Section 1: Introduction

Welcome

Welcome to the University of Phoenix online Master of Science in Counseling Clinical Mental Health (MSC/CCMH) program. You have joined a community of counseling professionals and educators committed to providing you with a collaborative, scholarly and practitioner-oriented academic and clinical experience. University of Phoenix cultivates an award-winning multicultural environment of mutual respect. Our CCMH program maintains a low faculty-to-student ratio, which allows for engagement with you, our students, via ongoing dialogue for personal mentoring as well as for collaborative inquiry and practice. Our comprehensive, rigorous, and research-based curriculum is designed to build your professional counselor identity and prepare you for state licensure.

You will be supported and guided through the theoretical knowledge and clinical skills development of each phase of the degree program. On behalf of the CCMH faculty and the entire College of Social and Behavioral Sciences, I wish you much success in this program.

Sincerely,

Christina Neider, Ed.D.
Dean, College of Social and Behavioral Sciences
Introduction

This handbook outlines the areas critical to effective student learning in the Master of Science in Counseling Clinical Mental Health Counseling (MSC/CCMH v003, 03CA) online program. Students will use this handbook, along with other University of Phoenix student resources and materials, as a resource guide as they progress through their program.

Overview of the Online MSC/CCMH Program

The online MSC/CCMH program curriculum is designed to meet educational standards for Board certification as a National Certified Counselor (NCC) and individual states licensure requirements in jurisdictions where it is offered.

The American Counseling Association (ACA, 2018) provides the following definition of professional counseling as a foundation for the MSC/CCMH degree: “Counseling is a professional relationship that empowers diverse individuals, families, and groups to accomplish mental health, wellness, education, and career goals.”

The online MSC/CCMH program at University of Phoenix meets the needs of the working adult professional who will benefit from a graduate education in counseling. Because counseling and jobs requiring counseling skills have an above-average expected growth in both the public and private sectors through the first quarter of the 21st century, according to the Bureau of Labor Statistics (2021), students from diverse settings and backgrounds will find the interpersonal communication and therapeutic skills they master in this program useful in enhancing their careers.

The online MSC/CCMH program is aligned with required state licensure statutes and regulations where the programs are approved to be offered. Students who move to a state where the program is not approved may NOT be able to complete their program. Should a student have the need to relocate while enrolled in the counseling program, they must reach out to their academic counselor PRIOR to their move to determine if they will be able to continue their program in that state. Furthermore, when transferring to a different state it will be the student’s responsibility to ensure they are meeting all the requirements for licensure in the new state.

The online MSC/CCMH program is a 60-credit degree that prepares graduates to work as practitioners with diverse clients in various mental health environments, including private practice, hospitals, and public and private mental health agencies.
Students learn the foundations of counseling including theories and their application with groups and individuals; assessment and evaluation; counseling and consultative relationships; career planning; research methods; legal and ethical concerns; trauma and crisis; and program development, implementation, and evaluation. The program addresses critical issues facing clinical mental health counselors and includes supervised practicum and internship experiences where students obtain practical experience prior to graduation. Students in the program must pass the Counselor Preparation Comprehensive Examination (CPCE) as part of the graduation requirements.

Program Mission Statement

The mission of the Master of Science in Counseling Clinical Mental Health program is to prepare confident, competent, and self-reflective clinical mental health counselors with the professional dispositions, and demonstrated knowledge and skills in all of the following areas:

- Professional counseling orientation and ethical practice
- Social and cultural diversity
- Human growth and development
- Career development
- Counseling and helping relationships
- Group counseling and group work
- Assessment and testing
- Research and program evaluation

Furthermore, students who are preparing to specialize as clinical mental health counselors will demonstrate foundational knowledge and skills necessary to address a wide variety of client issues within the context of the clinical mental health counseling practice.

Program Philosophy

Commitment to standards of excellence and a quality curriculum are the core beliefs of the faculty and administration of the online MSC/CCMH program. The program, faculty, and staff respond to community needs by providing a practical course of study and clinical experiences that prepare students to be competent and ethical practitioners. The online MSC/CCMH program provides needed services to the community through partnership with local agencies nationwide who provide clinical placements for our students. The CCMH program also contributes to the community by providing continuing education opportunities to counselors and faculty.

Students are prepared to become counseling professionals committed to the ideals of working
with people in therapeutic relationships. Students find themselves immersed in educational and clinical systems training that provide opportunities to practice a broad range of skills. Exposure to developmental and systemic models, with a balance of theory and practical application, is at the core of the counseling student experience. Additionally, students are introduced to and held responsible for adhering to core values of the counseling profession as contained in the American Counseling Association (ACA) Code of Ethics.

Online MSC/CCMH program faculty provide a collaborative learning environment where students gain understanding and experience in counseling with diverse populations. Faculty members are culturally diverse practitioners who model the behaviors and attitudes fostered by the program.

**Post-Graduate Licensure Requirements**

Our online MSC/CCMH curriculum prepares students for licensure in the states where the program is offered. Licensure requirements are unique to each state. Please refer to [State Licensure Requirements](#) for information about licensure in each state.

To practice as a counselor in most states, a person must be licensed as an LPC (Licensed Professional Counselor), MFT (Marriage and Family Therapist), or other comparable state professional license designation. License requirements vary by state. Students are encouraged to stay updated on the licensure requirements in any state in which they intend to practice.

The Master of Science in Counseling/Clinical Mental Health Counseling program meets the California Licensed Professional Clinical Counselor (LPCC) educational requirements for registration with the Board of Behavioral Sciences (BBS) as an Associate Professional Clinical Counselor (APCC). Upon successful completion of all educational and required postgraduate supervised clinical hours, graduates are eligible to sit for the LPCC licensure exam in California.

