

## UNIVERSITY OF PHOENIX

### Closure of Campuses and Service Centers Extended... Again

April 17, 2020

Dear Campus-based Students,

I hope you and your loved ones are healthy and safe during this difficult time. As you know, the COVID-19 pandemic persists, and state and municipal leaders continue to invoke and extend shelter-in-place rules due to the spread of the virus. While there is talk of soon being able to return to some of our usual activities, there is no definitive timeline as of yet. Therefore, we have made the decision to extend the **temporary** closure of ALL of our campuses and service centers through **June 14, 2020**.

As stated in previous communications, the University is **fully open** and continues to serve our entire student body. Campus-based students will continue studies via the Blackboard Collaborate virtual learning environment, and our online students will continue as normal. Students who are in the virtual environment, prior to re-opening the campus, will continue in that environment until their next class start date. Additionally, you will continue to receive services through our electronic library, be able to connect with student support services for academic and finance advising, and access technical support. We are committed to supporting you every step of the way on your educational journey with University of Phoenix.

Please remember that our Academic Counselors, faculty and others are here to answer any questions or concerns you may have, so that you can continue working toward your academic goals while completing coursework.

The University will continue to evaluate official guidance as to the status of the pandemic in the communities where we service our students. We will work to keep you apprised of current information and any changes to this timing. We thank you for your understanding and support through this process.

For the latest information concerning the University's response to the COVID-19 pandemic, please visit our microsite at [www.phoenix.edu/COVID19](http://www.phoenix.edu/COVID19).

Stay well!

Raghu Krishnaiah  
Chief Operating Officer
