

CAHME Program Outcomes Report 2021

Master of Health Administration

In September 2021, 1597 students were enrolled in the University's CAHME-®-accredited Master of Health Administration (MHA) program at the University of Phoenix.

Between September 1, 2020, and August 31, 2021, 464 students graduated from the program. University graduates who completed their program of study in the 50th percentile did so in 17 months. University graduates who completed their program of student in the 80th percentile, did so in 21 months.

To calculate the job placement rate, the University surveyed students who graduated between September 1, 2020, and August 31, 2021. Eighty-three percent (134 out of 161) of graduates who responded to the survey indicated that they were employed at the start of their program. Seventy percent (112 out of 161) reported having either (i) received a new position upon completion of the program; (ii) received a promotion; or (iii) received a greater than typical salary increase directly due to the completion of their program.

- Number of graduates in the CAHME program: 464
- Median (50th percentile), in months, to complete the program of study: 17 Months
- Median (80th percentile), in months, to complete the program of study: 21 Months
- Retention Rate: 88%