**Information About Professional Organizations**

The online MSC/CCMH program promotes and facilitates the development of a strong professional identity between and amongst counselors. Students are encouraged to join and participate in the American Counseling Association (ACA) and its branches and divisions. A benefit of ACA membership is that current students who are members of ACA are eligible to receive free professional liability insurance. Students are required to provide proof of liability insurance prior to entering a practicum or internship course.

The ACA offers counseling resources and serves as a platform for national leadership and
advocacy for the counseling profession. In addition to the parent organization, the ACA includes 19 specialty divisions, four regional groups, and 56 chartered branches in the US, Europe, and Latin America.

State branches of these professional organizations advocate for counselors at the state level and typically provide continuing education opportunities for the counseling community. Students can become involved in their choice of professional affiliation at the national and state levels by attending meetings and conferences, joining committees, offering input, volunteering, submitting manuscripts to journals, and submitting presentations for conferences. Online MSC/CCMH faculty members are actively involved as leaders in their state branches. For additional information about professional organizations, please see the College of Social and Behavioral Sciences resource page.
Section 2: Program and Degree Information

MSC/CCMH – Degree Information

Our students are expected to be dedicated learners who are ready to embrace multiple roles, systems, settings, and situations, diversity, advocacy, and leadership.

The online MSC/CCMH program faculty includes fulltime counselor educators, working practitioners and leaders in the field dedicated to ethical practice in teaching, supervision, research, scholarship, advocacy, clinical practice, service, and leadership.

The online MSC/CCMH program requires professional counseling knowledge and skills development and personal growth and self-reflection, which are carried into supervised clinical experiences. Assessment of knowledge, skills, and dispositions necessary for ethical counseling practice is constantly monitored throughout the program.

Faculty supervision utilizes a decision-making model that supports personal growth and requires self-awareness about ethical issues in establishing and maintaining a therapeutic alliance.

Program Structure

Curriculum, course work, and clinical experience combine to produce theoretical knowledge, critical thinking skills, affective awareness, ethical development, and counseling skills. These outcomes are based upon the highest professional counselor education standards emphasizing programmatic attention to counselor professional identity and ethics, social and cultural diversity, human growth and development, career development, helping relationships, group work, assessment, research, and program evaluation. Outcome-based assessments of core counseling competencies are ongoing throughout the program. For that reason, the practicum/internship courses are completed at the end of the required course sequence. The online MSC/CCMH program length is a 37-month degree including practicum and internship requirements.

Depending on the subject matter and the competencies to be developed, the program utilizes a variety of delivery formats. In all three clinical courses (CCMH/592, CCMH/597A, CCMH/597B), weekly attendance and participation in synchronous group supervision is required. Synchronous supervision is live interaction with the course supervisor and student colleagues. Multimodal delivery methods may also involve, but are not limited to:

- Class lecture
- Assigned readings
- Role-plays
- Small in-class group work
• Class Discussion
• Small group collaborative presentations
• Small group and independent research
• Collaborative exercises
• Access to an electronic chat room to discuss materials with other class members and faculty
• Written assignments
• Quizzes and in-class exams
• Critical thinking activities
• Synchronous individual supervision

There are three required residencies in the online CCMH program. The residencies are two-week courses that prepare students to be recorded and assessed for skills development and mastery. At the end of the first and third, two-week residency courses (CNSL/503R, CNSL/523R) students are required to travel to the Phoenix campus and participate in three days of face-to-face skills practice and assessment. During the three days of the first face-to-face residency (CNSL/503), faculty work intensively with students to role-model and to provide coaching in one-on-one active listening skills. During the three days of the second face-to-face residency (CNSL/523), faculty work intensively with students to role model and provide individualized coaching in group counseling skills. The face-to-face component of the first and third residencies also provides an opportunity for students to interact with each other and with faculty for 72-hours in shared community-building and networking near the beginning and near the end of their academic journey. The second residency (CNSL/513R) is completed in a virtual environment. Each of the three residencies begin with 10 days of classroom-based instruction to prepare students for the final three-days of skills practice and assessment, which includes recording role play interactions, giving presentations, leading and participating as members of groups and meeting with faculty advisors.

Because of the compressed timeframe and therefore intensive nature of graduate courses at University of Phoenix, students are encouraged not to take more than one course at a time (doubling up). In addition to classroom time, out-of-class time is required for homework, project activities, and comprehensive clinical coursework.

Program Student Learning Outcomes (PSLOs)

Program Student Learning Outcomes (PSLOs) are statements that describe the knowledge, skills, or abilities that students will be able to demonstrate upon completion of a specific program of study. Each is intended to describe a skill that can be measured by faculty in multiple ways throughout the program curriculum. PSLOs include:
1. Professional Counseling Orientation and Ethical Practice: Students will develop a professional identity as an advocate and steward for the counseling profession.
2. Social and Cultural Diversity: Students will integrate social and cultural diversity competencies into their practice as a professional counselor.
3. Human and Growth Development: Students will integrate human growth and development theories and principles into their counseling practices.
4. Career Development: Students will integrate career development theories and principles into their counseling practices.
5. Counseling and Helping Relationships: Students will integrate counseling theories, models, and techniques into their counseling practices.
6. Group Counseling and Group Work: Students will integrate group counseling theories and practices into their counseling practices.
7. Assessment and Testing: Students will execute counseling assessment and testing processes and procedures to guide their practice as a clinical mental health counselor.
8. Research and Program Evaluation: Students will evaluate research and programs to inform counseling practice.

