version, will be reviewed by university staff. Candidates must follow necessary guidelines outlined in the program handbook/courses and will be reviewed by university staff. Administrative Internship/Practicum, 3 total credits

**Required Courses for re-entry candidates:**

- **Family, Community and Media Relations**
- **School Policy and Law for Principals**
- **Professional Communications**
- **Orientation to Administration and Supervision**
- **Leadership and Collaborative Processes**

**Preferred Sequence for the MAED/ADM2 Program:**

1. **Orientation, 0 total credits**
2. **ADMIN 500 - Orientation to Administration and Supervision, 0 credits**
3. **ADMIN 518 - Leadership and Collaborative Processes, 3 credits**
4. **ADMIN 594A - Administrative Internship/Practicum, 1 total credit**
5. **ADMIN 594B - Administrative Practicum Part II: Organizational Management, 1 credit**
6. **ADMIN 594C - Administrative Practicum Part III: Prof Perspectives & Ref Prac, 1 credit**
7. **EDD 581 - Equity, Diversity, and Access in Education, 4 credits**
8. **COM 516 - Professional Communications, 1 credit**
9. **ADMIN 518 - Leadership and Collaborative Processes, 3 credits**
10. **ADMIN 575 - Family, Community and Media Relations, 3 credits**
11. **ADMIN 576 - School Policy and Law for Principals, 3 credits**
12. **ADMIN 585 - Professional Communications, 3 credits**

**Field Experience for the MAED/ADM:**

- Candidates must complete the internship requirement within four years.
- Candidates who complete the internship within two years will be issued a grade of "P", and will be awarded a certificate of completion for successful completion of the internship.
- Candidates who complete the internship within four years will be awarded a certificate of completion for successful completion of the internship.
- Candidates who complete the internship within four years will be awarded a certificate of completion for successful completion of the internship.
- Candidates who complete the internship within four years will be awarded a certificate of completion for successful completion of the internship.
- Candidates who complete the internship within four years will be awarded a certificate of completion for successful completion of the internship.

**Co-requisite:**

If you are interested in taking any of the courses listed in the Course Guide section of the catalog (page B-1), please contact your enrollment representative for more information. The availability of programs depends on student demand and other factors. Not all campus locations: Online, depending on state of residency. The following Master of Arts in Education/Administration and Supervision (Non-Licensure) (California) program is offered by the University of Phoenix, 2022-2023.

Professional Learning for Continuous Improvement

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MAED/ADM2
All applicants are expected to meet the following admissions requirements:
• Students enrolled in this program must have an undergraduate degree or higher from college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
• Must be a California resident and have completed a California Commission on Teacher Credentialing approved Administrative Services Preliminary Certificate program, and hold a CA Preliminary Administrator Service Credential or a California Administrative Service Certificate of Eligibility, in addition to their undergraduate degree.
• All applicants must be currently employed or have access to a suitable work environment for the completion of course assignments.
• A signed MAED/ADM2 New Student Checklist.
• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admisissibility.
• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

Degree Requirements for the MAED/ADM2
• Completion of a minimum of 38 credits:
  • Required Course of Study: 35 credits
  • Administrative Elective: 3 credits
• A minimum grade point average (GPA) of 3.0.
• Satisfactory completion of any required internship and/or practicum courses with a grade of “B” or better.
• Students must take courses within a sequence specified by course prerequisite requirements.
• The diploma awarded for this program will read as: Master of Arts in Education Administration and Supervision

Minimum Grade Requirement for the MAED/ADM2
• Candidates must earn a “B” or better in all internship courses in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or internship: ADMIN 594A, ADMIN 594B, ADMIN 594C
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  • Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
  • If the candidate does not receive a grade of “B” (3.0) or better on the second attempt, the candidate will be scholastically suspended and permanently withdrawn from program.

Residency Requirements and Course Waivers for the MAED/ADM2
• The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 12 graduate level credits at the University.
• Students in this program may waive a maximum of 26 credits from their required course of study.
• In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  • The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, or that is a candidate for accreditation.
  • The course must have been completed within the last five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  • The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Candidates who have successfully completed a California Commission on Teacher Credentialing approved Administrative Services Preliminary Program and hold an approved administrative services credential from the California Commission on Teacher Credentialing that is in good standing have satisfied the principal internship/practicum experience as part of the Administrative Services licensure requirements. These candidates may waive the following courses in this program: ADMIN 500, ADMIN 518, ADMIN 524, ADMIN 535, ADMIN 565, ADMIN 575, ADMIN 594A, ADMIN 594B, ADMIN 594C, CUR 555, EDD 581

The following courses in the Required Course of Study may not be waived: ADMIN 528, ADMIN 555, ADMIN 560, ADMIN 570, COM 516

Internship/Practicum and Field Experience for the MAED/ADM2

Upon the successful completion of a California state license, a California Commission on Teacher Credentialing approved Administrative Services Preliminary Certificate program, CA residents may waive the following practicum and field experiences in this program:

Internship/Practicum Policies

- The Administrative Internship/Practicum is a minimum 240-hour placement. Each campus establishes operational policies related to placement and completion of the internship/practicum. Candidates must follow the guidelines in place at their campus.
- Candidates must take the internship/practicum courses concurrently with the internship/practicum experience. If a candidate chooses to postpone the internship/practicum, he/she must postpone their enrollment in the internship/practicum courses.
- Candidates must pass each Administrative Internship course with a grade of “B” or better in order to avoid Scholastic Disqualification.
- Removal from a placement at the request of an appointed administrator from the internship location or UOPX:
  - Candidates who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their first internship course or while transitioning between their internship courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn from the course. This experience counts as one of their two internship attempts.
    - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
  - Candidates who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their internship courses, will be withdrawn from the internship course, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two internship attempts.
    - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
- Unapproved self-terminations of an internship:
  - Candidates that execute an unapproved self-termination of an internship, prior to starting and posting attendance in their first internship course or while transitioning between their internship courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the candidates’ successful completion of their supplemental standards remediation process. This experience counts as one of their two internship attempts.
    - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
  - Candidates that execute an unapproved self-termination of an internship, after having met any amount of attendance in their internship courses, will be withdrawn from the internship course, will be issued a grade of “F”, and will be placed on Scholastic Disqualification. This experience counts as one of their two internship attempts.
    - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
  - Candidates that do not successfully complete a successive attempt of the internship experience will be removed from the program, placed on Scholastic Suspension, and are not eligible for re-entry.
  - Candidates should complete the internship within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the internship courses).
Field Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 30-40 hours of verified field experiences. The focus of each field experience will relate to specific course content and will follow a structured format. Documentation of field experience must be maintained and reviewed as specified in the handbook/courses and will be reviewed by campus staff and faculty. Candidates must work with their academic progression student agreement form, to be signed by the student and returned to the appointed administrator.

Re-entry for the MAED/ADM2

- Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the MAED/ADM2

- The MAED /ADM2 program is Non-Licensure. Graduates of this program will not receive an IR.

Master of Arts in Education/Adult Education and Training

The following Master of Arts in Education/Adult Education and Training (MAED/AET) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The mission of the Master of Arts/Adult Education and Training (MAED/AET) program is to develop skills and knowledge of individuals interested in working with adult learners. Learners develop competencies and expertise necessary to align education and training with strategic objectives and human services foundations across an enterprise with culturally diverse populations. Learners expand their knowledge in andragogical theory, instructional design and strategies, assessment of learning, delivering online learning, management and marketing, and technology integration. In addition, learners engage in practice through collaborative learning, social media, and community-based learning. Graduates will be able to serve adult students, colleagues, industries, and communities as educators and trainers.

The Master of Arts/Adult Education and Training (MAED/AET) program is designed for individuals interested in working with adult learners.

Program Purpose

The Master of Arts in Education/Adult Education and Training is a graduate degree program intended for students interested in working with adult learners in an educational or training environment. The program does not prepare students for any type of professional certification or state licensure as a teacher. It is only intended as an advanced degree.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to design and implement instructional practices to produce a positive impact on adult learning.
- Students will be able to understand the process of organizational change and how to communicate effectively to stakeholders.
- Students will be able to evaluate the educational and training needs of an organization.
- Students will be able to create innovative strategies and incorporate technology in adult education and training programs.
Program Requirements for the MAED/AET
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- COM 520 ................................................................. 3 credits
- Organizational Communication for Adult Education and Training

- AET 570 ~............................................................. 3 credits
- Program Development in Adult Education

The University reserves the right to modify the Program Requirements.

Additional Admission Requirements for the MAED/AET
All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation or that is a candidate for approved institutional accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e., JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admisissibility.

Degree Completion Requirements for the MAED/AET

- The completion of a minimum of 34 credits:
  - Required Course of Study: 34 credits
- A minimum grade point average (GPA) of 3.0.
- The diploma awarded for this program will read:
  Master of Arts in Education Adult Education and Training

Residency Requirements and Course Waivers for the MAED/AET
In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Any student in MAED/TED-Elementary, MAED/TED-Secondary, or MAED-Special Education who have completed a minimum of 12 credits, and for whom Candidacy Level II status equals 2N, is eligible to enter the MAED/AET program using the following course waivers:

Students in this program may waive a maximum of 6 credits from their required course of study on the basis of prior graduate level coursework.

The following course(s) may not be waived: COM 520

**Academic Progression for the MAED/AET**

Students must successfully complete COM 520 as the first course in the program.

**Re-entry for the MAED/AET**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if academic activity has not been posted for more than 365 days from the last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline or if their program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

---

**Master of Arts in Education/Elementary Teacher Education (Arizona)**

The following Master of Arts in Education/Elementary Teacher Education (MAED/TED-E) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education/Elementary Teacher Education (MAED/TED-E) is a graduate degree program preparing candidates for initial teacher licensure. The guiding philosophy of the MAED/TED-E program is to provide the adult student, who already has a degree in a discipline other than education, with the knowledge, skills and dispositions that will allow them to become a competent and effective educator. This program focuses on elementary student learning by improving the educator’s responsibility for that learning. Clinical Practice (student teaching) is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty advisor. The clinical practice is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete a minimum of 100 hours of verified clinical experiences covering a variety of developmental levels. The focus of each experience will relate to specific course content and professional preparation. Documentation will be maintained in the student’s professional portfolio.

View state licensure requirements for this program: [www.phoenix.edu/state-licensure-requirements/teacher-education](http://www.phoenix.edu/state-licensure-requirements/teacher-education)

The Master of Arts in Education/Elementary Teacher Education (MAED/TED-E) is an Arizona-based program for teacher licensure that provides the academic preparation to apply for initial teacher certification in select states. Educator licensure requirements vary by state. Candidates located in a state that does not provide a direct path to licensure will be required to obtain Arizona certification first, prior to seeking licensure in their home state as an out-of-state prepared candidate. The Arizona certification process requires candidates to pass all Arizona-specific licensure requirements including any Arizona-specific exams (or home state equivalents if recognized by Arizona Department of Education).

After obtaining an Arizona educator license, candidates may be required to complete testing or other additional certification state requirements, at additional cost, in their home state to obtain state licensure there. Program requirements may change based upon state agency licensure requirements and they can be found on the teacher licensure page. The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the teacher licensure page regularly prior to contacting your state agency for state-specific licensure requirements.

The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the teacher licensure page regularly prior to contacting your state agency for state-specific licensure requirements.
Candidates beginning or resuming an education program are strongly encouraged to discuss state licensure requirements with their Education Program Specialist and regularly review state specific licensure requirements in the state where they plan to teach.

This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited.

Candidates must keep their address up-to-date with the University and contact their Academic Advisor immediately when any change occurs to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.

Program Purpose
The Master of Arts in Education/Elementary Teacher Education is a graduate degree program intended for students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers. Candidates for this program have already earned a bachelor’s degree. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design and implement effective instruction in the elementary classroom to positively impact student learning.
- Evaluate effective professional practice in an elementary classroom.
- Apply professional dispositions and ethics to instructional practices among the various communities in an elementary school setting.
- Evaluate educational principles and make use of various data sources necessary to differentiate instruction for the diverse learners in an elementary classroom.
- Create innovative strategies to improve student learning through the use current research and technology.

Program Category Requirements
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Candidates in the MAED/TED programs are required to complete a minimum number of credits in each of the Program Requirement Categories. The number of required credits and courses available to fulfill these requirements are noted below.

**Additional Admission Requirements for the MAED/TED-E**

All applicants are expected to meet the following admissions requirements:

- Students enrolled in this program must have an undergraduate degree or higher from college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Students using foreign credentials when enrolling in a program leading to initial teacher certification/licensure must use a foreign credential evaluation service that is on both the approved UOPX evaluation agency list and the state regulating board list of approved agencies, for the particular state in which the student is attending, to verify degree completion and equivalency to a United States undergraduate degree. Students attending online should abide by the regulations of the state in which they reside. In-house evaluations cannot be completed for programs leading to initial teacher certification.
- A signed MAED/TED New Student Checklist
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

**Additional Elementary Admission Requirements for Georgia**

Georgia residents seeking a Georgia certificate must:

- Obtain a Georgia Pre-service Certificate. The steps to qualify for this certificate include:
  - Completion of GACE Educator Ethics Assessment
  - Signed Pre-service certification application
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Completed Background Check Form
- Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
- Signed and notarized Verification of Lawful Presence (VLP) Affidavit
- Institutional Program Verification (IPV) form

**Candidacy Status for the MAED/TED-E**

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.

- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 semester credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student’s file and uploaded to the student’s official record.
  - Verification of Fingerprint Clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.
  - Official passing score report (Praxis Core Academic Skills for Educators exam, ACT or SAT), required scores for this certificate must be provided directly to MS DOE. Praxis Core Academic Skills for Educators exam ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

**Additional Admission Requirements for Mississippi residents with an admission application or program change agreement signed 10/1/2021 or later**

Mississippi residents seeking a Mississippi certificate must first:

- Obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service Certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

**Degree Completion Requirements for the MAED/TED-E**

- Completion of a minimum of 45 credits:
  - Required Course of Study: 45 credits
  - A minimum grade point average (GPA) of 3.0.
  - Completion of Teacher Performance Assessment.
  - Satisfactory completion of any required internship, clinical practice, and/or practicum courses.
- Students must take courses within a sequence specified by course prerequisite requirements.
Candidates must provide verification of the following prior to Academic Progression Requirements for the MAED/TED-E:

- Completion of My Time Log (100 hours minimum or more as required by state of residency). To ensure student’s meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
- In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.
- Georgia residents must complete the GACE Educator Ethics Exit Exam (360).
- The diploma awarded for this program will read as: Master of Arts in Education Elementary Teacher Education
- South Dakota Residents with Enrollment Agreements signed prior to 7/1/2022: Students residing in South Dakota must provide verification of the following:
  - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
  - Completion of a US Constitution course or the US Constitution AEPA Exam

Minimum Grade Requirements for the MAED/TED-E:
- Candidates must earn a “B” or better in the Clinical Practice Seminar in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in the following course will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or the clinical practice placement: EDD 583
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

Minimum Grade Requirements for the MAED/TED-E:
- Candidates must earn a “B” or better in the Clinical Practice Seminar in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in the following course will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or the clinical practice placement: EDD 583
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

If the candidate does not receive a grade of “B” or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from the program.

Residency Requirements and Course Waivers for the MAED/TED-E:
- Students in this program may waive a maximum of 6 credits from their required course of study. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a college or university with ACCJC, HLC, MSCH, NECHE, NWCCU, SACSOC, or WSCUC accreditation, or that is a candidate for accreditation.
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The program must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
The following courses in the Required Course of Study may not be waived: EDD 583, ELM 533, ELM 535, ELM 586, ELM 537, ELM 538, MTE 001, MTE 510, MTE 512, MTE 513. Candidates may waive SEI 504 or SEI 506 if they meet one of the following requirements:

- Completion of an Arizona Department of Education (ADE) approved SEI course(s) at an institution of higher education.
- Completion of an Arizona Department of Education (ADE) approved district/individual trainer led workshop. Candidates must provide evidence of the completion of a state approved workshop that is a minimum of 45 clock hours to be eligible for this waiver.
- Verification of one of the following endorsements:
  - Arizona Full SEI Endorsement (SEI 504 or SEI 506) Candidates who hold this endorsement may waive SEI 504 or SEI 506 with credit.
  - Arizona English as a Second Language Endorsement (SEI 504 or SEI 506) Candidates who hold this endorsement may waive SEI 504 or SEI 506 with credit.

Students may satisfy HIS 514 (AZ, NJ, NM, SD, and TX) using one of the following methods:

- Successful completion of HIS 514 or equivalents.
- Completion of a college-level Arizona Constitution course at the graduate or undergraduate level with a grade of ‘C’ or better from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSOC, or WSCUC accreditation.
- Completion of the Arizona Constitution AEPA Exam Students may satisfy HIS 516 (AZ, NJ, NM, SD, and TX) or HIS 518 (all other states) using one of the following methods:
  - Successful completion of HIS 516 or HIS 518 or equivalents.
  - Completion of a college-level U.S. Constitution course at the graduate or undergraduate level from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSOC, or WSCUC accreditation.
- Completion of the U.S. Constitution AEPA Exam Students who complete the Teach for America Summer Institute are eligible to waive the following courses in the MAED/TED Programs. Candidates must provide verification of completion in order to be eligible for these waivers.

Candidates who have completed the Post-Baccalaureate Teacher Certification program (Post-Bacc) from Rio Salado Community College are eligible to apply completed coursework from the Post-Bacc program to fulfill requirements within this program. Course waivers will only be granted to students who have completed the Post-Bacc program in its entirety. Single courses from the Post-Bacc program will not be approved.

Students who waive courses using the Post-Bacc Course Waiver policy may exceed the maximum waiver limit for their program and will be eligible to waive select non-waivable courses as outlined on the Post-Bacc Teacher Certification Course Waiver Form. Following application of the Post-Bacc course waivers, candidates will fulfill Candidacy 2 and all academic progression requirements. Candidates will not be required to complete and/or provide the following:

- Fingerprint clearance
- Completion of Teacher Performance Assessment
- Satisfactory completion of any required internship, clinical practice, and/or practicum courses.
- Completion of My Time Log (100 hours or more as required by state of residency)

- Passing scores on the designated state content knowledge exam Candidates who have completed the Arizona Alternative Pathway (CERT/AP-E AZ or CERT/AP-S AZ) or Graduate Initial Teacher Certificate (CERT/G-ELM or CERT/G-SEC) from University of Phoenix are eligible to apply completed coursework from the certificate program to fulfill requirements within this program. Georgia Residents who completed a UOPX initial teacher license—only graduate certificate (e.g., CERT/AP-E, CERT/AP-S, CERT/AP-SE, CERT/G-ELM, CERT/G-SEC, and CERT/G-SPE) will not be eligible for admission to the Master’s program and therefore are not eligible to apply completed coursework from the certificate program to fulfill requirements within this program. Students who waive courses using the Arizona Alternative Pathway (CERT/AP-E AZ or CERT/AP-S AZ) or Graduate Initial Teacher Certificate (CERT/G-ELM or CERT/G-SEC) may exceed the maximum waiver limit for their program and will be eligible to waive select non-waivable courses as outlined on the Arizona Alternative Pathway/Graduate Initial Teacher Certificate Course Waiver Form.

Clinical Experience and Clinical Practice for the MAED/TED-E

- Clinical practice is a full-time experience. Each campus establishes operational policies related to placement and completion of clinical practice. Candidates must follow the guidelines in place at their campus.
- Candidates must take the Clinical Practice Seminar concurrently with the clinical practice placement. Candidates who choose to postpone clinical practice must postpone their enrollment in the clinical practice course.
- Removal from a placement at the request of an appointed administrator from the clinical practice location or UOPX:
  - Candidates who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their clinical practice seminar will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.

Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
• Candidates who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their clinical practice seminar, will be withdrawn from the clinical practice seminar, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.

  - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

• Unapproved self-terminations of a clinical practice:

  - Candidates that execute an unapproved self-termination of a clinical practice, prior to starting and posting attendance in their clinical practice seminar will result in candidates being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.

  - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

• Candidates that execute an unapproved self-termination of a clinical practice, after having met any amount of attendance in their clinical practice seminar, will be withdrawn from the clinical practice seminar, will be issued a grade of “F”, and will be placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.

  - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

• Candidates who do not successfully complete their mid-term evaluation:

  - Candidates who do not successfully complete their mid-term evaluation will be withdrawn from their clinical practice seminar, issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two student teaching attempts.

  - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.

• Clinical practice can only be repeated one time.

• Candidates who do not successfully complete a successive attempt of the student teaching experience will be removed from the program, placed on Scholastic Suspension, and are not eligible for re-entry.

• Candidates enrolled in the MAED/TED program must complete their clinical practice in the subject area in which a passing score was achieved on the content knowledge assessment exam.

• Candidates enrolled in the MAED/TED-E program wishing to do their student teaching in a single subject in grades 6 - 8 must provide the following prior to Student Teaching:

  - Passing scores on the state mandated content exam for elementary
  - Passing scores on the state mandated content exam for the single subject content area the candidate would like to teach in grades 6-8. The candidate must ensure that the elementary grade span recognized by the teacher licensing body in his/her state of residence includes the desired 6-8 grade level.

• Candidates in the MAED/TED program may not complete their clinical practice in special education.

• MAED/TED candidates, who are currently employed as the teacher of record in a public school classroom appropriate grade level/content for the certificate they are pursuing (e.g. 4th grade for elementary candidate or 9th grade English for secondary candidate), may be eligible to ‘student teach’ or ‘validate’ in their current classroom, while completing the programs culminating Clinical Practice courses. Students will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Students must complete the Clinical Practice courses and complete and upload the Teacher Performance Assessment.

• Students should complete student teaching within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the student teaching courses).

• Students must complete a minimum of 12 weeks of clinical practice, including the completion of a Teacher Performance Assessment.

• Students must submit their Teacher Performance Assessment.

• Clinical practice cannot be waived unless a documented exception exists in program policy. SAC appeals to waive clinical practice will not be accepted.

Out of state Clinical Practice

Candidates who are unable to complete their clinical practice experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their clinical practice online. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online Administrative Offices for a list of participating states and procedures for clinical practice placement.

• Candidates must enroll in the remaining Clinical Practice Seminars online while completing their clinical practice experience.

• Candidates need to work directly with the Online Administrative Offices to complete the requirements for verification of placement.

Clinical Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours (or more as required by state of residency) of verified clinical experiences, covering a variety of developmental levels within the age/range span for the program and within diverse settings. The focus of each clinical experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided clinical experience requirements. The guided clinical experience requirements will be satisfied through the completion of Guided Clinical Experience assignments in specific courses required by the candidate's program. Documentation of clinical experience will be reviewed by
Candidates must follow necessary guidelines outlined in the program handbook to satisfy clinical experience requirements.

Re-Entry for the MAED/TED-E

- Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Missouri, Montana, New Jersey, New Mexico, Puerto Rico, South Dakota, Texas, and Wyoming residents: seeking to re-enter an Arizona-approved program who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Candidates who have been out of attendance for more than one year and are lacking courses in addition to their clinical practice must reenter the current program version and successfully complete all courses required by their reentry credit summary.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the MAED/TED-E

- Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.
- Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- Georgia candidates must receive a grade of B or better in MTE 512 (or an equivalent) to be eligible for an IR.
- Arizona, New Jersey, New Mexico, and Texas candidates must provide verification of United States Constitution and Arizona Constitution coursework or AEPA Exam.

Arizona Teaching Intern Certificate Route

Arizona Teaching Intern Certificate Route

The Arizona Teaching Intern Certificate Route is optional for Arizona residents and is not a requirement for participation in clinical practice (student teaching). To participate in the Arizona Teaching Intern Certificate Route, candidates must qualify for the Alternative Teaching Certificate.

The Alternative Teaching Certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate. The Alternative Teaching certificate is valid for two years and may be extended yearly for no more than two consecutive years.

Requirements for initial issuance of the Alternative Teaching Certificate:

- A Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACS/COC, or WSCUC accreditation
- Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number

- Letter of intent to hire or other evidence indicating that the student will be hired as a contracted teacher for the school year. The classroom and grade level must align with the candidate’s program of enrollment and content knowledge exam.
- Verification letter indicating that the candidate is enrolled in an Arizona State Board approved educator preparation program signed by the College of Education appropriate designee.
- Passing scores on the designated state content knowledge exam.
- Students must have a minimum 3.0 GPA and be in good academic and financial standing.

Requirements for extension of the Alternative Teaching Certificate:

- Students must be continuously enrolled
  - Intern route students need to earn credit within an academic term (August to December or January to May). If this is not accomplished, the student will not meet the requirements for the Arizona Department of Education Verification Letter.
- Students must have a minimum 3.0 GPA and be in good academic and financial standing.
Master of Arts in Education/Secondary Teacher Education (Arizona)

The following Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) program is offered at these University of Phoenix locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) is a graduate degree program preparing candidates for initial teacher licensure for instruction in secondary education. The guiding philosophy of the MAED/TED-S program is to provide adult students who already have degrees in disciplines other than education with the knowledge, skills, and dispositions to become competent and effective secondary educators. Rigorous coursework, clinical experience, and clinical practice are integral components of this program. Candidates complete a minimum of 100 hours of verified field-based clinical experiences at appropriate grades and content levels to prepare them for a culminating clinical practice as a student teacher. During their clinical practice (student teaching), candidates work with a cooperating teacher at a school site and with a University of Phoenix faculty supervisor. All clinical experiences are aligned to state and professional standards and prepare candidates to be effective educational professionals.

View state licensure requirements for this program: www.phoenix.edu/state-licensure-requirements/teacher-education.

The Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) is an Arizona-based program for teacher licensure that provides the academic preparation to apply for initial teacher certification in select states.

Educator licensure requirements vary by state. Candidates located in a state that does not provide a direct path to licensure will be required to obtain Arizona certification first, prior to seeking licensure in their home-state as an out-of-state prepared candidate. The Arizona certification process requires candidates to pass all Arizona-specific licensure requirements including any Arizona-specific exams (or home state equivalents if recognized by Arizona Department of Education). After obtaining an Arizona educator license, candidates may be required to complete testing or other additional certification state requirements, at additional cost, in their home state to obtain state licensure there. Program requirements may change based upon state agency licensure requirements and they can be found on the teacher licensure page. The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the teacher licensure page regularly prior to contacting your state agency for state-specific licensure requirements.

Candidates beginning or resuming an education program are strongly encouraged to discuss state licensure requirements with their Education Program Specialist and regularly review state specific licensure requirements in the state where they plan to teach.

This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates must keep their address up-to-date with the University and contact their Academic Advisor immediately when any change occurs to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.

Program Purpose

The Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) is a graduate degree program intended for students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become elementary school teachers. Candidates for this program have already earned a bachelor’s degree. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements.

There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Design and implement effective instruction in the secondary classroom to positively impact student learning.
• Evaluate effective professional practice in a secondary classroom.
• Apply professional dispositions and ethics to instructional practices among the various communities in a secondary school setting.
• Evaluate educational principles and make use of various data sources necessary to differentiate instruction for the diverse learners in a secondary classroom.
• Create innovative strategies to improve student learning through the use current research and technology.

Program Category Requirements

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Candidates in the MAED/TED programs are required to complete a minimum number of credits in each of the Program Requirement Categories. The number of required credits and courses available to fulfill these requirements are noted below.

Orientation, 0 total credits
MTE 001 ~................................................................. 0 credits
Orientation to Teacher Education

Introductory Course, 1 total credit
MTE 510 ~................................................................. 1 credits
Professional Knowledge, Skills, and Dispositions

Foundations of Education, 3 total credits
MTE 516 ~................................................................. 3 credits
Foundations of the Professional Educator

Educational Theories and Models, 6 total credits
SEC 533 ~................................................................. 3 credits
Instruction and Assessment for Diverse Learners
SEC 532 ~................................................................. 3 credits
Secondary - Creating an Effective Learning Environment
Human Development, 3 total credits
MTE 511 ~ .................................................................3 credits
Child/Adolescent Growth, Development, and Learning

Assessment, 3 total credits
MTE 513 ~ .................................................................3 credits
Evaluation and Data Literacy

Reading, 3 total credits
SEC 534 ~ .................................................................3 credits
Reading in the Content Area

Special Populations, 6 total credits
SEI 506 ~ .................................................................3 credits
Structured English Immersion - Secondary
MTE 512 ~ .................................................................3 credits
Teaching the Exceptional Learner

Technology, 3 total credits
MTE 517 ~ .................................................................3 credits
Technology Integration for Educators

Content and Curricular Knowledge, 3 total credits
SEC 535 ~ .................................................................3 credits
Science Content and Curricular Knowledge
SEC 536 ~ .................................................................3 credits
Social Studies Content and Curricular Knowledge
SEC 537 ~ .................................................................3 credits
Secondary Content and Curricular Knowledge
SEC 538 ~ .................................................................3 credits
Mathematics Content and Curricular Knowledge
SEC 540 ~ .................................................................3 credits
English/Language Arts Content and Curricular Knowledge

Elective, 2 total credits

Candidates who do not reside in Arizona, New Jersey, New Mexico, South Dakota, and Texas must complete:

HIS 518 ................................................................. 2 credits
U.S. Constitution

Candidates who reside in Arizona, New Jersey, New Mexico, South Dakota, and Texas must complete:

HIS 514 ................................................................. 1 credit
AZ Constitution
HIS 516 ................................................................. 1 credit
U.S. Constitution

Clinical Practice, 6 total credits
EDD 584 ~ .................................................................6 credits
Secondary Clinical Practice

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MAED/TED-S

All applicants are expected to meet the following admissions requirements:

- Students enrolled in this program must have an undergraduate degree or higher from college or university with ACCJC, HLC, MSCHE, NCESS, NWCCU, SACSCOC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- Students using foreign credentials when enrolling in a program leading to initial teacher certification/licensure must use a foreign credential evaluation service that is on both the approved UOPX evaluation agency list and the state regulating board list of approved agencies, for the particular state in which the student is attending, to verify degree completion and equivalency to a United States undergraduate degree. Students attending online should abide by the regulations of the state in which they reside. In-house evaluations cannot be completed for programs leading to initial teacher certification.

- A signed MAED/TED New Student Checklist
- A completed Content Area Declaration Form
- A cumulative GPA of 2.5 for all coursework listed on the degree posting transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

Additional Secondary Admission Requirements for Georgia

Georgia residents seeking a Georgia certificate must:

- Obtain a Georgia Pre-service Certificate. The steps to qualify for this certificate include:
  - Completion of GACE Educator Ethics Assessment
  - Signed Pre-service certification application
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Completed Background Check Form

Georgia Residents must not hold a Clear Renewable Certificate or a Standard Professional Certificate to be eligible to enroll in this program. If a Georgia resident obtains a Clear Renewable or a Standard Professional Certificate before completing the UOPX degree program, the degree cannot be used for purposes of a certificate upgrade.

Additional Secondary Admission Requirements for Colorado

To be admitted, students in the MAED/TED-S program, residing in Colorado, must provide transcripted verification of a minimum of 24 semester credit hours in their secondary endorsement area IF there is no content exam available in the endorsement area.

Additional Secondary Admission Requirements for Kansas

Students enrolled in the MAED/TED-S program and residing in the state of Kansas must provide a transcripted verification of a minimum of 24 semester credit hours in their secondary content area prior to admission to the University.

Additional Secondary Admission Requirements for Maine

Students enrolled in the MAED/TED-S program and residing in the state of Maine must provide a transcripted verification of a minimum of 24 semester credit hours in their secondary content area prior to admission to the University.

Additional Secondary Admission Requirements for Nevada

Students enrolled in the MAED/TED-S program and residing in the state of Nevada must have a Comprehensive major with transcripted verification of a minimum of 36 credit hours, or a Single Subject major with transcripted verification of a minimum of 30 credit hours in a secondary content area recognized by the Nevada Department of Education, prior to admission to the University.
Additional Secondary Admission Requirements for Rhode Island:
Students enrolled in the MAED/TED-S program and residing in the state of Rhode Island must provide a transcripted verification of a minimum of 24 semester credit hours in their secondary content area or transcripted major in their secondary content area prior to admission to the University.

Additional Secondary Admission Requirements for Tennessee
Students enrolled in the MAED/TED-S program and residing in the state of Tennessee must student teach in an approved endorsement area. Endorsement areas designated as Pre-K-12 or K-12 are not considered approved endorsement areas.
Only the following endorsement areas are considered approved areas and one must be reflected on the Content Declaration form:
- Agricultural Edu 6-12
- Arabic 6-12
- Biology 6-12
- Business Education 6-12
- Chemistry 6-12
- Chinese 6-12
- Earth Science 6-12
- Economics 6-12
- English 6-12
- Family & Consumer Science 6-12
- French 6-12
- Geography 6-12
- German 6-12
- Government 6-12
- Greek 6-12
- History 6-12
- Japanese 6-12
- Latin 6-12
- Marketing Edu 6-12
- Mathematics 6-12
- Other World Language 6-12
- Physics 6-12
- Psychology 9-12
- Russian 6-12
- Sociology 9-12
- Spanish 6-12
- Speech Comm. 6-12
- Tech Engineering Edu 6-12

Additional Admission Requirements for Oregon residents with an admission application or program change agreement signed 10/1/2022 or later
Students residing in Oregon must provide a screen shot from the Oregon Teacher Standards and Practices Commission Public Educator search, confirming they have never held an Oregon Educator license.

Additional Admission Requirements for Virginia residents with an admission application or program change agreement signed 7/1/2022 or later
Students residing in the Commonwealth of Virginia who declare a social studies, history, social science, or similar related field content area must complete an African American History course and provide record of successful completion. The Virginia Department of Education provides cultural competency training.

Additional Admission Requirements for Mississippi residents with an admission application or program change agreement signed 10/1/2022 or later
Mississippi residents seeking a Mississippi certificate must first:
- Obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service Certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

Additional Secondary Admission Requirements for Pennsylvania
Students enrolled in the MAED/TED-S program and residing in the state of Pennsylvania must have a major in an approved endorsement area with transcripted verification of a minimum of 30 credit hours covering all competencies of the approved endorsement area.
Students enrolled in the MAED/TED-S program and residing in the state of Pennsylvania must student teach in an approved endorsement area. Endorsement areas designated as Pre-K-12 or K-12 are not considered approved endorsement areas.
Only the following endorsement areas are considered approved areas and one must be reflected on the Content Declaration form:
- Citizenship Education 7-12
- Communication 7-12
- Computer Science 7-12
- English 7-12
- Mathematics 7-12
- Biology 7-12
- Chemistry 7-12
- Earth and Space Science 7-12
- General Science 7-12
- Physics 7-12
- Social Studies 7-12

Candidacy Status for the MAED/TED-S
The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.
- Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidacy Status Level 1.
- Level 2 Candidate Status is completed prior to the completion of 12 semester credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student's file and uploaded to the student's official record.
  - Credits applied through waiver are included for Candidacy Status Level 2 Review. Students who waive 9 or more credits in their required course of study will be eligible for a 3 credit extension to complete the requirements for Candidacy Status Level 2.
• Verification of Fingerprint Clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the MAED/TED-S

• Completion of a minimum of 39 credits:
  • Required Course of Study: 39 credits
  • A minimum grade point average (GPA) of 3.0.
  • Completion of Teacher Performance Assessment.
  • Satisfactory completion of any required internship, clinical practice, and/or practicum courses.
  • Students must take courses within a sequence specified by the state of residency. To ensure student's meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
  • In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.
  • Required Course of Study: 39 credits

Academic Progression Requirements for the MAED/TED-S

Candidates must provide verification of the following prior to beginning their clinical practice placement. Candidates must provide:

• Verification of negative TB test results, or other TB clearance documentation (District specific).
• Passing scores on the designated state content knowledge exam (elementary content or secondary content area specific).

The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

Secondary Candidates must take an Arizona secondary content knowledge exam (or home state equivalent as recognized by the Arizona Department of Education). Middle grades exams do not meet program or certification requirements.

Tennessee Residents: Students residing in the state of Tennessee, and that choose to complete a job-embedded pathway, must provide passing scores on the Tennessee state content knowledge exam before beginning the job-embedded pathway.

• Verification of the completion of 100 hours of clinical experience (or more as required by state of residency).
• Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.

• South Dakota Residents with Enrollment Agreements signed prior to 7/1/2022: Students residing in South Dakota must provide verification of the following:
  • Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
  • Completion of a US Constitution course or the US Constitution AEPA Exam

Mississippi Residents with Enrollment Agreements signed prior to 10/1/2022: Mississippi residents seeking a Mississippi certificate must first obtain a Mississippi Pre-service Certificate.
The steps to qualify for this certificate include:

• Signed Pre-service certification Application
• Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
• Signed and notarized Verification of Lawful Presence (VLP) Affidavit
• Institutional Program Verification (IPV) form

Candidates will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.

Completion of a Dispositions Assessment
Georgia candidates must earn a B or better in MTE/512 to receive credit for the course. Grades of B- are not accepted.

Minimum Grade Requirements for the MAED/TED-S

• Candidates must earn a "B" or better in the Clinical Practice Seminar in order to complete this program. Grades of "B-" are not accepted. Students who fail to receive a minimum grade of "B" in the following course will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or the clinical practice placement: EDD 584

Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:

• Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
• Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from the program.
Residency Requirements and Course Waivers for the MAED/TED-S

Students in this program may waive a maximum of 6 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: EDD 584, MTE 001, MTE 510, MTE 512, MTE 513, SEC 533, SEC 535, SEC 536, SEC 537, SEC 538, SEC 540

Candidates may waive SEI 504 or SEI 506 if they meet one of the following requirements:

- Completion of an Arizona Department of Education (ADE) approved SEI course(s) at an institution of higher education.
- Completion of an Arizona Department of Education (ADE) approved district/individual trainer led workshop. Candidates must provide evidence of the completion of a state approved workshop that is a minimum of 45 clock hours to be eligible for this waiver.
- Verification of one of the following endorsements:
  - Arizona Full SEI Endorsement (SEI 504 or SEI 506)
  - Arizona English as a Second Language Endorsement (SEI 504 or SEI 506)
  - Arizona Full SEI Endorsement (SEI 504 or SEI 506)
  - Arizona English as a Second Language Endorsement (SEI 504 or SEI 506)

Candidates who hold this endorsement may waive SEI 504 or SEI 506 with credit.

Candidates who have completed the Arizona Alternative Pathway (CERT/AP-E AZ or CERT/AP-S AZ) or Graduate Initial Teacher Certificate (CERT/G-ELM or CERT/G-SEC) from University of Phoenix are eligible to apply completed coursework from the certificate program to fulfill requirements within this program. Georgia Residents who completed a UOPX initial teacher licensure-only graduate certificate (e.g., CERT/AP-E, CERT/AP-S, CERT/AP-SE, CERT/G-ELM, CERT/G-SEC, and CERT/G-SPE) will not be eligible for admission to the Master’s program and therefore are not eligible to apply completed coursework from the certificate program to fulfill requirements within this program. Georgia Residents who completed a UOPX initial teacher licensure-only graduate certificate (e.g., CERT/AP-E, CERT/AP-S, CERT/AP-SE, CERT/G-ELM, CERT/G-SEC, and CERT/G-SPE) will not be eligible for admission to the Master’s program and therefore are not eligible to apply completed coursework from the certificate program to fulfill requirements within this program.

Students may satisfy HIS 514 (AZ, NJ, NM, SD, and TX) using one of the following methods:

- Successful completion of HIS 514 or equivalents.
- Completion of a college-level Arizona Constitution course at the graduate or undergraduate level with a grade of "C" or better from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation.
- Completion of the Arizona Constitution AEPA Exam

Students who complete the Teach for America Summer Institute are eligible to waive the following courses in the MAED/TED Programs. Candidates must provide verification of completion in order to be eligible for these waivers:

<table>

Candidates who have completed the Post-Baccalaureate Teacher Certification program (Post-Bacc) from Rio Salado Community College are eligible to apply completed coursework from the Post-Bacc program to fulfill requirements within this program. Course waivers will only be granted to students who have completed the Post-Bacc program in its entirety. Single courses from the Post-Bacc program will not be approved.

Students who waive courses using the Post-Bacc Course Waiver policy may exceed the maximum waiver limit for their program and will be eligible to waive select non-waivable courses as outlined on the Post-Bacc Teacher Certification Course Waiver Form. Following application of the Post-Bacc course waivers, candidates will fulfill Candidacy 2 and all academic progression requirements. Candidates will not be required to complete and/or provide the following:

- Fingerprint clearance
- Completion of Teacher Performance Assessment
- Satisfactory completion of any required internship, clinical practice, and/or practicum courses.
- Completion of My Time Log (100 hours or more as required by state of residency)
- Passing scores on the designated state content knowledge exam

Candidates who have completed the Arizona Alternative Pathway (CERT/AP-E AZ or CERT/AP-S AZ) or Graduate Initial Teacher Certificate (CERT/G-ELM or CERT/G-SEC) from University of Phoenix are eligible to apply completed coursework from the certificate program to fulfill requirements within this program. Candidates who have completed the Arizona Alternative Pathway (CERT/AP-E AZ or CERT/AP-S AZ) or Graduate Initial Teacher Certificate (CERT/G-ELM or CERT/G-SEC) may exceed the maximum waiver limit for their program and will be eligible to waive select non-waivable courses as outlined on the Arizona Alternative Pathway/Graduate Initial Teacher Certificate Course Waiver Form.

Clinical Experience and Clinical Practice for the MAED/TED-S

Clinical Practice Policies

- Clinical practice is a full-time experience. Each campus establishes operational policies related to placement and completion of clinical practice. Candidates must follow the guidelines in place at their campus.
- Candidates must take the Clinical Practice Seminar concurrently with the clinical practice placement. If a candidate chooses to postpone clinical practice, he/she must postpone their enrollment in the clinical practice course.
• Removal from a placement at the request of an appointed administrator from the clinical practice location or UOPX:
• Candidates who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their clinical practice seminar will result in candidates being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
  -Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
• Candidates who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their clinical practice seminar, will be withdrawn from the clinical practice seminar, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.
  -Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
• Unapproved self-terminations of a clinical practice:
  -Candidates that execute an unapproved self-termination of clinical practice, prior to starting and posting attendance in their clinical practice seminar will result in candidates being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
  -Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
• Candidates that execute an unapproved self-termination of a clinical practice, after having met any amount of attendance in their clinical practice seminar, will be withdrawn from the clinical practice seminar, will be issued a grade of “F”, and will be placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.
  -Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.
• Candidates who do not successfully complete their mid-term evaluation:
  -Candidates who do not successfully complete their mid-term evaluation will be withdrawn from their clinical practice seminar, issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two student teaching attempts.
  -Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
• Clinical practice can only be repeated one time.
• Candidates who do not successfully complete a successive attempt of the student teaching experience will be removed from the program, placed on Scholastic Suspension, and are not eligible for re-entry.
• Candidates enrolled in the MAED/TED program must complete their clinical practice in the subject area in which a passing score was achieved on the content knowledge assessment exam.

Secondary Candidates must take an Arizona secondary content knowledge exam (or home state equivalent as recognized by the Arizona Department of Education). Middle grades exams do not meet program or certification requirements.

• Candidates in the MAED/TED program may not complete their clinical practice in special education.
• MAED/TED candidates, who are currently employed as the teacher of record in a public school classroom appropriate grade level/content for the certificate they are pursuing (e.g. 4th grade for elementary candidate or 9th grade English for secondary candidate), may be eligible to ‘student teach’ or ‘validate’ in their current classroom, while completing the programs culminating Clinical Practice courses. Students will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Students must complete the Clinical Practice courses and complete and upload the Teacher Performance Assessment.
• Students should complete student teaching within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the student teaching courses).
• Students must complete a minimum of 12 weeks of clinical practice, including the completion of a Teacher Performance Assessment.
• Students must submit their Teacher Performance Assessment.
• Clinical practice cannot be waived unless a documented exception exists in program policy. SAC appeals to waive clinical practice will not be accepted.

Out of State Clinical Practice
Candidates who are unable to complete their clinical practice experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their clinical practice online. A select number of states do not participate in the University of Phoenix Teacher Education program. Candidates must contact the Online Administrative Offices for a list of participating states and procedures for clinical practice placement.
• Candidates must enroll in the remaining Clinical Practice Seminars online while completing their clinical practice experience.
• Candidates need to work directly with the Online Administrative Offices to complete the requirements for verification of placement.
Candidates must meet all current program requirements prior to institutional recommendation for the MAED/TED-S. Upon completion candidates' records will be analyzed to ensure they have met all academic requirements for their program and within diverse settings. The focus of each clinical experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided clinical experience requirements. The guided clinical experience requirements will be satisfied through the completion of Guided Clinical Experience assignments in specific courses required by the candidate's program. Documentation of clinical experience will be reviewed by university staff prior to clinical practice. Candidates must follow necessary guidelines outlined in the program handbook to satisfy clinical experience requirements.

Re-entry for the MAED/TED-S

- Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Missouri, Montana, New Jersey, New Mexico, Pennsylvania, Puerto Rico, South Dakota, Texas, Utah, and Wyoming residents: seeking to re-enter an Arizona-approved program who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Candidates who have been out of attendance for more than one year and are lacking courses in addition to their clinical practice must reenter the current program version and successfully complete all courses required by their reentry credit summary.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master program of enrollment and content knowledge exam. The classroom and grade level must align with the candidate's program of enrollment and content knowledge exam. To participate in the Arizona Teaching Intern Certificate Route, candidates must qualify for the Alternative Teaching Certificate.

Institutional Recommendation for the MAED/TED-S

- Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.
- Upon completion candidates' records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

- Georgia candidates must receive a grade of B or better in MTE 512 (or an equivalent) to be eligible for an IR.
- Arizona, New Jersey, New Mexico, and Texas candidates must provide verification of United States Constitution and Arizona Constitution coursework or AEPA Exam.

Arizona Teaching Intern Certificate Route

The Arizona Teaching Intern Certificate Route is optional for Arizona residents and is not a requirement for participation in clinical practice (student teaching). To participate in the Arizona Teaching Intern Certificate Route, candidates must qualify for the Alternative Teaching Certificate.

The Alternative Teaching Certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate. The Alternative Teaching certificate is valid for two years and may be extended yearly for no more than two consecutive years.

Requirements for initial issuance of the Alternative Teaching Certificate:

- A Bachelor's degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation
- Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candiates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number
- Letter of intent to hire or other evidence indicating that the student will be hired as a contracted teacher for the school year. The classroom and grade level must align with the candidate's program of enrollment and content knowledge exam.
- Verification letter indicating that the candidate is enrolled in an Arizona State Board approved educator preparation program signed by the College of Education appropriate designee.
- Passing scores on the designated state content knowledge exam.

Secondary Candidates must take an Arizona secondary content knowledge exam (or home state equivalent as recognized by the Arizona Department of Education). Middle grades exams do not meet program or certification requirements.

- Students must have a minimum 3.0 GPA and be in good academic and financial standing.

Requirements for extension of the Alternative Teaching Certificate:

- Students must be continuously enrolled
- Intern route students need to earn credit within an academic term (August to December or January to May). If this is not accomplished, the student will not meet the requirements for the Arizona Department of Education Verification Letter.
- Students must have a minimum 3.0 GPA and be in good academic and financial standing.
Master of Arts in Education/Elementary Teacher Education (California)

The following Master of Arts in Education/Elementary Teacher Education (MAED/TED-E) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depends on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education/Elementary Teacher Education (MAED/TED-E) is a graduate degree program preparing candidates for initial teacher licensure. The guiding philosophy of the MAED/TED-E program is to provide the adult student, who already has a degree in a discipline other than education, with the knowledge, skills and dispositions that will allow the teacher candidate to become a competent and effective educator. This program focuses on multiple subject student learning by improving the educator’s responsibility for that learning. Clinical Practice (student teaching) is an integral component of the Teacher Education Program. It provides students with a field-based experience at the appropriate grade and content level. Student teachers work with a cooperating teacher from a school site and with a University of Phoenix faculty supervisor. The clinical practice is designed to emphasize the achievement of state standards leading to certification and to present candidates with growth opportunities that best prepare them to assume the duties of a certified classroom teacher. Throughout the program, students are required to complete verified guided clinical experiences covering a variety of developmental levels. The focus of each experience will relate to specific course content and professional preparation.

View state licensure requirements for this program: www.phoenix.edu/state-licensure-requirements/teacher-education.

This program, which leads to certification or licensure, is only approved in California. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates seeking to continue in a teacher licensure program outside of California, would be required to update to a comparable Arizona based program. Programs are available in select states. Candidates must keep their address up-to-date and contact their Academic Advisor immediately when any changes occur to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the possible change upon their ability to progress in the program.

Program Purpose

The Master of Arts in Education/Elementary Teacher Education is a graduate degree program intended for students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become multiple subject school teachers. Candidates for this program have already earned a bachelor’s degree. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Demonstrate mastery of content and content pedagogical knowledge through the use of discipline-specific practices to advance student learning in the elementary classroom.
• Engage in self-reflection to evaluate and improve professional practice to enhance student learning in elementary education.
• Demonstrate professional dispositions and ethical conduct in their instructional practices and collaboration with learning communities in elementary education.
• Demonstrate a respect for diversity in their evaluation of the diverse needs of learners through continuous data analysis and adjustment of instructional strategies in elementary education.
• Demonstrate effective and innovative practices to improve student learning through applying current research to instructional strategies and integrating technology in elementary education.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Candidates in the MAED/TED programs are required to complete a minimum number of credits in each of the Program Requirement Categories. The number of required credits and courses available to fulfill these requirements are noted below.

Orientation, 0 total credits

MTE 001 ~................................................................................0 credits
Orientation to Teacher Education

Introductory Course, 1 total credit

MTE 510 ~................................................................................1 credit
Professional Knowledge, Skills, and Dispositions

Foundations of Education, 3 total credits

MTE 516 ~................................................................................3 credits
Foundations of the Professional Educator

Educational Theories and Models, 6 total credits

ELM 532 ~................................................................................3 credits
Instruction and Assessment for Diverse Learners

EML 532 ~................................................................................3 credits
Creating an Effective Learning Environment

Human Development, 3 total credits

MTE 511 ~................................................................................3 credits
Child/Adolescent Growth, Development, and Learning

Assessment, 3 total credits

MTE 513 ~................................................................................3 credits
Evaluation and Data Literacy

Reading, 3 total credits

RDG 556 ~................................................................................3 credits
Elements of Literacy Content and Pedagogical Knowledge
Special Populations, 6 total credits
ELL 500 ................................................................. 3 credits
Instructional Methods for English Language Learners
MTE 512 ................................................................. 3 credits
Teaching the Exceptional Learner

Content and Curricular Knowledge, 11 total credits

The University reserves the right to modify the required course of Study.

Additional Admission Requirements for the MAED/TED-E
All applicants are expected to meet the following admissions requirements:
• Students enrolled in this program must have an undergraduate degree or higher from college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSOC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
• Students using foreign credentials when enrolling in a program leading to initial teacher certification/licensure must use a foreign credential evaluation service that is on both the approved UOPX evaluation agency list and the state regulating board list of approved agencies, for the particular state in which the student is attending, to verify degree completion and equivalency to a United States undergraduate degree. Students attending online should abide by the regulations of the state in which they reside. In-house evaluations cannot be completed for programs leading to initial teacher certification.
• Verification of Certificate of Clearance or other approved Certificate of Clearance documents.
• Verification of negative TB test results, or other approved TB clearance documentation.
• A signed California MAED/TED New Student Checklist

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

Candidacy Status for the MAED/TED-E
The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling. Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidacy Status Level 1.
Level 2 Candidate Status is completed prior to the completion of 12 semester credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student's file and uploaded to the student's official record. Credits applied through waiver are included for Candidacy Status Level 2 Review. Students who waive 9 or more credits in their required course of study will be eligible for a 3 credit extension to complete the requirements for Candidacy Status Level 2.
• Demonstration of basic skills proficiency

Students who reside in California and are enrolled in a California approved program (MAED/TED-E or MAED/TED-S) must meet approved basic skills proficiency as determined by the California Commission on Teacher Credentialing.

Students enrolled in this program (Elementary or Secondary) must provide one of the following verifications prior to the completion of 12 semester credits in the program:
• The candidate provides evidence of having met subject matter through one of the California Commission on Teacher Credentialing approved options.

Elementary candidates  https://www.ctc.ca.gov/credentials/leaflets/multiple-subject-teaching-credential-cl-561c
• The candidate provides evidence of having attempted the appropriate subject matter examination(s).
• The candidate provides evidence of registration for the next scheduled examination.
• The candidate provides evidence of having completed a Commission approved subject matter preparation program.
• The candidate provides evidence of continuous progress toward meeting the subject matter requirement.

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.
Degree Completion Requirements for the MAED/TED-E
- Completion of a minimum of 44 credits:
  - Required Course of Study: 44 credits
- A minimum grade point average (GPA) of 3.0.
- Completion of Teacher Performance Assessment.
- Satisfactory completion of any required internship, clinical practice, and/or practicum courses.
- Students must take courses within a sequence specified by course prerequisite requirements.
- Completion of My Time Log (100 hours). To ensure students meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
- In order to receive an institutional recommendation and/or state completion of My Time Log (100 hours). To ensure students meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
  - In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.
- The diploma awarded for this program will read as:
  - Master of Arts in Education
  - Elementary Teacher Education

Academic Progression Requirements for the MAED/TED-E
- Candidates must provide verification of the following prior to beginning their clinical practice placement. Candidates must provide:
  - Verification of negative TB test results, or other TB clearance documentation.
  - Verification of Subject Matter proficiency through a California Commission on Teacher Credentialing approved option.
    - Elementary candidates
      - https://www.ctc.ca.gov/credentials/leaflets/multiple-subject-teaching-credential/(c-561c)
        The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.
  - Verification of the completion of 100 hours of clinical experience.
  - Candidates will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.
- Enrollment Agreements signed prior to 10/1/2020: Candidates participating in the California Intern Credential pathway will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.
- Enrollment Agreements signed 10/1/2020 or later: Candidates participating in the California Intern Credential pathway will be required to have a 3.5 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.
- Completion of a Dispositions Assessment
- Candidates must earn a C or better in HIS 518 to receive credit for the course. Grades of C- are not acceptable.

Minimum Grade Requirements for the MAED/TED-E
- Candidates must earn a “B” or better in all Clinical Practice Seminars in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course(s) and/or the clinical practice placement: ELM 586, ELM 587
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
- If the candidate does not receive a grade of “B” or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn, from the program.

Residency Requirements and Course Waivers for the MAED/TED-E
- Students in this program may waive a maximum of 6 credits from their required course of study.
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation, or that is a candidate for accreditation.
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- The following courses in the Required Course of Study may not be waived: ELM 533, ELM 536, ELM 537, ELM 538, ELM 586, ELM 587, MTE 001, MTE 510, MTE 512, MTE 513, RDG 556
- Students may satisfy the History course (HIS 518) using one of the following methods:
  - Successful completion of HIS 518 or equivalents.
  - Completion of a college-level course (two semester units or three-quarter units at the graduate or undergraduate level) in the provisions and principles of the U.S. Constitution with a grade of “C” or better from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation.
  - Undergraduate degree or higher from California State University (CSU)
- Pass a US Constitution examination given by a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation.
• Students who complete the Teach for America Summer Institute are eligible to waive the following courses in the MAED/TED Programs. Candidates must provide verification of completion in order to be eligible for these waivers.

**Clinical Experience and Clinical Practice**

**Clinical Practice Policies**

• Clinical practice is a full-time experience. Each campus establishes operational policies related to placement and completion of clinical practice. Candidates must follow the guidelines in place at their campus.

• Candidates must take the Clinical Practice Seminars concurrently with their clinical practice placement. If a candidate chooses to postpone clinical practice, he/she must postpone their enrollment in the clinical practice course.

• MAED/TED-E candidates must complete a total of two placements, one in each of the two elementary grade levels: K-2 and 3-6. These placements must be in self-contained classroom settings in which the candidate teaches the four core subject areas - English language arts, math, social studies, and science - to the same group of students.

• Enrollment Agreements signed prior to 7/1/2021: One placement is seven weeks and the other placement is eight weeks.

• Enrollment Agreements signed 7/1/2021 or later: One placement is eight weeks and the other placement is nine weeks.

• Removal from a placement at the request of an appointed administrator from the clinical practice location or UOPX:
  - Candidates who are removed from a placement at the request of the program or UOPX, after starting and posting attendance in their first clinical practice seminar will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the candidates’ successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
  - Candidates may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Candidates will need to work with their appointed administrator to have these exceptions approved.

• Candidates who do not successfully complete a successive attempt of the clinical practice will be removed from the program, placed on Scholastic Suspension, not eligible for re-entry and are not eligible for admission to the MAED/TED pre-licensure programs.

• Candidates enrolled in the MAED/TED program must complete their clinical practice in the subject area in which a passing score was achieved on the content knowledge assessment exam.

• Candidates in the MAED/TED program may not complete their clinical practice in special education.

• MAED/TED candidates, who are currently employed as the teacher of record in a public school classroom appropriate grade level/content for the certificate they are pursuing (e.g. 4th grade for elementary candidate or 9th grade English for secondary candidate), may be eligible to ‘student teach’ or ‘validate’ in their current classroom, while completing the programs culminating Clinical Practice courses. Candidates will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Candidates must complete the Clinical Practice courses and complete and upload the Teacher Performance Assessment.

• Candidates who do not successfully complete a successive attempt of the clinical practice will be removed from the program, placed on Scholastic Suspension, not eligible for re-entry and are not eligible for admission to the MAED/TED pre-licensure programs.

• Candidates enrolled in the MAED/TED program must complete their clinical practice in the subject area in which a passing score was achieved on the content knowledge assessment exam.

• Candidates in the MAED/TED program may not complete their clinical practice in special education.

• MAED/TED candidates, who are currently employed as the teacher of record in a public school classroom appropriate grade level/content for the certificate they are pursuing (e.g. 4th grade for elementary candidate or 9th grade English for secondary candidate), may be eligible to ‘student teach’ or ‘validate’ in their current classroom, while completing the programs culminating Clinical Practice courses. Candidates will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Candidates must complete the Clinical Practice courses and complete and upload the Teacher Performance Assessment.

• Candidates who do not successfully complete a successive attempt of the clinical practice will be removed from the program, placed on Scholastic Suspension, not eligible for re-entry and are not eligible for admission to the MAED/TED pre-licensure programs.

• Candidates enrolled in the MAED/TED program must complete their clinical practice in the subject area in which a passing score was achieved on the content knowledge assessment exam.

• Candidates in the MAED/TED program may not complete their clinical practice in special education.

• MAED/TED candidates, who are currently employed as the teacher of record in a public school classroom appropriate grade level/content for the certificate they are pursuing (e.g. 4th grade for elementary candidate or 9th grade English for secondary candidate), may be eligible to ‘student teach’ or ‘validate’ in their current classroom, while completing the programs culminating Clinical Practice courses. Candidates will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Candidates must complete the Clinical Practice courses and complete and upload the Teacher Performance Assessment.
• Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

Clinical Experience
Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified clinical experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each clinical experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided clinical experience requirements. The guided clinical experience requirements will be satisfied through the completion of Guided Clinical Experience assignments in specific courses required by the candidate’s program. Documentation of clinical experience will be reviewed by university staff and faculty prior to clinical practice. Candidates must work with their university and follow necessary guidelines outlined in the program handbook to arrange and satisfy clinical experience requirements. Candidates must be placed for field experience by the campus. A Certificate of Clearance and negative TB test is required prior to Field Experience placement. Students who have failed to meet program requirements for My Time Log must complete the academic progression student agreement form, to be signed by the student and returned to the appointed administrator.

Re-Entry for the MAED/TED-E
• Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
• Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
• Candidates who have been out of attendance for more than one year and are lacking courses in addition to their clinical practice must reenter the current program version and successfully complete all courses required by their reentry credit summary.
• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the MAED/TED-E
• Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

• Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

• Candidates must apply for their initial IR within one year of completing all academic requirements in their program. The time limit between completion of coursework and institutional recommendation (IR) for license or endorsement is 12 months. Failure to complete the IR process within this time period will result in a program review and may require additional coursework or assessments for currency.
• MAED/TED-E candidates must pass the RICA exam.
• Candidates must provide verification of current and appropriate CPR certification, as defined by the California Commission on Teacher Credentialing, prior to being recommended for their credential.
• Candidates must provide verification of coursework in U.S. Constitution and Health Education (with a grade of “C” or better).
• Candidates must pass their Teacher Performance Assessment.

California Intern Credential
Candidates in California may qualify for an intern credential in California while enrolled in the MAED/TED program. The California Commission has identified specific requirements for intern qualification.
• Candidates who qualify as an elementary or secondary intern must meet the requirements noted below and sign an intern checklist.
• Candidates who are seeking an Internship must also be advised of the Early Completion Option.
• Enrollment Agreements signed prior to 10/1/2020: Candidates will be required to have a 3.0 GPA to be eligible for the intern credential.
• Enrollment Agreements signed 10/1/2020 or later: Candidates will be required to have a 3.5 GPA to be eligible for the intern credential.
• Candidates must provide verification of each of the following requirements:
  • Demonstration of basic skills proficiency as determined by the California Commission on Teacher Credentialing.
  • Verification of Subject Matter proficiency through a California Commission on Teacher Credentialing approved option.
  
  -Elementary candidates

  https://www.ctc.ca.gov/credentials/leaflets/multiple-subject-teaching-credential-(cl-561c)
  • Completion of a Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation
  • Letter of Intent to Hire
• Enrollment Agreements signed prior to 1/1/2021: Completion of 30 of the 100 hours of clinical experiences in diverse settings. Candidates must complete all 100 hours of clinical experiences prior to being eligible for clinical practice.
• Enrollment Agreements signed 1/1/2021 or later: Completion of 60 of the 100 hours of clinical experiences in diverse settings. Candidates must complete all 100 hours of clinical experiences prior to being eligible for clinical practice.
• Certificate of Clearance
• Continuous enrollment in the University of Phoenix MAED/TED-E or S (Elementary or Secondary Education teacher preparation degree program)
• US Constitution (units or exam)
• Negative TB verification
• Completion of the following coursework:
  
  Multiple Subject: MTE 511; ELM 533; ELL 500; MTE 512; RDG 556; ELM 532

• If an intern candidate is removed from the university intern program, the university must notify the California Commission on Teacher Credentialing so the intern certificate can be deactivated by the Commission. If the candidate re-enters the program, the Commission must be notified in order to reactivate the intern credential.
• Candidates who had been issued an Internship from another university must provide a letter of academic good standing from their previous university prior to being accepted in the Internship Program.
• Candidates must be continuously enrolled to maintain their Internship Credential. Candidates who fail to be continuously enrolled or are dismissed or removed from their Internship will have their Internship Credential revoked and returned to the state with notification to their hiring district.

Master of Arts in Education/Secondary Teacher Education (California)

The following Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education/Secondary Teacher Education (MAED/TED-S) is a graduate degree program preparing candidates for initial teacher licensure for instruction in Single Subject education. The guiding philosophy of the MAED/TED-S program is to provide adults who already have degrees in disciplines other than education with the knowledge, skills, and dispositions to become competent and effective secondary educators. Rigorous course work, clinical experience, and clinical practice are integral components of this program. During their clinical practice (student teaching), candidates work with a cooperating teacher at a school site and a University of Phoenix faculty supervisor. All clinical experiences are aligned to state and professional standards and prepare candidates to link induction program standards to the next phase of their teacher preparation process.

View state licensure requirements for this program: www.phoenix.edu/state-licensure-requirements/teacher-education

This program, which leads to certification or licensure, is only approved in California. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates seeking to continue in a teacher licensure program outside of California, would be required to update to a comparable Arizona based program. Programs are available in select states. Candidates must keep their address up-to-date and contact their Academic Advisor immediately when any changes occur to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the possible change upon their ability to progress in the program.

Program Purpose

The Master of Arts in Education/Secondary Teacher Education is a graduate degree program intended for students with no prior teaching experience for initial teacher licensure. The program is designed for students who wish to become TK-12 single subject school teachers. Candidates for this program have already earned a bachelor’s degree. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state. Please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Demonstrate mastery of content and content pedagogical knowledge through the use of discipline-specific practices to advance student learning in the secondary classroom.
• Engage in self-reflection to evaluate and improve professional practice to enhance student learning in secondary education.
• Demonstrate professional dispositions and ethical conduct in their instructional practices and collaboration with learning communities in secondary education.
• Demonstrate a respect for diversity in their evaluation of the diverse needs of learners through continuous data analysis and adjustment of instructional strategies in secondary education.
• Demonstrate effective and innovative practices to improve student learning through applying current research to instructional strategies and integrating technology in secondary education.

Program Category Requirements and Course Selections

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Candidates in the MAED/TED programs are required to complete a minimum number of credits in each of the Program Requirement Categories. The number of required credits and courses available to fulfill these requirements are noted below.

Orientation, 0 total credits
MTE 001 ........................................................................................................ 0 credits
Orientation to Teacher Education

Introductory Course, 1 total credit
MTE 510 ~ ........................................................................................................ 1 credit
Professional Knowledge, Skills, and Dispositions

Foundations of Education, 3 total credits
MTE 516 ~ ........................................................................................................ 3 credits
Foundations of the Professional Educator

Educational Theories and Models, 6 total credits
SEC 533 ~ ........................................................................................................ 3 credits
Instruction and Assessment for Diverse Learners
Students enrolled in this program must have an undergraduate degree (in a major other than education) or higher from college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACS/COC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

Students using foreign credentials when enrolling in a program leading to initial teacher certification/licensure must use a foreign credential evaluation service that is on both the approved UOPX evaluation agency list and the state regulating board list of approved agencies, for the particular state in which the student is attending, to verify degree completion and equivalency to a United States undergraduate degree. Students attending online should abide by the regulations of the state in which they reside. In-house evaluations cannot be completed for programs leading to initial teacher certification.

• Verification of Certificate of Clearance or other approved Certificate of Clearance documents.
• Verification of negative TB test results, or other approved TB clearance documentation.
• A signed California MAED/TED New Student Checklist
• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

Candidacy Status for the MAED/TED-S
The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling. Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1. Level 2 Candidate Status is completed prior to the completion of 12 semester credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student’s file and uploaded to the student’s official record.

Students who reside in California and are enrolled in a California approved program (MAED/TED-E or MAED/TED-S) must meet approved basic skills proficiency as determined by the California Commission on Teacher Credentialing.

Students enrolled in this program (Elementary or Secondary) must provide one of the following verifications prior to the completion of 12 semester credits in the program:

- Demonstration of basic skills proficiency

Secondary candidates https://www.ctc.ca.gov/credentials/leaflets/Single-Multiple-Subject-Credentials-(CL-560C)

Eligible Secondary content areas include: English/Language Arts, Social Science, Mathematics, Science, Physical Education or Art.
Candidates will be required to have a 3.0 GPA for the program. In order to receive an institutional recommendation and/or state approval of their clinical practice.

Completion of My Time Log (100 hours). To ensure students apply for clinical practice and prior to the approval of their clinical practice.

Satisfactory completion of any required internship, clinical practice, and/or practicum courses.

Students must take courses within a sequence specified by course prerequisite requirements.

Completion of My Time Log (100 hours). To ensure students meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.

