Show educators how to do IT

Technology by itself doesn't improve learning. Teachers need qualified professionals to show them how to use it effectively. With our Post Master's Certificate in Educational Technology (CERT/D-ET), that professional could be you. Gain the skills to help students achieve more through technology. Credits earned in the CERT/D-ET program are transferable toward our Doctor of Education with a focus in Educational Technology. The CERT/D-ET does not lead to teacher licensure or any other professional licensure certification.

You'll learn how to:

- Implement technology into culturally diverse classrooms.
- Design, develop and implement technology to enhance learning.
- Support the educational process through technological innovation.

What sets us apart?

When you choose our Post Master's Certificate in Educational Technology, you can:

Lock in your tuition

We promise you'll keep the same affordable tuition until you complete your certificate program. Count on your tuition to be as dependable as your education.

Learn on your schedule

Designed to fit into the lives of busy working adults, our Post Master's Certificate in Educational Technology can be completed one course at a time.

Gain real-world insights

Our instructors work in the fields they teach. So you won't just learn how to impact education — you'll actually see how it's done.