**Note:** California residents must complete CCMH/515CA and CCMH/510CA.

**Admission and Matriculation Requirements**

Admission and matriculation into the program require an undergraduate degree from an accredited institution with a GPA of 2.5. After admission to the online MSC/CCMH program, students must maintain a GPA of 3.0 to remain in good standing. Admission and matriculation require successful completion of CCMH/502 (Graduate Portfolio I).

**Program Orientation**

Online MSC/CCMH program candidates and students receive multiple levels of orientation. Students are provided with information on the following:

- Specific information about the program, policies, and requirements
- Counselor identity
- Residency requirements
- Practicum and internship expectations

**Graduate Portfolio I (CCMH/502)**
Graduate Portfolio I, CCMH/502, involves a selection process for entry into the counseling programs. Admission decisions are based on an evaluative process by a selection committee consisting of experienced counseling faculty. Online candidates are introduced to specifics of their program with orientation in the CCMH/502 course. Over the full 6 weeks of CCMH/502, students will be evaluated in basic attending counseling skills, writing skills (paper mechanics and content), and professional behavior. Candidates are evaluated in general for their potential for success in forming interpersonal relationships in small groups and with individuals; their aptitude for study at the graduate school level; and for their overall career goals in relation to the outcome of the program.

Students who do not pass CCMH/502 on the first attempt may reapply in 30 days. A student failing CCMH/502 on the second attempt must wait 6 months before reapplying. Passing Graduate Portfolio I is limited to a total of three attempts.

**Residency Courses (CNSL/503R, CNSL/513R, & CNSL/523R)**

The online MSC/CCMH program requires attendance at three residencies, which include both online and in-person participation. These courses represent a crucial and dynamic face-to-face aspect of this program. Residency I (CNSL/503R) and Residency III (CNSL 523R) are 2 weeks in length with the first week being completed entirely online, and the second week culminating in a 3-day, in-person workshop in Phoenix, AZ, where students demonstrate skills mastery and interact with faculty and peers on Friday, Saturday, and Sunday. Residency II (CNSL/513R) is virtual and utilizes synchronous class activities and supervision through the Collaborate feature in Blackboard® Ultra. Students are required to be online at assigned hours to participate fully in all residency activities.

The residency experiences provide students time to connect in-person with program faculty, collaborate in-person with student colleagues and build a strong learning community, which will help strengthen and maintain motivation for students to continue working toward their degree.

The online MSC/CCMH course sequence is structured to build knowledge and skill foundations as prerequisites leading into each of the three residencies. Each residency is designed to evaluate specific counseling skill sets and counselor professional dispositions. The residencies provide a unique opportunity for online students to receive in-person feedback and coaching from program faculty. Residencies are also an opportunity to develop rapport with both faculty and fellow students and to develop a professional counseling network. Students must earn a passing grade in each residency to move into the next sequence of courses.

Attendance at the Phoenix campus, 3-day in-person portion of Residency I (CNSL/503) and Residency III (CNSL/523) is mandatory. Students are required to be present for the entire 3-day portion of synchronous activities in the virtual Residency II (CNSL/513R) experience. Arriving
late or leaving early will result in not passing the residency course. It is important for students to keep this in mind when making travel arrangements for Residencies I and III and when planning schedules for the virtual Residency II course.

If a student does not pass a residency course on the first attempt, they must wait 3 months before retaking the course and will be required to follow the Supplemental Standards referral process. During this 3-month remediation period, the student will work closely with a faculty advisor on skills or professional dispositions development to prepare for the second attempt. If the student does not pass a residency course on the second attempt, the student will be placed on scholastic suspension.

The residency courses allow students to receive in-person faculty feedback on application of knowledge and skills development near the beginning and the end of the program. The residency courses also ensure students are progressing through their mastery of skills at the pace required for the program. These courses allow students to demonstrate readiness for academic progression while preparing them for careers in the professional counseling field.

The in-person portion of face-to-face residency courses starts at 8:00 a.m. on Friday and concludes at 4:00 p.m. on Sunday, including homework Friday and Saturday nights. This is an intensive 3 days of working on basic individual counseling skills (CNSL/503, Residency I) and in groups, as both group members and group leaders (CNSL/523, Residency III). The virtual format of Residency II has a strict schedule requiring a minimum of 4-hours a day for live synchronous components.

Field Placement Center and event planning staff work with our students to prepare them with necessary information, timelines, and directions pertaining to the residencies. This information includes hotels located near the campus that are partnered with the University of Phoenix to provide necessary services and any additional information related to travel. Lunch and small snacks will be provided to students during the two in-person residencies. Any costs related to travel, lodging, and meals for the in-person residency courses are the sole responsibility of the student and are not covered by financial aid.
Section 3: Student Responsibilities and Expectations

Student Responsibilities

Each student will maintain behavior in accordance with the highest ethical and professional counseling standards as outlined by the American Counseling Association (ACA) and its branches and divisions. In addition to these counseling professional standards, all students at University of Phoenix must adhere to the Student Code of Conduct. Students are expected to conduct themselves ethically, honestly, and with integrity as responsible members of the University’s academic community. This requires the demonstration of mutual respect and civility in academic and professional discourse. Conduct, either on or off-campus that is determined to impair, interfere with, or obstruct the opportunities of others to learn or that disrupts the mission, processes, or orderly functions of the University will be deemed misconduct and shall be subject to appropriate disciplinary action. The Student Code of Conduct and retention (disciplinary) process is in the University of Phoenix Catalog.