In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.

The diploma awarded for this program will read as: Master of Arts in Education Secondary Teacher Education

Degree Completion Requirements for the MAED/TED-S

- Completion of a minimum of 39 credits:
  - Required Course of Study: 39 credits
  - A minimum grade point average (GPA) of 3.0.
  - Completion of Teacher Performance Assessment.
  - Satisfactory completion of any required internship, clinical practice, and/or practicum courses.
  - Students must take courses within a sequence specified by course prerequisite requirements.
  - Completion of My Time Log (100 hours). To ensure students meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
  - In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.
  - The diploma awarded for this program will read as: Master of Arts in Education Secondary Teacher Education

Academic Progression Requirements for the MAED/TED-S

- Candidates must provide verification of the following prior to beginning their clinical practice placement. Candidates must provide:
  - Verification of negative TB test results, or other TB clearance documentation.
  - Verification of Subject Matter proficiency through a California Commission on Teacher Credentialing approved option.

Secondary candidates

https://www.ctc.ca.gov/credentials/leaflets/Single-Multiple-Subject-Credentials-(CL-560C)

Eligible Secondary content areas include: English/Language Arts, Social Science, Mathematics, Science, Physical Education or Art.

The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

Verification of the completion of 100 hours of clinical experience.

Candidates will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.

Minimum Grade Requirements for the MAED/TED-S

- Enrollment Agreements signed prior to 10/1/2020: Candidates participating in the California Intern Credential pathway will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.

- Enrollment Agreements signed 10/1/2020 or later: Candidates participating in the California Intern Credential pathway will be required to have a 3.5 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.

- Completion of a Dispositions Assessment

- Candidates must earn a C or better in HIS 518 to receive credit for the course. Grades of C- are not acceptable.

Residency Requirements and Course Waivers for the MAED/TED-S

- Students in this program may waive a maximum of 6 credits from their required course of study.

- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework).
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

- The following courses in the Required Course of Study may not be waived: MTE 001, MTE 510, MTE 512, MTE/513, RDG 558, SEC 533, SEC 535, SEC 536, SEC 538, SEC 539, SEC 540, SEC 541, SEC 586, SEC 587
Students who complete the Teach for America Summer Institute may satisfy the History course (HIS 518) using one of the following methods:
-Successful completion of HIS 518 or equivalents.
-Completion of a college-level course (two semester units or three-quarter units at the graduate or undergraduate level) in the provisions and principles of the U.S. Constitution with a grade of “C” or better from a college or university with ACCJC, HLC, MSCHC, NECHE, NWCCU, SACSCOC, orWSCUC accreditation.
-Undergraduate degree or higher from California State University (CSU)
-Pass a US Constitution examination given by a college or university with ACCJC, HLC, MSCHC, NECHE, NWCCU, SACSCOC, or WSCUC accreditation.
-Students who complete the Teach for America Summer Institute are eligible to waive the following courses in the MAED/TED Programs. Candidates must provide verification of completion in order to be eligible for these waivers.

Clinical Experience and Clinical Practice

Clinical Practice Policies
- Clinical practice is a full-time experience. Each campus establishes operational policies related to placement and completion of clinical practice. Candidates must follow the guidelines in place at their campus.
- Candidates must take the Clinical Practice Seminars concurrently with the clinical practice placement. If a candidate chooses to postpone clinical practice, he/she must postpone their enrollment in the clinical practice course.
- MAED/TED-E candidates must complete a total of two placements, one in each of the two elementary grade levels: K-2 and 3-6. These placements must be in self-contained classroom settings in which the candidate teaches the four core subject areas - English language arts, math, social studies, and science - to the same group of students.
- Enrollment Agreements signed prior to 7/1/2021: One placement is seven weeks and the other placement is eight weeks.
- Enrollment Agreements signed 7/1/2021 or later: One placement is eight weeks and the other placement is nine weeks.
- Removal from a placement at the request of an appointed administrator from the clinical practice location or UOPX:
- Candidates who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their first clinical practice seminar will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the candidates’ successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
- Candidates who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their clinical practice seminar, will be withdrawn from the clinical practice seminar, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.
- Candidates who do not successfully complete a successive attempt of the clinical practice will be removed from the program, placed on Scholastic Suspension, not eligible for re-entry and are not eligible for admission to the MAED/TED pre-licensure programs.
- Candidates enrolled in the MAED/TED program must complete their clinical practice in the subject area in which a passing score was achieved on the content knowledge assessment exam.
- Candidates in the MAED/TED program may not complete their clinical practice in special education.
• MAED/TED candidates, who are currently employed as the teacher of record in a public school classroom appropriate grade level/content for the certificate they are pursuing (e.g., 4th grade for elementary candidate or 9th grade English for secondary candidate), may be eligible to ‘student teach’ or ‘validate’ in their current classroom, while completing the programs culminating Clinical Practice courses. Candidates will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Candidates must complete the Clinical Practice courses and complete and upload the Teacher Performance Assessment.

• Enrollment Agreements signed prior to 7/1/2021: Candidates must complete a minimum of 15 weeks of clinical practice, including the completion of a Teacher Performance Assessment project.

• Enrollment Agreements signed 7/1/2021 or later: Candidates must complete a minimum of 17 weeks of clinical practice, including the completion of a Teacher Performance Assessment project.

• Candidates must submit their Teacher Performance Assessment.

• Clinical practice cannot be waived unless a documented exception exists in program policy. SAC appeals to waive clinical practice will not be accepted.

Clinical Experience
Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours of verified clinical experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each clinical experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided clinical experience requirements. The guided clinical experience requirements will be satisfied through the completion of Guided Clinical Experience assignments in specific courses required by the candidate’s program. Documentation of clinical experience will be reviewed by university staff and faculty prior to clinical practice. Candidates must work with their university and follow necessary guidelines outlined in the program handbook to arrange and satisfy clinical experience requirements. Candidates must be placed for field experience by the campus. A Certificate of Clearance and negative TB test is required prior to Field Experience placement. Students who have failed to meet program requirements for My Time Log must complete the academic progress student agreement form, to be signed by the student and returned to the appointed administrator.

Re-Entry for the MAED/TED-S
• Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.

• Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.

• Candidates who have been out of attendance for more than one year and are lacking courses in addition to their clinical practice must reenter the current program version and successfully complete all courses required by their reentry credit summary.

• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Institutional Recommendation for the MAED/TED-S
• Candidates must meet all current state certification requirements prior to being issued an Institutional Recommendation (IR, request for state teaching credential).

• Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

• Candidates must apply for their initial IR within one year of completing all academic requirements in their program. The time limit between completion of coursework and institutional recommendation (IR) for license or endorsement is 12 months. Failure to complete the IR process within this time period will result in a program review and may require additional coursework or assessments for currency.

• Candidates must provide verification of current and appropriate CPR certification, as defined by the California Commission on Teacher Credentialing, prior to being recommended for their credential.

• Candidates must provide verification of coursework in U.S. Constitution and Health Education (with a grade of “C” or better).

• Candidates must pass their Teacher Performance Assessment.

California Intern Credential
Candidates in California may qualify for an intern credential in California while enrolled in the MAED/TED program. The California Commission has identified specific requirements for intern qualification.

• Candidates who qualify as an elementary or secondary intern must meet the requirements noted below and sign an intern checklist.

• Candidates who are seeking an Internship must also be advised of the Early Completion Option.

• Enrollment Agreements signed prior to 10/1/2020: Candidates will be required to have a 3.0 GPA to be eligible for the intern credential.

• Enrollment Agreements signed 10/1/2020 or later: Candidates will be required to have a 3.5 GPA to be eligible for the intern credential.

• Candidates must provide verification of each of the following requirements:
  • Demonstration of basic skills proficiency as determined by the California Commission on Teacher Credentialing
  • Verification of Subject Matter proficiency through a California Commission on Teacher Credentialing approved option.

Secondary candidates
https://www.ctc.ca.gov/credentials/leaflets/Single-
Candidates must be continuously enrolled to maintain their Internship Credential. Candidates who had been issued an Internship from another state with notification to their hiring district. If an intern candidate is removed from the university intern program, the Commission must be notified in order to reactivate the intern credential. Candidates who fail to be continuously enrolled or are dismissed or removed from their Internship will have their Internship Credential revoked and returned to the university. The enrollment agreements signed prior to 1/1/2021:

- Letter of Intent to Hire
- Completion of a Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation
- Certificate of Clearance
- Continuous enrollment in the University of Phoenix MAED/ TED-E or S (Elementary or Secondary Education teacher preparation degree program)
- US Constitution (units or exam)
- Negative TB verification
- Completion of the following coursework:
  
  Single Subject: MTE 511; SEC 533; ELL 500; MTE 512; RDG 558; SEC 532

If an intern candidate is removed from the university intern program, the university must notify the California Commission on Teacher Credentialing so the intern certificate can be deactivated by the Commission. If the candidate re-enters the program, the Commission must be notified in order to reactivate the intern credential.

Candidates who had been issued an Internship from another university must provide a letter of academic good standing from their previous university prior to being accepted in the Internship Program.

Candidates must be continuously enrolled to maintain their Internship Credential. Candidates who fail to be continuously enrolled or are dismissed or removed from their Internship will have their Internship Credential revoked and returned to the state with notification to their hiring district.

---

**Master of Arts in Education/Special Education**

The following Master of Arts in Education/Special Education (MAED/SPE) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education (MAED) with a specialization in Special Education is a graduate degree program preparing candidates for teacher licensure in the field of special education. Candidates for this program have already earned a bachelor’s degree and wish to gain the pedagogical skills and knowledge that will assist them in becoming effective special education educators. The program’s curriculum includes orientation to the exceptional child, foundations and methodologies of mild disabilities, diagnosis and assessment of disabilities, structured English immersion, reading and language arts instruction, inclusion strategies, and collaboration and resource management for the special educator. Throughout the program, students are required to complete a minimum of 100 hours of verified field experiences. The focus of each observation will relate to specific course content. Students’ field experiences are designed to prepare them for student teaching. Student teaching is an integral component of the Special Education Program. Student teachers work with a cooperating teacher and with a University of Phoenix faculty advisor during a field-based experience in a mild-moderate special education setting. The student teaching experience is designed to emphasize the achievement of state standards leading to certification and to present individuals with growth opportunities that best prepare them to assume the duties of a certified teacher.

View state licensure requirements for this program: [www.phoenix.edu/state-licensure-requirements/teacher-education](http://www.phoenix.edu/state-licensure-requirements/teacher-education)

The Master of Arts in Education/Special Education (MAED/SPE) is an Arizona-based program for teacher licensure that provides the academic preparation to apply for initial teacher certification in select states. Educator licensure requirements vary by state. Candidates located in a state that does not provide a direct path to licensure will be required to obtain Arizona certification first, prior to seeking licensure in their home-state as an out-of-state prepared candidate. The Arizona certification process requires candidates to pass all Arizona-specific licensure requirements including any Arizona-specific exams (or home state equivalents if recognized by Arizona Department of Education).

After obtaining an Arizona educator license, candidates may be required to complete testing or other additional certification state requirements, at additional cost, in their home state to obtain state licensure there. Program requirements may change based upon state agency licensure requirements and they can be found on the teacher licensure page. The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the teacher licensure page regularly prior to contacting your state agency for state-specific licensure requirements.

---

Multiple-Subject-Credentials-(CL-560C)

Eligible Secondary content areas include: English/Language Arts, Social Science, Mathematics, Science, Physical Education or Art.

- Completion of a Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation
- Letter of Intent to Hire
- Enrollment Agreements signed prior to 1/1/2021: Completion of 30 of the 100 hours of clinical experiences in diverse settings. Candidates must complete all 100 hours of clinical experiences prior to being eligible for clinical practice.
- Enrollment Agreements signed 1/1/2021 or later: Completion of 60 of the 100 hours of clinical experiences in diverse settings. Candidates must complete all 100 hours of clinical experiences prior to being eligible for clinical practice.
- Certificate of Clearance
- Continuous enrollment in the University of Phoenix MAED/ TED-E or S (Elementary or Secondary Education teacher preparation degree program)
- US Constitution (units or exam)
- Negative TB verification
- Completion of the following coursework:

  Single Subject: MTE 511; SEC 533; ELL 500; MTE 512; RDG 558; SEC 532

- Enrollment Agreements signed 1/1/2021 or later: Completion of 60 of the 100 hours of clinical experiences in diverse settings. Candidates must complete all 100 hours of clinical experiences prior to being eligible for clinical practice.
- Certificate of Clearance
- Continuous enrollment in the University of Phoenix MAED/ TED-E or S (Elementary or Secondary Education teacher preparation degree program)
- US Constitution (units or exam)
- Negative TB verification
- Completion of the following coursework:

  Single Subject: MTE 511; SEC 533; ELL 500; MTE 512; RDG 558; SEC 532

- Enrollment Agreements signed 1/1/2021 or later: Completion of 60 of the 100 hours of clinical experiences in diverse settings. Candidates must complete all 100 hours of clinical experiences prior to being eligible for clinical practice.
Candidates beginning or resuming an education program are strongly encouraged to discuss state licensure requirements with their Education Program Specialist and regularly review state specific licensure requirements in the state where they plan to teach.

This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates must keep their address up-to-date with the University and contact their Academic Advisor immediately when any change occurs to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.

Program Purpose
The Master of Arts in Education/Special Education is a graduate degree program intended to prepare students with no prior teaching experience for initial teacher licensure. The program is designed for students who want to become special education teachers. Candidates for this program have already earned a bachelor's degree. The program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state's requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
- Design and implement effective instruction in the P-12 classroom to produce a positive impact on student learning.
- Evaluate effective professional practice in special education.
- Apply professional ethics to their instructional practices in special education.
- Create and modify instructional and behavioral plans for a variety of learning needs.
- Create innovative strategies and incorporate technology in a P-12 classroom setting.

Program Category Requirements
Courses requiring prerequisites are identified by a * symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Orientation, 0 total credits
MTE 507 ................................................................................... 0 credits
Orientation to Teacher Education

Introductory Course, 1 total credit
COM 516 ....................................................................................1 credit
Professional Communications

Foundations of Special Education, 3 total credits
SPE 513 ~ ................................................................................. 3 credits
Orientation to the Exceptional Child

Educational Theories and Models, 9 total credits
SPE 578 ~ ................................................................................. 3 credits
Models, Theories and Instructional Strategies for SPE

SPE 584 ~ ................................................................................. 3 credits
Learning Disabilities and Language and Development Disorders
MTH 575 .................................................................................. 3 credits
Mathematics Instruction for Special Education

Assessment, 3 total credits
SPE 512 ~ ................................................................................. 3 credits
Special Education Assessment and Interpretation

Reading, 4 total credits
RDG 570 ~ ................................................................................ 4 credits
Curriculum Const and Assmt: Reading and Lang Arts for SPE

Instruction and Management for Special Needs Students, 18 total credits
SEI 500 ..................................................................................... 3 credits
Structured English Immersion
SEI 503 ~ ................................................................................ 3 credits
Advanced Structured English Immersion Methods
SPE 574 ~ ................................................................................ 3 credits
Characteristics of Intellectual/Developmental Disabilities
SPE 544 ~ ................................................................................ 3 credits
Characteristics of Emotional & Behavioral Disorders
SPE 556 ~ ................................................................................ 3 credits
Characteristics of Physical & Health Disabilities
SPE 576 ~ ................................................................................ 3 credits
Characteristics of Autism Spectrum Disorders

Student Teaching, 8 total credits
SPE 594 ~ ................................................................................ 4 credits
Special Education Student Teaching: Part A
SPE 595 ~ ................................................................................ 4 credits
Special Education Student Teaching: Part B
North Carolina, Utah, Maryland, and Illinois residents will take SPE 596 in place of SPE 594 and SPE 595
New Jersey residents with an Enrollment Agreement signed prior to 9/10/2016 will take SPE 596 in place of SPE 594 and SPE 595
SPE 596 ~ ................................................................................ 8 credits
Student Teaching

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MAED/SPE
All applicants are expected to meet the following admissions requirements:
- Students enrolled in this program must have an undergraduate degree or higher from college or university with ACCJC, HLC, MSACHE, NÉCHE, NWCCU, SACSCOC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
• Students using foreign credentials when enrolling in a program leading to initial teacher certification/licensure must use a foreign credential evaluation service that is on both the approved University of Phoenix evaluation agency list and the state regulating board list of approved agencies, for the particular state in which the student is attending, to verify degree completion and equivalency to a United States undergraduate degree. Students attending online should abide by the regulations of the state in which they reside. In-house evaluations cannot be completed for programs leading to initial teacher certification.
• A signed MAED/SPE New Student Checklist
• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admisibility.
• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program.

Additional Admission Requirements for Oregon Residents with admission application or program change agreement signed 10/1/2021 or later

Students residing in Oregon must provide a screen shot from the Oregon Teacher Standards and Practices Commission Public Educator search, confirming they have never held an Oregon Educator license.

Additional Admission Requirements for South Dakota residents with an admission application or program change agreement signed 7/1/2022 or later

Students residing in South Dakota must provide verification of the following prior to admission:
• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Admission Requirements for Mississippi residents with an admission application or program change agreement signed 10/1/2022 or later

Mississippi residents seeking a Mississippi certificate must first:
• Obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  • Signed Pre-service certification Application
  • Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  • Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  • Institutional Program Verification (IPV) form

Candidacy Status for the MAED/SPE

The College of Education has two levels of review consisting of Level 1 Candidate Status and Level 2 Candidate Status. Applicants must meet requirements for both levels of candidacy status to continue in their program with no interruption of scheduling.
• Level 1 Candidate Status is completed upon admission to the University. Students who are admitted have met the requirements for Candidate Status Level 1.
• Level 2 Candidate Status is completed prior to the completion of 12 semester credits of the program. To meet the Candidate Status Level 2 requirements, the following items must be completed. Evidence that these requirements have been met must be entered on the student’s file and uploaded to the student’s official record.
  • Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.

Students must be admitted and meet Level 1 Candidate Status prior to being reviewed for Level 2 Candidate Status.

Degree Completion Requirements for the MAED/SPE

• Completion of a minimum of 46 credits:
  • Required Course of Study: 46 credits
  • A minimum grade point average (GPA) of 3.0.
  • Satisfactory completion and uploading of the Teacher Work Sample (TWS), or teacher performance assessment (depending on state of residency).
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Students must take courses within a sequence specified by course prerequisite requirements.
- Completion of My Time Log (100 hours minimum or more as required by state of residency). To ensure students meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.
- Completion of signature assignments.
- In order to receive an institutional recommendation and/or state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.
- Georgia residents attending Online and Local Campus students who complete field experience, student teaching, and apply for state certification 9/1/2015 or thereafter must complete:
  - GACE Educator Ethics Exit Exam (360)
- The diploma awarded for this program will read as: Master of Arts in Education Special Education

Academic Progression Requirements for the MAED/SPE
Candidates must provide verification of the following prior to beginning their student teaching experience. Candidates must provide:
- Immunization or TB test results (District specific)
- Passing scores on the designated state content knowledge exam.

The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

- Students seeking certification in Arizona will take the Arizona Special Education Professional Knowledge exam in lieu of a content knowledge exam.
- Verification of the completion of 100 hours of field experience (or more as required by state of residency).
- Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number

- State Specific Requirements: Students residing in the states below must complete additional coursework prior to starting student teaching.
  - Direct Licensure Applicants: Students in states that accept the Arizona program in order to directly apply for initial licensure in their home state:
    - Montana Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in Montana must provide verification of the following:
      - Completion of the online course, An Introduction to Indian Education for All in Montana
    - Wyoming: Students residing in Wyoming must provide verification of the following prior to the student teaching placement:
      - Completion of a Wyoming Constitution course or demonstration of knowledge by examination
      - Completion of a US Constitution course or demonstration of knowledge by examination

  - Reciprocity Licensure Applicants: Students who must obtain Arizona licensure first and then apply to their home state through reciprocity must complete:
    - New Jersey: Students residing in New Jersey must provide verification of the following:
      - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
      - Completion of a US Constitution course or the US Constitution AEPA Exam
    - New Mexico Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in New Mexico must provide verification of the following:
      - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
      - Completion of a US Constitution course or the US Constitution AEPA Exam
    - Puerto Rico: Students residing in Puerto Rico must provide verification of the following:
      - Completion of a Puerto Rico History course
      - Completion of a US History course
    - Texas Residents with Enrollment Agreements signed prior to 1/1/2020: Students residing in Texas must provide verification of the following prior to the student teaching placement:
      - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
      - Completion of a US Constitution course or the US Constitution AEPA Exam
    - South Dakota Residents with Enrollment Agreements signed prior to 7/1/2022: Students residing in South Dakota must provide verification of the following prior to the student teaching placement:
      - Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
      - Completion of a US Constitution course or the US Constitution AEPA Exam
    - Mississippi Residents with Enrollment Agreements signed prior to 10/1/2022: Mississippi residents seeking a Mississippi certificate must first obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
      - Signed Pre-service certification Application
      - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
      - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
      - Institutional Program Verification (IPV) form

Candidates will be required to have a 3.0 GPA for the program at the time they apply for the student teaching experience and prior to the approval of their student teaching experience.
Minimum Grade Requirements for the MAED/SPE

- A candidate must earn a grade of "B" or better in all student teaching courses in order to complete this program. Grades of "B-" are not accepted. Students who fail to receive a minimum grade of "B" in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or student teaching: SPE 594, SPE 595, SPE 596.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
- If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from the program.

Institutional Recommendation for the MAED/SPE

- Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.
- Upon completion candidates' records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

Residency Requirements and Course Waivers for the MAED/SPE

Students in this program may waive a maximum of 6 credits from their required course of study. In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation.
- The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 516, MTE 507, RDG 570, SPE 578, SPE 594, SPE 595, SPE 584, MTH 575, SPE 576. Georgia students only: COM 516, MTE 507, RDG 570, SPE 578, SPE 584, MTH 575, SPE 576, SPE 596

Candidates may waive SEI 500 and/or SEI 503 if they meet one of the following requirements:
- Completion of an Arizona Department of Education (ADE) approved SEI course(s) at an institution of higher education.
- Completion of My Time Log (100 hours minimum or more as required by state of residency). To ensure student's meet this requirement documentation will be periodically uploaded, reviewed, and maintained in the candidate's e-portfolio.

Candidates who provide evidence of the completion of 3 credits of SEI coursework may waive SEI 500 with credit, and SEI 503 without credit. Candidates must complete CUR 520 (or equivalent) to make up the credit deficiency for SEI 503.

Candidates who provide evidence of 6 credits of SEI coursework may waive both SEI 500 and SEI 503 with credit.

- Completion of an Arizona Department of Education (ADE) approved district/individual trainer led workshop
- Completion of a state approved workshop that is 45 clock hours may waive SEI 500 with credit, and SEI 503 without credit. Candidates must complete CUR 520 (or equivalent) to make up the credit deficiency for SEI 503.

Candidates who provide evidence of the completion of a state approved workshop that is 90 clock hours may waive both SEI 500 and SEI 503 with credit.

- Verification of one of the following endorsements:
  - Arizona Full SEI Endorsement (SEI 500)
    - Candidates who hold this endorsement may waive SEI 500 with credit, and SEI 503 without credit. Candidates must complete CUR 520 (or equivalent) to make up the credit deficiency for SEI 503.
  - Arizona English as a Second Language Endorsement (SEI 500 and SEI 503)
    - Candidates who hold this endorsement may waive both SEI 500 and SEI 503 with credit.

Students who complete the Teach for America Summer Institute are eligible to waive the following course in the MAED/TED Programs. Candidates must provide verification of completion in order to be eligible for these waivers.

Candidates who have completed Post-Baccalaureate Teacher Certification program (Post-Bacc) from Rio Salado Community College are eligible to apply completed coursework from the Post-Bacc program to fulfill requirements within this program. Course waivers will only be granted to students who have completed the Post-Bacc program in its entirety. Single courses from the Post-Bacc program will not be approved.

Students who waive courses using the Post-Bacc Course Waiver Policy may exceed the maximum waiver limit for their program and will be eligible to waive select non-waivable courses as outlined on the Post-Bacc Teacher Certification Course Waiver Form. Following application of the Post-Bacc course waivers, candidates will fulfill Candidacy 2 and all academic progression requirements. Candidates will not be required to complete and/or provide the following:

- Fingerprint clearance
- Completion and uploading of the Teacher Work Sample (TWS)
- Satisfactory completion of any required internship, student teaching, and/or practicum courses.
- Completion of My Time Log (100 hours minimum or more as required by state of residency). To ensure student's meet this requirement documentation will be periodically uploaded, reviewed, and maintained in the candidate's e-portfolio.

Only students who have completed the Post-Bacc in Special Educa-
Candidates must take Student Teaching Part A & B concurrently. Removal from a placement at the request of an appointed administrator from the student teaching location or UOPX: Students who waive courses using the Arizona Alternative Pathway or Graduate Initial Teacher Special Education Certificate (CERT/AP-SE AZ or CERT/G-SPE) will not be eligible for admission to the Master’s program and therefore are not eligible to apply completed coursework from the certificate program to fulfill requirements within this program. Students who waive courses using the Arizona Alternative Pathway or Graduate Initial Teacher Special Education Certificate (CERT/AP-SE AZ or CERT/G-SPE) may exceed the maximum waiver limit for their program and will be eligible to waive select non-waivable courses as outlined on the Arizona Alternative Pathway/Graduate Initial Teacher Certificate Course Waiver Form.

Field Experience for the MAED/SPE
Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 100 hours (or more as required by state of residency) of verified field experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each field experience will relate to specific course content and will follow a structured format. As part of the verified field experiences, candidates must also complete guided field experience requirements.

Student Teaching for the MAED/SPE
Student teaching is a full-time experience. Each campus establishes operational policies related to placement and completion of student teaching. Candidates must follow the guidelines in place at their campus.

- Candidates must take Student Teaching Part A & B concurrently with the student teaching experience. Candidates who choose to postpone student teaching must postpone their enrollment in the student teaching courses.
- Candidates must earn a “B” or better in Student Teaching Seminar A in order to progress to Seminar B and the remainder of the student teaching experience. Candidates who do not earn a “B” or better will be required to repeat the seminar and student teaching.
- Student teaching can only be repeated one time.
- Removal from a placement at the request of an appointed administrator from the student teaching location or UOPX:
  - Student teachers who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their student teaching course or while transitioning between their student teaching courses, will result in candidates being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two student teaching attempts.
- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
- Student teachers who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their student teaching course, will be withdrawn from the student teaching course, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two student teaching attempts.
- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
- Unapproved self-terminations of student teaching:
  - Students who execute an unapproved self-termination of student teaching, prior to starting and posting attendance in their student teaching course or while transitioning between their student teaching courses, will result in candidates being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the successful completion of the supplemental standards remediation process. This experience counts as one of their two student teaching attempts.
  - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
- Students who have completed the Arizona Alternative Pathway or Graduate Initial Teacher Special Education Certificate (CERT/AP-SE AZ or CERT/G-SPE) from University of Phoenix are eligible to apply completed coursework from the certificate program to fulfill requirements within this program.
- Georgia Residents who completed a UOPX initial teacher licensure-only graduate certificate (e.g., CERT/AP-E, CERT/AP-S, CERT/AP-SE, CERT/G-ELM, CERT/G-SEC, and CERT/G-SPE) will not be eligible for admission to the Master’s program and therefore are not eligible to apply completed coursework from the certificate program to fulfill requirements within this program.

-Candidates who successfully complete their mid-term evaluation:
- Candidates who do not successfully complete their mid-term evaluation will be eligible for waivers for the MAED/SPE.

COLLEGE OF EDUCATION

University of Phoenix, 2022-2023
Candidates enrolled in the MAED/SPE program must student teach in the appropriate mild-moderate special education student teaching setting.

Students who are already teaching in an appropriate K-12 mild-moderate special education environment will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for student teaching. Students in the MAED/SPE program must be currently teaching in a K-12 mild-moderate special education setting that meets their state requirements for student teaching.

Students should complete student teaching within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the student teaching courses).

Student teaching cannot be waived unless a documented exception exists in program policy. SAC appeals to waive student teaching will not be accepted.

Candidates who are unable to complete their student teaching experience at the campus where they began are not guaranteed a placement. Candidates may be able to complete their student teaching online. A select number of states do not participate in the University of Phoenix Special Education program. Candidates must contact the Online Administrative Offices for a list of participating states and procedures for student teaching placement.

Candidates must enroll in the remaining Student Teaching Seminars online while completing their student teaching experience.

Candidates need to work directly with the Online Administrative Offices to complete the requirements for verification of placement.

**Arizona Teaching Intern Certificate Route**

**Arizona Teaching Intern Certificate Route**
The Arizona Teaching Intern Certificate Route is optional for Arizona residents and is not a requirement for participation in clinical practice (student teaching). To participate in the Arizona Teaching Intern Certificate Route, candidates must qualify for the Alternative Teaching Certificate.

The Alternative Teaching Certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate. The Alternative Teaching Certificate is valid for two years and may be extended yearly for no more than two consecutive years.

**Requirements for initial issuance of the Alternative Teaching Certificate:**
- A Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation.
- A valid fingerprint clearance card issued by the Arizona Department of Public Safety. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.

- Letter of intent to hire or other evidence indicating that the student will be hired as a contracted teacher for the school year. The classroom and grade level must align with the candidate’s program of enrollment and content knowledge exam.
- Verification letter indicating that the candidate is enrolled in an Arizona State Board approved educator preparation program signed by the College of Education appropriate designee.
- Passing scores on the designated state content knowledge exam.
- Students must have a minimum 3.0 GPA and be in good academic and financial standing.

**Requirements for extension of the Alternative Teaching Certificate:**
- Students must be continuously enrolled.
  - Intern route students need to earn credit within an academic term (August to December or January to May). If this is not accomplished, the student will not meet the requirements for the Arizona Department of Education Verification Letter.
- Students must have a minimum 3.0 GPA and be in good academic and financial standing.

**Re-entry for the MAED/SPE**
Candidates who have been out of attendance for more than one year and have completed all degree requirements except clinical practice may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.

- Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
Select programs may have additional re-entry requirements. No appeals will be accepted for re-entry to an expired program. Re-entry students not re-entering into the most current program version offered in their state or jurisdiction must submit an appeal to the Student Appeals Committee to re-enter any program that is not yet expired. No appeals will be accepted for re-entry to an expired program. Select programs may have additional re-entry requirements/restrictions. Re-entry students should consult the appropriate University representative for guidance.

**Master of Arts in Education/Educational Studies**

The following Master of Arts in Education/Educational Studies (MAED/ES) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education/Educational Studies (MAED/ES) degree is a non-teaching degree designed to facilitate the development of professional knowledge, skills and understanding of the teaching and learning process. The program provides students with information across a variety of education topics with an emphasis in the field of education.

**Note: This program is not eligible for Federal Student Financial Aid funds.**

**Program Purpose**

The Master of Arts in Education/Educational Studies is a graduate degree program intended for students who have completed all coursework from a UOPX initial licensure program with the exception of both student teaching courses. The program does not prepare students for any type of professional certification or state licensure as a teacher. It is only intended as a degree completion option.

**Program Category Requirements for the MAED/ES**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Students must select one course from each Elective category selection below to complete the 6 credit requirement:

**Elective One, 3 total credits**

AET 500................................................................. 3 credits

Foundations of Adult Learning Theory

AET 552................................................................. 3 credits

Marketing Adult Education

AET 560................................................................. 3 credits

Facilitating Change

Social Media for Professional Learning

**Elective Two, 3 total credits**

CUR 520................................................................. 3 credits

Advocating for Learning

CUR 525................................................................. 3 credits

Ethical Issues in Education

CUR 550................................................................. 3 credits

Engaging in Communities of Practice

CUR 555................................................................. 3 credits

Professional Learning for Continuous Improvement

The University reserves the right to modify the Program Requirements.

**Additional Admission Requirements for the MAED/ES**

Applicants are expected to meet all admissions requirements:

- Applicants enrolling in this program must have been admitted and officially evaluated into their UOPX previous pre-licensure program.
- The University of Phoenix previous pre-licensure programs eligible for admission to the MAED/ES are the following: MAED/TED-E, MAED/TEDEE, MAED/TEDEM, MAED/TEDMS, MAED/TEDMG, MAED/TEDMM, MAED/TEDSM, MAED/TEDSS, MAED/TED-S, MAED/SPE, MAED/ECH
- The University reserves the right to require the applicant to complete the MAED/ECH program. Please contact your campus representative for more information.
- Applicants to this program must have completed all coursework from their UOPX previous pre-licensure program with the exception of both Student Teaching (Clinical Practice) courses.
- Students will be eligible for admission to the MAED/ES program provided that the Enrollment Agreement sign date for the previous pre-licensure program is no more than ten (10) years in the past.
- Applicants may have up to one (1) year upon program enrollment agreement sign date or their original pre-licensure program completion deadline, whichever comes later, to complete the program.

**Degree Completion Requirements for the MAED/ES**

- Completion of a minimum of *34 credits to earn a university degree:
  - Previous UOPX Pre-licensure MAED Credits: 28 credits
  - Educational Studies Electives: 6 credits

*34 is the minimum number of credits for degree completion, based on the number of credits that could be completed in a previous UOPX pre-licensure program by a student eligible for admission to the Master of Arts in Education/Educational Studies program.

Students in this program may be required to complete up to 45 credits depending on the credits that were required for the previous UOPX pre-licensure program.

- Completion of two (2) MAED/ES Elective courses in addition to all completed coursework from the previous pre-licensure program, with the exception of student teaching.
- A minimum grade point average (GPA) of 3.0.
- MAED/ES graduates will not be permitted to return to complete student teaching (Clinical Practice) and receive a degree in any previous pre-licensure program at the University.
The diploma awarded for this program will read as:
Master of Arts in Education
Educational Studies

**Residency Requirement for the MAED/ES**

Students must meet the established University residency requirement for degree conferral. The University requires that all six (6) Elective credits must be completed at University of Phoenix in order to meet residency.

**Re-entry for the MAED/ES**

Re-entry students completing a program change from one of the following UOPX pre-licensure programs to the MAED/ES program will be required to complete all paperwork required by the University Re-entry policy.

MAED/TED-E
MAED/TEDEE
MAED/TEDEM
MAED/TEDMS
MAED/TEDMG
MAED/TEDMM
MAED/TEDSM
MAED/TEDSS
MAED/TED-S
MAED/SPE
MAED/ECH

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if the program version is still the most current in their state or jurisdiction.
- Re-entry students whose program version is not the most current in their state or jurisdiction will be required to enroll into the most current version.
- Re-entry students not re-entering into the most current program version offered in their state or jurisdiction may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired.
- No appeals will be accepted for re-entry to an expired program.
- Select programs may have additional re-entry requirements/ restrictions. Re-entry students should consult the appropriate University representative for guidance.

**Master of Arts in Education/Curriculum and Instruction**

The following Master of Arts in Education/Curriculum and Instruction (MAED/CI) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Arts in Education program with a specialization in Curriculum and Instruction is intended to afford P-12 educators the opportunity to enhance their curriculum, instruction, and leadership repertoire by expanding their knowledge of assessment, instructional strategies, integration of technology, professional development, data-driven decision making, and mentoring and coaching. Educators will develop teacher leadership skills by exploring the latest research, trends, and strategies. Graduates will be able to effectively collaborate with all stakeholders and serve their students, colleagues, and communities as ethical leaders committed to excellence.

**Program Purpose**

The Master of Arts in Education/Curriculum and Instruction is a graduate degree program intended to provide educators with advanced knowledge and skills in curriculum and instruction. The program does not prepare students for any type of professional certification or state licensure as a teacher. It is only intended as an advanced degree.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will be able to synthesize multiple theories of curriculum and instruction to design effective professional development opportunities.
- Students will be able to analyze assessment data to make informed decisions for continuous improvement of instructional programs.
- Students will be able to create innovative strategies and incorporate technology to enhance student learning in the classroom setting.
MAED/CUI Required Course of Study

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MAED/CUI

All applicants are expected to meet the following admissions requirements:

• An undergraduate degree or higher from a college or university with approved institutional accreditation or that is a candidate for approved institutional accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admmissibility.

Degree Completion Requirements for the MAED/CUI

• The completion of a minimum of 35 credits:
  • Required Course of Study: 35 credits
  • A minimum grade point average (GPA) of 3.0.
  • The diploma awarded for this program will read as: Master of Arts in Education Curriculum and Instruction

Residency Requirements and Course Waivers for the MAED/CUI

The University requires that the majority of coursework in the Required Course of Study be completed through the University. Also known as the residency requirement, the University requires completion of a minimum of 23 graduate level credits at the University.

Students in this program may waive a maximum of 12 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation.

• The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

The following courses in the Required Course of Study may not be waived: COM 516

Candidates who successfully complete either the MAED/TED-Elementary or MAED/TED-Secondary program may waive the following courses in the MAED/CUI program upon enrolling in the Master of Arts in Education/Curriculum and Instruction program.

</table>

Effective 4/1/2018, candidates with an additional, current academic teaching endorsement may waive the following 9 credits upon admission to the MAED/CUI program: CUR 506, CUR 505, CUR 550

Any resident in the state of California who can show verification of the completion of a California Commission on Teacher Credentialing (CTC) state-approved induction program may exceed the 12 credit waiver maximum and waive up to 13 credits upon admission to the MAED/CUI program: CUR 506, CUR 530, CUR 535, CUR 520

Candidates who have completed Post-Baccalaureate Teacher Certification program (Post-Bacc) from Rio Salado Community College are eligible to apply completed coursework from the Post-Bacc program to fulfill requirements within this program. Course waivers will only be granted to students who have completed the Post-Bacc program in its entirety. Single courses from the Post-Bacc program will not be approved.
Students who waive courses using the Post-Bacc Course Waiver Policy may exceed the maximum waiver limit for their program and will be eligible to waive select non-waivable courses as outlined on the Post-Bacc Teacher Certification Course Waiver Form. Students who have completed the below listed courses with a grade of C- or higher are eligible to waive up to 6 credits toward the MAED/CI Program. These courses will only be eligible to apply if the courses were completed prior to the Enrollment Agreement sign date for the MAED/CI program.

- For students to be eligible to waive CUR 520 the following courses must be completed: NTI 501, NTI 502
- For students to be eligible to waive CUR 530 the following courses must be completed: NTI 503, NTI 504

Students who have completed approved Continuing Education courses or their equivalents with a grade of B or higher, and within the last 5 years from Enrollment Agreement sign date are eligible to waive up to 12 credits toward the MAED/CI Program. An ARSC Heat Ticket must be submitted to have approved CET courses applied to the MAED/CI program. For the Continuing Education courses to apply to the MAED/CI degree program, the courses must have been taken prior to the student enrolling in the program. Students may not have any Continuing Education coursework apply to MAED/CI program requirements if the Continuing Education coursework was completed after the Enrollment Agreement sign date.

Re-entry for the MAED/CI

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:

- Students who have been expelled from University of Phoenix are not eligible for admission to University of Phoenix.
- Students who have been expelled from other institutions are not eligible for admission to University of Phoenix.
- The applicant has successfully completed thirty (30) transferable, academic semester credits at a college or university with approved institutional accreditation in the United States.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.
- The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.
- The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.
- The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.
- The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.
- Applicants who reside in the United States must meet one of the following requirements:
  - Be a legal resident of the United States
  - Have been granted permanent residency
  - Have a valid visa that does not prohibit educational studies
  - Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
  - Have been granted asylum or refugee status.
- Applicants who reside in Canada must meet one of the following requirements:
  - Be a legal resident of Canada
  - Be a landed immigrant
  - Have a valid visa that does not prohibit educational studies
- A completed and signed graduate application and application fee
- A signed current Hardware/Software agreement verifying Internet access and multimedia equipped computer.
- A signed Research Library Access Agreement.
- A signed Enrollment/Disclosure Agreement.
- Completion of any state-specific required documents or forms.
- Applicants who have been expelled from other institutions are not eligible for admission to University of Phoenix.
- Students who have been expelled from University of Phoenix are not eligible for readmission to University of Phoenix. No appeals will be accepted.
The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1956, be immunized for measles-mumps-rubella (MMR). Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

For enrollments effective on or after July 1, 2020, Varicella: The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1979, be immunized for Varicella (Chickenpox). Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of Varicella. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

As an exception, a signed, documented diagnosis or verification of a history of varicella disease or herpes zoster by a practitioner may be substituted for a record of varicella vaccination.

For enrollments effective on or after July 1, 2020, Tetanus, Diphtheria, Pertussis (Tdap): The Hawaii State Department of Health requires that all students attending school at a campus in this state be immunized for Tetanus Diphtheria, and Pertussis (Tdap).

Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of Tdap. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

Exemptions from the MMR, Varicella, and Tdap immunization requirements may be granted for the following reasons:

- A medical exemption may be granted to specific vaccines.
- A US licensed physician (M.D. or D.O.) must state in writing that giving a specific vaccine would endanger the student’s life or health, and specify the reason based on valid medical contraindications.
- The physician must state the length of time during which the vaccine would endanger the student’s health or life.
- The exemption certification must be signed by the physician on the physician’s printed stationery.
- A religious exemption may be granted if the student signs a statement certifying that the student’s religious beliefs prohibit the practice of immunization.
- If the State of Hawaii Director of Health determines that there is a danger of an outbreak from any of the diseases for which immunization is required, no exemption shall be recognized and inadequately immunized students shall be excluded from school until the Director has determined that the outbreak is over.
- A copy of each exemption must be kept in the student’s health record at school.

The Hawaii State Department of Health requires that all students attending school at a campus in this state shall provide a Certificate of TB Examination issued in the United States within 12 months prior to their first attendance in a post-secondary school in Hawaii. A completed Certificate of TB Examination shall be submitted prior to the first night of class or the student will not be permitted to attend class. Students shall complete Section A of this form, or submit a copy of their TB Clearance Certification received prior to their attendance at another Hawaii post-secondary school.

**Program Length**

The anticipated “normal time” to complete a doctoral level program with a dissertation is 195 to 247 weeks, the anticipated “normal time” to complete a doctoral level program with no dissertation (EDS program) is 83 weeks, and the anticipated “normal time” to complete a doctoral level certificate program is 32 to 40 weeks. The ranges provided above account for possible concentrations and/or bridge versions available within the chosen degree program. The term “normal time” means the length of time it would take a student to complete this program if the student is continuously enrolled, takes a full course load, successfully completes each attempted course, and does not have any transfer credits. Students may exceed or complete prior to the anticipated “normal time” for a variety of reasons that are individual to the student.

**Doctor of Education**

The following Doctor of Education (EDD) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Doctor of Education program prepares early- to mid-careerists in diverse educational settings to strategically manage complex educational organizations. Through utilization of best practice, knowledge of regulation and policy, and a deep understanding of drivers for innovation in educational environments, learners will apply these insights and contribute in a solution-oriented way to the growing body of research on transforming educational systems.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate the SPL model throughout the doctoral journey and beyond.
- Cultivate a leadership identity that reflects a mature and strategic understanding of the tenets of leadership at all levels of educational organizations.
- Become familiar with legal and regulatory mandates germane to education at all levels, including compliance, accreditation, and certification.
- Generate research of a high caliber to identify and address opportunities for improvement in complex educational contexts.
**Program Purpose**

The Doctor of Education (EDD) will prepare learners to become transformational leaders who will strategically manage and lead complex educational organizations. The EDD does not lead to teacher licensure or any other professional licensure or certification.

**Program Category Requirements for the EDD**

Coursess requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the EDD

All applicants are expected to meet the following admissions requirements:

- A graduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, college or university or equivalent graduate degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

- Current or a record of past employment or access to a work environment is required for admission.

- Students who have previously attended an education-aligned doctoral program at a college or university with approved institutional accreditation, or that is provincially accredited, and that completed all required courses to reach All-But-Dissertation (ABD) or candidacy status at that institution, will be considered as satisfying EDD 700, six credits in Research, and all their Electives requirements. The transfer coursework may align to the doctoral program, but no further content restrictions will apply. Transfer coursework from their previous institution will be applied to these 27 credits as course waivers if the students meet all the following conditions, as verified by an ABD waiver enrollment recommendation from the Dean of the College of Doctoral Studies, or an approved delegate:
  - Proof of ABD or candidacy status at the prior institution.
  - An official transcript showing a minimum of 27 semester credit hours completed in an education-aligned doctoral program.
  - ABD or candidacy status at the prior institution must have been achieved within (10) years from current program enrollment agreement sign date.

- A written statement from the student outlining a plan for the completion of the dissertation, including, at a minimum, why the applicant's dissertation was not completed at the previous institution and why the applicant believes a dissertation can now be completed at UOPX in the allowable timeframe. Students will submit any completed portion(s) of their dissertation and/or proposal from their previous institution for review in connection with this written statement.

- A cumulative GPA of 3.0 for all doctoral coursework listed on the official transcript from the institution where the student achieved ABD or candidacy status. Transfer coursework that was earned outside of the institution where the student achieved ABD or candidacy will not be calculated into the cumulative GPA for admissibility.

- Any other information requested and deemed necessary by the College to validate the qualification requirements listed above and the student’s overall readiness to enter the program.

Degree Requirements for the EDD

- Completion of a minimum of 54 doctorate credits and any additional program requirements (if applicable):
  - Required Course of Study: 36 credits
  - Educational Leadership Electives: 18 credits
  - Additional Program Requirements (if applicable): 14 credits
  - Maximum Total (with Additional Program Requirements included): 68 credits

- A minimum grade point average (GPA) of 3.0.

- Written approval of the dissertation proposal.

- Successful completion of all credit and non-credit bearing degree requirements, including an approved dissertation and signature page signed by the Dean

- The diploma awarded for this program will read as: Doctor of Education

Academic Progression Requirements for the EDD

Students are subject to the following academic progression requirements:

- Students may concurrently enroll in classes provided that the following criteria are met:
  - Must have a minimum GPA of 3.5
  - Must have earned at least 15 credits in the University of Phoenix doctoral program
  - Must have no history of academic probation, scholastic disqualification, or scholastic suspension in a University of Phoenix doctoral program

- Students may have only one incomplete grade on their records at a time.

- Students must complete each phase of the dissertation process in chronological order - phase 1 through phase 5. These phases are:
  - Prospectus
  - Proposal
  - Institutional Review Board (IRB) and final dissertation approval

- Students must be enrolled in or have successfully completed the appropriate course(s) in order to complete the corresponding dissertation phase.
Students must have a Dissertation Chair prior to enrollment in DOC 741 and DOC 742, and all corresponding extension courses.

- Students must have dissertation proposal approval (QRM), and IRB approval, prior to enrollment in DOC 742.
- Final Quality review of dissertation and successful oral defense during the dissertation process phase 5.
- Effective 7/1/2021: Students will have no more than three attempts to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for satisfactory oral defense of the dissertation.
- Effective 7/1/2021: Students who have attempted their oral defense prior to 7/1/2021 but have not successfully completed this requirement will be allowed no more than three attempts on or after 7/1/2021 to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for satisfactory oral defense of the dissertation.

**Academic Standing and Minimum Grade Requirements for the EDD**

- Students who fail to meet the minimum grade of a "B-" in EDD/700 will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
- Students who fail to meet the minimum grade of a "B-" in LDR/711A will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
- All credit-bearing courses, with the exception of courses that are outlined in the syllabus as Pass/Fail, must be completed with a grade of "B-" or better. Students who earn a grade lower than "B-" must repeat the course until the minimum grade requirement is met.

**Residency Requirements and Course Waivers for the EDD**

- Students must meet the established University residency requirement for degree conferral. The University requires that 27 credits from a combination of Required Course of Study and Electives, must be completed at UOPX.
- Students may be granted a waiver with credit for EDD 700 if they have earned a graduate degree in education or related discipline within 10 years from current program enrollment agreement sign date from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- Students who used the prior completion of a graduate degree to waive doctoral coursework requirements in a previous program, and who complete a program change to a new program or version, will not be eligible to carry those waivers forward to satisfy doctoral programmatic requirements.
- In order to be granted a waiver with credit for a course in the required course of study or electives, students must have completed a previous course that meets the following criteria:
  - The course must have been completed and transcripted from a college or university with approved institutional accreditation, or that is provincially accredited or in candidacy for approved institutional or provincial accreditation.
  - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level course. Courses must be assessed and approved by the CDS Dean or an approved delegate.
- Students may waive a maximum of 27 credits from their required course of study and electives.
- The following course(s) may not be waived: DOC 714S, DOC 715, DOC 719S, DOC 723, DOC 741, DOC 742, EDD 724, LDR 711A, RES 709
- The dissertation may not be waived.

**Re-entry for the EDD**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.
Doctor of Management

The following Doctor of Management (DM) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Doctor of Management program prepares mid-careerists in diverse managerial contexts with strategies for exploring their personal readiness to lead in their current setting and/or identify steps toward their future aspirations. Through engagement with the leadership literature, personal reflection, and a critical look at strategies for further development, learners demonstrate their competence by applying what they learn to current organizational environments.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate the SPL model throughout the doctoral journey and beyond.
- Cultivate a leadership identity that reflects a mature and strategic understanding of the tenets of effective management praxis.
- Utilize optimal design theories in the cultivation of environments that nurture effective teamwork, collaboration, and celebration of diversity.
- Generate research of a high caliber to identify and address opportunities for innovation in complex managerial contexts.

The following continuing enrollment courses may be required to satisfy the seminar, dissertation, and project requirements for the doctoral program.

Students may be required to complete the A or the A and B courses for DOC 741 until Quality Review Final (QRF) and Oral Defense approvals have been received.

If QRM (Dissertation proposal) is not approved by the completion of DOC 741B, a failing grade will be issued.

Student may be required to complete the A or the A and B courses for DOC 742 until Quality Review Final (QRF) and Oral Defense approvals have been received.

If QRF (final dissertation) is not approved by the completion of DOC 742B, a failing grade will be issued.
All applicants are expected to meet the following admissions requirements:

- A graduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or equivalent graduate degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed before the institution was accredited or during the candidacy period.
- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Current or a record of past employment or access to a work environment is required for admission.
- Students who have previously attended a business-aligned doctoral program at a college or university with approved institutional accreditation, or a provincially accredited institution and that completed all required courses to reach All-But-Dissertation (ABD) or candidacy status at that institution, will be considered as satisfying BUS/700, six credits in Research, and all their Electives requirements. The transfer coursework must align to the doctoral program, but no further content restrictions will apply. Transfer coursework from their previous institution will be applied to these 27 credits as course waivers if the students meet all the following conditions, as verified by an ABD waiver enrollment recommendation from the Dean of the College of Doctoral Studies, or an approved delegate:
  - Proof of ABD or candidacy status at the prior institution.
  - An official transcript showing a minimum of 27 semester credit hours completed in a business-aligned doctoral program.
  - ABD or candidacy status at the prior institution must have been achieved within (10) years from current program enrollment agreement sign date.

- A written statement from the student outlining a plan for the completion of the dissertation, including, at a minimum, why the applicant's dissertation was not completed at the previous institution and why the applicant believes a dissertation can now be completed at UOPX in the allowable timeframe. Students will submit any completed portion(s) of their dissertation and/or proposal from their previous institution for review in connection with this written statement.
- A cumulative GPA of 3.0 for all doctoral coursework listed on the official transcript from the institution where the student achieved ABD or candidacy status. Transfer coursework that was earned outside of the institution where the student achieved ABD or candidacy will not be calculated into the cumulative GPA for admissibility.
- Any other information requested and deemed necessary by the College to validate the qualification requirements listed above and the student's overall readiness to enter the program.

**Degree Requirements for the DM**

- A minimum of 54 doctorate credits and any additional program requirements (if applicable):
  - Required Course of Study: 36 credits
  - Management and Organizational Leadership Electives: 18 credits
  - Additional Program Requirements (if applicable): 14 credits
  - Maximum Total (with Additional Program Requirements included): 68 credits
- A minimum grade point average (GPA) of 3.0.
- Written approval of the dissertation proposal.
- Successful completion of all credit and non-credit bearing degree requirements, including an approved dissertation and signature page signed by the Dean.
- The diploma awarded for this program will read as: Doctor of Management

**Academic Progression Requirements for the DM**

Students are subject to the following academic progression requirements:

- Students may concurrently enroll in classes provided that the following criteria are met:
  - Must have a minimum GPA of 3.5
  - Must have earned at least 15 credits in the University of Phoenix doctoral program
  - Must have no history of academic probation, scholastic disqualification, or scholastic suspension in a University of Phoenix doctoral program
- Students may have only one incomplete grade on their records at a time.
- Students must complete each phase of the dissertation process in chronological order - phase 1 through phase 5. These phases are:
  - Prospectus
  - Precis
  - Concept Review
  - Proposal
  - Institutional Review Board (IRB) and final dissertation approval
- Students must be enrolled in or have successfully completed the appropriate course(s) in order to complete the corresponding dissertation phase.
• Students must have a Dissertation Chair prior to enrollment in DOC 741 and DOC 742, and all corresponding extension courses.
• Students must have dissertation proposal approval (QRM), and IRB approval, prior to enrollment in DOC 742.
• Final Quality review of dissertation and successful oral defense during the dissertation process phase 5.
• Effective 7/1/2021: Students will have no more than three attempts to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for an approved dissertation.
• Effective 7/1/2021: Students who have attempted their oral defense prior to 7/1/2021 but have not successfully completed this requirement will be allowed no more than three attempts on or after 7/1/2021 to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for an approved dissertation.

Academic Standing and Minimum Grade Requirements for the DM
• Students who fail to meet the minimum grade of a “B-“ in BUS/ 700 will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
• Students who fail to meet the minimum grade of a “B-“ in LDR/ 711A will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
• All credit-bearing courses, with the exception of courses that are outlined in the syllabus as Pass/Fail, must be completed with a grade of “B-“ or better. Students who earn a grade lower than “B-“ must repeat the course until the minimum grade requirement is met.

Residency Requirements and Course Waivers for the DM
• Students must meet the established University residency requirement for degree conferral. The University requires that 27 credits from a combination of Required Course of Study and Electives, must be completed at UOPX.
• Students may be granted a waiver with credit for BUS 700 if they have earned a graduate degree in business or related discipline, or a graduate degree related to organizational management. The degree must have been earned within 10 years from current program enrollment agreement sign date from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
• Students who used the prior completion of a graduate degree to waive doctoral coursework requirements in a previous program, and who complete a program change to a new program or version, will not be eligible to carry those waivers forward to satisfy doctoral programmatic requirements.
• In order to be granted a waiver with credit for a course in the required course of study or electives, students must have completed a previous course that meets the following criteria:
  • The course must have been completed and transcripted from a college or university with approved institutional accreditation, or that is provincially accredited or in candidacy for approved institutional or provincial accreditation.
  • The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  • The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level course. Courses must be assessed and approved by the CDS Dean or an approved delegate.
• Students may waive a maximum of 27 credits from their required course of study and electives.
• The following course(s) may not be waived: DOC 714S, DOC 715, DOC 719S, DOC 723, DOC 741, DOC 742, LDR 711A, ORG 716, RES 709
• The dissertation may not be waived.

Re-entry for the DM
• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
The following Doctor of Business Administration (DBA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Doctor of Business Administration program prepares mid-careerists across the sector to bring new insights to bear on the practice of business administration, providing aspiring leaders with the competencies necessary to grow their leadership capacity in business settings through a mastery of business administration scholarship and praxis, effectively apply of this insight to current business environments, and produce solution-oriented organizational research.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate the SPL model throughout the doctoral journey and beyond.
- Cultivate a leadership identity that reflects a mature and strategic understanding of the dynamics of diverse business environments.
- Analyze organizational landscapes in order to drive performance excellence through cultural competence, competitive advantage, long-term sustainability, employee satisfaction, and community engagement.
- Generate research of a high caliber to identify and address opportunities for improvement in business contexts.

Additional Admission Requirements for the DBA

All applicants are expected to meet the following admissions requirements:

- A graduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, or equivalent graduate degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

- Current or a record of past employment or access to a work environment is required for admission.

- Students who have previously attended a business-aligned doctoral program at a college or university with approved institutional accreditation, or that is provincially accredited and that completed all required courses to reach All-But-Dissertation (ABD) or candidacy status at that institution, will be considered as satisfying BUS 700, six credits in Research, and all their Electives requirements. The transfer coursework must align to the doctoral program, but no further content restrictions will apply. Transfer coursework from their previous institution will be applied to these 27 credits as course waivers if the students meet all the following conditions, as verified by an ABD waiver enrollment recommendation from the Dean of the College of Doctoral Studies, or an approved delegate:
  - Proof of ABD or candidacy status at the prior institution.
  - An official transcript showing a minimum of 27 semester credit hours completed in a business-aligned doctoral program.
  - ABD or candidacy status at the prior institution must have been achieved within (10) years from current program enrollment agreement sign date.
  - A written statement from the student outlining a plan for the completion of the dissertation, including, at a minimum, why the applicant’s dissertation was not completed at the previous institution and why the applicant believes a dissertation can now be completed at UOPX in the allowable timeframe. Students will submit any completed portion(s) of their dissertation and/or proposal from their previous institution for review in connection with this written statement.
  - A cumulative GPA of 3.0 for all doctoral coursework listed on the official transcript from the institution where the student achieved ABD or candidacy status. Transfer coursework that was earned outside of the institution where the student achieved ABD or candidacy will not be calculated into the cumulative GPA for admissibility.
  - Any other information requested and deemed necessary by the College to validate the qualification requirements listed above and the student’s overall readiness to enter the program.

Degree Requirements for the DBA

- A minimum of 54 doctorate credits and any additional program requirements (if applicable):
  - Required Course of Study: 36 credits
  - Business Administration and Leadership Electives: 18 credits
  - Additional Program Requirements (if applicable): 14 credits
  - Maximum Total (with Additional Program Requirements included): 68 credits

- A minimum grade point average (GPA) of 3.0.
- Written approval of the dissertation proposal.
- Successful completion of all credit and non-credit bearing degree requirements, including an approved dissertation and signature page signed by the Dean.
- The diploma awarded for this program will read as: Doctor of Business Administration

Academic Progression for the DBA

Students are subject to the following academic progression requirements:

- Students may concurrently enroll in classes provided that the following criteria are met:
  - Must have a minimum GPA of 3.5
  - Must have earned at least 15 credits in the University of Phoenix doctoral program
  - Must have no history of academic probation, scholastic disqualification, or scholastic suspension in a University of Phoenix doctoral program

- Students may have only one incomplete grade on their records at a time.

- Students must complete each phase of the dissertation process in chronological order - phase 1 through phase 5. These phases are:
  1. Prospectus
  2. Precis
  3. Concept Review
  4. Proposal
  5. Institutional Review Board (IRB) and final dissertation approval

- Students must be enrolled in or have successfully completed the appropriate course(s) in order to complete the corresponding dissertation phase.

- Students must have a Dissertation Chair prior to enrollment in DOC 741 and DOC 742, and all corresponding extension courses.

- Students must have dissertation proposal approval (QRM), and IRB approval, prior to enrollment in DOC 742.

- Final Quality review of dissertation and successful oral defense during the dissertation process phase 5.

- Effective 7/1/2021: Students will have no more than three attempts to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for an approved dissertation.

- Effective 7/1/2021: Students who have attempted their oral defense prior to 7/1/2021 but have not successfully completed this requirement will be allowed no more than three attempts on or after 7/1/2021 to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for an approved dissertation.
Academic Standing and Minimum Grade Requirements for the DBA

- Students who fail to meet the minimum grade of a “B-” in BUS/700 will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
- Students who fail to meet the minimum grade of a “B-” in LDR/711A will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
- All credit-bearing courses, with the exception of courses that are outlined in the syllabus as Pass/Fail, must be completed with a grade of “B-” or better. Students who earn a grade lower than “B-” must repeat the course until the minimum grade requirement is met.

Residency Requirements and Course Waivers for the DBA

- Students must meet the established University residency requirement for degree conferral. The University requires that 27 credits from a combination of Required Course of Study and Electives, must be completed at UOPX.
- Students may be granted a waiver with credit for BU 700 if they have earned a graduate degree in business or related discipline, from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, college or university within 10 years from current program enrollment agreement sign date.
- Students who used the prior completion of a graduate degree to waive doctoral coursework requirements in a previous program, and who complete a program change to a new program or version, will not be eligible to carry those waivers forward to satisfy doctoral programmatic requirements.
- In order to be granted a waiver with credit for a course in the required course of study or electives, students must have completed a previous course that meets the following criteria:
  - The course must have been completed and transcripted from a college or university with approved institutional accreditation, or that is provincially accredited or in candidacy for approved institutional or provincial accreditation.
  - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level course. Courses must be assessed and approved by the CDS Dean or an approved delegate.
- Students may waive a maximum of 27 credits from their required course of study and electives.
- The following course(s) may not be waived: DOC 714S, DOC 715, DOC 719S, DOC 723, DOC 741, DOC 742, LDR 711A, ORG 716, RES 709
- The dissertation may not be waived.

Re-entry for the DBA

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Doctor of Health Administration

The following Doctor of Health Administration (DHA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Doctor of Health Administration program prepares mid-careerists across the health sector for the future of healthcare, providing aspiring leaders with the competencies necessary to lead and meet the demands of rapidly changing healthcare organizations, shape the structure of complex health systems and their evolution, and contribute to the existing body of knowledge through evidence-based practice and innovative organizational research.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
- Integrate the SPL model throughout the doctoral journey and beyond.
- Cultivate a leadership identity that reflects a mature and strategic understanding of the dynamics of diverse health sector environments.
• Analyze organizational landscapes in order to drive performance excellence through integration of the Triple Aim, with consideration for the importance of innovation and risk-taking in balance with imperatives for quality and safety, policy, sustainability and environmental stewardship, and community relationships.

• Generate research of a high caliber to identify and address opportunities for improvement in complex health sector contexts

DHA Program Category Requirements
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Foundations, 9 total credits
DHA 700 ................................................................. 3 credits
Introduction to Health Administration in Doctoral Study
LDR 711A ~ ......................................................... 3 credits
Leadership Theory and Practice
DHA 711 ~ .......................................................... 3 credits
Administration of Complex Health Care Systems

Healthcare Administration and Leadership Electives, 18 total credits

Students may satisfy the Healthcare Administration and Leadership Electives with any combination of the courses below; however, the College recommends that students select and complete all courses within one elective track.

DHA 715 ~ .......................................................... 3 credits
Risk Management in Complex Health Organizations
DHA 721 ~ .......................................................... 3 credits
Health Care Economics
DHA 722 ~ .......................................................... 3 credits
Policy and Regulation in Health Care
DHA 731 ~ .......................................................... 3 credits
Population Health and Epidemiology
DHA 732 ~ .......................................................... 3 credits
Evaluation of Health Care Programs
DHA 733 ~ .......................................................... 3 credits
Contemporary Leadership Issues

Research, 9 total credits
RES 709 ............................................................... 3 credits
Research Conceptualization and Design
RES 710 ............................................................... 3 credits
Statistical Research Methods and Design I
RES 724 ~ .......................................................... 3 credits
Qualitative Methods and Design

Symposium, 6 total credits
DOC 714S ~ ......................................................... 3 credits
Symposium I
DOC 719S ~ ......................................................... 3 credits
Symposium II

Dissertation, 12 total credits
DOC 715 ~ ........................................................... 3 credits
Doctoral Seminar I
DOC 723 ~ ........................................................... 3 credits
Doctoral Seminar II
DOC 741 ~ ........................................................... 3 credits
Doctoral Dissertation
DOC 742 ~ ........................................................... 3 credits
Doctoral Project IV

The following continuing enrollment courses may be required to satisfy requirements for the doctoral program. Students may be required to complete the A or the A and B courses for DOC 741 until Quality Review Method (QRM) approval has been received.

If QRM (Dissertation proposal) is not approved by the completion of DOC 741B, a failing grade will be issued.

If QRF (final dissertation) is not approved by the completion of DOC 742 until Quality Review Final (QRF) and Oral Defense approvals have been received.

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the DHA
All applicants are expected to meet the following admissions requirements:

• A graduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or equivalent graduate degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

• Current or a record of past employment or access to a work environment is required for admission.
• Students who have previously attended a healthcare-aligned doctoral program at a college or university with approved institutional accreditation, or that is provincially accredited and that completed all required courses to reach All-But-Dissertation (ABD) or candidacy status at that institution, will be considered as satisfying DHA/700, six credits in Research, and all their Electives requirements. The transfer coursework must align to the doctoral program, but no further content restrictions will apply. Transfer coursework from their previous institution will be applied to these 27 credits as course waivers if the student meets all the following conditions, as verified by an ABD waiver enrollment recommendation from the Dean of the College of Doctoral Studies, or an approved delegate:
  • Proof of ABD or candidacy status at the prior institution.
  • An official transcript showing a minimum of 27 semester credit hours completed in a healthcare-aligned doctoral program.
  • ABD or candidacy status at the prior institution must have been achieved within (10) years from current program enrollment agreement sign date.
  • A written statement from the student outlining a plan for the completion of the dissertation, including, at a minimum, why the applicant’s dissertation was not completed at the previous institution and why the applicant believes a dissertation can now be completed at UOPX in the allowable timeframe. Students will submit any completed portion(s) of their dissertation and/or proposal from their previous institution for review in connection with this written statement.
  • A cumulative GPA of 3.0 for all doctoral coursework listed on the official transcript from the institution where the student achieved ABD or candidacy status. Transfer coursework that was earned outside of the institution where the student achieved ABD or candidacy will not be calculated into the cumulative GPA for admissibility.
  • Any other information requested and deemed necessary by the College to validate the qualification requirements listed above and the student's overall readiness to enter the program.

Degree Requirements for the DHA
• A minimum of 54 doctorate credits and any additional program requirements (if applicable):
  • Required Course of Study: 36 credits
  • Healthcare Administration and Leadership Electives: 18 credits
  • Additional Program Requirements (if applicable): 14 credits
  • Maximum Total (with Additional Program Requirements included): 68 credits
• A minimum GPA of 3.0
• Written approval of the dissertation proposal.
• Successful completion of all credit and non-credit bearing degree requirements, including an approved dissertation and signature page signed by the Dean.
• The diploma awarded for this program will read as: Doctor of Health Administration

Academic Progression for the DHA
Students are subject to the following academic progression requirements:
• Students may concurrently enroll in classes provided that the following criteria are met:
  • Must have a minimum GPA of 3.5
  • Must have earned at least 15 credits in the University of Phoenix doctoral program
  • Must have no history of academic probation, scholastic disqualification, or scholastic suspension in a University of Phoenix doctoral program
  • Students may have only one incomplete grade on their records at a time.
  • Students must complete each phase of the dissertation process in chronological order - phase 1 through phase 5. These phases are:
    • Prospectus
    • Precis
    • Concept Review
    • Proposal
    • Institutional Review Board (IRB) and final dissertation approval
  • Students must be enrolled in or have successfully completed the appropriate course(s) in order to complete the corresponding dissertation phase.
  • Students must have a Dissertation Chair prior to enrollment in DOC 741 and DOC 742, and all corresponding extension courses.
  • Students must have dissertation proposal approval (QRM), and IRB approval, prior to enrollment in DOC 742.
  • Final Quality review of dissertation and successful oral defense during the dissertation process phase 5.
• Effective 7/1/2021: Students will have no more than three attempts to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for satisfactory oral defense of the dissertation.
• Effective 7/1/2021: Students who have attempted their oral defense prior to 7/1/2021 but have not successfully completed this requirement will be allowed no more than three attempts on or after 7/1/2021 to successfully complete the oral defense of their dissertation. Students who fail a third attempt will fail to meet the degree completion requirement for satisfactory oral defense of the dissertation.

