

Doctor of Health Administration (DHA) Program Student Learning Outcomes

1. Integrate the SPL model throughout the doctoral journey and beyond.
2. Cultivate a leadership identity that reflects a mature and strategic understanding of the dynamics of diverse health sector environments.
3. Analyze organizational landscapes in order to drive performance excellence through integration of the Triple Aim, with consideration for the importance of innovation and risk-taking in balance with imperatives for quality and safety, policy, sustainability and environmental stewardship, and community relationships.
4. Generate research of a high caliber to identify and address opportunities for improvement in complex health sector contexts