Counseling Program Professional Dispositions Assessment Rubric

All counseling students must review and sign the New Student Orientation Agreement during the admissions course, CCMH/502. This fulfills the 2014 ACA Code of Ethics requirement that “counselor educators clearly state to students, before and throughout the training program, the levels of competency expected, appraisal methods, and timing of evaluations for both didactic and clinical competencies” (F.9.a. Evaluation of Students, p. 15). The Agreement also introduces counseling students to the ethical obligation that counselor educators are required to engage in gatekeeping. This duty is defined as “the initial and ongoing academic, skill, and dispositional assessment of students’ competence for professional practice, including remediation and termination as appropriate” (2014 ACA Code of Ethics, Glossary of Terms, p. 19). This objective is achieved, in part, when students are evaluated on professional counselor standards which include knowledge, skills, and professional dispositions.

Counselor education program faculty members utilize the Counseling Program Professional Dispositions rubric below to systematically assess each student during their entire program of study in the following courses: CCMH/502; CCMH/510; CNSL/503R; CCMH/551; CNSL/513R; CCMH/565; CNSL/523R; CCMH/592; CCMH/597A & CCMH/597B.

The seven program professional dispositions are derived from the 18 University Professional Dispositions utilized in the Supplemental Standards process detailed below. If a student demonstrates behaviors that fall below these seven program professional dispositions, program faculty will file a Supplemental Standards referral.
Note: Students violating client confidentiality, other ethical standards, and behavioral standards per the Student Code of Conduct and the Supplemental Standards (that follow), may be withdrawn from the program.

Supplemental Standards for Candidates in Counseling

As prospective counselors within the College of Social and Behavioral Sciences, candidates in the online MSC/CCMH program are expected to represent the University as professionals and adhere to the ethics and standards of their profession as well as the University’s Student Code of Conduct.

The following University Supplemental and Professional Standards for candidates in all College of Social and Behavioral Sciences programs apply to online MSC/CCMH degree candidates from their first course (CCMH/502, Graduate Portfolio I) through their practicum (CCMH/592), and internships, (CCMH/597A & CCMH/597B). The University Supplemental Standards address a candidate’s affective attributes and dispositions to be a counselor. A candidate’s ability to satisfactorily meet the Supplemental and Professional Standards is a matter of ongoing judgment made by online MSC/CCMH program faculty.

Candidates in programs leading to certification or licensure are subject to greater scrutiny because of their anticipated entry into a licensed profession. Additionally, candidates who will be interacting with members of the community, i.e., students, patients, families, clients, participate in external activities as part of their academic program and are expected to represent the University as professionals and adhere to the ethics and standards of their profession, irrespective of where these activities occur.

In addition to being subject to the Student Code of Conduct, candidates are also expected to follow the Supplemental and Professional Standards for their respective program (“Standards”), as both address a candidate’s affective attributes and disposition to be in the selected chosen profession. Adherence to these standards includes off-site activities and locations when the candidate’s behavior affects the reputation of the University and/or the integrity of the program.

Definitions

Academic Judgment: The College’s assessment of whether the candidate’s behavior demonstrates the attributes and disposition to be in the selected chosen profession.

Candidate: Any student in a licensure or certification program or a program that has anticipated interactions with members of the community.

Off-Site Activities: Field Placement, Clinical, Rotation, Practicum, Internship, Preceptorship, or any other activity that is required as part of the candidate’s program at a location other than the classroom.
Referral: Notice to the College that a candidate may be in violation of one or more of these standards.

Remediation Plan: The method the College uses to remediate the candidate to return to the program, if possible.

Supplemental Standards

1. The candidate is sensitive to community and cultural norms that pertain to the University classroom and off-site activities and locations.

2. The candidate contributes to a positive climate in the University classroom and all off-site activities and locations.

3. The candidate adheres to college, clinical, and agency site policies and procedures.

4. The candidate participates in off-site activities consistent with their respective professional practice, including satisfactory performance of all required skills specified.

5. The candidate maintains all state-mandated eligibility requirements for certification for placement and/or licensure.

6. The candidate only engages in practice for which they have been authorized or for which they have been educated/validated.

7. The candidate appreciates and values human diversity and shows respect for others’ varied talents and perspectives.

8. The candidate values the development of critical thinking, independent problem solving, and performance capabilities in themself and those with whom they interact.

9. The candidate demonstrates mastery of written and spoken language for self-expression, as well as for effective interaction in all settings.

10. The candidate is committed to reflection and assessment and is open to receiving feedback.

11. The candidate is willing to give and receive help.

12. The candidate is a thoughtful and responsive listener.

13. The candidate maintains a pattern of meeting requirements in courses and external placements.

14. The candidate demonstrates a commitment to keeping abreast of new technology, ideas and understanding in their chosen field.

15. The candidate demonstrates a level of responsibility and ethical judgment appropriate for a professional.

16. The candidate is responsible for personal transportation to and from off-site activities.

17. The candidate maintains professionalism and confidentiality in virtual settings.
18. The candidate is committed to establishing a safe and supportive environment.

**College of Social and Behavioral Sciences: Counseling**

Candidates in counseling programs are required to follow guidelines outlined in the [American Counselors Association (ACA) Code of Ethics](https://www.aca.net/Code_of_Ethics). 

**Supplemental and Professional Standards Referral Process & Procedure**

Upon notice that a candidate may not be meeting one or more of the Standards, the College will review the information, the candidate’s history, and any additional information that will assist in appropriately addressing the issue(s) presented. If the respective College determines that a candidate may not be meeting one or more of the Standards, they may file a Referral.

