- HSNCB/376: Health Information Technology for Nursing
- NSGCB/451: Professional Nursing Leadership Perspectives
- NSGCB/456: Research Outcomes Management for the Practicing Nurse
- NSGCB/426: Integrity in Practice: Ethic and Legal Considerations
- NSGCB/486: Public Health: Health Promotion and Disease Prevention
- NSGCB/468: Influencing Quality within Healthcare
- NSGCB/482: Promoting Healthy Communities
- NSGCB/498: Senior Leadership Practicum

- An Associate of Arts Degree in Nursing, Associate of Applied Arts Degree with an emphasis in Nursing, an Associate of Science Degree with an emphasis in Nursing, or an Associate of Applied Science Degree with an emphasis in Nursing from an accredited college or university.
- Students must have a valid, unrestricted/unencumbered RN license.
- A minimum equivalent of one year of full-time post high school clinical-based RN work experience within the past five years. (Full-time work is defined as 32 hours per week for the BSN-CB program.)

Schedule

Your academic counselor will help schedule your courses for a Registered Nurse (RN) to Bachelor of Science in Nursing (Competency-Based).

What you’ll learn

When you earn your online Registered Nurse (RN) to Bachelor of Science in Nursing (Competency-Based), you’ll be equipped with a concrete set of skills you can apply on the job.

You’ll learn how to:
Demonstrate evidence-based holistic patient-centered care that reflects knowledge of the health-illness continuum.

Implement appropriate health promotion and disease prevention strategies for diverse individuals, families and populations across the life span.

Demonstrate professional standards of moral, ethical, and legal conduct in health care industry.

Apply leadership and organizational principles that promote safe health care delivery and nursing practice.

Incorporate strategies that influence health policy at state, national, and international levels for the provision of safe, quality patient care.

Integrate patient care communication and information technology systems in health care delivery to improve patient outcomes.

Utilize interprofessional care coordination strategies to promote quality patient care.

Current RN license required.

*While widely available, not all programs are available to residents of all states. Please check with a University Enrollment Representative.