Academic Standing and Minimum Grade Requirements for the DHA
• Students who fail to meet the minimum grade of a "B-" in DHA/700 will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
• Students who fail to meet the minimum grade of a "B-" in LDR/711A will be scholastically disqualified and may only repeat the course once. Students who fail to meet the minimum grade requirement after the second attempt will be scholastically suspended and will not be able to continue in the program.
• All credit-bearing courses, with the exception of courses that are outlined in the syllabus as Pass/Fail, must be completed with a grade of “B-” or better. Students who earn a grade lower than “B-” must repeat the course until the minimum grade requirement is met.
Residency Requirements and Course Waivers for the DHA

- Students must meet the established University residency requirement for degree conferral. The University requires that 27 credits from a combination of Required Course of Study and Electives, must be completed at UOPX.
- Students may be granted a waiver with credit for DHA/700 if they have earned a graduate degree in healthcare administration or related discipline within 10 years from current program enrollment agreement sign date, from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- Students who used the prior completion of a graduate degree to waive doctoral coursework requirements in a previous program, and who complete a program change to a new program or version, will not be eligible to carry those waivers forward to satisfy doctoral programmatic requirements.
- In order to be granted a waiver with credit for a course in the required course of study or electives, students must have completed a previous course that meets the following criteria:
  - The course must have been completed and transcripted from a college or university with approved institutional accreditation, or that is provincially accredited or in candidacy for approved institutional or provincial accreditation.
  - The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level course. Courses must be assessed and approved by the CDS Dean or an approved delegate.
- Students may waive a maximum of 27 credits from their required course of study and electives.
- The dissertation may not be waived.

Re-entry for the DHA

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
The University of Phoenix offers Professional Certificate programs to organizations and individuals with professional development or specialized training needs. The programs effectively blend theory and practice, enabling the individual to rapidly become a more effective manager or specialist.

Certificate programs are currently available in several fields: technology, education, business, health care, and project management. A Credit Bearing Certificate program is one that bears University of Phoenix credits. Credit Bearing Certificate programs are developed and maintained by the Dean of each College.

**Admission Requirements**

All applicants are expected to meet the following admission requirements:

- A completed and signed certificate application and application fee.
- Applicants who completed high school/secondary school outside of the United States, in a country where English is not the official language, must meet one of the following exceptions in order to meet the English Language Proficiency Requirement:
  - Achieved a minimum passing score of 213 on the computer-based test (CBT), or a score of 79 on the internet-based test (iBT), or a score of 550 on the written-based test (wBT) on the Test of English as a Foreign Language (TOEFL) within two years of application to the University.
  - Achieved a minimum passing score of 750 on the Test of English as an International Communication (TOEIC) within two years of application to the University.
  - Achieved a minimum passing score of 6.5 on the test of the International English Language Testing System (IELTS) within two years of application to the University.
  - Achieved a minimum score of 69 on the Berlitz Online Test of Reading and Listening Skills - English or a minimum score of 550 on the Berlitz Online English Proficiency Exam (prior to 02/01/2012) within two years of application to the University.
  - Successful completion of the approved ESL series of courses completed at: Canadian College of English Language (CCEL), International Language Schools of Canada (ILSC) or Kaplan.
  - Achieved a minimum score of 59 on the Pearson Test of English Academic Exam within two years of application to the University.
  - Achieved a minimum passing score of 100 on the Duolingo English Test within two years of application to the University.
- Achieved a minimum passing score of 170 on any one of the five acceptable Cambridge English Qualifications and Tests (no time frame required).
- The following may exempt a non-native speaker from having to take the TOEFL/TOEIC/IELTS, however official documentation may be required:
  - The applicant has successfully completed thirty (30) transferable, academic semester credits at a college or university with approved institutional accreditation in the United States.
  - The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized college or university in a country in which English is the official language.
  - The applicant has successfully completed the equivalent of thirty (30) transferable, academic semester credits at a recognized institution where English is the medium of instruction.
  - The applicant has previously earned, prior to applying for admission to the University of Phoenix, a U.S. high school diploma or G.E.D. Applicants that list any language other than English as their native language on the admission application and G.E.D is taken, must submit a copy of the G.E.D to verify it was taken in the English version format.
  - The applicant has earned the equivalent of a U.S. high school diploma in a country in which English is the official language.
  - The applicant has earned the equivalent of a U.S. high school diploma at an institution where English is the medium of instruction.
- Only students who reside within the United States and its territories are eligible to enroll into a University of Phoenix bachelor or master of education program.
- Applicants who reside in the United States must meet one of the following requirements:
  - Be a legal resident of the United States
  - Have been granted permanent residency
  - Have a valid visa that does not prohibit educational studies
  - Have been granted temporary protected status and has been verified through Citizenship and Immigration Service that the country is eligible for TPS status at the time of application sign date. Student must list TPS as the visa type on the admissions application in order for US to verify TPS status.
  - Have been granted asylum or refugee status.
- Applicants who reside in Canada must meet one of the following requirements:
  - Be a legal resident of Canada
  - Be a landed immigrant
  - Have a valid visa that does not prohibit educational studies
  - A signed Enrollment/Disclosure Agreement.
  - Signed Hardware/Software Agreement
  - Completion of any state-specific required documents or forms.
• Applicants who have been expelled from other institutions are not eligible for admission to University of Phoenix.
• Students who have been expelled from University of Phoenix are not eligible for readmission to University of Phoenix. No appeals will be accepted.
• Students are subject to all other University policies and procedures and additional requirements may be applied to specific programs at the discretion of the Dean.
• Unless excused because of religious belief or medical condition, students attending a physical campus in Nevada are required to submit to the University proof of immunity to Tetanus, Diphtheria (Td or Tdap), and Measles, Mumps, Rubella (MMR). Students under 23 years of age and having fewer than 24 credits must also submit to the University proof of immunity against Meningitis; vaccination with at least one dose of a quadrivalent meningococcal conjugate vaccine (MenACWY) on or after age 16 will satisfy this requirement.

The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1956, be immunized for measles-mumps-rubella (MMR). Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of MMR. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

For enrollments effective on or after July 1, 2020. Varicella: The Hawaii State Department of Health requires that all students attending school at a campus in this state who were born after December 31, 1979, be immunized for Varicella (Chickenpox). Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of Varicella. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

As an exception, a signed, documented diagnosis or verification of a history of varicella disease or herpes zoster by a practitioner may be substituted for a record of varicella vaccination.

For enrollments effective on or after July 1, 2020 Tetanus, Diphtheria, Pertussis (Tdap): The Hawaii State Department of Health requires that all students attending school at a campus in this state be immunized for Tetanus Diphtheria, and Pertussis (Tdap).

Additionally, in order for Hawaii residents to be admitted, the University requires that all applicants to this program provide a verification of immunization of Varicella. Students shall demonstrate compliance with the immunization requirement prior to the first attendance in a University course and documentation concerning this requirement must be on file at the time of admission to the University, signed by a US licensed practitioner (physician, Advanced Practice Registered Nurse, or Physician Assistant).

Exemptions from the MMR, Varicella, and Tdap immunization requirements may be granted for the following reasons:

• A medical exemption may be granted to specific vaccines.
  • A US licensed physician (M.D. or D.O.) must state in writing that giving a specific vaccine would endanger the student’s life or health, and specify the reason based on valid medical contraindications.
  • The physician must state the length of time during which the vaccine would endanger the student’s health or life.
  • The exemption certification must be signed by the physician.

• A religious exemption may be granted if the student signs a statement certifying that the student's religious beliefs prohibit the practice of immunization. Requests for religious exemptions based on exemptions to specific immunizing agents will not be granted.

• If the State of Hawaii Director of Health determines that there is a danger of an outbreak from any of the diseases for which immunization is required, no exemption shall be recognized and inadequately immunized students shall be excluded from school until the Director has determined that the outbreak is over.

• A copy of each exemption must be kept in the student’s health record at school.

The Hawaii State Department of Health requires that all students attending school at a campus in Hawaii must present a TB Clearance obtained within 12 months prior to their first attendance in a post-secondary school in Hawaii or a TB Clearance obtained after age sixteen. A TB Clearance must be submitted with the Hawaii TB Clearance form prior to the first night of class or the student will not be permitted to attend class. Students may submit a copy of their TB Clearance received prior to their attendance at another Hawaii post-secondary school.

Program Length

The established “normal time” to complete a certificate program is as follows: Education - 53 to 55 weeks, General Studies - 30 weeks, Health Professions - 21 to 40 weeks, Nursing (FNP certificate) - 138 weeks, Nursing (general) - 36 weeks, Social and Behavioral Sciences - 30 to 40 weeks, Business and Information Technology - 10 to 45 weeks. The ranges provided above account for possible concentrations and/or bridge versions available within the chosen degree program. The term “normal time” means the length of time it would take a student to complete this program if the student is continuously enrolled, takes a full course load, successfully completes each attempted course, and does not have any transfer credits. Students may exceed or complete prior to the anticipated “normal time” for a variety of reasons that are individual to the student.
The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Certificate in Leadership and Management program is designed to prepare graduates with the knowledge, skills, and values necessary to effectively lead others within a variety of organizational settings and situations. The program includes content related to organizational leadership, business strategy development, decision making, change management, effective communication, performance improvement, and entrepreneurship.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Synthesize leadership concepts and practices in support of organizational mission and values.
- Integrate decision-making skills to advance organizational goals.

Required Course of Study for the CERT/LDR
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Leadership and Management Core, 15 total credits
LDR 305 ................................................................. 3 credits
Foundations of Leadership
LDR 306 ~ .......................................................... 3 credits
Organizational Leadership: Building a Performance Culture
LDR 307 ................................................................. 3 credits
Leadership Strategy and Decision Making
LDR 308 ~ .......................................................... 3 credits
Communication Strategies for Leaders
LDR 309 ~ .......................................................... 3 credits
Leading Through Change

Leadership and Management Capstone, 3 total credits
LDR 310 ~ .......................................................... 3 credits
Applied Leadership Capstone

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/LDR
A Credit Bearing Certificate program is one that bears UOPX credits. Credit Bearing Certificate programs are developed and maintained by the Dean of each College.

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).

Certificate Completion Requirements for the CERT/LDR
- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
  - A minimum grade point average (GPA) of 2.0.
  - Students earning the certificate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
  - Students earning the certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
  - The certificate awarded for this program will read as: Leadership and Management (Undergraduate)

Residency Requirements and Course Waivers for the CERT/LDR
Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Experiential Journal credit is not eligible to waive courses in the required course of study.
- Students in this program may waive a maximum of 3 credits from their required course of study.

The following course(s) may not be waived: LDR 310

371
Re-entry for the CERT/LDR

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry into an expired program.
- Any students in College of Education, College of Nursing, or College of Social and Behavioral Sciences programs that either lead to professional licensure or certification, or that require a license, credential, or certification for admission are exempt from this general re-entry policy. Re-entry students who wish to re-enter these programs should review their specific program’s re-entry policies and consult the appropriate University representative for guidance.

Business Analytics Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Business Analytics certificate will prepare students with the skills necessary to analyze data to make impactful business decisions that will improve the competitive advantages of an organization. Students will learn the skills of extracting meaningful information from digital data sources and make decisions regarding operations, sales and marketing, research and development, and other core business functions. Topics covered within the program include information technologies and applications; data mining, data analytics, and data visualization; practices for the collection, integration, analysis, and presentation of business data and information; and data ethics and security. Students will also be provided with the opportunity to apply these core business analytics skills to industry-specific cases through the selection and completion of elective courses within the program.

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/BSAN

A Credit Bearing Certificate program is one that bears UOPX credits. Credit Bearing Certificate programs are developed and maintained by the Dean of each School.

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
Certificate Completion Requirements for the CERT/BSAN

- Completion of a minimum of 27 credits:
  - Required Course of Study: 24 credits
  - Business Analytics Electives: 3 credits
- A minimum grade point average (GPA) of 2.0.
  - Students earning the certificate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
  - Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
- The certificate awarded for this program will read as: Business Analytics (Undergraduate)

Residency Requirements and Course Waivers for the CERT/BSAN

- Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 18 credits in the Required Course of Study, must be completed at University of Phoenix.
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Experiential Journal credit is not eligible to waive courses in the required course of study.
  - Students in this program may waive a maximum of 9 credits from their required course of study.
  - The following course(s) may not be waived: DSC 330, IM 310, MGT 362

Re-entry for the CERT/BSAN

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.
- Re-entry students who cannot complete their program within the program completion deadline may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry into an expired program.
- Any students in College of Education, College of Nursing, or College of Social and Behavioral Sciences programs that either lead to professional licensure or certification, or that require a license, credential, or certification for admission are exempt from this general re-entry policy. Re-entry students who wish to re-enter these programs should review their specific program's re-entry policies and consult the appropriate University representative for guidance.

Small Business Management and Entrepreneurship Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Small Business and Entrepreneurship certificate provides students with the skills necessary to establish and operate a small business or entrepreneurial enterprise through the successful management of planning, marketing, financial management, and integrated business operations. Upon completion of this program students will be able to examine small business marketing opportunities, identify innovative small business strategies, evaluate financial management decisions, and address the challenges and opportunities specific to small business management and entrepreneurship.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate business opportunities and risks to make sound financial decisions.
- Apply innovation and creativity to solving entrepreneurial business opportunities.
- Apply management concepts and principles to launch an entrepreneurial business.
Program Category Requirements and Prerequisites for the CERT/SBE

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Business Law for Small Business and Entrepreneurs

Small Business and Entrepreneurship Capstone, 3 total credits

MGT 465 ~ ................................................................. 3 credits
Small Business and Entrepreneurship

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/SBE

A Credit Bearing Certificate program is one that bears UOPX credits. Credit Bearing Certificate programs are developed and maintained by the Dean of each School.

All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HSET (High School Equivalency Test).
- Students must meet established University residency requirement.
- Required Course of Study: 12 credits
- SBE Certificate Electives: 6 credits
- A minimum grade point average (GPA) of 2.0.
- Students earning the certificate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.

The certificate awarded for this program will read as: Small Business Management and Entrepreneurship (Undergraduate)

Residency Requirements and Course Waivers for the CERT/SBE

Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at University of Phoenix.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of C- (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Students in this program may waive a maximum of 3 credits from their required course of study.

The following course(s) may not be waived: MGT 465

Re-entry for the CERT/SBE

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Operations Management Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Operations Management certificate provides students with a strategic approach to managing performance improvement of all business planning, global sourcing and procurement, production, and logistical activities within an organization. Upon completion of this program students will be able to evaluate quality management approaches within operations, examine logistics management strategies, summarize purchasing and procurement decisions, implement project management best practices, and identify sourcing opportunities to enhance the efficiency of an organization. Additional topics include process analysis and improvement, quality control, production planning, inventory systems, and managing the delivery of services.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:
• Develop strategies to improve operational and logistical performance.
• Implement process improvements for business practices and operational and supply chain workflows.

Program Category Requirements and Prerequisites for the CERT/OPS

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Operations Management Core, 15 total credits

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.

- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

Human Resource Management Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Human Resource Management certificate prepares students to develop an understanding of the fundamentals of human resource management and its strategic relevance in business. The program addresses the legal and ethical components of the decision making process involved in the human resources environment. Students will also develop an understanding of the critical business implications for human resource professionals today and in the future. HR practitioners and managers must be equipped with a solid understanding of the fundamentals of human resource management, along with strong skills in the areas of systems thinking, problem solving, influencing, negotiating, communications, and leadership. This program is consistent with generally accepted human resource management principles, including the professional certification knowledge areas.
Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply human resource policies and procedures to solve business problems
- Evaluate ethical and legal considerations to make business decisions in human resource management
- Implement human resource practices within the total organization to address staffing needs

  - Required Course of Study: 6 credits
  - MGT Certificate Electives: 12 credits
- A minimum grade point average (GPA) of 2.0.
- Students earning the certificate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
- The certificate awarded for this program will read as: General Management (Undergraduate)
Residency Requirements and Course Waivers for the CERT/ MGT

- Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at University of Phoenix.
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Experiential Journal credit is not eligible to waive courses in the required course of study.
  - Students in this program may waive a maximum of 3 credits from their required course of study.
  - The following course(s) may not be waived: MGT 498

Re-entry for the CERT/MGT

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Project Management Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Project Management certificate focuses on the professional success of its students. It emphasizes real-world application with assignments designed to apply the newfound skills and knowledge to the workplace. Practical study materials, team activities, and presentations to the class foster teamwork, critical thinking, self-confidence, and application of project technical and leadership skills on a real-time basis. This program is consistent with generally accepted project management principles, including the project management processes and knowledge areas that lead to professional certification.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply problem-solving, adapted through project management techniques, to address organizational challenges
- Apply appropriate business tools, resources, and processes to mitigate risk

Required Course of Study for the CERT/PM

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).
Project Management Core, 12 total credits
CPMGT 300 ......................................................... 3 credits
Project Management
CPMGT 301 ........................................................ 3 credits
Strategic Portfolio and Project Management
CPMGT 302 ........................................................ 3 credits
Procurement and Risk Management
CPMGT 303 ........................................................ 3 credits
Project Estimating and Control Techniques
Project Management Electives, 3 total credits
Students must choose one of the following courses:
CPMGT 304 ........................................................ 3 credits
Leading Projects in Organizations
CPMGT 310 ........................................................ 3 credits
Project Management Methodologies
CPMGT 311 ........................................................ 3 credits
Agile Project Management with Scrum Methodology
CPMGT 312 ........................................................ 3 credits
Program Management
MGT 445 ........................................................... 3 credits
Organizational Negotiations
Project Management Capstone, 3 total credits
CPMGT 305 ........................................................ 3 credits
Project Management Capstone
The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/PM
A Credit Bearing Certificate program is one that bears University of Phoenix credits. Credit Bearing Certificate programs are developed and maintained by the Dean of each School.
All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).

- Applicants must have access to a suitable work environment for the completion of course assignments.

Certificate Completion Requirements for the CERT/PM

- Completion of a minimum of 18 credits:
  - Required Course of Study: 15 credits
  - Project Management Electives: 3 credits

- A minimum grade point average (GPA) of 2.0.

- Students earning the certificate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.

- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.

- The certificate awarded for this program will read as: Project Management (Undergraduate)

Residency Requirements and Course Waivers for the CERT/PM

- Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 15 credits, in the Required Course of Study, must be completed at University of Phoenix.

- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:

  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.

  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.

  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

- Experiential Journal credit is not eligible to waive courses in the required course of study.

- Students in this program may waive a maximum of 3 credits from their required course of study.

- The following course(s) may not be waived: CPMGT 305

Re-entry for the CERT/PM

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance in a program.

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program is considered a re-entry student and will be able to return to their original modality only if their program version is still available in that modality.

- Re-entry students who cannot complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction, will be required to enroll into the most current version.
The Finance Planning Certificate emphasizes fundamental and advanced financial planning concepts, theories, and practices to promote well-informed personal financial decision making. Upon completion of this program, students will be able to examine the areas of personal finance planning, investment analysis, and portfolio management, retirement and benefit planning, and insurance planning. Students will integrate advanced topics in financial planning through practical application.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills, and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Examine areas of financial planning that can be used to improve decision making
- Analyze financial information to improve operational performance

Preferred Sequence and Prerequisites for the CERT/FINP
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

FIN 419 ~.................................................................3 credits
Finance for Decision Making
FIN 420 ~.................................................................3 credits
Personal Financial Planning
FIN 486 ~.................................................................3 credits
Strategic Financial Management
Students must choose 3 of the following:
FIN 366 ~.................................................................3 credits
Financial Institutions
FIN 402 ~.................................................................3 credits
Investment Fundamentals and Portfolio Management

FIN 422 ~.................................................................3 credits
Retirement and Benefit Planning

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/FINP
A Credit Bearing Certificate program is one that bears UOPX credits. Credit Bearing Certificate programs are developed and maintained by the Dean of each School.

All applicants are expected to meet the following admissions requirements:
- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).

Certificate Completion Requirements for the CERT/FINP
- Completion of a minimum of 18 credits:
  - Required Course of Study: 9 credits
  - FINP Certificate Electives: 9 credits
- A minimum grade point average (GPA) of 2.0.
- Students earning the certificate en-route will only be placed on Academic Probation if their bachelor program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
- The certificate awarded for this program will read as:
  Financial Planning (Undergraduate)

Residency Requirements and Course Waivers for the CERT/FINP
- Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at University of Phoenix.
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

- Experiential Journal credit is not eligible to waive courses in the required course of study.
- Students in this program may waive a maximum of 3 credits from their required course of study.
- The following course(s) may not be waived: FIN 486

**Re-entry for the CERT/FINP**

- With the exception of AAEE, BS/BED/E, BSLS 01CA, LVN/BSN, LPN/BSN, and BSN, students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have less than 24 credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are required to enroll in the First-Year Sequence upon re-entry.
- Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork, are not required to enroll in the First-Year Sequence upon re-entry.
- Students who have been out of attendance for a period of more than 365 days from the last date of positive recorded attendance in a program applicable course, and who have 12 or more UOPX credits, and a total of 24 or more credits from a combination of UOPX credits, previous college credits listed on the initial application for admission, and any additional college credits listed on the re-entry paperwork will not be required to complete GEN/200 (or equivalent) upon re-entry.

**Cloud Computing Certificate (Undergraduate)**

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Certificate in Cloud Computing will introduce students to the foundations of cloud computing and services. Students learn concepts in Linux, cloud development, cloud operations and securing a network on the cloud. Students will also gain skills in developing and deploying cloud-based applications on AWS platforms through hands-on labs and sandbox environments. Coursework in this program is aligned to key industry certifications like AWS Cloud Practitioner, Cloud Developer and SysOps Administrator.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Create cloud-based solutions using technical tools and methods.
- Design a secure cloud-based application using AWS.

**Required Course of Study for the CERT/CLD**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Select eighteen (18) credits**

**Foundation, 6 total credits**

- NTC 260 ................................................................. 3 credits
- Foundations of Cloud Services
- NTC 300 ~ ................................................................. 3 credits
- Cloud Technologies

**Programming, 3 total credits**

- CYB 225 ........................................................................ 3 credits
- Linux Fundamentals

**Cloud Developer and Operations, 9 total credits**

- NTC 302 ~ ................................................................. 3 credits
- Network Web Services
- NTC 304 ~ ................................................................. 3 credits
- Cloud Developing
- NTC 306 ~ ................................................................. 3 credits
- Cloud Operations

The University reserves the right to modify the required course of study.

**Additional Admission Requirements for the CERT/CLD**

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).

**Signed Hardware/Software Agreement**

**Certificate Completion Requirements for the CERT/CLD**

- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
  - A minimum grade point average (GPA) of 2.00.
  - The certificate awarded for this program will read as: Cloud Computing (Undergraduate)

**Residency Requirements and Course Waivers for the CERT/CLD**

Students must meet the established University residency requirement for certificate conferral. The University requires that 9 credits in the Required Course of Study must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
• The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed and transcripted from an institution with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.
• The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
• The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 6 credits from their required course of study.

Re-Entry for the CERT/CLD

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
• No appeals will be accepted for re-entry to an expired program.

Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Scripted and Compiled Programming Languages Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The mission for the Certificate in Programming Languages prepares students for employment in various IT related areas by providing fundamental knowledge in programming that will enable them to contribute solutions to a wide range of challenges in computer science. The Certificate in Programming Languages is designed to provide experiential learning in a scripting and a compiled language to be used in fields such as cybersecurity, information technology or data analysis. Students will gain hands-on experience in Python, Java or C++ to build a foundation in programming and exposure to solving real world challenges that can be demonstrated in a portfolio. Coursework can help students who are interested in pursuing the PCEP - Certified Entry-Level Python Programmer and C++ Certified Associate Programmer Certification or Java SE 11 Programmer I, gain the fundamental knowledge to prepare for the industry certification exams.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:

• Knows the concepts of scripting or compiled programming languages.
• Employs compiled or scripting programming skills for application development.

Required Course of Study for the CERT/SCPL

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Select twenty-one (21) credits

Introductory Programming, 3 total credits
PRG 211 .................................................................3 credits
Algorithms and Logic for Computer Programming

Scripted Programming Languages, 6 total credits
CYB 130 ~...............................................................3 credits
Object-Oriented Scripting Language

Object-Oriented Security Scripting

Compiled Programming Languages, 6 total credits
PRG 420 ~...............................................................3 credits
Java Programming I
PRG 421 ~...............................................................3 credits
Java Programming II
Database Management, 3 total credits
DBM 380 ~ ................................................................. 3 credits
Database Concepts

Capstone, 3 total credits
PRG 430 ~ ................................................................. 3 credits
Programming Project Capstone: Web or Cloud Application
The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/SCPL
• High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
• Signed Hardware/Software Agreement

Certificate Completion Requirements for the CERT/SCPL
• Completion of a minimum of 21 credits:
  • Required Course of Study: 21 credits
  • A minimum grade point average (GPA) of 2.0.
  • The certificate awarded for this program will read as: Scripted and Compiled Programming Languages (Undergraduate)

Residency Requirements and Course Waivers for the CERT/SCPL

Students must meet the established University residency requirement for certificate conferral. The University requires that the majority of coursework, 12 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:
• The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
• The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better, if the activity is comparable in content and semester academic credits to the University course it is replacing.
• The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experience Journal credit is not eligible to waive courses in the required course of study.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
• The course must have been completed and transcribed from an institution with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.
• The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
• The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 9 credits from their required course of study.

The following course(s) may not be waived: PRG 430

Re-Entry for the CERT/SCPL
• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• Re-entry students who complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Cybersecurity Policy and Governance Certificate (Undergraduate)

The following certificate program is offered at the University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

Provides students with the tools and skills needed to manage cybersecurity practice and policy in private industry and government. Cybersecurity policy and governance concepts help organizations protect their data, identify and manage cyber risk, and recover from cyber-attacks. This program is tailored to the needs of IT managers and professionals seeking the knowledge and skills relevant to a Chief Information Security Officer. As an added benefit the content in this focus area is aligned to the EC Council exam for Certified Chief Information Security Officer (CCISO).

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Create an information security strategic plan for an organization.
- Create a cybersecurity response plan to recover from a cybersecurity attack.

Program Category Requirements and Prerequisites for the CERT/CPG
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Chief Information Systems Officer Governance, 15 total credits

CYB 405 ~ ................................................................................. 3 credits
Information Systems Governance
CYB 407 ~ ................................................................................. 3 credits
Information Systems Risk Controls and Auditing Management

Strategic Planning and Finance

Capstone, 3 total credits

CYB 415 ~ ................................................................................. 3 credits
Project Cybersecurity Policy and Governance

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/CPG
- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
- Signed Hardware/Software Agreement

Certificate Completion Requirements for the CERT/CPG
- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
  - A minimum grade point average (GPA) of 2.00.
- The certificate awarded for this program will read as: Cybersecurity Policy and Governance (Undergraduate)

Residency Requirements and Course Waivers for the CERT/CPG

Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 12 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Experiential Journal credit is not eligible to waive courses in the required course of study.
Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credit, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from an institution with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 6 credits from their required course of study. The following course(s) may not be waived: CYB 415

**Re-Entry for the CERT/CPG**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is no longer the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

**Cyber and Network Defense Certificate (Undergraduate)**

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

Teaches the methods for looking for weaknesses and vulnerabilities in systems. IT firms are the main recruiters of ethical hackers, however these experts are also needed by other industries like financial service providers, airlines, retail chains and hotels. An added benefit is the content is aligned to the EC Council Certified Ethical Hacker (CEH) certification exam and builds hacking skills that in a legal and legitimate way.

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate the use a variety of hacking tools and techniques to protect and secure network systems in a variety of organizations.
- Combine the five phases of ethical hacking to protect and secure network systems in a variety of organizations.
- Integrate object-oriented scripting to solve potential cyber security attacks.

**Program Category Requirements and Prerequisites for the CERT/CND**

CYB 235 ~ ........................................................... 3 credits
Project Ethical Hacking

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the CERT/CND

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
- Signed Hardware/Software Agreement

Certificate Completion Requirements for the CERT/CND

- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
- A minimum grade point average (GPA) of 2.00.
- The certificate awarded for this program will read as: Cyber and Network Defense (Undergraduate)

Residency Requirements and Course Waivers for the CERT/CND

Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 12 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from an institution with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.

- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 6 credits from their required course of study.

The following course(s) may not be waived: CYB 235

Re-Entry for the CERT/CND

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

88
Advanced Cybersecurity Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Advanced Cyber Security Certificate concentrates on the concepts and principles of securing and protecting the information assets of the organization. The areas of information assurance, systems security, risk management, cryptography, cyber security and enterprise security are covered in this certificate.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate elements of security in a Networked environment
- Coordinate the use of information security tools within an organization.

Program Category Requirements and Prerequisites for the CERT/ACS
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Cybersecurity, 18 total credits

Select 18 credits from the following:

- CMGT 400 ................................................................. 3 credits
- Intro to Information Assurance & Security
- CMGT 430 ................................................................. 3 credits
- Wireless Security
- CMGT 431 ................................................................. 3 credits

- Information Systems Security
- CMGT 442 ................................................................. 3 credits
- Cyber Security
- CMGT 443 ................................................................. 3 credits
- Information Systems Risk Management

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/ACS

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
- Signed Hardware/Software Agreement

Certificate Completion Requirements for the CERT/ACS

- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
- A minimum grade point average (GPA) of 2.0.
- The certificate awarded for this program will read as: Advanced Cybersecurity (Undergraduate)

Residency Requirements and Course Waivers for the CERT/ACS

Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 12 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcripted from a college or university with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 6 credits from their required course of study.
Re-Entry for the CERT/ACS

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program version, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

Advanced Software Developer Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Advanced Software Developer Certificate concentrates on principles of software development in a rapid changing landscape. Concepts begin with an overview of today’s software development concepts and go deeper into topics related to programming, software engineering and architecture. Students gain exposure to concepts related to the design and implementation of software solutions based on the needs of the stakeholder and project scope.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Plan the integration of software solutions based on project scope.

Additional Admission Requirements for the CERT/ASD

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution approved to confer high school diplomas, or that is accredited, or from an approved source of nontraditional transfer credit as listed in University transfer policy.

Certificate Completion Requirements for the CERT/ASD

- Completion of a minimum of 24 credits:
  - Required Course of Study: 24 credits
  - A minimum grade point average (GPA) of 2.0.
- The certificate awarded for this program will read as: Advanced Software Developer (Undergraduate)

Residency Requirements and Course Waivers for the CERT/ASD

Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.

The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed and transcribed from a college or university with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 9 credits from their required course of study.

Re-entry for the CERT/ASD

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.

Re-entry students may re-enroll into their program version without appeal if they can complete their program within the program completion deadline, or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

Re-entry students who cannot complete their program within the program completion deadline, based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current program version in their state or jurisdiction.

Re-entry students who cannot complete their program within the program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.

No appeals will be accepted for re-entry into an expired program.

Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enter a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

Information Assurance and Security Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Information Assurance and Security Certificate offers coursework to successfully apply information technology theory and principles to address real world business opportunities and challenges. The coursework provides students with technical skills and interactive, hands-on experience in information systems, wireless networking, cyber security, cryptography, and systems security. This certificate concentrates on the concepts and principles of securing and protecting the information assets of the organization.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply information security concepts.
- Explain fundamentals of networking

General Information for the CERT/IAS
This certificate program may be taken on its own or may be earned en-route to earning a degree.

Additional Admission Requirements for the CERT/IAS
All applicants are expected to meet the following admissions requirements:

- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).

Certificate Completion Requirements for the CERT/IAS

- Successful completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
  - A minimum grade point average (GPA) of 2.0.
  - Students earning the certificate en-route will only be placed on Academic Probation if their associate program GPA falls below the minimum requirement.
  - Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
  - The certificate awarded for this program will read as: Information Assurance and Security (Undergraduate)

Residency Requirements and Course Waivers for the CERT/IAS

Students must meet the established University residency requirement for certificate conferral. The University requires that the majority of coursework, 12 credits from a combination of the Required Course of Study, General Education, and Electives must be completed at University of Phoenix.

Students in this program may waive a maximum of 6 credits from their required course of study.

In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of ‘C’ (2.0) or better or comparable passing benchmark for nontraditional credits.

- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Re-entry for the CERT/IAS

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Cybersecurity Digital Forensics Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Cybersecurity Digital Forensics Certificate provides students with knowledge about computer forensics, security risk, and insider threats. Students will learn risk management concepts related to cybersecurity such as how to assess risk, respond to security incidents, and analyze evidence. Coursework focuses on assessing security incidents and how to properly report on these incidents as it relates to security policies and laws. Students gain hands on experience using forensic investigation techniques across a variety of security incidents. Coursework in this program is aligned to the EC Council Certified Incident Handler (ECIH) and Computer Hacking Forensics Investigator (CHFI) certification exams.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Coals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Apply the right forensic investigation techniques to different types of cybersecurity incidents in a methodical manner.
• Analyze the evidence of an incident to report a cyber-crime, including detailing what led to the incident, implications of the incident and how to prevent future attacks.

Program Category Requirements and Prerequisites for the CERT/CYDF
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Computer Forensics, 15 total credits**
- CYB 445 ................................................................. 3 credits
- Risk Assessment
- CYB 447 ~ ............................................................. 3 credits
- Insider Threat and Reporting
- CYB 449 ~ ............................................................. 3 credits
- Computer Forensics Investigative Process
- CYB 451 ~ ............................................................. 3 credits
- Computer Forensics Lab
- CYB 453 ~ ............................................................. 3 credits
- Network, Wireless, Web, Email and Mobile Forensics

**Project Digital Forensics, 3 total credits**
- CYB 455 ~ ............................................................. 3 credits

Additional Admission Requirements for the CERT/CYDF
- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
- Signed Hardware/Software Agreement

Certificate Completion Requirements for the CERT/CYDF
- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
  - A minimum grade point average (GPA) of 2.0.
  - The certificate awarded for this program will read: Cybersecurity Digital Forensics (Undergraduate)

Residency Requirements and Course Waivers for the CERT/CYDF
Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 12 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit bearing activity in transfer which meets the following criteria:

• The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
• The activity must have been completed within the past ten (10) years (5 years for Is&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
• The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Experiential Journal credit is not eligible to waive courses in the required course of study.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

• The course must have been completed and transcripted from a college or university with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.
The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.

The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 6 credits from their required course of study.

The following course(s) may not be waived: CYB 455

**Re-Entry for the CERT/CYDF**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.

---

**Cybersecurity Network Forensics Certificate (Undergraduate)**

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Cybersecurity in Network Forensics Certificate provides students with knowledge and skills in penetration testing methodologies. Cybersecurity network forensics concepts focus on building the skills and competencies required of a pen tester, including incident and response handling, and vulnerability analysis, across a variety of network types. As an added benefit, coursework in this focus area is aligned to the EC Council exam for Certified Security Analyst (ECSA).

**Program Student Learning Outcomes**

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Analyze risks to the security of an infrastructure through intensive assessments required to effectively mitigate risks.
- Demonstrate the application of penetration testing methodology to perform a comprehensive security audit of the organization.

**Program Category Requirements and Prerequisites for the CERT/CYF**

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

**Security Analyst, 12 total credits**

- CYB 425 ~.................................................................3 credits
- Security Analyst Procedures and Methodology
- CYB 427 ~.................................................................3 credits
- Security Analyst Network Threat Testing
- CYB 429 ~.................................................................3 credits
- Security Analyst: Database, Web Apps and Perimeter Devices
- CYB 431 ~.................................................................3 credits
- Security Testing and Analysis

**Project Pen Testing, 6 total credits**

- CYB 433 ~.................................................................3 credits
- Project Pen Testing Plan
- CYB 435 ~.................................................................3 credits
- Project Pen Testing Execution and Report

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the CERT/CYNF
- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
- Signed Hardware/Software Agreement

Certificate Completion Requirements for the CERT/CYNF
- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
- A minimum grade point average (GPA) of 2.0.
- The certificate awarded for this program will read as: Cybersecurity Network Forensics (Undergraduate)

Residency Requirements and Course Waivers for the CERT/CYNF
Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 12 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the required course of study, the student must have completed a previous credit-bearing activity in transfer which meets the following criteria:
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "C" (2.0) or better or comparable passing benchmark for nontraditional credits.
- The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request. Experiential Journal credit is not eligible to waive courses in the required course of study.

Through an approved articulation agreement, students who have successfully completed equivalent courses may waive, without credits, up to six (6) credits of the Required Course of Study. Students must substitute other upper division coursework to satisfy the upper division credit requirement of their degree program (each program has specific substitution requirements). This policy also applies to upper division courses which are used to fulfill certificate degree requirements. In order to be granted a waiver, without credit, for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
- The course must have been completed and transcripted from a college or university with approved institutional accreditation with which the University of Phoenix has an approved articulation agreement.
- The course must have been completed with a grade of "C" (2.0) or better during the effective dates of the approved articulation agreement.
- The course must be approved through the articulation agreement and must be comparable in content and credits to the University course it is replacing.

Students in this program may waive a maximum of 6 credits from their required course of study. The following course(s) may not be waived: CYB 433, CYB 435

Re-Entry for the CERT/CYNF
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction.
- Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Graduate Human Resource Management Certificate

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Graduate Human Resource Management Certificate Program addresses issues which the human resource professional faces daily, from legal matters to staff recruitment and development. This program is designed for those who have functional responsibility to carry out the duties of an organization's human resource department; seasoned human resource staff members wishing to keep current; newcomers to the field requiring new knowledge and skills; and specialists wanting to broaden their knowledge. Major topic areas covered include the role of human resources, employment practices, employee and labor relations, compensation, benefits, safety and health, and employee development. Participants acquire knowledge and skills that are essential in addressing the challenges of the human resource profession.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Develop HR policies and procedures to address business needs
- Analyze the role of human resources within the total business organizations

CERT/G-HRM Preferred Course Sequence

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Foundation

HRM 531 ..................................................................................3 credits
Human Capital Management
HRM 595 ~ ...............................................................................3 credits
Human Resource Capstone Course

G-HRM Electives

Students must choose three of the following:

HRM 546 ~ ...............................................................................3 credits
Human Resource Law
HRM 548 ~ ...............................................................................3 credits
Recruitment and Retention Practices
HRM 552 ~ ...............................................................................3 credits
Organizational Training and Development
HRM 558 ~ ...............................................................................3 credits
Research in Human Resource Management

The University reserves the right to modify the required course of study.

General Information for the CERT/G-HRM

- Students who completed a certificate in its entirety and who later choose to enroll in a graduate program with a concentration in the same area of focus as the completed certificate will not be required to enroll in the Certificate Track.

Additional Admission Requirements for the CERT/G-HRM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Applicants must have access to a suitable work environment for the completion of course assignments.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

Certificate Completion Requirements for the CERT/G-HRM

- Completion of a minimum of 15 credits:
  - Required Course of Study: 15 credits
- A minimum grade point average (GPA) of 3.0.
- Students earning the certificate en-route will only be placed on Academic Probation if their graduate program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
- The certificate awarded for this program will read as: Graduate Human Resource Management

Residency Requirements and Course Waivers for the CERT/G-HRM

- Completion of a minimum of 12 credit of the required course of study to meet University residency requirements.
- In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation;
  - The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
  - The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
Students completing this certificate en-route to the MHA/MBA Certificate Track program must appeal to the Student Appeals Center (SAC) to waive a certificate course that is required for their selected MHA/MBA concentration.

Students in this program may waive a maximum of 3 credits from their required course of study.

The following course(s) may not be waived: HRM 595

Re-entry for the CERT/G-HRM

Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.

Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.

Re-entry students who cannot complete their program within their program completion deadline offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

No appeals will be accepted for re-entry to an expired program.

Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Graduate Accounting Certificate

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

Students in the Graduate Accounting Certificate will develop an understanding of accounting concepts and applications. Students will also become competent in the use of appropriate analytical tools and technologies. They will be sensitive to legal, ethical, and social values in the conduct and communication of accounting practice and decisions. In addition, students will have an understanding of a portion of the topics required in preparation for the CPA exam: Audit & Attestation, Financial Accounting & Reporting, Regulation, and Business Environment & Concepts. The Graduate Accounting Certificate is designed for students who want to enhance their accounting management skills, enter the accounting profession, or complete additional coursework required for the CPA exam. While completing this program, it is recommended to students who may be planning to take the CPA exam to utilize CPA Test Preparation software of their choice in conjunction with their course work.

Note: Each state sets forth standards required to be eligible to take the CPA exam and apply for licensure or certification as a CPA. While this program was designed with consideration for the standards proposed by the National Association of State Boards of Accounting (NASBA), the University of Phoenix cannot, and will not, provide any assurance that completion of this program will allow a successful student to qualify within the student’s specific jurisdiction. Potential applicants should check with the appropriate organization within their jurisdiction to determine if this program, combined with their undergraduate degree and any other specific criteria, meets the requirements to qualify for examination in that specific jurisdiction. States frequently change their requirements for examination. There is no assurance that at the time of degree completion the specific jurisdiction’s requirements will be consistent with the requirements at the time of admission.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Assess key accounting principles in the organization, process, and interpretation of data to make informed decisions.
- Evaluate pertinent information free from distortions, personal bias and conflicts of interest to support ethical, legal and professional standards.

The University reserves the right to modify the required course of
Students who complete the Graduate Accounting Certificate (CERT/G-ACC) must meet the Residency Requirements and Course Waivers/Competency for the Certificate Track.

The certificate awarded for this program will read as:

- The course must have been completed within the past ten (10) years from current program enrollment agreement sign date with a "B" (3.0) or better; and
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 3 credits from their required course of study.

The course(s) may not be waived: ACC 541

Re-entry for the CERT/G-ACC

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

General Information for the CERT/G-ACC

- This certificate program may be taken on its own or may be earned en-route to earning a graduate degree. Students wishing to earn the certificate en-route must be enrolled in the corresponding "Certificate Track" graduate program.
- Students who completed a certificate in its entirety and who later choose to enroll in a graduate program with a concentration in the same area of focus as the completed certificate will not be required to enroll in the Certificate Track.

Additional Admission Requirements for the CERT/G-ACC

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Applicants must have access to a suitable work environment for the completion of course assignments.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

Certificate Completion Requirements for the CERT/G-ACC

- Completion of a minimum of 15 credits:
  - Required Course of Study: 6 credits
  - Graduate Accounting Certificate Electives: 9 credits
- A minimum grade point average (GPA) of 3.0.
- Students earning the certificate en-route will only be placed on Academic Probation if their graduate program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certification conferral.
- Students who complete the Graduate Accounting Certificate and wish to enroll in the MSA program can apply courses towards the MSA program requirement.
- The certificate awarded for this program will read as: Graduate Accounting

Residency Requirements and Course Waivers/Competency for the CERT/G-ACC

Completion of a minimum of 12 credit of the required course of study to meet University residency requirements.

In order to waive a course in the required course of study, the student must have completed a previous course that meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation;
Graduate Marketing Certificate

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

Students in the Marketing Certificate program will develop an understanding of marketing concepts and applications. Students will develop and communicate innovative approaches to stakeholders in a socially responsible manner and will be well positioned for several professionally recognized marketing certification exams. The Marketing Certificate is designed for students who want to enhance their marketing skills, enter the marketing profession, or complete additional coursework required for several professionally recognized marketing certification exams.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Develop marketing strategies that align with business plans
- Evaluate marketing performance using various analytical tools and data sources

Preferred Sequence for the CERT/G-MKT

Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

Certificate Completion Requirements for the CERT/G-MKT

- Completion of a minimum of 15 credits:
  - Required Course of Study: 6 credits
  - Graduate Marketing Certificate Electives: 9 credits
- A minimum grade point average (GPA) of 3.0.
- Students earning the certificate en-route will only be placed on Academic Probation if their graduate program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
- The certificate awarded for this program will read as: Graduate Marketing

Residency Requirements and Course Waivers/Competency for the CERT/G-MKT

Completion of a minimum of 12 credit of the required course of study to meet University residency requirements. In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:

- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 3 credits from their required course of study. The following course(s) may not be waived: MKT 593.
Re-entry for the CERT/G-MKT

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Graduate Project Management Certificate

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

Students in the Graduate Project Management Certificate program will develop an understanding of project management concepts, applications, and the five processes that define project management. Students will collaboratively create an organizational project plan using Microsoft Project® software. The concentration is based on standards as tested by the Project Management Professional (PMP) certification examination. The Graduate Project Management Certificate program is designed for students who want to enhance their project management skills, become project managers, or complete additional coursework in preparation for Project Management Professional (PMP) certification.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Apply project management techniques to advance organizational goals
- Apply cost, quality, communications, and procurement activities across a project’s lifecycle
- Determine actions to close out a project using project management process groups

Preferred Sequence and Prerequisites for the G-PM

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Additional Admission Requirements for the G-PM

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Applicants must have access to a suitable work environment for the completion of course assignments.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
Certificate Completion Requirements for the G-PM
- Completion of a minimum of 18 credits:
  - Required Course of Study: 18 credits
- All students must meet residency requirements.
- A minimum grade point average (GPA) of 3.0.
  - Students earning the certificate en-route will only be placed on Academic Probation if their graduate program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.
- The certificate awarded for this program will read as: Graduate Project Management

Residency Requirements and Course Waivers for the G-PM
Completion of a minimum of 12 credits of the required course of study to meet University residency requirements.
In order to be granted a waiver for a course in the required course of study, the student must have completed a previous course which meets the following criteria:
- The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
- The course must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Re-entry for the G-PM
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Graduate Finance Certificate
The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Graduate Finance Certificate is designed for students wanting to develop skills in finance as a financial analyst for the financial services industry, business or financial planning. The program allows customization of offerings in the finance area. It is comprised of fundamental, and core finance courses, while allowing a selection of courses to focus on several different areas of interest in finance.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
- Analyze financial needs to make operational decisions.
- Develop internal control policies and procedures to manage risk.
- Utilize financing techniques to make local or global investment decisions.

CERT/G-FIN Program Category Requirements Preferred Course Sequence and Prerequisites
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Finance Foundation, 3 total credits
FIN 571 ................................................................. 3 credits
Corporate Finance

Finance Core, 6 total credits
FIN 580 ................................................................. 3 credits
Global Capital Markets
The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 3 credits from their required course of study or Graduate Finance Electives.

**Re-entry for the CERT/G-FIN**

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
CERTIFICATE PROGRAMS FOR THE COLLEGE OF HEALTH PROFESSIONS

Graduate Health Care Informatics Certificate

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

This certificate program is designed for health care and nurse professionals interested in pursuing or advancing in careers associated with health care informatics and technology. Individuals with little or no background in Informatics receive an overview of informatics as it relates to delivery within a health care facility. The program is designed to provide the learner with current knowledge in concepts of health care informatics, systems life cycle, and data management. The 10 credit-bearing specialization is available as a certificate program for post-baccalaureate students. The four courses in the informatics specialization certificate program are available at campuses offering nursing or health care degree programs using a variety of delivery methods.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Learners will analyze informatics in health administration contexts to inform strategic data sourcing and decision-making.
• Learners will distinguish the ways in which data are utilized across diverse health information systems.
• Learners will critique health information system implementation and interaction across the health sector.

Required Course of Study for the HCI

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

HCS 504 ~................................................................................. 1 credit
Introduction to Graduate Study in Health Sciences/Nursing

HCI 500 ~................................................................................. 3 credits
Concepts of Health Care Informatics

HCI 520 ~................................................................................. 3 credits
Data Management and Design

HCI 510 ~................................................................................. 3 credits
Systems Life Cycle

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the HCI

• An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

• A minimum equivalent of one year of full-time post high school work experience or volunteer experience is required.

Certificate Completion Requirements for the HCI

• Completion of a minimum of 10 credits:
  • Required Course of Study: 10 credits
  • A minimum program grade point average (GPA) of 3.0.
  • Students earning the certificate en-route will only be placed on Academic Probation if their graduate program GPA falls below the minimum requirement.
  • Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral

• The certificate awarded for this program will read as: Health Care Informatics

Residency Requirements and Course Waivers for the HCI

Students must meet established University residency requirement for degree conferral. The University requires that the majority of coursework, 7 credits in the Required Course of Study, must be completed at University of Phoenix.

Students in this program may waive a maximum of 3 credits from their required course of study. In order to waive a course in a HCI Certificate Program, the student must have completed a previous course which meets the following criteria:

• The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.

• The course must have been completed within the past five years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.

• The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students completing this certificate en-route to the MHA/MBA Certificate Track program must appeal to the Student Appeals Center (SAC) to waive a certificate course that is required for their selected MHA/MBA concentration.

The following course will not be waived from the certificate program: HCS 504.
Re-entry for the HCI

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

No appeals will be accepted for re-entry to an expired program.

- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Graduate Health Care Compliance and Privacy Certificate

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Graduate Health Care Compliance and Privacy Certificate is designed to prepare leaders and aspiring leaders for the Certificate in Healthcare Compliance (CHC) examination and leadership positions in compliance and privacy within the health care industry that require competency in compliance practices, ethical considerations, and policy implementation regarding privacy, regulatory affairs and legal obligations within the health care industry.

Program Purpose

The Graduate Health Care Compliance and Privacy Certificate is designed to prepare leaders and aspiring leaders for leadership positions in compliance and privacy within the health care industry that require competency in compliance practices, ethical considerations, and policy implementation regarding privacy, regulatory affairs and legal obligations within the health care industry. The certificate educationally prepares students to sit for the Certificate in Healthcare Compliance (CHC) examination.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Create compliance and privacy practices for diverse health care organizations.
- Create an identity as a leader in compliance and privacy within the health care industry.
- Evaluate ethical considerations regarding leadership of compliance and privacy practices across the health care industry.

Required Course of Study for the CERT/G-HCP

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

MHA 505 .................................................................3 credits
HCP 513 ~ .................................................................3 credits
HCP 514 ~ .................................................................3 credits
HCP 516 ~ .................................................................3 credits
HCP 517 ~ .................................................................3 credits

Additional Admission Requirements for the CERT/G-HCP

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor’s degree or higher earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admisibility.

Certificate Completion Requirements for the CERT/G-HCP

- Completion of a minimum of 15 credits:
  - Required Course of Study: 15 credits
  - A minimum program grade point average (GPA) of 3.0.
  - The certificate awarded for this program will read as: Graduate Health Care Compliance and Privacy
Residency Requirements and Course Waivers for the CERT/G-HCP

Students must meet established University residency requirement for degree conferral. The University requires that all coursework, 12 credits in the Required Course of Study, must be completed at UOPX.

In order to be granted a waiver for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:

- The course must have been completed at a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation.
- The course must have been completed within the past five (5) years from the course's enrollment agreement date with a grade of "B" (3.0) or better.
- The course must be comparable in content and credits to the University course it is replacing and must be an equivalent level or higher level course (i.e., graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

Students in this program may waive a maximum of 3 credits from their required course of study.

The following course(s) may not be waived: MHA 505

Minimum Grade Requirements for the CERT/G-HCP

- Students in this program are required to achieve a minimum grade of "C" (2.0) in courses listed below. A "C-" grade is not acceptable. Students who fail to receive a minimum grade of "C" will be scholastically disqualified from the University: HCP 513, HCP 514, HCP 516, HCP 517
- Students who fail to meet the minimum grade requirement and have been scholastically disqualified will not be allowed to continue in the program until the course has been successfully repeated. Students will be allowed to repeat each class in which the minimum grade was not achieved one time. Students who fail to meet the minimum grade requirement after the second attempt will be Scholastically Suspended and will not be able to continue in the program.

Re-entry for the CERT/G-HCP

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in any program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.

- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Medical Records Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The certificate in Medical Records lays a foundation for further study in health care medical records at the undergraduate level. Topics focus on anatomy and physiology related to terminology and disease diagnosis, medical billing and coding, medical insurance processes, and medical claims processing and compliance. Software instruction synthesizes a variety of records processes common in medical facilities. Completion of the program allows a student to sit for the Certified Billing and Coding Specialist (CBCS) exam, a national certification offered through the National Healthcare Association.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Translate medical billing codes and terminology to support claim reimbursement.
- Summarize insurance verification processes for medical reimbursement.
- Create a basic medical claim for reimbursement.
- Explain compliance requirements as it relates to health care information.

CERT/MR Preferred Sequence

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

HCS 131 ................................................................. 3 credits
Business Communication Skills for Health Care Professionals
HCS 235 ~ ............................................................... 3 credits
Health Care Delivery in the U. S.
HCS 140 ~ ............................................................... 3 credits
Fundamentals of Electronic Health Records
HCS 214 ~ ............................................................... 3 credits
Anatomy and Physiology I
HCS 216 ~..............................................................3 credits
Anatomy and Physiology II
HCR 202 ~..............................................................3 credits
Medical Insurance
HCR 201 ~..............................................................3 credits
Medical Billing and Coding
HCR 203 ~..............................................................3 credits
Medical Claims Processing and Compliance

The University reserves the right to modify the required course of study.

General Information for the CERT/MR

- This certificate program may be taken on its own or may be earned en-route to earning an associates degree. Students wishing to earn the certificate en-route must be enrolled in the corresponding “Certificate Track” associates program.
- Students who completed a certificate in its entirety and who later choose to enroll in an associates program with a concentration in the same area of focus as the completed certificate will be required to enroll in the Certificate Track and will not earn a second certificate en-route to completing the associates program.

Additional Admission Requirements for the CERT/MR

- Applicants must be at least 16 years of age at the time of application.
- High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).

Certificate Completion Requirements for the CERT/MR

- Completion of a minimum of 24 credits:
  - Required Course of Study: 24 credits
  - A minimum grade point average (GPA) of 2.0.
- Students earning the certificate en-route will only be placed on Academic Probation if their associate program GPA falls below the minimum requirement.
- Students earning this certificate en-route to completion of a degree program must meet the minimum GPA requirement at the conclusion of all required coursework for the certificate to be eligible for certificate conferral.

The certificate awarded for this program will read as follows: Medical Records (Undergraduate)

Minimum Grade Requirements for the CERT/MR

- Students in this program will be placed on scholastic disqualification if a minimum grade of “C” (2.0) is not attained in the following courses: HCR 201, HCR 202, HCR 203, HCS 214, and HCS 216.
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have retaken the course which placed them on scholastic disqualification, satisfied the grade requirement, and fulfilled any additional criteria for reentry, as determined by the faculty member and the Program Chair or appropriate Dean.
- Re-Admission is granted when the student satisfactorily fulfills the outlined requirements to remove the scholastic disqualification. Students may repeat the specific courses listed above only one time. If the student does not receive the minimum grade requirement on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program.

Residency Requirements and Course Waivers for the CERT/MR

- Students must meet the established University residency requirement for certificate conferment. The University requires that the majority of coursework, 15 credits in the Required Course of Study, must be completed at University of Phoenix.
- Students in this program may waive a maximum of 6 credits from their required course of study.
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous credit bearing activity in transfer which meets the following criteria:
  - The activity must have been completed at a college or university with approved institutional accreditation, or that is a candidate for accreditation, or from an approved source of nontraditional transfer credit as listed in University transfer policy.
  - The activity must have been completed within the past ten (10) years (5 years for IS&T courses) from current program enrollment agreement sign date with a grade of “C” (2.0) or better or comparable passing benchmark for nontraditional credits.
  - The activity must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
  - Experiential Journal credit is not eligible to waive courses in the required course of study.
- The following course(s) may not be waived: HCR 203

Re-entry for the CERT/MR

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

• No appeals will be accepted for re-entry to an expired program.

• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Health Information Systems Certificate (Undergraduate)

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

This certificate is designed for individuals that want to work with information technology within the health care industry. Focus is on database concepts, information networking and telecommunications, system design, and the project management of health information systems. Students will blend health care concepts with technology terminology and skills for preparation within the growing technology sector of the health industry.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are expected to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Explain project management concepts to health care organizations.
• Explain IT system integration in the health care industry.
• Explain technology information system concepts to support the health care industry.

Program Purpose

The Health Information Systems Certificate (CERT/HIS) is an academic certificate that provides a foundation of knowledge to pursue a career in health information systems and technology. Upon successful completion of the program, students will be educationally prepared to pursue a certification as a Certified Associate in Healthcare Information and Management Systems (CAHIMS) through the Healthcare Information and Management Systems Society (HIMSS).

Preferred Sequence and Prerequisites for the CERT/HIS

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Additional Admission Requirements for the CERT/HIS

All applicants are expected to meet the following admissions requirements:

• High school graduation from an institution that holds state approval to confer high school diplomas, or that is accredited, or a candidate for accreditation at the time the student attended, by an acceptable accrediting body; a foreign secondary institution completion credential; or a successfully completed state sanctioned test to include TASC (Test Assessing Secondary Completion), GED (General Education Development), CHSPE (California High School Proficiency Examination), or HiSET (High School Equivalency Test).
• Signed Hardware/Software Agreement

Certificate Completion Requirements for the CERT/HIS

• Completion of a minimum of 24 credits:
  • Required Course of Study: 24 credits
  • A minimum grade point average (GPA) of 2.00.
  • All students must complete the minimum number of credits required by their certificate program.
• The certificate awarded for this program will read as: Health Information Systems (Undergraduate)

Residency Requirements and Course Waivers for the CERT/HIS

• Students must meet established University residency requirement for certificate conferral. The University requires that the majority of coursework, 24 credits in the Required Course of Study, must be completed at UOPX.
• Students may not waive any courses in this program.

Re-entry for the CERT/HIS

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program's re-entry policies and consult the appropriate University representative for guidance.
CERTIFICATE PROGRAMS FOR THE COLLEGE OF EDUCATION

Graduate Initial Teacher Certificate/Elementary Education

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Graduate Initial Teacher Certificate/Elementary Education is a graduate level certificate program intended for students with no prior teaching experience for the elementary education teacher license in Arizona. The certificate program blends academic theory with relevant coursework, field experiences and student teaching, the curriculum is designed to align with national standards. The Graduate Initial Teacher Certificate/Elementary Education (CERT/G-ELM) is an Arizona-based program for teacher licensure that provides the academic preparation to apply for initial teacher certification in select states.

Educator licensure requirements vary by state. Candidates located in a state that does not provide a direct path to licensure will be required to obtain Arizona certification first, prior to seeking licensure their home state as an out-of-state prepared candidate. The Arizona certification process requires candidates to pass all Arizona-specific licensure requirements including any Arizona-specific exams (or home state equivalents if recognized by Arizona Department of Education). After obtaining an Arizona educator license, candidates may be required to complete testing or other additional state requirements, at additional cost, in their home state to obtain state licensure there. The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the teacher licensure page regularly prior to contacting your state agency for state-specific licensure requirements.

Candidates beginning or resuming an education program are strongly encouraged to discuss state licensure requirements with their Education Program Specialist and regularly review state specific licensure requirements in the state where they plan to teach.

This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates must keep their address up-to-date with the University and contact their Academic Advisor immediately when any change occurs to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.

Program Purpose

The Graduate Initial Teacher Certificate-Elementary is a graduate level certificate program intended to prepare students with no prior teaching experience for initial teacher licensure. The certificate program is designed for students who want to become elementary education teachers. Candidates for this certificate program have already earned a bachelor’s degree. The certificate program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design and implement effective instruction and behavioral plans in the elementary classroom to positively impact student learning.
- Demonstrate professional dispositions and ethical conduct in elementary education.
- Create innovative strategies and incorporate technology in an elementary classroom setting.

Program Category Requirements for the CERT/G-ELM

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Candidates in the CERT/G programs are required to complete a minimum number of credits in each of the Program Requirement Categories. The number of required credits and courses available to fulfill these requirements are noted below.

Orientation, 0 credits

APES 503 ~ .............................................................................. 3 credits
Orientation to the Graduate Initial Teacher Certificate

Educational Theories and Models, 6 total credits

APE 518 ~ .............................................................................. 3 credits
Elementary Models, Theories, and Instructional Strategies

APE 522 ~ .............................................................................. 3 credits
Elementary - Effective Learning Environments

Assessment, 3 total credits

APES 562 ~ .............................................................................. 3 credits
Assessment and Evaluation

Reading, 6 total credits

APE 536 ~ .............................................................................. 3 credits
Introduction to the Science of Reading

APE 537 ~ .............................................................................. 3 credits
Elementary Curriculum and Assessment- Reading/ELA
Content and Curricular Knowledge, 3 total credits
APE 515 ~ ................................................................. 3 credits
Elementary Content Methods
Special Populations, 6 total credits
APE 515 ~ ................................................................. 3 credits
Survey of Special Populations
SEI 504 ~ ................................................................. 3 credits
Structured English Immersion-Elementary
Clinical Practice, 3 total credits
APE 545 ~ ................................................................. 3 credits
Clinical Practice
New Jersey, North Carolina, Utah, Maryland, and Illinois residents will take ELM 545 in place of APES 545
ELM 545 ~ ................................................................. 3 credits
Elementary Clinical Practice
The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/G-ELM
All applicants are expected to meet the following admissions requirements:
• Students enrolled in this program must have an undergraduate degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. Degrees from institutions without ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation will not be accepted. All coursework for the Undergraduate degree or higher must have been taken from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation. Coursework taken during an institution’s candidacy period is not acceptable for admission.
• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

North Carolina Residents: A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
• Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.
• A signed CERT/G-ELM New Student Checklist.
• Students who reside outside of the US or US Territory are not eligible to apply.

Additional Elementary Admission Requirements for Montana Residents
Students residing in Montana must provide verification of the following:
• Completion of online course, An Introduction to Indian Education for All in Montana

Additional Elementary Admission Requirements for Oregon Residents
Students residing in Oregon must provide verification of the following prior to admission:
• Completion of GACE Educator Ethics Assessment
• Signed and notarized Verification of Lawful Presence (VLP) Affidavit
• Completion of online application for pre-service certificate

Additional Elementary Admission Requirements for South Dakota Residents
Students residing in South Dakota must provide verification of the following prior to admission:
• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Elementary Admission Requirements for South Carolina Residents
Students residing in South Carolina must provide verification of the following prior to admission:
• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Elementary Admission Requirements for Texas Residents
Students residing in Texas must provide verification of the following prior to admission:
• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam
Additional Elementary Admission Requirements for New Mexico Residents
Students residing in New Mexico must provide verification of the following prior to admission:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
- Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Admission Requirements for Mississippi residents with an admission application or program change agreement signed 10/1/2022 or later
Mississippi residents seeking a Mississippi certificate must first:
- Obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service Certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

Certificate Completion Requirements for the CERT/G-ELM
- Completion of a minimum of 27 credits.
- A minimum grade point average (GPA) of 3.0.
- Satisfactory completion of program assessment.
- Satisfactory completion of any required clinical practice/student teaching courses.
- Completion of My Time Log (60 hours minimum or more as required by state of residency). To ensure student’s meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

In order to receive state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.

Georgia residents who complete field experience, student teaching, and apply for state certification must complete:
- GACE Educator Ethics Exit Exam (360)
- The certificate awarded for the CERT/G-ELM program will read as: Graduate Initial Teacher - Elementary

Academic Progression Requirements for the CERT/G-ELM
- Candidates must provide verification of the following prior to beginning their clinical practice placement. Candidates must provide:
  - Verification of negative TB test results, or other TB clearance documentation (District specific).
  - Passing scores on the designated state content knowledge exam (elementary content or secondary content area specific).

The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

Tennessee Residents: Students residing in the state of Tennessee, and that choose to complete a job-embedded pathway, must provide passing scores on the Tennessee state content knowledge exam before beginning the job-embedded pathway.

- Verification of the completion of 60 hours of clinical experience (or more as required by state of residency).

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

- Students residing in Utah must complete any outstanding credits towards completion of their major/minor as indicated in the admissions requirements prior to clinical practice.

- Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number

Mississippi Residents with Enrollment Agreements signed prior to 10/1/2022: Mississippi residents seeking a Mississippi certificate must first obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
- Signed Pre-service certification Application
- Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
- Signed and notarized Verification of Lawful Presence (VLP) Affidavit
- Institutional Program Verification (IPV) form

- Candidates will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.

Georgia residents: Students who complete APES/515 (or equivalent) must earn a B or better to receive credit for the course.
Minimum Grade Requirements for the CERT/G-ELM

- Candidates must earn a “B” or better in all clinical practice courses in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or clinical practice: APES 545, ELM 545
- Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  - Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  - Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
  - If the candidate does not receive a grade of “B” or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from this program.

Residency Requirements and Course Waivers for the CERT/G-ELM

- Completion of a minimum of 24 credits of the required course of study in the CERT/G-ELM program to meet University residency requirements.
- In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  - The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation, or that is a candidate for accreditation.
  - The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
  - The course must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
- Students in these programs may waive a maximum of 3 credits from their required course of study.
- The following course(s) may not be waived: APE 518, APE 522, APE 536, APE 537, APES 503, APES 545, APES 562, ELM 545
- Candidates may waive SEI 504 with an Arizona Department of Education approved SEI course (institution of higher education or approved district workshop) OR verification of one of the following endorsements:
  - Arizona Full SEI Endorsement.
  - Augmented Provisional SEI Endorsement (45 hours)
  - Arizona English as a Second Language Endorsement
  - Arizona Bilingual Endorsement

Clinical Experience and Clinical Practice for the CERT/G-ELM

Clinical Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 60 hours (or more as required by state of residency) of verified clinical experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each clinical experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided clinical experience requirements. The guided clinical experience requirements will be satisfied through the completion of Guided Clinical Experience assignments in specific courses required by the candidate’s program. Documentation of clinical experience will be reviewed by university staff prior to clinical practice. Candidates must follow necessary guidelines outlined in the program handbook to satisfy clinical experience requirements.

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

Clinical Practice

- Clinical Practice is a full-time experience. Each campus establishes operational policies related to placement and completion of clinical practice. Candidates must follow the guidelines in place at their campus.
- Students must complete clinical practice hours as noted below:
  - Elementary candidates must complete three (3) semester hours of supervised clinical practice.
  - Clinical practice can only be repeated one time.
- Removal from a placement at the request of an appointed administrator from the clinical practice location or UOPX:
- Student teachers who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their first clinical practice course or while transitioning between their clinical practice courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the students’ successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
- Student teachers who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their clinical practice courses, will be withdrawn from the clinical practice course, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.
- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
- Unapproved self-terminations of clinical practice:
• Student teachers that execute an unapproved self-termination of clinical practice, prior to starting and posting attendance in their first clinical practice course or while transitioning between their clinical practice courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the students’ successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.

- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.

• Student teachers that execute an unapproved self-termination of clinical practice, after having met any amount of attendance in their clinical practice courses, will be withdrawn from the clinical practice course, will be issued a grade of “F,” and will be placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.

- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.

• Candidates who do not successfully complete a successive attempt of the clinical practice experience will be removed from the program, placed on Scholastic Suspension, are not eligible for re-entry and are not eligible for admission to the MAED/TED pre-licensure programs.