Referrals provide the College the opportunity to review the candidate’s behavior and determine whether counseling, remediation, or withdrawal from the program is appropriate. The process is designed to be remedial in nature, as the goal is for candidates to understand what is expected of them to be successful in their profession.

If at any time during the process the candidate fails to meaningfully participate, the College may recommend the student be withdrawn from the program. Program withdrawals must be approved by the College Dean.

Candidates are not permitted to have representation by an attorney or any other third party at any time during the process.

This process is separate from the Student Code of Conduct disciplinary process, but they may run concurrently. Candidates charged with violating the Student Code of Conduct are subject to the policies, procedures, and sanctions under that policy *in addition to* these standards.

A Student Code of Conduct charge may be the basis for a Referral if the underlying incident indicates these Standards have not been met. Similarly, a Referral may be the basis for a Student Code of Conduct charge.

Candidates are not subject to expulsion for a Standards violation, only for a violation of the Student Code of Conduct if found responsible.

**Notice of Referral**

1. Once the College determines a Referral should proceed, the candidate will be provided a Letter of Referral identifying the applicable Standards and the student’s deficiencies in meeting them.

2. Candidates have ten (10) calendar days from the date of receipt to provide a written response to the College. Candidates are required to respond to the Letter of Referral.
a. Failure to respond may result in the candidate being indefinitely suspended at the conclusion of the current course or immediately if not currently enrolled.

3. The candidate is required to meet with the College for the purpose of discussing the Referral and, if necessary, developing a Remediation Plan to correct identified deficiencies.

4. If a candidate fails to meet with the College within thirty (30) calendar days of the date of receipt of the Letter of Referral, the candidate will be suspended at the conclusion of the current course or immediately if the candidate is not currently enrolled. The candidate will remain suspended indefinitely until the Referral is resolved.

**Remediation Plan**

In the event a candidate is placed on a Remediation Plan, they will be provided with a written copy. The Remediation Plan includes what is required of the candidate and the allotted timeframe for completion. The College has final authority over the terms of the Remediation Plan, which includes the following:

1. The candidate is expected to maintain regular contact with the College regarding their progress, including any barriers to completion.

2. The candidate must complete the Remediation Plan requirements in the time prescribed and submit documentation of completion to the College for review.

3. After review of the documentation by the College, the candidate will be notified in writing whether the Remediation Plan was successfully completed.

4. If a candidate does not successfully complete the Remediation Plan, the candidate will be suspended at the conclusion of their current course or immediately if not currently enrolled. Non-completion may also result in an additional Referral.

   a. A student suspended for failure to complete the Remediation Plan will be reinstated upon successful completion of the Remediation Plan.

**Retention Committee**

For candidates with more than one Referral or who engage in serious misconduct, the College may refer students to a Retention Committee. Any candidate with a history of more than two Referrals may be automatically referred to a Retention Committee. The process includes the following:

1. Candidates will be notified in writing of the convening of a Retention Committee and potential outcomes.

2. Candidates have ten (10) calendar days from the date of notice to provide a written response.

   a. Failure to respond may result in the candidate being suspended at the conclusion of the current course or immediately if not currently enrolled. A candidate suspended solely for failure to respond will remain suspended until the candidate’s response is received and the student has met with the Retention Committee.

   b. The candidate will be notified in writing of the decision of the Retention Committee, including any right of appeal.
3. Failure by the candidate to meet with the Retention Committee within thirty (30) calendar days following receipt of the notification will result in the candidate being suspended indefinitely at the conclusion of the current course or immediately if not currently enrolled. A candidate suspended solely for failure to meet with the Retention Committee will be reinstated upon meeting with the Retention Committee.

4. The Retention Committee is comprised of one member of College leadership and two (2) faculty members within the candidate’s College.

5. The candidate has the opportunity to address the Retention Committee and is expected to provide insight regarding the Referral. The Retention Committee and the candidate will address the issues that appear to be hindering the candidate’s academic progress and possible solutions. The Retention Committee will determine whether a Remediation Plan or withdrawal from the program is necessary.

6. After meeting with the candidate, the Retention Committee will deliberate and make one of the following decisions:
   a. Take no action;
   b. Institute a Remediation Plan; or
   c. Withdraw the candidate from the program.

Decision

The candidate will be notified in writing within seven business days of the Retention Committee’s decision and information on the appeal process if applicable. Any decision by the Retention Committee is part of the candidate’s record and may be taken into consideration should the candidate receive any future referral. The following further explains the Committee’s decision:

1. **Take No Action**
   a. No further action steps are necessary by the candidate.
   
   b. A decision to take no action is final and cannot be appealed.

2. **Institute a Remediation Plan**
   a. A Remediation Plan will be instituted according to the above-titled section.
   
   b. A decision to institute a Remediation Plan is final and cannot be appealed.

