

CAHME Program Outcomes Report 2022

Master of Health Administration

In September 2022, 2037 students were enrolled in the University's CAHME® accredited Master of Health Administration (MHA) program at the University of Phoenix.

Between September 1, 2021, and August 31, 2022, 513 students graduated from the program. University graduates who completed their program of study in the 50th percentile did so in 17 months. University graduates who completed their program of student in the 80th percentile, did so in 19months.

To calculate the job placement rate, the University surveyed students who graduated between September 1, 2021, and August 31, 2022. Ninety-four percent (189 out of 202) of graduates who responded to the survey indicated that they were employed at the start of their program. Sixty-nine percent (139 out of 202) reported having either (i) received a new position upon completion of the program; (ii) received a promotion; or (iii) received a greater than typical salary increase directly due to the completion of their program.

- Number of graduates in the CAHME program: 513
- Median (50th percentile), in months, to complete the program of study: 17 Months
- Median (80th percentile), in months, to complete the program of study: 19 Months
- Retention Rate: 96%