• Candidates may be eligible to complete their clinical practice in the classroom where they are currently employed as a full-time teacher. Students who are already teaching in an appropriate environment will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for clinical practice. Students must be teaching in a grade level and content area that corresponds with the certification they are pursuing. Students must complete the clinical practice course and complete and upload the Teacher Performance Assessment.

• Students should complete clinical practice within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the clinical practice courses).

• Clinical practice cannot be waived unless a documented exception exists in program policy. SAC appeals to waive clinical practice will not be accepted.

Institutional Recommendation for the CERT/G-ELM

• Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.

• Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.

• Georgia residents: Students must complete APES 515 (or equivalent) with a grade of B or better to be eligible for the IR.

• North Carolina residents in CERT/G-ELM are completing a North Carolina state-approved program leading to direct licensure in North Carolina which requires 16 weeks of clinical practice (student teaching).

Re-entry for the CERT/G-ELM

• Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.

• Colorado, Indiana, Missouri, Nebraska, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.

• Georgia, Missouri, Montana, New Jersey, New Mexico, Pennsylvania (students in secondary education programs only), Puerto Rico, South Dakota, Texas, and Wyoming residents: Students who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum may reenter their original program version.

• Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Arizona Teaching Intern Certificate Route

Arizona Teaching Intern Certificate Route

The Arizona Teaching Intern Certificate Route is optional for Arizona residents and is not a requirement for participation in clinical practice (student teaching). To participate in the Arizona Teaching Intern Certificate Route, candidates must qualify for the Alternative Teaching Certificate.

The Alternative Teaching Certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate. The Alternative Teaching certificate is valid for two years and may be extended yearly for no more than two consecutive years.

Requirements for initial issuance of the Alternative Teaching Certificate:

• A Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation
• A valid fingerprint clearance card issued by the Arizona Department of Public Safety. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number
• Letter of intent to hire or other evidence indicating that the student will be hired as a contracted teacher for the school year. The classroom and grade level must align with the candidate’s program of enrollment and content knowledge exam.
• Verification letter indicating that the candidate is enrolled in an Arizona State Board approved educator preparation program signed by the College of Education appropriate designee.
• Passing scores on the designated state content knowledge exam.
Secondary Candidates must take an Arizona secondary content knowledge exam (or home state equivalent as recognized by the Arizona Department of Education). Middle grades exams do not meet program or certification requirements.
• Students must have a minimum 3.0 GPA and be in good academic and financial standing.

Requirements for extension of the Alternative Teaching Certificate:
• Students must be continuously enrolled
  • Intern route students need to earn credit within an academic term (August to December or January to May). If this is not accomplished, the student will not meet the requirements for the Arizona Department of Education Verification Letter.
  • Students must have a minimum 3.0 GPA and be in good academic and financial standing.

North Carolina Residency Pathway
The North Carolina Residency Pathway is an option for North Carolina residents enrolled in the North Carolina state-approved program. The residency pathway is not a requirement for participation in clinical practice (student teaching). To participate in the North Carolina Residency Pathway, candidates must qualify for the Residency License.

The Residency License entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor. The Residency License is valid for one (1) year and may be renewed twice for up to a 3-year licensure cycle.

Requirements for initial issuance of the Residency License:
• A letter of intent to hire from the local board of education or school system with which a formal agreement exists.
• A valid fingerprint clearance card. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.
• Passing scores on the designated content knowledge examination.
• Continuous enrollment in the Graduate Certificate program.
• Completion of 12 hours of field experience, including at least one field experience in a low-performing school.
• A minimum 3.0 GPA and be in good academic standing.

Requirements for renewal of the Residency License:
• Continuous enrollment in the CERT/G-ELM program.
• Evidence of having taught at least six calendar months during the prior school year.
• Continued employment as a teacher in a Local Education Agency (LEA).
• Completion of 10 days of professional development through the LEA.

The residency license will expire at the end of the school year if the candidate does not maintain employment with a Local Education Agency (LEA) and/or enrollment in their program.

Graduate Initial Teacher Certificate/Secondary Education

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Graduate Initial Teacher Certificate-Secondary is a graduate level certificate program intended for students with no prior teaching experience for the secondary teacher license in Arizona. The certificate program blends academic theory with relevant coursework, field experiences and student teaching, the curriculum is designed to align with national standards.

The Graduate Initial Teacher Certificate/Secondary Education (CERT/G-SEC) is an Arizona-based program for teacher licensure that provides the academic preparation to apply for initial teacher certification in select states.

Educator licensure requirements vary by state. Candidates located in a state that does not provide a direct path to licensure will be required to obtain Arizona certification first, prior to seeking licensure in their home state as an out-of-state prepared candidate. The Arizona certification process requires candidates to pass all Arizona-specific licensure requirements including any Arizona-specific exams (or home state equivalents if recognized by Arizona Department of Education). After obtaining an Arizona educator license, candidates may be required to complete testing or other additional certification state requirements, at additional cost, in their home state to obtain state licensure there. Program requirements may change based upon state agency licensure requirements and they can be located here www.phoenix.edu/state-licensure-requirements/teacher-education. The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the teacher licensure page regularly prior to contacting your state agency for state-specific licensure requirements.

Candidates beginning or resuming an education program are strongly encouraged to discuss state licensure requirements with their Education Program Specialist and regularly review state specific licensure requirements in the state where they plan to teach. This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates must keep their address up-to-date with the University and contact their Academic Advisor immediately when any change occurs to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.
Program Purpose
The Graduate Initial Teacher Certificate-Secondary is a graduate level certificate program intended to prepare students with no prior teaching experience for initial teacher licensure. The certificate program is designed for students who want to become secondary education teachers. Candidates for this certificate program have already earned a bachelor’s degree. The certificate program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
• Design and implement effective instruction and behavioral plans in the secondary classroom to positively impact student learning.
• Demonstrate professional dispositions and ethical conduct in secondary education.
• Create innovative strategies and incorporate technology in a secondary classroom setting.

Program Category Requirements for the CERT/G-SEC
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). New Jersey, North Carolina, Maryland, and Illinois residents will take SEC 545 in place of APES 545
SEC 545 ~..........................................................3 credits
Secondary Clinical Practice
The University reserves the right to modify the required course of study.

Additional Admission Requirements for the CERT/G-SEC
All applicants are expected to meet the following admissions requirements:
• Students enrolled in this program must have an undergraduate degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. Degrees from institutions without ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation will not be accepted. All coursework for the Undergraduate degree or higher must have been taken from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation. Coursework taken during an institution’s candidacy period is not acceptable for admission.
• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

North Carolina Residents: A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
• Verification of fingerprint clearance. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.
• A signed CERT/G-SEC New Student Checklist.
• CERT/G-SEC Candidates: a completed Content Area Declaration Form
• Students who reside outside of the US or US Territory are not eligible to apply.

Additional Secondary Admission Requirements for Kansas
Students enrolled in the CERT/G-SEC program and residing in the state of Kansas must provide a transcripted verification of a minimum of 24 semester credit hours in their secondary content area prior to admission to the University.

Additional Secondary Admission Requirements for North Carolina Residents
Students residing in North Carolina must provide passing scores on the content knowledge exam required for their specific area of licensure.
Only the following areas of licensure are considered approved areas for Secondary candidates, and one must be reflected on the Content Declaration form:
- Mathematics
- English
- Science (Comprehensive)
- Earth Science
- Biology
- Chemistry
- Physics
- Social Studies (Comprehensive)
- Political Science
- Geography
- History
- Economics
- Sociology
- Anthropology

Additional Secondary Admission Requirements for Pennsylvania
Students enrolled in the CERT/G-SEC program and residing in the state of Pennsylvania must have a major in an approved endorsement area with transcripted verification of a minimum of 30 credit hours covering all competencies of the approved endorsement area.
Students enrolled in the CERT/G-SEC program and residing in the state of Pennsylvania must student teach in an approved endorsement area. Endorsement areas designated as Pre-K-12 or K-12 are not considered approved endorsement areas.
Only the following endorsement areas are considered approved areas and one must be reflected on the Content Declaration form:
- Citizenship Education 7-12
- Communication 7-12
- Computer Science 7-12
- English 7-12
- Mathematics 7-12
- Biology 7-12
- Chemistry 7-12
- Earth and Space Science 7-12
- General Science 7-12
- Physics 7-12
- Social Studies 7-12

Additional Admission Requirements for Virginia Residents
Students residing in the Commonwealth of Virginia who declare a social studies, history, social science, or similar related field content area must complete an African American History course and provide record of successful completion. The Virginia Department of Education provides cultural competency training.

Additional Secondary Admission Requirements for Tennessee
Students enrolled in the CERT/G-SEC program and residing in the state of Tennessee must student teach in an approved endorsement area. Endorsement areas designated as Pre-K-12 or K-12 are not considered approved endorsement areas.
Only the following endorsement areas are considered approved areas and one must be reflected on the Content Declaration form:
- Agricultural Edu 6-12
- Arabic 6-12
- Biology 6-12
- Business Education 6-12
- Chemistry 6-12
- Chinese 6-12
- Earth Science 6-12
- Economics 6-12
- English 6-12
- Family & Consumer Science 6-12
- French 6-12
- Geography 6-12
- German 6-12
- Government 6-12
- Greek 6-12
- History 6-12
- Japanese 6-12
- Latin 6-12
- Marketing Edu 6-12
- Mathematics 6-12
- Other World Language 6-12
- Physics 6-12
- Psychology 9-12
- Russian 6-12
- Sociology 9-12
- Spanish 6-12
- Speech Comm. 6-12
- Tech Engineering Edu 6-12

Additional Secondary Admission Requirements for Georgia Residents
Georgia residents seeking a Georgia certificate must:
• Obtain a Georgia Pre-service Certificate. The steps to qualify for this certificate include:
  • Completion of GACE Educator Ethics Assessment
  • Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  • Completion of online application for pre-service certificate

Additional Secondary Admission Requirements for Oregon Residents
Students residing in Oregon must provide a screen shot from the Oregon Teacher Standards and Practices Commission Public Educator search, confirming they have never held an Oregon Educator license.
Satisfactory completion of any required clinical practice/student teaching courses.

Satisfactory completion of program assessment.

A minimum grade point average (GPA) of 3.0.

Completion of a minimum of 24 credits.

Obtain a Mississippi Pre-service Certificate. The steps to qualify with an admission application or program change agreement signed 10/1/2022 or later

Additional Admission Requirements for South Dakota Residents

Students residing in South Dakota must provide verification of the following prior to admission:

• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Secondary Admission Requirements for South Carolina Residents

Students residing in South Carolina must provide verification of the following prior to admission:

• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Secondary Admission Requirements for Texas Residents

Students residing in Texas must provide verification of the following prior to admission:

• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Secondary Admission Requirements for New Mexico Residents

Students residing in New Mexico must provide verification of the following prior to admission:

• Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
• Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Admission Requirements for Mississippi residents with an admission application or program change agreement signed 10/1/2022 or later

Mississippi residents seeking a Mississippi certificate must first:

• Obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  • Signed Pre-service Certification Application
  • Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  • Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  • Institutional Program Verification (IPV) form

Certificate Completion Requirements for the CERT/G-SEC

• Completion of a minimum of 24 credits.
• A minimum grade point average (GPA) of 3.0.
• Satisfactory completion of program assessment.
• Satisfactory completion of any required clinical practice/student teaching courses.

• Completion of My Time Log (60 hours minimum or more as required by state of residency). To ensure student’s meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

In order to receive state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.

Georgia residents who complete field experience, student teaching, and apply for state certification must complete:

• GACE Educator Ethics Exit Exam (360)
• The certificate awarded for the CERT/G-SEC program will read as: Graduate Initial Teacher - Secondary

Academic Progression Requirements for the CERT/G-SEC

• Candidates must provide verification of the following prior to beginning their clinical practice placement. Candidates must provide:
  • Verification of negative TB test results, or other TB clearance documentation (District specific).
  • Passing scores on the designated state content knowledge exam (elementary content or secondary content area specific).

The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

Secondary Candidates must take an Arizona secondary content knowledge exam (or home state equivalent as recognized by the Arizona Department of Education). Middle grades exams do not meet program or certification requirements

Tennessee Residents: Students residing in the state of Tennessee, and that choose to complete a job-embedded pathway, must provide passing scores on the Tennessee state content knowledge exam before beginning the job-embedded pathway.

• Verification of the completion of 60 hours of clinical experience (or more as required by state of residency).

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

• Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.
• Mississippi Residents with Enrollment Agreements signed prior to 10/1/2022: Mississippi residents seeking a Mississippi certificate must first obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form
• Candidates will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.
• Georgia residents: Students who complete APES/515 (or equivalent) must earn a B or better to receive credit for the course.

Minimum Grade Requirements for the CERT/G-SEC
• Candidates must earn a “B” or better in all clinical practice courses in order to complete this program. Grades of “B-” are not accepted. Students who fail to receive a minimum grade of “B” in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or clinical practice: APES 545, SEC 545
• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  • Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.
• If the candidate does not receive a grade of “B” or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from this program.

Residency Requirements and Course Waivers for the CERT/G-SEC
• Completion of a minimum of 21 credits of the required course of study in the CERT/G-SEC program to meet University residency requirements.
• In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  • The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCO, or WSCUC accreditation, or that is a candidate for accreditation.
  • The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of “B” (3.0) or better.
• The course must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.
• Students in these programs may waive a maximum of 3 credits from their required course of study.
• The following course(s) may not be waived: APES 503, APES 545, APES 562, APS 508, APS 523, SEC 545
• Candidates may waive SEI 504 or SEI 506 with an Arizona Department of Education approved SEI course (institution of higher education or approved district workshop) OR verification of one of the following endorsements:
  • Arizona Full SEI Endorsement.
  • Augmented Provisional SEI Endorsement (45 hours)
  • Arizona English as a Second Language Endorsement
  • Arizona Bilingual Endorsement

Clinical Experience and Clinical Practice for the CERT/G-SEC
Clinical Experience
Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 60 hours (or more as required by state of residency) of verified clinical experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each clinical experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided clinical experience requirements. The guided clinical experience requirements will be satisfied through the completion of Guided Clinical Experience assignments in specific courses required by the candidate’s program. Documentation of clinical experience will be reviewed by university staff prior to clinical practice. Candidates must follow necessary guidelines outlined in the program handbook to satisfy clinical experience requirements.

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

Clinical Practice
• Clinical Practice is a full-time experience. Each campus establishes operational policies related to placement and completion of clinical practice. Candidates must follow the guidelines in place at their campus.
• Students must complete clinical practice hours as noted below:
  • Secondary candidates must complete three (3) semester hours of supervised clinical practice.
• Clinical practice can only be repeated one time.
• Removal from a placement at the request of an appointed administrator from the clinical practice location or UOPX:
- Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
- Unapproved self-terminations of clinical practice:
  - Student teachers who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their clinical practice courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the students' successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
  - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
  - Student teachers who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their first clinical practice course or while transitioning between their clinical practice courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the students’ successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
  - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.

- Candidates who do not successfully complete a successive attempt of the clinical practice experience will be removed from the program, placed on Scholastic Suspension, are not eligible for re-entry and are not eligible for admission to the MAED/TED pre-licensure programs.
- Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- Candidates may be eligible to complete their clinical practice in the classroom where they are currently employed as a full-time teacher. Students who are already teaching in an appropriate environment will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for clinical practice. Students must be teaching in a grade level and content area that corresponds with the certification they are pursuing. Students must complete the clinical practice course and complete and upload the Teacher Performance Assessment.
- Students should complete clinical practice within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the clinical practice courses).
- Clinical practice cannot be waived unless a documented exception exists in program policy. SAC appeals to waive clinical practice will not be accepted.

**Institutional Recommendation for the CERT/G-SEC**
- Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.
- Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- **Georgia residents:** Students must complete APES 515 (or equivalent) with a grade of B or better to be eligible for the IR.
- **North Carolina residents** in CERT/G-SEC are completing a North Carolina state-approved program leading to direct licensure in North Carolina which requires 16 weeks of clinical practice (student teaching).

**Re-entry for the CERT/G-SEC**
- Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- **Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions:** Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- **Georgia, Missouri, Montana, New Jersey, New Mexico, Pennsylvania (students in secondary education programs only), Puerto Rico, South Dakota, Texas, Utah, and Wyoming residents:** seeking to re-enter an Arizona-approved program who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
• Candidates who have been out of attendance for more than one year and are lacking courses in addition to their student teaching, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.

• Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Arizona Teaching Intern Certificate Route

Arizona Teaching Intern Certificate Route

The Arizona Teaching Intern Certificate Route is optional for Arizona residents and is not a requirement for participation in clinical practice (student teaching). To participate in the Arizona Teaching Intern Certificate Route, candidates must qualify for the Alternative Teaching Certificate.

The Alternative Teaching Certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate. The Alternative Teaching certificate is valid for two years and may be extended yearly for no more than two consecutive years.

Requirements for initial issuance of the Alternative Teaching Certificate:

• A Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation

• A valid fingerprint clearance card issued by the Arizona Department of Public Safety. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

• A letter of intent to hire or other evidence indicating that the student will be hired as a contracted teacher for the school year. The classroom and grade level must align with the candidate’s program of enrollment and content knowledge exam.

• Verification letter indicating that the candidate is enrolled in an Arizona State Board approved educator preparation program signed by the College of Education appropriate designee.

• Passing scores on the designated state content knowledge exam.

Secondary Candidates must take an Arizona secondary content knowledge exam (or home state equivalent as recognized by the Arizona Department of Education). Middle grades exams do not meet program or certification requirements.

• Students must have a minimum 3.0 GPA and be in good academic and financial standing.

Requirements for extension of the Alternative Teaching Certificate:

• Students must be continuously enrolled

• Intern route students need to earn credit within an academic term (August to December or January to May). If this is not accomplished, the student will not meet the requirements for the Arizona Department of Education Verification Letter.

• Students must have a minimum 3.0 GPA and be in good academic and financial standing.

North Carolina Residency Pathway

The North Carolina Residency Pathway is an option for North Carolina residents enrolled in the North Carolina state-approved program. The residency pathway is not a requirement for participation in clinical practice (student teaching). To participate in the North Carolina Residency Pathway, candidates must qualify for the Residency License.

The Residency License entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor. The Residency License is valid for one (1) year and may be renewed twice for up to a 3-year licensure cycle.

Requirements for initial issuance of the Residency License:

• A letter of intent to hire from the local board of education or school system with which a formal agreement exists.

• A valid fingerprint clearance card. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

• Passing scores on the designated content knowledge examination.

• Continuous enrollment in the Graduate Certificate program.

• Completion of 12 hours of field experience, including at least one field experience in a low-performing school.

• A minimum 3.0 GPA and be in good academic standing.

Requirements for renewal of the Residency License:

• Continuous enrollment in the CERT/G-SEC program.

• Evidence of having taught at least six calendar months during the prior school year.

• Continued employment as a teacher in a Local Education Agency (LEA).

• Completion of 10 days of professional development through the LEA.

The residency license will expire at the end of the school year if the candidate does not maintain employment with a Local Education Agency (LEA) and/or enrollment in their program.
Graduate Initial Teacher Certificate/Special Education

The following certificate program is offered at all University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Graduate Initial Teacher Certificate/Special Education is a graduate level certificate program intended for students with no prior teaching experience for the special education teacher license in Arizona. The certificate program blends academic theory with relevant coursework, field experiences and student teaching, the curriculum is designed to align with national standards. The Graduate Initial Teacher Certificate/Special Education (CERT/G-SPE) is an Arizona-based program for teacher licensure that provides the academic preparation to apply for initial teacher certification in select states.

Educator licensure requirements vary by state. Candidates located in a state that does not provide a direct path to licensure will be required to obtain Arizona certification first, prior to seeking licensure their home state as an out-of-state prepared candidate. The Arizona certification process requires candidates to pass all Arizona-specific licensure requirements including any Arizona-specific exams (or home state equivalents if recognized by Arizona Department of Education). After obtaining an Arizona educator license, candidates may be required to complete testing or other additional certification state requirements, at additional cost, in their home state to obtain state licensure there. Program requirements may change based upon state agency licensure requirements and they can be located here www.phoenix.edu/state-licensure-requirements/teacher-education. The College of Education has made a determination if program requirements meet, does not meet, or affords no determination in your home state. Please check the teacher licensure page regularly prior to contacting your state agency for state-specific licensure requirements.

Candidates beginning or resuming an education program are strongly encouraged to discuss state licensure requirements with their Education Program Specialist and regularly review state specific licensure requirements in the state where they plan to teach.

This program, which leads to certification or licensure, is only approved in select states. If at any point in the program candidates move to another state, their ability to progress could be impacted or even prohibited. Candidates must keep their address up-to-date with the University and contact their Academic Advisor immediately when any change occurs to ascertain the effect upon their educational goals. Candidates may also consider contacting their Academic Advisor upon contemplating an address change to understand the effect of the change upon their ability to progress in the program.

Program Purpose

The Graduate Initial Teacher Certificate-Special Education is a graduate level certificate program intended to prepare students with no prior teaching experience for initial teacher licensure. The certificate program is designed for students who want to become special education teachers. Candidates for this certificate program have already earned a bachelor's degree. The certificate program includes a clinical component requiring field experiences and student teaching above and beyond program coursework. Requirements for licensure vary by state, please visit www.phoenix.edu/state-licensure-requirements/teacher-education to see your state’s requirements. There may be additional qualifications and/or disqualifications applicable in order to work as a teacher with any local, state or federal entity.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Education graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Design and implement effective instruction and behavioral plans in the P-12 classroom to positively impact student learning.
- Demonstrate professional dispositions and ethical conduct in special education.
- Create innovative strategies and incorporate technology in a P-12 classroom setting.

Program Category Requirements for the CERT/G-SPE

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). Candidates in the CERT/G-SPE program are required to complete a minimum number of credits in each of the Program Requirement Categories. The number of required credits and courses available to fulfill these requirements are noted below.

Orientation, 0 credits
APES 503 .................................................................................... 0 credits
Orientation to the Graduate Initial Teacher Certificate

Foundations of Special Education, 3 total credits
APSE 559 ~ .............................................................................. 3 credits
Foundations of Special Education

Educational Theories and Models, 9 total credits
APSE 578 ~ ................................................................. 3 credits
SPED-Model Theories and Instructional Strategies
APSE 584 ~ ................................................................. 3 credits
Learning Disabilities and Language Development Disorders
APSE 575 ~ ................................................................. 3 credits
Mathematics Instruction for SPED

Instruction and Management for Special Needs Students, 6 total credits
APSE 576 ~ ................................................................. 3 credits
Characteristics of Autism Spectrum Disorders
SEI 504 ~ ................................................................. 3 credits
Structured English Immersion-Elementary

Reading, 6 total credits
APSE 536 ~ ................................................................. 3 credits
Introduction to the Science of Reading
APSE 570 ~ ................................................................. 3 credits
SPED Curriculum and Assessment Reading/ELA

Clinical Practice, 3 total credits
APES 545 ~ ................................................................. 3 credits
Clinical Practice

New Jersey, North Carolina, Utah, Maryland, and Illinois residents will take SPE 577 in place of APES 545

SPE 577 ~ ................................................................. 3 credits
Special Education Clinical Practice

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the CERT/G-SPE
All applicants are expected to meet the following admissions requirements:
- Students enrolled in this program must have an undergraduate degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation or equivalent undergraduate degree or higher earned at a recognized foreign institution. Degrees from institutions without ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation will not be accepted. All coursework for the Undergraduate degree or higher must have been taken from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, or WSCUC accreditation. Coursework taken during an institution’s candidacy period is not acceptable for admission.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

North Carolina Residents: A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.
- A signed CERT/G-SPE New Student Checklist.
- Students who reside outside of the US or US Territory are not eligible to apply.

Additional Admission Requirements for Georgia Residents
Georgia residents seeking a Georgia certificate must:
- Obtain a Georgia Pre-service Certificate. The steps to qualify for this certificate include:
  - Completion of GACE Educator Ethics Assessment
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Completion of online application for pre-service certificate

Additional Admission Requirements for Montana Residents
Students residing in Montana must provide verification of the following:
- Completion of the online course, An Introduction to Indian Education for All in Montana

Additional Special Education Admission Requirements for North Carolina Residents
Students residing in North Carolina must provide passing scores on the content knowledge exam(s) required for the Special Education: General Curriculum K-12 license. Additional exams are required for residency license and/or academic progression.

Additional Admission Requirements for Oregon Residents
Students residing in Oregon must provide a screenshot from the Oregon Teacher Standards and Practices Commission Public Educator search, confirming they have never held an Oregon Educator license.

Additional Admission Requirements for South Dakota Residents
Students residing in South Dakota must provide verification of the following prior to admission:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
- Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Admission Requirements for South Carolina Residents
Students residing in South Carolina must provide verification of the following prior to admission:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
- Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Admission Requirements for New Mexico residents
Students residing in New Mexico must provide verification of the following prior to admission:
- Completion of an Arizona Constitution course or the Arizona Constitution AEPA Exam
- Completion of a US Constitution course or the US Constitution AEPA Exam

Additional Admission Requirements for Mississippi residents
Students residing in Mississippi must provide passing scores on the following prior to admission:
- A signed Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  - Signed Pre-service Certification Application
  - Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  - Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  - Institutional Program Verification (IPV) form

Certificate Completion Requirements for the CERT/G-SPE
- Completion of a minimum of 27 credits.
- A minimum grade point average (GPA) of 3.0.
- Satisfactory completion of program assessment.
- Satisfactory completion of any required clinical practice/student teaching courses.
• Completion of My Time Log (60 hours minimum or more as required by state of residency). To ensure student's meet this requirement documentation will be periodically uploaded, reviewed, and maintained as specified in the handbook/courses.

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

• In order to receive state certification, candidates may need to meet other requirements as set forth by their state of residency. Candidates are advised to check with their State Department of Education for any additional certification requirements.

Georgia residents who complete field experience, student teaching, and apply for state certification 1/1/2020 or thereafter must complete:

• GACE Educator Ethics Exit Exam (360)

The certificate awarded for the CERT/G-SPE program will read as:

Graduate Initial Teacher - Special Education

Academic Progression Requirements for the CERT/G-SPE

• Candidates must provide verification of the following prior to beginning their clinical practice placement. Candidates must provide:
  • Verification of negative TB test results, or other TB clearance documentation (District specific).
  • Passing scores on the designated state content knowledge exam.

The validity period of passing exam scores is determined by each state at their discretion. The College of Education accepts exam scores that are no more than 10 years old. Candidates may be required to retake their exams if the exam scores are no longer valid in their state.

Tennessee Residents: Students residing in the state of Tennessee, and that choose to complete a job-embedded pathway, must provide passing scores on the Tennessee state content knowledge exam before beginning the job-embedded pathway.

- Students seeking certification in Arizona will take the Arizona Special Education Professional Knowledge exam in lieu of a content knowledge exam.

• Verification of the completion of 60 hours of clinical experience (or more as required by state of residency).

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

• Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number.

• Mississippi Residents with Enrollment Agreements signed prior to 10/1/2022: Mississippi residents seeking a Mississippi certificate must first obtain a Mississippi Pre-service Certificate. The steps to qualify for this certificate include:
  • Signed Pre-service certification Application
  • Official passing score report, sent directly to MS DOE for either the Praxis Core Academic Skills for Educators exam (all subtests must be passed to MS DOE required scores), ACT (score of 21 or higher), or SAT (score of 1060 or higher)
  • Signed and notarized Verification of Lawful Presence (VLP) Affidavit
  • Institutional Program Verification (IPV) form

• Candidates will be required to have a 3.0 GPA for the program at the time they apply for clinical practice and prior to the approval of their clinical practice.

Minimum Grade Requirements for the CERT/G-SPE

• Candidates must earn a "B" or better in all clinical practice courses in order to complete this program. Grades of "B-" are not accepted. Students who fail to receive a minimum grade of "B" in any of the following courses will be Scholastically Disqualified from the University and required to complete a remediation process prior to repeating the course and/or clinical practice: APES 545, SPE 577

• Students who have been scholastically disqualified will not be allowed to continue in their degree program until they have taken the following steps:
  • Completion of the academic progression student agreement form, signed by the student and returned to the appointed administrator.
  • Retake of the course which placed them on scholastic disqualification and satisfy the grade requirement.

• If the candidate does not receive a grade of "B" or better on the second attempt, the candidate will be Scholastically Suspended and permanently withdrawn from this program.

Residency Requirements and Course Waivers for the CERT/G-SPE

• Completion of a minimum of 24 credits of the required course of study to meet University residency requirements.

• In order to be granted a waiver with credit for a course in the Required Course of Study, a student must have completed a previous course which meets the following criteria:
  • The course must have been completed at a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSOC, or WSCUC accreditation, or that is a candidate for accreditation.
  • The course must have been completed within the past five (5) years from current program enrollment agreement sign date with a grade of "B" (3.0) or better.

• The course must be comparable in content and semester academic credits to the University course it is replacing and must be an equivalent level or higher level course (i.e. graduate level coursework may be used to waive graduate or undergraduate coursework). Course descriptions must be included with the course waiver form in order for the Office of Admissions and Evaluation to review the course waiver request.

• Students in this program may waive a maximum of 3 credits from their required course of study.
Clinical Experience and Clinical Practice for the CERT/G-SPE

Clinical Experience

Beginning with the first course, and throughout the program, candidates are required to complete a minimum of 60 hours (or more as required by state of residency) of verified clinical experiences, covering a variety of developmental levels within the age/grade span for the program and within diverse settings. The focus of each clinical experience will relate to specific course content and will follow a structured format. As part of the verified clinical experiences, candidates must also complete guided clinical experience requirements. The guided clinical experience requirements will be satisfied through the completion of Guided Clinical Experience assignments in specific courses required by the candidate’s program. Documentation of clinical experience will be reviewed by university staff prior to clinical practice. Candidates must follow necessary guidelines outlined in the program handbook to satisfy clinical experience requirements.

North Carolina candidates on a Residency License will follow their state hour requirements for clinical experience which is below the 60-hour threshold.

Clinical Practice

- Clinical Practice is a full-time experience. Each campus establishes operational policies related to placement and completion of Clinical Practice Candidates must follow the guidelines in place at their campus.
- Students must complete Clinical Practice hours as noted below:
  - Special Education candidates must complete three (3) semester hours of supervised clinical practice.
  - Clinical Practice can only be repeated one time.
  - Removal from a placement at the request of an appointed administrator or from the clinical practice location or UOPX:
    - Student teachers who are removed from a placement at the request of an appointed administrator, prior to starting and posting attendance in their first clinical practice course or while transitioning between their clinical practice courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the students’ successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
    - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
  - Students who are removed from a placement at the request of an appointed administrator, after having met any amount of attendance in their clinical practice courses, will be withdrawn from the clinical practice course, will be issued a grade of “F”, and placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.
    - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
  - Student teachers that execute an unapproved self-termination of clinical practice, prior to starting and posting attendance in their first clinical practice course or while transitioning between their clinical practice courses, will result in the candidate being placed on Scholastic Suspension and administratively withdrawn. Scholastic Suspension will be removed upon the students’ successful completion of their supplemental standards remediation process. This experience counts as one of their two clinical practice attempts.
    - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
  - Student teachers that execute an unapproved self-termination of clinical practice, after having met any amount of attendance in their clinical practice courses, will be withdrawn from the clinical practice course, will be issued a grade of “F”, and will be placed on Scholastic Disqualification. This experience counts as one of their two clinical practice attempts.
    - Students may request an exemption from this policy when dealing with issues related to family crisis, medical necessity, or natural disaster. Students will need to work with their appointed administrator to have these exceptions approved.
  - Students who do not successfully complete a successive attempt of the clinical practice experience will be removed from the program, placed on Scholastic Suspension, are not eligible for re-entry and are not eligible for admission to the MAED/TED pre-licensure programs.
  - Candidates may be eligible to complete their clinical practice in the classroom where they are currently employed as a full-time teacher. Students who are already teaching in an appropriate environment will be evaluated by a faculty supervisor in their classroom and will not have to seek additional placement for clinical practice. Students must be teaching in a grade level and content area that corresponds with the certification they are pursuing. Students must complete the clinical practice course and complete and upload the Teacher Performance Assessment.
  - Students should complete clinical practice within twelve (12) months from their official last date of attendance and the completion of their last required course in the program (excluding the clinical practice courses).
  - Clinical practice cannot be waived unless a documented exception exists in program policy. SAC appeals to waive clinical practice will not be accepted.

- The following course(s) may not be waived: APE 536, APES 503, APES 545, APSE 570, APSE 573, APSE 576, APSE 578, APSE 584, SPE 577
- Candidates may waive SEI/504 with an Arizona Department of Education approved SEI course (institution of higher education or approved district workshop) OR verification of one of the following endorsements:
  - Arizona Full SEI Endorsement.
  - Augmented Provisional SEI Endorsement (45 hours)
  - Arizona English as a Second Language Endorsement
  - Arizona Bilingual Endorsement
Institutional Recommendation for the CERT/G-SPE

- Candidates must meet all current program requirements prior to being issued a University of Phoenix Institutional Recommendation (IR, recommendation for state teaching credential, may vary by state). If candidates do not meet all criteria on the IR, the College may be required to list deficiencies or deny the request for an IR.
- Upon completion candidates’ records will be analyzed to ensure that they have met all academic requirements for their programs. An IR cannot be completed until this process has been finished. This will ensure that candidates have met all of their obligations to the University before they receive an IR from the University.
- North Carolina residents in CERT/G-SPE are completing a North Carolina state-approved program leading to direct licensure in North Carolina which requires 16 weeks of clinical practice (student teaching).

Re-entry for the CERT/G-SPE

- Candidates who have been out of attendance for more than one year and have completed all certificate requirements except clinical practice, internship or practicum may reenter their original program version. Upon re-entry candidates must meet all requirements for their state of residence before being approved for clinical practice.
- Colorado, Indiana, Missouri, Nevada, Oregon, New Mexico, Tennessee, Utah, Hawaii, Texas, and California Versions: Candidates who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Missouri, Montana, New Jersey, New Mexico, Puerto Rico, South Dakota, Texas, and Wyoming residents: seeking to re-enter an Arizona-approved program who have been out of attendance for more than one year and have completed all degree requirements except student teaching, internship or practicum must appeal to the Student Appeals Committee (SAC) to return to their original program version.
- Candidates who have been out of attendance for more than one year and are lacking courses in addition to their clinical practice, internship or practicum must reenter the current program version and successfully complete all courses required by their reentry credit summary.
- Only students who reside within the United States and its territories are eligible to enroll into a UOPX bachelor or master of education program. International students who have been out of attendance for more than 365 days will not be eligible to re-enter.

Arizona Teaching Intern Certificate Route

Arizona Teaching Intern Certificate Route

The Arizona Teaching Intern Certificate Route is optional for Arizona residents and is not a requirement for participation in clinical practice (student teaching). To participate in the Arizona Teaching Intern Certificate Route, candidates must qualify for the Alternative Teaching Certificate.

The Alternative Teaching Certificate entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor and is only valid in the school district or charter school requesting the certificate. The Alternative Teaching Certificate is valid for two years and may be extended yearly for no more than two consecutive years.

Requirements for initial issuance of the Alternative Teaching Certificate:

- A Bachelor’s degree or higher from a college or university with ACCJC, HLC, MSCHE, NECHE, NWCCU, SACSCOC, orWSCUC accreditation
- A valid fingerprint clearance card issued by the Arizona Department of Public Safety. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.

Candidates residing in Arizona and Reciprocity States: must obtain an Arizona IVP Fingerprint Clearance Card and obtain their Educator Identification Number

- Letter of intent to hire or other evidence indicating that the student will be hired as a contracted teacher for the school year. The classroom and grade level must align with the candidate's program of enrollment and content knowledge exam.
- Verification letter indicating that the candidate is enrolled in an Arizona State Board approved educator preparation program signed by the College of Education appropriate designee.
- Passing scores on the designated state content knowledge exam.
- Students must have a minimum 3.0 GPA and be in good academic and financial standing.

Requirements for extension of the Alternative Teaching Certificate:

- Students must be continuously enrolled
- Intern route students need to earn credit within an academic term (August to December or January to May). If this is not accomplished, the student will not meet the requirements for the Arizona Department of Education Verification Letter.
- Students must have a minimum 3.0 GPA and be in good academic and financial standing.
North Carolina Residency Pathway

The North Carolina Residency Pathway is an option for North Carolina residents enrolled in the North Carolina state-approved program. The residency pathway is not a requirement for participation in clinical practice (student teaching). To participate in the North Carolina Residency Pathway, candidates must qualify for the Residency License.

The Residency License entitles the teacher candidate to perform teaching duties under the supervision of a University faculty supervisor. The Residency License is valid for one (1) year and may be renewed twice for up to a 3-year licensure cycle.

Requirements for initial issuance of the Residency License:

- A letter of intent to hire from the local board of education or school system with which a formal agreement exists.
- A valid fingerprint clearance card. Candidate must maintain a valid fingerprint clearance to remain eligible for continued enrollment throughout the duration of their program.
- Passing scores on the designated content knowledge examination.
- Continuous enrollment in the Graduate Certificate program.
- Completion of 12 hours of field experience, including at least one field experience in a low-performing school.
- A minimum 3.0 GPA and be in good academic standing.

Requirements for renewal of the Residency License:

- Continuous enrollment in the CERT/G-SPE program.
- Evidence of having taught at least six calendar months during the prior school year.
- Continued employment as a teacher in a Local Education Agency (LEA).
- Completion of 10 days of professional development through the LEA.

The residency license will expire at the end of the school year if the candidate does not maintain employment with a Local Education Agency (LEA) and/or enrollment in their program.
CERTIFICATE PROGRAMS FOR THE COLLEGE OF DOCTORAL STUDIES

Post Master’s Certificate in Organizational Leadership and Decision-making

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Organizational Leadership and Decision-making Certificate is designed for working professionals who hold a master’s or doctoral degree and have a critical interest in advancing their organizational leadership skills in order to face the challenges of a rapidly changing business environment brought about by the digital age. This certificate program will prepare students who already have a foundation in management by developing advanced leadership skills that can effective positive change and increase an organization’s competitive edge through targeted-decision making.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Students will create strategies for adapting to change that promote future organizational growth and performance in a digital age.
- Synthesize leadership theories and techniques to support optimal organizational performance.
- Create strategies to foster an ethical organizational culture and decision-making.

Program Category Requirements for the CERT/D-OL

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Theory and Practice of Management and Organizational Leadership, 15 total credits

- ORG 716 ................................................................. 3 credits
- ORG 726 ~ ............................................................ 3 credits
- The Impact of Technology on Organizations
- MGT 726 ............................................................ 3 credits
- Emerging Managerial Practices
- ORG 727 ~ ............................................................ 3 credits
- Organizational Diagnosis and Intervention
- LDR 736 ~ ............................................................ 3 credits
- Architecture of Leadership

Additional Admission Requirements for the CERT/D-OL

All applicants are expected to meet the following admissions requirements:

- A graduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or equivalent graduate degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Current or a record of past employment or access to a work environment is required for admission.
- A signed Hardware/Software agreement verifying Internet access and a multimedia equipped computer.
- A signed Research Library Access Agreement.

Certificate Completion Requirements for the CERT/D-OL

- Completion of a minimum of 15 credits:
  - Required Course of Study: 15 credits

Academic Progression Requirements for the CERT/D-OL

Students are subject to the following academic progression requirements:

- Students meeting a minimum GPA of 3.5 may concurrently enroll in courses.
- All credit-bearing courses must be completed with a grade of “B-” or better. Students who earn a grade lower than “B-” must repeat the course until the minimum grade requirement is met.
- Students may have only one incomplete grade on their records at a time.

Residency Requirements and Course Waivers for the CERT/D-OL

- Students must meet the established University residency requirement for certificate conferral. The University requires that all 15 credits in the Required Course of Study must be completed at UOPX.
- Students may not waive any courses in this program.
Re-entry for the CERT/D-OL

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Post Master’s Certificate in Research Essentials

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Certificate in Research Essentials is designed for working professionals who currently hold a master’s degree with a strong interest in developing essential research skills in both qualitative and quantitative research methods in the social sciences. This certificate will prepare students to have foundational research knowledge and practice into areas of applied research in their organization.

Program Student Learning Outcomes

- Students will be able to demonstrate research skills as a means to respond to problems or issues within an organizational environment.
- Students will be able to apply ethical standards appropriate to principles of research ethics.

Program Category Requirements for the CERT/D-RES

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Essential Research Design, 9 total credits

- RES 709 ~.................................................................3 credits
- Research Conceptualization and Design
- RES 710 ~.................................................................3 credits
- Statistical Research Methods and Design I
- RES 724 ~.................................................................3 credits
- Qualitative Methods and Design

Research Elective, 3 total credits

Students may select any course from the list below to fulfill the requirement.

- RES 720 ~.................................................................3 credits
- Statistical Research Methods and Design II
- RES 728 ~.................................................................3 credits

Additional Admission Requirements for the CERT/D-RES

All applicants are expected to meet the following admissions requirements:

- A graduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or equivalent graduate degree of higher earned at a recognized foreign institution or a graduate degree of higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admittance.
- A signed Hardware/Software agreement verifying Internet access and a multimedia equipped computer.
- A signed Research Library Access Agreement.

Certificate Completion Requirements for the CERT/D-RES

- Completion of a minimum of 12 credits:
  - Required Course of Study: 9 credits
  - Research Elective: 3 credits
- A minimum grade point average (GPA) of 3.0.
- The certificate awarded for this program will read as: Post Master’s Research Essentials
Academic Progression Requirements for the CERT/D-RES
Students are subject to the following academic progression requirements:
- Students meeting a minimum GPA of 3.5 may concurrently enroll in courses.
- All credit-bearing courses must be completed with a grade of "B-" or better. Students who earn a grade lower than "B-" must repeat the course until the minimum grade requirement is met.
- Students may have only one incomplete grade on their records at a time.

Residency Requirements and Course Waivers for the CERT/D-RES
Students must meet the established University residency requirement for certificate conferral. The University requires that all 12 credits in the Required Course of Study must be completed at UOPX.

Re-entry for the CERT/D-RES
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Post Master’s Certificate in Curriculum and Instruction
The following certificate program is offered at the University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Post Master’s Certificate in Curriculum and Instruction (CERT/D-CI) will provide students with foundational and practical knowledge to develop as instructional leaders who can strategically manage and lead processes related to educational curricula, instruction, and assessment. The CERT/D-CI is consistent with the University’s mission to educate working adults to achieve their professional goals and to improve the quality of education in their communities. The program prepares students apply practical and scholarly knowledge in their use of analytical, critical, and innovative thinking to improve the performance of educational institutions design and facilitate learning in culturally diverse classrooms; manage the needs of multiple stakeholders; develop their classrooms, schools, and systems effectively and efficiently in the face of severe funding pressures; address the demands of regulatory bodies; and meet the outcomes established by the greater educational community. The credits earned from CERT/D-CI are transferable and applicable toward the University of Phoenix Doctor of Education degree with a focus in Curriculum and Instruction. The CERT/D-CI does not lead to licensure.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
- Create models for instruction and delivery using foundational theories of curriculum design in the organization.
- Evaluate the tools necessary to inform decisions and lead curriculum changes in their organizations.

Program Category Requirements for the CERT/D-CI
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- Students must meet the established University residency requirement for certificate conferral. The University requires that all 15 credits in the Required Course of Study must be completed at UOPX.
- Students may not waive any courses in this program.

Re-entry for the CERT/D-CI

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Post Master’s Certificate in Educational Leadership

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Post Master’s Certificate in Educational Leadership (CERT/D-EL) will prepare learners to become transformational leaders who will strategically manage and lead complex educational organizations. The CERT/D-EL is consistent with the University’s mission to educate working adults to develop the knowledge and skills that will enable them to achieve their professional goals, improve the productivity of their organizations, and provide leadership and service to their communities. The Certificate is designed to emphasize leadership and to focus on applied research that improves educational environments. Graduates of the CERT/D-EL will be able to: Utilize and conduct research to evaluate and improve instructional and organizational processes; Provide instructional leadership to support and enhance the educational process; Incorporate knowledge of social, historical, and political theories and processes in educational decision making; and Lead and manage the educational organization through transformation inherent in contemporary society. The credits earned from CERT/D-EL are transferable and applicable toward the University of Phoenix Doctor of Education degree with a focus in Educational Leadership. The CERT/D-EL does not lead to licensure.
Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.
- Evaluate the tools necessary to effectively recruit, train, and appraise instructional staff in their organization.
- Apply educational leadership theories to promote organizational success.

Program Category Requirements for the CERT/D-EL

- A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
- Current or a record of past employment or access to a work environment is required for admission.
- A signed Hardware/Software agreement verifying Internet access and a multimedia equipped computer.
- A signed Research Library Access Agreement.

Certificate Completion Requirements for the CERT/D-EL
- Completion of a minimum of 15 credits:
  - Required Course of Study: 15 credits
- A minimum grade point average (GPA) of 3.0.
- The certificate awarded for this program will read as: Post Master's Educational Leadership

Academic Progression Requirements for the CERT/D-EL
Students are subject to the following academic progression requirements:
- Students meeting a minimum GPA of 3.5 may concurrently enroll in courses.
- All credit-bearing courses must be completed with a grade of "B-" or better. Students who earn a grade lower than "B-" must repeat the course until the minimum grade requirement is met.
- Students may have only one incomplete grade on their records at a time.

Residency Requirements and Course Waivers for the CERT/D-EL
- Students must meet the established University residency requirement for certificate conferral. The University requires that all 15 credits in the Required Course of Study must be completed at UOPX.
- Students may not waive any courses in this program.

Re-entry for the CERT/D-EL
- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
- No appeals will be accepted for re-entry to an expired program.
- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Post Master’s Certificate in Educational Technology

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Post Master’s Certificate in Educational Technology (CERT/D-ET) will prepare students to become education leaders who strategically manage and lead processes related to the integration of technology in various learning environments. The CERT/D-ET is consistent with the University’s mission to educate working adults to achieve their professional goals and to improve the quality of education in their communities. Upon completion of all requirements of the CERT/D-ET, students will be able to: Support and enhance the educational process through technological innovation; Manage and lead organizational reform and transformation through strategic decision-making; Design, develop, and implement technology solutions to enhance learning; Balance the competing priorities of technology and curriculum based on research, theory, and experience; Demonstrate strategies for life-long learning and continuous improvement of technological competence Program Structure. The credits earned from CERT/D-ET are transferable and applicable toward the University of Phoenix Doctor of Education degree with a focus in Educational Technology. The CERT/D-ET does not lead to licensure.

Program Student Learning Outcomes
In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:
• Students will evaluate various media and technology to determine implementation and integration into learning organizations.
• Students will explore areas around technology, curriculum design, and instructional leadership to inform change with their organizations.

Program Category Requirements for the CERT/D-ET
Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Additional Admission Requirements for the CERT/D-ET
All applicants are expected to meet the following admissions requirements:
• A graduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or equivalent graduate degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
• A cumulative GPA of 3.0 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., graduate or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.
• Current or a record of past employment or access to a work environment is required for admission.
• A signed Hardware/Software agreement verifying Internet access and a multimedia equipped computer.
• A signed Research Library Access Agreement.

Certificate Completion Requirements for the CERT/D-ET
• Completion of a minimum of 15 credits:
  • Required Course of Study: 15 credits
• A minimum grade point average (GPA) of 3.0.
• The certificate awarded for this program will read as: Post Master’s Educational Technology

Academic Progression Requirements for the CERT/D-ET
Students are subject to the following academic progression requirements:
• Students meeting a minimum GPA of 3.5 may concurrently enroll in courses.
• All credit-bearing courses must be completed with a grade of “B-” or better. Students who earn a grade lower than “B-” must repeat the course until the minimum grade requirement is met.
• Students may have only one incomplete grade on their records at a time.

Residency Requirements and Course Waivers for the CERT/D-ET
• Students must meet the established University residency requirement for certificate conferred. The University requires that all 15 credits in the Required Course of Study must be completed at UOPX.
• Students may not waive any courses in this program.
Re-entry for the CERT/D-ET

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.
• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Post Master’s Certificate in Higher Education Administration

----------------------------------------------------------------------------------------------------------------------
The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.
----------------------------------------------------------------------------------------------------------------------

The mission of the Post Master’s Certificate in Higher Education Administration (CERT/D-HEA) is to prepare education professionals who can address the multiple challenges facing higher education in today’s dynamic global education community. The CERT/D-HEA is consistent with the University’s mission to educate working adults to achieve their professional goals and to improve the quality of education in their communities. The program prepares students to lead innovative, institutional policy changes and improvements within complex educational environments involving multiple stakeholders. The program addresses the diversity of higher education entities including public and private colleges and universities, governmental entities, accrediting and regulatory bodies, and higher education professional associations. The CERT/D-HEA emphasizes the discovery, integration and application of knowledge about higher education and leadership, promotes a commitment to professional integrity and development, the value of human diversity, innovative practice, and collaboration. The credits earned from CERT/D-HEA are transferable and applicable toward the University of Phoenix Doctor of Education degree with a focus in Higher Education Administration. The CERT/D-HEA does not lead to licensure.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Students will examine the major features of the financial operations and functions to inform decision making within various types of higher education institutions.
• Students will analyze how higher education institutions operate within a regulatory framework created by local, state, and federal policies to inform decision making within various types of higher education institutions.
• Students will examine the psychosocial, cultural, cognitive-structural and identity theories related to traditional, non-traditional, and diverse students in higher education.

Program Category Requirements for the CERT/D-HEA

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

• Current or a record of past employment or access to a work environment is required for admission.
Any student in a competency-based education (CBE) program is:

• Re-entry students who cannot complete their program within a program completion deadline or if their program version is still available in that modality.

The certificate awarded for this program will read as:

Postrn. Master's Higher Education Administration

Certificate Completion Requirements for the CERT/D-HEA

• Completion of a minimum of 15 credits:
  • Required Course of Study: 15 credits
  • A minimum grade point average (GPA) of 3.0.
  • The certificate awarded for this program will read as: Post Master's Higher Education Administration

Academic Progression Requirements for the CERT/D-HEA

Students are subject to the following academic progression requirements:

• Students meeting a minimum GPA of 3.5 may concurrently enroll in courses.
• All credit-bearing courses must be completed with a grade of "B-" or better. Students who earn a grade lower than "B-" must repeat the course until the minimum grade requirement is met.
• Students may have only one incomplete grade on their records at a time.

Residency Requirements and Course Waivers for the CERT/D-HEA

• Students must meet the established University residency requirement for certificate conferral. The University requires that all 15 credits in the Required Course of Study must be completed at UOPX.
• Students may not waive any courses in this program.

Re-entry for the CERT/D-HEA

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.
• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.
• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.
• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.
• No appeals will be accepted for re-entry to an expired program.

Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.

Post Master's Certificate in Information Systems and Technology

The following certificate program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Post Master's Certificate in Information Systems and Technology (CERT/D-IST) will enable professionals from any industry to understand and evaluate the scope and impact of information systems and technology (IST) from organizational, industry-wide, and global perspectives. The CERT/D-IST curriculum lays a foundation of knowledge in critical thinking, leadership, and the application of IST content areas. Students will integrate this knowledge with their professional experiences and doctoral-level research to create innovative, positive, and practical contributions to the body of IST knowledge. As such, students with a professional leadership background in any discipline will be able to add their unique perspective to the study of the context, breadth, and processes of IST management. Upon completion of all program requirements of the CERT/D-IST, students will be able to:

Understand applied research and practical applications as a foundation for executive action; Demonstrate innovation and creativity in developing new IT models to explain, forecast, support; Help improve the strategic, tactical, and operational performance of organizations; Integrate and align IT initiatives with organizational strategy; Lead the IT decision-making process toward positive outcomes; Provide leadership to improve the overall performance of the organization in its industry, community, and global environment. The CERT/D-IST incorporates coursework in fundamental management, organizational, and leadership concepts to engender the development of IST leadership perspectives. The credits earned from CERT/D-IST are transferable and applicable toward the University of Phoenix Doctor of Management degree with a focus in Information Systems and Technology Leadership.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Applying information systems technology functions to enhance organizational decision making.
• Evaluate information technology initiatives to provide integration and alignment with organizational strategy to increase organizational performance.

Re-entry for the CERT/D-IST

- Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

- Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.

- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

- Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.

- Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

- No appeals will be accepted for re-entry to an expired program.

- Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Post Master’s Certificate in Business Administration

The following certificate program is offered at the University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Post Master’s Certificate in Business Administration (CERT/D-BA) provides mid-careerists across the business sector with foundational and practical knowledge to bring new insights to bear on the practice of business administration. These deepening insights will provide aspiring leaders with the competencies necessary to grow their leadership capacity in business settings through a mastery of business administration scholarship and praxis, effectively apply of this insight to current business environments, and produce solution-oriented organizational research. The credits earned from CERT/D-BA are transferable and applicable toward the University of Phoenix Doctor of Business Administration degree. As the global information economy evolves, organizations are becoming increasingly complex and innovative, with organizational models and practices becoming crucial for successfully addressing this complexity. Consequently, leadership in this dynamic environment requires higher, more sophisticated levels of knowledge and skills. The Post-Master’s Certificate in Business Administration program is designed to serve this need by providing doctoral-level education to professional practitioners in business and management. The CERT/D-BA is offered by the University of Phoenix to enable leaders to affect these high levels of performance through applied scholarship, practical applications, rigorous analysis, and comprehensive evaluation methods. The CERT/D-BA is consistent with the University’s mission to educate working adults to achieve their professional goals and to improve the standard of living in their communities. The CERT/D-BA has a 15-credit requirement that involves an online modality of instruction delivered in an online, virtual classroom setting. In these courses, learners will work in a cohort of approximately 12 peers and be required to spend approximately 25 hours per week on required course work. The credits earned from CERT/D-BA are transferable and applicable toward the University of Phoenix Doctor of Business Administration degree.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Doctoral Studies graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program:

• Students will learn to integrate leadership principles, theories, and practice to promote organizational entrepreneurship, strategic planning, and governance in a global business environment.
• Students will learn to create strategic organizational and marketing models that optimize organization leadership, policies, and resources in a diverse environment.

• Any student who has been out of attendance for more than 365 days from the last date of positive recorded attendance in a program applicable course is considered a re-entry student.

• Any student in a competency-based education (CBE) program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from the official last date of attendance for their program.

• Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline or if their program version is still the most current in their state or jurisdiction. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.

• Re-entry students who cannot complete their program within their program completion deadline based on the maximum credit limit for their program level, whose program version is not the most current in their state or jurisdiction, will be required to enroll into the most current version.

• Re-entry students who cannot complete their program within their program completion deadline, who are not re-entering into the most current program version offered in their state or jurisdiction, may submit an appeal to the Student Appeals Center to re-enter any program that is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution’s ability to offer and confer a degree with relevant academic currency in the field of the student’s original program of study.

• No appeals will be accepted for re-entry to an expired program.

• Any program that leads to professional licensure or certification is exempt from this policy. Re-entry students who wish to re-enroll in a program that leads to professional licensure or certification should review their individual program’s re-entry policies and consult the appropriate University representative for guidance.
Credit-Based (CBE) Policies

All general University policies apply to students in Credit-Based CBE programs, except where a specific Credit-Based CBE policy exists. Policies specific to Credit-Based CBE students are found in this section of the catalog, and supersede any conflicting general University policies.

Credit-Based Competency-Based Education (CBE) Programs and Courses

Credit-Based (CBE) Academic Policies

Academic policies specific to Credit-Based CBE programs and courses (e.g., attendance, grades, academic standing) are found within the Credit-Based CBE University Policies. Where Credit-Based CBE specific policies are not provided, standard University policies apply for Credit-Based CBE students.

Credit-Based Competency-Based Education (CBE) Programs

University of Phoenix Credit-Based CBE program offerings are credit-hour programs designed to provide prepared students with an opportunity to pursue a degree at a more accelerated pace and with more flexibility than a traditional program offering. Credit-Based CBE program offerings allow students to demonstrate the appropriate level of mastery of relevant core competencies as a means of earning credit toward a degree. The University's Credit-Based CBE program offerings include the designation "Competency-Based-CB" in the official program name, and Credit-Based CBE courses include the designation "CB" in the course ID prefix.

Credit-Based (CBE) Courses

Students enrolled in a Credit-Based CBE program are enrolled in up to five courses concurrently. Each Credit-Based CBE course is 16 weeks in length. Each Credit-Based CBE course is made up of a cluster of competencies. Students must demonstrate an acceptable level of proficiency in each competency by completing a competency assessment. Students are allowed three attempts at a competency assessment, and must achieve a grade of ME (Met) or MA (Mastered) for each competency in a course in order to receive an overall passing grade of ME or MA for the course.

Credit-Based (CBE) Faculty

Credit-based CBE programs follow the University’s established Faculty Model. The Faculty Model provides the University with an experienced team of faculty who are involved in faculty governance and teaching activities. The University’s teaching and learning model, Faculty Code of Conduct, curriculum management strategy, overarching educational philosophy, and faculty and student resources to support the teaching model are all integral components of the Faculty Model. Within the Credit-Based CBE programs, faculty motivate and guide students from orientation to graduation. Faculty will provide guidance and support in academic areas for their assigned students throughout the duration of students’ programs.

Faculty are subject matter experts in the content area of the program. Faculty members are content experts in specific competency areas, and they use that expertise to guide students through learning activities to support their academic development. Faculty facilitate student learning through synchronous and asynchronous learning activities. They assist students by providing academic resources and support for achieving each learning objective and competency to be mastered, and by providing feedback to students on their learning. Faculty are trained in the use of assessment rubrics to ensure reliability in the assessment of students’ competencies.

Credit-Based Competency-Based Education (CBE) Enrollment Status

The University recognizes the following enrollment statuses for Credit-Based CBE programs.

All other enrollment statuses from the University's standard Enrollment Status policy apply, as written in that policy, to Credit-Based CBE students.

Program Level Enrollment Status

<table>
<thead>
<tr>
<th>Enrollment Status</th>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active Full-Time</td>
<td>F</td>
<td>The student’s required academic workload for their program is at least 6 credits for an academic year, the student is meeting academic engagement requirements, and the student’s official last date of attendance based on Academically Related Activities (ARAs) does not exceed 14 days. Institutionally Scheduled Breaks and In Progress Extension (IX) grades are excluded from the 14-day out of attendance calculation.</td>
</tr>
</tbody>
</table>
Active Less Than Half Time

The student’s required academic workload for their program amounts to less than the 6 credits for an academic year, as determined by the institution. In addition, the student is meeting academic engagement requirements and student’s official last date of attendance based on ARAs does not exceed 14 days. Institutionally Scheduled Breaks and IX grades are excluded from the 14-day out of attendance calculation.

Credit-Based Competency-Based Education (CBE) Course Status

The University recognizes the following course statuses for Credit-Based CBE programs.

All other course statuses from the University’s standard Course Status policy apply, as written in that policy, to Credit-Based CBE students.

<table>
<thead>
<tr>
<th>Status</th>
<th>Definition</th>
</tr>

<td>.00</td>
</tr>
</tbody>
</table>

Credit-Based CBE Grade Definitions:

MA = MASTERED. A grade of MA is given for performance of demonstrated competency that exceeds course expectations as defined for course competencies. A grade of MA is equivalent to an A in traditional grading formats. Students must achieve a grade of MA for all required competency assessments to be issued a grade of MA for a course and be awarded credits.

ME = MET. A grade of ME is given for performance of demonstrated competency that meets course expectations as defined for course competencies. A grade of ME is equivalent to a B in traditional grading formats. Students must achieve a minimum grade of ME on all competency assessments to be issued a grade of ME for the course and be awarded credits.

NM = NOT MET. A grade of NM is given for performance that does not demonstrate the minimum competency level expectations for a course. A grade of NM is issued when all attempts at any one competency have been exhausted without a passing grade, or students do not achieve a grade of ME - or higher - for all competencies in a course by the end course date.

W = WITHDRAWAL. Student has recorded positive class attendance, and withdrew from the course due to any of the following scenarios:
- Student failed to meet the academic engagement requirement for their program (exceeded 14 consecutive days without an academically-related activity in any credit-based CBE course in their program)
- Student has been administratively withdrawn from the University and/or program during the course.

I = INCOMPLETE. Student granted extension to complete assignments. A student who receives an incomplete is given five (5) weeks, from the scheduled course completion date to complete the course requirements and receive a grade. An incomplete may be requested as of the start of week 15, up through the Friday before the course end date, provided that the student is meeting the following criteria:
- Has met the course attendance requirement and is meeting the academic engagement requirement.

To ensure optimal focus on completing assessments, students are not permitted to pursue more than five courses concurrently, whether those are courses with I grade extensions or courses the student is currently enrolled in. Students who receive approval for more than one I grade in their current block of courses will be required to drop the requisite number of courses from their next scheduled start date to ensure that they are not pursuing more than five courses concurrently (e.g., a student approved for two I grades, who has four courses scheduled in their next block, will be required to drop at least one of those four courses).

Students who do not complete any additional course requirements prior to the new deadline will be awarded the grade earned for the entire course, as though an incomplete grade had not been requested. Faculty members are required to produce completed Incomplete Grade Contracts as needed to enforce the new course completion deadline date.

Incomplete grades shall be granted for active duty military personnel, regardless of component and including reserve and National Guard personnel who are deployed in operational war zones or in adjacent geographic areas in support of operational war zones. An "operational war zone" is, for purposes of this policy, defined as an area of operations where military personnel are engaged in active conflict or in post-conflict activities. If the student would like an opportunity to complete the course while deployed, an incomplete 'I' grade can be issued instead of a 'W' grade. The 'I' grade may be issued with an initial extension of six (6) weeks beyond the traditional five (5) week extension.
**Credit-Based Competency-Based Education (CBE) Student Academic Standing**

The University recognizes the following student academic statuses for Credit-Based CBE degree seeking students:

- **Regular (RG)** - student is compliant with applicable academic standing and progression program requirements.
- **Scholastic Suspension (SS)** - results when a student is suspended for a designated period or indefinitely from the University. The student will be administratively withdrawn and the University will note the dates of suspension on the permanent transcript. Students placed in SS status will not be allowed to continue in their program or transfer to another program (including concentration, emphasis, specialization, or major) until the designated period for the suspension has ended and/or the student’s status has been updated.
- **Expulsion (EX)** - results when a student is administratively withdrawn from the University and not permitted to return under any circumstance. The date of expulsion is noted on the official transcript.

**Credit-Based Competency-Based Education (CBE) Add or Change Program or Modality**

The following policies apply to students enrolled in a Credit-Based CBE program who opt to change into a non-CBE program:

- Students cannot change programs while active in a Credit-Based CBE course.
- Students enrolled in a Credit-Based CBE program are not eligible to dual-enroll in any other program.
- Students may not change to a Credit-Based CBE program from any other program (including another Credit-Based or Direct Assessment CBE program).

In addition to these Credit-Based CBE specific policies, students in Credit-Based CBE programs are subject to all applicable policies from the University’s standard Add or Change Program or Modality policy.

**Credit-Based Competency-Based Education (CBE) Late Assignments**

Credit-Based CBE competency assessments will be accepted up to two days after the course end date without a deduction.

**Credit-Based Competency-Based Education (CBE) Academic Program Re-Entry**

Any student in a Credit-Based CBE program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.

Credit-Based CBE students who meet this criteria for being considered a re-entry student are subject to all of the requirements for re-entry students as outlined in the University’s standard Academic Program Re-Entry policy.
CREDIT-BASED COMPETENCY-BASED EDUCATION (CBE) PROGRAMS

COLLEGE OF BUSINESS AND INFORMATION TECHNOLOGY

Master of Business Administration (Competency Based-CB)

The following Master of Business Administration (Competency Based-CB) (MBA-CB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Business Administration (MBA) program prepares students in the functional areas of business allowing them to develop managerial skills necessary to be effective in a rapidly changing business environment. The program is designed for students with an interest in entering or advancing their careers in business. The program reflects current research of leadership competencies as well as graduate business standards as reflected by existing international accreditation agencies. In addition to the University learning goals, the MBA program prepares students to do the following:

- Recognize and solve problems systematically to make better business decisions.
- Manage, develop, and motivate personnel to meet changing organizational needs. Discover how diversity and values strengthen working relationships and contribute to effective problem solving.
- Leverage technology in a global environment to create sustainable competitive advantage.
- Evaluate risks and develop plans to lessen or eliminate their impact.
- Develop awareness of one’s own personal values and how they affect business decision making.
- Assess whether an organization’s plans and actions are aligned to meet its values.
- Integrate knowledge and reach decisions with incomplete or limited information.
- Understand a broad range of theoretical and practical applications in business.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate decision-making skills to deliver organizational value in dynamic environments
- Create strategies for sustainable organizational success that integrates the organization’s mission and vision with societal values.
- Synthesize leadership skills to foster innovation and facilitate change in a dynamic business environment.
- Evaluate the global environment to sustain an organization’s competitive advantage.
- Integrate managerial skills to support strategic execution in a rapidly changing business environment.

MBA-CB Domains and Courses

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

All required domains, course clusters, and competencies must be completed at UOPX to be eligible for degree conferral.

Management and Leadership Skills, 9 total credits

- MGTB 526 ................................................................. 3 credits
- Managing in a Changing Environment
- ORGC 535 .............................................................. 3 credits
- People and Organizations
- LDRB 535 ........................................................................ 3 credits
- Leading Change

Business Functional Skills, 12 total credits

- ECOB 535 ........................................................................... 3 credits
- The Digital Economy
- ACCB 543 ........................................................................... 3 credits
- Managerial Accounting & Legal Aspects of Business
- FINC 571 ........................................................................... 3 credits
- Corporate Finance
- MKTCB 574 ........................................................................ 3 credits
- Marketing: Social, Mobile, and Analytics

Business Technical Skills, 6 total credits

- DATCB 565 ........................................................................... 3 credits
- Data Analysis and Business Analytics
- OPSCB 574 ........................................................................... 3 credits
- Creating Value Through Operations

Business Strategic Skills, 6 total credits

- MGTB 576 ........................................................................... 3 credits
- Opportunity Evaluation and Value Creation
- STRB 581 ........................................................................... 3 credits
- Strategic Planning & Implementation

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the MBA-CB

All applicants are expected to meet the following admission requirements:

• An undergraduate degree, or higher, in business or business management from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, or comparable undergraduate bachelor’s degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

• A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated in cumulative GPA for admissibility.

• Applicants must have three years of experience within the past ten years in a business environment.

• Signed Hardware/Software Agreement

Degree Completion Requirements for the MBA-CB

• A grade of Met (ME) or better is required for each competency in each course cluster.

• Completion of 33 credits consisting of 11 different course clusters.

• Successful completion of the Strategic Planning and Implementation Project.

• The diploma awarded for this program will read as: Master of Business Administration

Academic Progression Requirements for the MBA-CB

• Students are recommended to complete a Credit-Based Competency Based Education New Student Orientation prior to beginning work in their first group of Credit-Based CBE courses and will have access to this orientation throughout the duration of their first group of scheduled courses.

• Students may pursue any grouping of course clusters (excluding STRCB 581) without following a preferred sequence.

• Strategic Planning & Implementation (STRCB 581) may not be pursued until a student has satisfied at least 21 credits.

Minimum Grade Requirements for the MBA-CB

A grade of Met (ME) or better is required for each competency in each course cluster.

