Earn your MBA. Specialize it in Project Management.

Project managers help keep jobs on track, communicate to all parties and understand what needs to happen for a project to be done well. Prepare for a career in project management or enhance your existing project management skills with our ACBSP-accredited MBA with a concentration in Project Management.

In this MBA with a concentration in Project Management program, you'll study:

- Project management concepts and applications
- The five processes that define project management
- Collaborative project planning
- Risk management
- Organizational leadership

This master's degree program features a certificate option which allows you to take core courses at the beginning of your degree program. The certificate you earn will be an additional credential, helping you move toward your career goals even before you graduate.

What sets us apart?

When you choose our Master of Business Administration with a concentration in Project Management (Certificate Track) degree program, you can:

Prepare for exams

Coursework in this program is aligned with the Project Management Institute (PMI®) and Project Management Body of Knowledge (PMBOK®) standards. It educationally prepares you to sit for the Project Management Professional (PMP®) certification exam.

Finish your degree faster

You may be closer to a degree than you think. Transfer eligible prior college credits or apply to have relevant work experience evaluated for potential credit.

Trust our accreditation

The MBA degree is evaluated regularly by the ACBSP, ensuring the quality of your education.