3. **Withdraw the Candidate from the Program**
   a. Upon a decision that the candidate be withdrawn from the program, the candidate will be scholastically suspended.
   
   b. A summary report, generally containing findings and recommendations, will be forwarded to the College Dean, who has the ultimate authority to accept, reject, or modify the recommendation of the Retention Committee and render a final decision.
   
   c. The candidate has the right to appeal a final program withdrawal to the Central Administration Appeals Committee (CAAC).
      i. The candidate must file a written statement within ten (10) calendar days of receipt of the decision. The notification will provide the student with information on submitting such appeal.
ii. If no appeal is filed within ten (10) calendar days of receipt of the decision, the program withdrawal is final, and the student will remain scholastically suspended.

d. Central Administration Appeals Committee details:
   i. The CAAC is comprised of three senior University representatives, at least one of which is from the appropriate College.
   ii. The CAAC reviews information provided by the College, including any information considered by the Retention Committee and the candidate's written appeal.
   iii. The CAAC will make one of the following decisions:
       a. Uphold the program withdrawal.
       b. Reverse the withdrawal and reinstate the candidate back into the program and remediate, if applicable.
   iv. The student will be notified in writing of the CAAC's decision.
   v. The decision of the CAAC is final.

Academic Appeal Policies

In addition to the appeal policy detailed above in the Supplemental and Professional Standards process, the University has established specific processes for students to submit grievances for violations or misapplication of a current policy, procedure, or established practice. Except as otherwise provided, students should first attempt to informally resolve their concerns with the department representative(s) involved or a supervisor. If the issue cannot be resolved through informal means, the student may file a formal grievance in writing with Resolution Services for an impartial evaluation. For additional information please refer to the Academic Catalog.

The University has also established student appeals process for exceptions to academic policies through the Student Appeals Center (SAC). Exceptions may be granted based upon academic rationale and the student's individual circumstances. Students must provide the reason(s) why an exception should be granted, refer to each specific policy being appealed, and provide all relevant supporting documentation. The SAC determines the eligibility of the request and whether it will go forward. If a student's initial SAC appeal is denied that decision may be reviewed by a SAC 2nd Level Committee if the student provides new information not previously considered. SAC decisions are ineligible for appeal through any other entity within University of Phoenix.

Collaboration at University of Phoenix

Collaboration stimulates creativity, speeds innovation, and makes students valuable to employers who expect students to be able to work effectively with teammates/colleagues. Throughout the program students function within a team as both a leader and a team member. Students will embrace diversity, treat others with respect, and work with classmates to develop more powerful ideas collaboratively than they might have on their own.

Through active collaboration, students will gain valuable experience and insight from people
around them who will challenge them to grow as an individual and as a team member. This concept is vital in the field of professional counseling, where collaboration is the expected standard.

**Standards for Collaborative Teamwork**

1. Members develop perspective and goals for the group.
2. Members develop effective work plans, meeting schedules, and assignments.
3. Members are clear about goals for work products.
4. Members develop and agree upon standards of group member performance.
5. Members effectively manage conflict and resolve problems within the group.
6. Members share workload equally.
7. Members build consensus and effectively share in decision making.
8. Products of the group process (oral presentations, papers) are cohesive and present the image of a single product, rather than a collection of individual products.
9. Tasks are completed on time and meet established requirements.

**Class Participation Guidelines**

Grading the student, both individually and as a group member, is a complex task for the faculty member. The philosophy of the University of Phoenix is to encourage active student participation each week to augment the learning; thus, faculty members must be able to grade participation objectively and subjectively.

Part of the student’s grade is derived from class participation or is a factor in collaborative assignments. Outlined below is a suggested class participation guide.

1. In class participation the student:
   - Contributes to group discussion frequently
   - Chooses topics relevant to the topic being presented in class at that time
   - Is interested in class and faculty discussion
   - Actively listens to others
   - Leads group discussion
   - Serves as group spokesperson
   - Relates theory to practice in group discussion
   - Asks questions
   - Is prepared for group discussion
   - Enhances the group presentation

2. In class involvement, the student:
   - Arrives prepared to each class
   - Shows interest in faculty and class discussion
   - Asks pertinent questions in class
   - Relates theory to practice
   - Contributes to class discussion frequently
   - Does not dominate or monopolize group discussions
Tries to involve classmates in discussions

University of Phoenix Approved Writing Style Guide

The University of Phoenix-approved writing style guide is the *Publication Manual of the American Psychological Association, Seventh Edition*. As a suggestion, purchase the manual before the first course of the program as it will be useful throughout your program. In the University of Phoenix Course Materials, this book is referred to as both the *APA Manual* and the *University of Phoenix Approved Style Guide*. **Students are expected to have well-developed writing skills appropriate for graduate level work and to understand APA writing style format to be accepted into the program.** Graduate school requires a good deal of writing in each class. Further, it is a professional expectation in counseling.

The APA manual contains specifications for researching, writing, documenting, and formatting typewritten work. The nature of each assignment will dictate which section of the manual is useful. For example, students might consult the manual to determine how to outline a five-page paper, create citations, and format the paper (including title page and reference page). The [Center for Writing Excellence](#) provides a tutorial on APA style for students and faculty.

Academic Graduation Requirements

1. **Counselor Preparation Comprehensive Examination (CPCE)**

   Students in the online MSC/CCMH program must take and pass the Counselor Preparation comprehensive Examination (CPCE). Students must pass the CPCE with the minimum score. The CPCE is an exit exam and preparatory for the National Counselor Examination (NCE) and/or the National Clinical Mental Health Counseling Examination (NCMHCE), one or both of which are required for licensure in all states, and which address the core areas of competency. Counseling programs at the University of Phoenix prepare students to sit for the exams. Students are eligible to take the CPCE after completing all prerequisite coursework leading into practicum and internships.

2. **Grade Requirements**

   All courses require a grade of “B-” or better. Any grade below a grade of “B-”, an In Progress (IP) grade, or an Incomplete grade (“I”), do not meet academic progression requirements for the program. Students who receive one of these grades may not enroll in any additional coursework until a grade of “B-” or better is awarded. MSC students will be placed on Scholastic Disqualification if a “B-” or better is not earned.