Students will be placed on Scholastic Probation (SP) program academic status if a grade of NM is earned in a course. If a student repeats a course due to receiving a NM grade and receives a grade of NM on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program. Scholastic Suspension student academic status will be effective as of the latest course end date of any courses the student is concurrently enrolled in at the time the NM grade posts in the repeated course. Students who have been placed on SP status:

• must retake the course to be repeated at the earliest available scheduling opportunity

• may not transfer to another CBE program without an approved SAC appeal, or until they have fulfilled the requirements for progression.

Residency Requirements and Assessment Attempts for the MBA-CB

• All required domains, courses, and competencies must be completed at UOPX to be eligible for degree conferral.

• Students will have a maximum of three attempts to pass the final assessment for each competency. The first two attempts may be taken by the student after a discussion with the faculty mentor.

• Prior to a third attempt at passing the assessment, the student must complete a remediation plan and receive formal approval of the faculty mentor.

Re-entry for the MBA-CB

• Any student in a Credit-Based CBE program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.

Credit-Based CBE students who meet this criteria for being considered a re-entry student are subject to all of the requirements for re-entry students as outlined in the University’s standard Academic Program Re-Entry policy.

Master of Information Systems (Competency Based-CB)

The following Master of Information Systems (Competency Based-CB) (MIS-CB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Information Systems (MIS) program provides students with knowledge of how IT leads and supports businesses today. Graduate students learn key theories and principles for how to address real world business opportunities and challenges. Key concepts include how to lead IT development, projects and initiatives as well as addressing technical debt while managing IT operations and innovation.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Business and Information Technology graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

• Design information systems that addresses the needs of an organization and considers emerging technologies.

• Create an effective IT plan required for key roles, resources, operational metrics, and risk responses needed to maintain information systems within an organization.

• Develop methods to drive innovation and change management to support growth within an organization.
MIS-CB Domains and Courses

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

All required domains, courses, and associated competencies must be completed at UOPX to be eligible for degree conferral.

IT Systems Architecture, 12 total credits
- CMGTCB 554 ................................................................. 3 credits
- IT Infrastructure
- CMGTCB 555 ................................................................. 3 credits
- Systems Analysis and Development
- CMGTCB 556 ................................................................. 3 credits
- Enterprise Models
- BSACB 531 ................................................................. 3 credits
- IT Architecture in the Age of Cloud

IT Leadership and Management, 12 total credits
- CMGTCB 545 ................................................................. 3 credits
- Influence and Leadership in Technology
- CMGTCB 573 ................................................................. 3 credits
- CIS Project Management
- CMGTCB 558 ................................................................. 3 credits
- Strategic Management of Technology and Innovation
- CMGTCB 578 ................................................................. 3 credits
- CIS Strategic Planning

IT Security and Integration, 12 total credits
- CMGTCB 582 ................................................................. 3 credits
- Security and Ethics
- DATCB 565 ................................................................. 3 credits
- Data Analysis and Business Analytics
- CMGTCB 559 ................................................................. 3 credits
- Managing Risk and Security vs. Opportunity
- CMGTCB 583 ~ ................................................................. 3 credits
- IS Integration

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MIS-CB

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree, or higher, in business, computer science, information technology, or a related field (cybersecurity, engineering, etc.) from a regionally or approved nationally accredited, or candidate for accreditation, college or university or comparable undergraduate bachelor’s degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated in cumulative GPA for admissibility.

- Applicants must have three years of experience within the past ten years in a business or information technology (IT)-related environment.

- Signed Hardware/Software Agreement

Degree Completion Requirements for the MIS-CB

- A grade of Met (ME) or better is required for all competencies in every course.
- Completion of 36 credits consisting of 12 different courses and associated competencies.
- Successful completion of the IS Integration Project.
- The diploma awarded for this program will read as: Master of Information Systems

Academic Progression Requirements for the MIS-CB

- Students are recommended to complete a Credit-Based Competency Based Education New Student Orientation prior to beginning work in their first group of Credit-Based CBE courses and will have access to this orientation throughout the duration of their first group of scheduled courses.
- Students may pursue any grouping of courses (excluding CMGTCB 583) without following a preferred sequence.
- IS Integration (CMGTCB 583) may not be pursued until a student has satisfied at least 21 credits.

Minimum Grade Requirements for the MIS-CB

A grade of Met (ME) or better is required for all competencies in every course.

Students will be placed on Scholastic Probation (SP) program academic status if a grade of NM is earned in a course. If a student repeats a course due to receiving a NM grade and receives a grade of NM on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program. Scholastic Suspension student academic status will be effective as of the latest course end date of any courses the student is concurrently enrolled in at the time the NM grade posts in the repeated course. Students who have been placed on SP status:

- must retake the course to be repeated at the earliest available scheduling opportunity
- may not transfer to another program or major without an approved SAC appeal, or until they have fulfilled the requirements for progression.
Residency Requirements and Assessment Attempts for the MIS-CB

- All required domains, courses, and associated competencies must be completed at UOPX to be eligible for degree conferral.
- Students will have a maximum of three attempts to pass the final assessment for each competency. The first two attempts may be taken by the student after a discussion with the faculty mentor.
- Prior to a third attempt at passing the assessment, the student must complete a remediation plan and receive formal approval of the faculty mentor.

Re-entry for the MIS-CB

- Any student in a Credit-Based CBE program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.

Credit-Based CBE students who meet this criteria for being considered a re-entry student are subject to all of the requirements for re-entry students as outlined in the University's standard Academic Program Re-Entry policy.
Master of Health Administration (Competency Based-CB)

The following Master of Health Administration (Competency Based-CB) (MHA-CB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Health Administration v004 provides leaders and aspiring leaders in the health sector with the insight and skills necessary to drive the future of healthcare by facilitating cross-system transformation and improving outcomes for patients, populations, and providers. The program's curriculum, built via close collaboration with industry and academic experts, anticipates emerging needs trends in the health sector. Areas of inquiry include industry and organizational dynamics in the health sector, visioning the future, forming strategic relationships, leading with authenticity in health care systems, creating a sustainable personal legacy, and transformation and execution in diverse health system contexts.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate industry and organizational dynamics in the healthcare environment.
- Generate core business strategies based on innovative concepts developed in the program.
- Construct strategic relationships with diverse stakeholders across the health sector to achieve business objectives with a current or desired employer.
- Develop a leadership identity that reflects traits required in complex healthcare environments.
- Produce a personal legacy that fosters investment in people and the community to drive the future of health care.
- Foster the ability to create and execute operational improvement plans that address transformation, communication, and execution elements within the sector.

MHA-CB Domains and Courses

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1). All required domains, courses, and associated competencies must be completed at UOPX to be eligible for degree conferral.

**Domain: Health Care Industry Analysis**

MHACB 505 ............................................................................. 3 credits
MHACB 506 ............................................................................. 3 credits

MHACB 530 ............................................................................. 3 credits
MHACB 540 ............................................................................. 3 credits
MHACB 550 ............................................................................. 3 credits
Additional Admission Requirements for the MHA-CB
All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for approved institutional accreditation, or comparable undergraduate bachelor's degree earned at a recognized foreign institution or a graduate degree from an ABA accredited institution (i.e. JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.

- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated in cumulative GPA for admissibility.

- Applicants must have three years of leadership or management experience within the past ten years in a healthcare environment. The experience must include oversight or management of staff.

- Signed Hardware/Software Agreement

Degree Completion Requirements for the MHA-CB

- A grade of Met (ME) or better is required for all competencies in every course.

- Completion of 36 credits consisting of 12 different courses and associated competencies.

- Successful completion of the Capstone Project.

- The diploma awarded for this program will read as: Master of Health Administration

Academic Progression Requirements for the MHA-CB

- Students are recommended to complete a Credit-Based Competency-Based Education New Student Orientation prior to beginning work in their first group of Credit-Based CBE courses and will have access to this orientation throughout the duration of their first group of scheduled courses.

- Students may pursue any grouping of courses (excluding MHACB 599) without following a preferred sequence.

- The Capstone (MHACB 599) may not be pursued until a student has satisfied at least 21 credits.

Minimum Grade Requirements for the MHA-CB

A grade of Met (ME) or better is required for all competencies in every course. Students will be placed on Scholastic Probation (SP) program academic status if a grade of NM is earned in a course. If a student repeats a course due to receiving a NM grade and receives a grade of NM on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program. Scholastic Suspension student academic status will be effective as of the latest course end date of any courses the student is concurrently enrolled in at the time the NM grade posts in the repeated course. Students who have been placed on SP status:

- must retake the course to be repeated at the earliest available scheduling opportunity

- may not transfer to another program or major without an approved SAC appeal, or until they have fulfilled the requirements for progression.

Residency Requirements and Assessment Attempts for the MHA-CB

- All required domains, courses, and associated competencies must be completed at UOPX to be eligible for degree conferral.

- Students will have a maximum of three attempts to pass the final assessment for each competency. The first two attempts may be taken by the student after a discussion with the faculty mentor.

- Prior to a third attempt at passing the assessment, the student must complete a remediation plan and receive formal approval of the faculty mentor.

Re-entry for the MHA-CB

- Any student in a Credit-Based CBE program is considered to be a re-entry student if no academically related activity has been posted for more than 365 days from their last recorded academically related activity.

- Credit-Based CBE students who meet this criteria for being considered a re-entry student are subject to all of the requirements for re-entry students as outlined in the University's standard Academic Program Re-Entry policy.
Bachelor of Science in Nursing (Competency Based-CB)

The following Bachelor of Science in Nursing (Competency Based-CB) (BSN-CB) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment advisor for more information.

The Bachelor of Science in Nursing (BSN-CB) is a competency based program designed to develop the professional knowledge and skills of registered nurses. The curriculum builds on a foundation of biological, physical, and social sciences, which contribute to the science of nursing. The liberal arts components enhance the development of the intellectual, social, and cultural aspects of the professional nurse. This baccalaureate program is a self-governed program and includes behavioral outcomes that concentrate on the development of the nurse's role as a researcher, practitioner, and leader. Using human caring and cultural competence as a framework, registered nurses are prepared as generalists who are able to apply critical thinking, professional skills, and knowledge to patient outcomes and health care system.

The baccalaureate degree program in nursing and master's degree program in nursing at University of Phoenix are accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Nursing graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Demonstrate evidence-based holistic patient-centered care that reflects knowledge of the health-illness continuum.
- Implement appropriate health promotion and disease prevention strategies for diverse individuals, families and populations across the life span.
- Demonstrate professional standards of moral, ethical, and legal conduct in healthcare industry.
- Apply leadership and organizational principles that promote safe health care delivery and nursing practice.
- Incorporate strategies that influence health policy at state, national, and international levels for the provision of safe, quality patient care.
- Integrate patient care communication and information technology systems in health care delivery to improve patient outcomes.
- Utilize interprofessional care coordination strategies to promote quality patient care.

Program Purpose

The Registered Nurse to Bachelor of Science in Nursing is a post-licensure education program designed for nurses with an active and unencumbered RN license who wish to obtain a bachelor's degree in the professional field of nursing. The program is designed to develop the professional knowledge and skills of registered nurses and prepare them as generalists who are able to apply critical thinking, professional skills and knowledge to make clinical decisions that will result in positive patient outcomes and support healthcare systems.

Domains and Courses for the BSN-CB

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

All required domains, 11 required course of study courses, and their associated competencies must be completed at UOPX to be eligible for degree conferral.

Professionalism, Generalist Nursing Practice and Information Management, 12 total credits

- NSGCB 302 ~ ................................................................. 3 credits
  Professional Contemporary Nursing Role and Practice
- NSGCB 416 ........................................................................ 3 credits
  Theoretical Development and Conceptual Frameworks
- HSNCB 376 ....................................................................... 3 credits
  Health Information Technology for Nursing
- NSGCB 451 ....................................................................... 3 credits
  Professional Nursing Leadership Perspectives

Research, Healthcare Policy, Finance, and Improving Outcomes, 12 total credits

- NSGCB 456 ....................................................................... 3 credits
  Research Outcomes Management for the Practicing Nurse
- NSGCB 426 ....................................................................... 3 credits
  Integrity in Practice: Ethic and Legal Considerations
- HSNCB 476 ....................................................................... 3 credits
  Healthcare Policy and Financial Management
- NSGCB 468 ....................................................................... 3 credits
  Influencing Quality within Healthcare

Population Health and Leadership, 9 total credits

- *NSGCB 486 ~ ................................................................. 3 credits
  Public Health: Health Promotion and Disease Prevention
- *NSGCB 482 ~ ................................................................. 3 credits
  Promoting Healthy Communities
- NSGCB 498 ~ ................................................................. 3 credits
  Senior Leadership Practicum

*Students residing in California are required to take NSGCB 486C and NSGCB 482C

- NSGCB 486C ~ (CA residents only) .................................. 3 credits
  Public Health: Health Promotion and Disease Prevention
- NSGCB 482C ~ (CA residents only) .................................. 3 credits
  Promoting Healthy Communities

The University reserves the right to modify the required course of study.
Additional Admission Requirements for the BSN-CB

All applicants are expected to meet the following admissions requirements:

- An Associate of Arts degree in Nursing, Associate of Applied Arts Degree with an emphasis in Nursing, an Associate of Science Degree with an emphasis in Nursing, or an Associate of Applied Science Degree with an emphasis in Nursing from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate degree earned at a recognized foreign institution. If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Upon admission to the program, applicants will be considered as satisfying their lower division elective, general education, and math and English proficiency requirements without any course content or timeframe restrictions. Official transcripts must be provided from institutions where the student completed most of their coursework (>75%) for their degree program.
- Applicants who reside in the United States or in one of the US Territories with documentation of a valid, unrestricted / unencumbered RN license in all states in which the applicant holds an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. Applicants from the following territories must hold an active nursing license. For applicants holding licenses in multiple jurisdictions, all active licenses must be valid, unrestricted / unencumbered through the duration of the program. If any RN license held by the student becomes restricted or encumbered, the student will be restricted from scheduling future courses and will be removed from any course they are currently attending.
- Students are recommended to complete a Credit-Based Academic Progression Requirements for the BSN-CB program.
- All students enrolling in the BSN program will take NSGCB 302 as part of their first block.
- Students cannot enroll into the Population Health and Leadership domain courses until they have successfully completed the Professionalism, Generalist Nursing Practice and Information Management and Research, Healthcare Policy, Finance, and Improving Outcomes domains.
- Any student who demonstrates behaviors in a clinical, classroom, or laboratory setting that gives rise to a reasonable suspicion, of substance abuse or otherwise indicates that the student may be impaired by drugs or alcohol, without reasonable justification will be required to undergo a “for-cause” 15 panel, plus alcohol drug test.
- The clinical courses in this program, NSGCB 482C and NSGCB 486C, may not be taken at the same time.

Minimum Grade Requirements for the BSN-CB

A grade of Met (ME) or better is required for all competencies in every course.

Students will be placed on Scholastic Probation (SP) program academic status if a NM grade is earned in a course. If a student repeats a course due to receiving a NM grade and receives a grade of NM on the second attempt, the student will be scholastically suspended, permanently withdrawn, from this program. Scholastic Suspension student academic status will be effective as of the course end date at the time the NM grade posts in the repeated course.

Students cannot repeat more than one nursing course. Students who fail to achieve the minimum grade requirement on a second course will be scholastically suspended, permanently withdrawn, from the Bachelor of Science in Nursing (Competency Based-CB) program.

Students who have been placed on SP status:

- must meet with the Program Chair, an assigned nursing faculty member, or designee to discuss the non-passing grade and resolve any concerns moving forward.
- must complete the academic progression student agreement form, signed by the student and returned to Program Chair, or designee.
- must retake the course which placed them on scholastic probation at the earliest available scheduling opportunity after completing the academic progression requirements above; students may be concurrently enrolled in other courses while completing the retake.

Degree Requirements for the BSN-CB

Completion of a minimum of 120 credits that include the following distribution:

- General Education: 47 credits
- Required Course of Study: 33 credits
- Lower Division Nursing: 40 credits
- Completion of 33 upper division credits consisting of 11 different courses and associated competencies.
- A maximum of 87 lower division credits
- A grade of Met (ME) or better is required for all competencies in every course.

The diploma awarded for this program will read as: Bachelor of Science in Nursing
may not transfer to another program without an approved SAC appeal, or until they have fulfilled the requirements for progression.

Residency Requirements and Assessment Attempts for the BSN-CB

- All required domains, 11 required course of study courses, and their associated competencies must be completed at UOPX to be eligible for degree conferral.
- Students will have a maximum of three attempts to pass the final assessment for each competency. The first two attempts may be taken by the student after a discussion with the faculty mentor.
- Prior to a third attempt at passing the assessment, the student must complete a remediation plan and receive formal approval of the faculty mentor.

General Education Requirements for the BSN-CB

A minimum of 47 of the 120 credits must be in the general education areas approved by the University. This general education requirement is satisfied through completion of the degree from an accredited institution that is required for admission to the program.

Communication Arts, 6 credits
Mathematics, 6 credits
Natural/Physical Sciences, 12 credits
Humanities, 6 credits
Social Science, 6 credits
Interdisciplinary Requirements, 11 credits

Re-entry for the BSN-CB

- Any student who has been out of attendance for more than 365 days from the last academically related activity in a program applicable course is considered a re-entry student.
- Re-entry students may re-enroll into their program version without appeal if they can complete their program within their program completion deadline, based on the maximum credit limit for their program level. Re-entry students will be able to return to their original modality only if their program version is still available in that modality.
- An appeal will be required for re-entry if:
  - The student is requesting to return after being administratively withdrawn due to one of the following student academic statuses: scholastic suspension (SS) or scholastic probation (SP).
  - The student cannot complete their program within their program completion deadline and the program is not yet expired. Appeals will be considered on the merit of the appeal in conjunction with the institution's ability to offer and confer a degree with relevant academic currency in the field of the student's original program of study.
- No appeals will be accepted for re-entry to an expired program.
THIS PAGE WAS LEFT BLANK INTENTIONALLY
Direct Assessment CBE Programs

University of Phoenix (UOPX) Direct Assessment CBE program offerings, like the University’s Credit-Based CBE programs, are designed to provide prepared students with an opportunity to pursue a degree at a more accelerated pace and with more flexibility than a traditional program offering, and to demonstrate mastery of competencies using competency assessments. Direct Assessment CBE program offerings differ from Credit-Based CBE program offerings at University of Phoenix in that assessments are designed in collaboration with faculty to determine whether a competency was Mastered, Met, or Not Met within a direct assessment framework adapted to each student's learning needs. This framework includes the use of knowledge checks to determine areas of strengths and opportunities with each course competency used to formulate a learning plan, and to demonstrate mastery of competencies using competency assessments.

Direct Assessment CBE Courses

Students pursue competencies in a Direct Assessment CBE program in a course structure, in which each course consists of multiple competencies. In order to complete a course in a Direct Assessment CBE program, students must demonstrate that they have met each competency within the course by completing a competency assessment with a grade of Met (ME) or Mastered (MA). Students are allowed three attempts at a competency assessment. Each competency within a course is worth one CU, which is the equivalent of one semester credit hour of learning as defined in the University’s Awarding Credit Hours policy for traditional courses. A typical Direct Assessment CBE course is worth 3 CUs, and therefore the equivalent of 3 semester credit hours. University of Phoenix has established a methodology to calculate this equivalency for Direct Assessment CBE programs according to the definitions of a credit hour, an academic year, a week of instructional time, and full-time enrollment status set forth by the US Department of Education.

Direct Assessment CBE program offerings are designated with ‘DA’ in the program ID (e.g., MBA-DA).

Competency Unit Calculation Methodology

University of Phoenix aligns discipline-specific competencies to both traditional and CBE program offerings. The University's programs address skills and competencies identified by the Bureau of Labor Statistics, industry councils, and employers as critical for students. Each credit hour earned in a traditional and Credit-Based CBE program is associated with one skill/competency, articulated through a course student learning outcome (CSLO) in a 1:1 ratio (one CSLO to one competency). The Direct Assessment CBE model at University of Phoenix has been designed in collaboration with faculty, direct assessment experts, and academic leadership to create a semester credit equivalency. In the Direct Assessment CBE model, one CU is equal to the amount of time a learner would spend on one semester credit in a traditional or Credit-Based CBE course at the University to demonstrate the competency. CSLOs in traditional and Credit-Based CBE courses are translated into CUs and aligned to corresponding CSLOs in a 1:1 ratio (e.g., a three-credit course has three competencies and three CSLOs). In the Direct Assessment CBE model, semester credit hours have been removed and the CSLO serves as the competency, with the amount of learner workload equivalent to one semester credit retained.

Academically Related Activities (ARAs) are used to determine academic engagement, and a student’s official last date of attendance and corresponding enrollment status at the University. ARAs are also used to determine the effective date of active and withdrawn enrollment statuses. The following activities that occur on or after the term start date and on or before the term end date will be considered ARAs by the University:

- Assessment and Assignment submissions via Brightspace in a course
- Knowledge Check submissions via Brightspace in a course
- Completion of an interactive tutorial, webinar, or other interactive computer-assisted instruction that is graded in a course, to include completion of any sections that are submitted to Brightspace to have points recorded (although these activities are graded, the overall grade for a course is determined solely by competency assessment outcomes).
- Student interactions with faculty regarding academic matters via the Course Questions or Advice forum in Brightspace.

Student emails originating from within Brightspace are not specific to a course, so will not be recorded as ARAs.
Direct Assessment CBE Term Enrollment

Direct Assessment Terms
Direct Assessment CBE programs are offered in four 12-week terms per calendar year, with term start and end dates established by the University. Students are scheduled for a minimum of 6 CUs in a term, unless they have fewer than 6 CUs remaining in their program (a typical single Direct Assessment course consists of 3 CUs). Students may not be scheduled for more than 12 CUs in a single term.

Students who had less than 12 CUs scheduled as of their term census date, who receive a final MA, ME, or NM grade in all of their original scheduled courses before week eight of the term, may add new courses as long as they do not exceed a maximum of 12 CUs on their schedule for the entire term. Adding courses is subject to course availability during the term, and students may not add a course that has already received a final grade during the same term.

Direct Assessment Term Enrollment Requirement and Census Date
Direct Assessment CBE students must complete at least one academically related activity in at least one scheduled course before day 15 of the term, which is designated as the census date for the term. The census date is the deadline in a term by which a student must confirm course enrollment by completing at least one academically related activity in any of their scheduled courses, and by dropping any scheduled courses they do not wish to pursue during the term.

As of the census date, students who have completed at least one academically related activity before the census date have met the term enrollment requirement, and have committed to, and will receive a grade (on their official transcript) for, all of the scheduled courses for the term that have not been dropped prior to the census date. Students who have not completed at least one academically related activity before the census date will be withdrawn from all scheduled courses for the term without receiving a grade.

Direct Assessment Academically Related Activities
An academically related activity in a Direct Assessment CBE program is recorded for submitted knowledge checks and post-assessments, and for all other online classroom activities outlined in the University’s Academically Related Activities policy.

Direct Assessment CBE Enrollment Status
The University recognizes the following enrollment statuses for Direct Assessment CBE students:

<table>
<thead>
<tr>
<th>Enrollment Status</th>
<th>Code</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active Full-Time</td>
<td>F</td>
<td>As of the term census date, the student is enrolled in at least 6 CUs for a current term, and has completed an academically related activity (ARA) before the census date. Students will be in Active Full Time Status on and after the census date of the term if they do not exceed 28 days of inactivity (as measured by recorded academically related activities) while there is at least one course in Enrolled (EN) course status.</td>
</tr>
<tr>
<td>Active Three-Quarter Time</td>
<td>Q</td>
<td>As of the term census date, the student is enrolled in 4-5 CUs for a current term, and has completed an academically related activity before the census date. Students will be in Active Three-Quarter Time Status on and after the census date of the term if they do not exceed 28 days of inactivity (as measured by recorded academically related activities) while there is at least one course in Enrolled (EN) course status. Students who add courses to their term on or after the census date will be updated to Active Full Time Status if the total number of CUs for the term resulting from the additional course(s) is at least 6.</td>
</tr>
</tbody>
</table>

2022-2023 Direct Assessment CBE Term Dates

<tr>
<td>Active Half Time</td>
<td>H</td>
<td>As of the term census date, the student is enrolled in 3 CUs for a current term, and has completed an academically related activity before the census date. Students will be in Active Half Time Status on and after the census date of the term if they do not exceed 28 days of inactivity (as measured by recorded academically related activities) while there is at least one course in Enrolled (EN) course status. Students who add one or more courses to their term on or after the census date will be updated to the applicable Active enrollment status based on the total number of CUs in which the student is enrolled for the term resulting from the additional course(s).</td>
<td></td>
</tr>
<tr>
<td>Active Less Than Half Time</td>
<td>L</td>
<td>As of the term census date, the student is enrolled in less than 3 CUs for a current term, and has completed an academically related activity before the census date. Students will be in Active Less Than Half Time Status on and after the census date of the term if they do not exceed 28 days of inactivity (as measured by recorded academically related activities) while there is at least one course in Enrolled (EN) course status. Students who add one or more courses to their term on or after the census date will be updated to the applicable Active enrollment status based on the total number of CUs in which the student is enrolled for the term resulting from the additional course(s).</td>
<td></td>
</tr>
<tr>
<td>Withdrawn</td>
<td>W</td>
<td>The student has been withdrawn from the University. Withdrawal can be unofficial, official, or administrative (see Direct Assessment CBE Withdrawal policy for detailed descriptions of all withdrawal scenarios and associated dates).</td>
<td></td>
</tr>
</tbody>
</table>
Direct Assessment CBE Evaluation of Transfer Activity

Students enrolled in a Direct Assessment CBE bachelor’s degree program may submit transfer coursework to be evaluated and applied to their general education and elective program requirements. Transfer coursework will be evaluated and applied based on University standards for applying transfer activity to credit-bearing program requirements as outlined in the University’s Evaluation of Transfer Activity policy. Acceptable credit-bearing activities will be applied to the Direct Assessment CBE program requirements as competency units (CUs).

Direct Assessment CBE Academic Engagement

Direct Assessment CBE students must show active engagement during each term by completing academic activities on a regular basis. Students who have no academically related activity recorded for 14 consecutive days will be notified of their inactivity and will be contacted by the University to provide support in resuming active engagement in their courses. Students who have no academically related activity recorded for 28 consecutive days during a term will be withdrawn from, and will receive a W grade for, each course that has not been completed at the time of withdrawal.

Direct Assessment CBE Grades

Faculty will issue grades for Direct Assessment CBE courses as they are completed by students throughout a term, after the census date has passed. Students who have an academically related activity recorded in any course before the term census date will receive a final grade of MA, ME, NM, or W for each course in which they are enrolled for the term.

Direct Assessment CBE Grade Definitions:

**MA = MASTERED.** A grade of MA is given for performance of demonstrated competency that exceeds course expectations as defined for course competencies. A grade of MA is equivalent to an A and 4.0 quality points in the University’s traditional course grading scale. Students must achieve a grade of MA for all required competency assessments to be issued a grade of MA for a course and be awarded CUs.

**ME = MET.** A grade of ME is given for performance of demonstrated competency that meets course expectations as defined for course competencies. To demonstrate competency a student must meet a standard of above average work (average work being represented by a grade of ‘C’ in the University’s traditional course grading scale). A grade of ME at the graduate level is equivalent to a B and 3.0 quality points in the University’s traditional course grading scale. Students must achieve a minimum grade of ME on all competency assessments to be issued a grade of ME for the course and be awarded CUs.

**NM = NOT MET.** A grade of NM is given when students either exhaust all allowed attempts at any one competency without a passing grade or have not received a passing grade in all competencies in a course by the end of the term.

<table>
<thead>
<tr>
<th>Status</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>EN (Enrolled)</td>
<td>EN status is applied to all courses in the term once a student has completed an academically related activity in at least one course before the census date of the term. Students will remain in EN status if they are academically engaged during the term (i.e., have not gone 28 days without an academically related activity), and have not yet completed the course.</td>
</tr>
<tr>
<td>OB (Obsolete)</td>
<td>Student has been scheduled for a course that has been retired and that will no longer be offered by the University</td>
</tr>
<tr>
<td>SC (Scheduled)</td>
<td>Student has been scheduled for a course, but has no academically related activity recorded in any course for the term, and the term census date has not passed</td>
</tr>
<tr>
<td>TA (Enrollment or Engagement requirements not met)</td>
<td>TA status is applied to all courses in the term when a student has no academically related activity in any course prior to the term census date, or has no academically related activity in any course for 28 days during the term. Students are removed from all courses that are in TA status.</td>
</tr>
<tr>
<td>WI (Withdrawn for Admissions)</td>
<td>Student has not been officially evaluated or student has been removed from admissions (AM) status after completing five courses</td>
</tr>
<tr>
<td>WO (Waived with CUs)</td>
<td>The Office of Admissions and Evaluation or the Registrar’s Office has processed a waiver</td>
</tr>
<tr>
<td>WP (Withdrawn for Prerequisite)</td>
<td>Student has failed to meet the course or program prerequisite requirement</td>
</tr>
<tr>
<td>WV (Exemption)</td>
<td>Course has been waived without CUs</td>
</tr>
</tbody>
</table>
**W = WITHDRAWAL.** A grade of W is given when a student has at least one academically related activity recorded in at least one course before the term census date, and was withdrawn from a course on or after the census date due to any of the following reasons:

- Student failed to meet the academic engagement requirement (had no academically related activity in any course in the term for 28 consecutive days) before completing the course
- Student requested to drop the course prior to the start of week 11 of the term
- Student has been administratively withdrawn from the University and/or program during the term

**DC = DROPPED COURSE.** A grade of DC is given when a student has at least one academically related activity recorded in the course, but requests to drop the course prior to the term census date. DC grades are not recorded on official transcripts.

### Direct Assessment CBE Academic Standing

The University recognizes the following Program Academic statuses for students in a Direct Assessment CBE program.

**Regular (RG)** - Student is in compliance with applicable academic standing and program progression requirements.

**Progression Warning (PW)** - Students will be placed in PW program academic status if a minimum of 6 CUs is not successfully completed in a term (a typical single Direct Assessment CBE course consists of 3 CUs). If a student fails to successfully complete a minimum of 6 CUs in a second consecutive term, the student will be scholastically suspended and withdrawn from the program, and must appeal to return.

Students who have fewer than 6 CUs remaining in their program will not be required to complete 6 CUs in their term in order to maintain RG program academic status, but students in this scenario will be placed in PW status if they fail to successfully complete the course(s) they are scheduled for by the term end date.

Students in PW status may not transfer to another program or major without an approved SAC appeal, or until they have fulfilled the requirements for progression and are restored to RG program academic status.

The University recognizes the following Student Academic statuses for students in a Direct Assessment CBE program.

**Regular (RG)** - Student is in compliance with applicable academic standing and progression program requirements.

**Scholastic Suspension (SS)** - SS status results when a student is suspended indefinitely from the University for failing to successfully complete at least 6 CUs per term, for two consecutive terms. Direct Assessment CBE students may also be suspended for a designated period or indefinitely from the University for violations of the Student Code of Conduct or (if applicable to their program) the Supplemental and Professional Standards. The student will be administratively withdrawn and the University will note the dates of suspension on the permanent transcript. Direct Assessment CBE students placed in SS status due to failure to complete at least 6 CUs for two consecutive terms may appeal to return to their program, or to transfer to another program. No appeals will be accepted for students to return to their Direct Assessment CBE program who have been scholastically suspended from the program a second time.

**Expulsion (EX)** - results when a student is administratively withdrawn from the University and not permitted to return under any circumstance. The date of expulsion is noted on the official transcript.

Students must fulfill the requirements of each status on their record (i.e., admission, program academic, and student academic), regardless of what combination of statuses have been applied.

### Direct Assessment CBE Program Changes

Students in a Direct Assessment CBE program may change programs, including into a Credit-Based CBE or a traditional program. However, students who have completed an academically related activity in their term are not permitted to change programs until the term end date.

Students are not permitted to change from a Credit-Based CBE or a traditional program into a Direct Assessment CBE program. Students in a Direct Assessment CBE program cannot be dual enrolled in any other program.
Direct Assessment CBE Academic Program Re-Entry

A student in a Direct Assessment CBE program is considered to be a reentry student if no academically related activity has been recorded for more than 365 days from the end date of the last term in which the student met the Term Enrollment Requirement. All other policies and procedures outlined in the University’s Academic Program Re-Entry policy apply to Direct Assessment CBE students.

Direct Assessment CBE University Withdrawal

The University’s Withdrawal Policy for Direct Assessment CBE students addresses a student’s separation from the University and is applicable to all Direct Assessment CBE students. Students may be officially, unofficially or administratively withdrawn. When a student is withdrawn, the University records both a withdrawal effective date and a date of determination (the date when the University determined that the criteria for withdrawal was met).

1. Official Withdrawal: Direct Assessment CBE students who provide official notification of the intent to withdraw from the University are considered official withdrawals (OW). The withdrawal date and the date of determination (DOD) for students who officially withdraw from the University are the latter of the last date of an academically related activity (ARA) determined from University records or the date the student indicated in their notification to the University of his/her official withdrawal.

2. Unofficial Withdrawal: Direct Assessment CBE students who do not provide official notification to the University of their intent to withdraw, and who meet any of the criteria below, are considered unofficial withdrawals (UW):

- Student does not have an ARA recorded for any period of 28 consecutive days during a term, while there are still courses that have not been completed with a final grade. The withdrawal date is the date of the last recorded ARA and the DOD is the 29th day after the last recorded ARA.

- Student has completed a term, and does not have an ARA recorded prior to the census date of the next consecutive term. The withdrawal date is the last day of the previous term and the DOD is the census date of that term (i.e., the term in which there was no ARA recorded).

- Student has completed a term, has an ARA recorded prior to the census date of the next consecutive term, but has dropped all of their courses prior to the census date of that term. The withdrawal date is the last day of the previous term and the DOD is the census date of the term in which the student dropped all of their courses.

3. Administrative Withdrawal: Direct Assessment CBE students who are withdrawn from the University for failing to meet admission, academic, candidacy, financial, or code of conduct policies are considered administrative withdrawals (AW). The DOD for students who are AW from the University is the date the University decides to administratively withdraw the student. When the DOD is prior to the census date of a term, the withdrawal date is the last day of the previous term. When the DOD is on or after the census date of a term, the withdrawal date is the date of the last recorded ARA.

Direct Assessment CBE Maximum Competency Unit Limits

The University has identified the maximum number of Competency Units (CUs) a student may complete during a 12-month period. This limit is determined based on the student’s actual start date in their program at University of Phoenix (UOPX). The number of CUs completed within a 12-month period is limited by the program level of study the student is actively pursuing.

- Undergraduate students may complete a maximum of 48 UOPX CUs in a 12-month period.
- Graduate students may complete a maximum of 39 UOPX graduate CUs in a 12-month period.

Direct Assessment CBE Program Completion Deadlines

Program completion deadlines for students in Direct Assessment CBE programs are calculated based on the start date of the first term in which a student met the term enrollment requirement, after their enrollment agreement sign date for their program. Students whose program completion deadline falls during a term in which their final program-applicable courses are scheduled, will still be considered to have completed their program within the completion deadline if those courses, and all other degree requirements, are successfully completed by the end date of that term. Students who change from one Direct Assessment CBE program to another Direct Assessment CBE program will have a new program completion deadline calculated based on the term start date for the first term in which they meet the term enrollment requirement after their enrollment agreement sign date in the new program.

- Students who meet the term enrollment requirement, change their program, and then revert back to their prior program version, will be held to their original program completion deadline for that program version.

All other policies in the University’s general Program Completion Deadlines policy apply to Direct Assessment CBE students.

Direct Assessment CBE Official Transcripts

Official transcripts will include Direct Assessment CBE grades and competency units (CUs) earned. Direct Assessment CBE transcripts do not include semester credits, quality points, or GPA since these are not relevant to Direct Assessment CBE courses or programs.
Direct Assessment CBE Refund Policy

The following tuition refund policy provisions pertain to Direct Assessment CBE programs as applied by the University, unless specifically stated otherwise.

- Students who withdraw from all course(s) prior to the term start date will receive a 100% refund of the cost for the term.
- Students who do not have at least one academically related activity (ARA) recorded in at least one course within the first 14 days of the term will be dropped from all courses as of the 15th day (census date) of the term and receive a 100% refund of the cost for the term.
- Students who have met the term enrollment requirement by having at least one ARA recorded in at least one course within the first 14 days of the term must proactively request withdrawal from all courses prior to day 15 (census date) to receive a 100% refund of the cost for the term.
- Students enrolled in one or more courses, who have met the term enrollment requirement as of the 15th day (census date) of the term, will be responsible for the full cost of the term.
- A student who has met the term enrollment requirement as of the 15th day (census date) of the term will be ineligible for a refund.

The Bachelor of Science in Health Management (Competency Based-DA)

The following Bachelor of Science in Health Management (Competency Based-DA) (BSHM-DA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Bachelor of Science in Health Management (BSHM) degree program is designed to develop the professional knowledge and skills of managers in a dynamic and evolving health care industry. Students who have existing credits from health-related programs will be prepared for management opportunities in the health care industry. The program focuses on providing knowledge and skills for strategic decision making, regulatory compliance, finance, and technology.

Note: This program is not eligible for Title IV Financial Aid.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Health Professions graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Evaluate financial strategies related to the management of health care organizations.
- Evaluate regulatory guidelines that impact the health care industry.
- Evaluate technology factors that impact the health care industry.
- Evaluate management principles and strategies within health care organizations.

Program Category Requirements Preferred Sequence and Prerequisites for the BSHM-DA

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

Health Care Electives, 12 total CUs

Health Care Business Communications, 3 total CUs

HCSDA 321 .................................................................3 CUs
Business Communication for Health Care Managers

Management, 12 total CUs

HCSDA 325 .................................................................3 CUs
Health Care Management

HCSDA 341 .................................................................3 CUs
Human Resources in Health Care

HCSDA 370 .................................................................3 CUs
Organizational Behavior

HCSDA 412 .................................................................3 CUs

Health Care Finance

Strategy, 3 total CUs

HCSDA 498 .................................................................3 CUs
Strategic Decision Making for Health Care Managers

The University reserves the right to modify the required course of study as necessary.

Additional Admission Requirements for the BSHM-DA

All applicants are expected to meet the following admissions requirements:

- Applicants must have a minimum of 30 program applicable college-level credits.
- Applicants must have three years of leadership experience in a healthcare related field.

Degree Requirements for the BSHM-DA

- Completion of a minimum of 120 Competency Units (CUs) that include the following distribution:
  - General Education - 45 CUs
  - Required Course of Study - 36 CUs
  - Health Care Electives - 12 CUs
  - Electives - 27 CUs
- A minimum of 36 upper division CUs.
- The diploma awarded for this program will read as: Bachelor of Science in Health Management
General Education Requirements for the BSHM-DA
A minimum of 45 of the 120 CUs must be in the general education areas approved by the University.

Communication Arts, 6 CUs
Must include: 3 CUs of College Composition

Mathematics, 6 CUs
Must include 6 CUs of quantitative reasoning or higher; or 6 CUs of statistics or higher.

Science and Technology, 6 CUs
Must include at least three (3) CUs in the physical or biological sciences

Humanities, 6 CUs
Must include: GENDA 201

Social Science, 6 CUs

Additional Liberal Arts, 6 CUs

Interdisciplinary Component, 9 CUs

Any CU or transfer credit that is not being applied to the primary major as a waiver may be applied to the lower division electives/Interdisciplinary requirement. Physical Education activity transfer credits are limited to four (4) CUs.

With the exception of GENDA 201, General Education and Elective course requirements may be satisfied using any of the following means:
- University of Phoenix Direct Assessment coursework
- Previously completed University of Phoenix credit-bearing coursework
- Activity that is acceptable in transfer to the University

Students who lack .67 or fewer general education CUs may use interdisciplinary or elective CUs to waive the balance. Students must use interdisciplinary or elective CUs or transfer credits to waive the general education balance in order to complete the minimum general education CUs required for their program.

Academic Progression Requirements for the BSHM-DA
- Students are recommended to complete Direct Assessment CBE New Student Orientation prior to beginning work in their first group of CBE courses and will have access to this orientation throughout the duration of their first group of scheduled courses.
- A grade of Met (ME) or better is required for all competencies within each course. An overall course grade of Met (ME) or better is required to earn CUs in each course.
- Students are required to be scheduled for GENDA/201 as part of the first term in their program.
- In addition to GENDA/201, students are required to complete 3 CUs of College Composition, which will contribute to fulfillment of the General Education requirements.
- Students must satisfy the proficiency requirements outlined in the University Proficiency Requirements policy.

- Progression Warning (PW): Students will be placed in PW program academic status if a minimum of 6 CUs is not successfully completed in a term (a typical single Direct Assessment CBE course consists of 3 CUs). If a student fails to successfully complete a minimum of 6 CUs in a second consecutive term, the student will be scholastically suspended and withdrawn from the program, and must appeal to return.

Students who have fewer than 6 CUs remaining in their program will not be required to complete 6 CUs in their term in order to maintain RG program academic status, but students in this scenario will be placed in PW status if they fail to successfully complete the course(s) they are scheduled for by the term end date.

- Students in PW status may not transfer to another program or major without an approved SAC appeal, or until they have fulfilled the requirements for progression and are restored to RG program academic status.

Residency Requirements and Course Waivers for the BSHM-DA
- All required course of study courses must be completed at UOPX to be eligible for degree conferral.
- The 12 CU Health Care Elective requirement is not included in the required course of study and may be satisfied by any of the following means:
  - Any upper and/or lower division UOPX Health Care Direct Assessment coursework.
  - Any lower division, upper division or graduate Health Care transfer coursework that is acceptable for transfer and was completed within the past ten (10) years from current program enrollment agreement sign date with a grade of C- or better.
  - Lower or upper division Health Care National Testing Program exams that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.
  - Lower or upper division Health Care American Council on Education recommended (Military) credits that are acceptable for transfer and were completed within the past ten (10) years from current program enrollment agreement sign date.

Re-entry for the BSHM-DA
- A student in a Direct Assessment CBE program is considered to be a re-entry student if no academically related activity has been recorded for more than 365 days from the end date of the last term in which the student met the Term Enrollment Requirement. All other policies and procedures outlined in the University’s Academic Program Re-Entry policy apply to Direct Assessment CBE students.
Master of Science in Psychology (Competency Based-DA)

The following Master of Science in Psychology (Competency Based-DA) (MSP-DA) program is offered at these University of Phoenix campus locations: Online, depending on state of residency. The availability of programs depend on student demand and other factors. Not all programs may be available to all residents of all states. Please contact your enrollment representative for more information.

The Master of Psychology program focuses on the general rather than clinical psychological study of individuals, applied to various industries and settings such as business, government services, social services, and education. The program will provide individuals with an understanding of the cognitive and affective processes that underlie the individual human experience and behavior; research methodologies by which this knowledge is acquired; critical thinking and problem solving necessary to evaluate behavior; and the application of theoretical principles.

Note: This program is not eligible for Title IV Financial Aid.

Program Student Learning Outcomes

In addition to the knowledge and skills related to the University Learning Goals, College of Social and Behavioral Sciences graduating students are intended to attain certain program-specific knowledge, skills and abilities. Therefore, you should be able to demonstrate the following learning outcomes by the time you complete this program.

- Integrate psychological principles and practice in the context of human interactions.
- Assess the implications of psychological research on the human experience.
- Evaluate professional considerations related to ethics and diversity.
- Synthesize appropriate tactics for personal and professional communication in psychology.

Program Purpose

The Master of Science in Psychology is an educational degree program that provides a foundation of knowledge in the field of psychology. This program does not prepare students for any type of professional certification or licensure as a psychologist.

Preferred Sequence and Prerequisites for the MSP-DA

Courses requiring prerequisites are identified by a ~ symbol following the course number. Course descriptions for all courses are listed in the Course Guide section of the catalog (page B-1).

- PSYDA 599 ................................................................. 3 CUs Foundations of Graduate Study in Psychology
- PSYDA 600 ................................................................. 3 CUs Developmental Psychology
- PSYDA 643 ................................................................. 3 CUs Personality Theories
- PSYDA 614 ................................................................. 3 CUs Social Psychology
- PSYDA 620 ................................................................. 3 CUs Multicultural and Social Issues in Psychology
- PSYDA 634 ................................................................. 3 CUs Biological Basis of Behavior
- PSYDA 644 ................................................................. 3 CUs Psychology of Learning and Cognition
- PSYDA 660 ................................................................. 3 CUs Ethics and Professional Issues
- PSYDA 664 ................................................................. 3 CUs Research Methods and Statistics in Psychology
- PSYDA 655 ................................................................. 3 CUs Psychometrics
- PSYDA 650 ................................................................. 3 CUs Psychopathology
- PSYDA 694 ~ .............................................................. 3 CUs Specialty Areas in Applied Psychology

The University reserves the right to modify the required course of study.

Additional Admission Requirements for the MSP-DA

All applicants are expected to meet the following admissions requirements:

- An undergraduate degree or higher from a college or university with approved institutional accreditation, or that is a candidate for accreditation, or comparable undergraduate bachelor's degree or higher earned at a recognized foreign institution or a graduate degree or higher from an ABA accredited institution (i.e.- JD, LLB, LLM). If the institution became accredited while the student was attending, a minimum of 75% of the coursework taken toward the degree must have been completed while the institution was accredited or during the candidacy period.
- Applicants must have three years of work experience within the past ten years.
- A cumulative GPA of 2.5 for all coursework listed on the degree posted transcript at the same level as the conferred degree (i.e., undergraduate, graduate, or doctoral) is required for admission. Transfer coursework that was earned outside of the institution that conferred the degree will not be calculated into the cumulative GPA for admissibility.

Degree Requirements for the MSP-DA

- Completion of all courses in the Required Course of Study (36 graduate Competency Unit (CUs)).
- The diploma awarded for this program will read as: Master of Science in Psychology
Academic Progression Requirements for the MSP-DA

- Students are recommended to complete a Direct Assessment Competency-Based Education (CBE) New Student Orientation prior to the start of their first term, and will have access to this orientation throughout the duration of their first term.
- A grade of Met (ME) or better is required for all competencies within each course. An overall course grade of Met (ME) or better is required to earn CUs in each course.
- **Progression Warning (PW):** Students will be placed in PW program academic status if a minimum of 6 CUs is not successfully completed in a term (a typical single Direct Assessment CBE course consists of 3 CUs). If a student fails to successfully complete a minimum of 6 CUs in a second consecutive term, the student will be scholastically suspended from the program and must appeal to return.

Students who have fewer than 6 CUs remaining in their program will not be required to complete 6 CUs in their term in order to maintain RG program academic status, but students in this scenario will be placed in PW status if they fail to successfully complete the course(s) they are scheduled for by the term end date.

- Students in PW status may not transfer to another program or major without an approved SAC appeal, or until they have fulfilled the requirements for progression and are restored to RG program academic status.

Residency Requirements and Course Waivers for the MSP-DA

- All required courses must be completed at UOPX to be eligible for degree conferral.

Re-entry for the MSP-DA

- A student in a Direct Assessment CBE program is considered to be a re-entry student if no academically related activity has been recorded for more than 365 days from the end date of the last term in which the student met the Term Enrollment Requirement. All other policies and procedures outlined in the University's Academic Program Re-Entry policy apply to Direct Assessment CBE students.
TUITION AND FEES - ONLINE RATES

Tuition and fees are listed in the price tables in the ensuing pages, and are divided into two categories: Credit-Based Offerings, and Direct Assessment Competency-Based Education (CBE-DA) Offerings.

Tuition charged for credit-based offerings can vary based on whether a student is considered "new" or "continuing" for purposes of tuition and fees.

NEW STUDENTS (CREDIT-BASED PROGRAMS)

New Students enrolled on or after 1/17/2018, who meet one of the following criteria as of 1/17/2018, will be charged the rates listed in the “Standard Tuition Cost Per Credit” column of the New Students table above, and students in this category will be given a guarantee of these tuition rates until their program completion deadline, unless they change programs or program versions: 1) individuals enrolling at University of Phoenix who do not have any positive attendance in any degree or credit-bearing certificate program course at the University, 2) University of Phoenix students who have graduated (degree/certificate conferred) from a University of Phoenix degree or credit-bearing certificate (not an en-route certificate) and are enrolling in a new program, and have not attempted any other program, with positive attendance (i.e. “Y” posted), since graduating from the previous program, 3) students returning to a University of Phoenix program after having no positive attendance (“Y” posted) in any degree or credit-bearing-certificate program course for longer than 365 days from the last positive attendance (“Y” posted), 4) University of Phoenix students who are changing from a bachelor or master degree program (from which they have not graduated) to another program at a higher degree level (e.g., bachelor to master, master to doctoral), or 5) University of Phoenix students who met any of the preceding New Student criteria on or after 1/17/2018, who subsequently change from a program (from which they have not graduated) to another program at any level, and who have at least one recorded positive attendance (“Y” posted) within 365 days of the last recorded positive attendance (“Y” posted).

CONTINUING STUDENTS (CREDIT-BASED PROGRAMS)

All Continuing Students as of 2/16/2018, (who meet one of the criteria 1-4 listed below) will be charged the same tuition rates listed in the Continuing Students table above and will be given a guarantee of these tuition rates until their program completion deadline, unless they change programs or program versions, EXCEPT those continuing students who fall into any of the following exception categories:

a) Continuing Students who have chosen to opt out of the “Continuing Students Effective 2/16/2018” tuition rates

b) Continuing Students who are actively receiving and part of any of the following tuition reduction agreements, that were entered into prior to 1/17/2018, and who have chosen to remain with their tuition agreement rate: the Phoenix Scholarship Rewards Program (PSRP), the Phoenix Academic Achievers Scholarship (PAAS), the PAAS for MBA, the Advancing Nurse Leadership Scholarship, the Non Degree Alumni Discount, and/or employer tuition reductions

c) Continuing Students who are participating in the Near Graduation Tuition Reduction program

All Continuing Students must meet one of the following criteria:

1) University of Phoenix students who have been pursuing a degree or credit-bearing-certificate program when the first positive attendance (“Y” posted) was prior to 1/17/2018, who have not been out of attendance (no positive attendance “Y” posted) within 365 days from the last recorded positive attendance (“Y” posted), 2) University of Phoenix students who are changing from a program (from which they have not graduated) to another at the same or lower level, who started the former program prior to 1/17/2018, and who have at least one recorded positive attendance (“Y” posted) within 365 days of the last recorded positive attendance (“Y” posted), 3) University of Phoenix students who are changing from an associate program (from which they have not graduated) to a bachelor program, who started the associate program prior to 1/17/2018, and who have at least one recorded positive attendance (“Y” posted) within 365 days of the last recorded positive attendance (“Y” posted), or 4) University of Phoenix students who are changing from a credit-bearing certificate program from which they have not graduated, or from an en-route credit-bearing certificate program from which they have graduated, to an associate or bachelor program, when the first positive attendance (“Y” posted) for the credit-bearing certificate program was prior to 1/17/2018 and when there is positive attendance (“Y” posted) in the credit-bearing certificate program within 365 days of enrollment in the associate or bachelor program.

MILITARY

Students who are affiliated with the U.S. Armed Forces, as active-duty service members and family members of active duty and selected reserve will be charged the tuition rates listed in the ‘Military Cost Per Credit’ column of the table above.

ALUMNI

All alumni students who are applying to a new University of Phoenix bachelor program, undergraduate certificate program, or undergraduate non-degree single course; who have previously completed a degree program with University of Phoenix; whose account with the University is in good standing; and who didn’t earn the previous degree as an en-route credential; will be charged the tuition rates listed in the ‘Alumni Cost Per Credit’ column of the table above. Students in this category will be given a guarantee of these tuition rates until their program completion deadline, unless they change programs or program versions.
An “N/A” designation for a particular program/offering type means there is no applicable alumni rate for this category and the standard tuition rate applies.

ASSOCIATE TRANSFER‡

Students who are applying to a University of Phoenix bachelor's degree program for the first time and who have earned an associate's degree from another college or university with approved institutional accreditation, or who are concurrent enrollment program (CEP) cohort students completing their Associate Degree in Nursing (ADN) and Bachelor of Science in Nursing (BSN) simultaneously, will be charged the tuition rates listed in the 'Associate Transfer Cost Per Credit' column of the table above, effective as of the date the associate's degree is verified on an official transcript by the Office of Admissions and Evaluation (except for CEP cohort students, who are eligible while still completing their ADN). Students in this category will be given a guarantee of these tuition rates until their program completion deadline, unless they change programs or program versions.

An “N/A” designation for a particular program/offering type means there is no applicable associate transfer rate for this category and the standard tuition rate applies.

‡Students who receive a reduced tuition rate in one of the categories described above will not be eligible for any other tuition and/or fee reduction, waiver, benefit or offer. If a student wishes to use any other tuition and/or fee reduction, waiver, benefit or offer, it will only be applied to the University's standard tuition rate.

The two tuition pricing categories defined below are for tuition rates that were in effect prior to 2/16/2018, and which are now only applicable to Continuing Students who have chosen to remain on their tuition reduction program (listed in subsection 'b' in the Continuing Students section above), continuing students who are participating in the Near Graduation Tuition Reduction program (see subsection 'c' in the Continuing Students section above), or continuing students who have chosen to opt out of the "Continuing Students Effective 2/16/2018" tuition rates. The tuition rates for these categories are listed by program in the pricing table that follows these pricing category descriptions.

Continuing Students Enrolled Between 11/1/2016 and 1/16/2018: The rates and fees shown below are applicable to students who meet one of the following criteria: 1) individuals who enrolled at University of Phoenix between 11/1/2016 and 1/16/2018 who did not previously have any positive attendance (i.e. "Y" posted) in any degree or credit-bearing-certificate program course at the University, 2) University of Phoenix students who graduated (degree conferred) from a University of Phoenix degree program and subsequently enrolled in a new program between 11/1/2016 and 1/16/2018, and had not attempted any other program, with positive attendance (i.e. "Y" posted), since graduating from the previous program, 3) students who returned to a University of Phoenix program between 11/1/2016 and 1/16/2018 after having no positive attendance ("Y" posted) in any degree or credit-bearing-certificate program course for longer than 365 days from the last positive attendance ("Y" posted), or 4) University of Phoenix students who changed from a bachelor or master degree program (from which they had not graduated) to another program at a higher degree level (e.g., bachelor to master, master to doctoral) between 11/1/2016 and 1/16/2018.

Continuing Students Enrolled Prior to 11/1/2016: The rates and fees shown below are applicable to continuing students who meet one of the following criteria: 1) University of Phoenix students who have been pursuing a degree or credit-bearing-certificate program when the first positive attendance ("Y" posted) was prior to 11/1/2016, who have not been out of attendance (no positive attendance "Y" posted) within 365 days from the last recorded positive attendance ("Y" posted), 2) University of Phoenix students who are changing from a program (from which they have not graduated) to another at the same or lower level, who started the former program prior to 11/1/2016, and who have at least one recorded positive attendance ("Y" posted) within 365 days of the last recorded positive attendance ("Y" posted), 3) University of Phoenix students who are changing from an associate program (from which they have not graduated) to a bachelor program, who started the associate program prior to 11/1/2016, and who have at least one recorded positive attendance ("Y" posted) within 365 days of the last recorded positive attendance ("Y" posted), or 4) University of Phoenix students who are changing from a credit-bearing certificate program from which they have not graduated, or from an en-route credit-bearing certificate program from which they have graduated, to an associate or bachelor program, when the first positive attendance ("Y" posted) for the credit-bearing certificate program was prior to 11/1/2016 and when there is positive attendance ("Y" posted) in the credit-bearing certificate program within 365 days of enrollment in the associate or bachelor program.

| Additional Fees and Charges for Students Enrolled in Initial Teacher Licensure Programs | Ranges of possible amounts that could be charged to students for these services. The actual fee charged will depend on the services provider/location the student chooses to use (these charges are paid directly to the third party service provider and not to the University) |
| Certificate of Clearance | $ 132.50 - $162.50 | |
| TB Test                  | $ 0.00 - $50.00    | |
| CBEST Examination        | $ 41.00 - $102.00  | |
| CSET Examination         | $ 72.00 - $297.00  | |
| RICA                     | $ 57.00 - $171.00  | |

| Internship Supervision Fee | $ 300.00 | Student is responsible for the Internship Supervision Fee for each semester of supervised instruction (Spring and/or Fall) [effective 1/1/22 for CA]. Students will not be assessed a fee during the first semester as an approved intern |

| Portfolio Examination Fee | $ 300.00 | Amount charged for students who have their edTPA portfolios evaluated by Pearson. This charge is paid directly to Pearson and not to the University |

*Note: All fees are subject to change. Where applicable, sales tax will be added to fees, tuition and material payments.

++Esource fees are mandatory and encompass course electronic textbooks and materials, the University library, eBook collection, math labs, programming software, the Centers for Math and Writing Excellence, and PhoenixLink. In limited circumstances, some courses may require an additional textbook that is not covered by the eSource Fee. For a full listing of these University courses visit [https://www.phoenix.edu/courses/course-materials.html](https://www.phoenix.edu/courses/course-materials.html).

+++Effective 4/27/2020, upon confirmation of eligibility, undergraduate students using federally funded military tuition assistance (TA) benefits for a current, upcoming, or previously-completed (within the past 365 days) course will not be charged an eSource fee. Courses taken prior to 4/27/2020 are not eligible.

+++This fee represents the amount charged for students who choose to take a CLEP® or DSST exam administered at some University of Phoenix locations. Other charges may apply as charged by CLEP® and DSST that are not collected by the University.

*Note: All fees are subject to change. Where applicable, sales tax will be added to fees, tuition and material payments.

+  rEsource fees are mandatory and encompass course electronic textbooks and materials, the University library, eBook collection, math labs, programming software, the Centers for Math and Writing Excellence, and PhoenixLink. In limited circumstances, some courses may require an additional textbook that is not covered by the rEsource Fee. For a full listing of these University courses visit https://www.phoenix.edu/courses/course-materials.html.

++Effective 4/27/2020, upon confirmation of eligibility, undergraduate students using federally funded military tuition assistance (TA) benefits for a current, upcoming, or previously-completed (within the past 365 days) course will not be charged a rEsource fee. Courses taken prior to 4/27/2020 are not eligible.

+++This fee represents the amount charged for students who choose to take a CLEP® or DSST exam administered at some University of Phoenix locations. Other charges may apply as charged by CLEP® and DSST that are not collected by the University.
The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market, Suite 225, Sacramento, CA 95834, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Course Availability & Updates to Course Information

The courses listed in this section of the University of Phoenix Academic Catalog constitute all active credit-bearing University of Phoenix courses. Not all courses listed in this section are available at every University of Phoenix campus location, and not all courses listed in this section are available via the online instructional modality. This listing of courses is updated on the 1st of every month to reflect any changes to course information that occur up through the 15th of the previous month. Please contact a University representative for additional details about course availability and course information for a specific location or modality of instruction.

Course Descriptions

The course guide lists course descriptions and general course information. The information is presented in alphabetical order by course ID.
### COURSE DESCRIPTIONS

<table>
<thead>
<tr>
<th>Course ID</th>
<th>Course Title</th>
<th>Credits</th>
<th>Activity Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 290T</td>
<td>Principles of Accounting I</td>
<td>3</td>
<td>This course is an introduction to financial accounting with an emphasis on using financial data for decision making. The focus will be on the application of basic accounting concepts and principles in enterprise and small business transactions. Students will learn how to identify, measure and report economic events of an enterprise.</td>
</tr>
<tr>
<td>ACC 291T</td>
<td>Principles of Accounting II</td>
<td>3</td>
<td>This course takes an in-depth look at the key areas of the balance sheet mostly reviewed by management for decision making. Students will apply analytical methods used by management to assess the financial statements, and discuss management challenges and possible solutions for improvements. Areas of focus include receivables, plant assets, bonds, stocks, dividends and the statement of cash flows.</td>
</tr>
<tr>
<td>ACC 316T</td>
<td>QuickBooks</td>
<td>3</td>
<td>This course introduces accounting students to the use of accounting systems using QuickBooks. Topics include: QuickBooks basics, setting up a company, and the management of financial information.</td>
</tr>
<tr>
<td>ACC 326T</td>
<td>Managerial Accounting</td>
<td>3</td>
<td>This course provides an introduction to managerial accounting and covers various fundamental concepts relating to the accounting environment. Topics include: cost concepts and allocation, short-term and long-term financial assets, current and long-term liabilities, contributed capital, stock holder equity, and the analysis of financial statements.</td>
</tr>
<tr>
<td>ACC 349T</td>
<td>Cost Accounting</td>
<td>3</td>
<td>This course introduces cost terminology and flows, standard cost systems, relevant costing, budgeting, inventory control, capital asset selection, responsibility accounting, and performance measurement.</td>
</tr>
<tr>
<td>ACC 421T</td>
<td>Intermediate Financial Accounting I</td>
<td>3</td>
<td>This course examines the conceptual framework of accounting, cash vs. accrual accounting, the income statement and balance sheet, time value of money, cash, receivables, and inventory.</td>
</tr>
<tr>
<td>ACC 422T</td>
<td>Intermediate Financial Accounting II</td>
<td>3</td>
<td>This course examines accounting for property, plant and equipment, intangible assets, current liabilities and contingencies, long-term liabilities, contributed capital and retained earnings.</td>
</tr>
<tr>
<td>ACC 423T</td>
<td>Intermediate Financial Accounting III</td>
<td>3</td>
<td>This course examines dilutive securities and earnings per share, investments, revenue recognition, accounting for income taxes, leases, changes and errors, and the statement of cash flows.</td>
</tr>
<tr>
<td>ACC 455</td>
<td>Corporate Taxation</td>
<td>3</td>
<td>This course is a basic introduction to federal corporate taxation. The purpose is to familiarize the student with fundamental tax issues and provide the student with a general understanding of the history, laws, and policies of federal taxation.</td>
</tr>
<tr>
<td>ACC 456</td>
<td>Individual/Estate Taxation</td>
<td>3</td>
<td>This course is a basic introduction to federal individual and estate taxation. The purpose is to familiarize the student with fundamental tax issues and provide the student with a general understanding of the history, laws, and policies of federal taxation.</td>
</tr>
<tr>
<td>ACC 460</td>
<td>Government and Non-Profit Accounting</td>
<td>3</td>
<td>This course covers fund accounting, budget and control issues, revenue and expense recognition, and issues of reporting for both government and non-profit entities.</td>
</tr>
<tr>
<td>ACC 491</td>
<td>Contemporary Auditing I</td>
<td>3</td>
<td>This course is the first in a two-part series that deals with auditing a company’s financial reports, internal controls, and Electronic Data Processing (EDP) systems. Topics include auditing standards, evidence, audit planning and documentation, materiality and risk, internal control, statistical tools, and the overall audit plan and program.</td>
</tr>
<tr>
<td>ACC 492</td>
<td>Contemporary Auditing II</td>
<td>3</td>
<td>This course is the second in a two-part series that deals with auditing a company’s financial reports, internal controls, and Electronic Data Processing (EDP) systems. Topics include the personnel and payroll system, inventory, capital acquisition cycle, selected balance sheet and income statement accounts, audit reports, assurances and other services, professional ethics, and legal responsibilities.</td>
</tr>
<tr>
<td>Course Code</td>
<td>Course Title</td>
<td>Credits</td>
<td></td>
</tr>
<tr>
<td>-------------</td>
<td>--------------------------------------------</td>
<td>---------</td>
<td></td>
</tr>
<tr>
<td>ACC 497</td>
<td>Advanced Topics in Accounting Research</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course in accounting research provides students with an in-depth examination of the Generally Accepted Accounting Principles (GAAP) and acceptable alternative reporting practices. Through comprehensive case studies, students will develop the research application skills necessary to analyze and make decisions regarding accounting reporting dilemmas in for-profit and not-for-profit companies.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 537</td>
<td>Financial Accounting</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students are introduced to the basic concepts and methods of corporate financial statements commonly used by investors and other interested external parties. Topics include University of Phoenix tools, basic accounting concepts, financial statements, inventory and fixed assets, present value of bonds and stockholders’ equity, statement of cash flows, and error correction and accounting changes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 541</td>
<td>Accounting Theory &amp; Research</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students apply accounting research tools to current accounting issues. Other topics include research of accounting questions related to inventory, fixed assets, leases, derivative instruments, debt, contingencies, segment reporting, pensions, business combinations, consolidations, stockholder’s equity, and a program overview.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 542</td>
<td>Accounting Information Systems</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students examine the fundamentals of accounting systems design. Topics include business information systems, business processes and data flows, database concepts and tools, internal control and risks, auditing the information system, and using the information system to perform audit functions.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 543</td>
<td>Managerial Accounting &amp; Legal Aspects of Business</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students examine managerial accounting as part of the business’s accounting information system and legal aspects of the business enterprise. Topics include managerial accounting and capital budgeting; cost analysis; management planning and control; negotiable instruments; secured transactions; debtor-creditor relationships; property and insurance; and legal aspects of employment and environment.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 544</td>
<td>Internal Control Systems</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students gain a broad perspective of the control environment and the role it plays in attainment of financial and operational goals of the organization. Topics include an overview of the control environment, risk management, internal control systems, control activities for business functions, controls for information technology systems, and reporting on internal controls.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 545</td>
<td>Financial Reporting</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course prepares students to address concepts of financial reporting for roles as CPAs. Students learn important criteria for calculating capital changes, applying concepts of fixed assets and cost determination, and preparing consolidated financial statements. Other topics include the professional responsibilities of CPAs, deferred taxes, restructuring of troubled debt, and the intricacies of comprehensive income.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 546</td>
<td>Auditing</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students focus on the auditing practice performed by public accountants. Topics include the CPA profession and the auditor’s role, planning the audit, audit reporting and required communications, evaluating internal controls, audit programs for current assets and liabilities, and audit programs for other business cycles.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 547</td>
<td>Taxation</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students develop an understanding of the federal income tax law and its application to individuals, partnerships and corporations. Topics include tax entities, property transactions, calculating basis, gains and losses, alternative minimum tax, S corporations, and partnerships.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ACC 548</td>
<td>Not-for-Profit &amp; Government Accounting</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students receive an overview of the budgeting, accounting, financial reporting, and auditing required of government and not-for-profit organizations. Topics include the governmental accounting, accounting records in government, fund allocation, government-wide reporting, not-for-profit accounting, and governmental performance measures.</td>

<tr>
<td>ACC 556</td>
<td>Forensic Accounting</td>
<td>3</td>
<td>In this course, students are introduced to the conduct of fraud examinations, including a discussion of specific procedures used in forensic accounting examinations and the reasoning behind these procedures. Topics include an overview of fraud and abuse, forensic evidence, substantive procedures for cash outflow irregularities, substantive procedures for asset irregularities, financial statement fraud, and examination reporting.</td>
</tr>
<tr>
<td>ACCEB 543</td>
<td>Managerial Accounting and Legal Aspects of Business</td>
<td>3</td>
<td>This course, students examine managerial accounting as part of the business’s accounting information system and legal aspects of the business enterprise. Topics include managerial accounting and capital budgeting, cost analysis; management planning and control, negotiable instruments, secured transactions, debtor/creditor relationships, property and insurance, and legal aspects of employment and environment. Competency 13: The student will analyze key aspects of managerial accounting and capital budgeting to drive effective business decisions. Competency 14: The student will employ strategic decision-making methods to budget, track, analyze, and control business costs. Competency 15: The student will evaluate laws, regulations, and business risks associated with business operations.</td>
</tr>
<tr>
<td>ACCDA 543</td>
<td>Managerial Accounting and Legal Aspects of Business</td>
<td>3</td>
<td>This course, students examine managerial accounting as part of the business’s accounting information system and legal aspects of the business enterprise. Topics include managerial accounting and capital budgeting, cost analysis; management planning and control, negotiable instruments, secured transactions, debtor/creditor relationships, property and insurance, and legal aspects of employment and environment. - Analyze key aspects of managerial accounting and capital budgeting to drive effective business decisions. - Employ strategic decision-making methods to budget, track, analyze, and control business costs. - Evaluate laws, regulations, and business risks associated with business operations.</td>
</tr>
<tr>
<td>ADM 511</td>
<td>Personnel Administration for Educators</td>
<td>3</td>
<td>This course focuses on the responsibilities of educational administrators related to human resources. Participants examine three main components in human resources administration: utilization, development, and environment. Topics covered include selection, placement, induction, compensation, motivation, staff development, unionism, collective bargaining, and the legal aspects of personnel administration.</td>
</tr>
<tr>
<td>ADM 512</td>
<td>Leadership Strategies for Educators</td>
<td>3</td>
<td>This course is designed to guide participants in the practical application of current trends and strategies of school leadership and organizational culture. Participants explore the roles and responsibilities of leaders, including decision making, communication, collaboration, and conflict management. An emphasis is placed on responsiveness to legislation and the implementation of standards. Participants also explore ways to facilitate positive school change.</td>
</tr>
<tr>
<td>ADM 513</td>
<td>School Law for Educators</td>
<td>3</td>
<td>This course is designed to provide opportunities for participants to explore the practical application of public school law, including the origin and initial intent of the writers, while recognizing their administrative limitations. Participants examine the constitutional framework and amendments, court systems, and current legal issues, as well as the effect each has on the educational environment. Landmark cases are reviewed and analyzed to develop a cognitive base for legal principles and to improve the administrative management of a school.</td>
</tr>
<tr>
<td>ADM 514</td>
<td>School Finance for Educators</td>
<td>3</td>
<td>This course examines public educational funding and provides an overview for school leaders in the basic concepts of school finance. Topics include economic and social considerations for financing education adequately, equitable, and equally, as well as state and federal roles in education financing, school finance and litigation, finance procedures and practices, and the role of human resources in educational finance. Participants have the opportunity to experience the practical application of these concepts through various tasks, discussions, and scenarios addressing budget and finance issues, culminating in a project to develop their own school district financial plan and budget.</td>

</tbody>
</table>

This course examines the legal and ethical principles for an educational administrator. Participants will develop and refine the skills necessary to analyze and integrate constructive legal and ethical principles into their practice. Emphasis is placed on the understanding and history of law and ethics needed in the educational setting for a school administrator. Current issues for school administrators featured in this course include curriculum and instruction, assessment and accountability, attendance and truancy, laws and liability, hiring and evaluating, Internet usage, and school safety and security.

