

CAHME Program Outcomes Report 2020

Master of Health Administration

In September 2020, 776 students were enrolled in the University's CAHME®-accredited Master of Health Administration (MHA) program at the University of Phoenix.

Between September 1, 2019, and August 31, 2020, 452 students graduated from the program. University graduates who completed their program of study in the 50th percentile did so in 17 months. University graduates who completed their program of student in the 80th percentile, did so in 21 months.

To calculate the job placement rate, the University surveyed students who graduated between September 1, 2019, and August 31, 2020. Ninety percent (205 out of 229) of graduates who responded to the survey indicated that they were employed at the start of their program. Sixty-eight percent (155 out of 229) reported having either (i) received a new position upon completion of the program; (ii) received a promotion; or (iii) received a greater than typical salary increase directly due to the completion of their program.

- Number of graduates in the CAHME program: 452
- Median (50th percentile), in months, to complete the program of study: 17 Months
- Median (80th percentile), in months, to complete the program of study: 21 Months