Section 4: Field Experience/Clinical Placements

**Field Experience/Clinical Placements**

Students receive a pre-practicum/clinical placement orientation during the second Residency
Prior to entering the clinical courses sequence, students will review practicum/internship information in the program handbook about practicum and internship training, requirements, forms, and processes for working with the Field Placement Center team and faculty Clinical Coordinator to secure a field placement site.

Practicum and Internship courses are supervised clinical experiences that provide opportunities for students to counsel clients in community settings. Practicum is a highly supervised opportunity for students to begin working in a clinical environment. Students do not begin Practicum and Internship until the last year of their studies after fulfilling all requirements for clinical placement.

Practicum and Internship courses include opportunities for students to work with diverse populations in multiple modalities. The clinical placement courses represent continued experiential training and 700 total hours of documented direct and indirect clinical work. Site Supervisor Evaluations of student performance assist in determining areas of focused training completed during clinical courses. Students also have an opportunity to evaluate both their site and site supervisors.

**Eligibility**

To be eligible for practicum/internship, students must have fulfilled the appropriate course prerequisites. If you have questions, contact your Academic Counselor.

Students must also be enrolled in a practicum/internship course before clinical placement activities can begin. Course numbers by program are as follows:

- CCMH/592: Practicum in Clinical Mental Health Counseling
- CCMH/597A: Internship A
- CCMH/597B: Internship B

**Practicum CCMH/592**

This is a course that focuses on the assessment and continuing development of counseling and clinical documentation skills. Students have a variety of opportunities to receive feedback and to evaluate their ability to integrate theory into practice. Students determine their styles and strengths as professional counseling practitioners, as well as identify areas needing further development. Individualized practice sessions, case management skills, and feedback are designed into the course. Students must complete 100 total hours, including 40 direct service hours, and are required to complete the course over a 10-week period.

**Internship CCMH/597A & CCMH/597B**

The Internship is a clinical experience required of all MSC/CCMH students. The internship is divided into two courses, each lasting 15 weeks. Students research and apply to community agencies where they will provide clinical counseling to clients under the direction of an
approved licensed site supervisor. Internships are divided into two 300-hour sections, totaling 600 hours. 240 of the 600 required hours must be direct client contact.

**Professional Liability Insurance**

Students are required to obtain Professional Liability Insurance prior to direct client contact in clinical courses. Students must provide proof of insurance with a Certificate of Insurance in their name at the first clinical placement course workshop (Week 1). Student membership in the American Counseling Association (ACA) will provide the opportunity to obtain Professional Liability insurance at no cost as part of membership benefits.

**Site Placement**

The University enters into contractual agreements with clinical placement sites. These agreements clarify expectations and seek to ensure students have a rich clinical training and supervision experience.

*Students must select a clinical placement with one of the approved, contracted sites on record.* The list of approved sites is made available to students six months prior to Practicum (CCMH/592).

Students are encouraged to make careful decisions regarding the selection of clinical placement sites. Students are required to secure their own clinical placement site selected from the list of approved sites. Work and home schedules may require adjustment to work effectively with the site requirements and meet the clinical service hour requirements for each course and for licensure.

**Responsibilities and Expectations for Clinical Placements**

It is every student's personal responsibility to apply, present professionally, submit a cover letter and resume, and interview for the position at the selected agency (if an interview is required by the agency). There may be additional requirements such as background checks, fingerprinting, or specific health requirements required at the selected site. We recommend that students consider a variety of sites to ensure timely placement and to receive a wide range of experience. Upon being offered a practicum or internship position, submit paperwork required by the campus, which includes the signed Supervision Contract from the site supervisor.

Students are expected to perform the agreed upon duties while supervised by the site supervisor and practicum/internship instructor. Students are expected to be on time and always demonstrate professional and ethical behaviors. Students are required to attend supervision on site as well as in weekly practicum/internship classes. Students are required to submit an up-to-date weekly log of their practicum/internship activities to their site supervisor and course faculty member for a signature. Signed weekly logs are uploaded to TK20 in Blackboard Ultra.
**Group Supervision**

Students are required to attend group supervision meetings with the practicum/internship course faculty supervisors. Attendance and participation in 1.5 hours of weekly, synchronous group supervision is a mandatory requirement for all field experience students. If a student misses more than one supervision meeting during the course, he or she will be required to retake the course. Arriving habitually late is not viewed as professional behavior and may impact your grade. Being more than 15 minutes late will result in an absence. To facilitate full attention and active participation, students are required to be in a confidential setting during group supervision. Supervision hours are documented in course weekly time logs as indirect hours.

**Safety Policies and Procedures for Home Visits**

If services are to be provided at a client’s home instead of at an agency’s location, clinic, hospital, or care facility, the agency agrees to implement formal policies and procedures to protect the safety of the student’s educational experience. These policies include student training on safety protocols, check-in and check-out procedures, client screening processes, permission to use mobile phones, and the accompaniment of an agency supervisor to all in-home service sessions. Under NO circumstances should students provide in-home services without an agency supervisor being physically present. Before starting any agency-related assignments or home visits, the agency must provide written policies and procedures on safety protocols. Students must also sign a statement acknowledging that they’ve received a copy of the agency’s written policies and procedures as well as notice of the applicable training that will be provided to the supervising University faculty member. The agency is responsible for any claims or damages brought by any student, client, or third party arising out of in-home service care. Additional information is provided in the agency Affiliation Agreement.