This course is designed to provide educational leaders with information and strategies for administering the legal requirements related to providing an inclusive education to students with special needs to determine effective programs and services. Participants receive a practical guide to the history, laws, and policies of special education, as well as the steps involved in the referral and evaluation processes from Response to Intervention (RTI) through the development of Individualized Education Programs (IEPs) and transition plans. Another focus addresses the roles, responsibilities, and relationships that parents/guardians and advocates have within processes to ensure appropriate services are provided to a diverse population. Budget management for special education programs is also examined.

This course is designed to provide an orientation to the primary components of the Master of Arts in Education/Administration and Supervision program. Students will be introduced to the program's progression and degree completion requirements. Field experiences, electronic resources, E-portfolios, benchmark assignments, and the administrative internship will be discussed.

This course provides students with an overview of educational leadership and with an understanding of the issues in educational leadership positions. Students analyze the various styles of leadership and explore how leadership enhances an educational environment. Students examine information on collaborative processes and on how educational leaders can create high performing teams.

This course examines principals' responsibilities related to supervision of curriculum, instruction, and assessment. Principal candidates study the relationships among supervision, curriculum design, national and state standards, and effective instructional practice for diverse learners. Candidates also review the types of assessments that school leaders must be familiar with, the use of assessments to measure and support student achievement, the continuous school improvement model, and the development of school improvement plans. In addition, candidates participate in field experiences related to curriculum, instruction, and assessment.

This course provides students with an overview of an administrator’s role in a wide array of special programs offered in public schools today. Candidates examine programs and services geared towards diverse student populations, including special education, English learners (EL), gifted education, Title I, alternative education, early childhood, career readiness, and school counseling programs. In addition, candidates learn about the importance of student and teacher leadership, as well as Response to Intervention (RTI) as a model for school improvement.

This course provides an overview for principal candidates in the basic concepts of school finance and facilities management. Topics include school funding and finance, legal and political issues of school funding, and the benefits of school funding. Principal candidates will also examine issues regarding facilities planning and management. Principal candidates will participate in field experiences related to school finance and facilities management.

This course examines legal and ethical principles and practices in the context of the educational setting. The legal framework, laws, liability, curriculum, attendance, religion, and school safety are all discussed, analyzed, and applied to current educational practices.

<tbody>
<tr>
<td>ADMIN 560</td>
<td>Human Resources Leadership and Management</td>
<td>3</td>
<td>This course focuses on the responsibilities involved in human resources administration in education. Methods of recruitment, selection, induction, development, compensation, and appraisal are examined. In addition, the course analyzes strategic planning, employment continuity, employment justice including laws, policies and procedures, and unionism.</td>
</tr>
<tr>
<td>ADMIN 565</td>
<td>School Improvement Processes</td>
<td>3</td>
<td>This course focuses on the use of assessments in K-12 education and their role in developing school improvement plans from a principal’s perspective. Candidates review the types of assessments that a school leader needs to be familiar with, the data they generate, and how to interpret the data for decision-making purposes. In addition, the instructional improvement model and the process of continuous school improvement are explored.</td>
</tr>
<tr>
<td>ADMIN 570</td>
<td>Equity, Diversity, and Access in Education</td>
<td>3</td>
<td>This course provides candidates the opportunity to examine and to reflect upon equity, diversity, and access in education. In particular, the course focuses on the potential for contributions of students, families, teachers, and staff through equitable participation in school practices, programs, and curriculum. Candidates examine their personal beliefs, as well as issues regarding equity, diversity, and access, in the context of leadership.</td>
</tr>
<tr>
<td>ADMIN 575</td>
<td>Family, Community, and Media Relations</td>
<td>3</td>
<td>This course focuses on the role of the school principal as a catalyst in developing and maintaining relationships with families, business and community groups, and the media to support a school’s vision and programs. Candidates examine the importance of public relations, effective communication practices, and strategies for identifying a community’s resources, interests, and needs. Candidates will also analyze ethical considerations for working with external stakeholders, establishing effective media relations, and building business partnerships to benefit their school and community. In addition, candidates plan a social action project that involves school, families, community, and the media.</td>
</tr>
<tr>
<td>ADMIN 591A</td>
<td>Principal Internship Part I: Instructional Leadership</td>
<td>1</td>
<td>This internship experience provides comprehensive field-based training designed to develop competencies needed by school principals with an emphasis on instructional leadership. Application of all principles and techniques of planning and managing curriculum and instruction, accountability systems, leadership, problem solving, and organizing will be addressed.</td>
</tr>
<tr>

This course prepares graduate students to apply marketing principles to the roles they play as trainers and adult educators. Topics include the following: marketing basics, obtaining buy-in, market research, marketing strategies, communications, negotiation, and advocacy in education.

Learners focus on facilitating change by transforming theory into application using effective researched-based methods related to global influences of change, change management, and the analysis of human capital. In addition, learners explore various change management strategies and the use of skill sets that include being objective, using analysis, and using active listening when dealing with organizational change. Learners demonstrate an understanding of how to apply skills that are used by effective leaders and trainers to develop and conduct training sessions that lead the change process.

Learners are introduced to the use of social media tools and resources that support professional learning in the 21st century. Learners explore a variety of social media tools for individual and collaborative learning, including development of a personal learning network. In addition, learners examine leading responsible social media usage and the future of social media for professional learning.

Learners examine a leader’s role in developing and managing adult education within an organization. Learners define the organization’s learning needs from a systems perspective, review the leader’s role in management of multicultural training, and understand return on investment methodologies. In addition, learners review topics about networking and partnerships for successful learning, and identifying future trends in training and program development.

This course provides new graduate students in the college with an introduction to strategies for success within the university’s adult learning model. Students will learn program standards and objectives, graduate-level oral and written communication, collaboration, as well as locating, evaluating, and citing scholarly resources in the criminal justice and security disciplines.

This foundational course introduces the philosophies and relationships between policing, the court systems, corrections, and private security. Students will learn about public safety organizations and private sector organizations.

This is an advanced course in theories and crime causation, including classical, biological, psychological, sociological, and social-psychological approaches. Victimology, to include victimization statistics, victimogenesis, and the prevention of victimization, is included.

This advanced course focuses on theories of criminology, crime causation and victimization to include classical, biological, psychological, and sociological theories. Prevention strategies and victimogenesis considerations are addressed. Risk mitigation theories and application principles will also be surveyed as they relate to criminological theories.

This course provides an overview of the nature of criminal activity that is facilitated through, or that targets, information systems. The course also reviews security measures that are designed to protect the software, hardware, and data associated with information systems.

This course provides an overview of the nature of criminal activity that is facilitated through, or that targets, information systems. The course also reviews security measures that are designed to protect the software, hardware, social media or other virtual platforms, and data associated with information systems.

This course explores the various elements of organizational leadership and administration, behavior, and management in criminal justice organizations and provides the student with an understanding of individual and group dynamics, problem solving concepts, and administrative processes associated with organizational behavior and structures that exist in the criminal justice system.

<tr>
<td>AJS 544</td>
<td>Ethics in Justice and Security</td>
<td>3</td>
<td>This course examines the theoretical and philosophical basis of ethics and the standards of professional conduct applicable to justice and security agencies. Emphasis is placed on ethical dilemmas, the role of ethics in forming policy, and ethical decision-making. The course also explores procedural justice and transparency within an organization, the use of federal consent decrees, and the influence of diversity and equity on criminal justice and security practices.</td>
</tr>
<tr>
<td>AJS 554</td>
<td>Concepts of Physical and Personal Security</td>
<td>3</td>
<td>This course provides the student with an understanding of contemporary concepts of physical facility security and personal protection.</td>
</tr>
<tr>
<td>AJS 555</td>
<td>Critical Incident and Risk Management</td>
<td>3</td>
<td>This course examines the interrelationships between organizational risk assessment and consequence management within the context of justice and security organizations. Specifically, the course will examine organizational risk mitigation and management strategies, physical facility security, personal protection and the role of critical incident management.</td>
</tr>
<tr>
<td>AJS 564</td>
<td>Management of Institutional Risk and Critical Incident Mgmt</td>
<td>3</td>
<td>This course provides an overview of the relationship between risk assessment and consequence management within the context of justice and security organizations. Specifically, we will examine the factors that go into mitigating risk and when these measures fail, how critical incident response can maintain order. Topics include defining risk, planning factors for critical incident response, lessons learned.</td>
</tr>
<tr>
<td>AJS 565</td>
<td>Strategic Planning in Criminal Justice and Security</td>
<td>3</td>
<td>This course discusses the role of strategic planning in attainment of the long-term mission and vision of criminal justice and security organizations. Students learn to create a common framework for organizational decision-making and resource investment. Essential elements of strategic planning are addressed, including the development, deployment, and performance measurement processes required to ensure that strategic plans remain relevant and dynamic. The relationship between strategic, operational, and tactical planning is also clarified.</td>
</tr>
<tr>
<td>AJS 574</td>
<td>Finance and Budgeting in Justice and Security</td>
<td>3</td>
<td>This course introduces fundamental concepts of using financial tools and analysis for effective managerial decision making in criminal justice and security. Topics include the role of the financial management in the criminal justice and security organization, concepts and principles underlying financial practices, and operational planning and budgeting.</td>
</tr>
<tr>
<td>AJS 583</td>
<td>Legal Issues in Justice and Security</td>
<td>3</td>
<td>This course examines the competing legal and social issues that influence the actions of public officials, security personnel, and private citizens with respect to the provision of law enforcement, safety, and security services for various elements of society.</td>
</tr>
<tr>
<td>AJS 584</td>
<td>Forensic Science and Psychological Profiling</td>

<td>This course provides the student with a fundamental understanding of forensic science and technology, psychological profiling, and the application of scientific methodologies to the investigative process.</td>
</tr>
<tr>
<td>AJS 587</td>
<td>Contemporary Issues in Investigative Methodologies</td>
<td>3</td>
<td>This course provides the student with a fundamental understanding of forensic science, data, technology, behavioral profiling, and the application of scientific methodologies to the investigative process.</td>
</tr>
<tr>
<td>AJS 590</td>
<td>Public Policy and Civil Rights</td>
<td>3</td>
<td>This course addresses the development and influence of public policy with respect to specific justice and security issues facing the American society. The potential conflicts between public policy and civil rights will be discussed.</td>
</tr>
<tr>
<td>AJS 594</td>
<td>Program Development and Evaluation</td>
<td>3</td>
<td>This course prepares the student to identify operational goals, objectives, and evaluation of criminal justice or security programs within society. This course will provide an understanding of the application of key concepts, methods, and approaches in the field of program evaluation within the criminal justice and security profession.</td>
</tr>
<tr>
<td>APE 515</td>
<td>Elementary Content Methods</td>
<td>3</td>
<td>This course focuses on the methodology and assessment strategies that enhance learning at the elementary level. Integrated content, interdisciplinary teaching, and curriculum and assessment issues are emphasized. Multiple perspectives of students as learners of elementary content, along with current research on pedagogy, are explored. This course provides teacher candidates with an opportunity to develop the ability to use and evaluate instructional and curricular materials and appropriate assessment strategies.</td>

<td></td>
<td>In this course, students will study how global technology is used to further cybercrime. Topics in this course include homeland security and cyber technology, global technology, threats to the United States, preventing and fighting global technology crime, and the role of local and federal agencies in preventing and investigating global technology crimes. Students will also explore the future of law enforcement and security to prevent and fight global cybercrimes. The new skills and knowledge gained by the students will aid them in their current or future professional endeavors.</td>

This is the capstone course for retail fundamentals. The course provides students with the opportunity to integrate and apply learning from their program of student in a comprehensive manner. Students will demonstrate competency and skills in the leadership and supervisory function of retailing. Emphasis will be on a practical skill-building approach to leadership and supervision so students develop skills that can be applied within the retail environment. Students will examine leadership styles, management principles, ethics and social responsibility, conflict resolution, and culturally diverse aspects of leadership.

This course introduces practices in data analytics foundational to the industry and the field of data analytics. Covered are information systems, the phases of the analytics lifecycle, exploration, analysis and validation of data, relevant statistics for data modeling, data visualization, and the tools used for data analytics.

This course reviews common business systems and their interrelationships. Business systems covered include finance, accounting, sales, marketing, and decision support. Emphasis is placed upon the selection, implementation, and use of information systems, the potential for integration of the systems, and information systems security.

This course introduces the fundamental, logical, and design considerations addressed during system and application software development. It provides a solid background in information systems analysis and design techniques through a combination of theory and application. The Systems Development Life Cycle will be fundamental to the course.

This course introduces the fundamental, logical, and design considerations addressed during system and application software development with a focus on application within health care. It provides a solid background in information systems analysis and design techniques through a combination of theory and application. The Systems Development Life Cycle will be fundamental to the course.

This course introduces the fundamental, logical, and design considerations addressed during system and application software development. It provides a background in applications software development and testing techniques through a combination of theory and application.

This course addresses IT service management best practices from the perspective of the IT Infrastructure Library (ITIL) framework. The ITIL framework consists of Service Strategy, Design, Transition, Operation, and Continual Service Improvement.

As the capstone course for a Bachelor of Science in Information Technology (BSIT), students will complete a multi-faceted academic project/paper that demonstrates mastery and assesses the level of competency for the stated outcomes of the BSIT program. Additionally, students will complete the development of their career portfolios to illustrate skills gained throughout the course of this program.

This course reviews the following business systems: marketing, sales, human resources, operations, and legal. Emphasis is placed upon the inputs and outputs of information systems and the potential for integration of the systems.

This course focuses on information systems auditing, IT governance and protection and control of information assets. Topics include laws, regulations, standards, guidance, techniques, and professional ethics. This course is aligned to The Process of Auditing Information Systems domain of the ISACA CISA job practice areas.

This course focuses on providing assurance that the organization has the structure, policies, accountability mechanisms, and monitoring practices in place to achieve the requirements of governance and management of IT. This course is aligned to the Governance and Management of IT domain of the ISACA CISA job practice areas.

<tr>
<td>BSHS 415</td>
<td>Field Experience I</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This is a 15-week course requiring at least 175 hours of field experience, or an average of 12 hours per week committed to a field placement site. Students will work in a human services setting under the supervision of a qualified professional. In addition to providing direct service, students will attend a weekly 2-hour class for faculty supervision and evaluation of core competency development. Typical activities of a field placement involve employing skills acquired so far in the program progression: conducting interviews, working directly with clients and groups, developing action plans and documenting.</td>
<td></td>
</tr>
<tr>
<td>BSHS 415O</td>
<td>Orientation to Field Experience</td>
<td>0</td>
</tr>
<tr>
<td></td>
<td>This course will provide an overview of the expectations and requirements for a successful Field Experience. Students will be provided with information regarding field placement with approved sites, documentation of field experience, and requirements for supervision. Orientation is offered well in advance of the first Field Experience course, BSHS/ 415 to provide students ample time for field site selection. (0 credits) Prerequisite: BSHS 375. May not be taken as Directed Study.</td>

<tr>
<td>BSHS 425</td>
<td>Administration &amp; Management of Human Service Programs</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Administration and management involve components of indirect services associated with systematic delivery of direct human services. Students will learn theories of strategic planning, human resource management, strategies for evaluation and planning the development of human service organizations, elements of agency operations, risk management, budgeting, and fiscal acquisition through grant writing and contract negotiation. The emphasis of this course is on leadership development, and managing professional and volunteer staff. Additional content areas addressed in the course involve advocacy efforts and grass roots movements focused on constituency building.</td>
<td></td>
</tr>
<tr>
<td>BSHS 426</td>
<td>Human Services Management: Theory &amp; Practice</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course traces the historical context of human services management. Students will examine strategies for managing an integrated, multi-emotionally driven work force. Students will prepare to be generalists, understanding the scope of leading work forces under pressure. Students will employ learned management practices to distinguish, inspect, and measure the important attributes of program management and supervision. A focus on organizational behavior and the challenges of embracing workforce diversity, dynamic systems change, performance evaluation, and effective communication with a range of paraprofessional and professional colleagues allows students to explore their role as managers in the growing human services field.</td>
<td></td>
</tr>
<tr>
<td>BSHS 427</td>
<td>Critical Thinking Skills in Management Decision-Making</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course will familiarize students with strategies related to making sustainable decisions. Techniques used to make decisions, solve problems, and lead environments will be explored. Concepts of strategic planning, organizing, and leading are examined to link these basic principles to create a healthy and thriving workplace environment. Specific details to human services are considered and methods for service delivery to needs-based populations and the workers who serve in this capacity. Students are introduced to, and will demonstrate understanding of, the Six Sigma elements and five-step approach for process improvement.</td>
<td></td>
</tr>
<tr>
<td>BSHS 428</td>
<td>Human Services Program Design and Proposal Writing</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course introduces students to the purposes, challenges and benefits of program design and grant writing. Students will review components of each and conduct a needs assessment and develop a business case for implementation on program design. Special attention will be given to research for finding available funding sources and how to form important partnerships. Students explore the methods of research using quantitative, qualitative and mixed-method program design concepts. Students will examine concepts of logic models and their impact on people, processes, and conditions related to program design. Using a specific framework, learners will uncover funding possibilities and use tools to prepare for the rigor related with grant writing. Resources and tools to secure funding for state, federal and private human services programs and agencies are examined. Students will be introduced to the processes, obstacles and costs associated to grant writing and program design.</td>
<td></td>
</tr>
<tr>
<td>BSHS 435</td>
<td>Research and Statistics in Human Services</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course provides an overview of research methods and appropriate use of statistics in the social sciences. A component of program development and evaluation involves knowledge of theory related to understanding research and statistics in the human services arena. The scientific method, research tools, data collection, and analysis will be reviewed. Understanding research and developing the ability to critically evaluate published research reports will be emphasized. Statistical concepts will be reviewed, and students will gain a conceptual understanding of underlying principles of research and statistical analysis. Statistical software will be introduced, and students will compute descriptive and inferential statistical data. Students will practice developing research designs and conducting statistical analyses.</td>

The integrated business topics course examines strategic business management while integrating topics from previously completed business foundation coursework. By using real world examples, the students will demonstrate a comprehensive understanding of the undergraduate business curricula with a significant emphasis placed on the application of the student's previous coursework.

This course examines the functions and issues that business managers need to address in order to compete in an increasingly global market. Topics include an overview of the global environment of business, doing business ethically, qualitative research, business strategy, and marketing.

This course provides students with the basic theories, concepts, terminology, and uses of economics, accounting, and business finance. Students learn practical applications for economics, accounting, and business finance in their professional lives through the integration of fundamental concepts and the analysis of actual business events.

This course begins an introductory sequence to ensure students are successful in a graduate program. The topics include a broad overview of the business environment, including the concepts of management and operations, organizational behavior, human resources, information systems, ethics and the legal environment.

This course examines the functions and issues that business managers need to address in order to compete in an increasingly global market. Topics include an overview of the global environment of business, doing business ethically, quantitative research, information systems, accounting, finance, economics, management, leadership, and marketing.

The course provides an introduction to business administration for doctoral students entering the Doctor of Business Administration or Doctor of Management programs who do not have prior academic experience in this area.

This course provides an overview of business information systems, specifically Business Intelligence (BI) and Enterprise Resource Planning (ERP). Students will learn how businesses adapt approaches to optimize their operations and the conditions under which these lead to success. Students will also examine the link between operations excellence and corporate strategy.

This course requires the student to integrate previous learning by identifying organizational problems and recommending alternative business models that will positively impact future organizational performance. The outcome of this course will be delivered in Transforming the Business II.

This course requires the student to integrate previous learning by identifying organizational problems and recommending alternative business models that will positively impact future organizational performance. The outcome of this course will be a continuation of Transforming the Business I.

In this course, students will integrate visionary organizational leadership ideas and practices and apply these to the optimization of organizational resources in a complex, global environment to positively impact future organizational performance, change and sustainability.

Portfolio is an admission readiness assessment which samples and evaluates the student's cognitive, affective, and behavioral skills in critical areas of the counselor education process. It is a six-week, noncredit assessment that helps determine student appropriateness for the program and gives the potential student the opportunity to evaluate his or her aptitude for the counseling program. Portfolio must be passed before a student may be admitted to any graduate counseling program in the College of Social and Behavioral Sciences.

<tbody>
<tr>
<td>CCMH 504</td>
<td>Individual and Family Development Across the Life Span</td>
<td>3</td>
<td>This course presents students with theoretical frameworks to foster an understanding of the various dimensions of human development. Emphasis is placed on biological, cognitive, and psychosocial development within the context of gender, family systems, social roles, and culture. Students evaluate clinical situations and assess potential therapeutic interventions in context.</td>
</tr>
<tr>
<td>CCMH 506</td>
<td>Personality Theories and Counseling Models</td>
<td>3</td>
<td>This course enables students to differentiate among the primary theoretical models of personality theory and counseling practice, including psychodynamic, affective, cognitive behavioral, humanistic, interpersonal, multicultural, and systems theory. A focus on evidence-based practices that incorporate cultural diversity issues with population-specific approaches is significant feature of this course. Emphasis is on the importance of students recognizing belief systems that accurately reflect their own personal style and to recognize strategies and approaches likely to be most successful with a particular client population. Students have opportunities to establish a strong theoretical foundation as the basis of clinical practice and to evaluate and assess clinical situations for implementation of therapeutic interventions that are gender and culturally appropriate. Assessment and intervention for emergency/crisis is introduced.</td>
</tr>
<tr>
<td>CCMH 510</td>
<td>Multi-Cultural Issues in Mental Health Counseling</td>
<td>3</td>
<td>This course is designed to be a foundation for understanding diversity among clients in a pluralistic society. Emphasis will be on integrating awareness, knowledge, and skills related to counseling differences and similarities based on age, race, ethnicity, national origin, religious affiliations, gender identification, sexual orientation, physical/mental limitations, social class, etc.</td>
</tr>
<tr>
<td>CCMH 510CA</td>
<td>Multicultural Issues in Mental Health Counseling</td>
<td>3</td>
<td>This course is designed to be a foundation for understanding diversity among clients in a pluralistic society. Special focus is given to populations in the state of California. Emphasis will be on integrating awareness, knowledge, and skills related to counseling differences and similarities based on age, race, ethnicity, national origin, religious affiliations, gender identification, sexual orientation, physical/mental limitations, social class, etc.</td>
</tr>
<tr>
<td>CCMH 511</td>
<td>Fundamental Counseling Skills</td>
<td>3</td>
<td>This introductory counseling skills course introduces students to fundamental helping skills. Students will develop a range of basic communication patterns to facilitate a healthy therapeutic relationship between counselor and client. Students learn counseling and communication skills such as, attending behaviors, eliciting, structuring, and summarizing.</td>
</tr>
<tr>
<td>CCMH 515</td>
<td>Legal, Ethical, and Professional Issues in Counseling</td>
<td>3</td>
<td>This course covers the legal and ethical responsibilities of the counseling professional. Students learn to interpret and act upon situations appropriately and effectively. Content includes issues such as client rights, confidentiality, duty to warn and protect, dual relationships, supervision and consulting, ethics with special populations, and ethical decision-making models.</td>
</tr>
<tr>
<td>CCMH 515CA</td>
<td>Legal, Ethical, and Professional Issues in Counseling</td>
<td>3</td>
<td>This course covers the legal and ethical responsibilities of the counseling professional with an emphasis on California law. Students learn to interpret and act upon situations appropriately and effectively. Content includes issues such as client rights, confidentiality, duty to warn and protect, dual relationships, supervision and consulting, ethics with special populations, and ethical decision-making models.</td>
</tr>
<tr>
<td>CCMH 520</td>
<td>Biological Basis of Behavior/Physiological Issues</td>
<td>3</td>
<td>This course examines the biological foundations of human functioning in relationship to cognition, emotions and mental health. It includes an overview of neuro-anatomy, biochemistry, and main effects and side effects of prescription psychotropic medication. The goal of the course is to learn how the underlying biological aspects of human functioning affect processes of adjustment and well-being relevant to client populations. There is special attention given to issues pertaining to those who are taking psychotropic medication and the need to monitor them for side effects and contraindications. Ethics and methods of working with medical personnel are included.</td>

<td>Counseling Internship is a 600-hour clinical experience required of all MSC students. CCMH/597A and B require the student to complete 300 hours for each course. Students are placed in community counseling agencies where they provide clinical services to clients under the direction of an approved licensed agency site supervisor. Students attend faculty-led group supervision weekly and cover topics from the 8 CACREP core competencies.</td>
</tr>
<tr>
<td>CCMH 597C</td>
<td>Internship C</td>
<td>3</td>
<td>Counseling Internship is a 600-hour clinical experience (900 hours in Utah) required of all MSC students. Depending on the campus, the internship is divided into either 200 or 300 hour sections, each lasting 15 weeks. Those campuses that offer CCMH 597 A, B, and C require students to complete 200 hours for each course (except Utah which requires 300 hours each), while those campuses that offer only CCMH 597 A and B require the student to complete 300 hours for each course. Please check with your Campus College Chair for any clarification or questions you have. The internship experience comprises Portfolio III of the counseling portfolio series. Students are placed in community counseling agencies where they provide clinical services to clients under the direction of an approved licensed agency site supervisor. Students are also assisted in their preparation for the National Counselor Examination.</td>
</tr>
<tr>
<td>CEM 535</td>
<td>Managing the Experience within the Health Care Environment</td>
<td>3</td>
<td>This course prepares students with the tools to design strategies within an organizational setting that meet the needs of the health care customer to improve outcomes and financial performance. Students will draw insights from customer analysis and health care consumer trends and preferences to formulate customer-driven strategies that increase customer satisfaction, improves loyalty, and produces positive results. Additional emphasis will be placed on new technologies, the social customer, and social media management and marketing.</td>
</tr>
<tr>
<td>CHL 610</td>
<td>Community Health Assessment</td>
<td>3</td>
<td>This course examines the concepts, methods and practices for assessing the health of a community. Topics include assessment of resources, data, gaps, and strengths; developing community health profiles; identifying determinants of health; and the utilization of community health assessment in prioritizing recommendations and developing public health interventions.</td>
</tr>
<tr>
<td>CHL 620</td>
<td>Community Health Engagement and Organizing</td>
<td>3</td>
<td>This course examines key principles of community health promotion and community based participatory research principles. Key elements of community organizing for improved health outcomes including establishing community collaborations and partnerships, engagement, coalition building, community assessment, and dissemination of efforts. Principles of community engagement are examined in relation to community health.</td>
</tr>
<tr>
<td>CHL 630</td>
<td>Planning and Implementing Community Health Initiatives</td>
<td>3</td>
<td>In this course, learners create theory-based and evidence-informed community health initiatives. The course will examine use of logic models, intervention activities, budget development, organizational structure, and stakeholder engagement. Course concepts are applied to community health settings and scenarios and students gain opportunity to plan and implement health programs and initiatives.</td>
</tr>
<tr>
<td>CHL 640</td>
<td>Evaluating Community Health Initiatives</td>
<td>3</td>
<td>This course provides learners with an opportunity to plan, implement, and utilize evaluation methods within community health settings. Basic principles and practices of evaluation are addressed, including identifying the goals of a community health initiative; designing and implementing an evaluation plan; using evaluation results to improve processes, programs, policies, and outcomes; and sharing results with stakeholder groups.</td>

<td>CHM 110</td>
<td>Introductory Chemistry</td>
<td>3</td>
<td>This course will examine the basic principles of chemistry conceptually and specifically. The course will apply chemical concepts to address relevant issues ranging from atomic structure and chemical reactions to organic and biological chemistry. The course topics include matter and energy, chemical bonding, intermolecular forces, chemical equilibrium, and nuclear, organic, and biological chemistry. Students will apply these concepts using practical examples, facilitated discussions, and experiments conducted through a virtual laboratory.</td>
</tr>
<tr>
<td>CHM 150</td>
<td>General Chemistry I</td>
<td>4</td>
<td>This course provides students with in-depth knowledge of the principles and applications of chemistry. Topics include chemical nomenclature, atomic theory, stoichiometry, periodicity, chemical bonding, thermochemistry, gas laws, and properties of solids and liquids. Students may apply these concepts using practical examples, facilitated discussions, and experiments conducted through completion of virtual labs. This course is the first half of the general chemistry sequence, which is completed in CHM/151: General Chemistry II.</td>
</tr>
<tr>
<td>CHM 151</td>
<td>General Chemistry II</td>
<td>4</td>
<td>This course continues the examination of principles and applications of chemistry that was begun in CHM/150: General Chemistry I. Topics include properties of solutions, acids and bases, kinetics, equilibrium, thermodynamics, oxidation &amp; reduction, ionic and redox equations, and electrochemistry. Students apply these concepts using practical examples, facilitated discussions, and experiments conducted through completion of virtual labs.</td>
</tr>
<tr>
<td>CIS 207T</td>

</tr>
<tr>
<td>CIS 291</td>
<td>PC and Device Fundamentals</td>
<td>3</td>
<td>This course provides an introduction to personal computers (PC) and mobile devices commonly used in business and non-profit industries. Topics include the fundamentals of hardware components, architecture, configuration, upgrade, and repair. This course also provides an introduction to hardware troubleshooting and computer support. This course and CIS/293 are aligned with the requirements of the CompTIA A+ 220-1001 exam.</td>
</tr>
<tr>
<td>CIS 293</td>
<td>Network Troubleshooting and Support</td>
<td>3</td>
<td>This course provides an introduction to computer networking, network troubleshooting and desktop support. Topics include networking design and implementation. CIS/293 provides hands on practice troubleshooting hardware and desktop support issues aligned with entry-level desktop support. This course, and CIS/291, are aligned with the requirements of the CompTIA A+ 220-1001 exam.</td>
</tr>
<tr>
<td>CIS 295</td>
<td>Introduction to PC and Mobile Operating Systems</td>
<td>3</td>
<td>This course provides an introduction to the fundamentals of personal computer and mobile device operating systems. Topics include software configuration, file and data management, synchronization, and troubleshooting. Cloud concepts and the integration of cloud services in the work environment are introduced. This course and CIS/297 align with the requirements of the CompTIA A+ 220-1002 exam.</td>
</tr>
<tr>
<td>CIS 297</td>
<td>Computer Security and Operational Support</td>
<td>3</td>
<td>This course provides an introduction to the fundamentals of network security across devices. Topics include operational procedures and best practices for troubleshooting and providing end-user support. This course provides theory and practice troubleshooting operating systems across devices. This course and CIS/295 align with the requirements of the CompTIA A+ 220-1002 exam.</td>
</tr>
<tr>
<td>CIS 568</td>
<td>Information Systems Concepts</td>
<td>3</td>
<td>This course introduces the role of computer information systems in today's business environment. An overview is presented of the infrastructure, data, network, software, and hardware that make up computer information systems, the systems development process, and state-of-the-business topics of which management personnel should be aware.</td>
</tr>
<tr>
<td>CISDA 207</td>
<td>Information Systems Fundamentals</td>
<td>3</td>
<td>This course introduces the fundamentals of computer systems and the role of information processing in today’s business environment. An overview is presented of information systems, systems development, database management, networking, and the Internet.</td>

<td>Local Area Networking Fundamentals</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course addresses the fundamentals of local area network (LAN) and provides the basic networking components and their functions. The OSI model is introduced and the TCP/IP protocol stack and its layers are examined. Students learn how to install, operate, configure, and verify a basic IPv4 network, including implementing IPv4 addressing, configuring a LAN switch, and troubleshooting common LAN switch issues.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CIT 249</td>
<td>Wide Area Network Environment</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides students with the knowledge and skills necessary to design, build, and maintain routing and switching technologies. Students learn routing and switching operations, including implementing VLANs and trunking, implementing and troubleshooting single-area Open Shortest Path First (OSPF) routing protocol and introduce IPv6 main features, addresses, and basic configuration. Advanced IP services are described, such as applying and troubleshooting Access Control Lists (ACLs), and managing IP address space using Network Address Translation (NAT), and Port Address Translation (PAT).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CIT 274</td>
<td>Routing and Switching Implementations</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course describes implementing scalable, medium-sized switched and routed networks. Students learn to build and improve redundant networks using Spanning Tree Protocol (STP) and EtherChannel, implement and troubleshoot EIGRP and multi-area OSPF routing protocols, and troubleshoot IPv6 network connectivity issues.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CIT 276</td>
<td>Routing and Switching Management</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides the knowledge and skills necessary for routing and switching management. Topics include extending Local Area Network (LAN) into a Wide Area Network (WAN), Virtual Private Network (VPN) solutions, and frame relay connectivity. Students learn network device, IOS file, and licensing management.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 305</td>
<td>Criminal Law</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This is an introductory course in the study of criminal law, general legal principles, and how the criminal law functions in and affects modern society. This course highlights a variety of key topics, including the concept of crime and the development of criminal law, defenses to criminal charges, and a number of specific types of crimes, including personal crimes, property crimes, public order crimes, and offenses against public morality. Legal issues affecting punishment will also be discussed, as will ways the criminal law impacts victims of crime.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 314</td>
<td>Criminology</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Criminology is an introductory course in the study of crime and criminal behavior, focusing on the various theories of crime causation. This course highlights the causes of crime, criminal behavior systems, societal reaction to crime, and criminological methods of inquiry.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 315</td>
<td>Criminal Procedure</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course explores the basic core knowledge of constitutional criminal procedure. Emphasis is placed on the Fourth, Fifth, and Sixth Amendments, searches and seizures, interrogations and confessions, identifications, and pretrial and trial processes. In addition, the United States Constitution, as interpreted by the U.S. Supreme Court, is examined along with philosophical policy considerations. Application of core knowledge is developed through simulation exercises and examination of homeland security issues.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 316</td>
<td>Survey of Criminal Justice</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides an overview of the key components, theoretical foundations and processes involved in the administration of criminal justice. The course examines the application of historical and philosophical considerations between the components of the criminal justice system.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 325</td>
<td>Criminal Organizations</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course is a survey of the origins and development of organized crime in the United States. It examines the structure and activities of organized criminal enterprises, considers different models that have been employed to describe organized crime groups, and explores theories that have been advanced to explain the phenomenon. Major investigations of organized crime and legal strategies that have been developed to combat it are also considered.</td>

<td>Ethics in Criminal Justice</td>
<td>3</td>
<td>This course explores the ethical standards and codes of professional responsibility in criminal justice professions. It also provides a foundational perspective for ethics in relationship to professional organizations and agencies. Students will examine the interrelated nature of ethics, morality, legal responsibility, and social issues in criminal justice settings.</td>
</tr>
<tr>
<td>CJA 335</td>
<td>Research Statistics</td>
<td>3</td>
<td>Students learn to perform introductory statistical techniques common to the criminal justice system including descriptive and inferential statistics, correlation, and factor analysis and demonstrate knowledge of the application and limitations of specific statistical tests. Students also analyze and critique the use of statistics in research published by criminal justice researchers.</td>
</tr>
<tr>
<td>CJA 336</td>
<td>Diversity in Criminal Justice</td>
<td>3</td>
<td>This course offers an inclusive, critical, and balanced examination of the American criminal justice system with respect to major aspects of multiculturalism and societal diversity. Students will examine policies, procedures, and issues of diversity prevalent in criminal justice administration.</td>
</tr>
<tr>
<td>CJA 345</td>
<td>Research Methods and Evaluation</td>
<td>3</td>
<td>Students learn and demonstrate knowledge of research methodology including problem formulation, design, data collection and analysis, interpreting and summarizing research findings while exploring the range and scope of research and evaluation tools available to the criminal justice professional. Students also analyze and critique criminal justice program and service evaluations published by criminal justice research professionals.</td>
</tr>
<tr>
<td>CJA 346</td>
<td>Theories of Criminology and Victimology</td>
<td>3</td>
<td>This course examines fundamental theories on the causes of criminal behavior, determinations on the extent of criminality in society, associated policy implications and the application of criminological theories in the criminal justice system. This course also explores traditional victimology, special victims and responses to victimization including civil and criminal processes and the correlation of victimology and criminology.</td>
</tr>
<tr>
<td>CJA 356</td>
<td>Organizational Behavior and Management</td>
<td>3</td>
<td>This course in organizational behavior encompasses the study of individual and group behavior as they apply to criminal justice organizations. Organizational behavior management challenges individuals to understand organizational structure and systems, leadership, effective communication, and change management in our rapidly changing society.</td>
</tr>
<tr>
<td>CJA 374</td>
<td>Juvenile Justice Systems and Processes</td>
<td>3</td>
<td>This course is a general orientation to the field of juvenile justice, including causation theories and the development of system responses to delinquent behavior. The problems facing juveniles today are addressed, and adult and juvenile justice systems are compared, including initial apprehension, referral, and preventive techniques. Specific issues examined include chemical dependency, mental illness, and compulsive and habitual offenders. Special attention is given to the problems inherent in the police handling of juveniles and the function of juvenile courts.</td>
</tr>
<tr>
<td>CJA 376</td>
<td>Interagency Communication</td>
<td>3</td>
<td>This course explores the relationships across all levels of government regarding effective emergency management. Students examine the required planning, response, recovery, and mitigation components that government agencies must consider. Network management theories, inter-organizational communication, and potential collaboration models are explored.</td>
</tr>
<tr>
<td>CJA 386</td>
<td>Research Statistics</td>
<td>3</td>
<td>This course examines introductory statistical techniques common to the criminal justice system including descriptive and inferential statistics, correlation, and factor analysis. Students will demonstrate knowledge of the application and limitations of specific statistical tests. Students also analyze the use of statistics in research published by criminal justice researchers.</td>

<td>Current Issues/Futures in Criminal Justice Management</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course examines both the principle issues in contemporary criminal justice management as well as the extrapolation of such issues toward possible futures within the criminal justice management field. Students will focus on relevant research in policing, courts, and corrections that reflect key elements of current conditions and what may be expected in the years to come that will be important to criminal justice administrators. Students will apply critical review and engage in in-depth discussion of these concepts as a basis for comprehensive understanding at local, state, national, and global levels of criminal justice administration.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 416</td>
<td>Budget, Finance, and Planning</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course explores public sector revenue sources, allocation of funds, governance, public stewardship, responsible economic policies, debt, and the requirement for accurate and complete reporting. Various budgetary approaches used in federal, state, and local agencies are analyzed.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 426</td>
<td>Grant Writing and Funding</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course explores the essential foundations and strategies that criminal justice agencies and associated programs utilize in their pursuit of federal, state, and private grant solicitations. Students will identify funding sources, budgetary approaches and best practices in the development of successful grant proposals.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 436</td>
<td>Mental Health Services and Crisis Intervention</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course explores the concepts designed to promote solutions that assist criminal justice professionals when dealing with individuals affected by mental health issues. Students will evaluate the concepts and administration of crisis intervention and mental health services, and their practical applications in the field. Students will create strategies for providing services to varied populations in the criminal justice system.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 444</td>
<td>Organizational Behavior and Management</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course in organizational behavior encompasses the study of individual and group behavior as they apply to criminal justice organizations—court systems, law enforcement, and corrections. Managing organizational behavior challenges individuals to understand organizational structure and systems, leadership, motivation, effective communication, change management, and performance systems. A comprehensive review of these processes, as well as others, will allow students to examine their role in criminal justice systems in our rapidly changing society.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CJA 446</td>
<td>Criminal Justice Policy Analysis and Program Evaluation</td>
<td>3</td>
<td></td>
</tr>
<tr>

This course is a general introduction to the field of juvenile justice, including an overview of the juvenile justice system and the differences between dependency and delinquency. Students address current problems facing juveniles, and compare adult and juvenile justice systems. Special attention is given to the problems inherent in the police handling of juveniles, the function of juvenile courts, sentencing, and future juvenile justice system issues.

This course is an introduction and overview of the legal system, the participants, the courtroom process, and post conviction process of the court system. It demonstrates the connection among all participants and how they relate to each other. Additionally, the course covers the history of the court system and the different types of court at the state and federal levels.

This course is an introduction to the various components of the corrections system within the criminal justice system. It provides an overview of corrections, including corrections history, the persons, agencies, and organizations that manage convicted offenders. Other topics that are covered include policy and procedure, sentencing, probation, and rehabilitations of prisoners.

This course introduces general concepts of information systems security. Content includes governmental views, positions, and risk assessment and management. Coursework explores other concepts, including contingency and business resumption planning, backup schemes, and implementation strategies, as well as various types of invasive actions and prevention measures.

This course is an introduction to information assurance and security in computing technology. Topics include risk management; protecting information in the enterprise; business continuity and disaster recovery planning; threats and remediation; legal, ethical, and professional issues; and considerations within systems development processes.

This course provides the foundation for successful project planning, organization, and implementation within the realm of information technology. The course uses real-world examples and identifies common mistakes and pitfalls in project management. Topics covered include project scoping, estimating, budgeting, scheduling and staffing, tracking and controlling, and software tools for project management.

This course examines a number of alternatives to be considered when delivery of an information technology application is needed. The evaluation of alternatives such as build versus buy and insourcing or outsourcing are covered along with the considerations for testing and evaluation of information technology decisions. The primary components of a Request for Proposal (RFP) and a Statement of Work (SOW) are examined in this course.

This course prepares students for the Project Management Institute (PMI®) CAPM® certification exam. It covers the Project Management Framework, a set of standard terminology and guidelines for project management, and the knowledge areas in managing projects.

This course covers the managerial and technical considerations related to access controls, authentication, external attacks, and other risk areas facing an enterprise. This course will also survey the techniques to prevent unauthorized computer and facility access as well as the concepts for protecting the hardware and software assets of an enterprise.

**CMGT 431 Information Systems Security**

**CMGT 433 Cyber Security**

This course explores the evolution from information security to cyber security, policy and cyber security development, and the relationships between business and public- or private-sector organizations in meeting the challenges of cyber security threats. Students will be introduced to the legal and regulatory requirements for internal network and Internet security as they apply to both business and personal use. Vulnerabilities of both the organization and the individual will be reviewed as well as the processes and controls for mitigating cyber security threats. The need for an IT audit will also be explored as part of the vulnerability or mitigation process as well as the need for development of an organization-wide cyber security policy.

**CMGT 442 Information Systems Risk Management**

This course reinforces student’s knowledge of the types of risks that information systems professionals need to consider during the development and implementation of computer based information systems. This course will survey remedies and prevention techniques available to address the risk areas presented. Organizational policies, project management, and procurement considerations will also be analyzed and applied to development, implementation, and use of computer-based information systems.

**CMGT 545 Influence and Leadership in Tech**

This course discusses how to effectively communicate with organizational C-suite leaders and lead as a strategic partner, as IT continues to move from a department supporting or serving the business to leading change and innovation. Leadership skills includes managing project scope, cost, quality and stakeholders. Students learn the importance of soft skills such as influence, idea sharing and generating, managing conflict, and leading change.

**CMGT 554 IT Infrastructure**

This course focuses on the managerial level of knowledge and terminology for telecommunications and computer networks. This course covers the concepts and application of the Internet, server and storage architectures, and regulatory considerations.

**CMGT 555 Systems Analysis and Development**

This course provides a background in analysis and design techniques for business system and application development. This course covers Software Development Life Cycle (SDLC) with emphasis on waterfall and agile methodologies.

**CMGT 556 Enterprise Models**

This course provides an introduction to organizational managerial support systems and the use of metrics in strategic business decisions. Strategies for the use of a Supply Chain Management (SCM) system with a focus on the software selection and implementation are evaluated. Additionally the role and benefits of a Customer Relationship Management (CRM) system are examined with a comparison of Enterprise Resource Planning (ERP) benefits to the business process. The skills developed in this course ensure that students have a strong foundation and background of successfully integrating all three strategies within an organization.

**CMGT 557 Emerging Technologies & Issues**

The course examines emerging technology, the related issues and their potential impact on an organization. This examination provides an understanding of both the technical and managerial issues, including the strategic implications associated with emerging technologies.

CMGTCB 556  Enterprise Models  3  
This course provides an introduction to organizational managerial support systems and the use of metrics in strategic business decisions. Strategies for the use of a Supply Chain Management (SCM) system with a focus on the software selection and implementation are evaluated. Additionally, the role and benefits of a Customer Relationship Management (CRM) system are examined with a comparison of Enterprise Resource Planning (ERP) benefits to the business process. The skills developed in this course ensure that students have a strong foundation and background of successfully integrating all three strategies within an organization.

CMGTCB 558  Strategic Management of Technology and Innovation  3  
This course covers the subject of technological innovation management as a strategic process from assessing competitive dynamics, strategy formulation, and strategy implementation with an eye toward new product development. Students are given opportunities to use critical and design thinking to solve real-world challenges such as skill shortages, technical debt, and DevOps. Competency 16: Students know how and why innovation occurs in an industry and why some innovations rise to dominate others. Competency 17: Students examine methods for choosing among innovation projects. Competency 18: Students develop implementation plan based on best practices for managing the new product development process.

CMGTCB 559  Managing Risk and Security vs. Opportunity  3  
This course explores the role of the security manager who develops and manages an information security program with a deep understanding of the relationship between IS programs and the broader business goals and objectives. Topics include but are not limited to, security governance, incident management, and risk management and compliance. This course is aligned to the ISACA Certified Information Security Manager (CISM) learning domains. Competency 31: Students conduct risk analysis. Competency 32: Students design a compliance plan to mitigate risk. Competency 33: Students design risk mitigation plan to address the highest probability risks associated with business goals and objectives.

CMGTCB 575  CIS Project Management  3  
Course addresses Agile processes and skills for successful project management and cross-functional activities and is aligned to the Agile Certified Professional (PMI-ACP). Agile is widely employed in computer information and technology environments to achieve business goals and outcomes. Topics include methodology, stakeholder engagement, estimating and planning, team performance, project tracking and change management. Competency 13: Students know the 12 principles of Agile that influence project management. Competency 14: Students analyze scrum team roles. Competency 15: Students analyze the conflict resolution strategy.

CMGTCB 578  CIS Strategic Planning  3  
This course provides the knowledge and skills to develop effective short, intermediate, and long-range strategic information systems plans. Course topics include the need for and contents of a corporate strategic plan; the relationship of information systems planning to overall organizational goals; assessment of the organization's current state; determination of information technology (IT), project, and management requirements; and the means of prioritizing and selecting systems projects.

CMGTCB 582  Security and Ethics  3  
The ethical issues examined in the course include information privacy, accessibility, and ownership from an organizational perspective. Information laws, regulations, and compliance requirements are examined in this course, as well as the considerations for creating a safe digital environment within the organization. Competency 19: Explain the differences between ethics, organizational policies, and laws. Competency 20: Categorize the components of Information Security (InfoSec). Competency 21: Evaluate risk mitigation strategies.

<td>Human Sexuality and Sex Therapy</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>The goal of this course is to learn about the many facets of human sexuality and the treatment of sexual dysfunctions in a safe and respectful environment. Topics include the physiology, psychology, and sociology of sexuality, including the effects of sexual attitudes and functioning on individuals and families. Clinical applications, including the treatment of sexual difficulty and dysfunction will also be explored. Students will develop familiarity with the language and terms of sexology and demonstrate an ability to apply this knowledge to clinical situations.</td>

<td>Residency II</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>This residency course is 2-weeks in length, with significant synchronous interactions with faculty and peers. The final 3-days of the residency provides an opportunity for students to observe, practice, and demonstrate competency integrating counseling skills with cognitive-behavioral theory. Students explore couples counseling concepts and strategies. Other topics include professional and personal development; application of theory to practice; and sensitivity to diversity issues. Students will demonstrate intake, assessment and treatment planning abilities. In addition to counseling skills, students are evaluated on professional dispositions and their readiness to progress in the program.</td>
<td></td>
</tr>
<tr>
<td>CNSL 523R</td>
<td>Residency III</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>This residency course is 2-weeks in length, with the last 3 days of the second week involving face-to-face interaction with faculty and peers at a ground campus. The final 3-day in person residency in the Clinical Mental Health Counseling online program focuses on advanced clinical counseling skills and competencies. Students practice facilitation of group therapy and demonstrate skills in clinical case staffing. The core of this residency focuses on practicing group work theory and application in a variety of group therapy simulations. This residency is also used to determine the student’s readiness for work with diverse populations during clinical placement in practicum and internship courses. Specific topics include professional orientation, professional identity, personal growth, and self-care.</td>

**COMM 400 Management Communication Skills**
This course is a study of human interpersonal communications and conflict resolution. Focus and emphasis is on identification and development of interpersonal relations in business organizations, as well as on management communication skills, group process, effective responses, and team building.

**COMMDA 110 Introduction to Oral Communication**
This course will provide students with the basic concepts of oral presentations. Students will be able to develop and deliver effective individual and group presentations in classroom and professional settings. The course is also designed to provide a maximum opportunity for practice and evaluation of presentation techniques.

**COMPROGLAB Computer Programming Lab**
This is a workshop for the new BSIT program Computer Programming Labs.

**CPMGT 300 Project Management**
This course examines project management roles and environments, the project life cycle, and various techniques of work planning, and control and evaluation to achieve project objectives. The tools currently available to project managers are illustrated in this course through the use of Microsoft®Project software.

**CPMGT 301 Strategic Portfolio and Project Management**
This course introduces students to the planning phase of project management. Students will discover the connection between strategic portfolio management and project management. Other topics include project-based versus non-project-based organizations, activity planning and sequencing, human resource planning, communications planning, and project management planning.

**CPMGT 302 Procurement and Risk Management**
This course explores the procurement planning process, contracting methods and phases, outsourcing, contract administration, and the external environment of the procurement management processes. The course also addresses risk management applied to both project and procurement management processes.

**CPMGT 303 Project Estimating and Control Techniques**
To be successful, project managers must analyze alternative project decisions by relying heavily on project estimating and control tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance. Students work in groups to analyze program parameters and work situations.

**CPMGT 304 Leading Projects in Organizations**
This course provides students with an overview of organizational behavior as it relates to project management. It introduces various techniques and processes that will help students develop effective communication and interpersonal skills to successfully manage project teams. In addition, numerous leadership and motivation theories are presented as well as techniques that minimize stress in the project environment. Furthermore, project decision-making processes and techniques that facilitate effective and efficient project change management are addressed in this course. Students will also examine the influence of globalization, technology, and future trends in project management.

**CPMGT 305 Project Management Capstone**
This course is the capstone of the Professional Certificate in Project Management. Students will demonstrate project management knowledge learned throughout the Project Management Certificate. Students will develop and deliver a project plan and presentation of that plan to the executive board in a role-play environment. Universal project management concepts and processes studied in the prior five courses will be integrated and applied to the class project.

**CPMGT 310 Project Management Methodologies**
This course examines the various project management methodologies used to successfully manage projects within an organization. Students will discover effective and efficient practices of applied project management techniques to include waterfall, PRINCE2®, agile, six sigma, and Kanban methods. Students will also examine the influence of project type on the methodology used to effectively manage the project.

**CPSS 210 Introduction to Criminal Justice**
This course is an introductory overview that provides students with the opportunity to gain an understanding of the criminal justice system in the United States. The course surveys the foundations of the criminal justice system including individual and organizational roles and the issues encountered on a daily basis.

This course introduces the various components of the corrections system within the criminal justice system. It provides an overview of corrections, including corrections history and the people, agencies and organizations who manage, and support convicted offenders. Other topics include policies and procedures, sentencing, community supervision, and rehabilitation of justice involved populations.

This course introduces students to the areas in which correctional programs are offered. Students explore the various career opportunities in this diverse field.

This course highlights the causes of criminal behavior and the theoretical interpretations of such behavior. Students are introduced to the criminological methods of inquiry and review several different classifications of crime. Students also consider the public policy implications of various approaches to criminology.

This course provides an overview of correctional populations, their specific needs, processes, management, rehabilitation services, and re-entry to society.

This course provides a unified view of the field of social psychology as it relates to the development of criminogenic factors and criminal behavior. It presents the concepts of social influence and group think as they relate to human thoughts, feelings, and actions.

This course focuses on the principles of effective professional communication. Topics include the broad spectrum of communication requirements and techniques to meet the demands of multiple audiences within the correctional field.

This course provides an overview of ethical standards outlined by human service, criminal justice, and mental health organizations. Students will explore and examine their personal values, beliefs, and biases as they relate to different social involved populations.

This course offers an inclusive, critical, and balanced examination of diverse populations. The emphasis of this course is on implicit and explicit multicultural factors. Students will examine personal beliefs, values, and develop culturally appropriate strategies when working with diverse and special populations.

This course introduces students to the purpose, philosophy, and functions of intake, assessment, and classification within the correctional system. Students survey multiple tools for determining risk and the needs of incarcerated individuals.

The purpose of this course is to prepare students to develop and manage a case plan for persons in the correctional system, based on each individual's risk, needs, and resources. Students examine the factors that influence case planning and management.

This course identifies the variety of facilitation skills necessary for promoting positive behavioral change in inmates and offenders. Students explore the distinction between paraprofessional and professional program services.

This course provides an overview of programs and interventions in institutional and community-based settings. Students explore the risk and need assessment process that determines program placement and advocacy action plans. Students further explore professional careers in criminal justice and helping professions.

This course provides the historical overview of sex crimes and punishment and explores the contemporary challenges of working with sex offenders. Students review treatment types specific to sex offenders.

This course is designed to provide students with an introduction to the theories and research concerning psychopathology. The course addresses topics such as the classification of abnormal behaviors into various diagnostic categories; the etiologies of psychological disorders; and an overview of mental health intervention and treatment.

This course examines the evolution of national perspectives and current strategies regarding offenders with mental health issues. Students explore the challenges related to assessment and treatment within the system, as well as transition and continuity of care after release from custody.

This course introduces students to the diagnostic criteria for organic and physiologically based disorders. Students examine the intricacies of multiple disorders related to mood, anxiety, and trauma issues. The course addresses the prevalence of these disorders within society, with a special focus on the effects on the criminal justice system. Students learn basic identification and intervention techniques.

This course introduces students to the diagnostic criteria for character- and personality-based disorders. Students examine the intricacies of multiple disorders related to character and personality issues. The course addresses the prevalence of these disorders within society, with a special focus on the effects on the criminal justice system. Students learn basic identification and intervention techniques.

This course includes a general overview of the juvenile justice system and is designed to prepare students to address the challenges of working with juvenile offenders. Students examine the differences between adult and juvenile offenders in supervision strategies, classification systems, and custodial relationships. Students also examine the unique role of the family in juvenile offender cases.

This course is designed to familiarize students with developmental milestones, social influences, the process of identity formation, and the moral and ethical development of adolescents. Students also explore the unique challenges adolescents face.

This course allows students to examine the complex correlation between family dynamics and juvenile delinquency. Students explore topics related to prevention, development, and rehabilitation.

This course will introduce students to basic prevention and treatment models. Students will survey a variety of interventions and strategies for addressing delinquent behavior.

This course examines the history of substance abuse and addiction, including the effects of addiction on individuals, families, and communities. Topics include national and international perspectives and strategies regarding addiction, as well as their relationship to the judicial system. The course includes an overview of the major models of substance abuse, prevention, intervention, and rehabilitation.

This course examines the development of addiction disorders and the factors that influence substance abuse. Students will explore the prevalence of co-occurring disorders and addictions in vulnerable populations.

This course introduces students to the diagnostic criteria for alcohol- and drug-related addictions disorders. Students examine the intricacies of multiple disorders related to substance abuse and dependence and their prevalence in society, with a special focus on the effects on the criminal justice system. Students also survey a variety of other addiction disorders.

This course introduces students to different addiction prevention, treatment, self-help, and program models for working with forensic populations. Topics include the progression of criminal justice interventions and strategies to address addiction issues.

This course introduces multiple skills and resources that support a fulfilling career in corrections, including processes for setting healthy boundaries, managing conflicts, and developing appropriate coping strategies for professional self-care.

This foundation course covers core computing technology concepts including computational thinking, abstraction of information, computing hardware and data, programming, and iteration.

This course provides an introduction to software development with some beginning concepts in HTML, CSS and JavaScript as well as additional skills for building the user interface (UI) and manage the application lifecycle.

<td>CUR 525</td>
<td>Ethical Issues in Education</td>
<td>3</td>
<td>This course examines the ethical framework and challenges of teachers and teacher leaders in today’s schools. The professional educational leader fosters ethical practices and engages in purposeful ethical decision making. Students will explore ethical, social, and political issues in education through case studies, field experiences, and other readings and interactions. Ethical leadership and decision making will be analyzed and discussed to determine how educational leaders will be able to provide support to teachers, students, and other constituents with the purpose of improving current educational practices.</td>
</tr>
<tr>
<td>CUR 528</td>
<td>Assessment of Learning</td>
<td>3</td>
<td>Learners focus on developing the skills necessary to become effective assessors of adult learners in corporate training and in other adult education learning environments. Learners examine the fundamentals of planning, implementing, and analyzing assessments to improve instruction and learning. Additionally, learners explore purposes and methods of evaluation for courses, programs, and training.</td>
</tr>
<tr>
<td>CUR 530</td>
<td>Assessment and Evaluation Models</td>
<td>3</td>
<td>In this course, learners use assessment data through a systematic process to make informed decisions and to evaluate classroom and school-wide learning outcomes. Emphasis is placed on the design, implementation, and analysis of formative assessments while other types of assessments are explored. Learners will use this assessment knowledge to design and analyze a comprehensive assessment plan in a K-12 setting.</td>
</tr>
<tr>
<td>CUR 532</td>
<td>Facilitating Online Learning</td>
<td>3</td>
<td>Learners explore practical strategies for aligning effective principles of instruction with the use of technology in adult learning and training environments. Learners develop the knowledge and skills required for effectively engaging adult learners in distance learning experiences using a variety of web-based course management and information systems. In addition, learners apply and evaluate audio, video, and collaborative technology tools; mobile learning technologies; and corporate online training techniques. Learners discuss essential aspects of learning in online training programs and classrooms such as engagement, time management, reflection, and assessment strategies.</td>
</tr>
<tr>
<td>CUR 535</td>
<td>Research for Improved Practice</td>
<td>4</td>
<td>Learners examine the process of conducting their own classroom-based or school-based research. The course provides practical experience with action research components in the educational setting for everyday instruction. Learners will use research and data to select instructional practices that lead to gains in student achievement that promote lifelong learning.</td>
</tr>

<td>CUR 540</td>
<td>Methods of Coaching in the Instructional Setting</td>
<td>3</td>
<td>This course provides an examination of how systemic processes, experiential learning, and coaching strategies positively affect teaching and learning outcomes. This course will examine the interchangeable competencies of coaching and mentoring including roles, fostering relationships, ethical guidelines, building learning communities, effective communication, self-reflective problem solving, conflict resolution, facilitating learning, and accountability. Candidates will be equipped with content knowledge, real life application opportunities, tools, and specific strategies that can be applied in both instructional leadership and coaching situations.</td>
</tr>
<tr>
<td>CUR 545</td>
<td>Using Technology for Teaching and Learning</td>
<td>3</td>
<td>Students evaluate technology use and technology integration for teaching and learning while considering the value of current technologies and tools as part of an interactive experience in a 21st-century classroom. Students will review the considerations and responsibilities of using and maintaining technology in today’s schools, including safety, ethics, resources, and financial needs. Using the knowledge gained in this course, students will determine how they will advocate and be change agents for technology integration within their districts, schools, classrooms, and the community.</td>

**CUR 550: Engaging in Communities of Practice**
Learning communities are a method for the organization and operation of schools that will best meet the academic needs of students. In this course, learners examine the components of developing and maintaining school-based communities of practice to improve student achievement and assist with school improvement planning. Learners will identify resources to help them initiate, plan, and maintain communities of practice.

**CUR 555: Professional Learning for Continuous Improvement**
Learners will examine the relationship of professional and personal learning to school, teacher, and student need. Learners will gain an array of effective ideas, strategies, plans, methods, and tools on designing and implementing professional development to promote the intellectual and self-reflective development of teachers, as they collaborate to raise student achievement. Topics include components of high-quality staff development and learning networks.

**CUR 713: Curriculum, Developmental, and Learning Theories**
This course provides an overview of foundational and contemporary learning theories and the principles of brain-based learning and cognitive information processing. Students will examine how learning theory contributes to the intellectual development of learners and the impact it has on the educational process and curriculum design. With these concepts as a foundation, students will analyze curriculum processes and procedures, investigate implications of the theories for educational programming, and interpret the interaction of these theories with public policy.

**CUR 721: Curriculum Design**
In this course, students focus on the creation of systemic models of curriculum design and delivery, including consideration of schedule, structure, stakeholder involvement, and end products. Students will also analyze the implicit, hidden, cultural, and institutional aspects of existing curricular models to inform their own development approach.

**CUR 722: Instructional Models**
This course analyzes the models and process of instruction. Effective instructional models are explored as they relate to teaching strategies and learner outcomes. Instructional models for diverse populations, improvement of instructional programs, and staff development are of special focus.

**CUR 723: Assessment of Student Learning**
This course explores student assessment methods utilized in learning organizations. The merits and faults of these methods are debated. Among the key topics are outcomes-based assessment—such as standardized achievement and criterion assessment, as well as the influence of leadership styles on these outcomes.

**CUR 731: Supervision of Curriculum and Instruction**
This course explores the supervision and evaluation of instructional programs. Topics include effective techniques for managing curriculum, effective evaluation instruments, conferencing, classroom management, and recommendations for improvement. Traditional and alternative methods of evaluating student achievement will be discussed.

**CUR 732: Program Evaluation**
In this course, students explore program evaluation models and methods utilized in learning organizations. Both formative and summative methods are discussed, and their merits and faults are debated. Accreditation issues are among the key topics, and the influence of leadership style on program evaluation methods is examined.

**CYB 100: Cyber Domain**
This course defines the Cyber Domain that encompasses Cybersecurity as the discipline of securing computer information and communications systems, networks, infrastructures and assets, and protecting them against damage, unauthorized use, modification or exploitation. The Cyber Domain must be managed ethically, politically and physically in a similar collaborative fashion to the space, maritime and physical domains of states and nations globally.

**CYB 110: Foundations of Security**
This course provides comprehensive Cybersecurity awareness and a fundamental understanding of various computer and network security threats such as: Identity Theft, Fraud, Online Scams, Virus and Backdoors, Hacking, Social Engineering Attacks and more.

