## Graduate Business Analytics Certificate

Businesses can't use data unless they have qualified professionals to read and interpret it. That's where you come in. Our Graduate Business Analytics Certificate equips you with the skills to identify meaningful patterns in data and use those patterns to measure an organization's performance. And since courses are just 6 weeks long, they won't get in the way of your busy life.

### You'll learn how to:

- Develop and plan for the maintenance of databases
- Retrieve and analyze data using appropriate statistical operations

## Possible career outcomes for graduates of this program