Additionally, students are required to fulfill all agreements with the placement site and are not allowed to leave the site until the internship course is complete even if they have completed their hours.

**Practicum/Internship Hours Carryover Policy**

Hours acquired during practicum (CCMH/592) are contained within the practicum course and cannot be carried over into internship A (CCMH/597A). Students who are deficient less than 50 hours in the Practicum course will be allowed to progress into their internship courses with an IP grade but will not be able to accrue internship hours until their practicum requirements have been satisfied. Students will be required to complete the *Summary of Service* form and have it approved by their faculty member. This form will be submitted to the internship faculty member.
Students who do not acquire at least 50 hours in the practicum course will be required to re-take the course.

Hours acquired in Internship A (CCMH/597A) may be shared with internship B (CCMH/597B). Up to 20% of additional or deficit direct hours acquired in Internship A may be carried over to Internship B. Internship A requires 120 direct hours, therefore a student having 96 hours or more in internship A is able to pass to internship B and make up the extra hours in Internship B. Likewise, a student with up to 24 additional direct hours may carry those forward and count them as already completed in internship B. This requires: 1) the University supervisor to consult with the site supervisor to verify the student’s skills are progressing adequately; 2) if the university supervisor then determines that it is appropriate to allow the student to carry forward hours (either extra or deficit), then; 3) the student completes the Summary of Service form and sends it to the Field Placement coordinator; 4) the Field Placement Coordinator uploads the form from TK20; 5) the student will be responsible for uploading the Summary of Service form in TK20, verified by the course facilitator.

Students who choose to take a leave of absence from the program are not eligible to continue in clinical placement accruing hours.

**Paid Practicum/Internship Policy**

Paid practicum/internships are allowed. If student’s complete practicum/internship hours at their place of employment, they must be supervised by someone other than their employer supervisor; they must complete their hours doing something unrelated to their employment duties and they may not complete practicum/internship hours during their regular hours of employment. For example, if a student’s regular work hours are 8 a.m. to 5 p.m., they may complete required practicum/internship hours between 6 a.m. and 8 a.m. or between 5 p.m. and 9 p.m.
Section 5: Faculty

Faculty Overview
Faculty members for the online MSC/CCMH program are leaders in the local counseling community. Faculty have distinguished themselves through education, scholarship, leadership, effective practice, and professional service.

Relationships Between Students and Faculty
Faculty and students follow ACA Ethical Code guidelines regarding unacceptable relationships (ACA, 2014, F.10.a-e) and potentially beneficial relationships (ACA, 2014, F.10.f).

Faculty Advisors
The online MSC/CCMH degree program provides faculty advising for counseling students. Faculty advisors help students with their graduate program by providing support for student learning. Faculty advisors serve as mentors, encourage and assist in the development of a professional counseling identity and promote student specific professional career goals and development. Faculty advisors help track student progress through the entire program and offer professional guidance to students as they navigate graduate school challenges. Faculty advisors will also communicate about opportunities for participation in professional organizations and conferences, as well as counselor-related research.
Section 6: Resources

Procedures for Disseminating Information

It is important that students are aware of programmatic changes, current professional and academic events and learning opportunities. Students receive information through mass emails, faculty announcements in class, and in the electronic forums/Blackboard Classroom.

Professional Affiliations

Students are encouraged to join the American Counseling Association (ACA). In addition, students are encouraged to participate by attending meetings, volunteering time and services, submitting manuscripts for publication, attending conferences, and speaking at conferences.

Online Resources

The CCMH program offers several online resources to facilitate learning and development of core competencies. The University of Phoenix classroom includes student textbooks in electronic format, an extensive online library (the University Library) with multiple databases, information about the local campus, access online support, and links to assistance with educational tasks (such as writing, researching, and subject tutoring). Students will access the University of Phoenix classroom throughout their program.

Endorsements

Students may submit any requests for program endorsements related to credentialing and employment through the Field Placement Team, who will evaluate and provide such endorsement in consultation with Accreditation and Regulatory Compliance (ARC) administrative faculty and with approval and signature of the Academic Director of Counseling. Faculty may provide personal references for students, with appropriate consideration as to their knowledge of the student's progress in the program, the program the student attended, and the faculty members’ area of expertise within the scope of program instruction.

Student Counseling Services

Although it is not the policy of this University to require personal or career counseling as a program requirement, the University of Phoenix recognizes personal issues can impede academic and clinical functioning because of the professional development that takes place within courses and training. Undergoing counseling as a personal growth opportunity, as well as having the experience of being a client, can be cathartic, and is generally a healthy approach to maintaining mental wellness. It is strongly recommended for all counseling professionals.

Information on counseling services is available in the Life Resource Center accessible through the student website. Students also have access to Career Services for Life® until they retire.
These services include career coaching, resume building templates, and access to job boards. Links to counseling services and Career Services for Life® can be found by students in the Virtual Student Union (VSU). The VSU is a centralized hub for student resources located on the student’s homepage of their student portal.

**Disability Services**

University of Phoenix recognizes and accepts the obligations under the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA), and the ADA Amendments Act of 2008, prohibiting discrimination on the basis of disability and requiring institutions of postsecondary education to provide reasonable accommodations to qualified individuals with a disability in all programs, activities, and employment.

In order for the University to provide eligible students with a disability with reasonable accommodations, the student must submit an official request for services to a disability services advisor. All students seeking accommodations must contact their disability services advisor in order to begin the self-disclosure and accommodation process. University of Phoenix Disability Services Office is available to assist employees and faculty members with disabilities who request accommodations and can be found at the University of Phoenix Disability Services site.