<tbody>
<tr>
<td>CYB 120</td>
<td>Computer Network Defense Part 1</td>
<td>3</td>
<td>This course provides network training on Computer Network Defense fundamentals; security threats, vulnerabilities, and attacks; controls, protocols and devices; and security policy design and implementation.</td>
</tr>
<tr>
<td>CYB 130T</td>
<td>Object-Oriented Scripting Language</td>
<td>3</td>
<td>This course teaches the basics of an object-oriented scripting language capable of developing web apps, scripts, cross-platform apps, games and pen-testing exercises.</td>
</tr>
<tr>
<td>CYB 135</td>
<td>Object-Oriented Security Scripting</td>
<td>3</td>
<td>Students reinforce foundational skills and learn new topics such as modules, files, inheritance, recursion, plotting, and searching and sorting algorithms. Students apply programming skills and knowledge to basic forensic investigation, port scanning, and network analysis, needed in cybersecurity.</td>
</tr>
<tr>
<td>CYB 140</td>
<td>Computer Network Defense Part 2</td>
<td>3</td>
<td>This course provides network training on Computer Network Defense. Introduced topics include physical and host security; firewall configuration and management; Intrusion Detection Systems (IDS) and Virtual Private Network (VPN) configuration and management.</td>
</tr>
<tr>
<td>CYB 150</td>
<td>Computer Network Defense Part 3</td>
<td>3</td>
<td>This course provides network training on Computer Network Defense. Introduced topics include wireless defense; traffic monitoring and analysis; network risk and vulnerability management; data backup and recovery; and incident response and management.</td>
</tr>
<tr>
<td>CYB 160</td>
<td>Governance and Privacy</td>
<td>3</td>
<td>This course is an historical overview of the continually evolving development of global internet governance and policy that was intended to be open, inclusive, collaborative and transparent rather than being mandated by governmental or intergovernmental agreement. User privacy and the confidentiality of data are additional topics that impact governance and are covered in this course.</td>
</tr>
<tr>
<td>CYB 205</td>
<td>Infrastructure Administration</td>
<td>3</td>
<td>This course analyzes and compares security administration for traditional physical infrastructures with that of evolving cloud infrastructures.</td>
</tr>
<tr>
<td>CYB 207</td>
<td>Risk Frameworks</td>
<td>3</td>
<td>This course focuses on security risk assessment. Risk Frameworks reviewed include National Institute of Standards and Technology (NIST), International Organization for Standardization (ISO), and developing models.</td>
</tr>
<tr>
<td>CYB 209</td>
<td>Compliance Management, Certification and Accreditation</td>
<td>3</td>
<td>Risk frameworks, as they apply to critical infrastructures, are evaluated in this course. An example security and compliance plan is reviewed and serves as a model for course assignments. Templates for writing security policies and developing a security and compliance plan are employed in a course project.</td>
</tr>
<tr>
<td>CYB 211</td>
<td>Applied Security Part 1</td>
<td>3</td>
<td>This course provides reinforced learning on cybersecurity topics and builds from prior network defense courses. Reviewed topics include networking topologies; physical and network security; data protection; tools used to scan, protect, and test networks; network policies and procedures; and mitigation of network and operating system vulnerabilities.</td>
</tr>
<tr>
<td>CYB 213</td>
<td>Applied Security Part 2</td>
<td>3</td>
<td>This course provides reinforced training on cybersecurity topics. Reviewed topics include network monitoring; intrusion detection systems; remote security; VPN management; firewall management; network incident response; data backup and recovery.</td>
</tr>
<tr>
<td>CYB 215</td>
<td>Project Cyber Operations</td>
<td>3</td>
<td>This project on Cyber Operations combines and demonstrates the acquired knowledge and skills from preceding policy, operations, compliance and security accreditation courses.</td>
</tr>
<tr>
<td>CYB 225</td>
<td>Linux Fundamentals</td>
<td>3</td>
<td>This is an introductory course on Linux that provides sufficient command of the subject to meet the initial needs of penetration testing.</td>
</tr>
<tr>
<td>CYB 227</td>
<td>Sniffing and Network Analysis</td>
<td>3</td>
<td>This course develops essential skills for network analysis by sniffing packets using a network protocol analyzer.</td>
</tr>
<tr>
<td>CYB 229</td>
<td>Ethical Hacking Part 1</td>
<td>3</td>
<td>This course provides training on penetration testing. Introduced topics include Introduction to Ethical Hacking, Footprinting and Reconnaissance, Scanning Networks, Enumeration, System Hacking, and Malware Threats.</td>
</tr>
<tr>
<td>CYB 231</td>
<td>Ethical Hacking Part 2</td>
<td>3</td>
<td>This course provides training on penetration testing. Introduced topics include sniffing, social engineering, denial-of-service, session hijacking, hacking web servers, evading IDS, firewalls, and honeypots.</td>
</tr>
<tr>
<td>Course Code</td>
<td>Course Title</td>

<tr>
<td>CYB 233</td>
<td>Ethical Hacking Part 3</td>
<td>3</td>
<td>This course provides training on penetration testing. Introduced topics include SQL injection attacks, hacking web applications, wireless networks, mobile platforms, operational technology, the Internet of things, and cloud platforms, and cryptography basics.</td>
</tr>
<tr>
<td>CYB 235</td>
<td>Project Ethical Hacking</td>
<td>3</td>
<td>This project on Applied Ethical Hacking combines and demonstrates the acquired knowledge and skills from sniffing and penetration testing courses.</td>
</tr>
<tr>
<td>CYB 320</td>
<td>Global Cyber Ethics</td>
<td>3</td>
<td>Classical ethical models are reviewed in this course and identified in an analysis of usage and product practices on the global Internet from an international perspective. A comparison of evolving codes of ethics in culturally diverse nations is developed in order to better prepare a globally-sensitive security professional.</td>
</tr>
<tr>
<td>CYB 340</td>
<td>Web and Cloud Computing and Security</td>
<td>3</td>
<td>This course focuses on becoming familiar with and securing web applications and cloud computing. The student is given hands-on training on implementing web and data base servers and experiencing first-hand the power of cloud deployment.</td>
</tr>
<tr>
<td>CYB 350</td>
<td>Security Team Participation</td>
<td>3</td>
<td>This course provides hands-on, real life experience for the student to participate as a contributing member of an enterprise security team. The various roles of security team members are studied, observed and experienced daily in a functioning computer infrastructure.</td>
</tr>
<tr>
<td>CYB 360</td>
<td>Wireless Security</td>
<td>3</td>
<td>This course prepares the student to plan, install, configure and maintain a secure wireless infrastructure. Topics covered include basic radio frequency (RF) technologies, regulations and standards, protocols and devices, network implementation, network security, RF site surveying, antenna concepts, wireless network architecture, wireless local area network (LAN) hardware and software, along with network design, installation and management.</td>
</tr>
<tr>
<td>CYB 405</td>
<td>Information Systems Governance</td>
<td>3</td>
<td>This course focuses on the application of information security management principles from an executive management point of view. This course will cover Information Security Management Program, the IS Governance Program, Regulatory and Legal Compliance, and Risk Management.</td>
</tr>
<tr>
<td>CYB 407</td>
<td>Information Systems Risk Controls and Auditing Management</td>
<td>3</td>
<td>This course focuses on information security management principles. It will cover Designing- Deploying and Managing Security Controls, Security Control Types and Objects, Implementing Control and Assurance Frameworks, and Audit Management.</td>
</tr>
<tr>
<td>CYB 409</td>
<td>Information Systems Leadership, Projects and Operations</td>
<td>3</td>
<td>This course focuses on the application of information security management principles to Security Projects from a Chief Information Security Officer (CISO) point of view.</td>
</tr>
<tr>
<td>CYB 411</td>
<td>Information Systems Core Competencies</td>
<td>3</td>
<td>This course focuses on the application of information security management principles and provides training on penetration testing methodologies including Security Analysis, TCP/IP Packet Analysis, Pre-penetration Testing Steps, Information Gathering and Vulnerability Analysis.</td>
</tr>
<tr>
<td>CYB 413</td>
<td>Strategic Planning and Finance</td>
<td>3</td>
<td>This course concentrates on the application of information security management principles, and covers Security Strategic and Financial Planning.</td>
</tr>
<tr>
<td>CYB 415</td>
<td>Project Cybersecurity Policy and Governance</td>
<td>3</td>
<td>This project is designed to enhance the skills based competencies of the Chief Information Security Officer’s role in today’s environment. Students must conduct detailed analysis of case industry studies and perform practical application exercises involving executive level decisions that are highly critical to overall success.</td>
</tr>
<tr>
<td>CYB 425</td>
<td>Security Analyst Procedures and Methodology</td>
<td>3</td>
<td>This course provides training on penetration testing methodologies including Security Analysis, TCP IP Packet Analysis, Pre-penetration Testing Steps, Information Gathering, and Vulnerability Analysis.</td>
</tr>
<tr>
<td>CYB 427</td>
<td>Security Analyst Network Threat Testing</td>
<td>3</td>
<td>This course provides training on using penetration testing methodologies on both internal and external networks comprised of Firewalls, Intrusion Detection Systems, and Web and SQL Database Applications.</td>
</tr>
<tr>
<td>CYB 429</td>
<td>Security Analyst: Database, Web Apps and Perimeter Devices</td>
<td>3</td>
<td>This course provides training on using penetration testing methodologies on Database, web applications and perimeter devices. Students will also learn to analyze post-test results as well.</td>
</tr>
<tr>
<td>Course Code</td>
<td>Course Title</td>
<td>Credits</td>
<td>Description</td>
</tr>
<tr>
<td>-------------</td>
<td>--------------------------------------------------</td>
<td>---------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>CYB 431</td>
<td>Security Testing and Analysis</td>
<td>3</td>
<td>This course provides instruction on using penetration testing methodologies associated with wireless, IoT, and Cloud technologies. Students learn Standards and Compliance, Information Systems Security Principles, Incident Handling and Response, and Auditing as well as how to analyze post-test results.</td>
</tr>
<tr>
<td>CYB 433</td>
<td>Project Pen Testing Plan</td>
<td>3</td>
<td>This penetration testing planning project is designed to enhance the skills based competency of a penetration tester. Students must conduct a detailed penetration test through a Cyber range environment and submit a formal written report.</td>
</tr>
<tr>
<td>CYB 435</td>
<td>Project Pen Testing Execution and Report</td>
<td>3</td>
<td>This penetration testing execution project is designed to enhance the skills based competency of a penetration tester. This course is intensively hands-on and significant emphasis is placed on the practical competency of the student.</td>
</tr>
<tr>
<td>CYB 445</td>
<td>Risk Assessment</td>
<td>3</td>
<td>This course will focus on proficiency in analyzing security risks and insider threats. Students will also learn how to assess various security incidents such as malware incidents, email security incidents, and insider attack threats.</td>
</tr>
<tr>
<td>CYB 447</td>
<td>Insider Threat and Reporting</td>
<td>3</td>
<td>This course will focus on proficiency in handling and responding to various security incidents such as network security incidents, malicious code incidents, and insider attack threats. In addition, students will learn about computer forensics and its role in handling and responding to incidents with proper reporting in reference to security policies and law.</td>
</tr>
<tr>
<td>CYB 449</td>
<td>Computer Forensics Investigative Process</td>
<td>3</td>
<td>This course focuses on a detailed approach to computer forensics and evidence analysis. In this course students will cover major forensic investigation scenarios that enable students to acquire necessary hands-on experience on forensic investigation techniques including Searching and Seizing Computers, Digital Forensics, First Responder Procedures, and Understanding Hard Disks and File Systems.</td>
</tr>
<tr>
<td>CYB 451</td>
<td>Computer Forensics Lab</td>
<td>3</td>
<td>This course focuses on a detailed approach to computer forensics and evidence analysis. In this course students will cover major forensic investigation scenarios that enable students to acquire necessary hands-on experience on various forensic investigation techniques including Windows Forensics, Data Application and Duplication, Recovering Deleted Files and Deleted Partitions, and Investigation using forensic toolkits.</td>
</tr>
<tr>
<td>CYB 453</td>
<td>Network, Wireless, Web, Email and Mobile Forensics</td>
<td>3</td>
<td>This course focuses on a detailed approach to computer forensics and evidence analysis. In this course students will cover forensic investigation scenarios that enable students to acquire necessary hands-on experience using forensic investigation such as Steganography and Image File Forensics, Application Password Crackers, Log Capturing and Event Correlation, Investigating Logs and Network Traffic, Investigating Wireless and Web Attacks and Investigative Reports.</td>
</tr>
<tr>
<td>CYB 455</td>
<td>Project Digital Forensics</td>
<td>3</td>
<td>This project on Applied Digital Forensics combines and demonstrates the acquired knowledge and skills from preceding specified courses.</td>
</tr>
<tr>
<td>CYB 490</td>
<td>Capstone Bachelor Design</td>
<td>3</td>
<td>The Capstone project combines and demonstrates the acquired knowledge and skills from Computer Network Defense, other Core Courses, and selected Elective courses. This course comprises the project design phase of the Capstone.</td>
</tr>
<tr>
<td>CYB 492</td>
<td>Capstone Bachelor Implementation</td>
<td>3</td>
<td>This project is the implementation phase of the Capstone project that combines and demonstrates the acquired knowledge and skills from Computer Network Defense, other Core Courses, and selected Elective courses.</td>
</tr>
<tr>
<td>CYB 500</td>
<td>Advanced Cybersecurity Concepts</td>
<td>3</td>
<td>This course delivers core concepts in cybersecurity related to protecting an organization. Students learn topics in threat intelligence and detection, techniques for identifying vulnerabilities within an organization’s infrastructure, network and data analysis, incident response and the prevention of future attacks.</td>
</tr>
<tr>
<td>CYB 505</td>
<td>Secure Software Development</td>
<td>3</td>
<td>This course covers topics in secure software design, the Software Development Life Cycle (SDLC). Students learn how to follow secure coding practices and analyze code for security risks before testing and validating the security of their design. Students also learn concepts in deployment, operations and maintenance of secure software.</td>
</tr>
<tr>

<tr>
<td>CYB 510</td>
<td>Cloud Security</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides students with an overview of the concepts related to securing a cloud environment. Students learn the design principles and requirements involved in securing a cloud or hybrid enterprise while adhering to policies, frameworks and regulations necessary to maintain resilient structures. Other topics include risk management, risk assessment, software security, and business continuity planning.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 515</td>
<td>Network Security</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides instruction in advanced topics in network security. Students learn how to protect a network from vulnerabilities including designing a network with security in mind, selecting the proper technologies, implementing security policies and touches on the human factors associated with network security. Additional topics include physical security, disaster recovery and digital forensics.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 520</td>
<td>Cyber Ethics</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course covers a range of moral, social and ethical considerations in the realm of cyberspace. Students learn concepts in privacy, governance, censorship, and intellectual property by exploring the impact of technology on morals and ethics from a societal approach.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 525</td>
<td>Leadership in Cybersecurity</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course will include several areas of leadership in cybersecurity that include a building and maintaining a cybersecurity technology stack, building and maintaining a layered defense strategy and the expenses associated. Students will learn how to present to the board of directors as an everyday function as a cybersecurity leader that comprises of an understanding of how to create a report, communicate effectively and how that will impact the budget and overall strategy.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 530</td>
<td>Cybersecurity Practitioner</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course introduces concepts in security operations such as security principles, network security, cloud security and incident response. Students will learn about Security Operations Center (SOC) operations and procedures and how these relate to an incident response plan.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 535</td>
<td>Secure Programming</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The course includes advanced concepts in programming for students who already have a background in one or more programming languages. Students will work on real-world scenarios in networking, database programming and security to support the cybersecurity infrastructure within an organization.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 540</td>
<td>Cryptography</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course covers principles and practices in cryptography exploring more in-depth concepts in network security and secure communication. Students will work in a variety of algorithms and how concepts like public key infrastructure, hash functions and encryption methods help to secure an organization.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 545</td>
<td>Threat Intelligence</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course provides students with a holistic view of threat intelligence, including not only the types of attacks but methods to determine motivation and goals behind a variety of attacks, data collection and analysis, and how to plan a threat intelligence program. Students learn the entire threat analysis process and how to create effective threat intelligence reports.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 550</td>
<td>Technical Enterprise Security</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course will cover how to determine the best security measures based on different types of organizations. Students will learn how to meet the security requirements of an organization including network design, storage, applications and security controls as well as other technologies to build or maintain a resilient enterprise architecture.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 555</td>
<td>Enterprise Security Operations</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course will teach students the appropriate methods and how to select the best tools for conducting a security assessment. Students will learn concepts in implementing incident response plans and recovery procedures and revisit how risk management is impacted by business and industry influences.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CYB 560</td>
<td>MSCYB Capstone</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Students will use the tools and techniques gained through the sum of their experience and previous coursework to participate in a variety of cyber range activities and team-based activities.</td>

<tr>
<td>DAT 380</td>
<td>Advanced Database Architecture</td>
<td>3</td>
<td>This course covers DDBMS architectures, data structures, schemas and standards in addition to centralized and client server systems, server system architectures, parallel systems, distributed systems.</td>
</tr>
<tr>
<td>DAT 390</td>
<td>Database Integration with Other Systems</td>
<td>3</td>
<td>This course addresses the main standards for data integration, movement or replication and federation. Students will investigate transparency and emulation, cleaning, archiving and information preservation across systems.</td>
</tr>
<tr>
<td>DAT 565</td>
<td>Data Analysis and Business Analytics</td>
<td>3</td>
<td>This course will introduce students to data discovery, data analytics, and data visualization with contemporary business tools. Students will learn to differentiate data analytics from statistical analysis and use the power of informatics in shaping decision-making in the modern business context. The course will address analytics as a tool for business process-improvement and present data acquisition and formatting, metric creation, data discovery, and data visualization with real-world examples and exercises for students to work through in class.</td>
</tr>
<tr>
<td>DATCB 565</td>
<td>Data Analysis and Business Analytics</td>
<td>3</td>
<td>This course introduces students to a variety of data analytic solutions. Students will learn how to retrieve real business data and create reports, support business decisions with visual representations of data, manage and improve a business process based on quantitative analysis, analyze long-term trends and patterns in the data, and develop actionable results that drive the business decision-making process. Competency 22: The student will employ statistical methods used in data mining and descriptive and predictive analytics to support actionable business decisions. Competency 23: The student will examine statistical patterns and trends to highlight organizational performance and support organizational strategic planning. Competency 24: The student will analyze business research to drive organizational decision making.</td>
</tr>
<tr>
<td>DATDA 305</td>
<td>Data Structures For Problem Solving</td>
<td>3</td>
<td>This course provides a foundational workshop on data structures, which is a functional component of business intelligence (BI) within an organization. Building upon basic programming and database structure, this course builds competencies for the student to recognize the structure of data contained in deployed enterprise information systems.</td>
</tr>
<tr>
<td>DBM 280</td>
<td>Fundamentals of Access Database</td>
<td>3</td>
<td>This course will cover the use desktop database software to create small database applications. Emphasis will be placed on creating and managing a database, creating tables, and building forms. Emphasis is placed on hands-on experience in the installation, design, and debugging of desktop database software.</td>
</tr>
<tr>
<td>DBM 294</td>
<td>Querying a SQL Server</td>
<td>3</td>
<td>This course provides an overview of querying a SQL Server. Emphasis is placed on creating database objects, working and modifying data, and optimizing the database environment.</td>
</tr>

<tr>
<td>DBM 296</td>
<td>Administering a SQL Server</td>
<td>3</td>
<td>This course provides an introduction to the installation, configuration, support, availability, and recovery of databases. The considerations for database administration when addressing the requirements for user access, security, backup, and recovery will be covered. This course addresses the objectives contained in the Microsoft Certified Solutions Associate (MCSA) for administering a Microsoft® SQL Server® database.</td>
</tr>
<tr>
<td>DBM 298</td>
<td>Implementing a Data Warehouse</td>
<td>3</td>
<td>This course will cover the design and implementation of a data warehouse. Emphasis will be placed on extraction and transformation of data, design of the data control flow, load options SQL Server Integration Services (SSIS) script options, and the establishment, implementation, and maintenance of data quality solutions.</td>
</tr>
<tr>
<td>DBM 300</td>
<td>Database Fundamentals</td>
<td>3</td>
<td>This course covers fundamental database concepts including SQL, non-relational databases, distributed databases and database architectures. Students are provided an overview for how to manage, display, sort, group, retrieve, and organize data for the application or tool associated with the software development taking place within an organization.</td>
</tr>
<tr>
<td>DBM 370</td>
<td>Database Administration</td>
<td>3</td>
<td>This course provides an overview of database administration, including database implementation, configuration, authentication, monitoring, backup, and security. Students will examine database architecture with a focus on business requirements, data integrity, and the ethical handling of private data.</td>
</tr>
<tr>
<td>DBM 380</td>
<td>Database Concepts</td>
<td>3</td>
<td>This course covers database concepts. Topics include data analysis, the principal data models with emphasis on the relational model, entity-relationship diagrams, database design, normalization, and database administration.</td>
</tr>
<tr>
<td>DBM 381</td>
<td>Database Concepts</td>
<td>3</td>
<td>This course covers database concepts. Topics include data analysis, the principal data models with emphasis on the relational model, entity-relationship diagrams, database design, normalization, and database administration.</td>
</tr>
<tr>
<td>DBM 384</td>
<td>Special Purpose Databases</td>
<td>3</td>
<td>This course examines the use of database technology in a variety of information technology applications. The use of text, multimedia, temporal, spatial, and mobile databases will be covered in this course.</td>
</tr>
<tr>
<td>DBM 460</td>
<td>Enterprise Database Management Systems</td>
<td>3</td>
<td>This course covers distributed computing, middleware, and industry standards as relating to the enterprise data repository. Data warehousing, data mining, and data marts are covered from an enterprise perspective.</td>
</tr>
<tr>
<td>DBM 502</td>
<td>Database Management</td>
<td>3</td>
<td>This course provides an introduction to how data is architected and organized. It discusses the different data models used to store data, it outlines several schemas that drive how data is structured, and provides other database concepts relating to the design and architecture of data.</td>
</tr>
<tr>
<td>DHA 700</td>
<td>Introduction to Health Administration in Doctoral Study</td>
<td>3</td>
<td>The course provides an introduction to health administration for doctoral students entering the Doctor of Health Administration program who do not have prior academic experience in this area.</td>
</tr>
<tr>
<td>DHA 711</td>
<td>Administration of Complex Health Care Systems</td>
<td>3</td>
<td>Students will focus on administration of complex health systems rather than singular organizations. Topics include organizational analysis, strategic planning, multi-organizational management issues, and evolving governance structures. Students are expected to discuss and critically analyze theories and methods in health care administration. This course is intended to serve as an arena for discussion and inquiry regarding both current and historical issues in strategic decision-making at the policy and the organizational level.</td>
</tr>
<tr>
<td>DHA 714</td>
<td>Health Care Marketing</td>
<td>3</td>
<td>Survival of health care institutions is primarily dependent on how well marketing succeeds at acquiring market share. This course examines key marketing concepts within the health care industry. Students will examine the financial success of health care institutions from a market share perspective including pricing, promotion, and distribution of services.</td>

<tr>
<td>DHA 715</td>
<td>Risk Management in Complex Health Organizations</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The U.S. health care system is both complex and fragmented. It is critical that scholar-practitioner-leaders have a thorough understanding of risk management, as well as how to manage litigation and how to facilitate contractual relationships. Successful leaders will also need to possess a wide range of skills, including a working knowledge of resource, asset, and human resource management. A well-rounded leader will be required to understand concepts from claims administration and information technology to analyze how integrated resource management promotes operational efficiency, ethical leadership, and employee retention.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>DHA 721</td>
<td>Health Care Economics</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course focuses on the application of economic theory to the amount, organization, and distribution of health care services in the United States. Students will apply principles such as supply and demand, margin analysis, and cost effectiveness analysis. Students will discuss issues and controversies surrounding the government’s role in financing and regulating health services.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>DHA 722</td>
<td>Policy and Regulation in Health Care</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The scholar-practitioner-leader will focus on the role of health policy and regulations in the administration of health care systems. Students critically assess the complex dynamics of politics, ethics, and policy in the development of health legislation and regulations. The process of developing policy, rules and regulations at federal, state, and local levels is examined. Evidence-based approaches are applied to evaluate the effectiveness of implemented policy with emphasis on access, cost, quality and outcome measures. Major health legislation enacted during the 20th and 21st centuries and their impacts on health care at societal, system, and organization levels are reviewed.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>DHA 723</td>
<td>Executive Information Systems</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>In this course, students examine clinical and administrative healthcare systems employed by executive leaders and the legislative practices that affect those systems. Specific emphasis is placed on critical systems used to facilitate decision-making, strategic planning, and financial reimbursement. Additionally, students discourse the origins, storage, and use of clinical data in the context of data warehouses, clinical repositories, electronic healthcare records, and big data.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>DHA 731</td>
<td>Population Health and Epidemiology</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>The science of epidemiology is essential for projecting the population health needs, and appropriate allocation of public and private resources. This course focuses on the utilization of epidemiologic studies and techniques as a basis for health care policy and administrative decision-making. Students will apply this science in the analysis of emerging health epidemics and diseases.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>DHA 732</td>
<td>Evaluation of Health Care Programs</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course is designed to present the major concepts, methods, and issues of evaluating health care programs and services to doctoral students. This course will prepare health care administrators to utilize various evaluation and research methodologies and tools to make decisions regarding program outcomes and effectiveness. Evaluation literature about health programs and services is integrated into the course from a wide variety of sources. Students will incorporate learning to develop a program evaluation plan presentation.</td>

<td>Data Communication and Visualization for Business</td>
<td>3</td>
<td>This course introduces students to tools and techniques needed to present data, both simple and complex, to gain support and recommend business decisions. Student will use graphical tools such as graphs, animation, and presentation techniques to communicate the message behind the data and improve decision making. Topics include requirement gathering, graphical representation of data sets, visualization techniques and tools, and data validation.</td>
</tr>
<tr>
<td>DSC 350</td>
<td>Exploratory Data Analysis</td>
<td>3</td>
<td>This course provides an overview of Exploratory Data Analysis (EDA), including the cleaning, preparation, exploration, and visualization of data. Students will review machine learning algorithms, neural networks, and Artificial Intelligence (AI) concepts used to analyze data sets and build intelligent applications.</td>
</tr>
<tr>
<td>DSC 360</td>
<td>Business Analysis Planning and Monitoring</td>
<td>3</td>
<td>This course provides an overview of business analysis with an in-depth examination of planning and monitoring, elicitation and collaboration, and requirements life cycle management. Students will examine key aspects of planning, stakeholder engagement, governance, information management, performance improvement, elicitation, communication, collaboration, prioritization, and assessment related to business analysis.</td>
</tr>
<tr>
<td>DSC 380</td>
<td>Enterprise Business Intelligence</td>
<td>3</td>
<td>This course examines the use of business intelligence in value-driven decision making. Topics include data preparation, modeling, visualization, and analysis, as well as the deployment and management of datasets, workspaces, and other deliverables for business analysis and forecasting needs.</td>
</tr>
<tr>
<td>DSC 400</td>
<td>Business Strategy, Requirements, and Performance Analysis</td>
<td>3</td>
<td>This course covers principles and practices of business analysis with a focus strategy analysis, requirements analysis, design definition, and solution evaluation. Students will assess risks and change strategies, validate requirements, define design options, analyze potential value, assess performance, and recommend solutions for a variety of organizational and project needs. Ethical and secure uses of data are also examined.</td>
</tr>
<tr>
<td>DSC 420</td>
<td>Agile Data Analytics</td>
<td>3</td>
<td>This course provides an overview of agile strategies, initiatives, and delivery methods used within fast-paced and complex business environments to prioritize delivery, minimize waste, and increase customer value. Students will evaluate tactics and techniques used to adapt to and influence organizational transformation with a focus on overall organizational performance.</td>
</tr>
<tr>
<td>DSC 435</td>

<td>Data Science Capstone</td>
<td>3</td>
<td>This capstone course combines the skills and applies the knowledge from various courses in the Bachelor of Science in Data Science program. Student teams working with large data sets combine the concepts of statistics, programming, data mining, data analysis, and data visualization to design, implement, and present a data science project representing a real-world application to decision-making executives.</td>
</tr>
<tr>
<td>DSC 510</td>
<td>Data Science</td>
<td>3</td>
<td>This course provides an overview of the field of data science, with a focus on data models, data mining processes, tools and technologies, algorithms, and statistical analyses used to glean insight from data for use across a variety of domains. Students will also examine various computer information systems and programming languages used to process, store, integrate, and analyze data.</td>
</tr>
<tr>
<td>DSC 520</td>
<td>Artificial Intelligence, Machine Learning, and Deep Learning</td>
<td>3</td>
<td>This course introduces principles of artificial intelligence, machine learning, and deep learning with a focus on applied techniques. Students will examine software, programming languages, and algorithms used to parse and analyze data and automate computer decision-making processes.</td>
</tr>
<tr>
<td>DSC 530</td>
<td>Data Modeling</td>
<td>3</td>
<td>This course provides an overview of data modeling with an emphasis on data model types, database models, common business requirements, and the structure, relationships, properties, and rules used to organize and store data.</td>
</tr>
<tr>
<td>DSC 540</td>
<td>Data Integration</td>
<td>3</td>
<td>This course provides an overview of data mapping, integration, and transformation, which involves the combination of data from heterogeneous database systems to provide a coherent, unified view for business intelligence purposes. Topics include big data, data warehousing, data lakes, metadata, ETL (extract, transform, load) mapping, and Electronic Data Interchange (EDI).</td>
</tr>
<tr>
<td>DSC 550</td>
<td>Data Mining</td>
<td>3</td>
<td>Data mining involves the discovery, extraction, and analysis of patterns of data from integrated data sets. This course examines the use of machine learning and statistical models in data mining processes.</td>
</tr>
<tr>
<td>DSC 560</td>
<td>Data Visualization</td>
<td>3</td>
<td>This course explores various tools and communication strategies used in data visualization and decision making. Topics business intelligence and presentation software, dashboards, exploratory data analysis, and effective presentation and storytelling techniques.</td>
</tr>
<tr>
<td>DSC 570</td>
<td>Business Intelligence</td>
<td>3</td>
<td>Business intelligence involves the use of data analysis to guide business planning, inform operational decisions, improve performance, and add business value. This course provides an overview of complex event processing (CEP), benchmarking and key performance indicators (KPI), dashboard development, and predictive and prescriptive modeling used to assess strategic business opportunities.</td>
</tr>
<tr>
<td>DSC 580</td>
<td>Data Governance</td>
<td>3</td>
<td>This course provides an overview of data governance standards and processes with a focus on information architecture, data management, data governance tools, regulatory requirements, data ethics, data integrity and security, internal auditing, and data reporting.</td>
</tr>
<tr>
<td>DSC 590</td>
<td>Data Science Capstone</td>
<td>3</td>
<td>The data science capstone provides students with an opportunity to integrate content from throughout the program through the completion of an applied data science project. Students will develop a data strategy to address a business challenge with a focus on measurable goals and objectives, performance metrics, roles and responsibilities, business intelligence tools, data collection and analysis, and data visualization and communication.</td>
</tr>
<tr>
<td>ECE 205</td>
<td>Developmentally-Effective Learning Environments</td>
<td>3</td>
<td>This course examines developmentally-effective strategies used to create a positive and active early childhood learning environment for young children, birth through age 8. Topics include classroom management techniques, motivational strategies for young children, family/school relationships, instructional planning and assessment, and arranging an effective learning space. Participants develop a classroom management plan for an early childhood setting.</td>

<td>ECE 206</td>
<td>Curriculum and Instruction in Early Childhood Education</td>
<td>3</td>
<td>This course provides a foundation of curriculum and instruction in early childhood education, from a historical and theoretical perspective through the application of current developmentally-appropriate best practices. Participants discover lesson plan development and methodologies for instruction. Additionally, strategies for assessment, diversity of populations, and the importance of collaborative partnerships with family and community are also explored.</td>
</tr>
<tr>
<td>ECE 207</td>
<td>Assessment in Early Childhood Education</td>
<td>3</td>
<td>This course provides an overview of a variety of assessment techniques in early childhood education, including assessment of children with special needs. There is a focus on structured observations, use of behavioral rating scales, psycho-educational screening tests, and assessment of parent-child interactions. Formal and informal parent contacts, interviewing techniques, the use of technology in the assessment process, and referrals to school and community resources are also explored. Emphasis is placed on developmental and differentiated assessment strategies for children, birth through age eight.</td>
</tr>
<tr>
<td>ECE 510</td>
<td>Effective Instruction for Early Childhood Education</td>
<td>3</td>
<td>This course focuses on the attributes and pedagogy specific to young children, in addition to theoretical models of curriculum development, instruction, and assessment that optimize teaching and learning in the early childhood setting. Participants examine methods for designing lessons and explore effective teaching strategies to promote learning.</td>
</tr>
<tr>
<td>ECE 511</td>
<td>Language and Literacy Methods in Early Childhood Education</td>
<td>3</td>
<td>This course focuses on theoretical and developmentally appropriate teaching methods in language and literacy for children from birth to age eight. Theories in language development, including second language acquisition, as well as the needs of English Language Learners are examined. Participants will explore research-based early literacy teaching strategies for engaging children in integrated listening, speaking, reading, and writing experiences. There is an emphasis on incorporating content area standards and developing hands-on learning experiences for young children. Additionally, developmentally effective assessments are discussed as a means of guiding instruction.</td>
</tr>
<tr>
<td>ECE 512</td>
<td>Early Childhood Assessment</td>
<td>3</td>
<td>This course examines the role, purpose, and applications of assessment in early childhood education. Participants explore developmentally appropriate assessment techniques and strategies in early childhood education to meet the needs of diverse learners as well as approaches to effectively select, design, and record assessments. Participants examine how to interpret and evaluate assessment outcomes to evaluate student development and to enhance curriculum planning. Additionally, this course provides an overview of collaborative partnerships such as school districts, parents, and community resources in the assessment process.</td>
</tr>
<tr>
<td>ECE 513</td>
<td>Early Childhood Growth and Development</td>
<td>3</td>
<td>This course focuses on the research, theories, and concepts related to early childhood growth and development. Participants examine the physical, motor, cognitive, language, literacy, social and emotional development of diverse children from birth through age eight. Family and cultural influences on early childhood growth and development are also explored.</td>
</tr>
<tr>
<td>ECE 514</td>
<td>Family/Community Involvement in Early Childhood Education</td>
<td>3</td>
<td>This course focuses on family and community involvement in early childhood education. Participants examine strategies for establishing and maintaining collaborative relationships with culturally diverse families and communities. Effective communication, engagement, and school partnerships are also explored.</td>
</tr>
<tr>
<td>ECH 205</td>
<td>Early Childhood Growth and Development</td>
<td>3</td>
<td>This course examines the theories, concepts, and trends related to early childhood growth and development from prenatal development through the early school years. It examines the physical, social, emotional, cognitive, and language development of children from birth through age 8 / grade 3. The course focuses on defining the various stages as they impact instructional practices and decisions in the context of the early learning environment.</td>

<td>ECH 211</td>
<td>Instructional Strategies for Early Childhood Education</td>
<td>3</td>
<td>This course focuses on the theoretical models that underlie teaching and learning in the early childhood setting, birth through age 8 or through Grade 3. Students examine appropriate methods for teaching all young children, explore lesson plan designs, analyze the most effective, research-based teaching strategies to promote student learning, and develop a lesson plan.</td>
</tr>
<tr>
<td>ECH 300</td>
<td>Orientation to Early Childhood Education</td>
<td>0</td>
<td>This course is designed to provide an orientation to the primary components of the Teacher Education Program. Students will be introduced to the program’s progression and degree completion requirements. Field Experience, E-Portfolio, Student Teaching, Teacher Work Sample and technology resources will be discussed.</td>
</tr>
<tr>
<td>ECH 301</td>
<td>Foundations of Early Childhood Education</td>
<td>3</td>
<td>This course provides an overview of early childhood education for children, birth through age 8. Historical foundations of early childhood education, the role of technology, professionalism, and trends and issues in education are introduced. Students will reflect upon their personal dispositional skills desired for an educational career and will create a personal philosophy of education.</td>
</tr>
<tr>
<td>ECH 302</td>
<td>Exceptionalities of the Young Child</td>
<td>3</td>
<td>This course provides an overview of the exceptional young child in early childhood education who may require accommodations and adaptations. The course focuses on developmentally-effective methods and techniques used for the identification, assessment, and instruction of children with special needs from birth to age 8. Legal structures, public policy, and information related to current practices serving exceptional young children in early childhood are also examined.</td>
</tr>
<tr>
<td>ECH 321</td>
<td>Developmentally-Effective Learning Environments</td>
<td>3</td>
<td>This course examines developmentally-effective strategies used in implementing and managing a positive and active early childhood learning environment within the framework of a diverse early childhood population. Topics include models of classroom management, establishing expectations and procedures, motivating children, family communication, managing off-task behaviors, technology integration, and materials management and record keeping. Students will develop an individual classroom management plan for an early childhood setting, birth through age 8 or Grade 3.</td>
</tr>
<tr>
<td>ECH 390</td>
<td>Early Childhood Student Teaching Seminar</td>
<td>1</td>
<td>This course focuses on the professional aspects of teaching. Learners will apply written and oral communication principles to their roles as educators, examine research methods for finding and evaluating resources, and develop effective skills in collaboration and critical thinking in preparation for their program and workplace.</td>
</tr>
<tr>
<td>ECH 400</td>
<td>Assessment and Evaluation in Early Childhood</td>
<td>3</td>
<td>This course provides exposure to a variety of assessment techniques in early childhood education. There is a focus on assessment strategies, tools, and resources, including the use of technology. Teacher candidates will learn to use assessment data for planning instruction and incorporating interventions, as well as communicating and developing partnerships with families. Emphasis is placed on developmental and differentiated assessment strategies for children, birth through age 8, including children with special needs.</td>
</tr>
<tr>
<td>ECH 416</td>
<td>Methods of Teaching in Early Childhood: Mathematics</td>
<td>3</td>
<td>This course focuses on mathematical methodology and assessment strategies for young children. Integration of content, appropriate instructional strategies, and curriculum and assessment planning are emphasized. Multiple perspectives of young children as learners of mathematics and current research on mathematics pedagogy are explored. Students evaluate and use instructional methods, curricular materials, technological resources, and appropriate assessment strategies. Special attention is given to using manipulatives in math instruction and developing problem-solving skills.</td>
</tr>
<tr>
<td>ECH 418</td>
<td>Community and Family Engagement</td>
<td>3</td>
<td>This course focuses on establishing and maintaining collaborative relationships among families, early childhood learning environments, and communities to support children’s learning and development. Candidates explore the topics of family diversity, building relationships, and the role of advocacy in early childhood education. Emphasis is placed on creating family and community partnerships as well as connecting students, families, and schools to available community services.</td>

**ECH 420**

This course focuses on understanding and using developmentally effective practices to teach and to integrate science concepts and skills in early childhood education (birth through age 8). Developing meaningful curricular content, modifications, hands-on learning experiences, and integration of early childhood content area standards are explored. A foundation in developmentally effective teaching and assessment of the content area is provided.

**ECH 430**

This course provides a foundation in developmentally appropriate content and methodology for the teaching of social studies in early childhood education (birth through age 8). Teacher candidates will explore content standards, instruction and assessment strategies, technology integration, and theoretical perspectives and practices related to early childhood social studies education. In addition, candidates will develop meaningful curricular content and hands-on learning experiences, as well as investigate strategies for creating an effective learning environment and opportunities for family and community involvement.

**ECH 435**

This course focuses on understanding and using the visual and performing arts to promote growth and development in early childhood education. Emphasis is placed on developmentally effective practices and integration of visual arts, drama or performing arts, and dance, movement, and music across the curriculum. Assessment, modifications, accommodations, culture, and family involvement through the arts are also explored. A foundation of effective teaching strategies and best practices in early childhood education are provided.

**ECH 496**

This course emphasizes the practical application of early childhood educational theories and methods. The course will focus on the following topics: the student teaching experience, the school culture, the learning environment, and planning, preparing, and implementing the Teacher Work Sample. The seminar also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

**ECH 497**

This course emphasizes the practical application of educational theories and methods. Participants will focus on the following topics: requirements and expectations for student teaching and teacher performance assessment, the school culture, planning instruction, and teaching planned lessons. The course provides a forum for open discussion and problem solving based on student teaching classroom experiences. Finally, learners will prepare and submit Task 1, 2, and 3 of the teacher performance assessment.

**ECH 498**

This course emphasizes the practical application of early childhood educational theories and methods. The course will focus on the student teaching experience and preparing to teach up to preschool-age children. The course also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

**ECH 499**

This course will focus on the design and implementation of the Kindergarten through Age 8/Grade 3 Teacher Work Sample. The course also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

**ECO 365T**

This course provides students with the basic theories, concepts, terminology, and uses of microeconomics. Students learn practical applications for microeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

**ECO 370**

This course applies the theoretical economics tools to environmental issues. Special emphasis will be devoted to analyzing the role of public policy regarding the economy and the environment.

**ECO 372T**

This course provides students with the basic theories, concepts, terminology, and uses of macroeconomics. Students learn practical applications for macroeconomics in their personal and professional lives through assimilation of fundamental concepts and analysis of actual economic events.

<td>EDD 723</td>
<td>Ethics and Values in Learning Organizations</td>
<td>3</td>
<td>In this course, the ethics and values-based decisions that learning organizations are faced with are explored in-depth. Case studies about ethical dilemmas are included for analysis. The roles of value education, codes of conduct, and codes of ethics are debated.</td>
</tr>
<tr>
<td>EDD 724</td>
<td>Instructional Leadership</td>
<td>3</td>
<td>In this course, students explore instructional leadership as an integrated practice to evolve their understanding of, and capacity for, advancing teaching and learning. Effective teaching and learning strategies are examined as they relate to motivating faculty, staff, and students, and creating dynamic learning environments. Additional topics include leading change in learning environments and counterbalancing resistance to change for faculty, staff, and students.</td>
</tr>
<tr>
<td>EDD 731</td>
<td>The Economics of Education</td>
<td>3</td>
<td>The principles and theories of the economics of education are examined. The role that federal, state, and local governments play in the economics of education is explored in-depth. Key topics include budget management grants, financial aid, expenditures and revenues, and the rising cost of education. Economic policy analysis is a focus in this course.</td>
</tr>
<tr>
<td>EDD 733</td>
<td>Evaluation and Assessment Methods</td>
<td>3</td>
<td>This course explores the evaluation and assessment methods utilized in learning organizations. The merits and faults of these methods are debated. Accreditation issues, outcomes based assessment, institutional research, and staff and evaluation are key topics. The influence of leadership style on evaluation and assessment methods also is examined.</td>
</tr>
<tr>
<td>EDS 799</td>
<td>Educational Specialist Capstone</td>
<td>3</td>
<td>The capstone course will require learners to integrate their program of study into an in-depth project that explores and inquires into a contemporary problem within the field of educational administration. The project will be based on library research and fieldwork and must demonstrate an approach to addressing the problem from a leadership perspective. Additionally, within this course, learners will complete a reflective self-assessment of their learning throughout the program.</td>
</tr>
<tr>
<td>EDT 711</td>
<td>Educational Technology Research</td>
<td>3</td>
<td>This course explores research on learning with technology. Focal areas include learner control, media preference, motivation, collaborative learning, and computer-mediated communication. Learners formulate conclusions based on refereed studies and consider the relationship between research design and questions.</td>
</tr>
<tr>
<td>EDT 721</td>
<td>Instructional Design</td>
<td>3</td>
<td>This course is designed to examine the foundations and development of instructional design principles and the learning theories that have impacted the field. Students will explore models and processes applicable to training and learning environments. Students will also examine emerging trends, issues, and the use of technology in instructional design.</td>
</tr>

<td>Distance Learning</td>
<td>3</td>
<td>This course traces the development of distance learning, including past, present, and future trends. Learners will relate social contexts and educational goals to the evolution of technologies and their intended support of learning. Learners will explore the delivery of instruction over physical distance, focusing on concepts such as transactional distance, cultural considerations, anonymity, privacy, and accountability. Team learning is heavily emphasized and applied in this course.</td>
</tr>
<tr>
<td>EDT 723</td>
<td>Instructional Media and Design</td>
<td>3</td>
<td>This course examines various types of technologies used in the development of instructional projects. Students explore the principles of instructional media design and their applications in content delivery, differentiating instruction, improving student engagement, and enhancing student learning. An emphasis is placed on identifying appropriate media formats and emerging technologies that are purposeful in facilitating learning in multiple environments.</td>
</tr>
<tr>
<td>EDT 731</td>
<td>System Analysis and Design</td>
<td>3</td>
<td>This course follows the phases of planning, needs analysis, design, implementation, and evaluation that are integral to large-scale instructional technology projects. Learners consider technology selection, vendor selection, organizational constraints, maintenance, and enhancements in an effort to address present and future needs. Learners focus on developing systemic solutions that avoid the pitfalls of piecemeal technology adoptions.</td>
</tr>
<tr>
<td>EDT 732</td>
<td>Integrating Technology and Curriculum</td>
<td>3</td>
<td>This course enables students to develop strategies for effective and appropriate leadership, and management for instructional technology projects. Technology selection, vendor selection, maintenance, and the needs of stakeholders are explored in an effort to address present and future organizational learning needs. A running theme of this course is system solutions for technology integration that meets the instructional needs of diverse organizations. A focus of this course is balancing the competing needs of emerging technology integration, stakeholders, and organizational constraints in a learning environment.</td>
</tr>
<tr>
<td>EDT 733</td>
<td>Technology Leadership</td>
<td>3</td>
<td>This course enhances the leadership skills and styles of educational technology leaders to promote success in evolving educational organizations. Students examine leading change through leveraging technology in educational organizations. Methods to lead technological change, manage the procurement process, and counteract resistance to technological changes are addressed. The importance of creating a standardized process and language for the integration of technology is of special focus. Benefits of technology and how they influence the strategic road map for the institution are also explored.</td>
</tr>
<tr>
<td>EDU 215</td>
<td>Ethics and Social Responsibility in Education</td>
<td>3</td>
<td>This course provides students with the opportunity to examine and apply legal and ethical issues within the context of an educational setting. Legal issues and their consequent impact on educators are discussed, analyzed, and applied to current educational practices. Emphasis is placed on the ways ethical and legal issues facing teachers affect student learning, and the critical thinking, decision making, professional, and personal conduct of teachers.</td>

This course focuses on the pedagogy and assessment strategies that enhance student learning of Hawaiian studies. Instructional approaches for the Hawaiian Studies content area within the framework of an integrated curriculum are explored, including the use of critical thinking and study skills. Methods for integrating Hawaiian history, cultural values, and Hawaiian heritage are emphasized. This course provides students with an opportunity to develop the ability to create performance-based activities and assessments, culturally-sensitive instructional methods, curricular materials and resources, and appropriate assessment strategies. Students develop a variety of data-collection tools designed to assess student learning.

This course emphasizes the practical application of education theories and teaching methods. Teacher candidates will focus on the requirements and expectations of student teaching, the teacher performance assessment, and planning and facilitating instruction. Candidates will also assess student learning and evaluate data to provide accurate feedback and improve student learning. Additionally, teacher candidates will prepare and submit all respective tasks of the edTPA.

This course emphasizes the practical application of education theories and teaching methods. Teacher candidates will focus on the requirements and expectations of student teaching, the teacher performance assessment, and planning and facilitating instruction. Candidates will also assess student learning and evaluate data to provide accurate feedback and improve student learning. Additionally, teacher candidates will prepare and submit all respective tasks of the edTPA.

This course emphasizes the practical application of education theories and teaching methods. Teacher candidates will focus on the requirements and expectations of student teaching, the teacher performance assessment, and planning and facilitating instruction. Candidates will also assess student learning and evaluate data to provide accurate feedback and improve student learning. Additionally, teacher candidates will prepare and submit all respective tasks of the edTPA.

This course emphasizes the practical application of education theories and methods. The course will focus on the following topics: the student teaching experience, the school culture, the learning environment, and planning, preparing, and implementing the Teacher Work Sample. The seminar also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

This course, a follow-up to EED/498, is the second of two courses that will help prepare you for the teaching profession. Each week you will make thoughtful instructional decisions, analyze learning, and reflect on the skills you've gained in order to create a professional teaching portfolio to use when applying for future teaching positions.

This course will focus on the elements of the CalTPA Task Four: Culminating Teaching Experience Task. The course explores the following topics: school culture and diversity, pedagogical assignments and tasks, self-reflection, and preparation to serve as a beginning teacher in an induction program. It also provides practical guidance in seeking a teaching position. This course will serve as a forum for open discussion and problem solving based on student teaching classroom experiences and their ability to use and apply the full-range of Teaching Performance Expectations.

This course focuses on instruction for English language learners (ELLs). It emphasizes knowledge of and sensitivity to the history and culture of other languages and ethnic groups, as well as to multiethnic curriculum and instruction. It provides strategies for effective instruction, including standards-based lesson planning and implementation models, and assessment of linguistically diverse K-12 students. In addition, the course addresses ways in which a learner-centered approach to teaching can provide ELLs with a greater opportunity to interact meaningfully with educational materials as they learn subject matter and acquire English.

<td>This course will explore the history and evolution of emergency management as well as roles of local, state, regional, and national agencies. Topics include roles and organizations comprising emergency management, leadership concepts, and technology and communication challenges.</td>
</tr>
<tr>
<td>EMC 320</td>
<td>Emergency Preparedness and Planning</td>
<td>3</td>
<td>This course examines the preparation and planning process for emergency and crisis situations from geographical, national and local levels. Topics will include concepts of response and preparedness, recovery and mitigation strategies, hazard analysis, vulnerability assessment, exposure pathways and response capability assessment.</td>
</tr>
<tr>
<td>EMC 330</td>
<td>Political and Policy Issues for Emergency Management</td>
<td>3</td>
<td>This course examines the political and policy environment which affects emergency management. The course is intended to help emergency managers develop an understanding of how local, state, and federal policies are developed and maintained. In addition, legal issues involving state and Federal law effecting emergency operations will be studied.</td>
</tr>
<tr>
<td>EMC 340</td>
<td>Emergency Services and the Community</td>
<td>3</td>
<td>This course will look at the social dimensions of community responses to disaster related issues. Emphasis will be placed on examining effective community outreach and preparation programs as well as distribution mechanisms for public information. In addition, students will assess demographic implications and their impact on emergency prevention activities and services.</td>
</tr>
<tr>
<td>EMC 350</td>
<td>Managing Emergency Response Operations</td>
<td>3</td>
<td>This course focuses on the principles and practices that promote effective disaster response operations in emergency management. Students will examine the roles and responsibilities of the participants in a crisis event, and identify possible problems associated with response operations such as inadequate preparedness measures, safety and site security, and communication. In addition, impact of disaster on response organization and personnel will be discussed.</td>
</tr>
<tr>
<td>ENG 110</td>

<td>Essentials of Contemporary Communication</td>
<td>3</td>
<td>This course covers the skills necessary for effective communication in professional environments and modern society. The course reviews basic communication theories and discusses the fundamentals of a variety of communication skills and various communication channels. This course emphasizes applying these skills to group and contemporary professional situations.</td>
</tr>
<tr>
<td>ENG 157</td>
<td>Multicultural Literature</td>
<td>3</td>
<td>This course provides students with an introduction to multicultural literature. Emphasis is placed on increasing students' awareness and understanding of the values, beliefs, and experiences of people from different cultures through literature.</td>
</tr>
<tr>
<td>ENG 210</td>
<td>English Composition II</td>
<td>3</td>
<td>This course extends practice in critical reading, writing, and thinking. Emphasis is given to developing an effective writing process that takes into account audience and rhetorical purpose.</td>
</tr>
<tr>
<td>ENG 222</td>
<td>Introduction to Technical Writing</td>
<td>3</td>
<td>This is a foundational course designed to introduce students to technical writing fundamentals and the technical writing career field. Topics include what technical writing is and how technical writing differs from other types of writing, technical writing best practices, and the career opportunities in the technical writing field.</td>
</tr>
<tr>
<td>ENG 230</td>
<td>Mechanics of Writing</td>
<td>3</td>
<td>This course provides an overview of the mechanics of American English grammar as it applies to academic reading and writing.</td>
</tr>
<tr>
<td>ENG 240</td>
<td>Introduction to Creative Writing</td>
<td>3</td>
<td>This course provides a foundation in writing creative fiction and nonfiction works. Students will be expected to produce original creative writings.</td>
</tr>
<tr>
<td>ENG 260</td>
<td>Folklore and Fairytales</td>
<td>3</td>
<td>This course explores the genre of folklore and fairytales and their role as cultural literary artifacts. Students will examine the construction, shaping, and use of folklore and fairytales in society.</td>
</tr>
<tr>
<td>ENG 265</td>
<td>The Short Story</td>
<td>3</td>
<td>This course examines the short story through notable works and writers.</td>
</tr>
<tr>
<td>ENG 270</td>
<td>Literary Interpretation and Analysis</td>
<td>3</td>
<td>This course introduces students to the conventions of various literary genres and the terms and vocabulary used to discuss and interpret literary and other written works.</td>
</tr>
<tr>
<td>ENG 280</td>
<td>Rhetoric and Critical Thinking</td>
<td>3</td>
<td>This course introduces students to rhetoric and critical thinking. Students will apply both formal logic and rhetorical principles to the study and practice of argument and persuasion.</td>
</tr>
<tr>
<td>ENG 295</td>
<td>Children's Literature</td>
<td>3</td>
<td>This course examines literature for children. Through an overview of a variety of genres and topics, students will develop an understanding of literature for young readers.</td>
</tr>

<td>This course develops a conceptual framework for understanding how recent and current events affect the financial environment. Financial markets are examined with a focus on their utilization by financial institutions, the pricing of financial assets, the impact of the Federal Reserve, the internationalization of financial markets, and the impact of recent events. Financial institutions such as insurance companies, commercial banks, and investment banks are covered. The institutions are described with a focus on regulatory aspects and management use of financial markets and performance.</td>
</tr>
<tr>
<td>FIN 370T</td>
<td>Finance for Business</td>
<td>3</td>
<td>This course introduces the student to the essential elements of finance for business. Emphasis is placed on financial management, financial markets, and the tools, techniques, and methodologies used in making financial decisions. Topics include: Financial planning, working capital management, capital budgeting, long term financing, and international finance.</td>
</tr>
<tr>
<td>FIN 375</td>
<td>Financial Management in the Small Business</td>
<td>3</td>
<td>This course focuses on the role that financial management plays in the development and sustainability of a small business. The course provides a detailed review of forecasting, budgeting, daily cash flow management techniques, and monitoring financial performance. Specifically, students will address funding, debt management, cash-flow management, and financial planning, from the small business perspective.</td>
</tr>
<tr>
<td>FIN 402</td>
<td>Investment Fundamentals and Portfolio Management</td>
<td>3</td>
<td>This course covers the theories and practices of investments including financial markets, risk and return, securities, asset allocation and diversification. Students will utilize analytical techniques available in the investment planning and selection process in the environment in which investment decisions are made. Students will apply finance models and investment strategies to analyze and manage investments for various types of organizations.</td>
</tr>
<tr>
<td>FIN 419T</td>
<td>Finance for Decision Making</td>
<td>3</td>
<td>This course addresses advanced principles in financial management and decision making. Emphasis is placed on providing relevant theory, best practices, and skills to effectively manage risk, time value of money, working capital, capital structure, the regulatory environment, and evolving issues in financial management.</td>
</tr>
<tr>
<td>FIN 420</td>
<td>Personal Financial Planning</td>
<td>3</td>
<td>This course provides an introduction to personal financial planning. Personal financial goals are examined with a focus on investment risk and returns, markets, and analysis tools useful in assessing financial situations.</td>
</tr>
<tr>
<td>FIN 422</td>
<td>Retirement and Benefit Planning</td>
<td>3</td>
<td>This course provides students with the tools necessary to create a retirement plan. After completion of this course, students will be able to identify the types of retirement plans, understand the implications of federal law on retirement plans, identify retirement plans and participation requirements, calculate tax deductions and contribution limits, and create a full financial plan, including retirement, for an individual.</td>
</tr>
<tr>
<td>FIN 486</td>
<td>Strategic Financial Management</td>
<td>3</td>
<td>This course gives students the opportunity to integrate previously learned finance and accounting concepts and practices to contemporary business strategies, while improving financial decision-making and problem-solving skills. In addition, students will examine real-world financial management scenarios in order to apply best practices resulting in increased value for various types of organizations.</td>
</tr>
<tr>
<td>FIN 571</td>
<td>Corporate Finance</td>
<td>3</td>
<td>This course applies corporate finance concepts to make management decisions. Students learn methods to evaluate financial alternatives and create financial plans. Other topics include cash flows, business valuation, working capital, capital budgets, and long-term financing.</td>
</tr>
<tr>
<td>FIN 575</td>
<td>Project Budget and Finance</td>
<td>3</td>
<td>This course focuses on the development of a financial plan. Students will develop a revenue forecast, draft a budget, and create a profit and loss statement. Students will identify sources of funding, understand the importance of a break-even analysis, and calculate and interpret performance measures for business decision-making and sustainability.</td>

This course introduces students to the principles of physical geography. Students examine the processes of Earth's physical environment as well as the human-environment interaction. Topics include plate tectonics, the rock cycle, landscape building, water resources, the relationship between the Earth and Sun, the elements of weather and climate, vegetation and soils, types and uses of maps, and human interaction with the environment.

In this course, participants explore the characteristics of and methods to identify gifted and talented learners, including underrepresented students. Programs, strategies, and supports for the diverse needs of gifted and talented learners are examined. Participants develop lessons and assessments to accommodate and foster the academic, social, and emotional development of gifted and talented learners.

This course focuses on the theory, research, standards, and practices necessary to adapt, develop, and sustain high quality curriculum and instruction for diverse gifted and talented learners. Participants examine strategies to enhance acceleration, depth, and complexity of learning. Participants explore creative student products, the use of technology, assessment, differentiation, collaboration, enrichment, and higher order processing skills in curriculum and instruction for highly able students.

This course provides an overview of evaluation methods and assessment of gifted and talented learners. Participants interpret different evaluation and assessment tools, identifying the pros, cons, and limitations of multiple assessments. Participants explore solutions and alternative assessments in the identification of gifted and talented learners. Strategies in the ongoing assessment process of gifted and talented learners are also examined.

This course prepares participants to enhance critical thinking skills in gifted and talented learners. Participants explore theories, teaching and assessment methods, instructional strategies, and technology related to the development of critical thinking skills in gifted and talented learners. Characteristics of gifted and talented learners, differentiated instruction, creative thinking, twice exceptional learners, and student engagement are also addressed.

This course introduces current and aspiring health administrators to the field of gerontology, and the systems and facilities that support these populations. Topics include an examination of the experiences of aging populations across the care continuum, myths and stereotypes of aging, and a survey of the demographic changes occurring in the U.S. that are resulting in larger elder populations.

This course examines the process of aging and explores health care programming and support systems that promote the health of the aging population. These topics are applied in a health administration context to disease prevention, health maintenance, and selected disorders that affect health and independent living.

This course examines social and cultural perspectives on aging and their implications for health administrators serving aging populations. Public and personal aspects of aging will be addressed. Topics will include work and retirement, social policy, older people as social and political forces, care needs, diversity, economics, social support, and disability.

This course will introduce the key concepts of geology by examining the Earth and the processes that take place within it. Topics will include historical geology, rocks and minerals, plate tectonics, igneous activity, mass wasting, weathering, and erosion systems.

This course introduces students to the fundamentals of electronic health records (EHR) utilized in the health care environment. Students will receive an overview of information systems, workflows, health information accessibility, as well as health care transactions and billing.

<tbody>
<tr>
<td>HCIS 250</td>
<td>Structure, Design, and Tools of Electronic Health Records</td>
<td>3</td>
<td>Students will learn about the evolving functions and uses of technology to support the documentation of vital health information contained in a patient’s electronic health record. This course will introduce students to software applications, claims and reimbursement information, as well as regulatory compliance requirements. Students will examine forms, routing, and reporting of patient records in a variety of healthcare settings. Students will use an electronic health record (EHR) software to reinforce quality and data management of patient information.</td>
</tr>
<tr>
<td>HCIS 270</td>
<td>Application of Electronic Health Records</td>
<td>3</td>
<td>Students in the capstone course for the electronic health records (EHR) will continue to use an EHR software application to develop foundational skills related to administrative tasks, data charting, insurance and billing, regulatory compliance, and reporting. Students will demonstrate mastery processing an electronic health record.</td>
</tr>
<tr>
<td>HCIS 305</td>
<td>Terminology and Culture of the Healthcare Industry</td>
<td>3</td>
<td>This course provides students with a foundational set of health care terminology utilized in a variety of health care settings and applications. The courses also provides an overview of the various personnel and forms of provider service models in the health care delivery systems. Topics will include common disease manifestations and processes that impact the delivery of health care services.</td>
</tr>
<tr>
<td>HCIS 318</td>
<td>Health Care Industry Terms for IT Professionals</td>
<td>3</td>
<td>This course provides students with basic health care industry terms in a variety of health care work settings for information technology professionals. Students will review terms and concepts related to emerging technologies, the structure and roles within health care, and the privacy and security considerations needed for health care systems.</td>
</tr>
<tr>
<td>HCIS 352</td>
<td>Foundations of it in the Health Care Environment</td>
<td>3</td>
<td>This course provides an overview of the integration of technology within the health care industry. Students will examine systems, networking and database concepts, the processes used in the selection and application of electronic health records, and the evaluation of future information technology systems. Methods to make informed business decisions related to the use of technology in health care will be addressed.</td>

This course identifies and defines the types of risks that information systems professionals need to consider during the development and implementation of health care information systems. This course will survey remedies and prevention techniques available to address risk and security management. Health care organizational policies and current regulatory considerations will also be examined relative to development, implementation and use of computer based information systems.

The learner will explore the purpose and organization of compliance in the health sector as well as the role of compliance and compliance officers. Topics include regulatory agencies, accreditation, professional licensing, enforcement, quality, and policies.

The learner will examine structures and systems of healthcare organizations and how they inform the responsibilities of a compliance professional. Course topics include the ethical responsibilities of compliance, HIPAA and OSHA, and other compliance-related healthcare standards and regulations including whistleblower protection in the U.S.

The learner will compare and contrast auditing and monitoring in healthcare compliance. The course focuses on report writing using root cause analysis and corrective action plans, as well as the industry-accepted process of presenting these plans to compliance boards and committees.

The learner will create a compliance program and present it in in their chosen healthcare sector, in a manner currently accepted by the healthcare industry. Course topics include policies and standard operating procedures, training and education, documentation and presentation.

This course is designed to provide students with a framework for managing the application of clinical data to the patient record. Students will examine predominant medical billing and coding manuals and will demonstrate use of codes.

This course is designed to provide students with an understanding of health care reimbursement systems. Students will become familiar with the various medical insurance plans offered by health care payors.

This course is designed to provide students with an understanding of the management of patient records through the practices and processes of filing claims. Students will focus on the knowledge and skills essential for completing insurance claim forms in the health care setting. HIPAA and compliance requirements will also be covered.

This course offers students engagement and interaction with the dynamic language of health care. Through comprehensive discussions and activities, students will have the opportunity to be immersed in the words used in health care.

This course offers students the foundational knowledge and skills to communicate in a variety of workplace settings. Students will focus on business writing correspondence, communication technologies, and effective communication strategies for the health care industry.

This course introduces students to fundamental financial concepts related to the health care industry. Students will learn about basic insurance procedures, bookkeeping processes, and budgets commonly used in a variety of health care settings.

This course is designed to introduce students to basic terminology, roles, and diseases related to the cardiovascular, respiratory, gastrointestinal, and urinary systems. The content provides a fundamental baseline for coding and billing applications to help build a foundation for students who are pursuing the medical coding and billing track.

This course is designed to introduce students to basic terminology, roles, and diseases related to the nervous, endocrine, musculoskeletal, reproductive, and dermatological systems. The content provides a fundamental baseline for coding and billing applications to help build a foundation for students who are pursuing the medical coding and billing track.

This course provides an understanding of the fundamental concepts of accounting applied in the health care environment. Students will examine accounting practices and procedures to support managerial decision making within the health care organizations.

This course provides an overview of the financial economics of health care. Concepts such as payments systems, economic trends, financial statements and budgets are covered.

This course provides foundational project management skills used within a variety of health care settings. Topics include project scoping, time estimating, budgeting, and controlling to improve outcomes, streamline processes, and increase efficiencies for health care managers.

This course covers the broad range of topics affected by law and regulation ranging from patient rights to corporate responsibilities. Health care regulatory agencies and state and federal agencies are examined as well as their impact on the operation healthcare as a business. Legal issues ranging from professional malpractice to corporate wrongdoing are also discussed. **Updated Description 3/1/04** This course covers the broad range of topics affected by health law and regulation ranging from patient rights to corporate responsibilities. Public and private health care regulatory agencies are examined as well as their impact on the operation of health care as a business. Legal issues ranging from professional malpractice to corporate wrongdoing are also discussed.

This course examines the basic principles and concepts of the aging process, including the physical, social, emotional, and mental components of health. Benefits of health promotion and preventive action for the aging are also explored.

This course will introduce students to the legal and regulatory challenges of facility planning and development. Students will analyze facility designs, discuss future health care consumer utilization trends, as well as examine the regulatory compliance requirements.

Students in this course summarize their learning and formulate strategies to manage various challenges they will encounter in the health care environment. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.

This course examines the relationships between health care quality and organizational performance management. The student is introduced to the rationale for performance management and the role of the governing body of the health care organization in ensuring compliance with the standards of regulatory and accreditation organizations. Methods for assuring quality in process and outcome management are described, as well as the significance and statistical application of measuring outcomes. Various health care customers are identified. Changing trends in the provision and reimbursement of health care services are reviewed.

This course will introduce the student to the intricate processes that public policymakers use to influence the health status of a society. The role of economic theory, interest groups, and the various levels of government involved in policymaking will be examined. A historic review of trends will be evaluated, and the challenges of future health care delivery will be examined.

This course introduces students to issues related to risk management in health care. Concepts will include the tasks of the risk manager, regulatory requirements, and risk factors unique to the health care industry.

HEA 732: In this course, students will explore contemporary curriculum issues including creating appropriate learning outcomes, developing high-impact educational practices, and striking a balance between general education and major courses. The course will also focus on using evidence-based decision making in program/course curriculum development and change processes. Program evaluation models and methods and accreditation processes utilized in higher education will be explored.

HEA 733: This course will provide a comparative perspective of higher education systems in countries around the world. The relationship between educational systems and historical, social and political factors will be evaluated. International governance structures and accreditation processes will be analyzed and compared. Current international issues in higher education will also be explored.

HINF 500: This course presents informatics as a strategic tool for the health administrator in sourcing and utilizing data.

HINF 510: This course will focus on the systems life cycle in the context of selection, implementation, and integration of information systems across the health sector. Topics include performing interoperability assessments, determining key elements of data system designs, planning for end-user training and support, and securing buy-in from stakeholders.

HINF 520: This course will explore the ways in which data provides the foundation for healthcare information systems. Topics include the concepts of information and knowledge, as well as systems operations, reporting mechanisms, data exchange, and data taxonomies.

HIS 110CA: This course recounts the story of the United States by looking at the experiences of the many diverse races and nationalities. When woven together, these diverse races and nationalities have created this country. Students will learn to appreciate the contributions of various peoples which have made contributions to the American culture. Particular emphasis will be placed on America’s colonial origins, the American Revolution and the creation of a republican government under the Constitution. Emphasis is also placed on westward expansion, section divisions over slavery and causes/consequences of the Civil War.

HIS 210: This course provides an overview of Arizona history from its pre territorial days to the present. Participants examine the original intent and current influence of the Arizona Constitution and the constitutional issues impacting Arizona. County government and municipalities, including the organization and funding of schools, are also addressed.

HIS 301: This course is an introduction to the historical, political, philosophical, and economic roots of the U.S. Constitution. It first reviews the philosophical arguments of the Federalists and the Anti-Federalists, those that supported and opposed ratification of the Constitution. The course then examines milestone Supreme Court decisions and the Court’s evolving interpretations of the Constitution. This course focuses on the first ten amendments of the Constitution, known as the Bill of Rights, and the issues of slavery and civil rights as seen through major court decisions.

HIS 305: This course provides students with the political, economic, and social history of California until the 1850s. Topics include the indigenous tribes of California, pre- Columbian California, the early exploration and founding of California, Mexican rule, and the Gold Rush.

HIS 306: This course provides students with the political, economic, and social history of California from the 19th Century through modern time. Topics include the California state Constitution, immigration and diversity, modern industry, and contemporary issues facing the state.

HIS 335: This course discusses the causes and history of World War I, the interwar era, and World War II, with a particular emphasis upon social, political, and economic developments during the period.

This course provides an overview of the advanced concepts that make up the hospitality industry. Students will gain a current perspective and understanding of the impact of hospitality while examining operations, security, maintenance, and managerial challenges and responsibilities within the industry.

This capstone course integrates the principles and concepts of hospitality operations management. Upon completion of this course, students will be able to prepare a service delivery model, evaluate financial data for decision-making, and develop sales and marketing strategies for a hospitality organization.

This course will help students identify the importance of a healthy lifestyle with the knowledge of human movement and motor skills. Students will explore the principles of exercise science and its impact on health, while developing self-confidence and self-worth. This course also defines and provides a context for the classroom teacher to teach and assess K-8 students in the area of physical education and health based on state and national standards. This course includes framework-based teaching strategies effective in helping K-8 students develop a variety of motor skills and abilities, recognize the importance of a healthy lifestyle and the goals of lifelong health, gain knowledge of human movement, understand growth and development, and learn the rules and strategies of games and sports. Instructional approaches for the integration of physical education and health with other content areas are explored.

This course focuses on selecting and developing teaching strategies to facilitate student learning in health professions education contexts. Principles of adult learning provide the basis for developing and utilizing effective methods for different student learning styles and instruction modalities.

This course will focus on health administration curriculum design in higher education and/or corporate settings. The learner will propose a program concept, develop its mission and vision, and create its program and course objectives. Topics also include the ADDIE model, curriculum mapping, and implementation plans.

This course will focus on best practice strategies for assessment and evaluation of health professions education programs. Rubric creation and collection and utilization of program/course feedback in higher education and corporate settings will be discussed.

This course will help students to have a solid understanding of the fundamentals of human resource management and its strategic relevance in business today. This course will provide students with a critical perspective on the development of human capital in the context of a unified system of attracting, retaining and developing talent that creates and supports the vision and values of the organization. Students will develop an understanding of the critical business implications for human resource professionals today.

This course examines both the human and organizational aspects of change. Topics include identifying the types and sources of change, human and organizational resistance to change, theories of managing change, and developing skills that will enable the student to lead, implement, and sustain change.

This course explores topics in basic total compensation design and decision-making. It will provide the student with knowledge required for planning, developing, and administering total compensation programs that are compliant with government laws and regulations. Topics include wage decisions, budgeting, benefits, incentive plans, and retirement plans.

The course provides an introduction to the most prominent forms of media that influence and impact social, business, political, and popular culture in contemporary America. It explores the unique aspects of each medium as well as interactions across various media that combine to create rich environments for information sharing, entertainment, business, and social interaction in the United States and around the world.

This course provides an introduction to how data is architected and organized. It discusses the different data models used to store data, it outlines several schemas that drive how data is structured, and provides other database concepts relating to the design and architecture of data.

This course provides an in-depth look at several intermediate design and architecture concepts. The course outlines the design method used in the creation of a relational database, the required steps to reengineer a database, and several tools and techniques used through the database design process.

This course will introduce students to data analytics and modeling through contemporary business tools. Students will examine how data is architected and organized. After completion of this course, students will be able to understand the different data models used to store data, several schemas that drive how data is structured, and provide other database concepts relating to the design and architecture of data.

This course will use APA and SHRM guidelines to explore ethical dilemmas and organizational responses to these issues. Topics will include the law and personnel management, crisis/public relations management and ethical decision-making. Students will analyze case studies related to these issues.

This course provides students with the concepts of different types and ecosystems of organizations: corporate giants, non-profit service providers, leading edge start-ups and military and governments. The course examines competing organizational dynamics including structural, human relations, political, and symbolic. Topics include types and characteristics of organizations, learning organizations, and dealing with organizational ambiguity and complexity.

This course is designed to give students an understanding of group dynamics and small group processes. Topics explored include power, perception, motivation, leadership, decision-making, and team-building. The learning team concept will be utilized to examine many concepts of group dynamics in an organizational setting.

This course will examine various assessment methodologies currently used in the industry to assess organizational talent, leadership, and culture. Analysis of organizational assessment tools and results will help students recognize the usefulness of these tools and their application in an organization.

This course is designed to prompt reflection and focus on the entire program learning experience. Students will integrate core concepts learned throughout the program and will demonstrate proficiency with these concepts in a final project.

This course addresses the relationship between supply chain management and procurement. This includes overview of both the procurement process and the supply chain interdependencies. Students will address procurement from strategic, tactical, and operational perspectives.

This course will provide a brief overview of supply chains and an in-depth perspective on strategic supply chain management. This course focuses on the strategic elements and functional relationships within manufacturing and service supply chains. Emphasis is placed on the integration of strategic planning, sourcing, operations, and logistics to achieve sustainable competitive advantages locally and globally.

<tr>
<td>IST 724</td>
<td>This course builds on foundational Information Systems and Technology (IST) concepts, management, and models introduced in IST/710 and other Doctor of Management (DM) courses and offers the opportunity to view and apply them at the organizational level. As the second course in the IST focus area of the DM program, IST/724 is precursor to coursework that will broaden beyond the organization to the global setting and finally into the realm of leading IS architecture and implementation. The major content areas (sub-domains) included in this course are: complexities of IT and of organizations; alignment of IT to the organization; and teams, models, and organizational effectiveness. At this level of learning (and management), the subjects are intertwined. Course readings are geared more to a balance every week within the scope of the course than to a strict adherence to that week's major topic. Upon completion of this course, the learners will be prepared to define and analyze issues related to the management and support of information systems and technology necessary to align to and support organizational objectives.</td>

**IST 731 Partnership and Industry Information Systems**

This course extends the learning from previous intracompany relationships to external IS organizational relationships. Upon completion of this course, the learner will be prepared to define, evaluate, and plan the application of IST domains that must be considered when developing partnerships and common industry relationships.

**IST 732 Global Information Systems Management**

This course extends the examination of the IST domains studied throughout the program to the global level. Learners will examine the application of the IST domains in the setting of a global economy and international business environment. Learners will be prepared to define the common information system (IS) management approaches for the development of business systems that can support global information systems requirements.

**IST 733 Information Systems Management Architecture**

Upon completion of this course, learners will be prepared to manage and lead the analysis and planning of strategic and tactical information systems that address the considerations of all IST domains examined in the IST specialization courses. Additionally, this course will include an examination of potential dissertation topics from the domains and spectrum of organizational levels explored in this program.

**IT 200 Digital Skills for the 21st Century**

Digital Skills for the 21st Century is a course focused on the impact of digital technology on today's businesses, the economy, and society. Rapid advances in technologies are creating benefits and efficiencies for those businesses that recognize their advantages and pitfalls, and harness them to their advantage; those who can't are left behind with competitive disadvantages. Today's workforce needs to understand these trends, recognize key differences among features and approaches of these technologies, and apply them effectively. Specific topics in this course include cloud computing, unified communication platforms, cyber security, social media, and mobile computing.

**JRN 310 Introduction to Journalism**

This course is the introduction to the journalism concentration. The role of the journalist will be described from its origin to the emergence of the modern-era journalist. Key journalistic theories and principles will be discussed. Special attention will be given to influences in journalism and qualities that exemplify journalistic writing. The concepts of journalistic writing, research, technology, ethics, and personal responsibility will be introduced. Controversial issues faced by journalists will be highlighted throughout the course.

**JRN 320 Research for Journalism**

This course focuses on the research methods employed in journalistic writing and reporting. The goal of this course is to enhance the understanding of the characteristics of credible sources and accurate information. Information will be assembled and evaluated to support journalistic goals by interpreting information needs, choosing accurate and unbiased sources, and selecting relevant and reliable information. The importance of employing ethical practices to research techniques is emphasized throughout the course.

**JRN 330 Journalistic Writing I**

This course focuses on understanding journalistic writing styles. The course begins by categorizing historical media and associating past writing styles with current styles. Differences will be identified in writing for various audiences for print, digital, and broadcast media. The rationale for using certain writing styles will be illustrated and expressed. Throughout the course, the roles of research, editing, and ethics in journalistic writing will be emphasized.

**JRN 340 - Journalistic Writing II**
This course focuses on the application of the diverse journalistic writing techniques used in today’s changing media landscape. The goal is to enhance storytelling skills by informing and engaging audiences using various delivery methods. Written media messages will be designed and assessed by determining which writing styles should be utilized given the target audience. Within the new convergent media landscape, credible resources will be identified, materials evaluated, and details of written work summarized. The association between research and responsible writing will be explored, as writing strategies to craft effective messages are developed. The role of ethics in journalism is emphasized throughout the course.

**JRN 350 - Controversial Issues in Journalism**
This course examines the rise of social media and the immediacy in which controversial issues are communicated in journalism. This course focuses on developing the writer/reporter’s ability to critically examine and react to specific media elements, including public opinion, trends, celebrity commentary, and the public’s need to know. Emphasis is placed on understanding the nature and characteristics of thought-provoking mass media occurrences. Concepts of idea generation and storytelling in an ethical and personally responsible manner are highlighted.

**JRN 360 - Storytelling: A Multimedia Approach**
This course focuses on the role of technology and its impact on news delivery. The use of technologically advanced multimedia formats will be explored. Stories will be adapted to various media outlets to realize the full range appeal to targeted audiences. The goal of this course is to provide students with experiences in storytelling that are delivered through the use of advanced convergent technologies.

**LAW 531T - Business Law**
This course prepares students to evaluate the legal risks associated with business activity. Students will create proposals to manage an organization’s legal exposure. Other topics include the legal system, alternative dispute resolution, enterprise liability, product liability, international law, business risks, intellectual property, legal forms of business, and governance.

**LAW PA513 - Law and Public Administration**
This course prepares students to apply legal concepts in public administration. Students will analyze legislative and judicial processes in the administration of state and local governments. Other topics, at the state and local level, include enabling laws, regulatory review, open-meeting/sunshine provisions, adjudication, and the Administrative Procedures Act.

**LCO 336 - Organizational Communication Theory**
This course identifies the nature of organizational communication and provides seminal organizational communication theories within the context of the traditional, interpretive, and critical perspectives. Students will gain knowledge of core theories along with the organizational dynamics of culture, diversity, and ethics. They will understand the effects of technology and innovation, along with power, conflict, organizational structure, and the need for organizations to develop informed organizational communication strategies.

**LCO 348 - Advanced Group Communication and Leadership**
This course focuses on the issues of group dynamics and leadership encountered when dealing with complex, strategic, and critical public or corporate entities. It will build on the fundamentals of group dynamics and leadership, which were covered in previous courses, and provide advanced work in theory of groups and theory of leadership. Students will explore and analyze effective group interaction in task-oriented situations, and consider small-group structures and communication styles that influence the problem-solving process.

**LCO 465 - Conflict Management**
This course will explore advanced methods for dealing with intrapersonal, interpersonal and group conflict. Students will investigate and apply the theoretical and practical aspects of situation assessment, conflict management, negotiation, and mediation, giving them opportunities to improve their communication, critical thinking, and problem solving skills.

This course will focus on the strategic implementation of social media tools as they relate to a firm’s integrated marketing communication strategies. Students will learn how to effectively use social media to improve external communication, marketing and advertising by studying and analyzing websites, social media sites, and affiliate sites to determine how successful companies utilize social media to improve their communication and attract their target audience to achieve their business goals.

This course provides a foundation of understanding of leadership and its role in managing people and systems. This course will cover key leadership elements such as effective leadership behavior, power and influence, the differences between leadership and management, leading change, intrapreneurship, and how an innovative mindset impacts people and systems in a continually changing global and virtual environment.

This course provides an overview of leadership theories, models, and principles. Students will gain insight into effective leadership attributes, leadership styles, organizational vision, corporate responsibility, and ethical practices.

In this course, students will examine practices used to engage, inspire, and successfully lead people and organizations, with a focus on motivation, behavioral management, employee development and empowerment, diversity, culture, and performance improvement.

Effective decision making takes a variety of perspectives and information into account, using reliable sources and reasoned approaches in support of an overall strategy. This course investigates business tactics and problem-solving techniques used in long- and short-term planning, organizational governance, innovation and creative disruption, and efficiency improvement. Topics include business model analysis and design, resource allocation, quality enhancement, contingency planning, and entrepreneurship.

Timely, informative, and inclusive communication is the cornerstone of successful leadership. In this course, students will examine communication techniques used to build organizational culture, improve customer experiences, and effectively negotiate, persuade, and inspire others.

This course provides an overview of operational and technological considerations involved in project management and organizational change. Topics include workflow management, technology integration, mentorship and succession planning, adaptability, and transformational leadership practices.

The applied leadership capstone provides students with an opportunity to integrate content from throughout the program and demonstrate vital leadership principles and skills.

This course provides students with an overview of inclusive leadership practices used to effectively manage and motivate employees, with a focus on cultural awareness, workplace diversity, intercultural communication strategies, change management, employee development and empowerment, and performance improvement.

This course applies leadership concepts to create organizational change. Students will create a plan to lead an organizational change in which they have no direct authority over necessary decisions. Other topics include leadership theories, organizational theory, levels of organizational change, and transformational leadership.

In this course, students explore the theoretical and applications-based fundamentals of leadership to advance their skills and knowledge as scholar-practitioner-leaders.

<td>MFCC 502</td>
<td>Graduate Portfolio I</td>
<td>0</td>
<td>Portfolio I is an admission readiness assessment which samples and evaluates the student’s cognitive, affective, and behavioral skills for a career in professional psychotherapy and counseling. It is a 6-week workshop, noncredit assessment that helps determine student appropriateness for the program and gives the potential student the opportunity to evaluate his or her aptitude for the counseling program. Portfolio I must be passed before a student may be admitted to the Master of Counseling/Marriage, Family, and Child Therapy program in the College of Social and Behavioral Sciences.</td>
</tr>
<tr>
<td>MFCC 503</td>
<td>Graduate Portfolio II</td>
<td>0</td>
<td>Portfolio II is a competency evaluation of professional dispositions and readiness to progress in the Master of Counseling/Marriage, Family, and Child Therapy program. Portfolio II provides an integrative experience requiring the student to bring together all of what has been learned in previous courses in the program and to demonstrate how that learning has been applied. Topics include professional and personal development; application of theory to practice; and sensitivity to diversity issues. Students will demonstrate intake, assessment, and treatment planning abilities. The Portfolio II course is 2 weeks in length, with significant synchronous interactions with faculty and peers.</td>
</tr>
<tr>
<td>MFCC 504</td>
<td>Individual and Family Development Across the Life Span</td>
<td>3</td>
<td>This course addresses various dimensions of human development from infancy to old age. Emphasis is placed on biological, cognitive, and psychosocial development within the context of gender, family systems, social roles, and culture. Some topics included will be childbirth, child rearing, parenting and step-parenting, aging, long term care, end-of-Life and grief. Students evaluate clinical situations and assess potential therapeutic interventions in context.</td>
</tr>
<tr>
<td>MFCC 505</td>
<td>Graduate Portfolio III</td>
<td>0</td>
<td>Portfolio III is 2-weeks in length, with significant synchronous interactions with faculty and peers. The final Portfolio focuses on the practical application of Marital and Family Counseling/Systems Approach using advanced counseling skills and competencies. This Portfolio is used to assess professional dispositions and readiness for work with diverse populations during clinical placement in practicum and internship courses. Specific topics include professional orientation, professional identity, personal growth, and self-care.</td>
</tr>
<tr>
<td>MFCC 506</td>
<td>Personality Theories and Counseling Models</td>
<td>3</td>
<td>This course explores models of personality theory, psychotherapy, and counseling practice, including psychodynamic, affective, cognitive behavioral, humanistic, interpersonal, multicultural, and systems theory. It incorporates evidence-based practices and cultural diversity issues allowing students to establish a strong theoretical foundation as the basis of clinical practice.</td>
</tr>
<tr>
<td>MFCC 510CA</td>
<td>Multicultural Counseling</td>
<td>3</td>
<td>This course covers multicultural counseling within the context of a mental health recovery-oriented care model. It addresses multicultural development and cross-cultural interaction involving the psychological, psychotherapeutic, community and health implications with specific attention on California cultures. Emphasis will be on integrating awareness, knowledge, and skills related to counseling differences and similarities based on age, race, ethnicity, national origin, religious affiliations, gender identification, sexual orientation, physical/mental limitations, social class, socioeconomic position, etc.</td>

<td>The course examines the history, biochemistry, main effects and side effects of prescription psychotropic medication and biological bases of human behavior in relation to cognition, emotions and mental health. Topics include an overview of neuroanatomy and biochemistry, biological concepts of mental distress, and principles of drug action and metabolism. Ethics, methods of working with medical personnel, and the effects of psychotropic medications on the family system are included.</td>
</tr>
<tr>
<td>MFCC 525</td>
<td>Research Methods in Counseling</td>
<td>3</td>
<td>This course provides an overview of the fundamentals of research and evaluation in the counseling profession. Topics include critical analysis of research literature, statistical analysis, qualitative and quantitative research methods, needs assessment, and program evaluation. Emphasis is placed on understanding connections between research design, theories, and the utilization of results in the professional practice of counseling.</td>
</tr>
<tr>
<td>MFCC 537</td>
<td>Child and Adolescent Counseling</td>
<td>3</td>
<td>This course exposes students to a variety of models in the treatment of children and adolescents, including the developmental variables that may have an effect on behavior and family intervention. Systemic approaches to treatment of chronic illness, incest, delinquent behavior, adolescent chemical dependency, child suicide, psychosomatic disorders, families in crisis, fire setting, school phobia, and other behaviors and learning problems are explored.</td>
</tr>
<tr>
<td>MFCC 538</td>
<td>Psychometrics</td>
<td>3</td>
<td>This course covers psychological testing with an emphasis on learning how to integrate testing as an additional tool in counseling. Tests most commonly encountered in the counseling field are identified and reviewed, and the following components are discussed: psychometric properties of tests, test selection criteria, administration, interpretation, and reporting of test results.</td>
</tr>
<tr>
<td>MFCC 541</td>
<td>Career and Vocational Counseling</td>
<td>3</td>
<td>This course provides the student with a comprehensive overview of vocational theory and career counseling. It includes the historical foundations of vocational theory and the relationship of these to skills and techniques utilized in career counseling and vocational development practices. Vocational and career counseling is examined as an integral component of the overall assessment and treatment of clients representing diverse populations found within the scope of community, mental health, and marriage and family counseling. Emphasis is placed on the examination of adults in transition and the nature of work in a changing world. Students develop competencies necessary to provide career and vocational counseling to clients across the lifespan.</td>
</tr>
<tr>
<td>MFCC 544</td>
<td>Introduction to Clinical Assessment</td>
<td>3</td>
<td>This course introduces students to models and tools of assessment and diagnosis for the purpose of developing competency in evaluation and treatment planning for professional counseling practice. Students learn about and practice intake assessment techniques, mental status examinations, suicide risk assessment and Intervention, using the Diagnostic and Statistical Manual of Mental Disorders (DSM), outcome-based treatment planning, and behavioral analysis. Emphasis is placed on writing clear, accurate, and useful assessments and treatment plans. Multicultural and ethical issues in assessment are also explored.</td>
</tr>
<tr>
<td>MFCC 548</td>
<td>Psychopathology: Advanced Clinical Assessment</td>
<td>3</td>
<td>Students build on the skills gained in previous courses, focusing on the more complex or problematic disorders. Students enhance their skills by using the Diagnostic and Statistical Manual of Mental Disorders for report-writing and treatment plan development. Emphasis is on accepted treatment approaches and outcome-based assessments; the development of critical-thinking skills; and on multicultural, legal, and ethical issues.</td>

**MFCC 564: Human Sexuality and Couples Counseling**

This course prepares students to understand and treat issues involving individual human sexuality and to use the current developmental and systemic methods to treat couples in distress. Topics include the physiology, psychology, and social cultural variables associated with sexual behavior, gender identity, and assessment and treatment of psychosexual dysfunction. Students will develop familiarity with the language and terms of sexology and demonstrate an ability to apply this knowledge to clinical situations. Students will gain intensive skill building in systemic couples treatment for premarital relations, marriage, committed partnerships, multi-partner relationships, parenting, blended families, and separation/divorce/widowhood. Students will demonstrate competency in working with culturally-diverse populations using a mental health recovery oriented care model.

**MFCC 566: Advanced Marriage and Family Therapy**

This course requires students to apply marriage and family theory and skills acquired throughout the program and allows them to gain a deeper understanding of working with diverse families. Students will go through the process, from intake to termination, of working with a family in a role-play setting incorporating practical applications of assessment, treatment planning, therapeutic interventions, progress notes, and termination summaries. Family interventions will be emphasized, including interventions for families in acute and chronic crisis, and for various ethnic family systems.

**MFCC 567: Seminar in Marriage and Family Counseling**

In this course, students will be required to apply marriage and family counseling theory, along with therapy skills acquired throughout the program. Students will gain a deeper understanding of working with diverse families, families in transition, families with mental health issues, families facing crisis and trauma, along with current trends in marriage and family counseling.

**MFCC 568: Group Counseling**

This course provides students with intensive knowledge, awareness, and skill-building in group counseling. Content emphasizes such areas as different types of groups, dynamics, norms and boundaries, leadership styles, leading and co-leading, and treatment plans. Confidentiality, selection procedures, ethics, and diversity are included as key components of effective group counseling practice.

**MFCC 591O: Orientation to Practicum in Marriage and Family Counseling**

This course is an orientation to the pre-practicum and practicum courses.

**MFCC 592: Practicum**

This course focuses on the assessment and continuing development of student counseling skills. Students have a variety of opportunities to receive feedback and to evaluate their ability to integrate theory into practice. Students determine their styles and strengths as professional counseling practitioners, as well as identify areas needing further development. Individualized practice sessions and feedback are designed into the course.

**MFCC 597A: Internship A**

The Marriage/Family/Child Counseling Internship is a clinical experience required of all MFCC students. The internship is divided into two sections, each lasting 15 weeks. The internship experience comprises Portfolio III of the counseling portfolio series. Students are placed in community agencies where they provide clinical marriage/family/child counseling services to clients under the direction of an approved licensed site supervisor.

**MFCC 597B: Internship B**

The Marriage/Family/Child Counseling Internship is a clinical experience required of all MFCC students. The internship is divided into two sections, each lasting 15 weeks. The internship experience comprises Portfolio III of the counseling portfolio series. Students are placed in community agencies where they provide clinical marriage/family/child counseling services to clients under the direction of an approved licensed site supervisor.

**MGT 230: Management Theory and Practice**

This course explores the rich field of management in theory and practice, and as both a science and an art. Students learn to apply management concepts to current workplace issues. Other topics include increasing competitive forces, expectations for successful performance of employees and organizations, and achieving desired business goals.

This course prepares students to understand the influence that behavior has on leading and managing organizations. After completion of this course, students will be able to describe the role of a manager within an organization, summarize key concepts and terminology related to organizational behavior, explain the influence of leadership styles on individual performance, examine the roles and interaction of group and team members, describe the relationship between job fit, job satisfaction, and job performance, and the relationship between the human resource function and organizational development.

This course provides an overview of the managerial and entrepreneurial skills needed to operate and manage a small business in the hospitality industry. Special emphasis is placed on business planning, marketing, financial management, and the regulatory environment.

In this course, students will examine primary business functions, economic systems, operational processes, and decision-making principles used to effectively manage business operations.

This course explores the rich field of management in theory and practice, and as both a science and an art. The course also addresses the role of managers in the current world of rapid change, increased competitive forces, and increased expectations for the successful performance of employees and organizations. The focus is on some of the ways and means of achieving desired goals. The student will leave this course with a solid background in the nature and work of management and managers. Applications of concepts to current workplace issues will be stressed.

This course will provide students with an overview of the role that business analytics has in the preparation and implementation of change management throughout a project. Students will examine the functions of change management to apply them to activities to meet the strategic and operational plans of an organization. Upon completion of this course, students will understand the importance of the integration of data and decision making on change processes and project management methodologies to implement changes throughout an organization. Focus will also be on managing change to ensure high performance, quality, and operational effectiveness.

This course provides an overview of the small business from concept through funding. Emphasis on designing a competitive business model, crafting the business plan, forms of ownership, and exploring funding options.

This course provides students with the skills and knowledge necessary for using innovative and creative thinking strategies to improve managerial decision making and problem solving. Emphasis is placed upon learning critical skills to identify and facilitate innovative behavior and collaboration within the organization that will increase sustainable business growth and strengthen abilities to respond to organizational changes and challenges. Course lectures, reading and projects span theory and practice and draw upon examples from multiple industry sectors.

This course focuses on evaluating the benefits and risks associated with new business opportunities. This includes reviewing the projected return on investment, the role of risk, investor considerations, strategic planning, and modeling techniques to analyze possible business ventures.

This course provides an overview of federal statutes and state regulated areas that impact the personnel function. Among the topics addressed are EEO and affirmative action, OSHA, ERISA, FMLA, and ADA; employee privacy issues (polygraph testing, drug and alcohol testing, employer searching and monitoring); and wrongful discharge.

This course provides an overview of negotiations in an organizational setting. Students learn negotiation processes and strategies, the role of stakeholder interests in negotiation, and how to apply these concepts to the workplace. Students also examine conflict management techniques and emerging negotiation trends in globalization and technology.

This course focuses on the development of a strategic business plan applicable for the needs of a small business or entrepreneurial venture. This will include a strategic application of financial planning, capital management, marketing, people management, and leadership. Special emphasis is placed on adapting the business plan to the realistic needs of a small business owner and entrepreneur.

This course gives students the opportunity to integrate management concepts and practices to contemporary business strategies, while discussing the theories of strategic management. This course will focus on improving management decision-making and problem-solving skills. Students will create a strategic management plan. Special emphasis is placed on business ethics, sustainability, innovation, and the legal environment of business.

This course covers the skills and techniques managers need to provide leadership and direction within a changing organizational environment. Students will examine fast-paced changes including evolving demographics and emerging technologies and how they relate to innovative talent management, leadership, and managerial responses to addressing future organizational challenges.

In this course students will evaluate operational and strategic initiatives to facilitate organizational improvement and contingency planning. Students will align organizational activities and personnel to support the execution of strategic objectives.

This course focuses on change management within agile business environments. Students will synthesize legal, ethical and operational considerations in the strategic execution of organizational goals.

This course examines the processes of identifying, exploring, and exploiting opportunities for value creation-economic, social and/or environmental value. Students will learn how to create value within a large organization or entrepreneurial venture, a critical skill enabling entrepreneurial thinking. Students will gain exposure to strategic thinking, creation of competitive advantage, monitoring of entrepreneurial opportunities, alliances, acquisitions, and restructurings.

This course applies student understanding of organizations and project management to the development of a consulting project. The course requires students to synthesize and integrate theory and practice from all prior courses in the program.

This course evaluates models for creating economically viable global businesses using the technology of the Internet. Topics include assessing business and management models, assessing geopolitical and economic factors that influence business strategy, and decision making in a global environment.

Completion of this research-based course will empower learners to explore, analyze, and critically evaluate historical and current management philosophies and theories. The course focus is on understanding, designing, and executing sustainable management strategies that meet the demands of domestic and global competition.

This course evaluates alternative practices to manage risk in a global environment. Topics include measuring cultural implications, as well as economic, financial, and political risks. Students will utilize models to evaluate instruments of global investment and predict where to invest internationally.

Upon completion of this course, learners will be prepared to implement emerging managerial practices designed to develop organizational agility and responsiveness. Additionally, they will be able to adapt best practices, implement high-performance work teams, and build advanced strategies for effective global communications. Emphasis is placed on how organizations are encouraged to develop and demonstrate creative, adaptive, and flexible business approaches.

<td>Language Development for Secondary Settings</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>This course examines second language acquisition theories, strategies, and the nature of cognitive and affective language development to assist the secondary teacher of the English language learner (ELL) student. The course focuses on language acquisition development within alternative language service programs and it provides the basis for effective instructional strategies including methods, techniques, and materials to be used with linguistically diverse secondary students. It examines the critical elements of learning issues associated with linguistically diverse students, including the learning styles and interconnected variables that interact in second language learning, thought processes, and the relationship to content mastery. The course also focuses on the structure and use of the English language to ensure oral and written accuracy and correct punctuation and intonation for those working with linguistically diverse secondary populations.</td>
<td></td>
</tr>
<tr>

**MTH 215T: Quantitative Reasoning I**

This course emphasizes modelling skills, statistical methods, and probability to create, analyze, and communicate solutions.

**MTH 216: Quantitative Reasoning II**

This applications-driven course prepares students to critically analyze and solve problems using quantitative reasoning. Students approach real-world scenarios using numerous reasoning skills and mathematical literacy to draw conclusions.

**MTH 216T: Quantitative Reasoning II**

This applications-driven course prepares students to critically analyze and solve problems using quantitative reasoning. Students approach real-world scenarios using numerous reasoning skills and mathematical literacy to draw conclusions.

**MTH 217: Statistics I**

Students collect, analyze, and interpret data as they examine the role of statistical analysis and statistical terminology. Students also apply appropriate statistical techniques and analytical reasoning in real-world problems to communicate logical arguments and models. The course topics include probability, statistics, and quantitative reasoning.

**MTH 218: Statistics II**

Students apply elementary probability theory, descriptive and inferential statistics, and reasoning to real-world situations. The course embeds foundational skill into topics including probability, statistics, and reasoning.

**MTH 219T: Introduction to College Algebra**

This course introduces algebraic concepts providing a solid foundation for college algebra. Topics range from properties of real numbers, the order of operations, and algebraic expressions to solving equations and inequalities. Additional topics include polynomials, factoring methods, rational and radical expressions as well as graphing and functions.

**MTH 220T: College Algebra**

This course presents traditional concepts in college algebra. Topics include linear, polynomial, rational, radical, exponential and logarithmic functions, systems of equations, sequences, and series.

**MTH 221: Discrete Math for Information Technology**

Discrete mathematics is of direct importance to the fields of Computer Science and Information Technology. This branch of mathematics includes studying areas such as sophisticated forms of counting (combinatorics, etc), set theory, logic, relations, graph theory, and analysis of algorithms. This course is intended to provide students with an understanding of these areas and their use in the field of Information Technology.

**MTH 280: Calculus I**

This course is an introduction to differential calculus. Students explore limits and continuity. They examine the basic concept of differentiation and practice differentiation techniques. Students develop competence applying differentiation to solve problems. Students also examine simple antiderivatives.

**MTH 290: Calculus II**

This course examines integral calculus topics. Students are presented with integration techniques for functions of one variable and more applications of definite integrals. Students explore numerical techniques of integration. Students also examine the area function, Riemann sums, and indefinite integrals, and apply these to real-life problems. The course concludes with the Fundamental Theorem of Calculus.

**MTH 360: Linear Algebra**

This course provides a survey of the concepts related to linear algebra. Students examine the geometry of vectors, matrices, and linear equations, including Gauss-Jordan elimination. Students explore the concepts of linear independence, rank, and linear transformations. Vector spaces, bases, and change of bases are discussed, including orthogonality and the Gram-Schmidt process. In addition, students investigate determinants, eigenvalues, and eigenvectors.

**MTH 380: Calculus III**

This course builds on the concepts presented in MTH/310 Calculus I and MTH/320 Calculus II. Students examine functions of more than one variable, curves in space, and Newtonian mechanics in three dimensions. Students explore partial derivatives and differentials as well as local and global extrema. In addition, students use differentiation techniques for functions of many variables.

</table>

This course provides students with precepted clinical experiences. Business practices of the independent or semi-independent practitioner, including guidelines and regulations in the advanced practice role, are discussed. Students consolidate and refine their acquired skills in assessment and patient management in order to attain a level of competency and proficiency that will allow them to function in the nurse practitioner role. This course contains additional theory content across the lifespan. This course provides the health care professional with the necessary strategies to address ethical issues. Incorporation of research principles is reinforced throughout the course.

This course introduces the College of Nursing’s philosophical framework for professional practice and the baccalaureate role of the nurse as practitioner, leader, and educator. Topics include critical thinking, clinical judgment, collaboration and communication skills, evidenced-based practice and professional values and responsibilities. A key focus is introducing students to professional nursing and behaviors necessary for professional accountability.

This course focuses on behaviors, attitudes, and values necessary for theory-based professional nursing practice. The roles of baccalaureate nurses are presented within the frameworks of Watson's theory of human caring and Benner's theory of novice to expert.

This course focuses on behaviors, attitudes, and values necessary for theory-based professional nursing practice. The roles of baccalaureate nurses are presented within the frameworks of Watson's theory of human caring and Benner's theory of novice to expert.

This course addresses ethical aspects of the professional nurse’s role in healthcare delivery and management. Topics include ethical and legal principles, ethical decision-making, standards of care, scope of practice, state Nurse Practice Acts, and Code of Ethics.

This course analyzes the role of the contemporary nurse as a leader and manager in the profession and health care industry. Topics include managing health care resources, assessing quality and risk in patient care, and decision-making models.

This course analyzes the role of the contemporary nurse as a leader and manager in the profession and health care industry. Topics include managing health care resources, assessing quality and risk in patient care, and decision-making models.

This course emphasizes the role of research outcomes in evidenced-based nursing practice. Topics include formulating research questions, collecting, summarizing, and interpreting data, and understanding the elements of research design. The key concept is the role of nursing in research analysis for improving practice environments and patient outcomes.

This course emphasizes the role of research outcomes in evidenced-based nursing practice. <td>Educational Assessment and Evaluation</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Nurse educators count on reliable and valid information to evaluate the effectiveness of an educational program. Thoughtful creation of evaluation tools that align to an educational taxonomy is an important step in order to obtain qualitative and quantitative data that informs the nurse educator about how well learners are performing. Communicating assessment and evaluation results to others, and gaining their input, provides the nurse educator the opportunity to make curricular improvements based on stakeholder feedback. Learners will evaluate assessment methods used to measure performance and improve educational programs, and develop a communication strategy to share results with stakeholders.</td>
<td></td>
</tr>
<tr>

**PSY 301: Emotional Intelligence**
This course examines the concepts and practical applications of emotional intelligence. Emotional intelligence is the ability to manage one's own internal emotional environment and one's ability to participate in relationships with others in such a way as to maximize individual success in life as a functioning human being and member of society. Through a highly interactive format, the course will focus on how to assess basic skills in emotional intelligence, how to develop strategies to improve and enhance basic skill levels, and how to experiment with techniques that facilitate dealing with others of varying emotional backgrounds and competency levels.

**PSY 305: Professional Orientation in Psychology**
This course is designed for students to explore issues professionals face in the field of psychology. Specifically, the course emphasizes legal and ethical concerns in psychological research and in practice. Emphasis will also be placed on knowledge of APA Ethical Principles and the integration of selected core competencies for professions related to psychology.

**PSY 310: History and Systems in Psychology**
The purpose of this course is to familiarize the student with the various methods of inquiry, terminologies, and theoretical systems that comprise the history of psychology. A broader view is used to introduce the modern era of psychology and its use. These include structuralism, functionalism, Gestalt, behaviorism, psychoanalysis, and phenomenological/existential approaches.

**PSY 315: Statistical Reasoning in Psychology**
This is an introductory course in applied statistics, with particular emphasis in psychology. Both descriptive and inferential statistics are included. In addition, this course provides the basic statistical background and understanding needed.

**PSY 320: Human Motivation**
This course seeks to synthesize the many theories of human motivation with the practical application of motivating employees. To this end, the course will examine historical theories as well as recent developments in the field of motivation and their relationship to management practices. The primary concepts of goals, quality of work, and rewards will be examined and applied to the workplace.

**PSY 335: Research Methods**
This course covers the fundamentals of research and evaluation in the field of psychology. Topics include critical analysis of research literature, quantitative methodologies, and an introduction to qualitative methods. Emphasis will be placed on understanding connections between research design, theories, and the application of results in psychology. Legal and ethical issues pertaining to research with human subjects will also be covered.

**PSY 340: Biological Foundations in Psychology**
This course is designed to expose you to the underlying physiological mechanisms of behavior. Physiological psychology is a complex but fascinating field of study. It explores the relationship between our biological systems and behavior. Structure and function of the nervous system from the neuron to the brain, as well as the interrelationships between the brain and such behaviors as eating, sleeping, learning, memory, emotion, and mental disorders will be discussed using examples from the behavior of both humans and lower organisms.

**PSY 345: Sensation and Perception**
This course is designed to explore the five major human sensory systems (vision, hearing, smell, touch, and taste) and perceptual experiences related to these senses as they occur in the human brain. The course examines the anatomical, physiological, and neural connections that influence sensation and perception. Emphasis will be placed on theories and concepts of sensation and perception as a means of understanding human behavior.

**PSY 355: Motivational Processes in Human Psychology**
This course examines theories and research results pertaining to the structures (self-, person, role, and event schemas) and processes (expectations, attributions, and inferences) underlying self- and person perception.

**PSY 360: Cognitive Psychology**
This course will present an overview of cognitive psychology and its findings, theories, and approach. Cognitive psychology deals with how we acquire and use knowledge so the course will cover topics such as perception, attention, memory, language, reasoning, and problem solving.

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 390</td>
<td>Learning and Cognition</td>
<td>3</td>
<td>This course concerns the study of learning from the most basic associationistic ideas to complex cognitive behaviors such as problem solving and thinking. Various ideas regarding the nature of the mind are presented along with the fundamental concepts of learning and conditioning. Strengths and weaknesses of the memory system are discussed as they relate to higher cognitive processes such as language, problem solving, and eyewitness identification. Neurophysiological correlates of cognitive phenomena and memory disorders are also discussed.</td>
</tr>
<tr>
<td>PSY 400</td>
<td>Social Psychology</td>
<td>3</td>
<td>This course provides a unified view of the field of social psychology organized around the concepts of social influence and power and exchange in social life and explores in-depth human thoughts, feelings, and actions as influenced by other people. Specific topics include socialization, perception of self and others, pro-social and anti-social behavior, attitudes, interpersonal attraction, social influence, and group behavior.</td>
</tr>
<tr>
<td>PSY 405</td>
<td>Theories of Personality</td>
<td>3</td>
<td>This course surveys the field of personality from a scientific perspective, examining the general approaches to understanding personality. The key theorists and concepts associated with each perspective are highlighted, along with the strengths and limitations of the different approaches.</td>
</tr>
<tr>
<td>PSY 410</td>
<td>Abnormal Psychology</td>
<td>3</td>
<td>This course is designed to provide students with an introduction to theories and research concerning abnormal behavior (psychopathology). The course will address such topics as the incidence (frequency) of abnormal behavior of various types; how abnormal behaviors are classified into various diagnostic categories; the etiologies (causes) of psychological disorders; and the variety of methods employed in the treatment of abnormal behavior.</td>
</tr>
<tr>
<td>PSY 420</td>
<td>Theories of Behavior</td>
<td>3</td>
<td>This course is an introduction to principles of learning and behavior analysis and how they relate to the profession of psychology. Topics to be covered include conditioning, social learning, and philosophical and historical antecedents of behaviorism. The environmental influences of behavior, to understand the antecedent-consequence link and functions of behaviors, will also be covered. An emphasis will be placed on behavior-analytic strategies in a variety of settings including business and industry, education, and health and human services.</td>
</tr>
<tr>
<td>PSY 435</td>
<td>Industrial/Organizational Psychology</td>
<td>3</td>
<td>This course is designed to introduce the student to the field of industrial/organizational psychology. The emphasis is on the psychological principles and how they can be applied in a work context. Topics will include legal issues in employment, selection of employees, performance appraisal, training, leadership, motivation, and group behavior.</td>
</tr>
<tr>
<td>PSY 450</td>
<td>Diversity and Cultural Factors in Psychology</td>
<td>3</td>
<td>A study of the issues and influences related to gender, sexual orientation, and the major racial/ethnic and cultural groups in the United States and how they affect theoretical and research paradigms in psychology and clinical and counseling practices. The course expands the students' frame of reference concerning human diversity and applies this knowledge to counseling and research issues in psychology.</td>
</tr>
<tr>
<td>PSY 460</td>
<td>Environmental Psychology</td>
<td>3</td>
<td>In this course students will learn about the interaction between people and their environments; how our behavior affects our environment, and how that environment, in turn, influences our own behavior. An emphasis will be placed on developing behavioral solutions for environmental problems.</td>
</tr>
<tr>
<td>PSY 475</td>
<td>Psychological Tests and Measurements</td>
<td>3</td>
<td>This course will cover the basic principles, research, and theories on testing and measurement of psychological constructs. It is expected that students complete the course with knowledge of various techniques for psychological testing; a familiarity of several professionally developed tests; the ability to develop, administer, and interpret certain tests; and knowledge of measurement theory which includes reliability and validity.</td>

<tr>
<td>PSY 480</td>
<td>Elements of Clinical Psychology</td>
<td>3</td>
<td>This course is intended to provide the beginning psychology student with an overview of the theory and practice of clinical and counseling psychology. The course includes reference to major theories of personality, assessment, and psychotherapy. Topics include psychodynamic, cognitive/behavioral, and biological theories of normal and abnormal psychological processes, and the assessment of behavior, abilities, and personality. Therapies covered include a variety of psychoanalytic approaches, and humanistic, biological, cognitive/behavioral, and child and family therapies.</td>
</tr>
<tr>
<td>PSY 490</td>
<td>Capstone Course in Psychology</td>
<td>3</td>
<td>This is the capstone course for undergraduate psychology students. The course provides students with the opportunity to integrate and apply learning from their psychology program of study in a comprehensive manner. Students will also assess the impact of their educational experiences on their ethical perspectives and critical thinking skills. Students will reflect on and evaluate their personal and professional growth, the benefits of lifelong learning, and the impact of these elements on their future.</td>
</tr>
<tr>
<td>PSYCH 599</td>
<td>Foundations of Graduate Study in Psychology</td>
<td>3</td>
<td>This course prepares students for academic and professional success in graduate-level psychology. Students will explore historical and foundational concepts of psychology while enhancing their oral and written communication skills. Topics also include critical thinking, stress and time management, and collaborative processes.</td>
</tr>
<tr>
<td>PSYCH 600</td>
<td>Developmental Psychology</td>
<td>3</td>
<td>This course examines biological and environmental influences on human development across the lifespan. The biological foundations of human growth and development are presented along with major theories of cognitive, social and emotional development. Current research in developmental psychology is presented as students explore both opportunities and challenges that people face as they age. Social, cultural, systemic and ethical issues related to research and practice are also addressed.</td>
</tr>
<tr>
<td>PSYCH 610</td>
<td>Research Methods in Psychology</td>
<td>3</td>
<td>This course is an overview of the fundamentals of research methods applicable to the broad field of psychology. Topics include research design, quantitative and qualitative forms of analysis, ethical issues in research, and appropriate documentation of research processes and outcomes. Students will learn to critically read and evaluate psychological studies and apply their knowledge of research design and methodology to a variety of problems and issues in the field of psychology.</td>
</tr>
<tr>
<td>PSYCH 614</td>
<td>Social Psychology</td>
<td>3</td>
<td>This course examines how situations and the environment influence our thoughts, feelings, and behaviors. Students will learn about the social psychological concepts such as attitudes, conformity, social conditioning, cognition, and influence.</td>
</tr>
<tr>
<td>PSYCH 620</td>
<td>Multicultural and Social Issues in Psychology</td>
<td>3</td>
<td>This course provides students with an in-depth investigation of cross-cultural issues and perspectives in the field of psychology. Students learn to identify and consider cultural and systemic variables in psychological theory, research and practice. Multicultural issues, social dynamics, social justice and valued diversity are emphasized.</td>
</tr>
<tr>
<td>PSYCH 625</td>
<td>Statistics for the Behavior Sciences</td>
<td>3</td>
<td>This course presents fundamental statistical concepts and tools for understanding and analyzing data from studies in the social and behavioral sciences. Topics include measures of central tendency and dispersion, probability theory, data distributions, significance testing and statistical inference. Students will learn how to analyze and interpret data from psychological studies using descriptive statistics, correlational methods, t-tests and analysis of variance procedures.</td>
</tr>
<tr>
<td>PSYCH 629</td>
<td>Introduction to Industrial/Organizational Psychology</td>
<td>3</td>
<td>In this course, students will be introduced to the domains of the Industrial Organizational (I-O) Psychology concentration. Topics include an overview of the four primary domains of I-O psychology, human resource management, factors influencing employee performance, organization development, and research relevance within the I-O field of study. Students will gain an understanding of the evolution of the I-O field of study from the foundations of the field to the present day, the various ways that I-O psychologists contribute to organizations, the unique contributions of I-O psychology to the broader scientific community, and the main ethical issues likely to be encountered in the field. This course covers a wide variety of topics with the goal of exposing students to the main issues influenced by I-O psychologists.</td>
</tr>
<tr>
<td>PSYCH 634</td>
<td>Biological Basis of Behavior</td>
<td>3</td>
<td>This course emphasizes the biological and biochemical correlates of behavior. The course focuses on the structure and function of the human nervous and endocrine systems as they relate to human behavior, emotion, and cognition.</td>
</tr>
<tr>
<td>PSYCH 635</td>
<td>Psychology of Learning</td>
<td>3</td>
<td>This course examines major theories of learning, covering topics such as classical conditioning, operant conditioning, shaping and chaining, reinforcement schedules, punishment, one-trial learning, and cognitive and social processes in learning. Students will examine research from animal and human studies, emphasizing basic and complex models of acquired behavior, motivation and memory.</td>
</tr>
<tr>
<td>PSYCH 639</td>
<td>Ethics and Professional Skills in I-O Psychology</td>
<td>3</td>
<td>Learners will review pertinent legal and ethical issues related to Industrial and Organizational (I/O) Psychology. Learners will develop an initial ethical framework and gain the necessary tools for making decisions within an organizational structure.</td>
</tr>
<tr>
<td>PSYCH 640</td>
<td>Cognitive Psychology</td>
<td>3</td>
<td>This course surveys contemporary research and theory in the field of cognitive psychology, including problem solving and reasoning, attention, memory, knowledge representation, language, and imagery. Strategies and methods for investigating cognition are presented along with future trends involving interdisciplinary research in this growing field.</td>
</tr>
<tr>
<td>PSYCH 642</td>
<td>Personnel Psychology</td>
<td>3</td>
<td>Students in this course will gain an appreciation for the processes I/O psychologists use to recruit, select, place, and develop employees, managers, and executives. This includes discussions about tests, assessment centers, interviews, succession planning, and departure. Students will examine the role of the I/O psychologist in awareness, preparedness, and response to behavioral problems or issues in the workplace.</td>
</tr>
<tr>
<td>PSYCH 644</td>
<td>Psychology of Learning and Cognition</td>
<td>3</td>
<td>This course covers the elements of learning and cognitive psychology. The course includes research related to the theories of learning, problem solving and reasoning, attention, memory, knowledge representation, and language. Strategies and methods for applying principles of learning and cognition to various life and career settings are also addressed.</td>
</tr>
<tr>
<td>PSYCH 645</td>
<td>Personality Theories</td>
<td>3</td>
<td>This course enables students to differentiate among the primary theoretical approaches to the study of personality, including psychodynamic, affective, cognitive-behavioral, and systems theories. Students examine the underlying assumptions inherent in various personality models and learn how the tenets of these models are investigated through empirical research.</td>
</tr>
<tr>
<td>PSYCH 647</td>
<td>Human Performance, Assessment, and Feedback</td>
<td>3</td>
<td>In this course students are familiarized with behaviors associated with the accomplishment of expected, specified, or formal role requirements on the part of individual organizational members as well as means for appraising and providing feedback to employees.</td>
</tr>

<tr>
<td>PSYCH 650</td>
<td>Psychopathology</td>
<td>3</td>
<td>This course will introduce students to the major categories of psychopathology as presented in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM). Mental disorders and their etiologies will be conceptualized from different perspectives, including cultural, biological, psychodynamic, cognitive-behavioral, existential and systemic. Ethical issues related to research and practice in the field will be addressed. Students will be challenged to consider various definitions of normality/abnormality, the process of rendering a diagnosis, and the symptoms, causes and interventions for commonly occurring mental disorders.</td>
</tr>
<tr>
<td>PSYCH 655</td>
<td>Psychometrics</td>
<td>3</td>
<td>This course will introduce students to the science and practice of psychological testing and assessment. Students will learn to evaluate the quality of various psychological tests and develop an understanding of the complex process of test development. Social, cultural and ethical issues will be addressed as students examine the psychometric properties and appropriate applications of commonly used educational, intelligence and personality assessment instruments.</td>
</tr>
<tr>
<td>PSYCH 658</td>
<td>Work Motivation and Job Attitudes</td>
<td>3</td>
<td>This course will allow students to evaluate various theories of motivation and develop a familiarity with, and understanding of pertinent research in the field. Students will be able to adapt motivational constructs to the enhancement of employee attitudes, effectiveness, and well-being across a range of organizational contexts.</td>
</tr>
<tr>
<td>PSYCH 660</td>
<td>Ethics and Professional Issues</td>
<td>3</td>
<td>This course surveys various professional activities in psychology with emphasis on the legal and ethical responsibilities of psychological researchers and practitioners. Students will study the APA Code of Ethics and analyze case studies involving assessment, research and practice in psychology. Topics include ethics in research, the purpose and function of internal review boards (IRBs), participant and client rights, informed consent, confidentiality, duty to warn and protect, dual relationships, supervision, consultation, ethical considerations when working with diverse populations, and the application of ethical decision-making models.</td>
</tr>
<tr>
<td>PSYCH 664</td>
<td>Research Methods and Statistics in Psychology</td>
<td>3</td>
<td>This course presents the fundamentals of research methods and statistics applicable to the field of psychology. Topics include research design, quantitative and qualitative forms of analysis, ethical issues in research, and appropriate documentation of research processes and outcomes. Students will learn to critically evaluate, analyze, and interpret data from empirical psychological studies.</td>
</tr>
<tr>
<td>PSYCH 665</td>
<td>Integrative Capstone: Psychology Past and Present</td>
<td>3</td>
<td>This course will trace the historical progression of ideas and concepts in psychology with emphasis on pivotal experiments that influenced our understanding of human behavior. Students will select a specific area of study and explore the historical roots of their selected topic. Students will conduct a comprehensive literature review of a contemporary issue or problems related to their selected topic and develop either an applied project or research proposal.</td>
</tr>
<tr>
<td>PSYCH 668</td>
<td>Organizational Development, Leadership, and Management</td>
<td>3</td>
<td>This course examines major theoretical leadership and management models. Students learn how to differentiate various perspectives on leadership and management and how these approaches play a vital role in the achievement of organizational, group, and team goals. Furthermore, the course discusses Organizational Development interventions, types of change, related to leadership development, motivation, interpersonal influence, group effectiveness, conformity, and conflict resolution.</td>
</tr>
<tr>
<td>PSYCH 678</td>

Students will study the APA Code of Ethics and analyze case studies involving assessment, research and practice in psychology. Topics include ethics in research, the purpose and function of internal review boards (IRBs), participant and client rights, informed consent, confidentiality, duty to warn and protect, dual relationships, supervision, consultation, ethical considerations when working with diverse populations, and the application of ethical decision-making models.</td>
</tr>
<tr>
<td>PSYDA 664</td>
<td>Research Methods and Statistics in Psychology</td>
<td>3</td>
<td>This course presents the fundamentals of research methods and statistics applicable to the field of psychology. Topics include research design, quantitative and qualitative forms of analysis, ethical issues in research, and appropriate documentation of research processes and outcomes. Students will learn to critically evaluate, analyze, and interpret data from empirical psychological studies.</td>
</tr>
<tr>
<td>PSYDA 694</td>
<td>Specialty Areas in Applied Psychology</td>
<td>3</td>
<td>This course will introduce students to different areas of applied psychology, such as clinical, counseling, industrial/organizational, forensic, and educational psychology. Students will apply psychological research and principles from their program to a selected specialty area and explore human behaviors related to health, personal relationships, education, and the workplace. This application will guide students in their exploration of career opportunities within the broad field of psychology.</td>
</tr>
<tr>
<td>QNT 275T</td>
<td>Statistics for Decision Making</td>
<td>3</td>
<td>This course introduces the use of statistics for business decision making. After completion of this course, students will be able to explain how to obtain a suitable sample of business data and evaluate its validity and reliability for statistical inferences, produce tables and charts to organize and display business data, interpret numerical business data using measures of central tendency and variability, apply fundamental concepts probability theory for inferential decision making for business, and perform trend analyses.</td>
</tr>
<tr>
<td>QNT 375T</td>
<td>Business Data Analytics</td>
<td>3</td>
<td>This course provides an overview of applied business research, statistical tools, and data analytics used to support strategic decision making. Students will examine methods used to frame business problems, conduct research, collect and evaluate data for validity and reliability, determine patterns and trends in performance, and effectively present conclusions.</td>

In this course, participants explore the teaching of reading and writing in grades 6-12 content area classrooms. Participants learn instructional strategies, comprehension strategies, vocabulary strategies, and techniques for using reading and writing to learn across content area lines. Methods for differentiating instruction as well as assessing reading and writing are examined.

This course focuses on K-12 reading assessment. Participants examine various types of assessment for use in the classroom, the school, the district, and the state. Participants explore objective tests, performance assessments, and standardized testing. Topics include evaluation of curriculum and assessment, data-driven decision making, Response to Intervention for struggling readers, diversity and assessment, and ethical and legal considerations.

This course focuses on the assessment and correction of reading and writing difficulties in the K-12 classroom setting. Participants identify factors that affect reading performance, explore formal and informal literacy assessments, and examine strategies for the diagnosis and remediation of struggling readers and diverse learners with literacy difficulties, including students with dyslexia. An additional focus is on differentiated instruction with an emphasis on phonics, fluency, vocabulary, and comprehension. Interest inventories, English language learner screening, visual and auditory discrimination tools, language expression and processing screening, and spelling and writing assessment tools are also addressed.

This course offers a survey of the major historical developments, structural cosmology, symbolic interpretation, and values of the Hindu, Buddhist, Daoist, Confucian, and Shinto traditions.

This course provides a survey of the major historical developments, structural cosmology, symbolic interpretation, and values of the Judaic, Christian, and Islamic religious traditions.

This course offers a survey of the major historical developments, structural cosmology, symbolic interpretation, and values of the Hindu, Buddhist, Daoist, Confucian, and Shinto traditions.

This course provides a survey of the major historical developments, structural cosmology, symbolic interpretation, and values of the Judaic, Christian, and Islamic religious traditions.

This course evaluates the process of conducting research for improving decision making within an organization. Students will learn to apply an understanding of commonly employed business research techniques to improve a situation, solve a problem, or change a process. Other topics include problem framing, data collection, data analysis, and data presentation.

This course provides an overview of social science research methodologies and their application in context to the student's degree program. Foundational concepts include the examination and application of theoretical frameworks, critical analysis of scholarly literature and interpretation of data through a theoretical lens. Students also explore quantitative, qualitative and mixed research methods and the core elements of an effective research plan.

Doctoral practitioners are resolute in their commitment to identifying, informing, and affecting both individual and organizational change and innovation. Generating actionable interventions requires an extensive investigation of situational factors and a foundational understanding of research methodology. In this course, students explore the foundations of statistics used in quantitative research by actively engaging in processes focused on evaluation, appraisal, and application.

In this course, students expand their understanding of research methodology by exploring advanced statistical procedures. Students leverage investigative processes to demonstrate their understanding of, and ability to apply, interpret, and draw conclusions from complex approaches to quantitative research.

This course provides an overview of the key components of comprehensive wellness. Based on a preventive model, the course will allow learners to explore choices that promote wellness with goals of living longer and better.

This course introduces the basic concepts of human nutrition to highlight ways that students can integrate healthy nutrition into their lifestyles. Principles of digestion and absorption, the function of nutrients, lifecycle nutrition practices, disease prevention, diet modifications, and weight management are covered. Practical application of these principles to the students’ lives is emphasized.

This in-depth environmental science course examines how people use science to understand how they relate to the environment. The course explores relationships between people and ecosystems, and the science behind how ecosystems work. It reviews the historical development of the environmental movement, interactions between humans and natural ecosystems, and more specifically, the role of a growing population and associated pressures on natural resources. This course further examines how economics, natural systems, and conservation are interrelated. The many forms of pollution as well as types of energy resources are addressed. This course challenges students to consider the impact of lifestyle choices on environmental sustainability.

This course is an introductory overview of the Security Management field and provides a broad-based view of the history, practices, methodologies, and management theories of the profession. It reviews industry standards for security, threat assessment and risk analysis guidelines, investigative techniques, personnel management, security equipment and security best practices. Additionally, this course examines security technology, loss prevention and workforce safety programs, planning for continuity of business operations, and corporate/client communication skills.

This course will identify security essentials that are prevalent in the corporate security function such as trade secrets, proprietary information, information security, and vulnerability assessments. It also examines the purposes, objectives, procedures, risks, and types of organizations associated with the respective essentials.

This course identifies issues and conflicts associated with the private security industry by examining security management, recruitment, selection, training, investigation of crimes, terrorism and natural disasters.

This course provides the student with an understanding of the various elements needed for responding to critical incident events. These incidents include natural disasters, workplace violence, and other significant planned and unplanned occurrences. An emphasis is given to proper planning, communication, and system development for these critical incidents.

This course provides the student with an understanding of assessing potential risks which may originate from members or employees within an organization by identifying specific risk indicators. An emphasis is given to the process of risk analysis along with the ability to design, manage, and implement a response to potential threats. Additionally, students will learn how to use the Return on Investment (ROI) approach to evaluate company performance.

This course will identify emergency practices for critical incident responses such as natural disasters, man-made disasters, bomb threats, strikes, and terrorism. It will also examine specific concepts in relation to emergency response including: mutual aid associations, disaster recovery, public relations and warning, and alert systems.

This course introduces students to examining physical assets and evaluating risk as a result of associated threats and identified vulnerabilities. Based on a risk analysis model, students will evaluate assets, prioritize threats, and apply critical thinking to countermeasures with consideration for a cost-benefit analysis.

<td>This course will explore various types of critical thinking strategies for security management practitioners; identifying the differences between management and leadership in the organization. Students will also examine the applied strategic planning model, management theories, and analytic techniques.</td>
</tr>
<tr>
<td>SEC 240</td>
<td>Loss Prevention and Supply Chain Security</td>
<td>3</td>
<td>This course is an introduction and general overview of loss prevention and supply chain security strategies and programs. Students will learn the basic principles and methodologies involved with the prevention of shrinkage or loss. Students will be introduced to basic theories and concepts, key terms and definitions and current critical issues. Additionally, this course provides an overview of situational crime prevention, the crime risk management process, and the stages necessary to designing an effective supply chain security program.</td>
</tr>
<tr>
<td>SEC 311</td>
<td>Security Management Fundamentals</td>
<td>3</td>
<td>This course is an overview of the principles of security management and the consequences of failure to identify and adequately protect business assets. The course includes an introduction to loss prevention and risk management. It provides an overview of the contingencies that influence modern security management, such as technology, legal issues, ethics, vulnerability assessments, criminal and terrorist activity, and interagency cooperation. The course also introduces various security specializations including corporate, academic, transportation, and government.</td>
</tr>
<tr>
<td>SEC 319</td>
<td>Computers and Information Processing in Security</td>
<td>3</td>
<td>This course introduces the fundamentals of information systems and the role of information management and protection in the modern security environment. Students will explore and develop their skills in critical thinking and problem-solving of information systems, networking communication, information utilization from the Internet, and information management and security collaboration. Learners will also nurture their professional competence and values by learning how to handle information ethically.</td>
</tr>
<tr>
<td>SEC 321</td>
<td>Survey of Security Specializations</td>
<td>3</td>
<td>This course identifies and contrasts the benefits of proprietary and contract security operations and introduces the student to a variety of security specializations. It also examines the purposes, objectives, procedures, risks, and types of organizations associated with the respective specializations.</td>
</tr>
<tr>
<td>SEC 331</td>
<td>Industrial Safety</td>
<td>3</td>
<td>This course provides students with an overview of safety issues that could be experienced by security personnel as first responders in various work environment emergencies. It includes a review of OSHA, EPA, and National Fire Code safety regulations and provides methods for identifying and correcting environmental risk factors related to hazardous materials, fire, and other potential safety hazards. The course is also intended to provide the student with knowledge that will assist with the initial response to, and investigation of, work-related accidents.</td>
</tr>
<tr>
<td>SEC 341</td>
<td>Criminology and the Criminal Justice System</td>
<td>3</td>
<td>This course identifies the theories of criminology and its influence on society from social, political, individual and theoretical perspectives. The course examines types of criminal activity and provides students with an understanding of the causes of criminal behavior and the societal response to crime. The course also identifies and discusses the various elements of the American criminal justice system and related current trends of social media and perceived disparages.</td>
</tr>
<tr>
<td>SEC 351</td>
<td>Legal and Regulatory Issues in Security Management</td>
<td>3</td>
<td>This course examines legal, regulatory, ethical, and policy issues that influence the work performance of security personnel. It also discusses the potential consequences of non-compliance for individuals and institutions.</td>
</tr>
<tr>
<td>SEC 361</td>
<td>Interpersonal Communications</td>
<td>3</td>
<td>This course prepares the student to communicate effectively in written and verbal form. It provides principles for effective investigative reporting and incident documentation, as well as techniques for interviewing and understanding verbal and nonverbal communication.</td>

</table>

This course focuses on the pedagogy and assessment strategies of teaching mathematics in middle and high school settings. Teacher candidates identify the educational needs of secondary students by exploring national, state, and professional standards from the National Council of Teachers of Mathematics, as well as current theories, models, and strategies of instruction to meet the needs of diverse learners. Teacher candidates will focus on enhancing the meaning of mathematical concepts, developing critical thinking skills to include the use of math concepts in other disciplinary areas, and creating real-life experiences for all learners.

This course explores the secondary physical education classroom teaching and assessment strategies, and national and state standards. Candidates examine topics including developing motor skills through activities, developing levels of physical fitness, understanding principles of human movement, developing and practicing social skills, and the value of fair play in games and sports. Candidates develop skills in selecting, designing, and adapting instruction for diverse student populations. The course also emphasizes classroom and sport/field management skills and safety as they relate to physical education instruction.

This course is designed to prepare teacher candidates to teach science at the secondary school level. To meet this objective, candidates explore the instructional methods in science content areas in middle level and high school settings. Candidates identify the educational needs of secondary students by exploring current instructional theory; national, state, and local standards; and social issues that affect the science classroom. The course also helps candidates develop skills in selecting and adapting instruction and management plans for diverse student populations.

This course explores the theory, application, and strategies of teaching the visual arts for single-subject teacher candidates. Candidates identify the educational needs of students by exploring current instructional theory, national and state standards, assessment practices, aesthetic valuing, artistic perception, and historical and cultural origins that influence the arts. Candidates develop skills in adapting delivery methods and behavior management plans for individual students and diverse populations. The course also emphasizes classroom management skills, including safety, and the use of technology as they relate to visual arts instruction.

This course emphasizes the practical application of education theories and teaching methods. Teacher candidates will focus on the requirements and expectations of student teaching, the teacher performance assessment, and planning and facilitating instruction. Candidates will also assess student learning and evaluate data to provide accurate feedback and improve student learning. Additionally, teacher candidates will prepare and submit all respective tasks of the edTPA.

**SPE 578 Models, Theories and Instructional Strategies for SPE**

This course focuses on the theoretical models that underlie teaching and learning. Teacher candidates analyze the most effective teaching strategies to encourage students to develop a deeper understanding of content and to promote critical thinking. Teacher candidates also examine teaching methods and learn to effectively use students’ prior knowledge to develop lesson plans.

**SPE 584 Learning Disabilities and Language and Development Disorders**

This course examines the characteristics of students with learning disabilities and language and development disorders. Emphasis is placed on instructional strategies, assessment, and language intervention strategies. Technology supports for exceptional learners, ethical practices, and professional learning collaboration strategies are also explored.

**SPE 594 Special Education Student Teaching: Part A**

This course emphasizes the practical application of educational theories and methods. The course will focus on the following topics: the student teaching experience, the school culture, the learning environment, and planning, preparing, and implementing the Teacher Work Sample. The course also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

**SPE 595 Special Education Student Teaching: Part B**

This course emphasizes the practical application of educational theories and methods. The course will focus on the following topics: the student teaching experience, the school culture, the learning environment, and planning, preparing, and implementing the Teacher Work Sample. The course also provides a forum for open discussion and problem solving based on student teaching classroom experiences.

**SPE 596 Special Education Student Teaching**

This course emphasizes the practical application of education theories and teaching methods. Teacher candidates will focus on the requirements and expectations of student teaching, the teacher performance assessment, and planning and facilitating instruction. Candidates will also assess student learning and evaluate data to provide accurate feedback and improve student learning. Additionally, teacher candidates will prepare and submit all respective tasks of the edTPA.

**SPED 530 Introduction to Learners with Special Needs**

This course provides an overview for working with exceptional learners ages 3 to 21 years in educational settings. Participants examine varied areas of disabilities and common characteristics supporting effective implementation of specially designed instruction within individualized education programs (IEPs) for students with special needs. Historical perspectives, special education law, and current policies are also examined. Participants learn best practices and supports for student academic and personal success across grade levels, including IEP development and family-school partnerships.

**SPED 531 Special Education Teaching Methods**

This course provides an overview of teaching methods used in the K-12 special education classroom, with an emphasis on students with specific learning disabilities, emotional disabilities, and other mild to moderate disabilities. Participants explore the relationship between individual student characteristics and the development of an Individualized Education Program, as well as: instructional implications of special education categories, characteristics of various service delivery models, lesson planning, instructional strategies, classroom organization and management, crisis prevention, transition planning, and career counseling. Communication through consultation and collaboration, and professional and ethical practices are also examined.

<tr>
<td>SWRK 345</td>
<td>Social Advocacy: Child Endangerment and Global Factors</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Social work encapsulates individuals working to support a profession concerned with domestic and global social issues that children face. This 5-week course prepares students for the difficult task of assessing, reporting, and treating child abuse.</td>
<td></td>
</tr>
<tr>
<td>SWRK 350</td>
<td>Social Justice and Diversity in Social Work</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Students learn to advocate for human rights and social justice, exploring diverse strategies for working with groups that may be oppressed due to race, ethnicity, culture, age, gender, sexual orientation, ability, economic status, or other factors. Students learn to recognize how a society's structures and values may oppress, alienate, or marginalize diverse segments of the population.</td>
<td></td>
</tr>
<tr>
<td>SWRK 360</td>
<td>Social Work Practice: Communities and Organizations</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Students learn to integrate social work theory and practice related to assessment, evaluation, and intervention at community and organizational levels, as well as how to assess community needs and identify community resources. Students gain professional skills for initiating change in organizations and communities, understanding issues of social stratification, conflict, resistance to change, and methods for overcoming resistance.</td>
<td></td>
</tr>
<tr>
<td>SWRK 380</td>
<td>Applying Social Work Practice Skills</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Students build on their professional values, ethics, principles, practice methods, and strengths-based skills learned in the Social Work Practice courses. Students gain an understanding of the application of advanced social work skills.</td>
<td></td>
</tr>
<tr>
<td>SWRK 390</td>
<td>Social Welfare Policy Application</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Social welfare policies and legislation are explored in terms of historic rationale, implementation, and effectiveness. Students gain an understanding of concepts and frameworks for analyzing social welfare policies and programs, including their effects on oppressed and at-risk populations. Students recognize the role of social workers as agents of change and learn to advocate for social welfare policies that improve the lives of individuals, families, and groups.</td>
<td></td>
</tr>
<tr>
<td>SWRK 400</td>
<td>Research and Evaluation in Social Work Practice</td>
